Ferritin nanoparticle compositions and methods to modulate cell activity **Patent # US 10,786,570B2**

Jul 30, 2018 The Rockefeller University

The present invention provides methods and compositions for the remote control of cell function based on the use of radiofrequency waves to excite nanoparticles targeted to specific cell types. The nanoparticles may be applied to the target cell extracellularly and/or expressed intracellularly. The cell type of interest expresses a temperature sensitive channel wherein excitation of the nanoparticles results in a localized temperature increase that is transduced into a cellular response. Such cellular responses may include, for example, increases in gene expression resulting in production of one or more physiologically active proteins. The expression of such proteins can be used to treat a variety of different inherited or acquired diseases or disorders in a subject. Accordingly, the invention provides a generic approach for treatment of any disease associated with a protein deficiency.

Now we know why they want to "test" everyone. They're not looking for illness. I hope you recall the video shown in the background below. Still think nothing happened? They were doing it again on Wednesday. See the video linked BELOW for more detailed information.

[Today is just a "test"..... Did you know this?](#)

The web site “Off Grid Living with Doug & Stacy posted a You Tube that addressed the Wednesday, October 4th Test of the Emergency Broadcast System. It has been noted that the Rockefeller's have a patent as of 2020 that does everything that I have been reporting on using 5G wireless energy to remove the V-MAT-2 gene which influences behavior. The V-MAT-2 gene is commonly referred to as “The God Gene!”

The video Doug showed was from a Bill Gates presentation to the CIA on how a person's spirituality as well as moral attitude, memory, etc.

There has been a lot of talk that the EMS test was a "nothing burger" but from what I posted in Blessed Hope #209, there may be much more that we are not aware of. Most meters to monitor radio frequencies only go up to 8GHz and a few to the 10GHz range. The reason for this is most broadcasting applications fall into the lower Megahertz range up to about 4GHz range. Meters to detect the 18GHz range of which Todd Callender was speaking of are very expensive to purchase, into the thousands of dollars. Since Marburg has an incubation period of 3 to 10 tens, it will be a few more days before people exhibit the symptoms of the Marburg virus. It is highly unlikely that individuals would have meter equipment to register wireless energy at the 18GHz range simply due to the price tag of them.

As you can tell from Doug at Off Grid Living video a great deal is going on and it is my thinking the powers at be are using these EMS tests for fine-tuning purposes. Anyone who has military training in weapons knows that each rifle has to be sighted in for accuracy purposes. It is a basic requirement for marksmanship. My point is that the EMF tests have multiple purposes, most of which they would not want the public to be aware of.

Joe Imbriano hosts The Fullerton Informer in Fullerton, CA took readings on the day of the EMS Test, and observed readings fluctuating in the variable readings suggesting a triangulation effect in what was occurring during the period of the EMS testing. Joe Imbrano has been exposing **5G** for many years and been a regular informer of **5G** harm. He was unable to register readings of the kind that require expensive meters.

Israel Under Attack! 800+ Missiles Fired from GAZA; HAMAS Enters Israel by land and by Air! IDF Declares "State of War"

Journalist George Eaton posted late Saturday evening a summation report of what was taking place in Israel on October 7, 2023.

The Israeli Defense Force has declared they are in "a state of war" after over eight hundred rockets were fired into Israel today. Fighters from HAMAS para-glided into southern Israel using fan gliders to cross over the border, landing and killing everyone they see! Today's "state of war" declaration has not happened since 1973.

Numerous Israeli civilians are already dead, some shot dead just standing in Bus Stops; many more are injured.

At about 1:17 AM EDT Saturday, the Israeli Defense Force made a public declaration that this is a "State of War."

The last time Israel announced a "State of War" was in 1973. And the first time Israel was surprised by an attack like today's was in 1973.

Air Raid Sirens are blaring throughout Israel as the Iron Dome air defense systems engage more incoming missiles.

This is taking place NOW. Live updates to appear below . . .

Casual Observers of the never-ending situation between Israel and Palestinians are commenting publicly right now "This is quickly heading toward a Full-Scale War near the Gaza Strip and Southern Israel, this is Totally Out-of-Control."

Fighting is widespread and fierce:

Video below(at source) shows the Iron Dome air defense system engaging multiple inbound rockets:

By 1:00 AM eastern U.S. time Saturday, at least sixteen Israelis were confirmed injured and at least ONE was confirmed dead, but there is already ample evidence of MANY dead.

(HT NOTE: I am already reaching out to my former colleagues in the Intelligence Community from during my years working with the FBI Joint Terrorism Task Force (JTTF) to get more detailed info and the "Back Story" but things are a bit chaotic right now over there, and it is very early over here, so information is coming very slowly . . .)

-- Hamas military chief calls on armed groups in Lebanon to join the fighting against Israel

-- Civilians massacred by Hamas terrorists in Sderot.

George comments:

The military actions that are taking place in Israel are happening so fast it is difficult to keep updated. Israel is bombing the Gaza Strip at this time.

Hundreds of have been killed by the Hamas attack.

The wanton gunfire has killed scores of Israeli citizens, which will spark intense revenge attacks by Israel.

Biden has approved \$9 billion in emergency aid for Israel.(rumor)

The number of rocket attacks launched against Israel are between 2,000 and 5,000 from Hamas, and counting.

It is quite likely that the Gaza strip will be wiped out and turned into rubble. Once that occurs in the coming days, Iran may launch a pre-emptive attack against Israel, including nuclear missiles. Israel will then wipe out Iran with their own nuclear missiles. This will not end well. GE

UKRAINE SOLD WEAPONS TO HAMAS - USED AGAINST ISRAEL

WORLD HAL TURNER 08 OCTOBER 2023

During the intense fighting which broke out yesterday between HAMAS and Israel, astonishing things took place. Despite the most advanced intelligence and surveillance systems in the world, Palestinians allegedly broke through into Israel -- somehow unnoticed by all the surveillance gear.

One Israeli Border Guard told me *"Our systems could see if a Bird was flying-in; yet authorities would have us believe they couldn't see dozens of Palestinians on motorized para-gliders in the air? It's simply not possible. **They let this happen on purpose.**"*

Another Israeli told me *"MOSSAD knows when these people, HAMAS, take a dump in the bathroom, yet we're supposed to believe MOSSAD had no idea this gigantic operation was being planned?"*

Israel has the best intelligence on its neighbors of any nation on earth. Israel has lots of "assets" embedded in these various "terrorist" organizations, as well as SIGINT (including U.S. satellite data) which allows Israel to always have a finger on the pulse of these organizations.

There is no way in hell that a coordinated, major attack involving about 1,000 Hamas fighters, sea-based/ land-based/ aerial attacks could have been planned, coordinated, and executed without Israeli intelligence getting wind of it. 0% chance.

Others had similar statements of anger and disbelief. One IDF soldier who saw Palestinians use a Drone to destroy an Israeli Merkava Tank said *"Where did the Palestinians get drones with armor-piercing explosives? That technology is being used in the Ukraine-Russia conflict. How did it suddenly appear here, in Israel?"*

Other IDF soldiers pointed to Anti-Tank Guided Missiles (ATGM) being used against Israeli Security Forces. He said *"These are weapons being seen on the Ukraine battlefields, how did they get into the Gaza Strip?"*

Then, in the midst of the fighting, this video came out: HAMAS thanking Ukraine for selling them weapons to be used against Israel:

The most raging questions had to do with alleged *"electronic jamming"* that was said to have taken place as the Palestinians with para-gliders flew across the border into Israel. According to numerous sources on both sides, *"electronic warfare"* technology was allegedly used to jam Israeli radar and other surveillance gear. Said one Israeli *"Only the Russians have gear to carry out such effective jamming - how did the Palestinians get it?"*

That seems to be the most burning questions right now since videos are also out showing armed Palestinian fighters para-gliding into a massive "RAVE" party inside Israel:

The answers all seem to point to yesterday's outbreak of violence as **"payback" to Israel, from Russia, over Israel's support of Ukraine, and over Israel's supplying of weapons and technology to Azerbaijan, which used it against Armenia again over the past two weeks, to seize Nagorno-Karaback and send 100,000 Armenians fleeing for their lives.**

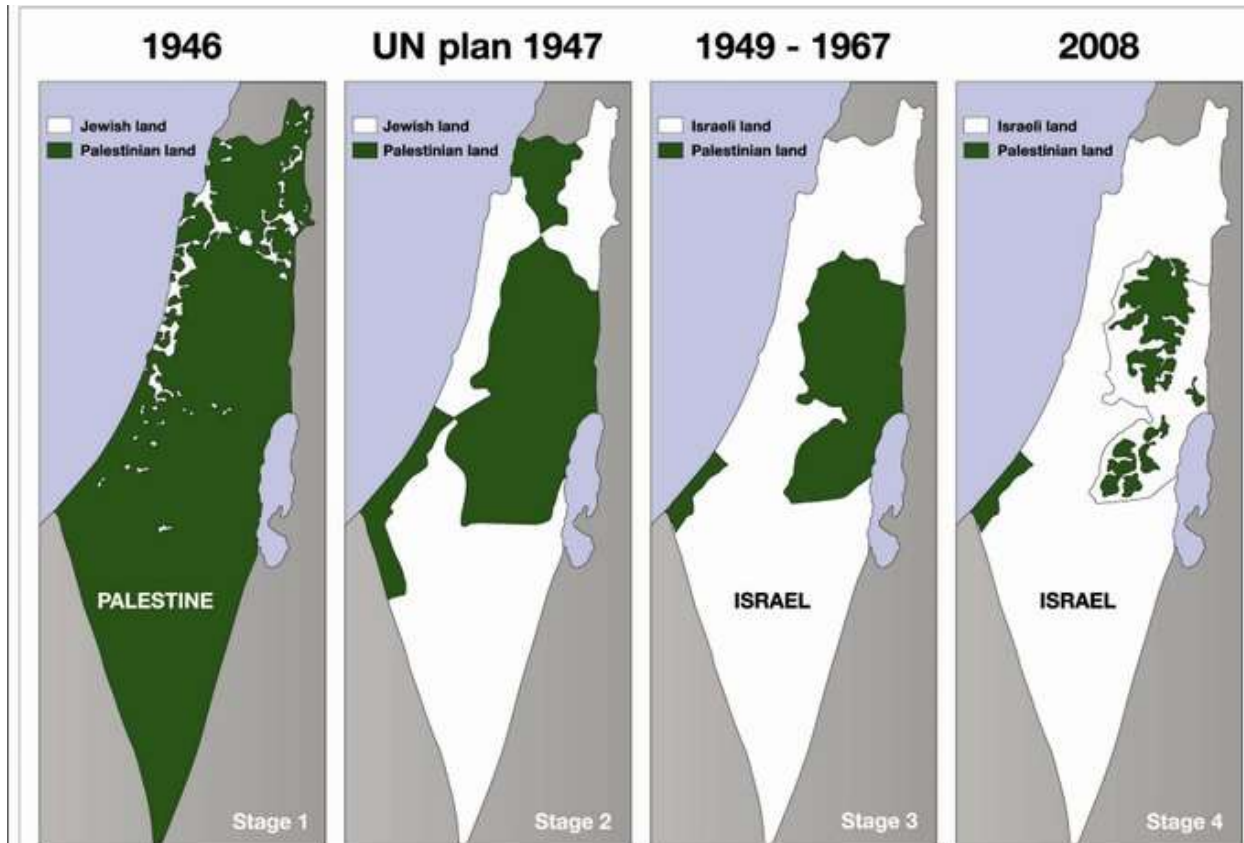

If this conclusion about Russia is correct, then one might ask, how much farther all this fighting in Israel may go? Will Israel still exist when this is over? Maybe. Maybe not.

One official with whom I spoke overnight told me *"Israel is suffering from Desertification of its land; the ground water table is receding 25 meters a year and soon, there won't be enough arable land to support the continued existence of Israel. But . . . quite coincidentally . . . there is now rich, arable land, in the center of Europe, where half its*

population has either fled or been killed, that would suit a relocation of Israel: Ukraine. Maybe they'll all move there."

Gee. What a coincidence.

As for those asking *"Why are the Palestinians so violent towards Israel?"* the answer has been on maps for years, right in front of everyone's eyes. Below is the reality from the time "Israel" was created in 1949, until today. The White areas are "Israel" and the Green are "Palestinian." Look at what has happened to the Palestinians in their own land, since 1949:

The Palestinians have been systematically purged from their land, their homes, and their freedom. THAT is the root of this hatred. It's not going away.

They never show you this map on the news. That's because it provides the crucial context necessary to anyone wanting to understand the Israel/Palestine situation.

[Assuming Hal Turner's intelligence sources yesterday are correct; and my intuition tells me it is, then we have the basis for this to escalate into the Ezekiel 38/39 scenario. Vladimir Putin has put Israeli Prime Minister Benjamin Netanyahu on notice multiple times this past year on Israel's interfering with the war in the Ukraine. Amir Tsarfati in a post on Saturday expressed his question on how the Palestinians had managed to defeat the Israeli "Iron Dome" missile defense system in their attack. Amir Tsarfati is a

Jewish Christian prophecy speaker who lives in the Jezreel Valley of Israel, also called the Valley of Megiddo. In his statement Amir said only two countries could provide the Palestinian terrorists, and he said he did not think it was the U.S. who provided that technology to the terrorists. At least two other Israeli watchers raised the same issue.

The Palestinian terror attack was well planned, to send Israel a message. It occurred on a Sabbath, which was also Shemini Atzeret the last day of the Feast of Tabernacles. No doubt the Israeli people were planning for a festive day and the perpetrators took advantage of a time when Israel had lowered their guard. Maybe it was allowed to happen as was the case with the U.S. in the Japanese attack on Pearl Harbor on December 7, 1941. Surprises are used to bring unity where there has been political division and subterfuge. The Netanyahu government has been teetering on collapse as a result of its legal reforms.

Remember the purpose of a “False Flag” attack. We had the Gulf of Tonkin incident in Vietnam, Pearl Harbor, 9/11, and Covid. That said do not rule out the veracity of Hal Turner’s intelligence data sources. I realize that various Zionist Jewish attack-dog groups would fight back by calling Hal Turner’s remarks to be Anti-Semitic. Israel has more than once played the “victim” card to gain sympathy from the rest to word. As Rahm Emmanuel once said, *“never let a good crisis go to waste”*.

Russian Prime Minister Vladimir Putin is in a bind. The U.S. and NATO are doing everything in their power to provoke a war by keeping Ukraine’s men and boys dying by the day as the client state for the sacrifice. With the Netanyahu meddling in the Ukraine war; permitting Mossad to create social unrest by starting brush fire conflict issues in the region, you have all the makings and reason in the world for the Biblical war described in Ezekiel 38/39. After all, Netanyahu did admit that he sacrificed his nation to be Pfizer’s experimental petri dish, or “lab,” so this “leader” clearly manipulates and exposes his people to whatever his One World Government handlers command. Is it mere coincidence that these latest attacks commemorate to almost the day the 50th anniversary of the Yom Kippur War?

Or perhaps both the Israelis and Palestinians are yet again being used as sacrificial pawns for the latest geopolitical destabilization operation?

The coming week or two will be revealing. With the upcoming COP28 planned signature with the many set for December 12th, 2023 we can only speculate how this fits into the larger scope of history. It is further evidence that our days to the Rapture are closer than we thought just weeks ago! – Pastor Bob]

Ezekiel 38 War?

Most people will not understand the implications of the events taking place in the Israeli ~ Palestinian conflict; they are not Bible prophecy students, and ill-equipped to assess what it all means. In the next few segments I will lay out the larger puzzle and as I can interpret the Biblical message of Ezekiel 38.

Israel...at War

By Hal Lindsey

The great earthquake of the Ezekiel 38 war has NOT begun. But we are in the midst of a major foreshock. In the last few hours, Hamas fired thousands of missiles from Gaza into Israel. They targeted Israeli civilians. Hamas soldiers broke through checkpoints and bulldozed parts of the border fence. Their army attacked Israeli neighborhoods in border towns, randomly killing and randomly taking hostages.

But this did not originate with Hamas. A peace agreement with Saudi Arabia seemed close just a few days ago. But the Saudis cannot make peace with Israel now because they cannot seem to be taking the side of Jews against Muslims. The reason Saudi Arabia and other Arab nations have been willing to cooperate with Israel is their common enemy, Iran. So, who benefits with peace set aside? Iran.

This attack was planned, funded, and equipped by Iran. That's why I consider it a precursor to the war prophesied in Ezekiel 38 and 39 — a war led by Russia and Iran. And make no mistake, Russia is tied to this. Just last month, Iran's Minister of Defense said, "Russia and Iran have significantly broadened the range of their cooperation over the past few years. In particular, I would like to note regional affairs, such as the joint war on terrorism and extremism." How is that for ironic? These are the words of the world's leading state sponsor of terrorism.

If you find it hard to believe that the orders came from Iran, consider this. A few days before the attack began, a billboard went up in Iran's capital city of Tehran. The billboard says, "The liberation operation 'Storming of Al-Aqsa' has started." Al-Aqsa refers to the oldest mosque on the Temple Mount. It irks Iran's mullahs that Jews have ultimate jurisdiction over what Islam claims to be its third holiest site.

Shortly after the attack, Iran's Revolutionary Guard posted on X (previously Twitter), "We Told You We Would Come for You." That's a terrorist organization taking credit for its work! And this is definitely a war of terror. These people are shooting schoolgirls on the streets. They are kidnapping whole families including children and the elderly. Their missiles target civilian neighborhoods and other civilian locations with no connection to the military. These are terrorists fighting a war of terror!

Israel has been standing as a buffer between us and radical Islamic terrorists for decades. If Israel doesn't stop them now, Iranian terror will continue to spread in the Middle East and around the world. Never forget that Iran considers Israel the little Satan and the United States the big Satan. We are a target, too. And, ironically, we are helping to fund these attacks on our friends and eventually on ourselves. We keep releasing money to Iran and Iran keeps using it in its campaign of terror around the world.

After the attack began, the US State Department's Office for Palestinian Affairs put up a post on Twitter urging all sides to "refrain from violence and retaliatory attacks." After receiving heavy criticism, they removed the tweet. But their knee-jerk reaction was that Israel should allow their citizens to be pummeled without responding. That shows the kind of thinking in the State Department's entrenched bureaucracy, also known as the deep state.

The Palestinian attack has been especially egregious, easily qualifying as a series of horrible war crimes. How will the world respond?

And how will you respond? Christians should remember that this did not catch God by surprise. His plan continues. He's taking care of you, and His offer of salvation remains open to everyone.

Israeli Radar KNOCKED-OUT in the North. Americans Confirmed Killed, Wounded, Kidnapped/Captured in Israel. Nuclear Intentions

As of 10:51 AM EDT on Sunday, October 8, 2023, it is confirmed that three Israeli Radar stations in the north have been attacked and destroyed. Israel has no radar to monitor into Lebanon. It is also confirmed that Americans have been killed, wounded, and captured/kidnapped inside Israel. -(Hal Turner)

Overnight, after what was "Day one" of the HAMAS-Israel fight, an actual TSUNAMI of propaganda came flooding out onto the Internet and into the mass-media. The sheer volume of propaganda is extraordinary. It is making it very difficult to discern what is truth and what is fiction.

There is an INTENSE effort to promote and propagate Israeli victims - and that's OK I guess; they are, in fact, victims of an actual conflict. But there is also an absolutely unparalleled effort to suppress and censor anything factual about the Palestinians. It is almost as if the public is being manipulated into seeing ALL Israelis as "victims" and ALL Palestinians as animalistic perpetrators.

Official sources are very reluctant to provide Intel today. It's like a giant lid has been slammed shut on factual information; only "the narrative" is allowed out.

SUNDAY MORNING HAL TURNER UPDATE

Israeli Radar KNOCKED-OUT in the North. Americans Confirmed Killed, Wounded, Kidnapped/Captured in Israel. Nuclear Intentions

WORLD HAL TURNER 08 OCTOBER 2023

As of 10:51 AM EDT on Sunday, October 8, 2023, it is confirmed that three Israeli Radar stations in the north have been attacked and destroyed. Israel has no radar to monitor into Lebanon. It is also confirmed that Americans have been killed, wounded, and captured/kidnapped inside Israel.

Overnight, after what was "Day one" of the HAMAS-Israeli fight, an actual TSUNAMI of propaganda came flooding out onto the Internet and into the mass-media. The sheer volume of propaganda is extraordinary. It is making it very difficult to discern what is truth and what is fiction.

There is an INTENSE effort to promote and propagate Israeli victims - and that's OK I guess; they are, in fact, victims of an actual conflict. But there is also an absolutely unparalleled effort to suppress and censor anything factual about the Palestinians. It is almost as if the public is being manipulated into seeing ALL Israelis as "victims" and ALL Palestinians as animalistic perpetrators.

Official sources are very reluctant to provide Intel today. It's like a giant lid has been slammed shut on factual information; only "the narrative" is allowed out.

I have had to adjust the manner in which I obtain information.

Here is what I can __confirm__:

My former colleagues in the Intel Community, from my years working with the FBI Joint Terrorism Task Force (JTTF), confirm that over a week ago, uniformed, flag-wearing, ID-carrying regular UKRAINIAN Army Troops attacked Wagner PMC Troops in SUDAN. You know, Africa!

I also found out that Mossad has been sabotaging/burning/blowing-up Iranian Drone Factories to stymie Iran helping Russia.

I also found out that planeloads of *Israeli* military weaponry were sent to Baku, the capital city of Azerbaijan in the days and weeks before Azerbaijan launched another military attack upon Armenia last week, grabbing Nagorno-Karaback and forcing 100,000 Armenian Christians to flee for their lives.

What is taking place inside Israel right now, is payback. Payback from Russia for Israel helping Ukraine. Payback for the planeloads of weapons to Baku, Azerbaijan, and Payback for Israel blowing up Iranian drone factories.

It is also payback from Iran for all the air-strikes by Israel against Iranian forces in Syria for the past two years.

Lastly, it is also payback from Armenia for what Israel helped Azerbaijan facilitate in grabbing Nagorna Karaback.

The most interesting part? Iran used the \$6 Billion released by the Biden administration two weeks ago, to fund today's outbreak of hostilities!

I also found out this payback, is not going to stop. It is in fact, "war."

Moreover, I can now positively confirm :

This morning, the Israeli Security Cabinet invoked Article 40A of the "Law on Emergency Situations" -- WAR.

So this morning, it is absolutely "official" Israel is at war. This is the first time that this Article has been invoked in Israel since the 1973 war.

Israel has decided to commit troops to a GROUND INVASION of the Gaza Strip. Door-to-Door. House-to-house.

This is going to be an absolute bloodbath.

I can also positively confirm :

Israeli Ambassador to Moscow Alexander Ben Zvi told the Russian Government:
"Israel sees Tehran as one of the culprits of the Hamas attack."

He then went on to tell Russia "This is how we quietly approached the threshold of the real use of Israeli nuclear weapons against Iran, and a demonstration of what the term "threat to the existence of the state" means . . . from the Russian "Fundamentals of State Policy in the Field of Nuclear Deterrence."

I can now also positively __confirm__:

There are some 2.3 million people in the Gaza Strip. About half being men. If that half - or a good portion of it, were to come out into Israel bearing arms, the Israelis would be over run. Thus, the Ambassador to Moscow told the Russians that Israel is considering the use of smaller, "Tactical" nuclear bombs against Gaza, in case Israel is over-run. Same with the West Bank.

Finally, the Israeli Ambassador to Moscow told the Russian government that since Israel sees Iran as being primarily responsible for the ongoing onslaught, Tehran would be hit with much larger "Strategic nuclear bombs" as would . . . Damascus, Syria, for being the Coordination point for HAMAS and Iran.

(Biblical: Damascus a ruinous heap?????) [**Isaiah 17:1-2**]

Ergo, there is now actual and active discussion within the Israeli government of the potential use of nuclear weapons.

If Muslims begin to actually over-run Israel, where its existence is threatened, then Israel is already making known it will use the Samson Option and take a lot of people out.

HEZBOLLAH MASSING TROOPS

Hezbollah in Lebanon is already massing troops and moving rocket launchers. Hezbollah made clear yesterday that if Israel launches a ground war into the Gaza Strip, Hezbollah will attack from the north.

This morning, Israeli combat aircraft are in the skies over Lebanon all the way north to Kersewan, Lebanon.

There have been some mortars fired into Israel from Lebanon, and corresponding response with artillery fire from Israel, but these incidents do not even rise to the description of a skirmish.

RADAR KNOCKED OUT

The big news this morning is that THREE (3) Israeli radar stations in the north were successfully attacked from Lebanon and as of 10:51 AM EDT here in the United States eastern time zone, those three radar stations are OFFLINE.

For a brief time today, Israel had no effective radar coverage of its northern border. They have since moved portable, truck-mounted, military radar into new positions to restore coverage.

TALIBAN to JERUSALEM?

The Afghanistan Taliban reached a deal with Iran that is satisfactory, wherein Iran WILL allow Taliban armed forces to cross the country with the intent of entering Israel to grab Jerusalem. But the Taliban ran into several obstacles along the way.

Iraq did not respond to the Taliban request for permission to cross Iraqi territory. Jordan flatly and explicitly BARRED the Taliban from entering their country. So from a political perspective, the Arab states are now seen as acting as a shield for Israel's treatment of Palestinians.

IN AND AROUND GAZA

Hamas says that their fighters are still fighting in southern Israel, including in Ofakim, Sderot, Yad Mordechai, Kfar Azza, Be'eri, Yatid and Kissufim. Mind you, this is __Israeli__ territory.

"Israel will evacuate all residents living in towns near the Gaza border within 24 hours"

Israel has put itself in a bind with Gaza over the years so this isn't so easy.

Gaza has been set up as a walled off open air prison, where the good inmates get to come out in daylight hours and do stuff like janitorial work for the chosen (their words - not mine) to eek out an existence. Then back through the gates by dark.

In theory, Israel can't blow up a whole walled off city they created and kill every one because then everyone would scream genocide. But apparently everyone is cool with the status quo open penitentiary setup for some reason.

So the initial thinking is that Israel will just bomb here and there and level enough buildings to make everyone think they got payback and that will be that. It has always been that way. But no one is quite so sure this time. It may end up being an actual Genocide of Gaza.

The Israeli army issued orders to close all resorts near the border with Lebanon.

Most interesting this morning so far: : US weapons left behind in Afghanistan were used to attack Israel.

A high-ranking Israel Defense Forces (IDF) commander said US weapons left in Afghanistan by the Biden administration were found in the hands of Palestinian groups active in the Gaza Strip.

POLAND EVACUATING NATIONALS FROM ISRAEL

Poland has announced it intends to evacuate its nationals from Israel. Poland threatens: If any Polish aircraft is targeted or Polish nationals feel in danger after their aircraft enter the airspace." Article 5 of the 31-nation NATO alliance will be activated and raids will be launched across all of Palestine.

EUROPE WARNED OF COMING RIOTS

Intel sources are now urgently reporting that Muslims will be on the rampage in Europe shortly; burning every major city in protest of the coming Israeli offensive into GAZA.

The authorities running Gaza know they cannot withstand a full Israeli military onslaught, so they have reached out to Muslims in Europe to have THEM cause trouble, making the Gaza problem, Europe's problem too. The thinking is that Europe will be able to call-off a full blown Israeli wipeout of Gaza.

Intelligence sources say worst hit will be Paris, Brussels, London, and Marseille.

NBC's Pentagon correspondent is reporting that the U.S. military is dispatching navy warships as well as an aircraft carrier to waters off Israeli as part of "support" operations.

"The US military is planning to move US Navy ships and U.S. military aircraft closer to Israel as a show of support, according to two U.S. officials familiar with the planning," NBC's Courtney Kube writes. "Movements could start immediately but all the assets will not be in place for several days."

SUNDAY EVENING HAL TURNER UPDATE

UPDATED 6:23 PM EDT -- Things are going very, VERY, wrong; Netanyahu Tells Israelis to "Leave Egypt"

WORLD HAL TURNER 08 OCTOBER 2023

Things in the Hamas-Israel fight are going very much wrong for Israel. This afternoon, The U.S. ordered the USS Gerald R. Ford Aircraft Carrier Strike Group to move into the eastern Mediterranean Sea to be closer to Israel. This signals ALL the players that the US is moving-in to get involved militarily. The Players are NOT backing away.

Hamas: Moving the American aircraft carrier does not scare us, and the American administration must realize the consequences of this step.

Meanwhile, Israeli Prime Minister Benjamin Netanyahu's office calls on Israelis to leave Egypt 'as soon as possible.' This is a HUGE . . . no GIGANTIC . . . flashing RED sign.

Egypt was the first Arab nation to make peace with Israel, and depending upon what course Israel pursues in Gaza (i.e. possible Ground Invasion) that peace with Egypt may now be in very real jeopardy.

The Palestinian President Mohammed Abbas, who was safely away in Jordan, is now leaving Jordan and heading into Syria.

In earlier reporting, I mentioned Intelligence info that Palestinians in Israel got word to their allies elsewhere to be ready to turn up the heat on Europe if Israel engages in a ground war. Now, we see they also got word to their pals in New York City, where, this afternoon, supporters of the Palestinians and supporters of Israel faced each other in Times Square. Chanting . . . for now

The Pro-Palestinian Side:

The Pro-Israel side:

The Palestinians also apparently reached out to their friends in CHICAGO. Here is a pro-Palestinian march in Chicago:

Icing-on-the-Cake

This afternoon, through trusted Egyptian Negotiators with whom both Israel and the Palestinians have negotiated successfully before, US Secretary of State Antony Blinken offered HAMAS a cease-fire IN EXCHANGE FOR "wounded and captured Israeli Officers." HAMAS REFUSED the Cease-fire offer and told Blinken (here's the icing on the cake)

As you might guess, this is a shocking development and things are __still__ very much going downhill and badly for Israel.

More if I get it.

MORE: 5:05 PM EDT --

I can now positively __confirm__:

At least Four (4) American citizens were killed yesterday in the HAMAS-Israel fighting.

Moreover, here we are more than 36 hours after the initial Palestinian surprise attack, the IDF is still un-successful in clearing Israeli settlements of Palestinian fighters.

It's getting worse for Americans, too.

Senator "Lady G" ehthhhh Lindsay Graham said today "If Hezbollah intervenes in the fighting - we must respond against Iran."

Meanwhile Iranian militias in Iraq vow to attack all U.S. military bases stationed in the region if American military gets involved in the Palestine-Israel conflict.

To understand exactly what this means, the Iran-backed PMU (Hashd ash-Shaibi) and Kataib Hezbollah, have about 250,000 fighters.

Finally (for now) the Israeli Permanent Representative to the UN, Gilad Aidan, threw gasoline on the fire today when he said:

"Israel has no intention of discussing peace with Hamas. The task is to destroy this movement. The conversation with these savages is over. It is time to destroy the terrorist infrastructure of Hamas, completely wipe it out, so that such atrocities do not happen again."

Referring to the Palestinians as "these Savages" was all the parties to the conflict needed to hear.

Peace is now nowhere in sight.

In Paris, France, tonight, the French Government is rubbing salt in the wounds of Arab migrants in that city. Look at the Eiffel Tower lighting tonight:

It probably won't take long for supporters of Palestine to send a message of their own, back to Paris.

MORE: 5:24 PM EDT --

The UN Security Council in New York City has begun a closed meeting on the escalation of the situation around the Gaza Strip.

UPDATE 6:23 PM EDT --

The Raduan forces, Hezbollah's elite special forces, have been deployed to the border with Israel in the Metula area. The unit consists of up to 1,000 fighters. They are armed with ATGMs, 100s of kamikaze drones, as well as the ORSIS T-5,000 sniper rifles.

ELITES FLEEING ISRAEL TONIGHT!

A 747 Airlift Parade into/out of Tel Aviv has begun. Two Aircraft marked "Hungarian Air Force" just departed TLV for Kecskemet Airbase in Hungary, as well as some private jets like Globals. You have to assume that the Elites are getting the hell out of dodge now. They would be the ones in-the-know, and THEY are getting out now.

HEZBOLLAH ISSUES OFFICIAL STATEMENT WARNING U.S.

"Palestine is not Ukraine. If America intervenes directly, all American locations in the region will become legitimate targets of the resistance axis and will face our attacks. And on this day there will be no red line left"

**Globalists open second front in World War III: Attack on Israel activates 'zero hour' around the world, and America is not immune
Leo Hohmann posted a warning to the U.S. public:**

In the realm of geopolitical events, things are almost never as they appear.

The messaging being sent by the media is no longer mere "news." What we receive from them are carefully crafted narratives meant to advance certain agendas. The same event, in fact, can carry multiple narratives often diametrically opposed to each other because the narratives are tailored to specific audiences and loaded with explosive words and images meant to trigger emotions in those audiences depending on their prior conditioning.

And the devastating attack on Israel Friday night was no exception.

The "what" cannot be debated – over 600 Israeli citizens were slaughtered and more than 2,000 injured in a brazen and brutal attack by Hamas terrorists. More than 100 other Israelis, including an Israeli military general, were captured and are [being held as hostages](#).

But the "why" and the "how" – as in why now and how did they get away with it – will be less understood by the average American who's more interested in who wins the Packers' game this Sunday or how long Taylor Swift will retain her latest boyfriend.

While few realize it, what happened in Israel on the night of Friday, October 6, is an earthquake in terms of the impact on global stability, mostly because of the timing. The events of October 6 cannot be analyzed and properly understood separate from all that has been going on over the last 18 months between the US/NATO and their vassal states and Russia/China and their vassal states. The attack on Israel (a vassal state of the US/NATO) by Hamas (a vassal state of Iran which is a vassal state of Russia/China) opens up a second front in the escalating World War III scenario being advanced by the globalists for reasons I've provided in previous articles, the most recent of which was posted September 25 as "[The Four D's of Digitization, Dehumanization, Destruction and Depopulation](#)."

Ukrainian President Zelensky has already come out with a statement in support of Israel and implying that Russia was responsible for the Hamas attack. We don't know if that's true but Zelensky said it so that makes it true for the faction of people who believe Ukraine's war with Russia is just and totally defensive in nature.

The media tells us that Hamas launched a sneak attack on Israel and caught the IDF napping.

Excuse me, but there is simply no way the Israeli Defense Forces – the most technologically modern, most adept, most highly trained security force in the

world – did not see this attack coming. For them to be caught off guard is inconceivable.

We're told they were totally surprised. Even on the 50th anniversary of the last massive attack on Israel, the Yom Kippur War of October 7, 1973, they were not prepared for an attack from their arch enemy? They left their border unmanned and unprotected, and it was breached in 29 different places, including in some areas right next to an international music festival where tourists from other countries were partying literally within yards of a dangerous Gaza border? Please. I'm not buying it.

Nor is former IDF intelligence officer Efrat Fenigson buying into this narrative. Watch what she has to say in a post to the [platform X](https://x.com/marcfriedrich7/status/1710752764039397487?s=20).

Let this be an object lesson for all of us, in America and elsewhere.

In my book, [*Stealth Invasion*](#), I referred to Muslim Brotherhood documents which prophesied about a “zero-hour event.” Zero hour can be any event that sets off panic and chaos among the masses, and at this point the Islamic terrorists all join hands to attack the infidel, whether that be Jews in Israel or Christians in the West. All the terror cells get activated.

Since around 1990, the United States has imported more than 3 million Muslims to America, mostly through legal channels associated with the Office of Refugee Resettlement and other avenues where Muslims can come here on religious visas, visa lottery programs and countless other visa programs. Refugees are set on a path to full citizenship within five years.

I'm not saying all of them are anti-American. But if even 10 percent of them are, we've got a problem very similar to Israel's.

Sources of mine in Sterling Heights, Michigan, reported seeing fireworks coming from at site on 15 Mile Road where a mega-mosque is under construction. The mosque is not even open for business, yet the property owners used the site to express their celebratory emotions and feelings of giddiness over the news coming out of Israel.

Hundreds of miles away in Tampa, Florida, I was informed of a pro-Hamas rally, also expressing jubilation over Israelis being killed. Muslims also rallied in [support of Hamas terrorists in America's largest cities](#), New York City, Los Angeles, Boston, Philadelphia and Pittsburgh. Muslims are also [celebrating in Jordan, Lebanon, Iraq, Iran and Turkey \(a NATO member\)](#), among other places. This single event in Israel has triggered them and they will launch more attacks on Jews and Christians around the world.

So it would be a mistake to view what happened in Israel as something “over there.”

It can and will happen here. In the U.S. and many European countries, the hordes are not standing at the gates, they’re inside the gates, waiting for their zero-hour event. This may be it.

The Israelis were not prepared for what happened Friday night. They’d grown too comfortable, too prosperous, too lazy, and maybe some had just grown too tired and weary of standing on alert all the time with their weapons at the ready. It can be exhausting being on watch 24/7.

Perhaps they got lulled into a false sense of security, placing too much faith in their government to save them from such attacks. When the chips are down, the government will not be there to save us. Not in Israel and not in America, Britain, Germany, Italy or France.

Just when you feel you are dwelling in safety and security, then like a thief, Satan will send his minions to attack you in the most vicious way possible.

Be aware. World War III is bulldozing its way into our reality. What happened in Israel on the night of October 6 widens the war and draws in the Muslim world. They now have a stake in the outcome of the war. Israel has a stake. Many of the evangelical Christians in the West who were against funding Ukraine’s war with Russia will now feel they have a stake in this new front being opened in the Middle East.

We should expect a third front to open soon. Perhaps a Chinese blockade of Taiwan? Serbia attacking Kosovo?

All of this will add up to global war and millions of new combatants being drafted into duty on both sides. Americans, are you prepared to offer up your sons and daughters to the military-industrial complex?

If not, then you’d better wise up and refuse to be played by the script writers in the globalist war games.

The violence is coming soon to a nation, state, city, and/or community near you. Why? Because, at this point, both sides want it. They’ve been manipulated into mutual hatred and they’re taking the bait.

Will you be caught off guard like those Israelis?

Israel shifts to ‘offensive phase’ of Gaza op after 700 killed, 100 held hostage

The Cabinet officially approved a war situation and the taking of significant military steps, as per Article 40 of Basic Law: The Government.

Israel's Security Cabinet early on Sunday morning made a series of decisions marking the start of the offensive phase of "Operation Swords of Iron," ordering the Israel Defense Forces to prepare for the "destruction of the military and governing capabilities of Hamas and [Palestinian] Islamic Jihad."

"We are embarking on a long and difficult war that was forced on us by a murderous Hamas attack," said Israeli Prime Minister Netanyahu.

"We will restore security to the citizens of Israel and we will win," he vowed.

"The first stage is ending at this time with the destruction of the vast majority of the enemy forces that infiltrated our territory. At the same time, we have begun the offensive phase, which will continue with neither limitations nor respite until the objectives are achieved," he added.

Among the Cabinet's decisions was to halt the supply of electricity, fuel and goods to the Gaza Strip.
