

The Blessed Hope!

“Looking for that blessed hope, and the glorious appearing of the great God and our Saviour Jesus Christ;” –(Titus 2:13)

Diamond & Nugget #195

5G REMOTE KILL VECTOR: Science paper reveals cell phone signals can activate the release of biological PAYLOADS from graphene oxide injected into the body

09/14/2023 From Mike Adams, the Health Ranger

A [science paper](#) published in *MaterialsToday Chemistry* reveals that cell phone signals can be used to release biological or chemical payloads from graphene oxide that's introduced into the human body. The paper, published in September of 2022, is entitled, *"Remotely controlled electro-responsive on-demand nanotherapy based on amine-modified graphene oxide for synergistic dual drug delivery."*

The study abstract reveals how a cell phone can emit signals to activate a low voltage current that interacts with Graphene Oxide (GO) molecules, causing efficient delivery of drug payloads:

This study aims to determine low-voltage-controlled dual drug (aspirin and doxorubicin) release from GO surface. Here, we have demonstrated how to control the drug release rate remotely with a handy mobile phone, with zero passive release at idle time.

Because of its extremely high surface area and complex structure composition, graphene oxide turns out to be the perfect molecule for delivery of biological or drug payloads inside the body. From the study:

These advantages make GO an extremely potential nanocomposite material as a drug carrier in the field of biomedicine and biotechnology, while being combined with a polymer or inorganic matrix.

Importantly, the presence of a specific frequency of a low voltage current is all that's necessary to cause graphene oxide to release its payload.

5G cell tower signals create micro currents inside the body

We already know that **5G** signals can generate electrical currents inside the human body, even from a significant distance. [An important article](#) authored by Dr. Joseph Mercola and published in Childrens Health Defense reveals that **5G** cell signal radiation results in measurable biological and chemical changes inside the human body. From his article:

- **5G** relies primarily on the bandwidth of the millimeter wave, known to cause a painful burning sensation. It's also been linked to eye and heart problems, suppressed immune function, genetic damage and fertility problems.

- The Federal Communications Commission (FCC) admits no **5G** safety studies have been conducted or funded by the agency or telecom industry, and that none are planned.
- The FCC has been captured by the telecom industry, which in turn has perfected the disinformation strategies employed by the tobacco industry before it.
- Persistent exposures to microwave frequencies like those from cellphones can cause mitochondrial dysfunction and nuclear DNA damage from free radicals produced from peroxynitrite.
- Excessive exposures to cellphones and Wi-Fi networks have been linked to chronic diseases such as cardiac arrhythmias, anxiety, depression, autism, Alzheimer's and infertility.

[The Cellular Phone Task Force website](#) lists numerous warnings from governments and agencies around the world who have sounded the alarm on cell phone radiation and its harmful effects on human biology.

Radiofrequency microwave radiation causes voltage changes inside the body's cells, altering calcium channels

Additionally, compelling research led by Martin Pall, Ph.D., Professor Emeritus of biochemistry and basic medical sciences at Washington State University, reveals that microwave radiation from mobile devices and wireless routers **causes voltage changes inside the body's cells**, activating what are called "Voltage-Gated Calcium Channels" (VGCCs), which are located in the outer membrane of your cells. It is this membrane that determines what passes into and out of the cell.

See the full study by Martin Pall, PhD., entitled: [Electromagnetic fields act via activation of voltage-gated calcium channels to produce beneficial or adverse effects](#). That study explains:

Twenty-three studies have shown that voltage-gated calcium channels (VGCCs) produce these and other EMF effects... Furthermore, the voltage-gated properties of these channels may provide biophysically plausible mechanisms for EMF biological effects.

From Dr. Mercola's article linked above: (emphasis added)

According to Pall's research radiofrequency microwave radiation such as that from your cellphone and wireless router activates the voltage-gated calcium channels (VGCCs) located in the outer membrane of your cells.

According to Pall, VGCCs are 7.2 million times more sensitive to microwave radiation than the charged particles inside and outside our cells, which means the safety standards for this exposure are off by a factor of 7.2 million.

Low-frequency microwave radiation opens your VGCCs, thereby allowing an abnormal influx of calcium ions into the cell, which in turn activates nitric oxide and superoxide which react nearly instantaneously to form peroxynitrite that then causes

carbonate free radicals, which are one of the most damaging reactive nitrogen species known and thought to be a root cause for many of today's chronic diseases.

This means that cell phone radiation (and **5G** cell tower radiation) does, indeed, induce voltage changes in the human body, and that these voltage changes have very real biochemical effects, some of which may be dangerous to human health (such as the formation of peroxy nitrite molecules).

Fighting these potent free radicals can be achieved in part with nutritional approaches, such as through the use of superoxide dismutase enzyme (SOD), which is the foundational nutrient in the Health Ranger Store's [5G Defense powders](#). Notably, SOD (which is usually derived from melon fruit) does not block cell tower radiation itself, but it helps the body respond to cellular stresses such as the formation of peroxy nitrite molecules.

In related news [reported by Reuters](#), French regulators have issued a warning to Apple to stop selling iPhone 12 phones due to the presence of excessive radiation produced by the devices. Apple's smartphone exceeds the allowable legal limit of radiation. This phone has been sold since 2020.

5G signals may be used to cause Graphene Oxide to release payloads inside the human body

Connecting the dots on all this, **5G** signals can be used to generate low voltage inside the human body, causing Graphene Oxide molecules to release predetermined payloads inside the body. Via the published paper linked above:

Upon application of external stimuli, many materials are able to release drugs. However, most of them need sophisticated instruments except electrical stimulation. Electro-stimulated drug delivery has attracted attention due to the low expense, painless, and portability of the control equipment, making it manageable for customized applications. In this study, we used NGO as an electro-sensitive material to deliver drugs in a controllable manner.

"This is the first time we have used ASP and DOX as a model drug which can be delivered simultaneously by external voltage," the paper states. The conclusion of the paper adds: (emphasis added)

*In conclusion, we have shown here that NGO can be used as a dual drug delivery agent, and **the release of drugs can be controlled by an external voltage**. To exploit the synergistic effect of ASP and DOX, we modified NGO and attached two drugs to it. Our lab-made remote-controlled device efficiently released the anticancer drug. The releasing process can **easily be switched on and off with a mobile phone** by changing the bias voltage.*

Graphene Oxide can carry biological or chemical weapons as payloads

In the scientific paper quoted above, the payload was aspirin plus a common cancer drug. However, payloads can be almost anything of sufficiently small size, including both hydrophilic and hydrophobic molecules. From the study, "We have also demonstrated how hydrophilic (ASP) and hydrophobic drugs (DOX) can be delivered by using a single delivery platform."

This means that potent chemical weapons -- theoretically including nerve agents that are fatal at nanograms of exposure -- could be loaded into graphene oxide molecules which are surreptitiously delivered into the body via aggressively propagandized medical interventions such as fake vaccines or covid swabs. Theoretically, such weapons might be able to be delivered to the population via food vectors as well. Once in the body, a small amount of payload leakage may generate some level of nerve damage among inoculated victims, but the real payload delivery won't happen until a proper **5G** signal is broadcast across the inoculated population, using the "release frequency" that generates the required voltage to unleash the payload.

In other words, a **5G** broadcast signal at the appropriate frequency could instantly cause graphene oxide molecules to release the payloads into the bodies of those who were previously inoculated with those payloads. This would happen simultaneously, across the entire population that is within range of the broadcast frequencies which generate the necessary voltage in the body.

If the payload were a nerve agent, the real world effect would be the sudden dropping dead of large portions of populations across cities where **5G** broadcast are able to saturate them. If payloads were virus-like nanoparticles, payload delivery could cause a large portion of the population to suddenly appear to be "infected" with a pandemic virus that is spreading at unimaginable speed.

This technology, in other words, could be used as a "kill switch" to terminate whatever portion of the population was previously inoculated with payload-carrying GO.

"Black ink" printed on pharmaceutical capsules shown to be magnetic and may contain graphene oxide

Some additional information came to my attention during the writing of this article. The black ink printed on the side of pharmaceutical capsules actually consists of **mysterious black specks which are magnetic**. A contact sent me a video, represented in the following screen shot, showing pharmaceutical capsules soaked in water for several hours, after which the black "ink" from the capsules turned into black specs that displayed startling magnetic properties. In this still photo, you can see the black specs gather at the common magnet held against the glass:

As [this article reveals in LiveScience.com](#), stunning new research finds that **graphene can be made magnetic by assembling layers in a specific rotational orientation**. This gives rise to magnetism, even though the underlying atomic elements are nothing but carbon. From the article:

The magnetic field isn't created by the usual spin of electrons within the individual graphene layers, but instead arises from the collective swirling of electrons in all of the three-layers of the stacked graphene structure, researchers reported Oct. 12 in the journal Nature Physics.

Is graphene being used in the "ink" that's printed on the side of prescription medications? We don't know for certain, but the fact that this ink is clearly magnetic is alarming.

Graphene oxide can also transmit gigahertz signals to nearby receivers
Additionally, under certain exotic applications of graphic oxide (GO) materials, **those whose bodies are activated by cell tower broadcast could themselves function as electromagnetic "repeaters" due to the ability of GO to function as transmitters.**

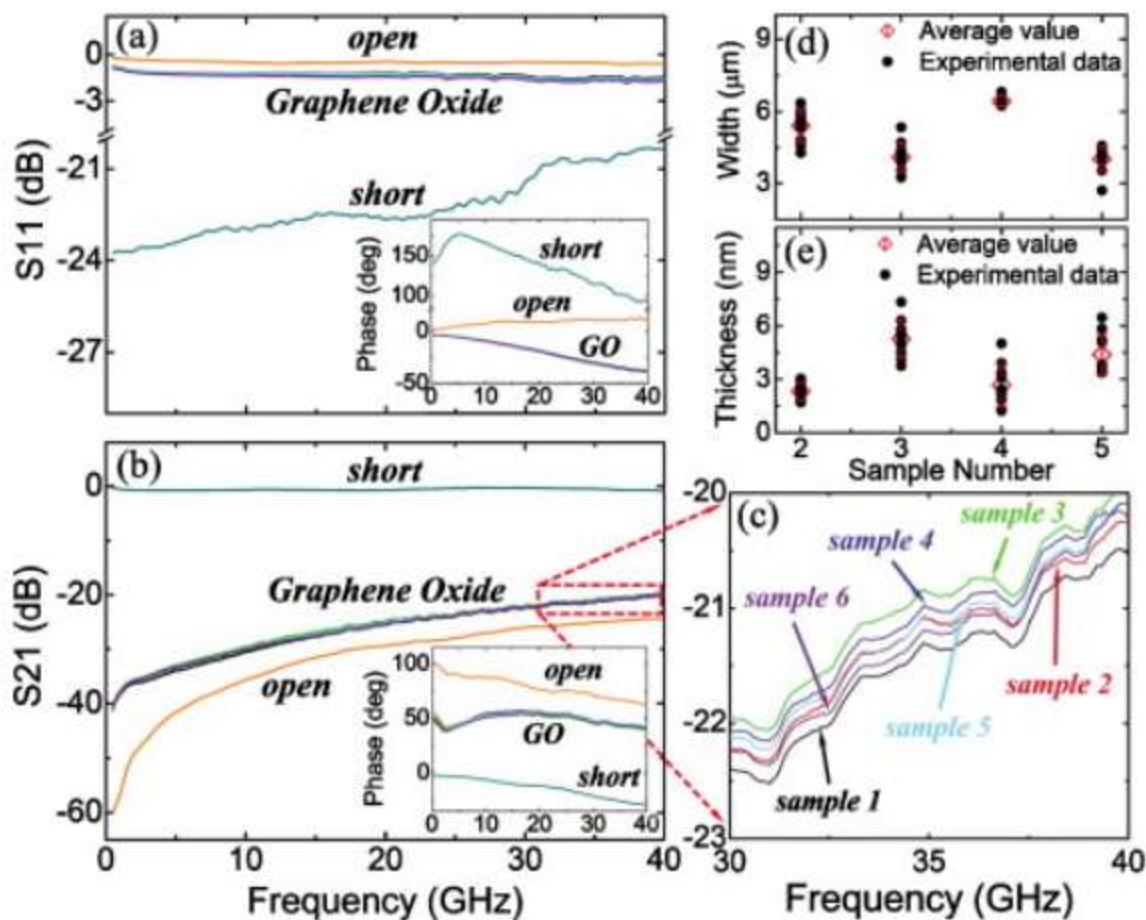

This capability is well documented in a study entitled, "*Radio-frequency characteristics of graphene oxide,*" published in *Applied Physics Letters* in 2010. (<https://doi.org/10.1063/1.3506468>) That study explains: (emphasis added)

*We confirm graphene oxide, a two-dimensional carbon structure at the nanoscale level can be a strong candidate for high-efficient interconnector in radio-frequency range. In this paper, we investigate high frequency characteristics of graphene oxide in range of 0.5–40 GHz. Radiofrequency transmission properties were extracted as S-parameters to determine the intrinsic ac transmission of graphene sheets, such as the impedance variation dependence on frequency. The impedance and resistance of graphene sheets drastically decrease as frequency increases. This result confirms **graphene oxide has high potential for transmitting signals at gigahertz ranges.***

Graphene oxide materials, in other words, can both carry payloads which are delivered via remote cell phone signaling, as well as transmit signals to other nearby receivers.

This could theoretically be used to start a "chain reaction" of **5G** cell tower signals being re-broadcast from one person to another. In theory, this could extend a "kill switch" signal broadcast far beyond the initial range of **5G** cell towers themselves.

FIG. 2.

From the conclusion of that published paper:

...[W]e expect that GO could be used for transmission lines in next-stage electronics and could be very strong candidate for nanocarbon electronics.

Conclusions

1. Graphene oxide can carry chemical or biological payloads.
2. Graphene oxide carrying payloads can be introduced into the body through vaccines or swabs.
3. The release of those payloads can be controlled by external cell tower signals which cause specific voltage changes in human cells.
4. Some voltage changes are already known to occur with exposure to cell tower radiation, especially with **5G**.
5. Graphene oxide payloads can include "kill switch" payloads such as nerve agents or infectious agents.
6. The **5G** tower system can therefore function as a chemical weapons payload release infrastructure system to achieve a "mass kill" of populations which were previously inoculated with payload-carrying GO.

7. Covid vaccines -- which are now widely known to have had nothing to do with halting any pandemic (since even the White House and CDC both admit they do not halt transmission or infections) -- could have theoretically been used to inoculate people with graphene oxide payloads which have not yet been activated.
8. [Pastor Bob addendum at bottom of article contains unmentioned factor that is for all intent and purpose is the greatest U.S. military secrets in the history of biowarfare you are not being told.]

Thus, it is *plausible* -- but not proven -- that vaccines + **5G** cell towers could be exploited as a depopulation weapon system to achieve near-simultaneous mass extermination of a large percentage of the human population, simply by activating GO payload release with a specific broadcast energy intensity and frequency.

Given that the western governments of the world are clearly attempting to exterminate their own populations right now, this conclusion should be concerning to all those who wish to survive the [global depopulation agenda](#).

As a person that has been a victim of Wireless Energy radiation poisoning, I can only add to this something that is considered a secret with the U.S. military over the past decades, and that is what is called Mycoplasma Brucellosis (I dubbed it as the death gene) is activated by several factors. Mycoplasma is an Invisible Nano-Parasite, smaller than anything known to science. Most microscopes are unable to pick it up.

Definitely since 1996, and perhaps as early as 1993, all living Americans have been sprayed with the Mycoplasma pathogen. In more recent years, they may have been spraying the Brucellosis Mycoplasma. Ingested into the human body through breathing, eating, and drinking, it is believed that there is enough in our body (in a dormant state) waiting for something to activate the cell decomposition process that leads to death.

You have heard in the media for the past decade that cancer has been increasingly decimating the population and has increased to 1 in 3 deaths, and has been projected to claim 1 in 2 deaths. Pollution, pesticides, chemicals, herbicides, are blamed but

there is something more sinister taking place and there is not much anyone can do or say to reverse the trend.

The four factors that the dormant Brucellosis Mycoplasma is watching include 4 body indicators:

1. Oxygen blood level
2. pH level
3. Immune system
4. Stress factor

You can go to my web page and use the search box simply search the word Mycoplasma, and it will pull up the following six articles on Brucellosis Mycoplasma. Or you can click on each of the links below to learn about the government's "**Silent Weapon for Quiet Wars**". They are long but the most comprehensive study on Mycoplasma you will find anywhere. I posted the following six articles from 2020 and 2021 at the peak of the Covid-19 scam.

[Mycoplasma](#)

[VRM: Mycoplasma – Rogue Pathogen in Vaccines](#)

[Mycoplasma The Pathogen That Will Kill You without Your Knowledge!, Part 2](#)

[Mycoplasma The Pathogen That Will Kill You without Your Knowledge!, Part 3](#)

[Mycoplasma The Pathogen That Will Kill You without Your Knowledge!, Part 4](#)

[Mycoplasma The Pathogen That Will Kill You without Your Knowledge!, Part 5](#)

The combination of Brucellosis Mycoplasma when combined with Electroporation activated by **5G** wireless EMF toxic energy is the perfect "**Silent Weapon for a Quiet War.**" **5G** can be beamed directly into your sweat pores and damage your DNA and activate the dormant Mycoplasma and attack the DNA cell structure of everyone! A person would have no way of knowing what hit them. They suddenly get sick, and any number of common diseases are activated that result in ultimate death. Read this paragraph until you fully understand what I am saying here. This is not simply catching a cold that goes away in a week!

When I posted the article by Todd Callender on the government planned activation of the "kill" shots of those already vaxxed containing the embedded pathogens, nobody or none of the people associated with the video mentioned the "electroporation" element in all of what is to take place on October 4th, 2023; I'm not sure if it was just sort of assumed by those in the plan to depopulate the already vaxxed people that may be the unfortunate ones with the embedded pathogen "bomblets". It's more likely that none of the people know about Brucellosis Mycoplasma.

Even the article above provided by Mike Adams has missed this critical aspect of the larger plan to kill people with a "**Silent Weapon for a Quiet War.**" It is important that the reader understand how those four factors are like activating switches to tell the dormant Mycoplasma to begin attacking the human body. From my extensive research

gathered into those six articles amounts to weeks of research. The subject of “electroporation” was actually more difficult to dig out than the pathogen Brucellosis Mycoplasma.

The reason that I am still alive today is due to my intentional mitigation efforts to checkmate the four factors I noted concerning how the Mycoplasma is monitoring:

1. Oxygen blood level
2. pH level
3. Immune system
4. Stress factor

I was poisoned by radiative Wi-Fi EMF/EMR that resulted in wireless energy induced Lymphedema. It began within 5 days of having Wi-Fi installed on June 10, 2010. It does not require **5G**, 4G will do the same thing; it only takes longer to kill you. I can say that with absolute certainty since these devices contain a GPS “chip-set” that uses a Cesium-137 radioactive isotope that gives off gamma rays. I have communicated with all the known experts on wireless technology and shared my experience. I hardwired my compute; I keep my “smart” cell phone in a Faraday bag except to briefly use it. The regimen that I follow has kept it from advancing and prolonged my life. I drink distilled water and take a list of vitamin supplements that inhibits the process of Brucellosis Mycoplasma. I am on a Gluten-free diet as well for those with Lymphedema.

If you ever were out somewhere and smelled that pungent or stench smell of dying flesh, maybe a bird, or a rodent, or recent road kill, even a cat with a dead mouse on your porch step; that is what the smell that comes with decomposition of dying or death. I dubbed it the “death gene” and since the past forty years all of us have this “dormant” pathogen in our body, waiting and monitoring those four factors to attack and destroy any form of life. It is in my perspective like the dark reaper!

CCP Satellites Over Maui At Time of Fires Mounting evidence suggest that Maui fires were caused by Directed Energy Weapons

GREG REESE

SEP 14, 2023

Steve Favis is an expert in computer science and advanced robotics. He has been researching the Maui fires and has compiled evidence that the technology exists to have started these fires from a satellite in earth orbit. He has also confirmed that the CCP had satellites capable of doing so above Maui at the time of the fires. His work has been published on his website stevefavis.com and includes everything you need to recreate his findings.

The most efficient way to ignite a fire on the surface from a satellite in earth orbit would be to paint the target in segments by pulsing the laser with an advanced targeting system. To see if this were possible, Favis calculated what it would require to create a meter-wide mile-long fire.

Fired from a satellite, the Earth's atmosphere will absorb and scatter some of the laser energy. And so the laser would need to be in a wavelength range that minimizes this. The most effective wavelength would be in the near-infrared range which would allow better transmission through the atmosphere. The near-infrared range would be invisible to the naked eye, and would also have a minimal reaction with objects colored blue on the Earth's surface.

The power of the laser would need to be in the hundreds of kilowatts range. And so Favis based his calculations on a 10-megawatt laser firing from earth orbit. Assuming that the atmospheric loss amounts to 50% of the overall power and only 5 megawatts reaches the surface as a one square meter beam, it would ignite a fire almost instantly.

If this 5-megawatt beam was pulsed across a one-meter by one-mile-long area in segments, then the time to ignite the entire area would be roughly 2.7 minutes. And it would take approximately 8.8 seconds to melt an aluminum alloy wheel.

The amount of energy required to pulse a 10-megawatt laser for 2.7 minutes would require approximately 3,220 capacitors, which would amount to about 32,200 kilograms in weight.

Using Matlab software and plugging in public data provided from NORAD, he found that satellites launched and monitored by the CCP were directly above the Maui fires at the time of ignition.

The CCP's most powerful rocket, the March 5, can launch up to 48,500 kilograms of payload. Which is enough to carry the required payload. But Favis has found that the CCP has much more powerful lasers deployed already. He has calculated that the CCP has up to 70 GIGAwatt lasers in earth orbit right now. That's at least a hundred times more powerful than what he factored into these calculations.

Adjusting NORAD's default Coordinated Universal Time, or UTC, to the local time zones Favis found the following:

The Olinda fire was ignited at approximately 10:47 pm on August 7th. At this exact time, CCP satellite labeled NORAD_53299 was directly over the location.

The Lahaina fire was ignited at approximately 6:37 am on August 8th. At this exact time, CCP satellite labeled NORAD_55836 was directly over the location.

The Kula fire was ignited at approximately 11:30 am on August 8th. At this exact time, CCP satellite labeled NORAD_53299 was directly over the location.

The so-called *Deep State* does not want you to know that deadly lasers of mass destruction are freely traveling above us. And you can check this all for yourself at stevefavis.com where he provides the source code and has developed a specific [software program](#) that you can download and check for these satellites yourself.

For you unfamiliar with the acronym CCP, it stands for the Chinese Communist Party!

When The Last Trumpet Blows

September 13, 2023

Dear Compass Supporters:

This could be a big weekend for the Church. Who knows?!

שנה טובה

Lots of reasons for and against the Rapture happening, see comments below.

If the Rapture doesn't happen, the entire Compass team is heading overseas for our Holy Land trip, 160 of us in total covering Egypt, Israel, Ephesus, Corinth, Athens, Rome, Venice and a few knock-your-socks-off islands like Santorini.

It's a privilege to do these trips and a privilege for those who God allows to go. We'll learn a lot, see a lot, make a lot of friends and visually connect a lot of verses. We have another trip laid out for fall of 2024 if this is something you want to do next year...assuming we're still here. Just saying...

The article this week covers several latter-day subjects of interest—enjoy and we hope you learn something or find it interesting!

BP

*And the peace of God, which surpasses all comprehension, will guard your hearts and your minds in Christ Jesus. **Phil. 4:7***

When The Last Trumpet Blows

According to Leviticus 23, one of the holiest days of the year, next to Yom Kippur, is Yom Teruah—also referred to as the **Feast of Trumpets**. It's one of the seven Jewish feasts God commanded the Jews to celebrate each year. *Again the LORD [Yahweh] spoke to Moses, saying, "Speak to the sons of Israel, saying, 'In the seventh month on the first of the month you shall have a rest, a reminder by blowing*

of trumpets, a holy convocation. You shall not do any laborious work, but you shall present an offering by fire to the LORD.” Lev. 23:23-25

So the **Feast of Trumpets** is a day of blowing trumpets. This feast is also referred to as Rosh Hashanah. In the Hebrew, Rosh means “Head” and Hashanah means “the year.”

REFERENCE	FEAST	FULFILLMENT
(Leviticus 23:5)	Passover	The Crucifixion
(Leviticus 23:6-8)	Unleavened Bread	The Burial
(Leviticus 23:9-14)	First-Fruits	The Resurrection
(Leviticus 23:15-22)	Pentecost	The Church Age
(Leviticus 23:23-25)	Trumpets	The Rapture of the Church
(Leviticus 23:26-32)	Day of Atonement	The 2 nd Coming
(Leviticus 23:33-43)	Tabernacles	The Kingdom Age and Eternity Future

The Israelis call it this because they believe it was at this time that the Lord began creating the world and all that is in it. So they celebrate this feast as the beginning of the Jewish New Year.

But God says to celebrate this feast in the seventh month as the 5th of 7 feasts. So the Jews celebrate the new year twice... once on the first day of the first month of Aviv, and again on the first day of the seventh month of Tishri.

10 Days of Awe

The Jews also celebrate Rosh Hashanah as being the beginning of the “10 Days of Awe.”

This declaration is quite interesting and tells us that as a whole, they take their Old Testament scriptures literally. Here’s why...

Between Yom Teruah and Yom Kippur there are 10 days. They refer to them as “**Days of Awe**” because Jewish people know the Holiest day of the year— Yom Kippur, the Day of Atonement— is now only 10 days away.

All Jews know that when the Temple was on Mt. Moriah, once a year on Yom Kippur the blood of a sacrificed bull and goat was brought into the Holy of Holies by the High Priest of Israel.

The High Priest was the only one who could go into the Holy of Holies, and he would pour the animals' blood onto the Mercy Seat which contained the two stone tablets with the 10 commandments written by the finger of God.

So on Yom Kippur the blood from innocent animals would be shed to cleanse the nation’s transgressions against those 10 commandments.

*For the life of the flesh is in the blood, and I have given it to you on the altar to make atonement for your souls; for **it is the blood** by reason of the life **that makes atonement.** Lev. 17:11*

*...all things are **cleansed with blood**, and without shedding of blood there is no forgiveness. Heb. 9:22b*

So these 10 *Days of Awe* were the time for Israel to be aware of the solemn time that was just ahead. It was time to repent of any known sin as the Day of Atonement approached.

This was the time for the Jews to humbly admit they were sinners who needed atonement for their sins. God was providing atonement, and **humility** was what was expected in the *Days of Awe*:

If there is any person who will not **humble** himself on this same day, he shall be cut off from his people. **Lev. 23:29**

The *Days of Awe* were also a **reminder** of Israel's need for a Savior. When the Savior finally came, the Day of Atonement would no longer be necessary.

Speak to the sons of Israel, saying, "In the seventh month on the first of the month you shall have a rest, **a reminder** by blowing of trumpets, a holy convocation." **Lev. 23:24**

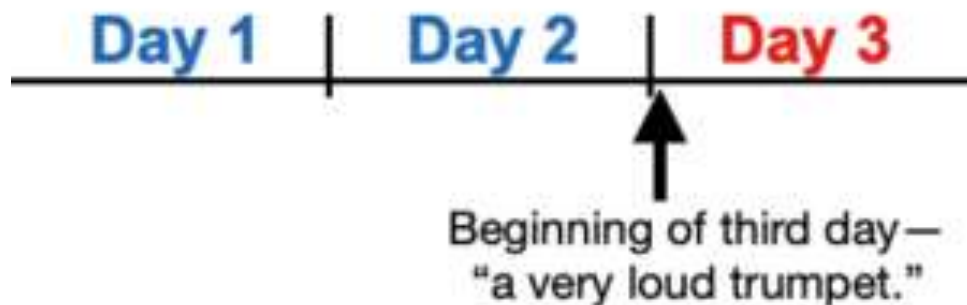

Therefore the *Feast of Trumpets* was a **reminder** that the day was approaching when God would cover all their sin. Having their sins taken away was incredible and only bestowed on those Jews participating in Yom Kippur. They were in *awe* of that fact.

Jewish scribes have long associated the *Feast of Trumpets* with the arrival of their Messiah. So this "reminder" is both for the Jews to prepare for Yom Kippur AND the future arrival of their Messiah.

(Well, OK, they missed Him the first time, and now most will miss Him again at the Rapture! But they will welcome Him at the 2nd Coming. All part of God's plan for the ages. Also, you can see why they want to rebuild their Temple as currently they have no sacrifice. This WILL happen in the Tribulation—Dan. 9:27.)

Believers should also associate this feast with the arrival of Jesus. We can easily see the Rapture in Exodus 20 when the Lord came down from the top of Mt. Sinai on the **third day**. Israelites were at the bottom of the mountain and were greeted with a **very loud trumpet sound**.

So it came about on **the third day**, when it was morning, that there were thunder and lightning flashes and a thick cloud upon the mountain and **a very loud trumpet sound**, so that all the people who were in the camp trembled. **Ex. 19:16**

The people of Israel had gathered in the desert at the bottom of Mount Sinai to meet God.

And Moses brought the people out of the camp to meet God, and they stood at the foot of the mountain. **Ex. 19:17**

Here we see a fascinating foreshadowing of the Rapture. Paul describes the Rapture this way in his very first letter he ever wrote to the churches he planted.

*For the Lord Himself will descend from heaven with a shout, with the voice of the archangel and **with the trumpet of God**, and the dead in Christ will rise first. **1Th. 4:16***
Just as God descended on Mt. Sinai with the sound of the trumpet, Jesus will also have his angels call us with the heavenly trumpet to meet our Lord Jesus in the air.

And just like when the Holy Spirit came to the earth in Acts 2, the Holy Spirit departing at the Rapture will also be quite loud.

*And suddenly there came from heaven a noise like a violent rushing wind, **Acts 2:2***

The Holy Spirit was loud coming at Pentecost to just a few men. Imagine how loud it will be when He leaves the earth with millions in tow. The entire earth will know something just happened and that this mind-blowing noise was supernatural in origin.

So the yearly Jewish celebration of the *Feast of Trumpets* points to the Rapture...but few Jews understand this...at least they don't understand today.

But a lot of Jews WILL understand after the Rapture because Jesus Himself will train 144,000 Rabbinical Jews to evangelize and teach the truth about Jesus the Messiah, Yeshua HaMashiach.(1)

With that background, this next verse makes a lot more sense:

The Last Trumpet

*Behold, I tell you a **mystery**; we will not all sleep, but we will all be changed, in a moment, in the twinkling of an eye, **at the last trumpet**; for the trumpet will sound, and the dead will be raised imperishable, and we will be changed. **1Cor. 15:51-52***

The word "mystery" in the Greek is "*mysterion*," and it means "truth undiscoverable except by divine revelation."

This "mystery" parallels the prophetic book of Daniel that deemed what was being recorded would not to be understood until the latter days.

*"But as for you, Daniel, conceal these words and seal up the book until the end of time;" **Dan. 12:4***

Today any grounded Bible Believer understands Daniel 2 and 7 are about events that are occurring today. God is revealing this mystery in the last days in which we live.

*He [God] has made known to King Nebuchadnezzar **what will take place in the latter days. Dan.2:28***

But even more interesting is that Rosh Hashanah is celebrated by blowing trumpets for two days. There's that two day period again!

And at the end of the two days, technically the third day, the Jews end the *Feast of Trumpets* celebration with a special blowing of the trumpet seven times. And the 7th blow is one very long and loud blast.

So when Paul said the Rapture will happen “at the last trumpet,” he’s referring to **the last trumpet blowing at the Feast of Trumpets**. I believe God has revealed this truth to us!

This year the Feast of Trumpets/Rosh Hashanah begins on September 16 and ends on September 17. We, of course, start and end our day at midnight.

But in Israel, the day ends and begins at sunset. So Rosh Hashanah begins on Friday night at sunset, and ends two days/48 hours later at sunset.

Sunset in Israel Sunday, September 17, is at 6:42 PM. So here in the United States the time the Israelis will be blowing the long last trump on Sunday morning is:

- 8:42 AM Pacific Time
- 9:42 AM Mountain Time
- 10:42 AM Central Time
- 11:42 AM Eastern Time

If the Rapture happens this year, I personally believe it will have been disclosed in scripture that it will happen at the end of the ***Feast of Trumpets***, which in the USA is this Sunday morning.

Obviously I could be wrong. Or the calendar could be wrong. Or I've got the wrong year. Or maybe the mid-trib Rapture position could be right...nah, not a snowball's chance for that one!

Anyway, there are other reasons to think it could be this year. We all can see what looks like “the writing on the wall” going on all over the world. The list is ridiculously long! I'll bet everyone reading this could easily name 10 reasons the Rapture's close off the top of their head.

But there are three major reasons to think Rapture won't happen this year.

1. The vast \$100 trillion **temple treasures** of gold and silver have not been discovered.(2)
2. Israel doesn't seem to yet be the **burdensome stone** to the world.(3)
3. The Believers didn't receive a **7-day warning** direct from God.(4)

But I could be wrong about that warning too.

All things considered, no doubt it sure SEEMS like it could be this year. Hey, we think it's so doggone possible that we sent out 100,000 *Millions Missing?* booklets all over the world last month—made possible by our donors.

And we sent another 10,000 *Millions Missing?* booklets to people who speak and read Spanish. Hey, we're not taking any chances this late in the game. It's possible!

However, if I take out my emotion, I honestly have to say "not likely." But it's the closest we've come so far!

BP

Let us hold fast the confession of our hope without wavering, for He who promised is faithful; Heb. 10:23

As to Bill Perkins' above Three Major Reasons to think the Rapture won't happen this year, I think he is wrong because he is one of those I referred to in Blessed Hope #194 who do not identify the Antichrist as Prince Charles in spite of all the evidence and for the same reasons Daymond Duck states in his 2 E-mails in reply to my questions. He assumes that the Temple Treasures have not been found and that Believers have to receive a seven-day warning from God. There is nothing in Scripture that connects either of them to the Rapture of the Church. I was taught never to assume anything without reason or something to act upon.

I repeat my point using the analogy of a photographer; any serious photographer will before long purchase a wide-angle and a telephoto lens. When I was an active rail fan photographer, I had two Canon F1 bodies with motor-drives, and eight assorted lenses for various purposes and needs. As informative as Bill Perkins article posted at Compass International today is and shared above, they are still not looking at the whole Bible as one big book of prophecy (history told in advance).

HUGE ANNOUNCEMENT

To show you how close we are (days) it was just announced that a Peace Plan for Israel has been announced to be added to the COP28 Sustainable Development Plan. It will be signed on Monday, September 18th, 2023! This is clearly the event spoken of in Daniel 9:27.

[@ISRAEL PEACE PLAN added to 7 year UN SDG plan!!!](#)

Today (Thursday) the proverbial 'other shoe' dropped and now all cards are on the table, 52 straight up, with regards to the true meaning and purpose behind the Abraham Accords covenant signed back in 2020. Now you can sign all the normalization deals you like, if Israel doesn't sign with the 'big cheese' Saudi Arabia they won't mean very much at all. But signing the Abraham Accords with the Saudis and Crown Prince Mohammed Bin Salman comes at a very steep cost. The price tag is the creation of a Palestinian state made from the land of Israel. Will it happen? Absolutely, 100% guaranteed if you believe the Bible. The Abraham Accords are now, and have always been, the '**hook in the jaw**' to lure Israel into a very wrong relationship with their stated enemies.

FROM THE JERUSALEM POST: *"If Saudi-Israel normalization is to move forward, the Palestinian peace is going to be very important too,"* U.S. Secretary of State Antony Blinken said. *"It is also clear from what we hear from the Saudis that if this process is to move forward the Palestinian piece is going to be very important too,"* he said in an interview with the podcast "Pod Save the World."

He spoke as the Biden administration has been increasingly public about its pursuit of a security pact with Saudi Arabia that would include a normalization deal with Israel. It's expected that Israel would have to make concessions to the Palestinians as part of the deal. Such a deal would come on top of the US-backed 2020 Abraham Accords, in which Israel agreed to suspend the annexation of West Bank settlement in exchange for normalization deals with four Arab countries: the United Arab Emirates, Bahrain, Morocco, and Sudan.

Israeli normalization with the Arab world and *"any of the efforts that are going on to improve relations between Israel and its neighbors cannot be a substitute for Israel and the Palestinians resolving their differences and having a much better future for Palestinians,"* Blinken said.

"In our judgment that needs to involve a two-state solution" to the Israeli-Palestinian conflict, he explained.

"Neither the Israeli nor the Palestinian missions were invited to the event, the UN diplomat said, explaining that it is focused on congregating important global stakeholders on the issue in order to "reinvigorate" the peace process." REINVIGORATE = STRENGTHEN. This is = to the meaning of Daniel 9:27.

No Off-Switch For Covid Jab Spike Protein

How long will your body produce modified spike protein after the COVID jab? That's been a question people have been asking ever since the rollout of the first mRNA shots. Two years ago we linked videos by doctors that said the Spike Protein in the covid

va((ine would be manufactured forever. Now research is unfortunately confirming it was true in an article by Dr. Joseph Mercola.

- According to recent research, there may be no off switch for spike protein production in some individuals who got the COVID jab.
- Recombinant spike protein was detectable in half the blood samples of jabbed individuals for at least 69 days, and up to 187 days (about six months, which was the end of the study period.)
- The authors present three “likely” mechanisms behind the persistent spike production: mRNA may be integrated into cells; the spike protein may remain **constitutively active**; or the mRNA may be integrated into bacteria present in the blood, which then **continuously produce spike protein**. All three mechanisms could result in **never-ending spike production** (or spike activity).
- In-vitro research published in 2022 found the mRNA in Pfizer’s COVID jab could integrate into human cellular DNA by reverse transcription.
- By producing spike protein for months and perhaps years on end, your body starts to view the SARS-CoV-2 virus as an environmental irritant rather than the potentially lethal invader that it is. This is called immune tolerance. Your body basically ignores the irritant. However, this can become deadly when your body is assaulted by replicating pathogens.

This is just more proof they are using the va((ines to reduce the world's population. Consider this quote from Dr. Robert Malone regarding the NEGATIVE effectiveness of the new COVID Booster:

Views 3.5K • September 12, 2023

The FDA has approved the new COVID booster shot – and authorized it for emergency use. But this is not being done without controversy. Florida Surgeon General Joseph Ladapo has warned against the booster, saying “There’s been no clinical trial done in human beings showing that it benefits people. There’s been no clinical trial showing that it is a safe product for people.”

The only way this makes sense is looking at it from a Biblical perspective. The Covid scamdemic was and is a plan to “Depopulate” the world. I may have noted that in a recent report in *Nature* magazine, a paper was presented as to the identity of patient “Zero” – the first case of Covid. He was the young Chinese man who flew from Hong Kong via train from Wuhan, China, then flying to Yokohama, Japan to take the cruise ship “*Diamond Princess*” to Hong Kong where he said he was ill and went to a hospital seeking medical attention. Hong Kong physicians did a complete write up of the many tests they did on the young man.

They concluded that patient “Zero” had bacterial pneumonia, considered rare for someone of his young age. They concluded that the workups on the patient had a symptom of a Coronavirus SARS-CoV1. Truth be known it was not a so-called “*rogue, novel virus*” as claimed by Dr. Anthony Fauci and repeated over and over by the media world-wide hundreds of thousands of times to scare the world.

NEW WORLD ORDER

Most of society

In Blessed Hope #193, I posted two almost opposite different positions of the identity of the Antichrist issue. I posted the reply that I received from Mr. Daymond Duck, a United Methodist lay-pastor, as I recall, and author of several books for the 'Biblically Inept' from 1996-2002. Back in the day, I purchased his books and I would not go so far to say that he was as his bio-page says, "Daymond Duck is an expert on Bible prophecy". He is the founder and president of Prophecy Plus Ministries, a conference speaker, a writer for raptureready.com, and has made more than 300 TV appearances. He was born in 1939 in Trimble, Tennessee. He is also a best-selling author of a shelf full of books and has written The Book of Revelation: The Smart Guide to the Bible Series. This is what you will find on the Internet when inquiring about Mr. Daymond Duck.

My point is that Mr. Duck's reply to my question borders on the absurd, if not that he embodies the words of Hosea 4:6. ***"My people are destroyed for lack of knowledge: because thou hast rejected knowledge, I will also reject thee, that thou shalt be no priest to me: seeing thou hast forgotten the law of thy God, I will also forget thy children."***

MR. DAYMOND DUCK RESPONDED TO ME THE AFTERNOON OF September 13, 2023. THIS TAKES THE CAKE FOR ABSURDITY!!!!

I know there are similarities, but the Antichrist cannot be identified while the Church is here.

On Wednesday, September 13, 2023 at 08:39:30 AM CDT, evanteachr@aol.com <evanteachr@aol.com> wrote:

Dear Mr. Duck

What are your thoughts on Prince Charles being the Antichrist?

Thanks

Evan

After thinking about Mr. Duck's reply overnight I thought I would press my question a bit further and so what appears below is Mr. Duck's reply this morning to my follow up.

daymond duck <duck_daymond@yahoo.com>

To:evanteachr@aol.com

Thu, Sep 14 at 11:02 AM

II Thess. 2:3-9

According to the Word of God the Antichrist will be revealed in his time when the Restrainer (church and Holy Spirit) are taken out of the way (at the Rapture).

As long as the church is here, we can speculate, but not be sure.

My opinion.

On Thursday, September 14, 2023 at 08:36:17 AM CDT, evanteachr@aol.com <evanteachr@aol.com> wrote:

Dear Mr. Duck

Thank you for your reply but I teach a high school Sunday school class and my bright students are going to come back at me and ask "Who says we can't identify the Antichrist?" I'm old but you know how teens are and they need to be convinced.

Thank you,

Evan

Unfortunately, Mr. Duck fails to warn or prepare his audience for the Antichrist as his post was titled on Monday, September 11, 2023. Dr. Duck's answer is not unique and in fact it is very common among well-known Prophecy teachers, even Hal Lindsey, Perry Stone, Jack Hibbs and Dr. David Reagan, and so many others. I find that to be very troubling and even misleading for many reasons. Revelation 13:18 points us to how the Antichrist can be identified. ***"Here is wisdom. Let him that hath understanding count the number of the beast: for it is the number of a man; and his number is Six hundred threescore and six."*** This is without question a major marker of Mr. "666". Furthermore, we have upwards of 50+ other points of association to buttress the case that Prince Charles is the Antichrist. It seems to me that Mr. Duck may not be the best source he has been credited to being.

What I am imparting with you is that there are passages of Scripture that tell us God has told us more than enough to identify the Antichrist. Isaiah 46:10 states, ***"Declaring the end from the beginning, and from ancient times the things that are not yet done, saying, My counsel shall stand, and I will do all my pleasure:"*** and John 14:29 says, ***"And now I have told you before it come to pass, that, when it is come to pass, ye might believe."***

I have been over the past months pointing the readers to refocus their understanding of the Bible. When people look at prophecy they tend to think future as a static concept; however it is much greater than that. We are reading the Bible as History told in advance, all of it! The Bible is one huge book of prophecy. From Genesis 1:1 to Revelation 22:21 is all prophecy!

In the time that I have been analyzing Scripture through this perspective, I began to compile a list of key words that open up and support my above references of Isaiah 46:10 and John 14:29. I would have been happy just to find 25 but as it turns out, I have identified at this point in time over 8,000 and counting. My concern is that time will not afford me the luxury of more time to finish this study. With days away from my dates of September 19th/20th it may never be finished.

My final and last point about why so many people are deaf and dumb to the identity of the Antichrist was staring me straight in the face. **The Bible is telling us that the world is not interested in the Antichrist because people are not thinking about the things of God; and that the few lone voices out there are being ignored. Scripture is telling us why the world will not know the identity of the Antichrist until after the church is Raptured out of the current space/time dimension.**

The world as we have known it is coming to a closure of the 6,000 year plan for man to rule and reign over the planet before God has to intervene and step into prevent man from destroying God's creation. The war between Satan and God has been our so-to-speak teachable moment in life to decide who it is that we will choose. Satan's plan

was revealed in Isaiah 14 and through the pages of the Bible we have essentially viewed everything from the beginning to the end and everything in between! It boils down to personal choice, and God has given you free will to decide who you will place your faith and trust in! You choose the path of your destiny!

Rothschild Admits ESG Failure As Globalists Shift To “Inclusive Capitalism” Agenda

September 13, 2023

This article was written by Brandon Smith and originally published at Birch Gold Group

In July of last year as the hype surrounding the covid pandemic was finally dying out I published an article about a barely publicized project called the “Council For Inclusive Capitalism.” The group, headed by Lynn Forester de Rothschild who now seems to be the public face of the notorious Rothschild dynasty, is the culmination of decades of various globalist agendas combined to represent the ultimate proof of “New World Order” conspiracy. Remember when people used to say that global governance by elitists was a paranoid fantasy? Well, now the plan is an openly admitted reality.

The CIC is intimately tied to institutions like the World Economic Forum, the UN and the IMF, but it is primarily an attempt to link all these organizations more closely to the corporate world in an open display of collusion. The group pushes the spread of what they call “Stakeholder Capitalism” – The idea that international corporations have a responsibility to participate in social engineering, and that they are required (in the name of the greater good) to manipulate civilization through economic punishments and rewards.

We witnessed this agenda in action during the covid lockdowns and the rush to enforce vaccine passports. These efforts would not have been possible without the participation of major corporate chains working hand-in-hand with national governments and the World Health Organization. Luckily, the strategy failed as local governments and the public fought back.

We have also seen the ugliness of stakeholder capitalism in the push for ESG rating systems among major companies. Most readers are probably familiar with ESG at this point; just keep in mind that the public was oblivious to the terminology until the past 2 years. Globalists have been developing ESG rules since 2005. What is ESG? As Klaus Schwab of the WEF notes:

“The most important characteristic of the stakeholder model today is that the stakes of our system are now more clearly global. Economies, societies, and the environment are more closely linked to each other now than 50 years ago. The model we present here is therefore fundamentally global in nature, and the two primary stakeholders are as well.”

...What was once seen as externalities in national economic policy making and individual corporate decision making will now need to be incorporated or internalized in the operations of every government, company, community, and individual. The planet is thus the center of the global economic system, and its health should be optimized in the decisions made by all other stakeholders.”

ESG was intended to be the tool that globalists and governments would use to force companies into the stakeholder capitalism model. It is much like the Chinese communist social credit system, but for businesses rather than individuals. The higher a company's ESG score, the more access lending and government funding they would have (easy money). It started out in 2005 focused on climate controls (influencing corporations to accept carbon credits and taxation). But, by 2016 it became something else; ESG widely adopted woke politics including Critical Race Theory, feminism, trans ideology, various elements of Marxism, etc.

This was the modern ESG that all of us are aware of today. The goal was to incentivize corporations into bombarding the public with woke messaging 24/7. Every movie, every TV show, every book, every comic, every children's cartoon, every commercial, every product, every major social media site, every employee handbook, every social interaction would be tainted with the poison of woke propaganda. There would be nowhere to hide, nowhere to escape the messaging. And it worked, for a little while...

The exposure of ESG is perhaps one of the greatest triumphs of the alternative media. It was proof that the “wokification” of our economy and society was not the result of some grassroots activist movement or the natural evolution of civilization. No, everything woke was a rigged agenda, an astroturf movement forced into existence by corporations and globalists using ESG as the vehicle.

It is with some disappointment I'm sure that Lynn Forester de Rothschild recently admitted the defeat of ESG at the B20 Summit in India. Though, Rothschild also suggests that the goal will be to replace the term “ESG” with something else that the public is not as privy to. In other words, the globalists have been forced to abandon ESG but will continue to look for other methods to trap companies into the far-left hive.

It is typical for globalists to re-brand their projects whenever they get exposed as a way to throw the public off the scent. However, I don't think this tactic is going to work anymore. Researchers are locked onto the ESG dynamic and changing the name will not help the establishment avoid scrutiny.

Interestingly, I have noticed a dramatic shift by globalists towards a defensive posture, rather than the offensive posture they held a couple years ago. I can only conclude that something went very wrong for them during covid. They were brazen with their rhetoric in 2020, basically admitting their intentions to enforce a global authoritarian system. Now they are sheepish and much more careful in the things they say.

To this end, most of the honest discussion on globalism is no longer found in the statements of the WEF or the halls of the Davos forums. People like Klaus Schwab are fading into the background. The true agenda is now discussed at more obscure climate change events such as B20 in India or the Summit for a New Global Financing Pact in Paris which I covered in July. These are the events where globalists feel more free to talk about what they REALLY want.

One interesting comment from Rothschild at B20 was her claim that Biden's "Inflation Reduction Act" is one of the best models for incentivized climate controls. This confirms what we already suspected: The Inflation Reduction Act had nothing to do with inflation. Rather, it was a way to divert taxpayer funds into government subsidies for carbon taxation and green tech. That is to say, Rothschild and the CIC want to dictate global business and force companies to adopt ESG-like policies using trillions of dollars in climate funds (\$7.5 trillion per year, to be exact).

Look at it this way: Any company that "volunteers" to use less efficient green tech and to promote climate ideology gets access to government subsidies – they get rewarded. Any company that refuses to go along with the plan will ultimately face heavy taxation while trying to compete with their subsidized peers – They are forced out of business. This is, essentially, the early stages of a global communist/collectivist economic regime.

And this is where we get to the crux of the issue. There is no "inclusive capitalism." There is no "stakeholder capitalism." There is no "ESG." Climate change as an existential threat is a farce, just as covid was never a legitimate threat to the vast majority of people. All of these issues represent smoke and mirrors, a way to distract the populace from the root intent – To create total financial centralization in the hands of a select few elites. It's not about the environment. It's not about public health. It's ALL about the economy. The end game for them is to convince the public to embrace economic micromanagement.

Once the economy is locked into an ideological prison where businesses are forced to virtue signal, once access to private trade can be denied by a handful of bureaucrats working with corporations, the establishment then has the means to dictate every other facet of society. Our behaviors, our beliefs, our principles, our morals; everything is up for grabs. For if the oligarchy has the power to determine if you and your family eat or starve, they then have the power to make you do anything they want you to do.

Get ready for the Antichrist rule of Prince Charles of Wales!

◆◆ The launch of the Global Sustainable Development Report 2023.

The 2023 Global Sustainable Development Report (GSDR), finds that at this critical juncture, midway to 2030, incremental and fragmented change is insufficient to achieve the Sustainable Development Goals (SDGs) IN THE REMAINING SEVEN YEARS. Implementation of the 2030 Agenda requires the active mobilization of political leadership and ambition for science-based transformations. This must be achieved globally - leaving no country, society or person behind. The report is an invitation to embrace transformations with the urgency needed to accelerate progress towards the SDGs.

What did UN System organizations report on their activities to accelerate the recovery from COVID-19 and the full implementation of the [#2030Agenda](#) and the [#SDGs](#) at all levels? Read the 2023 snapshot of the UN System SDG Implementation Database!

New UN Global Sustainable Development Report by an independent group of scientists calls for transformational shifts rooted in science that would urgently reverse course and turbocharge the [#SDGs](#).

Read it here bit.ly/GSDR2023 [#GSDR](#)

God's Incredible Use of "7"

Nearly a decade ago I wrote a 2-volume eBook on the Mathematical Proof of the KJV Bible. I have just discovered and found an incredible study that has been even more astonishing than what I was doing. In my work I showed how the Bible contains the number "7" distributed throughout the Bible at nine different levels; each one deeper than the previous.

What I saw in the following video linked just below is the most amazing study revealing the confirmation that the 1611 KJV Bible is the Pure Word of God. God has shown that He knows everything from beginning to end and everything in between. I hope you can take an hour of your valuable time to view this video:

<https://youtu.be/yS78mFJcvhQ>

Days to September 19th as of 9/16/23 – 3 Days
Days to begin COP28 November 30th as of 9/16/23 – 75 Days
Days to end COP28 December 12th as of 9/16/23 – 87 days

Praise God!

**ADMIT THAT YOU
ARE A SINNER.**

**BELIEVE THAT JESUS
PAID FOR YOUR SIN
ON THE CROSS. †**

**CONFESS THAT JESUS
IS LORD AND CALL UPON
HIM FOR SALVATION.**

Blessings in the Precious Name of Jesus Christ, Lord of lords, and King of kings!
