## **A Major Archaeological Discovery**

**Israel may loan ancient Christian mosaic which refers to Jesus as God to US museum - Mosaic described as 'extremely dramatic discovery' could be on long-term loan until proper tourist site built**

An ancient Christian [mosaic](#) discovered near a prison in Megiddo could be removed from the site and sent to the Museum of the Bible in Washington, D.C.

The mosaic was originally discovered during excavations in 2005 near the Megiddo Prison, as authorities were preparing to expand and relocate the prison. The site is one of the oldest known Christian worship sites.

Yotam Tepper, the archaeologist who directed the excavation on behalf of the Israel Antiquities Authority (IAA), described it as a private chapel.

The principal mosaic of the excavation is an inscription describing the dedication of a table, most likely a Eucharist table, by a woman named Akeptous.

Leah Di Segni, a renowned epigraphist, interpreted the inscription to read: *"The God-loving Akeptous has offered the table to God Jesus Christ as a memorial."*

The phrase “*God Jesus Christ*” is written in abbreviated form **Θω Ιυ Χω** with a line above the letters, a common technique in Greek biblical manuscripts to indicate a reference to the *nomina sacra* (sacred name).

Other mosaics in the building also indicate the Christian nature of the building, including a mosaic of two fish, an early Christian symbol. The Christian use of the building has been dated to the third century, before the use of the cross as a Christian symbol.

At the time, Tepper described the find as “*an extremely dramatic discovery.*”

*“This is an extremely dramatic discovery, because such an old building of this type has never been found either in the land of Israel or anywhere else in the entire region,”* Tepper said. *“The structure and the mosaic floor date back to the period before Christianity became an officially recognized religion, before Constantine.”*

While the discovery of the mosaic and the dating by Tepper to the third century caused a bit of a stir in the archeological community following its discovery, it appears the proposal by the IAA to loan the mosaic to the Museum of the Bible is causing another fuss.

The IAA will decide in the coming weeks whether to loan the mosaic to the [Museum of the Bible](#), according to a report in The Associated Press.

The museum, founded in 2010 and opened in 2017, became the focus of some controversy when it had to return several Mesopotamian artifacts to Iraq after it was discovered they had been illegally removed from that country.

While some have questioned the appropriateness of the IAA sending the mosaic to the Museum of the Bible, the museum does have a formal relationship with the organization and sponsors archaeological digs in Israel.

*“There’s an entire process that academics and archaeologists are involved with,”* IAA Director Eli Eskozido said. The IAA also said that the decision to move the mosaic from its original location was made to protect it from construction for the prison expansion.

One possibility for the loan is that it would be a long-term loan until the Israeli government finishes the prison construction along with a proposed [tourist site](#) dedicated to the Christian chapel and mosaics.

Neither the IAA nor the Museum of the Bible commented on the terms of the proposed loan.

## **Solar Cycle 25 is more active and powerful than predicted**

Sun activity has been [low in recent days](#). But we’re currently heading toward another peak in the sun’s 11-year cycle of activity. And Solar Cycle 25 has already proven surprising. The maximum activity was predicted to occur in 2025. But solar activity has

already exceeded that predicted maximum. So we've been seeing more [geomagnetic storms](#), more auroral displays, and more potentially hazardous conditions for satellites in low-Earth orbit. [Read about active, powerful Solar Cycle 25.](#)

From the Directors of *Died Suddenly': 'Final Days'* Exposing the Scientific Technological Elite and their desire to become gods. Man has been on a quest for immortality since the fall of Adam until the era of today. This hour long video encapsulates the larger picture of what humanity has been caught up in – World War 3.

With the mapping of the human genome in 2003; the discovery of CRISPR-CaS9 in 2013; the creation of mRNA nanotechnology; and other aspects, we have been caught in the web to merge human life with cyborg technology. In watching this video you will quickly see how humanity is being manipulated into the religion of science and virtual reality as it advances its own plan for immortality. This has been the quest of humanity for most of our lifetime. The agenda of the Antichrist and False Prophet system provides a foundation for their plan to replace God of the universe with Lucifer, the "light-bringer". The vaxx is a "bioweapon" with the purpose to change your DNA among other goals!

When I read *'CRISPR: A Powerful Way to Change DNA'* by Yolanda Ridge in March of 2021, I recognized the impact of what Covid-19 was all about. The book amazingly was inexpensive and written so that any high school graduate could grasp its content. It is not all that long either. It is just over 115 pages and it opens your eyes to the new frontier of genetic editing. CRISPR stands for **C**lustered **R**egularly **I**nterspaced **S**hort **P**alindromic **R**epeats. If it sounds complicated, it is—but it's also one of the most powerful ways man can shape the future. And it's poised to completely upend the way we think about science.

Covid-19 was fear-mongered as a tactic using the Hegelian Dialectic into a global Satanic lab experiment in which the entire world became the test case. Once you have seen the video, you will want to watch it again because it has profound implications that will impact every single living thing in our world. You will want to share it with your friends, family, co-workers, loved-ones, even those you may not like.
