## **The Antichrist & The False Prophet**

Here they are together as partners in crime at one of their yearly audiences held at the Vatican! Such a pair of deceivers and endowed with such Satanic powers. The perfect picture of Satan’s last hurrah! The world is currently getting a foretaste of what is in store for the world under their formal reign of just seven years, and not one day longer!

In Revelation 16:13; 19:20; and 20:10, the beast from the earth is called **“the false prophet.”** The dragon or Satan is the counterfeit Father **“I will be like the Most High”**, -(Isaiah 14:14); **“the beast”** is the counterfeit Christ, and **“the false prophet”** is the counterfeit Holy Spirit. This completes the satanic trinity.

The **“false prophet”** will look Christ like, but he will speak falsely. He will sound religious and helpful, but he will not serve be serving Christ. He has another agenda.

The lightning strike on the Vatican recalls the “*bolt out of the blue*” that hit St. Peter’s on February 11, 2013 — the feast of Our Lady of Lourdes — just hours after Pope Benedict XVI shocked the Vatican with his announcement to resign the papal office. Lightning in the Bible is symbolic of Heavenly judgment more than a dozen times; and given the ‘when’ and ‘where’ under the circumstances suggest maybe it is a Divine warning! What has occurred in the Vatican since is clearly the Spirit of the Antichrist System. Jesuit Pope Francis is mocking the Lord exactly as Scripture implies.

The reader is reminded that Bible prophecy is “History told in advance”, and what that means there is nothing that any of us can do to change events or the course of history. God is fully aware of what is happening in the world and we are to occupy until He returns. In essence, what is currently happening is already baked into the cake of history. The Word of God is our confirmation that Jesus Christ has everything under His control. This all must play out just as the Bible describes it, but in somewhat of a condensed form. God’s Word reveals enough to confirm that He reveals the end from the beginning. **“Declaring the end from the beginning, and from ancient times the things that are not yet done, saying, My counsel shall stand, and I will do all my pleasure:”** -(Isaiah 46:10) When you put your faith in God’s Word, all fear should dissipate like pixie dust!

As the first beast came from across the sea (hence appearing to come “out of the sea”), the second beast rose within Asia Minor itself. In any case, the evil triumvirate is now complete. Actually, his nationality and geographic origin are not indicated, and he is apparently the one referred to as **“the false prophet”** in 19:20 and 20:10. The image of the horns -(Revelation 13:11) suggests that the false prophet has authority, but the absence of a crown indicates that his authority is not political.

The coupling of Christ like appearance and Satanic message, the status of prophet, the concern with worship, and the appeal to the magical, all add up to one thing: false religion and Pope Francis meets such characteristics. The relationships between man and man, and between man and God, are both provided for in the divine plan. The

beast from the sea is Satan's perversion of society, the first; and the beast from the earth is his perversion of Christianity, the second. He represents 1.36 billion or about 23% of the world population. His goal is to unify 8 billion people into the false religious system of "Chrislam" that began shortly after Pope Francis was selected by Satanic powers!

2. He promotes the worship of the Antichrist -(Revelation 13:12)

***"He exercises all the authority of the first beast on his behalf and compels the earth and those who live on it to worship the first beast, whose fatal wound was healed."*** -(Revelation 13:12)

The False Prophet and his relationship to Antichrist mirror the Holy Spirit and His relationship to Jesus Christ. Just as the Holy Spirit lifts up Jesus, the False Prophet lifts up Antichrist. The Holy Spirit promotes the worship of Jesus. The False Prophet promotes the worship of Antichrist.

**3½ Years occurs 5X's in Revelation!**

**Don't be Confused!**

Its all the same amount of time expressed in different ways!

**3½ Years = 42 Months = 1,260 Days = Time Times & ½ a Time.**

RevelationScriptures.com

The political ruler, the beast from the sea, known as The Antichrist will speak blasphemies for ***"forty-two months"*** and ***"make war against the saints."*** In essence, Antichrist will focus on attacking God's children. While the false prophet, who comes up from the earth, seeks to deceive the earth so that its inhabitants worship Antichrist. The False Prophet will use propaganda to deceive the whole world. His focus is not on the Christians, but on the world population.

3. He develops a ministry of religious deception -(Revelation 13:13)

***“He also performs great signs, even causing fire to come down from heaven to earth in front of people.”*** -(Revelation 13:13)

Many times, when people called upon God, fire came down from Heaven. Fire came down from Heaven against Sodom and Gomorrah -(Genesis 19:24). Elijah called fire from Heaven -(1<sup>st</sup> Kings 18:28). David called fire from heaven in an offering -(1<sup>st</sup> Chronicles 21:26), as did Solomon -(2<sup>nd</sup> Chronicles 7:1).

In this case, this fire from heaven will be used to promote a new religious belief in Antichrist. The works of the False Prophet will be based on a ministry of religious deception. The False Prophet is a servant to Antichrist. Yet, he is the “Secretary of State” who implements or institutionalizes the dragon’s evil vision. He represents 1.36 billion Catholics, but claims authority over all Christianity. His real agenda is global authority of all religious persuasions and whenever he appears with world religious leaders, he is front and center in the photo-ops.

4. He deceives people to follow Antichrist -(Revelation 13:14)

***“He deceives those who live on the earth because of the signs that he is permitted to perform on behalf of the beast, telling those who live on the earth to make an image of the beast who had the sword wound and yet lived.”*** (Revelation 13:14,)

Instead of listening to the Word of God, the False Prophet will get people to make an image of Antichrist. He will promote the idol worship of Antichrist. With robotics and Artificial Intelligence this is not an obstacle and obtainable. A few Catholic churches in Germany have delivered Sunday sermons using AI and life-like robotics. What was impossible a decade ago is about to become common occurrence.

Babylonian and Greco-Roman magic included rituals to seek to animate images; an entire branch of magic, called ‘theurgy’, specialized in animating statues so they could give oracles.

What is this statue evidently erected in the rebuilt temple in Jerusalem? Computer chips are presently based on sand, on silicon. But the new computer chips will be based on living matter, on protein. When these protein-based computer chips finally get perfected, the computing power will immediately increase by fifty thousand times. So it could be that this image is a sophisticated automaton. With robotics and artificial intelligence the fake can pass for the real thing! Or it could be an image that is powered demonically. Whatever it is, it will appear to have life.

Religion, indeed, is too narrow an identification of the second beast. He is, in modern parlance, the ideology - whether religious, philosophical, or political - which ‘gives breath to’ any human social structure organized independently of God.

These public demonstrations of power are part of a massive propaganda campaign to deceive people into worshiping the first beast. Believers are repeatedly warned in the

Scriptures about the combination of miracles and deceit, about mighty works that direct people's allegiance away from the true God -(e.g., Deuteronomy 13:1–4; Ezekiel 13:1–23).

5. He kills people who don't follow Antichrist -(Revelation 13:15)

***"He was permitted to give a spirit to the image of the beast, so that the image of the beast could both speak and cause whoever would not worship the image of the beast to be killed."*** -(Revelation 13:15,)

Jesus came to bring life. Following the leading of the Holy Spirit leads to life. Refusing to follow the False Prophet brings death. The False Prophet will use *"living images"* which will be used like Gestapo cops to control people all over the world.

But by such deceiving messages the ***'image of the beast'*** (i.e. of the first beast, the 'system') is made to have a seeming life of its own, apart from which man, apparently, cannot survive.

6. He enslaves people by control and oppression -(Revelation 13:16)

***"And he requires everyone—small and great, rich and poor, free and slave—to be given a mark on his right hand or on his forehead,"*** -(Revelation 13:16)

The false prophet will promote a false system of security. The people will want this security, but it is really a form of slavery. The mark on the right hand and forehead is a form of slavery, not protection.

God used marks to protect people.

***"Then the Lord replied to him, "In that case, whoever kills Cain will suffer vengeance seven times over." And He placed a mark on Cain so that whoever found him would not kill him."*** -(Genesis 4:15)

***"Pass throughout the city of Jerusalem," the Lord said to him, "and put a mark on the foreheads of the men who sigh and groan over all the detestable practices committed in it.""*** -(Ezekiel 9:4)

***“Slaughter the old men, the young men and women, as well as the older women and little children, but do not come near anyone who has the mark. Now begin at My sanctuary.”*** So they began with the elders who were in front of the temple.” - (Ezekiel 9:6)

The False Prophet will use marks to enslave people. I find it very interesting that even as Satan, Antichrist, and the False Prophet counterfeit the Trinity, so their mark worn on the head and arm counterfeits the command of God in Deuteronomy 6:4–8.16.

7. He promotes a false gospel of economic salvation and security -(Revelation 13:17-18).

***“so that no one can buy or sell unless he has the mark: the beast’s name or the number of his name. Here is wisdom: The one who has understanding must calculate the number of the beast, because it is the number of a man. His number is 666.”*** -(Revelation 13:17–18)

Below are found examples of how the “Mark of the Beast” is revealed in Hebrew Gematria, a mathematical system in which letters have numerical value as a means to confirm the accuracy of the Biblical text, which is very much like what DNA represents to life form.

This is referred to as the Heptadic Design Feature that confirms the Biblical accuracy and integrity. We know from computer analysis of the Greek and Hebrew text of the Bible, 98.2% of the Bible is totally true and accurate. The 1.8% in dispute does not present a problem for our understanding nor does it alter the Truth of what God delivered to those He selected to record the History of 6,000 years.

The human genome was decoded at the turn of the millennium at a cost of some \$3-billion dollars. It is considered the most important biomedical research undertaking of the 20th Century. The Human Genome Project was a landmark global scientific effort whose signature goal was to generate the first sequence of the human genome.

In 2003, the Human Genome Project produced a genome sequence that accounted for over 90% of the human genome. It was as close to complete as the technologies for sequencing DNA allowed at the time.

The project was critical for advancing policies and earning increased support for the open sharing of scientific data. Concerns and questions about sequencing the human genome helped to usher in a greater emphasis on ethics in biomedical research.

The project was atypical for biomedical research, in that the researchers' work was driven by a desire to explore an unknown part of the biological world — as opposed to first formulating a theory or hypothesis. The Human Genome Project was a large, well-organized, and highly collaborative international effort that generated the first sequence of the human genome and that of several additional well-studied organisms. Carried out from 1990–2003, it was one of the most ambitious and important scientific endeavors in human history.

But their research did not end with the mapping of the human genome for DNA. What followed is our reason for concern. In 2013, CRISPR-Cas-9 “gene editing” became the proverbial pot of gold at the end of the rainbow for the science of genetics. Note the date hereof 2013 for CRISPR-Cas-9 since it became the means by which all life could be edited, “cut and paste” to fulfill their grand plan of controlling humanity.

Eventually the list of organisms came to include the bacterium *E. coli*, baker’s yeast, fruit fly, nematode and mouse. The project’s architects and participants hoped the resulting information would usher in a new era for biomedical research, and its goals and related strategic plans were updated periodically throughout the project.

In part due to a deliberate focus on technology development, the Human Genome Project ultimately exceeded its initial set of goals, doing so by 2003, two years ahead of its originally projected 2005 completion. Many of the project’s achievements were beyond what scientists thought possible in 1988.

It has been the discovery of CRISPR that has enabled the process of “marrying” humans with machines. Everything imaginable can be now tagged with the virtual invisible tag of DNA “gene” editing.

## Ten Reasons For Identifying Species By DNA Barcodes

1. Works with fragments
2. Works for all stages of life
3. Unmasks look-alikes
4. Reduces ambiguity
5. Makes expertise go further
6. Democratizes access
7. Opens the way for an electronic handheld field guide, the Life Barcode
8. Sprouts new leaves on the tree of life
9. Demonstrates value of collections
10. Speeds writing the encyclopaedia of life

What is DNA sequencing? How was it performed during the Human Genome Project? DNA sequencing involves determining the exact order of the bases in DNA — the As, Cs, Gs and Ts that make up segments of DNA. Because the Human Genome Project aimed to sequence the entire DNA (i.e., the genome) of a set of organisms, significant effort was made to improve the methods for DNA sequencing.

Ultimately, the project used one particular method for DNA sequencing, called Sanger DNA sequencing, but first greatly advanced this basic method through a series of major technical innovations. But it was CRISPR that solved the issue of time and cost!

The sequence of the human genome generated by the Human Genome Project was not from a single person. Rather, it reflects a patchwork from multiple people whose identities were intentionally made anonymous to protect their privacy.

The project researchers used a thoughtful process to recruit volunteers, acquire their informed consent, and collect their blood samples. Most of the human genome sequence generated by the Human Genome Project came from blood donors in Buffalo, New York; specifically, 93% from 11 donors, and 70% from one donor.

The Human Genome Project could not have been completed as quickly and effectively without the dedicated participation of an international consortium of thousands of researchers. In the United States, the researchers were funded by the Department of Energy and the National Institutes of Health, which created the Office for Human Genome Research in 1988 (later renamed the National Center for Human Genome Research in 1990 and then the National Human Genome Research Institute in 1997).

## DNA Barcoding

- DNA barcoding is a standardized approach to identifying plants and animals by minimal sequences of DNA, called DNA barcodes.
- A **DNA barcode** is a short gene sequence taken from standardized portions of the genome, used to identify species.

[www.barcodeoflife.org/content/about/what-dna-barcoding](http://www.barcodeoflife.org/content/about/what-dna-barcoding)

In June 2000, the International Human Genome Sequencing Consortium announced that it had produced a draft human genome sequence that accounted for 90% of the human genome. The draft sequence contained more than 150,000 areas where the DNA sequence was unknown because it could not be determined accurately (known as gaps).

In April 2003, the consortium announced that it had generated an essentially complete human genome sequence, which was significantly improved from the draft sequence. Specifically, it accounted for 92% of the human genome and less than 400 gaps; it was also more accurate.

From all of this brief understanding it now becomes possible to require every citizen of the world in the near future to have a “Vaccine Passport” identity certificate in order to

buy and sell, travel, and whatever the Global Elite want to add to its restriction list. There is no limit to its potential enslavement capability.

All of the chaos humanity has been exposed to since October 31, 2019 is related to the even larger hidden story on the Covid hoax since it became public in early 2020. We have been the victims of what would be considered asymmetrical warfare.

In the shadow of CRISPR-Cas9 technology, there is a huge but largely unknown story of unrestrained scientists engaged in unregulated genetics research conducted with devious and harmful experiments.

The first book I read on CRISPR was in late 2022 – ‘*CRISPR: A Powerful Way to Change DNA*’ by Yolanda Ridge. I have since read four books on CRISPR “gene editing” that confirm close ties with the discovery of CRISPR and the Rothschild name.

As I noted in Blessed Hope #172, there is more than an uncanny link between Klaus Schwab, Prince Charles, Bill Gates, Dr. Anthony Fauci, and those names keep popping up in the WEF’s so-called Climate Change being used to “Depopulate” the Earth as a pretext to lock humanity down into virtual enslavement for bogus junk science that we are responsible for polluting the world!

My obsession with DNA and Genetics has led me to where I am today is the result of the learning my first wife was diagnosed with Huntingdon’s Disease in 1972, and death decades later.

In many related articles that I have shared we are discovering that this technology of CRISPR-Cas9 technology is very much part of the dark and hidden plan to “Depopulate” the world through the poison needle associated with the Jesuits, who pioneered the entire vaccination method of Edward Jenner and later Louis Pasteur.

**John is the only Bible writer  
to mention Antichrist**

**1 John 4:1-3**

1 Beloved, do not believe every spirit, but test the spirits, whether they are of God; **because many false prophets have gone out into the world.** 2 By this you know the Spirit of God: Every spirit that confesses that Jesus Christ has come in the flesh is of God, 3 and every spirit that does not confess that Jesus Christ has come in the flesh is not of God. And **this is the spirit of the Antichrist, which you have heard was coming, and is now already in the world.**

**The spirit of Antichrist has already  
begun almost 2,000 years ago!**

The more important truth to learn that our eternal salvation and security is not wrapped up in a false gospel. One can see this in the way the two different gospels are presented.

The Holy Spirit convicts, leads, guides, and counsels the True Christ. The False Prophet manipulates and controls people. With the Holy Spirit, there is freedom for the Christian. Those who follow the False Prophet will be oppressed.

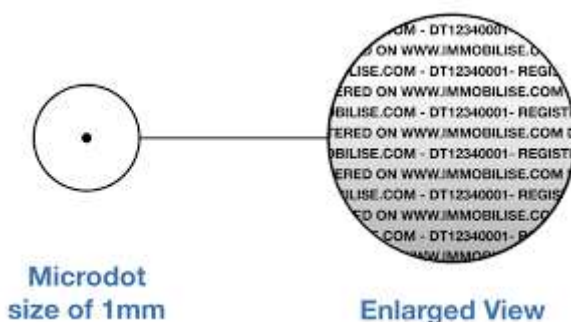

Revelation allows for no divided allegiance: We must decide between God and the world and between what each side values. Yet we cannot read this passage's warning properly without also grasping the rest of the book: Every Babylon of the past has fallen, and so will every empire that oppresses humanity -(18:2; 19:2). The future belongs not to Babylon but to the faithful, whose home is the Jerusalem to come -(21:2-8).

This passage warns of the power of false religion. The Scriptures prohibit the worship of anything that is not God (e.g., human-made images, creation, secular authorities, human philosophies, pagan deities). It's important to remember that not all religious movements or religious leaders are sent from God; some originate with Satan.

Interestingly, although the second beast serves as a minister of religious propaganda, it all comes down to money. For Christians to stay faithful then, now, and in the future means we need a clear conviction that human beings are made in the image of God and cannot be reduced to commodities -(e.g., 13:17; 18:13). This passage presents yet another biblical opportunity to inspect our own lives for signs of idolatry.

Today, this microchip would fit inside the dimple of a golf ball, but with the advancement in microdot technology, it would not even be visible to the human eye!

Microprocessors are 4-bit, 8-bit, 16-bit, or 32-bit and capable of holding huge amounts of data. An embedded microchip in your right hand can hold infinitely more data about you than you could ever imagine. Two years ago scientists made a major step forward in efforts to store information as molecules of DNA, which are more compact and long-lasting than other options.

The magnetic hard drives we currently use to store computer data can take up lots of space. And they have to be replaced over time. Using life's preferred storage medium

to back up our precious data would allow vast amounts of information to be archived in tiny molecules. The data would also last thousands of years, according to scientists.

Ponder this thought for a minute: If stored as DNA, every movie film ever made could be stored in a space smaller than a sugar cube.

A team in Atlanta developed a microchip that can improve on existing forms of DNA storage by a factor of 100.

*"The density of features on our new chip is [approximately] 100x higher than current commercial devices,"* Nicholas Guise, senior research scientist at Georgia Tech Research Institute (GTRI), told BBC News.

*"So once we add all the control electronics - which is what we're doing over the next year of the program - we expect something like a 100X improvement over existing technology for DNA data storage."*

The technology works by growing unique strands of DNA one building block at a time. These building blocks are known as bases - four distinct chemical units that make up the DNA molecule. They are: adenine, cytosine, guanine and thymine.

My point here in noting the technology advances are infinite when it comes to maintaining and monitoring each of us in terms of our totality in the hands of a global control system. The Antichrist and False Prophet have at their beck and call the full backing of Genetics to microchip all of us.

Ever wonder why you have not been hearing about the penny being dropped or a new dollar coin being introduced? Today it is all about Central Bank Digital Currencies These are digital versions of a country's physical currency issued by central banks. They claim the role of these digital currencies is to support financial services for a nation's government and its commercial-banking system. Still, it will replace much of the physical currency we use today. The premise of why this is being done deserves to be scrutinized.

In some ways, CBDCs are similar to cryptocurrencies, except their value is fixed by the central bank and equivalent to the country's fiat currency. The Federal Reserve has developed a service named FedNow for depository institutions in the United States. FedNow is described as a service and suite of tools available to banks, credit unions, and other financial service companies. It will enable individuals and businesses to send and receive instant payments. It is also designed so that banks will be able to build products on top of the FedNow platform.

The Fed has stated that FedNow is not intended to kill or replace other money transfer options like Venmo, Cash App, PayPal, or Zelle. Instead, it is designed to work alongside the current systems built by the private sector. Still, FedNow could rapidly become a game changer. Money.com notes this FedNow is launching soon. FedNow was scheduled to begin formal certification of participants of the program in April 2023, with a formal launch planned for July 2023. It will operate on a 24-hour, 365-days-a-year basis. The bank I have my checking account weekly markets the Zelle money transfer option, a precursor to the FedNow system, I received a promotion E-mail just today on July 19, 2023.

This new system differs from consumer-facing apps which allow instant peer-to-peer payments, FedNow won't be an app per se. It's more designed to allow banks to move money instantly. More than 50 financial institutions are "early adopters" of FedNow, some of the notable banks that will use FedNow include JPMorgan Chase, Wells Fargo, and Peoples Bank.

FedNow will only be available to customers of the banks that choose to implement FedNow, so they say. The use of the word "choose" is misleading as it will become "mandatory"! The Fed says all 10,000 or so banks and credit unions that are regulated by the Fed can join but will not be required to do so. The claim is that, for everyday people, FedNow could make managing money much easier and faster. It would allow you to pay your mortgage bill on Christmas Day without worrying about it being delayed or late because of the holiday. But governments and agencies such as the Fed have lied before, far more often than we can count. The proof of that is in the fact you cannot take a newborn baby home from the hospital maternity ward until you get the baby a "Social Security" card.

This also means that transferring money between, say, your checking and savings accounts at different banks could be done instantly. Even gig workers like Uber drivers could get paid immediately after each completed ride. It also means a record of every transaction that occurs will be put on "record." In short "big-brother" will know everything you do, your preferences, and how you live your life. To many of us, this amounts to an invasion of privacy.

All things considered, when asked, if the war on cash is a real thing being directed from those on high, sadly we must answer yes. Sadly, most people are going along with this and many have embraced ditching cash. This has wide long-term ramifications. Small businesses often rely more on small cash transactions, it is the banks, big businesses,

and companies like Amazon that flourish when cash is removed. Simply put, in general, the small businesses and retailers on Main Street are left worse off.

Those of us skeptical of governments and high-tech reaching ever deeper into our lives and thus stealing our freedom are concerned. While I'm personally not a fan of cryptocurrencies, many of these people are. The whole future of crypto depends on how governments regulate and decide to recognize them.

Still, it could be argued that FedNow is another step towards more control over the individual. Twenty minutes into this video by Coin Bureau the narrator takes the stand that Fed Now truly seems to be a Trojan Horse to usher in a CBDC system. It points out that while not everyone will choose to "opt-in" and adopt such a system, it will appear benign to most people and rapidly be accepted. Even those that resist will find the government will most likely force them to use it when dealing with official agencies.

Banking insider, Richard Werner warns that the Globalists have been looking for the right time and a good way to roll out their Central Bank Digital Currency since 2015.

Werner says that he was told by a central banker something that is never discussed: that the CBDC being proposed by the Bank for International Settlements will be an implantable chip. Werner believes that the central bankers need to collapse the economy and to institute a Universal Basic Income in order to force the people to be chipped.

German banking economist Richard Werner was selected as a "Global Leader for Tomorrow" by Klaus Schwab's World Economic Forum in Davos in 2003. In my last Blessed Hope, I covered Klaus Schwab and the WEF "Future Global Leader's" program.

He tells us an insider's view of what to soon expect and says the only way to survive the Great Reset is for us to immediately begin setting up our own banking system. Richard Werner's interview can be viewed at the link below:

### [Top economist: Central bankers are planning CBDC currency](#)

The Bank for International Settlements recently published a report called, *"Blueprint for the future monetary system: improving the old, enabling the new."*

This report proposes that a Central Bank Digital Currency will serve as the new reserve currency. And calls for the digital confiscation of all physical property by assigning every real-world item its own unique digital token which will contain rules on how each item can and cannot be used. So that each person can be controlled and conditioned directly by the central bank.

This article dovetails with an article from the fall of 2021 titled; The War On Cash, Is It A Real Thing? The answer is definitively Yes, absolutely! It delves into how cash reflects *"options for the people"* and it appears those in charge of such things want it gone. The fact is that currencies were developed to facilitate and ease transactions between individuals and businesses. The war on cash is simply another way Washington can continue to show its favoritism towards big business.

It is also related to another post that centers on the growing dependence of society on technology. High-tech societies are particularly vulnerable to collapse due to their population being dependent on both the system and others to provide the basic items they need to survive in everyday life. Basic survival skills are important and being prepared is linked to thinking about what is often considered the unthinkable. Today many members of society lack those skills.

I have just spent much of my week dealing with the frustrations of high-tech's failure to meet its promises of making life easier. Most of society has become totally dependent on computers, the electrical grid, cell phones, and a slew of gadgets designed to make life more comfortable and pleasurable. All are parts of a fragile system that could at any time break down leaving us unable to function.

The bottom line is that not all of us see being controlled as a good thing and replacing currencies with their digital brethren is another tightening of that control. This again reinforces the idea that governments prefer big businesses over many smaller ones because they are easier to regulate and control. The best way to resist the war on cash is to insist on using cash, especially when doing small transactions with local businesses.

Unfortunately, this is deluded thinking under the premise that the entire world will be entangled in what is called the “Global Ledger” system. There is a black swan event coming that will prevent this system from working, but not without first destroying your real assets. It is called Derivatives and it amounts to more than a quarter-trillion in dollar value that cannot be settled without a global crash. Countries are not going to buy corn, wheat, oil, LNG, or other essential commodities through a global ledger with another Fiat currency to replace a bankrupt existing Fiat currency. You are not hearing about this debacle that has to be settled before entering into a new method of payments.

Microsoft not only funds ID2020 but they also filed a Patent for a device connected to the human body for buying and selling cryptocurrency. Microsoft who funds ID2020 holds a patent for the buying and selling of bitcoin cryptocurrency that works by a device attached to the human body, the Mark!

Bill Gates may have legally separated himself from Microsoft, but since both entities are engaged in exactly the same mission, a separation of purpose certainly has not taken place. While Bill Gates has been pounding the pavement, telling people that a global vaccine for everyone on earth will take place within 18 months, his old company Microsoft has created a device that interacts with the pulse, temperature and brain waves of the human body in order to engage in the buying and selling of cryptocurrency. Now let's see, where else have I seen that talked about before? Oh, right, here it is:

***“And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads: And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name. Here is wisdom. Let him that hath understanding count the number of the beast: for it is the number of a man; and his number is Six hundred threescore and six.”***-(Revelation 13:16-18)

What is the biblical definition of the Mark of the Beast? In case you did not get the picture from the graphics included above, according to Revelation 13, it is a device that goes in the human body in the back of the right hand or in the forehead, for the purpose of buying and selling. Whatever forms the final Mark takes, that's exactly what it will do from a functional, literal perspective. Bill Gates and Microsoft are spending billions in order to 1). inject everyone on earth with some kind of a 'vaccination' shot, 2). create a device for buying and selling currency that's run on the human body as its battery, and 3). attach both those things to a [digital identification from ID2020](#) whom they also fund.

The publication number of this Microsoft patent is #060606. The full patent info reads WO2020060606 and there are several articles on my web page that go into greater detail of this plan to link all of us to the Internet of Things, through 5G wireless energy!

So where does that leave us? A poet once said, 'when someone shows you who they are, believe them'. Bill Gates has shown us who he is; Microsoft has shown us who they are. The only question is, do you believe them? I sure do.

### **Microsoft Cryptocurrency System Using Body Activity Data**

*This is the patent information for the Microsoft device to buy and sell cryptocurrency using the human body, enjoy!*

Patent Abstract: Human body activity associated with a task provided to a user may be used in a mining process of a cryptocurrency system. A server may provide a task to a device of a user which is communicatively coupled to the server. A sensor communicatively coupled to or comprised in the device of the user may sense body activity of the user. Body activity data may be generated based on the sensed body activity of the user. The cryptocurrency system communicatively coupled to the device of the user may verify if the body activity data satisfies one or more conditions set by the cryptocurrency system, and award cryptocurrency to the user whose body activity data is verified.

Prepare yourself and your loved ones where you want to be during the next seven years of the Great Tribulation! The world is already getting a taste of what lies just ahead. What is coming is chaos, tribulation unlike anything known to man, enslavement and total control. Just months after a Biden-appointed regulator teased a ban on gas stoves, the administration is working to enact a rule that would prohibit the manufacturing of nearly all portable gas generators on the U.S. market.

A proposed Consumer Product Safety Commission rule limits the amount of carbon monoxide a product can emit, with the commission admitting that 95 percent of portable gas generators on the market cannot comply with its new standard. As a result, industry leaders say, the rule will prompt widespread generator shortages, as manufacturers only have six months to design generators that meet the proposed regulation. That process normally takes years, Portable Generator Manufacturers' Association executive director Susan Orenga told the *'Washington Free Beacon'*.

The rule proposal comes just months after Biden-backed commissioner Richard Trumka Jr. teased a similar regulatory ban on gas stoves, which he called a "hidden hazard." It also comes as many Americans face an increased risk of power outages as the country increasingly relies on green energy to produce its electricity. A whopping two-thirds of North America faces an "elevated risk" of power blackouts this summer, a leading grid watchdog found in May, a vulnerability that stems from America's increase in green power generation and decrease in fossil fuel power plants. California, for example, saw power outages in the summer of 2022 as electricity demand surged.

Portable gas generators can help those who experience a power outage keep the lights on, and nearly five million households use them. Should the Biden administration finalize its rule, however, the generators could become difficult to obtain. Beyond the Consumer Product Safety Commission, President Joe Biden's Energy Department has

unveiled a slew of environmental regulations to fight climate change. The department says its proposed gas stove rule, for example, would effectively ban half of all models on the U.S. market from being sold. The department has also proposed or finalized energy efficiency rules targeting washing machines, refrigerators, and lightbulbs. "Collectively," the department said in February, "these energy actions ... support President Biden's ambitious clean energy agenda to combat the climate crisis."

**Stay As Out-Of-Date As Possible On The CDC-Recommended Biochemical Weapons Schedule - ALL Products Promoted As 'COVID Vaccines' Are Bio-Weapons Manufactured To War Specs**

**[By Katherine Watt of Bailiwick News](#) for All News Pipeline**

**Stay out-of-date on biochemical weapons**

One of the phrases being pushed into the public consciousness is the admonition to “*stay up-to-date*” on “*vaccines*.” It appears in many places, including roadside advertising signs outside retail pharmacies.

Brook Jackson’s “False Claims Act” case, from her first [report to the Food and Drug Administration on Sept. 25, 2020](#) about clinical trial fraud she witnessed, through her formal [report to the Department of Defense on Dec. 14, 2020](#), to the [order of dismissal](#)

[filed by a federal judge on March 31, 2023](#), has revealed that **all products labeled and promoted** by the U.S. Government (military and health officials) as ‘vaccines’ are presumptively biochemical weapons manufactured by pharmaceutical companies, to (DoD) specifications, to intentionally injure recipients, under military weapons procurement contracts.

The **next round of heavily-pushed toxic injections** will probably be the Fall of 2023 Covid-flu-RSV formulation, which has been PREP-Act supported (for manufacturer and batterer impunity from criminal prosecution for medical battery and homicide) by the most-recent Public Health Emergency declaration formulation.

The eleventh amendment to the [original, March 10, 2020 declaration](#) under the PREP Act for medical countermeasures against COVID-19, identifies **“the burden on healthcare providers caused by coterminous seasonal influenza infections and COVID-19 infections”** as the **“category of disease, health condition or health threat”** justifying uninterrupted medicalized martial law nationwide, as directed by HHS Secretary Xavier Becerra, effective [May 11, 2023](#).

I therefore urge readers to stay out-of-date.

**Steer clear of the men and women stationed in retail pharmacies. They are military mercenaries camouflaged in scrubs and white coats, armed with vials and hypodermic syringes of poison.**

This is not medical advice. This is self-defense advice.

‘Vaccines’ are not medicines. **They are camouflaged weapons of covert war.**

**The bear is already in the house.**

**Covid shots are “Bio-weapons” intended to harm and kill! They are part of a program to Depopulate the U.S.A.**

The only escape possible is asking God to save you from the wrath to come!
