

The Blessed Hope!

“Looking for that blessed hope, and the glorious appearing of the great God and our Saviour Jesus Christ;” –(Titus 2:13)

Diamond & Nugget #198

In helping people grasp the urgency of the times, I came across these three short video segments of being able to gain perspective on what we are on the cusp of. If you are not a Bible scholar or just waking up to reality, these three clips below will help you to see the “big picture” and increase your understanding the Gospel in the Stars!

Wormwood | Rapture, Tribulation, Trumpet 3, Satan, Stars Fall, Gall, Bitterness

https://youtu.be/--Pu_Q00pRo

Recently in June I received a question about the Chernobyl nuclear power plant which exploded back in 1986. This occurred during the days of the former Soviet Union on April 26, 1986. The word “wormwood” is found **9x** in the Bible, but it is mentioned twice in Revelation 8:11. The individual wanted to know if the Bible was referencing Chernobyl.

“And the name of the star is called Wormwood: and the third part of the waters became wormwood; and many men died of the waters, because they were made bitter.”

Yes, the word "Chernobyl" means "wormwood" in Russian. The name Chernobyl has been associated with Wormwood since the nuclear disaster, which some have alluded to have occurred in the Book of Revelation, 8:10-11. The Greek word for wormwood in

the Bible is ***apsinthos***, which means "wormwood (as a type of bitterness, i.e. [figuratively] calamity".

The U.S. government and media have lied to the American public regarding any success stories in the Ukraine. Essentially a half-million Ukrainian military have died since the war began on February 24, 2022, the day I was admitted to an ICU at my local hospital. Russia could have destroyed the Nazi regime in Kiev in two weeks if they had desired to use their might. There are two former U.S. officers who have been honest about this war; they are former Marine Major Scott Ritter, and Army Lt. Col. Douglas Macgregor.

NATO chief Jens Stoltenberg has said that the conflict in Ukraine will not end until Russia *"lays down its weapons"*. Don't hold your breath on that happening!

The West must prepare for *"a long war"* in Ukraine, NATO Secretary General Jens Stoltenberg declared on Sunday September 17th, 2023. Despite claiming to want a *"quick peace"* in Ukraine, Stoltenberg insisted that he still supports President Vladimir Zelensky's goal of a military victory over Russia.

"Most wars last longer than expected when they first begin," Stoltenberg said in an interview with Germany's Funke media group. *"Therefore we must prepare ourselves for a long war in Ukraine."*

Ukraine will go down in history as the starting place for World War III, As in the two previous world wars, society is for the most part largely oblivious to what precipitated those wars. U.S. society associates the Pearl Harbor attack on December 7, 1941 as the beginning of World War II; however, the years before that infamous day contain the real story. The same is true for the events that precipitated World War I. If anyone wants an honest understanding of what is the reality on the ground in the Ukraine, they need to hear what these former (Ritter and Macgregor) warriors have to say.

The mention of **"wormwood"** twice in Revelation 8:11 elicits our need to grasp what Jesus Christ has revealed to us in advance of what is nearer than we might think. The third plague consists of a burning star that falls from the sky on the inland waters, turning them bitter and causing the death of many people. This contamination of the fresh water supply recalls the first Egyptian plague in which the water was turned to blood -(Exodus 7:20). The burning star that falls from the sky may be a great meteorite set afire as it plunges through the earth's atmosphere. Like the blood-red storm and the burning mountain, it is a symbol of divine visitation. God is moving in judgment, and people must repent or bear the full fury of his coming wrath. Some writers note a similar phenomenon in Persian eschatology, but a real parallel is highly doubtful.

The star falls on a third of the rivers and on the springs of water. It is possible that John may be revealing divine displeasure against the rather widespread worship of supernatural spirits thought to be associated with rivers and springs. Like the other

plagues, however, it is directed primarily against the world of nature. Only indirectly does it affect people or the spirit world.

The star is named for the effect it has on the water. It is called Wormwood after the strong bitter taste of the plant of that name. In the Old Testament wormwood was used as a symbol of bitterness and sorrow. Proverbs warns against the strange woman whose lips drop honey but in the end is **"bitter as wormwood"** -(Proverbs 5:3-4). The writer of Lamentations prays, **"Remember my affliction and roaming, the wormwood and the gall!"** -(Lamentations 3:19). Because Israel has forsaken God, he will **"feed them ... with wormwood, and give them water of gall to drink"** -(Jeremiah 9:15, cf. Jeremiah 23:15).

When the great star blazing like a torch fell on the rivers and springs of water, they became as bitter as wormwood. It is the reverse of the miracle at Marah where Moses cast a tree into the bitter waters and they were made sweet -(Exodus 15:25). Although wormwood itself is not poisonous, its bitter taste suggests death. What John is saying is that a portion of the inland waters were contaminated by a spectacular act of God and many people died as a result of drinking the water.

The third plague consists of a burning star that falls from the sky on the inland waters, turning them bitter and causing the death of many people. This contamination of the fresh water supply recalls the first Egyptian plague in which the water was turned to blood -(Exodus 7:20). The burning star that falls from the sky may be a great meteorite set afire as it plunges through the earth's atmosphere or something more lethal. Like the blood-red storm and the burning mountain, it is a symbol of divine visitation. God is moving in judgment, and people must repent or bear the full fury of his coming wrath.

The Greek word for "third" is **"tritos"** and appears **13x** in the book of Revelation, more than any other book of the Bible. Only the gospels of Matthew, Mark, and Luke use the term frequently. It would require three or four pages just to go into all the nuances and grammatical inflections to explain the importance of verses like Revelation 9:15 and Revelation 9:18, but for brevity purposes here the **57x** this word **"tritos"** is found; it means exactly "one third". Many commentators and theologians would have us believe the term "one third" simply means "many" do a dis-service to the Body of Christ. The Greek language has other words that mean "many". These include **pollá**, **polio**, and **polloí**. Since nuclear war was an unheard of concept until August of 1945, it is quite likely the description using symbolic language of John's day alludes to exactly what the world fears today. This was brought home to me during the Cuban missile crisis of 1962, and preceded before that by spending three years in West Germany as a member of a nuclear artillery battalion.

Revelation 9:18 states, **"By these three was the third part of men killed, by the fire, and by the smoke, and by the brimstone, which issued out of their mouths."** The fire, smoke, and sulfur are intended to be taken as three separate plagues. The result is that a third part of humankind is killed. The scene is reminiscent of the burning sulfur

that fell upon Sodom and Gomorrah in divine judgment -(Genesis 19:24; cf. Jude 7).
The first Woe brought torment; the second brings death.

Bill Gates' Massive Covid Profiteering Exposed In Viral Social Media Post

by Kelen McBreen
September 16th 2023

A viral social media post revealing how much Bill Gates profited from the Covid pandemic was viewed over two million times in just two days.

Popular X account Pelham shared the post, writing, *"Bill Gates purchased shares in BioNTech (Pfizer's partner for its mRNA Covid shots) in September 2019... just months before the pandemic was announced..."*

"Gates purchased 1,038,674 shares at pre-public offering price of \$18.10 per share..." the user explained.

The post continued, **"Gates dumped his stocks, in November 2021 at an average sale price of \$300 per share... Gates on the same day said, 'We need a new way of doing the vaccines, because the vaccines *didn't stop transmission*' despite all of his previous claims to the contrary. It's almost like Gates knew Covid-19 was going to be released, and he also knew the vaccines were never designed to stop transmission."** [Gates knew in January of 2019 and his statement at the Davos

meetings telling Becky Quick on Squawk Box of CNBC, his investment in vaccines was a 20-to-1 return confirmed he knew!]

Bill Gates

The post is accurate, as noted by Jordan Schachtel in January when he reported on SEC filings showing, *“the Gates Foundation’s holdings in BioNTech went from 1,038,674 shares to 148,674 shares over the course of the third quarter of 2021, downsizing the Gates position in the mRNA vaccine manufacturer by 86 percent of shares held.”*

“As you can see below, Gates just so happened to time the market perfectly, selling the shares during BioNTech’s best performing quarter,” he noted in the article along with a graphic.

In July 2022, Dr. Joseph Mercola wrote a thorough article explaining how Pfizer conveniently profited from the Covid pandemic.

Even NBC admitted back in January that the Covid pandemic drove Pfizer's 2022 revenue to a record \$100 billion.

The report does not mention that it was Bill Gates who gave \$100 million to Dr. Anthony Fauci to play with, use at his discretion. Bill Gates is one of lap dogs doing the bidding of Prince Charles, Klaus Schwab and the WEF SDG's.

Dr. Anthony Fauci has a \$100 million conflict of interest which is why he was opposing former President Trump. He is in league with Bill Gates who has pledged \$100 million for Fauci to play with. That has been known since before the March 11, 2020 Pandemic declaration was made.

US State Dept. denies Saudi-Israel peace talks halted
An Arabic media report had claimed Riyadh withdrew from normalization talks due to Benjamin Netanyahu's "extremist" government.

By [JERUSALEM POST STAFF](#)

The US State Department's Bureau of Near Eastern Affairs denied reports that efforts to reach a normalization deal between Saudi Arabia and Israel had been halted on Monday.

"The United States remains committed to furthering Israel's regional integration, including through active diplomacy aimed at Israel-Saudi normalization. Talks are ongoing, and we look forward to further conversations with both parties," the Bureau of Near Eastern Affairs posted on X.

(L-R) US President Joe Biden, Saudi Crown Prince Mohammed Bin Salman and Prime Minister Benjamin Netanyahu

The Arab news outlet Elaph recently cited an unnamed Israeli official in the Prime Minister's Office as saying that Saudi Arabia had informed the Biden administration of its decision to halt all [talks of normalizing ties](#) with Israel on Sunday.

According to the Elaph report, Riyadh issued a message through the US, explaining that the "extremist" nature of [Israel's right-wing government](#) led by Prime Minister Benjamin Netanyahu is "*torpedoing any possibility of rapprochement with the Palestinians, and thus with the Saudis.*"

Furthermore, the report specified that Saudi Arabia was put off from a potential peace deal due to Netanyahu's "acceptance" of demands made by the likes of National Security Minister Itamar Ben-Gvir and Finance Minister Bezalel Smotrich, who the Saudis see as "extreme right."

Saudi-backed EU venture aims to incentivize Israeli-Palestinian peace Ministerial gathering on UNGA sidelines will see European, Arab, global actors form working groups to develop perks that conflict parties will be able to enjoy if they make a deal

By [JACOB MAGID](#) Today, 9/18/2023

Prime Minister Benjamin Netanyahu meets with Palestinian president Mahmoud Abbas during the state funeral of late president Shimon Peres, held at Mt. Herzl in Jerusalem back on September 30, 2016.

Saudi Arabia, the European Union, the Arab League and other international partners will unveil an initiative Monday aimed at incentivizing Israel and the Palestinian Authority to strike a peace deal.

The “Peace Day Effort” will be rolled out at a ministerial event on the sidelines of the United Nations General Assembly in New York. Participating countries from three working groups will be tasked with coming up with the contents of a “Peace Supporting Package,” which will be presented to Israel and the PA upon the signing of a future peace agreement, a senior international official familiar with the matter told *‘The Times of Israel’*

One working group will outline potential peacetime regional, political and security cooperation mechanisms; a second working group will develop proposals for economic cooperation in areas such as trade, investment, innovation, transportation, natural resources and the environment; and a third working group will develop proposals for cooperation in humanitarian, inter-cultural and human security issues.

The initiative has been in the works for several years and is being presented as a joint effort by the EU, Saudi Arabia and the Arab League in cooperation with Jordan and Egypt. However, officials familiar with the project said the main

driving force behind it is the EU's Special Representative for the Middle East Peace Process Sven Koopmans.

The plan's backers say they are looking to build on the Arab Peace Initiative — a 2002 proposal offering Israel diplomatic ties with the entire Arab League if the former reached a two-state solution with the Palestinians. That framework has taken a hit in recent years, as several Arab countries agreed to normalize ties with Israel without waiting for the creation of a Palestinian state. Even the API's principal backer, Saudi Arabia, is in talks with the United States about normalizing ties with Israel.

Sven Koopmans (Tweede Kamer der Staten-Generaal)

The Peace Day Effort is also building on a 2013 offer by the EU to present an *“unprecedented package of political, security and economic support”* to both of the conflict's parties once they reach a peace deal. The terms of such an offer were never fleshed out and the formation of the working groups will provide the sides an opportunity to do so.

The initiative is separate from any peace negotiations, which do not appear to be in the offing. Israel is currently led by what is widely seen as the most right-wing government in its history, while the PA has slowly lost its legitimacy in the eyes of Palestinians amid allegations of corruption.

However, those behind the initiative believe there is still work that international actors can carry out in the interim, with the hope that providing additional carrots will entice the parties to the conflict to come to the table to try and negotiate a peace agreement.

The working groups will aim to hold an initial assessment in December before presenting the Peace Supporting Package by September 2024, according to the senior international official.

Countries and organizations from around the world have been invited to take part in the EU-Arab effort, including the United States.

The Biden administration is expected to send a representative to the Monday event, but is not particularly enthusiastic about the idea, according to two sources familiar with the matter, who said that it clouds U.S. efforts to advance a potential Israel-Saudi normalization agreement as well as the Negev Forum, which features already-created working groups aiming to advance regional cooperation in many of the same fields being discussed on Monday.

Addressing Monday's event will be UN Secretary-General Antonio Guterres, Arab League Secretary-General Ahmed Aboul Gheit, and the foreign ministers of several Arab countries.

Israeli and Palestinian officials were not invited to Monday's event, as it focused on engaging the contributors to the Peace Supporting Package. However, the initiative's backers are engaging with both of the conflict's parties to hear what they would like included in the package, the senior international official said.

The EU's foreign policy chief Josep Borrell will be discussing the initiative with Israel's Foreign Minister Eli Cohen and PA Foreign Minister Riad al-Maliki in separate meetings on the UN General Assembly sidelines this week.

The initiative is the latest effort by Saudi Arabia to engage in the Israeli-Palestinian conflict, as it negotiates with the Biden administration about a potential normalization agreement with Israel.

Earlier this month, Riyadh hosted a PA delegation and assured its participants that Riyadh "will not abandon" the Palestinian cause, even as it discusses normalizing ties with Israel, a US and an Arab official told The Times of Israel last week.

UN Secretary-General Antonio Guterres addresses the media during a visit to the UN office in Nairobi, Kenya, May 3, 2023.

Many people don't realize that Mr. Antonio Guterres is a radical socialist through and through. He joined the Portuguese Socialist Party to help topple the existing government back in the 1970s, before being appointed to many prominent positions and overseeing the subjugation of Portuguese currency to the Euro, forfeiture of Portuguese lands to the Chinese, and other socialist "reforms" until the Portuguese peasants had finally had enough.

There will be follow-up conversations between U.S., Israeli, Palestinian and Saudi officials on the UNGA sidelines about a potential normalization deal, but Riyadh will likely need several months to study the issue further before raising specific Palestinian-related demands in its talks with the Biden administration, according to the two officials.

Last month, Saudi Arabia's ambassador to Jordan began serving as Riyadh's first-ever nonresident ambassador to the Palestinians as well as its first-ever nonresident consul general to Jerusalem.

The Arab official explained that Riyadh has made clear to Ramallah that it is prepared to depart from its long-held public stance against normalizing ties with Israel absent an actualized two-state solution to the Israeli-Palestinian conflict, and that the PA has come to terms with this development and accordingly is asking for measures that fall short of immediate statehood.

In 2002, Mr. Antonio Guterres and the rest of the socialist bums were tossed out of office. In 2005, he was elected to serve as the UN's High Commissioner for Refugees—promptly demanding that *"rich countries do more"* for the world's refugees—before finally ascending to the position of the UN Secretary General in 2016.

Antonio Guterres' rise to power is remarkably similar to the rise of the radical Ethiopian revolutionary who is currently running the World Health Organization, Dr. Tedros Ghebreyesus. Together, these two men are wielding an enormous amount of influence on global affairs, and they are using their forked-tongue socialist speak to sell their radically ridiculous ideas to the ridiculously naive political class.

From the two newspaper reports from Israel it would seem that chances of getting *"peace and security"* in the Middle East has hit a major road block. Over the past month or two it seems that Benjamin Netanyahu has chosen to be just as stubborn as Saudi Crown Prince Mohammed Bin Salman. I would submit that as the Bible implies there will be no peace until the real Prince of Peace comes! I can't help but think that if you look at the passages of Scripture where that term is used, Isaiah 9:6; Ezekiel 46:2; and Daniel 8:25, this becomes a situation that

will portend a silver lining for the Antichrist to capitalize on that will lead to his exaltation in the world desperately wanting peace. U.S. football fans have an expression, *“the Hail Mary Moment”*. The ‘Hail Mary’ can be one of the most exciting plays in all of football when it’s successful for the offense, and the most heart-wrenching for the defense.

Diplomats gather at a meeting convened by Saudi Arabia on the sidelines of the UNGA in New York to discuss the Arab Peace Initiative on September 20, 2022.

What am I saying? It seems to me that Satan has been setting the stage here for the debute of the Antichrist, yes, Prince Charles. Up to this point in time, Prince Charles has operated from the shadows of the public eye, and for many reasons, The Saudi snag that threatens to scuttle impending events has been scripted by Satan himself and therefore we know from Daniel 9:27 the outcome of events over the weekend are already baked into the cake of history. I was positive of Charles being the one! *“And he shall confirm the covenant with many for one week:”* but what eluded me was the knitty gritty details on how he would go about to set the world up for his *“Hail Mary Moment!”* I sense the excitement is building to what will occur relatively soon.

I have been overwhelmed with important news on so many topics that I follow and so have been delayed in providing my own overview of trusted therapies and protocols. I began my own regimen against the Covid “bioweapon” more than four years ago and have saved over 70,000 documents, videos, by almost every known expert in the various fields. My kitchen is like a vitamin and supplement shop.

The late Dr. Zev Zelensky early on in 2021 posted his Z-60 program, for over 6,000 patients in New York City with no loss of life. Dr. Z posted the ingredients on his web page for anyone interested in preventing what was being called Covid. It seems everyone chooses still to call the common cold as being Covid. It does not exist, it never existed, and no labs in the world have been able to prove it using the Koch Postulates. For those unfamiliar with the “**Koch Postulates**”, they have been the “Gold Standard” in virology. No study has been done that I know of and over a hundred labs around the world sought from the U.S. health agencies and never received either deep image cell slides or samples for analysis by countries around the world. It has been a hoax from day one but fear becomes an over-powering emotion that even with evidence is still hard to change people’s mindset. It was done to cover for the agenda to prepare people for the “Cloud” Internet of Things, Bodies, Devices, etc..

I recommend that you read any of Dr. Judy Mikovits writings if you want professional advice and information. I have purchased all three of her books, read them each at least two times. Her specialty is virology/microbiology and she is buried in the Internet by algorithms so that you struggle to get her articles. The bogus fact checkers are the first thing that comes up on the computer to attack her credibility. She was a PhD graduate that went to work for the infamous Dr. Anthony Fauci at the NIH doing cancer research. She is now located in Reno, NV working with people that have been injured. Over the past four years, I have listened to every interview she has done and she was instrumental in exposing the national blood supply during the early years of HIV was not being screened for the HIV pathogen.

One of the earliest discoveries that have come about the “Fear” virus labeled Covid-19 has been that you cannot trust any of the “fact checkers”. They are frauds and lead the way to discredit credible physicians, scientists, and experts such as Dr. Peter McCullough of Baylor University. Dr. Peter McCullough’s resume and record are as impeccable as you would want if you needed a cardiac internist. He has authored over 600 peer-reviewed papers and journal articles. Today Dr. McCullough lead’s the push-back movement to expose the crimes against humanity done in the name of Covid-19. The information that I share comes from five years of day-in and day-out investigation of this crime against humanity. I have gleaned virtually thousands of documents, videos, exposes, studies, some by former pharmaceutical companies, such as Karen Kingston. Being retired God has given me the time to become a “watchman” and to warn people of the global plan to “Depopulate” the planet of seven billion people.

Each shot and ongoing booster was intended to change us “Homo Sapiens” into “Homo Borg Genesis”, create a new species that is part human and part cyborg. The treatment that I am going to cover is for both the unvaxed and for those who unwittingly took the shots for one reason or another. The first part of this is for those who have not taken any shots. The photo shot of Dr. Z’s Z-60 protocol below lists the basic ingredients.

Today one of the most valuable sources of current information is that of Dr. Paul Alexander. He posts several posts a day covering the fraudulent vaccines, and other related topics. I have been a subscriber to Dr. Paul Alexander’s sub stack page for well over a year and his advice is always spot on target. Now to other vitamin supplements of importance are:

- NAC
- Quercetin
- Choline
- Elderberry
- Zinc
- Bromelain
- Vitamin D3

I am in the age category from which most deaths labeled as Covid occur. 6% of the deaths blamed on Covid occurred in those over 60 years of age. Below is the CDC’s own data posted for the mortality since the beginning of the Pandemic declaration on March 11, 2020. Those over 60 generally have a comorbidity or a

health issue that is vulnerable to other pathogens. The government's own stated fact is that most people over the age of 60 are taking 7 prescriptions a day. I have been a natural-path since the age of 40 or almost a half-century. I take 1 prescription which is a blood thinner for those diagnosed with AFib, it is called Eliquis. Atrial fibrillation (AFib) is an irregular and often very rapid heart rhythm. An irregular heart rhythm is called an arrhythmia. AFib can lead to blood clots in the heart. It is very expensive but as I am under VA home health care, I pay a co-pay of \$11 a month. Eliquis is to prevent strokes. I have a finger oximeter to check my vitals, and use either an arm cuff or a wrist cuff to monitor my blood pressure.

In addition to the AFib issue, I have debilitating Wi-Fi induced Lymphedema which I mention in my comments/articles on Brucellosis Mycoplasma a few segment back.

If you go to my web page www.pastorbobreid.com and check the right-hand column you will see that I have written or posted 156 articles on 5G wireless energy and at least 262 articles on the Corona Pandemic. I encourage you to save my web page link and email address because the day is coming when the censors replace the existing Internet with a new Internet that may require one to be connected to the new Cloud "Internet of Things" and we can only speculate what that will entail. I will go "dark" at that point if I am not either Raptured or taken home before such time. I am confident that I will go in the Rapture and so leave that to the Lord Jesus Christ. I believe that since 1998, my ministry has been that of being a "Watchman" of Ezekiel 33. By knowing my URLs a person will still be able to access and read my work when things change.

Moving on to those who were vaxxed, I know that the greatest supplement one can take to degrade the spike Protein in their body is Nattokinase, a supplement that originated with the Japanese medical community. We have a grandson taking it for adverse effects resulting from the va((ine. Anyone experiencing all of

the many symptoms. It is my understanding that it is necessary to take it for several months until the spike Protein is degraded to be of no or little consequence. Let me make an important point here. The unvaccinated remain vulnerable due to what is called shedding. The unvaccinated can be vaccinated through close or intimate contact with vaccinated family members. The demented people behind the pathogen intended for this to occur no doubt. In that case it would seem to me prevention by taking a baby aspirin to mitigate against blood clots and heart issues. Since I already take Eliquis as a blood thinner, it is risky to take an aspirin or Nattokinase.

For those who have been vaccinated, the more shots or boosters one has had will complicate mathematically up the problem hugely since each shot degrades our God-given immune system. The highest mortality reported by Edward Dowd, author of *'Cause Unknown'* has been with those who have had the first booster shot, or a total of three jabs.

The spike Protein inserted into the Moderna and Pfizer vaccines is the primary cause of mortality because once injected, spreads throughout the body and the body reacts by attacking the vaccine, which keeps reproducing itself, which leads to an overworked immune system that cannot deal with the abuse. The end is death and Dr. Judy Mikovits states at least 50-million Americans will die because they already have the XMRV gene that came from cell lines used to produce cancer drugs from such things as the SV40 or Simian Virus 40. Here is a link that will explain the XMRV gene: [The saga of XMRV: a virus that infects human cells but is not a](#)

Dr. Betsy Eades, a doctor in north Florida has stated as recent as two weeks ago on the Greg Hunter, "WatchDogUSA" program and has said upwards of 2-billion worldwide will die from the vaccine. She has been firm on that number from her knowledge and experience. The very first doctor that I listened to was Dr. Sherri Tenpenny, who has recently been suspended by the Ohio medical authorities for frivolous reasons that she did not comply with their letters. Dr. Tenpenny reported as early as October of 2020 that the Spike Protein contained PEG, or Polyethylene glycol which in any amount is like drinking antifreeze and it would cause major problems, and that it has. PEG is lethal whether ingested, inhaled, or injected!

The world is headed for some sort of showdown as the failed UN gathers this week for another irrelevant General Assembly meeting.

The only so-called leader of the 5 permanent members of the Security Council to attend will be the fake U.S. "President" Joe Biden. The UN failed to achieve its year 2000 goals of ending poverty and stopping environmental destruction and it is failing to meet the same goals after moving the goal post to 2030. To understand what the UN really represents, take a look at their 666 building in West Africa.

No wonder the world is now waiting for the entire Khazarian Mafia-dominated post-war world order to collapse and its leadership to face war crimes tribunals. Even the fake U.S. Secretary of State Anthony Blinken was forced to admit *“What we are experiencing now is more than a test of the post-Cold War order. It’s the end of it.”*

That’s why all sorts of intrigue are going on under the surface as the battle to replace the collapsing KM intensifies.

One very interesting such incident was the temporary arrest of Canadian Crime Minister Justin Trudeau in India at last week’s G20 meeting. Indian drug-sniffing dogs *“detected large amounts of illegal drugs aboard”* Trudeau’s official airplane, according to Canadian Security Intelligence Service officials.

Although their demise is inevitable, the month of October will be key to making this happen sooner rather than later. The reason, of course, is the U.S. Corporation is again facing bankruptcy as the September 30th fiscal year-end approaches.

With one month left to go, the deficit for fiscal 2023 now stands at \$1.52 trillion and no source of funding has been found for this so far.

This is especially true following the failure of a major push by the P2 Freemasons to convince China to fork out the money.

U.S. “Ambassador” to Japan Rahm Emanuel and his fellow Satanists thought the KM could pull another Obama con job on the Chinese by offering Kamala Harris as a brown-skinned female slave president for the U.S. Corporation.

On Friday, he posted on X/Twitter claiming Chinese Defense Minister Gen Li Shangfu Li had not appeared at a scheduled meeting with the Singaporean chief of navy because he was “*placed under house arrest*”.

Emanuel was freaking out because Li was supposed to sign...

It Begins: Australia’s Fifth-Largest Bank Announces Digital-Only Transactions – Will Phase Out Cash, Cheque, and Phone Payments in All 80 Branches Starting Next Year

By [Jim Hoft](#) Sep. 18, 2023

Australia's fifth-largest bank, [Macquarie Bank](#), has announced its transition to digital-only transactions. Starting from January 2024, the bank will begin phasing out all cash, cheque, and phone payment services in its 80 branches. By November 2024, all in-branch cash transactions will be completely discontinued.

“Between January 2024 and November 2024, we’ll be phasing out our cash and cheque services across all Macquarie banking and wealth management products, including pension and super accounts,” the bank said in a statement.

According to [Investing.com](#), the bank has laid out a detailed timeline for this transition:

- **January 2024:** Phasing out of new checkbooks for new cash management accounts, including any linked Macquarie Wrap accounts.
- **March 2024:** Automated telephone banking services will be shut down, making phone payments impossible.
- **May 2024:** Depositing or withdrawing cash or cheques over the counter at Macquarie branches will no longer be possible. Ordering checkbooks for existing accounts will also be discontinued.
- **November 2024:** Writing or depositing cheques, including bank cheques, will be completely phased out. Superannuation contributions or payments using cheques will also cease.

The bank has a market capitalization of just under \$69 billion and over one million retail customers.

Americans can expect a similar announcement in the U.S. at any time in the coming months. The reason for that is of the National Debt problem.

The total U.S. national debt spiked by \$1.58 trillion since the debt ceiling was lifted, and by \$2.16 trillion from a year ago, to \$33.04 trillion, according to the Treasury Department's figures this afternoon.

A stunning amount of new debt that is getting piled on in a stunningly short amount of time, even as the economy has been growing at decent rates!

This \$2.2 trillion added debt over the past 12 months reflects the current tsunami of deficit-spending. Deficit spending is stimulative for the economy, so this is great news for economic growth – if that's all you look at – but this additional demand also adds fuel to inflation, and the debt pileup is an intractable horror show for the future.

If the government runs those kinds of deficits where the debt spikes by \$2.2 trillion in 12 months, what will the debt do if there ever is an economic downturn, when deficits typically blow out further as outlays rise and tax receipts plunge? That was a rhetorical question.

20 common functions of American life the government wants to regulate, restrict or outright ban ~ Looking at the big picture, the two things that corrupt ruling elites want to see TERMINATED are the Constitution and God Himself

From LeoHohmann.com

The U.S. government was never meant to be an all-inclusive entity involved in almost every aspect of our lives, the way it is today. So how did we get to this point and what areas of our lives need to be taken back from the illegitimate claims of government in order for us to be able to say we live in a truly free country?

Watch the brief video below, provided by Hillsdale College, comparing the Founders' vision of government under a constitutional republic, to the modern version of government under a "democracy" as defined for us by our oligarchal overlords. The transition from a constitutional republic to a so-called "democracy" where all societal narratives are tightly controlled by a ruling elite has happened so gradually that few people are even aware that the transition has taken place, even though it is now almost totally complete.

<https://youtu.be/rzED-btL4k8>

The video above got me thinking about all the things the U.S government has said it wants to ban, has already banned, or plans to ban but hasn't told you yet.

Keep in mind that before the government moves to ban a particular item, it will use the corporate mass-media to put out propaganda attacking that item and how it's bad for the environment or some other liberal cause. Often the item or

product we are told we must use in place of the banned item is much worse for the environment.

So, in no particular order, here are 20 things that come to mind that are in various stages of being regulated, restricted or outright banned that the government has no business even being involved in.

- Wood stoves (strictly regulated, some models already banned)
- Gas stoves (federal government openly says it wants to ban)
- Gas generators (federal government wants to ban)
- Gas cars and independent vehicle travel (taxed, phased out, banned and replaced by 2035 with autonomous electric vehicles with a remote kill switch.)
- Air travel (taxed, regulated, soon to be restricted and rationed)
- Gas lawn equipment (government wants to ban)
- Supplements (regulated, government plans to ban)
- Over-the-counter cold meds (banned)
- Berkey carbon filters for clean drinking water (EPA trying to ban)
- Physical cash and coinage (wants to ban, started phasing out during Covid, will gradually be replaced by digital, programmable money with an “on-off switch.” This transition is already happening in some countries and will launch soon in America.)
- Physical ID cards (plastic or paper being replaced by digital and biometric such as facial ID, palm scans or eyeball scans)
- Borders and boundaries between nations (already banned by most Western nations except when convenient to harass and persecute law-abiding citizens).
- National citizenship and national sovereignty (plan is to have global citizens under global governance)
- Genders (it’s all fluid, right?).
- Rainwater capture (already regulated in at least 13 states including California, Oregon, Nevada, Wisconsin, Colorado, Illinois, Georgia, Ohio, North Carolina, Washington, Rhode Island, Utah and Virginia)
- Private well water (already regulated in some states, California plans to meterize private wells and sell your own water back you, the homeowner)
- Removal of water from creeks or streams (regulated, restricted, plan to ban)
- Backyard gardening (registration “encouraged” for future regulation?)
- Firearms (ultra-regulated and restricted, plan is to ban them outright)
- The ability to pro-create and reproduce (Already severely discouraged, the plan is to ban and replace with artificial insemination; designer babies will be grown in labs with DNA features for sale, under government registration, regulation, fees, taxes, etc.)

These are all things that, to one extent or another, in at least some states, are under attack by governments in partnership with big and powerful corporations. And more than half of them are under attack nationwide by the federal government and its corporate partners.

Looking at my list, did you notice a pattern? All of the 20 items have one thing in common — they allow us to live our lives independent of the government. Once the government claims a right to regulate, restrict or ban these items and actions, the powers that be — the oligarchs — know we will become totally dependent on the system for our survival. Food, water, energy, money, healthcare and the freedom of movement will all be 100 percent controlled.

Some hospitals are already requiring patients and visitors to have a face scan before they can be treated or enter and visit their sick loved one. You don't agree, you don't get into the hospital.

These face scans are also being done at most international airports across the U.S. You don't agree, you're not allowed on board the flight. The same facial recognition systems are also being installed at sports stadiums and other large-venue entertainment complexes.

It won't be long before a digitized biometric scan of one type or another is required for you to "*prove your identity*" before being allowed to enter a store or restaurant. That will include grocery stores. They'll say it's to protect us. It's always for our own safety, security and convenience. That's the way the beast system works.

To the extent that we accept this government-corporate power over these formerly private areas of our lives, we have already been indoctrinated and initiated into the Great Reset (aka New World Order, aka digital prison). I'd say most of us are in training for the new technocracy right now. If we pass the tests, we'll be stamped and tracked as good little members of the new digital world. We will no longer be part of humanity 1.0, which the oligarchs are phasing out in favor of humanity 2.0. Only transhumans will be allowed in their new utopia. The remaining humans will be left to fend for themselves, and eventually they may be hunted down, but that may be a ways off (I hope).

Is it any wonder that the famed constitutional attorney, John Whitehead, has said that the U.S. Constitution has already been "*effectively terminated?*"

Report of UN Opening Session 9/18/2023

Craig Bong says, This morning, King Charles' SMI (Sustainable Markets Initiative) kicked off their New York Climate Week activity with a panel discussion on Driving Investment into Nature at [Goals House](#) with the King's Natural Capital Investment Alliance Task Force. It is reported that it was an interesting

discussion and a great turn out. Take note of the Terra Carta seal and his crown over all creation.

Clifford Chance Americas have a team of 300+ lawyers and a thorough understanding of US, Latin American and global markets and is ready to host an interactive discussion in preparation for [#COP28](#) with King Charles' -- [The Sustainable Markets Initiative](#) Legal Taskforce.

The world gets a halftime talk. In 2015, 193 world leaders agreed on the [#GlobalGoals](#), a game plan to change the world by 2030. But today, at halftime, the globalists are losing - with only 15% of their Goals on track.

As leaders gather in New York for the United Nations General Assembly, they listen to an epic speech from Al Pacino--"*we are in hell right now....we can climb out of hell...*" and summarized later in the Halftime show..."*we are headed into tribulation, but we will arrive at the oasis*"

Goals House convened business and political leaders, activists, NGOs, and entrepreneurs united by a shared mission: driving progress to achieve the UN's Sustainable Development Goals (SDGs) by the year 2030.

They gathered alongside the United Nations General Assembly (UNGA) and New York Climate Week, to create impact-based dialogue addressing the challenges raised by the latest IPCC report and THE ROAD TO COP28.

Day 1 featured a diverse range of events from hosts, [PANGAIA](#), [Mastercard](#), [Blue Marine Foundation](#), [WALLIEN.com](#), [Billion Oyster Project](#), [Ritual Arts](#), [Voice for Nature](#), [Natural History Museum](#), [Project Everyone](#), [Open Planet](#) and [AYA Earth Partners](#).

These events ranged from workshops on innovative solutions to ocean conservation, to discussions on how to live out conscious consumerism, to initiatives championing new approaches to increasing biodiversity.

But what underpinned them all was the need to change the narrative they are telling when it comes to climate change. They want to drop the doom and gloom story and truly, positively inspire people to commit to making positive change to reach their oasis, life in their perfect imagined world.

Congrats, America We Made it! Government Debt Spikes past \$33 Trillion: +\$1.6 Trillion since Debt Ceiling, +\$2.2 Trillion from Year Ago

by Wolf Richter • Sep 18, 2023

Trillions whooshing by so fast they're hard to see.

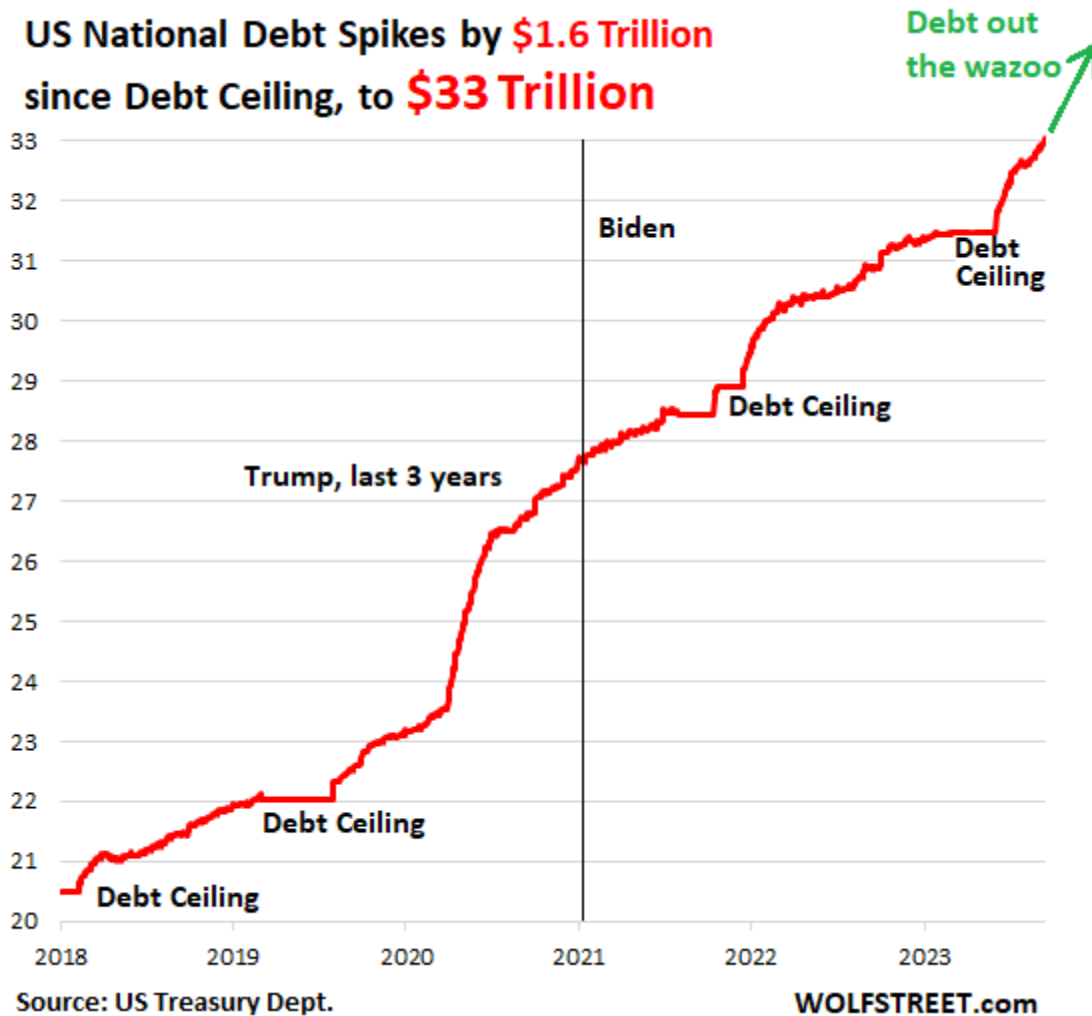

By [Wolf Richter](#) for [WOLF STREET](#).

The total U.S. national debt spiked by \$1.58 trillion since the debt ceiling was lifted, and by \$2.16 trillion from a year ago, to \$33.04 trillion, according to the Treasury Department's figures this afternoon.

A stunning amount of new debt that is getting piled on in a stunningly short amount of time, even as the economy has been growing at decent rates!

Congratulations, America

US National Debt Spikes by \$1.6 Trillion since Debt Ceiling, to \$33 Trillion

This \$33.03 trillion of debt is composed of two piles of Treasury securities: \$6.8 trillion of nonmarketable Treasury securities. They're not traded in the market; they're held by U.S. government pension funds, the Social Security Trust Fund, etc. And a portion of it is held directly by Americans in form of the popular I-bonds and the less popular EE savings bonds. This balance has remained roughly unchanged since the debt ceiling and is up by \$210 billion year-over-year.

\$26.2 trillion in marketable securities. They're held and traded by the global public, from regular folks to big funds and financial institutions, including central banks. The Fed is now down to \$4.98 trillion, [after having unloaded \\$783 billion under QT](#).

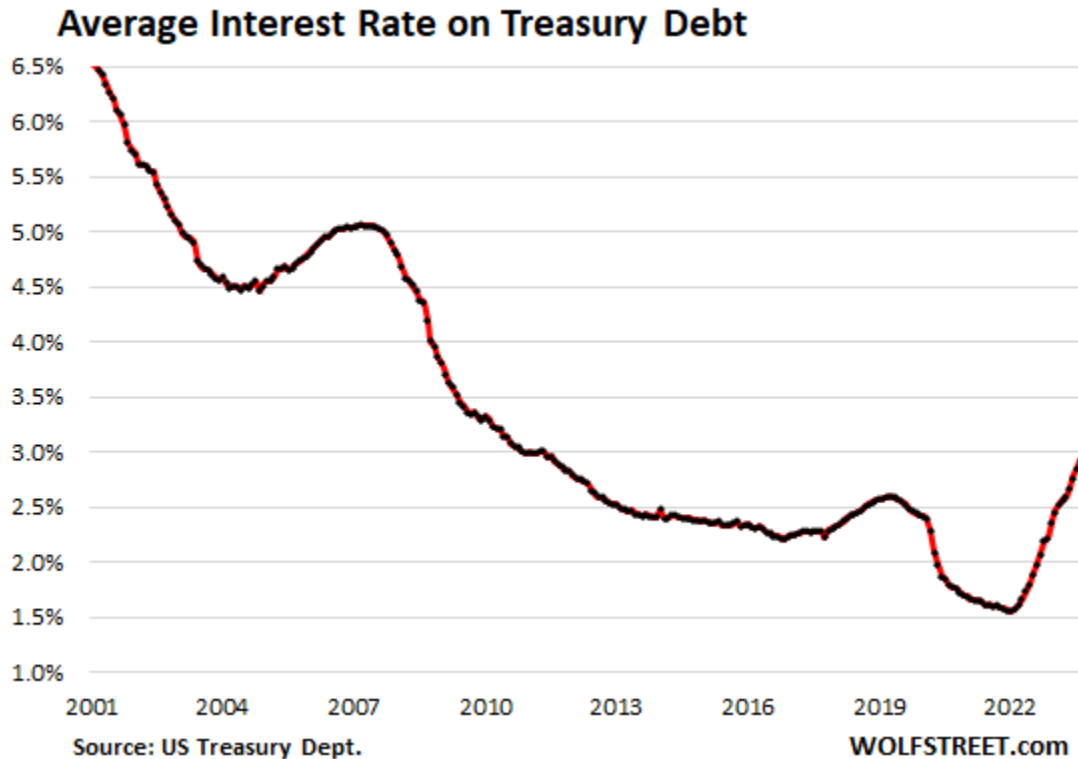

Marketable securities outstanding have spiked by \$1.51 trillion since the debt ceiling was lifted on June 2, a huge amount of additional issuance in three-and-a-half months, and by \$1.9 trillion year-over-year.

The average interest rate rose to the highest since 2011. The newly issued Treasury securities to fund the new deficits and to replace maturing securities come with higher interest rates than the securities issued years ago that are now maturing and need to be replaced.

So the average interest rate paid on all interest-bearing Treasury securities rose to 2.92% at the end of August, according to the Treasury Department, the highest average rate since 2011. But wait... since 2011, the debt has more than doubled – it surged by 120% since September 2011.

But this average rate is still cheap, given that T-bills now yield about 5.5%, the two-year yield is over 5.0%, and the 10-year yield is at 4.3%:

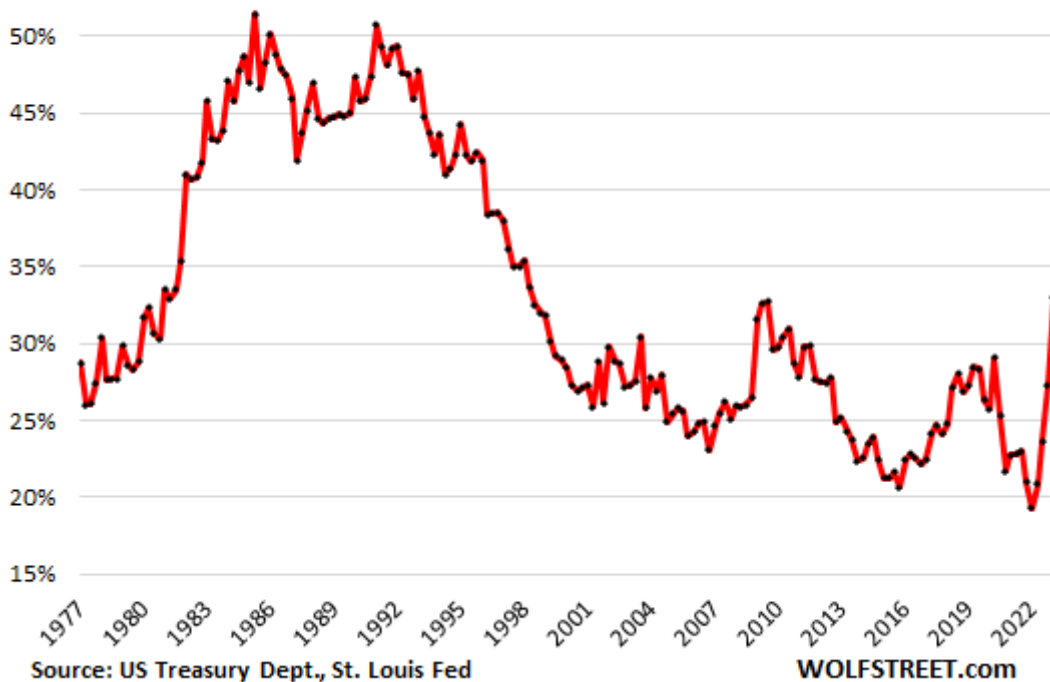

This \$2.2 trillion added debt over the past 12 months reflects the current tsunami of deficit-spending. Deficit spending is stimulative for the economy, so this is great news for economic growth – if that’s all you look at – but this additional demand also adds fuel to inflation, and the debt pileup is an intractable horror show for the future.

If the government runs those kinds of deficits where the debt spikes by \$2.2 trillion in 12 months, what will the debt do if there ever is an economic downturn, when deficits typically blow out further as outlays rise and tax receipts plunge? That was a rhetorical question.

To what extent do interest payments eat up tax revenues? That’s the measure that matters the most. The measure of tax revenues in the chart below – total tax revenues minus contributions to social insurance and some other factors – is what’s available to pay for regular government expenditures, including interest expense. The ratio spiked to 36.2% in Q2 – we discussed this and other factors of the burden of interest payments [here](#).

US Gov. Interest Payments as % of Tax Receipts

Actual interest payments as % of actual tax receipts, quarterly

Now that we have reached the September 19th date we know it can't be too much longer. Events continue on their predicted path, and we need to take a cautious "Steady as we go attitude!" Remember the movie "Hunt for Red October!" Prince Charles is a cagy creature and will at the right moment on God's Calendar make his debut! Keep in mind, he only has seven years. That seven years is, or should I say, will be the fulfillment of Daniel's prophetic seven years. As stressful as this is for all of us, we are living in one of the most exciting times possible. At the end of a brief seven year honeymoon with our Lord, we return for a literal 1,000 year reign of true peace and safety and rest in the presence of the Lord Jesus Christ! *"No weapon that is formed against thee shall prosper; and every tongue that shall rise against thee in judgment thou shalt condemn. This is the heritage of the servants of the LORD, and their righteousness is of me, saith the LORD."* -(Isaiah 54:17)

LOOK UP YOUR REDEMPTION DRAWETH NIGH!
