Diamond & Nugget #200

Pope Francis: *"Only Together can we Heal the World" and "Stop the Ecological Catastrophe"*

On September 19, 2023, Pope Francis participated by video in the Clinton Global Initiative forum and once again reiterated his warning message to world leaders about the coming climate catastrophe. **By creating a state of perpetual ecological crisis, Pope Francis can justify the acceleration of the globalization of our economies. By preaching his climate doom message about the end of the world, an authoritarian system of government to dominate the entire planet can be more easily accepted.**

The Vatican Press Office published the following statements made by Pope Francis, which support the United Nations 2023 agenda:

- *"It is important to spread a culture of encounter, a culture of dialogue, a culture of listening and understanding."* [1]

- *"It is necessary to share our views on how to contribute to the common good ... Only together we can come out of it better -together. Only together can we heal the world from the anonymity of the globalization of indifference."* [1]

"It is time to work together to stop the ecological catastrophe, before it is too late. That is why I have decided to write a new document, ten years after the Encyclical Laudato Si'." [1]

"Let us stop while there is time, please - let us stop while there is time." [1]

A remarkable phenomenon is taking place in today's political and religious world. There is an alignment taking place in which political and religious leaders are uniting to promote the very same message. The world is uniting under Pope Francis' leadership to save the planet, even as sin and lawlessness continue to spread at an alarming rate.

Laudato Si' has become the new dogma of faith for the church and for society. The message for the new world order is not about stopping the catastrophe of sin, disobedience to God, or the complete rejection of His word. The new gospel is to get everyone to embrace the ecological conversion and the new sustainable economy based on papal doctrines.

All of the global powers are essentially saying the same thing. The message has become indistinguishable. Church and state are preaching the same sermon. Why is that so? The answer is quite simple:

"For all nations have drunk of the wine (Catholic social doctrines) of the wrath of her fornication, and the kings of the earth have committed fornication with her, and the merchants of the earth are waxed rich through the abundance of her delicacies."—(Revelation 18:3)

Rome speaks, and the world listens. Pope Francis commands, and the sheep obey. Some people do it for financial gain, others out of convenience, and still others, like many of our church leaders, out of a fear of defying the beast of revelation. The entire world has jumped on the same train, and Pope Francis is the conductor. Here, the world's political and religious leaders can be seen wholly selling out to Rome's one-world government.

"And the ten horns which thou sawest are ten kings, which have received no kingdom as yet; but receive power as kings one hour with the beast. These have

one mind, and shall give their power and strength unto the beast. –(Revelation 17:12, 13)

Economic Collapse Imminent

Jim Willie joined Patrick at *'Patriot Underground'* on September 15th, 2023 to discuss the latest financial developments and to analyze the final stages of the war. The fact that the House of Rothschild began selling off their massive fine arts holdings, consisting of the world's most famous painting and related art works last month suspiciously confirms my favorite financial prognosticator. Jim Willie holds a PhD from Carnegie-Mellon University in Pittsburgh. He publishes the *'Golden Jack Ass'* Letter to which very rich clients subscribe and read.

Jim Willie says we are entering the *"accelerating final phase"*, a *"quickenning"* towards a U.S. Government debt default, as other countries begin dumping their Treasury Bonds on a mass scale. Oddly, it hasn't really affected the exchange rates with the U.S. dollar. Jim says this is because all foreign currencies have the U.S. Treasury bond as their foundation.

"Consider this thought," he says, *"None of the currencies have a legitimate basis. They're all from the Rothschild model of a debt foundation – and what is the global currency reserve for a debt foundation but the Treasury Bond? So, the Yen has a Treasury Bond as its foundation."*

Here's the consequence: Their Yen went down. It went 22.5% down in a 12-month period!...More than 4% or 5% is big. It went down 22.5% and caused a major Japanese government debt crisis and banking crisis and they made it worse by printing more money to cover their debt...and now, they're having inflation problem, they're having a big run, a huge demand for gold...There's your model!

"Country after country is going to dump Treasury Bonds, as a result. They're going to create a price inflation problem...The dollar is going to be rejected at U.S. ports. I believe it's been rejected for over a year."

Jim says he's told by a dock worker official that the rumors about pre-2015 Diesel trucks needing to be retrofitted and union strikes were fake – they were told to go on strike as a cover story, because T-Bills were not accepted at the port by the Chinese cargo ships. I can confirm what Jim has revealed though from other sources I had read from UP and BNSF railroads that transport both empty and loaded box containers from the ports of San Diego and Long Beach. The railroads were under directions to delay shipments so as to add delay time and could be blamed on logistics and ship dwell times sitting offshore. It was all about payment means to the Chinese shippers.

Jim says there's about to be an inexorable multi-trillion-dollar transfer of T-Bills into gold, which will have the effect of momentarily raising the value of the dollar. Jim says that

while other forecasters are predicting a dollar implosion, he is predicting a dollar supernova before it disappears.

Jim says the result is going to be massive shortages from import supply interruption. There's going to be a black market for Asian goods coming through Canadian and Mexican tunnels. The use of XRP will come into play.

He says the BRICS is all about de-dollarization and the main point of contention among them is that the non-Chinese members don't want the BRICS currency to have social credit attached to it.

'Patriot Underground' host, Patrick asks Jim what he thinks the role of China is in this 5th Generation War and does he think President Xi is a White Hat? Because he [President Xi] seems to be pushing the Fascist Rockefeller-UN Social Credit system.

Jim replies that China is a puzzle wrapped in an enigma and that he has never been one to claim to fully understand China however, he says, *"Here's my interpretation. Xi is a White Hat, he's part of the Trump-Putin-Xi 'TPX Triumverate' and their main mission is to avoid nuclear conflagration – keep that in mind – their main mission is to avoid nuclear war."* The Pentagon is trying to do the opposite and what Jim is sharing is proof that the U.S. wants a war to wipe the debt imbalance off the books.

There are going to be plenty of skirmishes and we've got a very, very big skirmish in Ukraine and we might have another skirmish in Taiwan...

"Here's my interpretation of President Xi: He withstood an assassination attempt and a coup attempt. I don't know the result of the assassination attempt and I don't want to get caught up in that here, because its complex and he might have been taken out. Let's not get caught up in that."

"But he had to withstand an assassination attempt and a coup attempt, so what I believe he's doing is he's trying to install through the backdoor a capitalist system that's in keeping with the Chinese Army Corporation, which is their biggest capitalist corporation."

"They've got a big problem, because they've not been able to dissolve adequately Evergrande. I believe Evergrande is ten times bigger than Lehmann...They cannot dissolve it, nor resolve it. So, it is bringing down the Communist pillars within their economy."

"I believe Xi is trying to do the capitalist agenda while giving lip service to the Communist agenda. And the lip service includes the Rothschild-UN-banking-credit-scoring model – which, privately, I believe Xi hopes that it fails – but I think he's giving it lip service."

"Now, he noticed the failure in Shanghai, where people were jumping off balconies, because they didn't have any money, couldn't get food. That's the sort of thing that happens with credit scoring but that Shanghai story was much bigger, because I believe Shanghai was the political opposition center for the Chinese Communist Party."

"Remember, we do not want the credit-scoring system, nor do we want the Central Bank Digital Currency. We don't want that. That is a Fascist [Rothschild] tool."

"I want the Digital Gold Token. The BRICS Gold Token is a Gold Utility Token that cannot be interfered with. You can't do a currency hit, like with the Turkish Lira or the Venezuelan Bolivar. You can't do that! The Iranian Rial. You can't do that! The Gold Token for the BRICS is a Gold Utility Token. Sign up for the Hat Trick newsletter to learn more about all these things."

"The only way to interfere with the Gold Utility Token is by taking down the gold price and that ain't gonna happen, because there are tens of billions of dollars – hundred coming – billions in Treasury Bonds to be dumped, in order to buy gold. Good luck trying to interfere with the rising gold prices."

"We are, I think, months away from a sudden discontinuous move up in the gold and silver prices. I mean, like – suddenly it's \$3,500/oz gold. Suddenly, it's \$8,200 gold. Suddenly, overnight. Suddenly..."

"Let me leave you with a very big gem. In 1995...the Basel BIS Bank for International Settlements Chairman...a guy named [Zijlstra](#), a Dutch banker. He was their Chairman for years. In 1995, he made a statement that eventually, the Rothschild – he was referring to the Rothschild Central Bank franchise – he said, eventually, the group of central banks are going to paint themselves into a corner and it's going to be of insolvency, from rising debt, because he realized that every year, there's more debt, more debt, not just the economy but in governments, sovereign debt, Treasury Bonds, etc."

"He said eventually, the central banks are going to paint themselves into a corner of insolvency. And notice, we're in that right now. Every major central bank within the Rothschild system is in insolvency right now, because they're raising interest rates to prevent an instant Treasury Bond default. They're raising rates to defend the auctions and they're not going well, even with higher interest rates...and their bond holdings at the central banks are going down in value from rising interest rates..."

"By September-October, we're going to be in an accelerating breakdown stage and we're going to have a lot of 'events' that'll be clear as day and we're beginning to get them. We have a lot of shake, rattle and roll and not too much is breaking yet but we're getting a lot of shake, rattle and roll."

"I believe Maui was a desperation event...I don't talk about the weapons, I just say, 'a hit'. Dr. Judy Wood had her life largely destroyed at Virginia Tech for talking openly about the DEW. Her mother was murdered, her top PhD student was murdered and a friend was murdered and her bank accounts were sacked. Let's not talk about the actual weapon. Let's just say, 'Maui got hit from aerial attack.'" Dr. Judy Wood is the author of 'Where Did The Towers Go'. Dr. Judy Wood's posits the view that the WTC towers were vaporized by advanced Nikola Tesla scalar wave technology. I'm reading that book finally after sitting on my work table for more than a year.

"We're about to get a lot of really important events. Notice, that for the last 4 months, the Fed has not shared any income with the Department of the Treasury? They're insolvent! They're not making any money. And all the big banks are a reflection of the central bank, with magnification, because they use debt leverage."

"The big banks are croaking. The big banks are breaking BIG TIME and I believe we're going to see Bank of America and Wells Fargo soon in bankruptcy."

My alarm first went off when I read that the House of Rothschild was selling off its world class fine arts collection, worth hundreds of billions of dollars. These people usually are backstopping and funding the pawn shops of the world and now they are on the other side of the counter, and that is truly alarming. Years ago I watched the TV program 'Pawn Stars' and I was curious who bankrolled pawn stars, only to discover the Rothschild's operate an entity unit that deals with the pawn shop business. Back home in Braddock, PA home of U.S. Steel's Edgar Thompson Works, all the businesses and shops for eight block-long are closed except for a lone pawn shop and a poultry store.

The Four Horsemen of Banking (Bank of America, JP Morgan Chase, Citigroup and Wells Fargo) own the Four Horsemen of Oil (Exxon Mobil, Royal Dutch/Shell, BP and Chevron Texaco); in tandem with Deutsche Bank, BNP, Barclays and other European old money behemoths. But their monopoly over the global economy does not end at the edge of the oil patch.

According to company 10K filings to the SEC, the Four Horsemen of Banking are among the top ten stock holders of virtually every Fortune 500 corporation. So who then are the stockholders in these money center banks?

This information is guarded much more closely. Queries to bank regulatory agencies regarding stock ownership in the top 25 U.S. bank holding companies were given Freedom of Information Act status, before being denied on "national security" grounds. This is rather ironic, since many of the bank's stockholders reside in Europe.

One important repository for the wealth of the global oligarchy that owns these bank holding companies is U.S. Trust Corporation – founded in 1853 and now owned by Bank of America. A recent U.S. Trust Corporate Director and Honorary Trustee was Walter Rothschild. Other directors included Daniel Davison of JP Morgan Chase,

Richard Tucker of Exxon Mobil, Daniel Roberts of Citigroup and Marshall Schwartz of Morgan Stanley.

J. W. McCallister, an oil industry insider with House of Saud connections, wrote in *'The Grim Reaper'* that information he acquired from Saudi bankers cited 80% ownership of the New York Federal Reserve Bank- by far the most powerful Fed branch- by just eight families, four of which reside in the U.S.

They are the Goldman Sachs, Rockefellers, Lehman's and Kuhn Loeb's of New York; the Rothschild's of Paris and London; the Warburg's of Hamburg; the Lazard's of Paris; and the Israel Moses Seifs of Rome.

CPA Thomas D. Schauf corroborates McCallister's claims, adding that ten banks control all twelve Federal Reserve Bank branches.

He names N.M. Rothschild of London, Rothschild Bank of Berlin, Warburg Bank of Hamburg, Warburg Bank of Amsterdam, Lehman Brothers of New York, Lazard Brothers of Paris, Kuhn Loeb Bank of New York, Israel Moses Seif Bank of Italy, Goldman Sachs of New York and JP Morgan Chase Bank of New York. Schauf lists William Rockefeller, Paul Warburg, Jacob Schiff and James Stillman as individuals who own large shares of the Fed.

The Schiff's are insiders at Kuhn Loeb. The Stillman's are Citigroup insiders, who married into the Rockefeller clan at the turn of the century.

Eustace Mullins came to the same conclusions in his book *'The Secrets of the Federal Reserve'*, in which he displays charts connecting the Fed and its member banks to the families of Rothschild, Warburg, Rockefeller and the others.

The control that these banking families exert over the global economy cannot be overstated and is quite intentionally shrouded in secrecy. Their corporate media arm is quick to discredit any information exposing this private central banking cartel as "*conspiracy theory*". Yet the facts remain.

The Federal Reserve Bank was born in 1913, the same year U.S. banking scion J. Pierpont Morgan died and the Rockefeller Foundation was formed.

The House of Morgan presided over American finance from the corner of Wall Street and Broad, acting as quasi-U.S. central bank since 1838, when George Peabody founded it in London.

Peabody was a business associate of the Rothschild's. In 1952 Fed researcher Eustace Mullins put forth the supposition that the Morgan's were nothing more than Rothschild agents. Mullins wrote that the Rothschild's, "...*preferred to operate anonymously in the U.S. behind the facade of J.P. Morgan & Company*". The story is much longer than I can share here but if the Rothschild's are falling on hard times, Jim Willie has confirmed

why so! The BRICS nations are refuting the Rothschild's as being a player in the New World Order. That will likely result in a global financial meltdown and a global world war since the Rothschild's are interlinked with Prince Charles as the Antichrist.

As I have been following all the news related to **Mr. "666"** and his "Sustainable Development" SDGs, the Rothschild's are determined to impose their New World Order and they will pull out all the stops to provoke a war wherever they feel it will serve their purpose and agenda. Get ready and stay ready. The end of the highway in all of this criminal activity, by the men who were instrumental in the growth of the U.S. since the late 19th century is in big trouble. The Rothschild dynasty is rotting from the inside out!

U.S., Other Governments Funding 6,000+ Studies on How to Overcome Vaccine Hesitancy

By Dr. Robert Malone

Pubmed is a government aggregator site for peer-reviewed research. Recently, a search on Pubmed using the search terms "COVID-19 vaccines" revealed a shocking trend. So, what did I find?

There are literally thousands of peer-reviewed studies on vaccine hesitancy and how the government can overcome it. In sum, there are over 6,000 such studies on Pubmed.

A more narrowly focused search on endnote pulled up about 1,250 studies. These studies have a wide range of topics, but most focus on which groups of people are vaccine-hesitant, statistics on these populations, as well as how to overcome vaccine hesitancy through propaganda, censorship, the law and behavioral control.

The fact is that our government, governments from around the world, the World Health Organization and UNICEF have spent billions of dollars in a misguided attempt to try to figure out how to make people take (coerce, compel and entice) these experimental medical products (COVID-19 vaccines). This was clearly a coordinated effort.

This monumental worldwide effort to manipulate beliefs has eliminated informed consent. Informed consent is the idea that a person must be given sufficient information before making decisions about their medical care.

Pertinent information includes the risks and benefits of treatments, the patient's role in treatment, alternative treatments and the person's right to refuse treatment.

When people cannot get reliable safety information on whether to take an experimental product or any medical product, when they are being coerced and are not informed of important safety considerations, informed consent is gone.

Of particular concern is the vaccine hesitancy clinical trials that are specifically designed to see what types of propaganda, nudging, computational propaganda and behavioral modifications work best to elicit compliance from entire populations.

In funding such studies, the government and worldwide leadership have endeavored to eliminate informed consent.

Remember, the U.S. only has Emergency Use Authorized COVID-19 vaccines available. These products have not had to go through the rigors of the clinical trial process to receive full licensure.

Of course, much of what has been labeled as misinformation over the past three years has been proven to be true. People were not allowed to know the truth through propaganda, censorship and coercion.

These studies have been bought and paid for mostly by the U.S. government, UNICEF or NGO (non-governmental organization) / astroturf organizations working on their behalf.

This is basically taxpayer-funded market research to garner compliance for the COVID-19 vaccine rollout. Marketing research and methods to coerce large populations by the U.S. government for the likes of Pfizer and Moderna.

So, Dr. Mandy Cohen, the director of the Centers for Disease Control and Prevention is right. These experimental vaccines have been studied more than any vaccine in history — to ensure 100% uptake by the global population.

Below is a recent paper, whose authors work for the U.S. Department of Health and Human Services (HHS) — our government.

From the abstract:

“The U.S. Department of Health and Human Services launched the We Can Do This public education campaign in April 2021 to increase vaccine confidence.

“The campaign uses a mix of digital, television, print, radio, and out-of-home channels to reach target audiences. ...

“The size and length of the Department of Health and Human Services We Can Do This public education campaign make it uniquely situated to examine the impact of a digital campaign on COVID-19 vaccination, which may help inform future vaccine communication efforts and broader public education efforts.

“These findings suggest that campaign digital dose is positively associated with COVID-19 vaccination uptake among US adults; future research assessing campaign impact on reduced COVID-19–attributed morbidity and mortality and other benefits is

recommended. This study indicates that digital channels have played an important role in the COVID-19 pandemic response.

“Digital outreach may be integral in addressing future pandemics and could even play a role in addressing nonpandemic public health crises.”

Re-read that last sentence again. Not only did the HHS have a huge campaign to program our minds during COVID-19 to increase uptake of the “vaccine;” they are now planning how to use this “digital outreach” for non-pandemic purposes.

This campaign bombarded the American people with propaganda, paid for by the U.S. government.

From the article:

“The We Can Do This campaign aims to influence COVID-19 vaccine confidence and uptake through the dissemination of advertisements (e.g., 30-second videos and static images with text) that address key attitudinal and behavioral constructs relevant to these outcomes across a mix of traditional and new media channels.

These channels include television, radio, and print media; site direct (digital advertising directly purchased on websites), programmatic (digital advertising purchased through automated marketplace platforms to reach audiences across a range of websites, apps, and platforms), and paid social media (advertising bought directly on social media platforms) advertisements; earned media; partnerships; and influencer engagement.

To reach diverse audiences, the campaign has engaged simultaneously with the general population and with specific racial and ethnic audiences through tailored communications in more than 14 languages, including English and Spanish.

Between April 5 and September 26, 2021, according to Nielsen Digital and Total Ad Ratings (see Multimedia Appendix 1), the campaign is estimated to have reached more than 90 percent of U.S. adults an average of 20.9 times across measured television and digital channels (Nielsen Digital Ad Ratings, unpublished data, 2021). **In addition to the campaign’s national reach, it also delivered extra ads to markets, zip codes, and population segments with higher proportions of vaccine-hesitant adults and higher COVID-19 prevalence.** As the vaccination uptake rate varied across designated market areas (DMAs), the campaign also took vaccination rates into account when deciding where to deliver these extra ads to help encourage first-dose vaccination.”

THE UNGA SDG SUMMIT BEGINS PHASE III OF THE GLOBAL STOCKTAKE WHICH ENDS DECEMBER 12, 2023.

HALFTIME SHOW!

THE UNGA AND COP28 ARE PREPARING TO RESET FOR THEIR COUNTERFEIT MILLENNIUM, HEAVEN ON EARTH, THEIR IMAGINATION OF A PERFECT WORLD WITHOUT GOD BEGINNING IN 2030.

THE RESET IS SCHEDULED FOR DECEMBER 12th OF 2023, COP28 UAE UNDER THE TITLE OF STRENGTHENING OF INTERNATIONAL COOPERATION.

Portion of poem presented by Solome Agbaroji -- Halftime Show 9/18 UNGA.

If you knew of this place (Oasis 2030) wouldn't you want to go, even if the road was paved with uncertainty, tribulation, bottle caps and mishaps and if I said you were just halfway there, would you fall to your knees amidst the deserted Battleground, the wilting wilderness, the incinerated pages and piles of plastics, the deafeningly hot weathered rock etching extinction into your waving white flag.

No, we must go for every tree that must grow for every species worth saving for every child that needs books for every conflict that needs resolution for every woman that deserves equality let's reach the end zone and make it.

To that beautiful place no one has ever seen but everyone wants (Heaven on earth - Oasis) to go in, our lives on our Earth, that place that we call Oasis.

Message they are getting across: Wouldn't you want to go to their Perfect World if you had to walk through tribulation first?

The 28th session of the Conference of the Parties (COP28) to the UNFCCC will be held in Dubai from 30 November to 12 December 2023. In the coming months, the UAE office selects and shares articles to keep you, the reader, informed on preparations and perspectives from the wider Arabian Gulf.

COP28 WEEKLY UPDATE:

INTERNATIONAL ENERGY AGENCY (IEA) MARKS 'BEGINNING OF END' OF FOSSIL FUEL ERA

The IEA expects global demand for oil, natural gas and coal to peak before the end of 2030 and projects that the consumption of the three major fossil fuels will start to decline this decade, due to the rapid growth of renewable energy and the spread of electric vehicles. IEA's Executive Director, Fatih Birol, still called on policymakers to speed up the energy transition and reduce emissions.

ANNUAL CLIMATE WEEK IN NEW YORK KICKS OFF ALONGSIDE OF UN GENERAL ASSEMBLY

The Climate Week NYC brings together some 400 events and is held from September 17-24. It takes place every year in partnership with the UN General Assembly, in coordination with the UN and the City of New York. This upcoming week also sees the SDG Summit (18-19 September), the Climate Ambition Summit (20 September) and of course the UN General Assembly meetings.

COP28 PRESIDENCY CHAMPIONS CLEAN ENERGY TRANSITIONS WITH NEW INITIATIVE

The COP28 Presidency introduced the Energy Transition Changemakers Initiative, designed to facilitate the formation of future-oriented energy systems. The initiative invites projects from across the globe in the categories renewables and clean power, energy efficiency, heavy emitting sectors and low-carbon hydrogen. All organizations, irrespective of size and location, are eligible to participate.

PRINCIPAL PARTNERS AND SPONSORS ANNOUNCED FOR COP28

The UAE telecom company e& was named as Principal Technology Partner, and the consultancy EY as the Principal Business Partner. Large international sponsors include IBM, Baker Hughes, Korea Hydro and Nuclear Power Company, Investcorps, and Kuehne+Nagel as delivery partner. UAE partners include Masdar, DEWA, DP World, Expo City, and three local banks (FAB, Mashreq and Emirates NBD).

GUYANA'S PRESIDENT PUSHES FOR A 'BALANCED' APPROACH TO CLIMATE TALKS

The Atlantic Council hosted a conversation with Guyanese President Irfaan Ali, to talk about its emerging role as a leader on energy, climate change and food security. The Caribbean country of less than one million people has seen its global profile rise along with its recent oil boom. With a track record of protecting its environment, Ali wants to help set the agenda at the COP28.

CLIMATE PROTESTERS IN NEW YORK AND ACROSS THE GLOBE SEND MESSAGE TO UN

Thousands of protesters kicked off "Climate Week" and filled the streets of Manhattan, ahead of the UN General Assembly this week, calling for President Joe Biden and world leaders to end fossil fuel use. Some of the 15,000 expected protestors waved signs that read "End Fossil Fuel Use" and "Fossil Fuels Kill" and "Declare a Climate Emergency."

AL GORE BLASTS FOSSIL FUEL INDUSTRY'S 'CAPTURE' OF UN CLIMATE AGENDA

Former US-vice president and climate campaigner Al Gore said it was "time to abandon the mistaken assumption" that oil and gas companies and petrostates were "good faith participants" during the UNFCCC process. His view stands in contrast with the US climate envoy, John Kerry, who has backed the attendance of industry executives at COP28 as necessary to effect change.

QATAR TO FUND \$4 BILLION UK GREEN RESEARCH HUB

The Qatar Foundation aims to provide \$1.5 billion in seed funding to startups and a total of \$4 billion investment in the UK through the establishment of a 'green' research hub. The project aims to encourage research in green aircraft fuel, carbon capture and storage, and long-term energy storage. Rolls-Royce provides technical knowledge and a research facility will be established in Doha as part of the deal.

SAUDI ARABIA IN RACE AGAINST TIME TO ACHIEVE 2030 GREEN ELECTRICITY GOAL

AI Monitor analyzes that the largest Arab economy needs to bring online 50 times more renewable power-generating capacity to meet its ambition of 58.7 gigawatts of clean electricity generation by 2030. In addition to wind and solar power, Saudi Arabia hopes to build its first nuclear power plant, in part to feed its grid with low-carbon power when renewable resources are not available.

HUMAN RIGHTS GROUPS SEND COP28 DEMANDS TO UAE, GOVERNMENTS

More than 200 civil society groups addressed the COP28 Presidency, and all participating governments, with a series of demands concerning human rights, including the decriminalization of LGBTQ individuals and compensation for migrant workers who helped to build the COP facilities. The UAE reacted, noting that it welcomes constructive dialogue and that during COP28 visitors will be permitted to "assemble peacefully to have their voices heard in designated areas".

UAE'S DIPLOMATIC ACADEMY LAUNCHES NEW CENTER FOR CLIMATE DIPLOMACY

The Anwar Gargash Diplomatic Academy (AGDA), in partnership with Mubadala and ADNOC, announced the establishment of a new Center for Climate Diplomacy. The aim of the center is to advance effective climate change research, underline the importance of research in guiding the UAE's foreign policy on climate change and inspire ambitious climate action.

In order to help readers to understand all of this Sustainable Development SDGs, we (the world) are being mentally conditioned (psyop) in hyping the grand plan of establishing utopia (heaven) on earth. If a person is not a Bible-believing Christian, or understands Bible Prophecy (History told in advance) they are unlikely to grasp and understand what is really happening. The background theater is being orchestrated to play with the minds of all parties and peoples of the world. More important than who appeared at United Nations summit may have been those who did NOT appear!

Leo Homann posted this about the two figures below that were not present at the UN General Assembly Opening Session. His comments are inciteful.

The more important meeting may be going on today through Friday in Paris: Elites planning strategy to roll out World War III, which will likely be fully manifest by 2024

Joe Biden, the corrupt, illegitimate president of the United States, addressed the United Nations General Assembly at its summit in New York on Tuesday.

And what did he focus on? Of course, he pointed everyone to Ukraine. That's where the globalists want all of us around the world to look with our eyes full of hate for one side or the other.

Biden appealed to world leaders at the UN to stand with Ukraine against "Russian aggression," stating:

"Russia believes that the world will grow weary and allow it to brutalize Ukraine without consequence. If we allow Ukraine to be carved up, is the independence of any nation secure?"

Globalists love to talk about national sovereignty like its sacrosanct whenever it furthers their overarching agenda of pushing the nations into their one-world system. Truth is, they couldn't care less about Ukraine's "*independence*." They are using Ukraine as a flashpoint to drive a wedge between the U.S. and Russia. They need to destroy what's left of American and Russian independence. America is an impediment to the New World Order because of its strong middle class, a mostly liberty-loving bunch whose life and work habits don't fit in the Great Reset (they like to drive cars, fly on planes and live in homes considered much too lavish for the green economy).

But Russia is also an impediment to the New World Order. It has a strong nationalist leader and a bevy of natural resources, both of which must be brought to heel and folded into the one-world system. A strong Russia out there selling cheap natural gas to Europe does not fit the Great Reset model of nations being interdependent within a global economy of net-zero carbon emissions, biodiversity, and earth worship. China might be given a pass because its part of the new industrial base transferred from America and the West (somebody still has to build things), but not Russia.

So, a World War III scenario seems all but guaranteed. It checks a lot of boxes for the global deep state that runs through Washington, New York, London, Paris and Geneva. Depopulation. Destruction of the U.S. middle-class. Destruction of Russian nationalism and the seizing of Russia's vast natural resources.

Biden played along at the U.N., like the good little stooge that he is.

More interesting than who was in New York for the U.N. summit may be those who were *not there*.

French President Emmanuel Macron skipped the meeting, which is one he normally makes a point of attending.

According to the [Associated Press](#):

[Emmanuel Macron](#) is a regular attendee and this would have been [British Prime Minister Rishi Sunak's](#) first opportunity to address the General Assembly. Macron cited [King Charles III's](#) imminent visit; Sunak, a busy schedule.

What does this mean? Apparently, in the eyes of Emmanuel Macron, preparing for a visit from King Charles was more important than going to address the United Nations and spending several days basking in the public spotlight, which is one of Macron's favorite hobbies.

[CNN](#) reports that Macron is "[pulling out all the stops](#)" for King Charles' three-day state visit to France that began on Wednesday, one day after the UN summit concluded on Tuesday. The King and his Queen were [welcomed in Paris](#) on September 20, with fighter jets followed by lobster and caviar at a lavish state banquet at Versailles.

This is very telling. Macron could have spent Monday or Tuesday in New York and then flown back to Paris to welcome the King on Wednesday. But he went overboard to please the King and prove his fealty. I have maintained for some time that King Charles is an extremely underrated global power-broker. Tim Cohen, author of [The Antichrist and a Cup of Tea](#), has assembled much evidence that implicates Charles as a candidate for the Antichrist. I'm not ready to agree, but this man definitely bears watching. (Leo needs to read the Bible!)

Charles is considered the father of the global Sustainable Development movement and he has also been an outspoken advocate of pumping endless military weaponry into Ukraine. When the two sides, Russia and Ukraine, were ready to sit down and negotiate in April 2022, who was sent to Kiev to talk Zelensky out of engaging in peace talks? It was former UK Prime Minister Boris Johnson. This would not have happened without the blessing of Charles.

Make no mistake, the Washington-New York-London connection is the core of the Luciferian globalist push toward a New World Order and the old-money European Royalty, as led by King Charles III, is more powerful than any individual politician operating right now on the world stage. The Royals are highly secretive and highly Masonic. It was Charles who initiated the push for a "Great Reset" and it is Charles who forms the core of the anti-Russian obsession of the globalist cabal.

Top agenda items for the Macron-King Charles talks this week will include climate change, biodiversity, and the situation in Ukraine. The two men will no doubt discuss how they can further poke the bear and provoke an attack on the West that will rally the people and get them whipped up into war hysteria.

They will also discuss how to keep the money flowing from Washington to the war effort, courtesy of the U.S. taxpayer.

Biden has faced criticism from some Republicans who want the United States to spend less money on NATO'S war in Ukraine. These are the anti-establishment, anti-globalist, more independent wing of the Republican Party.

Former president Donald Trump, the front-runner for the Republican nomination in the 2024 presidential election, has vowed to seek a quick end to the war if returned to power.

Trump has voiced skepticism about Washington's engagement with corrupt allies, especially in the NATO military alliance. He doesn't talk tough enough against Putin and thus cannot be counted on to continue making war. Trump, in fact, has said he would *"end the war within 24 hours."*

I don't believe much of anything Trump says. I think it's all a game for him and in the end he will do whatever best suits his egotistic need for a "win." His latest waffling on the abortion issue proves my point. But the fact is he's just too unreliable and unwieldy for the globalist deep-state con artists. They have zero tolerance for politicians they can't manage.

The way the globalists work, they must have 100 percent, lockstep obedience from the politicians they own. So even if you are 90 to 99 percent on board with their policies, they will work to destroy your career if you are someone like Trump and trying to hold onto that 5 or 10 percent of independence.

It's becoming clear that this is the main reason why the deep-state neocon operatives in London, Washington and New York cannot allow Trump back in the White House. He is simply too unreliable when it comes to keeping the endless wars going. This is what fuels and funds the military-industrial complex and they must have one of their own in the White House to keep it going. Same thing goes for Speaker of the House, Senate majority leader, etc. These are all pawns in the hands of the Luciferians.

We as Christians need to understand this and stop putting our faith in man. The system is corrupt and any man, or woman, who opposes it even a little will be shot down before they stand a chance to make a difference. Now is not a time for cowards. Stand up. Speak out. Do not comply with the beast system. Resist all evil coming from the system.

KING OF VIRUSES INTERESTING FOR YOU

Bill Gates is sociopathic, hubristic, pedophile billionaire who made his fortune with crappy software, infected with viruses and with built in backdoors for his companions within the Deep State to do as they wish with our personal data. This arrogant know-it-all was best friends with Jeffrey Epstein, having been to his pedophile island dozens of times. He is on that list. His wife divorced him because he is a pedophile. He was the geeky kid always picked last for a baseball or basketball game. He was picked on by the big kids and vowed to destroy them some day.

Since he exited Microsoft in 2008, he has spent the last 15 years using his billions to buy off the media, buy off the World Health Organization, and conspire with Schwab, the WEF and the Davos elite to rule the world. He uses his extreme wealth as a cudgel

to get whatever he wants. He believes the world needs to be de-populated and is doing everything in his power to accomplish this task. His father was a huge proponent of eugenics and his billionaire son is continuing the old man's goal.

His foundation funded Event 201, along with his WEF cohorts, a mere months before they rolled out the covid pandemic across the globe. This dude planned the entire scam, while pretending to be a doctor, despite being a college dropout. By buying the MSM, he had a platform to expound upon the beauty of vaccines. He demanded everyone get jabbed. We now know for a fact these toxic jabs have killed millions, while shortening the life expectancy of millions more. This was his plan all along.

We know he has bought up millions of acres of farmland. He has no intention of farming that land. He just doesn't want anyone else to farm it and provide food for us lowly eaters. He has released millions of mosquitos in Florida. Why? Now malaria has reared its ugly head in the U.S. Coincidence? He uses his billions to conduct experiments in Africa. He funds geo-engineering projects to block the sun. He is a powerful pedophile, with a desire to depopulate the planet, and a co-conspirator in the Great Reset, where you will own nothing, live in 15 minute gulag cities, eat bugs, and be happy. Or else.

JPMorgan CEO suggests government seize private property to quicken climate initiatives

In a letter to shareholders, Dimon wrote that 'permitting reforms are desperately needed to allow investment to be done in any kind of timely way. We may even need to evoke [sic] eminent domain'

FOX Business co-hosts of 'The Bottom Line' Dagen McDowell and Sean Duffy react to JPMorgan CEO Chase Jamie Dimon saying that remote work 'doesn't work' on 'Fox & Friends Weekend.'

In his annual letter to shareholders, [JPMorgan Chase CEO](#) Jamie Dimon suggested that the U.S. government and climate conscious corporations may have to seize citizen's private property to enact climate initiatives while there still time to stave off climate disasters.

Dimon declared Tuesday that "*governments, businesses and non-governmental organizations*" may need to invoke "eminent domain" in order to get the "adequate investments fast enough for grid, solar, wind and pipeline initiatives."

"Eminent domain" is a legal term that describes the government using its power to expropriate private property for public use, provided the government provides private owners proper compensation.

In his letter, which touted the successes of the [financial services company](#) in 2022 as well as providing shareholders a vision for its future, Dimon made the case that it might be time to justify eminent domain in America to ease the climate crisis. According to the CEO, such drastic measures may be employed because time is short.

"The window for action to avert the costliest impacts of global climate change is closing," he said, along with mentioning his concern that the *"ongoing war in Ukraine is roiling trade relations across Europe and Asia and redefining the way countries and companies plan for energy security."*

"The need to provide energy affordably and reliably for today, as well as make the necessary investments to decarbonize for tomorrow, underscores the inextricable links between economic growth, energy security and climate change. We need to do more, and we need to do so immediately," Dimon added.

He then mentioned that "*governments, businesses and non-governmental organizations need to align*" on policies to expedite [climate solutions](#). Dimon added, "*Massive global investment in clean energy technologies must be done and must continue to grow year-over-year.*"

He floated eminent domain as one of these policies that could speed up building green infrastructure.

"At the same time, permitting reforms are desperately needed to allow investment to be done in any kind of timely way. We may even need to evoke [sic] eminent domain," Dimon stated.

The CEO justified this potential government and corporate seizure of public property, saying that *"we simply are not getting the adequate investments fast enough for grid, solar, wind and pipeline initiatives."*

Dimon concluded his letter's statement on climate change, saying, *"Polarization, paralysis and basic lack of analysis cannot keep us from addressing one of the most complex challenges of our time. Diverse stakeholders need to come together, seeking the best answers through engagement around our common interest."*

More Hospitals Across the US Are Bringing Back Mask Mandates

A handful of hospitals in multiple states announced this week that COVID-19 mask mandates will be re-implemented as officials cite an increase in COVID-19 cases.

On Sept. 15, the Baystate Health system in Massachusetts announced that it would require masks for anyone entering patient rooms or patient care areas. That includes doctors, nurses, visitors, and patients, it said.

"In order to protect the safety and health of our patients, visitors, and employees, we must re-institute the requirement that face masks be worn by employees and visitors in

all direct patient care areas in Baystate Health hospitals and the Cancer Center, effective immediately," the announcement said. "Our team will be continually monitoring the state of COVID-19 in our communities so that our policies can adjust based on the risk assessment."

Also on Sept. 15, the University of Chicago Medical Center in Illinois told CBS Chicago and other local media that mask mandates will be in effect for workers who are in direct contact with patients. Employees who don't have symptoms don't have to wear masks in certain areas such as workrooms, public areas, and break rooms, and during meetings, officials said.

"Based on our internal data, COVID cases amongst employees are doubling every week, and patient cases have increased in all locations," Dr. Emily Landon, executive medical director for infection prevention and control at the hospital, said in a memo, according to the Chicago Sun-Times.

In Pennsylvania, Mount Nittany Health stated on Sept. 14 that it would mandate that employees wear masks while engaging with patients. The mandate will run until Sept. 29, according to a news release cited by a local outlet, and it doesn't include a mandate for visitors or patients.

"Mount Nittany Health will continue to monitor the situation and make changes as appropriate," the hospital said. *"If patients or visitors have symptoms of COVID-19 or respiratory illness, Mount Nittany Health asks that they please take the appropriate precautions and kindly mask in Mount Nittany Health facilities."*

At about the same time, Cape Regional Medical Center in Cape May County, New Jersey, confirmed that it would also be reinstating a mask mandate. There's no mandate for visitors or patients, officials said.

"In response to an increase in the number of patients hospitalized with COVID at Cape Regional Medical Center as well as community members with COVID, Cape Regional Medical Center team members are wearing masks when providing direct patient care," a hospital spokesperson told a local New Jersey station.

Recent data from the U.S. Centers for Disease Control and Prevention [showed](#) that hospitalizations across the United States were up by 8.7 percent in the week ending Sept. 2. However, the total number of COVID-19 hospital admissions is still very low relative to previous years and previous increases in hospitalizations.

Last month, a doctor with Tufts Medicine said that the recent rise in COVID-19 cases shouldn't be of concern.

"An upswing is not a surge; it's not even a wave," Dr. Shira Doron, chief infection control officer for Tufts Medicine, told ABC News. *"What we're seeing is a very gradual and*

small upward trajectory of cases and hospitalizations, without deaths really going along, which is great news."

In August, UMass Memorial Health in Massachusetts confirmed in a statement that it would re-impose masking for staff. Patients and visitors are exempt from the mandate, it stated.

"We have continued to see a dramatic increase in the number of COVID-19-positive employees over the past two weeks, which has led to exposures of both fellow caregivers and patients," the statement read. "In response to this, as a protective measure for our staff and patients, effective immediately, we are requiring mandatory caregiver masking for all patient encounters in all licensed clinical areas."

A Kaiser Permanente location in Santa Rosa, California, stated that it would again require masks because of what it said was a rise in COVID-19 tests as of Aug. 22. However, days later, the hospital clarified that the mandate applies only to staff and physicians, not visitors and patients.

Kaiser told a local newspaper in Santa Rosa that it's still *"strongly encouraging masks for patients, members, and visitors in the hospital and medical offices in the Santa Rosa Service Area in response to this latest increase in COVID-19 cases."* But face coverings aren't required for those people, it stated.

Several hospitals in upstate New York announced in August that masks will be mandatory for not only staff but also patients and visitors. They include United Health Services in Binghamton, Auburn Community Hospital in Auburn, Upstate University Hospital in Syracuse, and Samaritan Health facilities in Watertown.

Today has been a tidal wave of irrefutable evidence that C19 mRNA injections directly cause disease, disabilities & death. The question is, *"With all of this evidence, how are any US and global civilians and politicians still deceived that the C19 mRNA injections are available for any other reason other than to cause injury and death?"*

Are we being called at this time to make amends with those who are still being deceived in order to share the truth and help save them?

Using Southern Hemisphere data, New report from Denis Rancourt et al. estimates 17 million died following C19 injections – ONE DEATH PER 800 DOSES and that injecting the elderly was NOT a good idea. If that one death per 800 doses was replicated in the US, around 860,000 Americans have been killed by C19 injections.

COVID-19 vaccine-associated mortality in the Southern Hemisphere – CORRELATION (correlation-canada.org)

Titled “COVID-19 vaccine-associated mortality in the Southern Hemisphere” by Denis G. Rancourt,^{1, * PhD} ; Marine Baudin,^{2 PhD} ; Joseph Hickey,^{1 PhD} ; Jérémie Mercier,^{2 PhD}.

Children’s Health Defense covered the research in depth here:

‘Definite Causal Link’ Between COVID Vaccine Rollouts and Peaks in All-Cause Mortality, New Study Finds • Children's Health Defense (childrenshealthdefense.org)

There are a number of startling claims like this one:

“Through a statistical analysis of mortality data, the authors calculated the fatal toxicity risk-per-injection increased significantly with age, but averaged 1 death per 800 injections across all ages and countries.

By that calculation, with 13.5 billion injections given up to Sept. 2, 2023, the researchers estimated there were 17 million COVID-19 vaccination deaths (\pm 500,000) globally following the vaccine roll-out.”

One death for every 800 doses – given the 677 million doses administered in the US, that implies a little over 846,000 Americans killed by C19 injections, though it may be lower because of the especially toxic Oxford/Astra Zeneca injections, amongst others used in the Southern Hemisphere.

There were 17 countries that met the criteria set by the researchers.

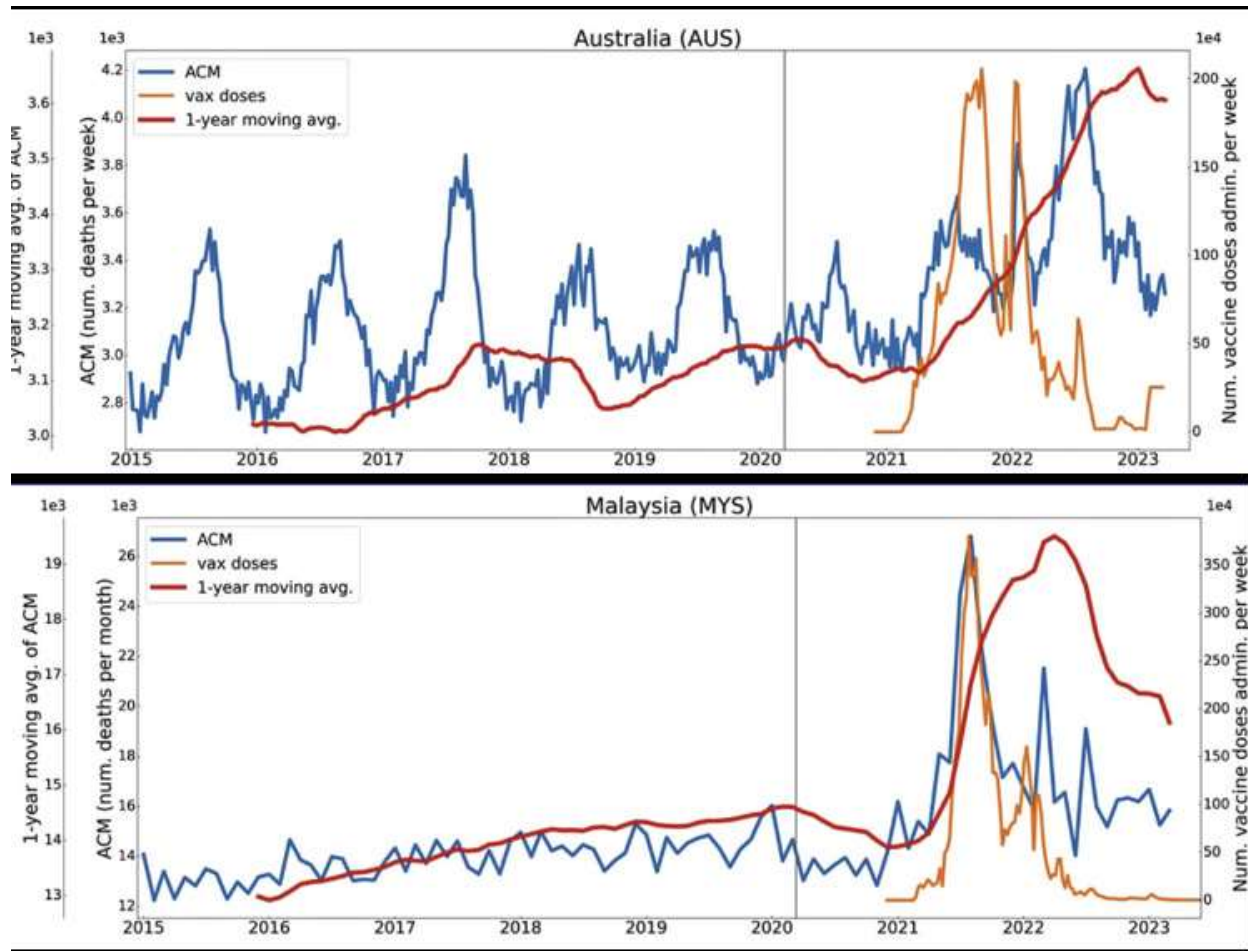

“Seventeen equatorial and Southern-Hemisphere countries were studied (Argentina, Australia, Bolivia, Brazil, Chile, Colombia, Ecuador, Malaysia, New Zealand, Paraguay, Peru, Philippines, Singapore, South Africa, Suriname, Thailand, Uruguay), which comprise 9.10% of worldwide population, 10.3% of worldwide COVID-19 injections (vaccination rate of 1.91 injections per person, all ages), virtually every COVID-19 vaccine type and manufacturer, and span 4 continents.”

There is confirmation that prioritizing and trying to stimulate the almost non-existent immune systems of the elderly (and infirm?) proved disastrous.

“The large age dependence and large values of vDFR quantified in this study of 17 countries on 4 continents, using all the main COVID-19 vaccine types and manufacturers, should induce governments to immediately end the baseless public

health policy of prioritizing elderly residents for injection with COVID-19 vaccines, until valid risk-benefit analyses are made.”

Here’s a couple of charts from the CHD article with this preceding paragraph

“The paper includes reporting, graphs and data analysis by a number of different methods showing the temporal relationships between the pandemic announcement, vaccines and spikes in all-cause mortality for each individual country.”

“Transitions between regimes of mortality — ACM by time (blue), vaccine administration by time (orange) and the average ACM by time (red). The March 11, 2020 pandemic declaration date is shown by a vertical grey line in each panel. The data sources are specified in Appendix A of the study. Credit: Rancourt, Baudin, Hickey and Mercier.”

Now most of you will be a skeptic to all of those 40 statements above, as I was for more than forty years ago. As a student of history, over the years I did as they say, "the research" when the Internet opened the world of information. I loved going to the library as a teenager and being a "Truth Seeker" I had to learn for myself what they did not teach in public schools and you can understand why so. In my working years I was audited by the IRS on three occasions and I won all three audits. I was successful defeating them by using their own regulations but I could have won my cases had I challenged them to "show me the law" as Aaron Russo, producer of Eddie Murphy's movie "Trading Places". Aaron Russo did a video "America: From Freedom to Fascism". Everyone should watch it, and it is still on the Internet. I've watched it several times, and I believe I have a copy in my files in my basement.

It has been my experience that most people are sheep and "cave" in order to go along by going along with the government bovine excrement. Needless to say, I have been a "conspiracy fact" minded person since the Army lied to me in 1956, when they broke the contractual terms of my enlistment. As the list above confirms we are already slaves of the Old World Order being wrapped in utopia paper and become citizens in the Antichrist New World Order! People are largely stupid and if you keep them fed, fat, and comfortable, they will do anything to comply!

Satellite Internet Connectivity

As of September 20, 2023 there are 145,574 5G Deployments around the world operated by 226 5G operators. The following are specific operators of 5G satellite telecommunication. When you add up the list below it does not require a PhD to know there are infinitely tens of thousands more 5G satellite deployments than this list posted on a Christian prophecy site names. Keep on your calendar the date of October 4th, 2023 when the EBS system does a test of the Emergency Broadcast System, and it is stated to occur at 2:20 pm. A back up date is scheduled for October 11th at 2:20 pm. Take emergency measures to make sure your 4GIt and 5G "smart" phones are inoperable (unable to ping for a cell

connection). Put them in a Faraday bag, or double-wrap them with aluminum foil wrap. That old marketing term “reach out and touch someone” includes every phone on the planet. Todd Callender issued the warning and it is up to you to protect yourself (especially if you were vaxxed with one of the kill shots) from what is planned.

- Amazon seeks to put up 3,236 satellites by the end of the decade. Called the Kuiper system (or Project Kuiper). They have two launches planned for 2023 and service expected to arrive to customers in late 2024.
- OneWeb sought an initial 650 satellites. As of February 2023 they had 542 active satellites in low earth orbit.
- Starlink (Elon Musk). Over 4,500 satellites were working in orbit by May, 2023, with plans for over 42,000 within five years. Currently over 1.5 million active subscribers in 50+ countries with global mobile phone service to be implemented in 2023.
- China is planning to deploy 40,000 of its own satellites to pursue its agenda, claiming to desire additional Internet coverage across its expansive geography. Critics note that such technology can also be used for surveillance and control.
- Iridium started in 1998 and now has 82 active satellites and a partnership with Qualcomm for Android users.
- Globalstar Communications became functional in 1998 with 75 current satellites and functionality with the Apple iPhone 14.

UN President Approves Pandemic Declaration — Privacy Experts Warn of ‘Digital Gulag’

Over the objections of 11 nations, the United Nations General Assembly president today approved a declaration on pandemic prevention that seeks to create a global pandemic authority. Critics said the declaration supports COVID-19-style restrictions, including “closing schools and disproportionately throwing women out of work and into poverty.”

By Michael Nevradakis, Ph.D.

The United Nations (U.N.) General Assembly (UNGA) president today [approved](#) the non-binding [U.N. declaration on Pandemic Prevention, Preparedness and Response](#) (PPPR), without a full assembly vote and over the objections of 11 nations.

Critics called the declaration, which seeks to create a global pandemic authority with the power to enforce lockdowns, universal vaccination and censorship of “misinformation,” “hypocrisy” and “unhinged.”

The approval came as part of a [high-level meeting on PPPR](#). But what does the declaration mean in practice?

For proponents, the declaration is a key step toward global coordination in pandemic prevention and public health.

[According to the World Health Organization \(WHO\)](#), it “presents an opportunity ... to prevent and prepare for pandemics and their consequences, using an approach that involves all government sectors.”

[The WHO also said](#) the PPPR aims to “*apply lessons learned from the COVID-19 pandemic*” and “*comes as the world faces multiple humanitarian and climate-related crises which are threatening lives and livelihoods around the world.*”

In a statement, WHO Director-General Tedros Adhanom Ghebreyesus said, “*If COVID-19 taught us nothing else, it’s that when health is at risk, everything is at risk.*” He linked the PPPR to the U.N.’s [Sustainable Development Goals \(SDGs\)](#), saying world leaders should “*show they have learned the painful lessons of the pandemic.*”

[Attorney Lawrence Gostin](#), head of Georgetown University’s WHO Collaborating Center — a key figure “[playing a key behind-the-scenes role in negotiations](#)” for the proposed “[pandemic treaty](#)” and [amendments](#) to the [International Health Regulations \(2005\) \(IHR\)](#) — said the high-level meeting “*is our best chance to gain support and deep engagement of heads of state and government.*” [Georgetown University is a Jesuit institution and is a defacto “Vatican” base in the U.S.]

‘Unprecedented’ agreement comes at expense of national sovereignty
Other experts took a different view. Author and podcaster Frank Gaffney, founder and president of the [Center for Security Policy](#), told [The Defender](#) it is “*very worrying*” that the U.N. and WHO “*will further encourage, if not actually authorize, the kind of standing capability or authority on their part to essentially dictate what constitutes emergencies.*”

“There’s no getting around the fact that it’s going to come at the expense of the sovereignty of the various nations that will subsequently be told that they have an emergency and told what they have to do about it,” he added. *“This is unprecedented.”*

Gostin said “*Negotiators are at a loss*” as to how to balance accountability and sovereignty when implementing instruments like the PPPR, IHR or “*pandemic treaty.*”

Writing for the [Brownstone Institute](#), [Dr. David Bell](#), a public health physician, biotech consultant and former director of Global Health Technologies at Intellectual Ventures Global Good Fund, said “the main aim” of the PPPR “*is to back*” the “*pandemic treaty*” and IHR amendments currently under negotiation by WHO member states.

Bell said a “*silence procedure*” is in place, “*meaning that States not responding will be deemed supporters of the text.*” He said the text is “*clearly contradictory, sometimes fallacious, and often quite meaningless,*” and intended to centralize the WHO’s power.

Bell told The Defender, “*The declaration was not written with serious intent, but is essentially empty rhetoric promoting a continued centralization of control that the U.N. and WHO are openly seeking, at the expense of democracy, human rights and equality.*”

[Francis Boyle, J.D., Ph.D.](#), a bioweapons expert and professor of international law at the University of Illinois who drafted the [Biological Weapons Anti-Terrorism Act of 1989](#), agreed. “*The same people who drafted the pandemic treaty and the IHR amendments drafted the PPPR document,*” Bell told The Defender.

“This is a full-court press to have the entirety of the United Nations Organization, its specialized agencies and its affiliated organizations, back up and support their proposed globalist WHO worldwide totalitarian medical and scientific police state,” he said.

Today’s [high-level meeting](#) included scheduled speeches from 158 national representatives, including the presidents or prime ministers of 34 countries and, representing the U.S., Secretary of State Anthony Blinken.

Panelists included German Minister of Health [Dr. Karl Lauterbach](#) and representatives of the [Biotechnology Innovation Organization](#).

What does the declaration mean for you?

The final text of the [PPPR political declaration](#), dated Sept. 1, includes statements and proposals covering a range of issues, from vaccination to so-called “misinformation.”

According to the declaration, “*pandemics call for timely, urgent and continued leadership, global solidarity, increased international cooperation and multilateral commitment ... to implement coherent and robust national, regional and global actions, driven by science ... to strengthen pandemic prevention, preparedness and response.*”

Stating that “*health is a precondition for all*” and an indicator of “*sustainable development,*” the declaration calls for:

- **Universal vaccination:** The declaration expresses “*deep concern*” about [declining global vaccination rates](#), and includes a commitment supporting “*research and development of vaccines and medicines, as well as preventive measures and treatments for communicable and non-communicable diseases.*”

“Routine immunization is one of the most efficient and cost-effective public health interventions with the greatest reach and demonstrated health outcomes,” the declaration states, while highlighting the ***“important role played by the private sector in research and development of innovative medicines,”*** including vaccines.

It calls for the improvement of ***“routine immunization, vaccination and outreach capacities, including by providing evidence-based information on promoting confidence, uptake, demand”*** and ***“expand[ing] vaccine coverage to prevent outbreaks as well as the spread and re-emergence of communicable diseases.”***

- Makes ***“temporary”*** COVID-19 powers permanent: The declaration expresses ***“concern with the continued emergence and re-emergence of epidemic-prone diseases,”*** stating ***“the need ... to build on the lessons learned and best practices from the COVID-19 pandemic,”*** including ***“turning, where appropriate, temporarily scaled up capacities”*** developed during the pandemic ***“into permanent capacities in a sustainable manner.”***
- Calls for increased surveillance and digital health documents, such as vaccine passports: The declaration ***“recognize[s] ... the potential of [digital health technologies](#)”*** in ***“implementing and supporting health measures and bolstering national response efforts”*** to pandemics and health emergencies.

Digital technologies such as **[vaccine passports](#)** are a key component of the under-negotiation IHR amendments. The declaration, in turn, also states a need for ***“early warning systems”*** and ***“an integrated [One Health](#) approach,”*** for ***“the earliest and most adequate response”*** to pandemics and health emergencies.

- Potential social media censorship: The declaration expresses ***“concern that health-related [misinformation](#) and disinformation negatively impacted routine immunization services globally.”***

Accordingly, the declaration calls for ***“measures to counter and address the negative impacts of health-related misinformation, disinformation, hate speech and stigmatization, especially on social media platforms ... including countering vaccine hesitancy ... and to foster trust in public health systems and authorities.”***

- Calls for ***“pandemic treaty”*** and IHR amendments to be finalized: The declaration ***“encourages”*** the conclusion of negotiations on the IHR amendments and the ***“pandemic treaty,”*** suggesting that this will ensure ***“the sustainable, affordable, fair, equitable, effective, efficient and timely access to medical countermeasures,”*** including vaccines.
- You will pay for this: The declaration ***“Welcome[s] the launch of the [Pandemic Fund](#)”*** to ***“finance critical investments”*** for pandemic preparedness and response, at a cost of \$30 billion per year. This price tag

includes an *“estimated gap of \$10 billion in new external financing per year outside current official development assistance levels”* — namely, [dues paid by WHO member states](#).

According to Bell, *“The WHO noted in 2019 that pandemics are rare, and insignificant in terms of overall mortality over the last century”* but, *“The WHO and the entire U.N. system now consider pandemics an existential and imminent threat.”*

He said this is important, because *“They are asking for far more money than is spent on any other international health program,”* which will *“deliver great wealth to some people”* and great powers for governments, which can be used to *“reimpose the very responses that have just caused the largest growth in poverty and disease in our lifetimes.”*

“Logically, pandemics will only become more frequent if someone intends to make them so (so we should wonder what is going on),” Bell wrote.

Bell said that while the declaration pays lip service to issues such as women’s rights and education, it contradicts itself by supporting COVID-19-style restrictions, including *“closing schools and disproportionately throwing women out of work and into poverty.”*

Independent journalist [James Roguski](#) told The Defender, *“The vast harms that have been caused by approved therapeutics and injections make the hypocrisy”* of the declaration’s calls for *“greater access”* to vaccines *“absolutely astonishing.”*

“If the WHO was still about improving overall health, they would obviously not be involved in this as it is contrary to good public health policy,” Bell said.

Gostin said misinformation *“poses a serious health threat, especially in vaccine distribution,”* adding, *“Balancing free speech with combating misinformation is challenging”* and that the *“WHO can lead partnerships between scientific experts and information disseminators to ensure credible information reaches the public.”*

Bell, however, disagreed with this view, writing, *“The WHO recently [publicly characterized](#) people who discuss adverse effects of COVID vaccines and question WHO policies as ‘far-right,’ ‘anti-science aggressors,’ and ‘a killing force,’”* adding that *“This is unhinged. It is the denigration and hate speech that fascist regimes use.”*

Yet, for Gostin, the PPPR declaration isn’t enough. *“It is wholly inadequate on concrete action, such as pledges for funding health systems,”* he said, adding *“There has been too little cooperation between the U.N. and WHO.”*

11 countries opposed declaration

Consensus on the PPPR is not universal. In a [Sept. 17 letter to Dennis Francis](#), president of the UNGA, co-signed by the representatives of 11 countries, *“legitimate concerns”* were raised *“of a large number of developing countries have been ignored.”*

The 11 countries are Belarus, Bolivia, Cuba, the Democratic People’s Republic of Korea, Eritrea, the Islamic Republic of Iran, Nicaragua, the Russian Federation, the Syrian Arab Republic, Venezuela and Zimbabwe.

Their letter broke the [“silence procedure,”](#) stating, *“Our delegations are convinced that this is no way to handle multilateral and intergovernmental negotiations on issues of great relevance for the international community, particularly for developing countries.”*

It added that *“no consensus has been reached on any of these processes.”* However, the letter does not contain specific objections to the content of the PPPR declaration.

According to Boyle, the 11 nations’ objections should *“prevent this declaration being adopted by consensus and thus arguably becoming part of customary international law, which is what those behind the declaration intend.”*

“They could not get it through the UNGA as a Consensus Resolution because of the 11 objecting states,” Boyle said. *“They are trying to spin it and misrepresent it,”* he said, by having the UNGA president — not the UNGA — approve the declaration.

Gates-supported organization pushed for PPPR declaration

In addition to national representatives, organizations like Gavi, the Vaccine Alliance — recognized as a [stakeholder and “observer” by the WHO](#) — also participated in today’s meeting.

[Gavi](#) proclaims a mission to [“save lives and protect people’s health,”](#) and states it *“helps vaccinate almost half the world’s children against deadly and debilitating infectious diseases.”*

The Bill & Melinda Gates Foundation is a [partner of Gavi](#) and holds a [permanent seat on its board](#) — as do the WHO, UNICEF and the [World Bank](#).

[Gavi described](#) this year’s UNGA as *“a sobering milestone”* on the path toward meeting the 2030 target date for the SDGs, and said the high-level meeting is *“a one-time and historic opportunity for leaders to adopt a whole-of-government, whole-of-society, global approach to addressing pandemic threats.”*

“By taking lessons from the acute phase of the pandemic, the moment is imminent to shape a more responsive and resilient system,” Gavi said, adding that “urgent action is needed to fulfill the SDG3 [health and well-being] targets and reach all children with life-saving vaccines.”

Gavi also assigned itself a role in this process, stating, *“There should also be a prominent role for specialised agencies such as Gavi, building on technical expertise and lessons from the response to the COVID-19 pandemic to achieve health equity.”*

Bell said Gavi is an example of an organization that was not “negatively impacted” by the COVID-19 catastrophe. *“[People and corporations](#) who sponsor much of the WHO’s health emergency work, and that of its sister organizations such as [CEPI](#), [Gavi](#), and [Unitaid](#), did very well from the policies they advocated so strongly for,”* he wrote.

PPPR envisions ‘digital gulag,’ negotiated in ‘secrecy’
Gaffney, who is hosting a [webinar today](#) relating to proposals to expand vaccine passports and grant the WHO more power, said PPPR is part of a broader power grab by the WHO and U.N., including proposals expected to be [discussed at the U.N. in September 2024](#), to [grant the U.N. secretary-general indefinite emergency powers](#).

“Both the U.N. and WHO envision this kind of digital gulag as an underpinning mechanism for exercising that kind of authority, and specifically the ability of those entities to dictate what must be done in response to whatever they decide is a crisis, health-related or otherwise,” Gaffney said. *“This is the thing that’s very alarming to me.”*

[Dr. Michel Kazatchkine](#), a French physician and diplomat and member of the team that drafted the PPPR declaration, said the declaration and the proposal to grant the U.N. secretary-general emergency powers [are linked](#).

[According to Roguski](#), the PPPR declaration is one of *“four tracks that are important to pay attention to right now”* — along with the [IHR amendments adopted in May 2022](#), which he says *“need to be rejected by the end of November,”* the new IHR amendments and the “pandemic treaty” (formally named the WHO CA+ Framework Convention).

[Roguski told The Defender](#) that the May 2024 target date for adoption of the IHR amendments and “pandemic treaty” at the WHO’s World Health Assembly is in jeopardy due to the objecting nations — a view shared by Gostin, who said the May 2024 deadline is **“pushing it”** but noting that **“the reason for speed is compelling.”**

Roguski said the PPPR negotiations were conducted in “**secrecy**” and noted the PPPR declaration “**is silent**” regarding efforts to develop a [Global Digital Health Certification Network](#) — which would establish a global framework for “vaccine passports” and other types of health certificates to be implemented.

Roguski said that rather than calling for [gain-of-function research](#) to end, the PPPR supports funding WHO efforts “*to implement a [Pathogen Access and Benefits Sharing System](#).*” He said this “*increases the risk of the spread of deadly pathogens, by design.*”

According to the PPPR declaration, a high-level meeting reviewing progress on PPPR implementation will be held in New York in 2026. Other health-related high-level meetings at the UNGA this week focus on [universal health coverage](#) and [tuberculosis](#).

LOOK UP YOUR REDEMPTION DRAWETH NIGH! (LUKE 21:28)

The UN action on Wednesday to make the “temporary” vaccine vector to exterminate people “permanent” is very typical of the Modus Operandi of the Jesuits who historically and traditionally use the poison needle as their “*Silent Weapon for Quiet Wars*”. **You need to remember it was Pope Francis who was first religious leader to endorse the idea that everyone had to be vaxxed to save the planet. I have the records and documents to confirm that. I even wrote an article or two on the religious Judas goats, (a term for those who lead others to the slaughter). They will answer to their Creator. They include Franklin Graham, Robert Jeffress, Albert Mohler, along with Pope Francis. People signed their death warrant because they trusted their so-called Christian leader.**

It is important that Christians recognize who it is that controls the big picture, and people of a dark world and work from the shadows. As noted in an article further above, we learned that Prince Charles was off to Paris to meet Emmanuel Macron. Macron was a former Rothschild banker before being elected president of France, and the French people are paying the price for someone who married his wife, 27 years his senior.
