

# The Blessed Hope!

**“Looking for that blessed hope, and the glorious appearing of the great God and our Saviour Jesus Christ;” –(Titus 2:13)**

*Diamond & Nugget #199*

## **The Importance of Daniel the Prophet**

To confound the Bible critics there are many small, almost unnoticeable, items of internal evidence within the Book of Daniel which tell plainly of its antiquity, and which no forger would have thought of, no matter how ‘pious’ or well-intentioned he may have been. Over the years many have come and gone in their attempt to discredit the book of Daniel. Many of the critics today are in that camp simply because of Daniel’s famous prophecy of Daniel 9:24-27. They choose to disbelieve the Word of God.

According to the Bible, Jesus believed that Daniel was a prophet and the historical author of the book of Daniel. Jesus said, **“You [will] see the abomination of desolation which was spoken of through Daniel the prophet”**. This statement confirms that Daniel was a real person and a prophet. Some critics have maintained that the book of Daniel was written by several people, but Jesus’ statement confirms that Daniel was the author of the book. He was a contemporary of Ezekiel writing in the 6<sup>th</sup> century BC.

As Jesus said this, the Temple was still standing, so he trusted that Daniel’s future prediction would come to fruition. He also believed Daniel predicted his future second coming accurately -(Mathew 26:64; c.f. Dan. 7:13-14). If Daniel wasn’t historical, then Jesus was either lying, or he was ignorant. Neither option is viable for a Bible believer.

Daniel 10:4 contains one such item of internal evidence: **“And in the four and twentieth day of the first month, as I was by the side of the great river, which is Hiddekel...”** The use of the name Hiddekel is most interesting. The Persians knew that river as the Tigris, and Greeks knew it as the Tigris. No post-Persian Greek-speaking Maccabaeen forger of Daniel would have used the river’s ancient Hebrew name.

Daniel 5:2 contains another powerful indicator of authorship: **“Belshazzar, whiles he tasted the wine, commanded to bring the golden and silver vessels which his father Nebuchadnezzar had taken out of the temple which was in Jerusalem; that the king, and his princes, his wives, and his concubines, might drink therein.”**

The Lord is in the detail here. Notice how women were allowed to be present and to partake of royal feasts under the Babylonians. That was never allowed under the Persians. Women were banished to their own quarters. The Book of Esther records the facts.

The mathematics of the Book of Daniel is another indicator of the 6<sup>th</sup>-century BC authorship of the book. In Daniel 3:1, the writer describes in sexagesimal dimensions the image which Nebuchadnezzar set up on the Plain of Dura (of which more later). The Babylonians used a sexagesimal system of mathematics. But how would our Maccabean forger have known this? The Persians and Greeks had for 400 years past used the decimal system, the same one that we use today. The sexagesimal system would have been entirely unknown to him. In Daniel 8:2, we are told, “**...I was at Shushan in the palace, which is in the province of Elam...**” The curious thing here is that Shushan belonged to Elam in Babylonian times and even earlier, but not in the 2<sup>nd</sup> century BC, nor in the preceding three centuries. Then it was considered to belong to, and indeed was, the capital of the province Susiana.

There are many other indicators in the Book of Daniel showing a 6<sup>th</sup>-century BC authorship, along with a most intimate knowledge of Babylonian culture and affairs. I will be considering more of them as we proceed. Suffice it here to say that such points as we have considered are entirely ignored by the critics, or are passed over without comment. The critics are self-cancelling when you know and understand that the Bible is validated through the Heptadic Design Feature which is the Seal of the King!

Everyone knows Daniel was thrown into a lions’ den and went on some kind of fast. But there’s a lot more to this character than the Sunday school lessons let on!

Few Bible characters have the kind of status that Daniel does. He’s a righteous and wise hero of the Old Testament whose decisions saved the lives of many.

#### 1. Daniel is from David’s royal family

For hundreds of years, a descendant of David had been on the throne in Jerusalem—well, besides one imposter queen -(2<sup>nd</sup> Kings 11:1–3). In 605 B.C., the dynasty was in its twilight years. Nebuchadnezzar successfully besieges Jerusalem and carries off some of the treasure from the temple of God to Babylon.

But that’s not all he takes. Nebuchadnezzar also captures some young men of the royal family with him to serve him in his court -(Daniel 1:3). Daniel is one of them (1:6). This probably takes place before Daniel has finished adolescence.

Why does this happen? Maybe Nebuchadnezzar assumes Jerusalem’s leaders won’t give him any trouble if their sons are off in Babylon—kind of like high-profile hostages. Maybe he just wants to show off “pet” Israelite royalty to people who visit his palace.

Whatever the case, he makes a good choice to pick Daniel.

## 2. Daniel was a good-looking dude

Not just any royal kid gets to go to Babylon: only the handsome ones. Nebuchadnezzar's criteria for serving in his court included physical appearance (Daniel 1:4).

## 3. Daniel is renowned for his wisdom and intelligence

You have to be a looker and a thinker to make it in the palace. All the captives need to be able to pass a three-year course in Babylonian language and literature, but Daniel and his friends are found to be 10 times wiser than all the experienced magicians and enchanters in the whole kingdom -(Daniel 1:20).

Daniel's wisdom makes him a legend in his own time. When Nebuchadnezzar's son sees a terrifying vision, his mother refers him to Daniel. This is how she describes him:

[Daniel] was found to have insight and intelligence and wisdom like that of the gods. - (Daniel 5:11)

And Daniel's fame isn't a royal family secret. Another prophet, Ezekiel, references Daniel when he's preaching against a clever, but arrogant ruler of another nation. This ruler thinks he's a god, and might even be wiser than Daniel:

Behold, you are wiser than Daniel; There is no secret that is a match for you. -(Ezekiel 28:3) (Or maybe Ezekiel is just mocking that guy.)

It's cool in and of itself that Daniel is being quoted by a contemporary.\* But it's also interesting that a Hebrew writer chooses Daniel as a reference point, rather than, say, Solomon.

\*OK, full disclosure, it's possible that there was an ancient legendary figure named Daniel who has nothing to do with our prophet.

## 4. Daniel's specialty is a dream interpretation

There are several dreams in the Bible, and many of them seem to be straightforward instructions from God. But other dreams use bizarre symbolism to communicate something to the dreamer.

When someone gets a weird dream like this, there are a few ways they can interpret it:

- Figure it out themselves
- Get someone in the dream to explain it
- Ask someone else to explain it

Daniel has option #3 covered.

He gains notoriety for understanding dreams in his youth -(Daniel 1:17). And he is the only person who can interpret some of the most troubling dreams and visions for Nebuchadnezzar and his son, Belshazzar -(Daniel 2:27, 30; 4:4–9; 5:15–17).

But that doesn't mean Daniel can interpret every dream. In fact, Daniel has trouble interpreting some of his own dreams. When that happens, Daniel goes for option #2 of those listed above: he asks one of the people in his dream to interpret what is happening for him -(Daniel 7:15–16). Since most folks dream we can relate to Daniel's problem.

#### 5. Daniel's righteousness is legendary status

Don't mistake Daniel as some conjurer of cheap tricks. He's not just a wise dream interpreter. He's characterized by his unwavering faithfulness to the Law of Moses. Daniel chooses not to defile himself with the King's food upon his arrival in Babylon—the food would have rendered him ceremonially unclean according to the Torah -(Daniel 1:8). And toward the end of his life he continues to pray to God and not the king, even though it puts him in danger -(Daniel 6:13).

His faithfulness to God earns him another honorable mention from the prophet Ezekiel. In the 14th chapter of Ezekiel, God uses Daniel, Noah, and Job as examples of extremely righteous men. He's painting a picture to say that if God chooses to destroy a nation, it gets destroyed - and even three uber-righteous people like Daniel couldn't save their children. You can read the whole story in Ezekiel 14:12–23.

In fact, Daniel is presented as such a righteous person in Scripture that ...wait, you know what? This deserves a point all to itself. Over the years I have come to value Daniel and what all we can learn about the Lord Jesus Christ.

#### 6. The Bible gives us zero dirt on Daniel

Abraham had his Hagar incident.

Moses struck the rock and was banned from Canaan.

David committed adultery and murder.

And as to those other two sterling examples of righteousness, Noah and Job? Noah got drunk and naked -(Genesis 9:21). Even Job repented because of how he spoke about God -(Job 38:2; 42:1–6).

But Daniel? We have nothing on Daniel. In fact, when his political opponents tried to get dirt on him, their only option was to make it illegal to obey God -(Daniel 6:4–5). It sounds a lot on how the Dems were trying to find dirt on Donald J. Trump the past several years.

#### 7. Daniel oversaw the pagan magicians of Babylon

Daniel is made the chief prefect of the wise men in Babylon after interpreting Nebuchadnezzar's first dream -(Daniel 2:48; 4:9, 5:11).

How crazy is that? Daniel is placed in a position to oversee the people who relied on other gods to enlighten them. God had to be fully involved in using Daniel the prophet.

But this brings up an interesting aspect of Daniel that often gets overlooked. As far as these magicians are concerned, Daniel is a freak of nature.

When Daniel is still new to Babylon, Nebuchadnezzar has a troubling dream that (at first) nobody can interpret. The king doesn't make it any easier on the magicians and diviners, either - he doesn't even tell them what the dream was. (*"If you're really psychic, you should be able to tell me what I dreamed, right?"*)

You know what the magicians' response is?

No one can reveal it to the king except the gods, and they do not live among humans. - (Daniel 2:11)

This is bizarre, because the Babylonians have a temple—and a temple is specifically built so gods can live with humans. We know the Babylonians have a temple because that's where Nebuchadnezzar stashed the treasures of Jerusalem's temple -(Daniel 1:2).

Yet Daniel can interpret the dream. And so guess what they start saying about Daniel? They say that a spirit of the holy gods lives within him -(Daniel 4:8–9, 18; 5:11, 14).

In a way, God uses Daniel's wisdom to show up the gods of Babylon on their own turf - even though his (God's) own temple has been destroyed by the Babylonians.

8. Daniel is a government official under four kings  
Daniel is made an officer in Babylon by four kings:

- Nebuchadnezzar, after Daniel interprets his dream (2:48)
- Belshazzar, after Daniel reads the original **"handwriting on the wall"** (5:29)
- Darius the Mede, because Daniel had an **"extraordinary spirit"** -(Daniel 6:1–3)
- Cyrus the Persian, for reasons unknown ... but the guy had a great résumé by then -(Daniel 1:21; 6:28)

9. Daniel's Chaldean name is Belteshazzar

The name *"Daniel"* means "[the Jewish] God has judged." But the Babylonians give him a new name: *"Belteshazzar."* This new name means "Bel protect him," with Bel being the name of a Babylonian god (4:8).

10. Daniel's ministry spans the entire 70-year in captivity

Daniel is captured as a young man in Nebuchadnezzar's first siege of Jerusalem, and he lives in Babylon right into the reign of Cyrus the Persian.

This is the same Cyrus who decrees that the Israelite exiles may return to Jerusalem and rebuild the temple that Nebuchadnezzar destroyed -(Ezra 1:1–4).

That's a long time, and so it probably makes sense to point out that ...

11. Daniel was probably in his eighties when he was thrown to the lions Daniel was taken to Babylon as a young man—likely before he had finished puberty. So let's say he was between 10 and 18 years of age.

The Babylonian captivity lasted 70 years, which would put Daniel in his eighties at the beginning of Darius' reign in Daniel 6. This is when the whole lions' den episode takes place. If this is the case, then the church may need to update some of our Sunday school artwork!

12. Daniel introduces both Gabriel and Michael  
You may have heard that there are two good angels who are explicitly named in the Bible: Gabriel and Michael. These two angels show up in both the Old and New Testaments doing cool stuff like announcing the coming birth of Christ or fighting Satan.

But guess where we meet them first? Yep: the book of Daniel.

Daniel meets Gabriel during one of Daniel's troubling visions (it involves a ram, a goat, and a crazy talking horn). Gabriel is told to tell Daniel what's going on -(Daniel 8:15–19). Gabriel shows up later to tell Daniel that God has plans to make an end to Israel's sins - (Daniel 9:21–27).

We don't see any conversations between Daniel and Michael, but he is working behind the scenes in the later chapters of Daniel. Michael is a warrior angel who combats opposing forces from Persia and Greece -(10:13, 21). Daniel is told that at the time of the end, Michael will arise on behalf of Israel again -(12:1).

In any summation of the book of Daniel, you have to understand why this book is of such significance, in that it contains some of the most important narrative of the entire Bible. Those of us who are Pre-Millennial and Pre-Tribulation frame Daniel and Revelation in the New Testament like book ends to events unfolding before the world today. You can see why the many critics inside the institutional church ridicule and want to discredit the idea of the so-called Antichrist being the "*man of sin*" signing a covenant for seven years. Bet on it big time! It's going to happen sooner than folks believe!

## **FINAL SOLUTION: Joe Biden Tells Audience at the United Nations That Israel Must Be Divided and Given For the Creation of A Palestinian State**

**The slow but resoundingly** steady tick, tick, tick of the Bible prophecy clock continues its ever-reaching forward march until it reaches a resolution. WWI prepared the land for the Jews. WWII prepared the Jews for the land, the very same land that, right now, is being proffered as a sop for the creation of a Palestinian state. [Two State Solution](#) or Final Solution? The difference is not immediately apparent.

***“But I have chosen Jerusalem, that my name might be there; and have chosen David to be over my people Israel.”*** -(2<sup>nd</sup> Chronicles 6:6)

**God is getting ready to do an amazing thing.** Isaiah 28 calls it His ‘strange work’ and His ‘strange act’. What is that? It is the LORD giving control over His chosen people the Jews and His holy city of Jerusalem to Satan, that the time of Jacob’s trouble may be fulfilled. Luke 21 shows you this at its apex, called the ‘days of vengeance’, as the armies of Antichrist destroy Jerusalem and Israel, and they do it with God’s full blessing. But...it’s a trap, it’s a *‘hook in the jaw’* to draw all nations against Israel, and that is where God will fight for His people and for His land. In the meantime, get ready for a Palestinian state.

**Joe Biden addressed the United Nations this week, telling them that the land of Israel must be divided to fulfill the Two State Solution of a Palestinian state**

**Joe Biden: U.S. to work for Israeli normalization and two states**

**FROM THE JERUSALEM POST:** The United States plans to seek both the normalization of the Jewish state with its Arab neighbors and a two-state resolution to the Israeli-Palestinian conflict, US President Joe Biden told the United Nations on Tuesday.

***“Israel’s greater normalization and economic connection with its neighbors delivering positive and particle impacts even as we continue to work tirelessly for just and lasting peace, for Israelis and Palestinians, two states for two peoples,” he said.***

**Biden set out** his country’s foreign policy agenda as one of the first speakers to address the high-level portion of the 78th opening session of the UN General Assembly. He focused on the importance of regional cooperation as a blue-print to solve global crises and conflict, including in the Middle East.

**This is a Joe Biden the Doppelganger ^^^^^ Not the real Joe Below**

**This was the real Joe Biden ^^^^^ with son Hunter  
The Ear Lobes Don't Lie**

**He referenced specifically** the new energy corridor the U.S. announced that the U.S. would link Europe to India through the Middle East, touching Israel, Jordan, Saudi Arabia, and the United Arab Emirates.

**This he said, “will spur opportunities for investment across two continents” and is part of “our efforts to build a more sustainable and integrated Middle East.”**

The moment he made that statement we had positive proof who Biden or his Doppelganger really serves. In Blessed Hope #198, I shared these two photos, one of the fake Joe Biden at the top and the real Joe Biden with his son Hunter at the bottom. As I have said over and over again the proof is in the 'ear lobes'. This fake Joe Biden is carrying water on behalf of Prince Charles and his "Sustainable Development" SDGs.

**Americans have become the Gadarene Swine and are plummeting to our deaths as a people, driven by demons released by the folks that we have unfortunately come to accept as "our leaders." Those words came from Philip M. Giraldi, Ph.D., the Executive Director of the Council for the National Interest, a 501(c)3 tax deductible educational foundation.**

**The people behind the New World Order have declared for decades now that the year 2030 will be the most pivotal year in our modern human history. The World Economic Forum, the United Nations, just about every country on Earth is right now in some form of a 2030 countdown. The 2030 Agenda with its terrifying dystopian agenda is coming at us on a collision course, and we are being groomed and prepared for it right now with things like the Great Reset and the Fourth Industrial Revolution.**

Now that we have passed the September 19<sup>th</sup> date we know it can't be too much longer. Events continue on their predicted path, and we need to take a cautious "Steady as we go attitude!" Remember the 1990 movie "Hunt for Red October!"

Prince Charles is like a snake in the grass, a cagy creature and will at the right moment on God's Calendar make his debut! Keep in mind, he only has seven years. Those seven years will be the fulfillment of Daniel's prophetic seven years.

As stressful as this may seem, we are living in one of the most exciting times possible. At the end of a brief seven year honeymoon with our Lord, we return for a literal 1,000 year reign of true peace and safety and rest in the presence of the Lord Jesus Christ!

I would remind you that if you are "in Christ" you have the Mark of the Holy Spirit on you. *"No weapon that is formed against thee shall prosper; and every tongue that shall rise against thee in judgment thou shalt condemn. This is the heritage of the servants of the LORD, and their righteousness is of me, saith the LORD."* - (Isaiah 54:17) We have no need for fear whatsoever. Some writer said there is a total of 365 passages containing the phrase "**fear not!**"; however that is incorrect. It's really only 144 verses! The point is that we should be excited like a child awaiting Christmas morning.

**Another important canary in the coalmine for CBDCs and the loss of freedom.**

Today Citigroup made a surprise announcement that they are now providing a new service that tokenizes their deposits and turns them into a unique cryptocurrency, that is stored using blockchain technology, and allows for cross-border payments.

This move comes just after the Federal Reserve launched its instant transfer payment system FedNow in July – a system that allows for real-time transactions and payments in just seconds, at any moment at any time; which, according to prior statements from the Fed and the Biden administration, lays the foundation for a central bank digital currency (CBDC).

Interestingly Citi was not involved in the initial pilot program to test and rollout FedNow, but the Federal Reserve has indicated that they seek to have all U.S. banks and other financial institutions join FedNow. It will not be long before your bank follows suit!

Citi explains their breaking move in a press release published today:

Citi Treasury and Trade Solutions (TTS) announces the creation and piloting of Citi Token Services for cash management and trade finance. The service uses blockchain and smart contract technologies to deliver digital asset solutions for institutional clients. Citi Token Services will integrate tokenized deposits and smart contracts into Citi's global network, upgrading core cash management and trade finance capabilities.

Institutional clients have a need for 'always-on', programmable financial services and Citi Token Services will provide cross-border payments, liquidity, and automated trade finance solutions on a 24/7 basis.

Shahmir Khaliq, Global Head of Services, said,

*“Digital asset technologies have the potential to upgrade the regulated financial system by applying new technologies to existing legal instruments and well-established regulatory frameworks.”*

*The development of Citi Token Services is part of our journey to deliver real-time, always-on, next generation transaction banking services to our institutional clients.”*

This development goes hand-in-hand with our industry leading work on the Regulated Liability Network to create interoperable digital asset solutions on a multi-bank basis.

### **Citi Token Services For Trade**

Citi worked with Maersk and a canal authority to digitize a solution that serves the same purpose as bank guarantees and letters of credit in the trade finance ecosystem. The pilot demonstrated programmable transfer of tokenized deposits that provided instant payments to service providers via smart contracts.

Marie-Laure Martin, Regional Treasury Manager for the Americas at Maersk, said,

*“We are pleased to have collaborated with Citi in the successful test pilots for the guarantee solution using digitized tokens and smart contracts. The innovative solution has promising applications for trade finance.”*

The technology used in the pilot provided a completely digital process to both buyers and sellers with instant payment capabilities, which is expected to reduce transaction processing times from days to minutes.

### **Citi Token Services For Cash**

Citi Token Services has also been applied to a global cash management pilot, enabling clients to transfer liquidity between Citi branches on a 24/7 basis.

Ryan Rugg, Global Head of Digital Assets at Citi Treasury and Trade Solutions said,

*“Citi Token Services provides corporate treasurers with a new tool to manage global liquidity on a just-in-time, programmable basis. Frictions related to cut off times and gaps in the service window will be reduced. Our solutions within the Citi network are complemented by inclusive and open industry collaboration on initiatives like the Regulated Liability Network.*

*We are excited about both the potential for shared ledger technology to update Citi services, and the broader financial system in partnership with regulators and industry peers.”*

### **Compliant, Integrated And Seamless Technology Solutions**

The private/permissioned blockchain technology used is owned and managed by Citi and clients will not be required to host a blockchain node to access the services.

Citi continues to develop digital asset solutions, in line with its goals and risk appetite, using a unified set of shared technology capabilities and a common strategic approach. These innovative solutions enhance Citi’s products and services including digital money, trade, securities, custody, asset servicing and collateral mobility.

Citi Treasury and Trade Solutions (TTS) helps enable our clients’ success by providing an integrated suite of innovative and tailored cash management and trade finance services to multinational corporations, financial institutions, and public sector organizations across the globe. Based on the foundation of the industry’s largest proprietary network with banking licenses in over 90 countries and globally integrated technology platforms, TTS continues to lead the way in offering a comprehensive range of digitally enabled treasury, trade, and liquidity management solutions.

Other megabanks have indicated that they will soon rollout something similar. Coin Telegraph noted in an article, ‘JPMorgan is also reportedly exploring the use of deposit tokens. That technology was pioneered in Project Guardian, launched in May 2022 by the Monetary Authority of Singapore, in which JPMorgan participated.’

As explained in a video report from Lena Petrova, CPA, citing other reports, Citi tested their new system with other world banks and the Federal Reserve, and found now there were no issues in converting the physical deposits into a digital dollar that then can be instantly transferred. This action indicates that the prospect of a CBDC is much farther along than the Federal Reserve had led the public to believe.

This is major news that will get little to no press and will be swept under the rug, but it again emphasizes why I continue to warn people that they need to de-bank. This move represents that Citi, and obviously the other major players as well, can now readily and openly convert your dollar bills into a digital asset; and therefore means physical tender will start to incrementally disappear from the money supply and will be transformed into a solely a digitized asset on the blockchain.

This is clearly a move to further the CBDC agenda; there is no other way to look at it. The rope around people's throats is closing little by little!

### **South Carolina Professor finds 200 billion pieces of DNA contaminating a single dose of Pfizer's covid injection**

Last week, cancer genomics expert Dr. Phillip Buckhaults testified to the South Carolina Senate about the DNA contamination found in Pfizer's mRNA covid vaccines. There are an estimated 200 billion pieces of plasmid DNA in each dose of the Pfizer covid vaccine, he said. These pieces of DNA are packaged in lipid nanoparticles, basically a synthetic virus, and are delivered into vaccinees' cells.

Dr. Phillip Buckhaults is a Professor at the University of South Carolina. He has a PhD in biochemistry and molecular biology and conducts cancer genomics research. What that effectively means is he and his team are specialists at detecting foreign pieces of DNA in places where they are not supposed to be.

On September 12th, he testified before the South Carolina Senate Medical Affairs Ad-Hoc Committee on the Department of Health and Environmental Control ("DHEC").

*"The Pfizer vaccine is contaminated with plasmid DNA. It's not just mRNA, it's got bits of DNA in it."* Prof. Buckhaults said.

A colleague who was in charge of the vaccination program in Columbia, South Carolina, kept all the Pfizer vials, containing remnants of the contents, from the two batches that were used. From the remnants, Prof. Buckhaults sequenced all the DNA that was in these vials. *"I can see what's in [the vaccines] and it's surprising that there's any DNA in there. And you can kind of work out what it is and how it got there and I'm kind of alarmed about the possible consequences of this both in terms of human health and biology,"* he said.

***“This DNA, in my view, it could be causing some of the rare, but serious, side effects like death from cardiac arrest.”***

***“This DNA can and likely will integrate into the genomic DNA of cells that got transfected with the vaccine mix ... we do this in the lab all the time; we take pieces of DNA, we mix them up with a lipid complex, like the Pfizer vaccine is in, we pour it onto cells and a lot of it gets into the cells. And a lot of it gets into the DNA of those cells and it becomes a permanent fixture of the cell. It’s not just a temporary thing. It is in that cell from now on and all of its progeny from now on and forever more ... So, that’s why I’m kind of alarmed about this DNA being in the vaccine. It’s different from RNA because it can be permanent.”***

***“Based on solid molecular biology, it is a theoretical but reasonable concern that this DNA could cause a sustained autoimmune attack towards that tissue”, he said.***

***“It’s also a very real theoretical risk of future cancer in some people. Depending on where in the genome this foreign piece of DNA lands it can interrupt a tumor suppressor or activate an oncogene,” he added. “I think it’ll be rare but I think the risk is not zero.”***

***“DNA is a long-lived,” Prof. Buckhaults explained. “What you were born with you’re going to die with and pass on to your kids. DNA lasts for hundreds of thousands of years ... So, alterations to the DNA – they stick around.”***

**Prof. Buckhaults explained that there is a LOT of pieces of DNA in Pfizer’s vaccines. Although some are 5,000 and 500 base pairs long, most of the pieces are around 100 base pairs. But this is irrelevant because the probability of a piece of DNA integrating into the human genome is unrelated to its size. “Your genome risk is just a function of how many particles there are,” he said. “All these little pieces of DNA that are in the vaccine [give] many many thousands of opportunities to modify a cell of a vaccinated person.”**

***“The pieces are very small because during the process they chopped them up to try to make them go away – but they actually increased the hazard of genome modification in the process.”***

**Prof. Buckhaults’ team took all these little pieces of DNA and “glued them together” to try to establish its source. After putting together 100,000 pieces of DNA they were able to establish it came from a plasmid that can be purchased online from Agilent, a Californian life sciences company which was established in 1999 as a spin-off from Hewlett Packard.**

***“It’s clear that Pfizer took this plasmid and then they cloned spike into it and they used it in a process ... where you feed an RNA polymerase, this plasmid, and it makes a whole bunch of mRNA copies ... and then you take this mRNA and you***

*mix it with the lipid nanoparticle transfection agent and now you've got your mRNA vaccine. But they failed to get the DNA out before they did this ... they did make some effort to chop it up so all these little pieces of the plasmid got packaged in with the RNA. That's clear as day what happened just from the forensics of looking at the DNA sequencing,"* Prof. Buckhaults said.

He explained that this process was not the same as the process that was in the vaccines used to gain emergency authorization ("EUA"). So, there was no DNA in the batches used for the trials before the mass covid injection campaigns. The problem with DNA contamination only occurred when Pfizer scaled up production for the administration of millions/billions of doses to the public after it had gained EUA.

*"We can quantify how much of this [DNA] is in a vaccine ... I estimate that there were about two billion copies of the one piece [of the plasmid] that we're looking for in every dose ... If you see two billion copies of [one piece] ... [then] there's probably about 200 billion of pieces of this plasmid DNA in each dose of the vaccine,"* Prof. Buckhaults said.

The hundreds of billions of pieces of plasmid DNA are encapsulated in the lipid nanoparticles so it's ready to be delivered into the cell. *"This is a bad idea,"* he said. *"[The DNA is] basically packaged in a synthetic virus able to dump its contents into a cell."*

He recommended that some vaccinated people be tested to see if the plasmid DNA is integrating into their genomes. This harm you can prove. With other vaccine harms you can be suspicious because of the timing but you can't really prove it. *"This one you can prove it because it leaves a calling card. [If] you find it in the stem cells of harmed people, its equivalent to finding a certain type of lead in someone who is now dead, it's pretty reasonable to assume that that's what caused it,"* he said.

You can watch Prof. Buckhaults' full testimony to the South Carolina Senate Medical Affairs Ad-Hoc Committee on DHEC in the video below.

SC4Freedom: SC Senate Hearing – USC Professor Dr. Phillip Buckhaults, September 13, 2023 (34 mins) <https://youtu.be/IEWHrHiiTY>

### **Satellite Internet Connectivity**

As of September 20, 2023 there are 145,574 **5G** Deployments around the world operated by 226 **5G** operators. The following are specific operators of **5G** satellite telecommunication. When you add up the list below it does not require a PhD to know there are infinitely tens of thousands more **5G** satellite deployments than this list posted on a Christian prophecy site names. **Keep on your calendar the**

date of October 4<sup>th</sup>, 2023 when the EBS system does a test of the Emergency Broadcast System, and it is stated to occur at 2:20 pm. A back up date is scheduled for October 11<sup>th</sup> at 2:20 pm. Take emergency measures to make sure your 4GIt and 5G “smart” phones are inoperable (unable to ping for a cell connection). Put them in a Faraday bag, or double-wrap them with aluminum foil wrap. That old marketing term “reach out and touch someone” includes every phone on the planet. Todd Callender issued the warning and it is up to you to protect yourself (especially if you were vaxxed with one of the kill shots) from what is planned.

- Amazon seeks to put up 3,236 satellites by the end of the decade. Called the Kuiper system (or Project Kuiper). They have two launches planned for 2023 and service expected to arrive to customers in late 2024.
- OneWeb sought an initial 650 satellites. As of February 2023 they had 542 active satellites in low earth orbit.
- Starlink (Elon Musk). Over 4,500 satellites were working in orbit by May, 2023, with plans for over 42,000 within five years. Currently over 1.5 million active subscribers in 50+ countries with global mobile phone service to be implemented in 2023.
- China is planning to deploy 40,000 of its own satellites to pursue its agenda, claiming to desire additional Internet coverage across its expansive geography. Critics note that such technology can also be used for surveillance and control.
- Iridium started in 1998 and now has 82 active satellites and a partnership with Qualcomm for Android users.
- Globalstar Communications became functional in 1998 with 75 current satellites and functionality with the Apple iPhone 14.

**Dr. Peter McCullough: No one should take another shot, covid vaccines are not safe for human use**

Last Wednesday, [Dr. Peter McCullough](#) gave a speech at the European Parliament during a hearing hosted by five Members of the European Parliament (“MEPs”). The hearing was to raise awareness about the World Health Organization’s (“WHO’s”) power grab.

Dr. McCullough gave evidence of the enormous wave of harms the covid “vaccines” have caused. There’s a false narrative that it’s covid causing all these illnesses. Don’t fall for the false narrative. It’s the vaccines causing this enormous wave of illness, he said.

***“The path forward is, clearly, for no one to take another shot – no one,” Dr. McCullough said. “The covid-19 vaccines and all of their progeny and future boosters are not safe for human use.”***

***“The WHO is standing behind these vaccines,” he added. “It’s my belief that the European Union, the United States and all major stakeholders should actually completely pull out of the WHO.”***

**Below are some excerpts from Dr. McCullough’s recent speech at the European Parliament followed by a video of it.**

***“At the outset of the pandemic, there was an investigation by the WHO on the origins of SARS cov2 that’s when the beginning of the cover-up began,” Dr. McCullough said. “We knew at that time ... that Anthony Fauci, Francis Collins, Jeremy Farrar who was at Wellcome Trust [and] who’s now the chief scientist at the WHO, Kristian Andersen at Scripps [Research], Eddie Holmes in Sydney, Peter Daszak at EcoHealth Alliance – they all conspired in January of 2020 to cover up what they knew. That the virus was engineered in a joint US-Chinese collaboration in the lab in Wuhan China. And they deceived the world with 12 subsequent fraudulent papers in the peer-reviewed literature.”***

***“The vaccines have ravaged the populations in the world. Worldwide two-thirds of people took a vaccine ... [the messenger RNA vaccine] is the code for the potentially lethal spike protein part of the virus. It was the worst idea ever to install the genetic code by injection and allow the unbridled production of a potentially lethal protein in the human body for an uncontrolled duration of time. everything we’ve learned about the vaccine since they’ve come out is horrifying.”***

***“The spike protein is proven in 3 400 peer-reviewed manuscripts to cause four major domains of disease. One is cardiovascular disease, heart inflammation or myocarditis ... The cardiovascular domain of damage in the human body from the vaccine is substantial more than anything we’ve ever seen with cholesterol, high blood pressure or diabetes ... We’ve seen cardiac arrests two years after these shots.”***

***“The second major domain is neurologic disease. Strokes, both ischemic and haemorrhagic, Guillain-Barre syndrome, ascending paralysis that can lead to death [and] which it has led to death with messenger RNA vaccines, small fibre neuropathy, numbness and tingling, ringing in the ears [and] headaches. These are common”.***

***“Third major domain is blood clots – blood clots like we’ve never seen before. The spike protein is the most thrombogenic protein we’ve ever seen in human medicine ... the spike protein causes blood clots.”***

***“Fourth and last domain [is] immunologic abnormalities. Vaccine-induced thrombotic thrombocytopenia [VITT] and muscle system inflammatory disorder are early acute syndromes.”***

***“73.9 per cent of the deaths after vaccination are due to the vaccine ... when its suspected myocarditis ... it’s 100 per cent of the time it’s due to the vaccine. Not covid respiratory illness – the vaccine.”***

***“The first false narrative was ‘the virus is unassailable we have to stay in lockdown and be fearful’. The second false narrative is ‘take a vaccine it’s safe and effective’. The third false narrative now is ‘it’s not the vaccine causing these problems it’s covid, it’s covid that we saw back in 2020 that’s causing all these problems in 2023’. Don’t fall for the false narrative ... The vaccines are causing this enormous wave of illness.”***

**Dr. McCullough explained that it seems about 30% of people who have had an injection have no adverse effects, not even a sore arm. Just under 70% seem to have “some moderate side effects, some trouble but they don’t seem to really have serious events.” And then about 4.2% – “it’s through the roof, myocarditis, cardiac arrest, blood clots, haemorrhagic stroke, disabilities, sudden death at home in bed.” It’s the same in the United States Dr. McCullough said.**

***“4.2 per cent of people in Europe right now are in trouble because they were unlucky enough to get a high-risk batch.”***

***“The path forward is, clearly, for no one to take another shot – no one ... the covid-19 vaccines and all of their progeny and future boosters are not safe for human use ... I implore you ... to apply all pressure and due urgency to remove the covid-19 vaccines from market.”***

***“The WHO is standing behind these vaccines. They are far more of a problem than a help ... And it’s my belief that the European Union, the United States and all major stakeholders should actually completely pull out of the WHO”***

**Peter McCullough at the European Parliament, 13 September 2023 (17 mins)**

**If the video above is removed from YouTube, you can watch it on Bitchute [HERE](#).**

**The day before the event, Christine Anderson MEP [tweeted details about the hearing](#):**

**Expert Hearing in the EU Parliament 13.09.2023 / 14:30 – 16:30 (CET)**

**The WHO – with its pursuit of ever more power and increased funding – is the central driver of “pandemic emergencies” as well as the undemocratic shift of political decisions to unelected, supranational organizations that can no longer be held accountable by us citizens.**

With an expert hearing on 13 September in the EU Parliament, we want to get to the root of the problem and expose for the first time the constitutional mechanisms behind the WHO's power grab.

Our goals are:

1. To make people aware of the real dangers coming from the WHO and the EU.
2. To advance the public and political debate about this rapid power grab.
3. To provide concrete suggestions and examples of what we as civil society can and should do in each of our countries.

The idea is to clearly expose and dissect the clandestine WHO power grab from a legal and scientific perspective for the common citizen. After all the expert presentations, this event will result in a list of questions and demands to the European Commission in order to drive the parliamentary debate.

Experts:

- Prof. Mattias Desmet (Belgium)
- Prof. Michael Geistlinger (Austria)
- Prof. Andreas Sönnichsen (Austria)
- Dr. Peter McCollough (USA)
- Dr. Beate Pfeil (Germany)
- Dr. David E. Martin (USA)
- Dr. Maria Hubmer-Mogg (Austria)
- Dr. Renate Holzeisen (Italy)
- Philipp Kruse, Attorney at law (Switzerland)

Hosting MEPs:

- MEP Christine Anderson (Germany)
- MEP Mislav Kolakušić (Croatia)
- MEP Ivan Sinčić (Croatia)
- MEP Cristian Terhes (Romania)
- MEP Virginie Joron (France)

Yours, Christine Anderson, MEP
