More than 3,000 auto dealers sign letter opposing Biden's electric vehicle mandate

Electric vehicles 'are stacking up on our lots,' car dealers write to Biden

By [Thomas Catenacci FOXBusiness](#)

[Coalition of car dealers sign letter asking Biden to back off EV mandates](#)

FOX Business' Edward Lawrence has the details from the White House on 'Varney & Co.'

A coalition of more than 3,000 auto dealers nationwide is sending an open letter to President Biden, calling on him to "tap the brakes" on his administration's [aggressive electric vehicle \(EV\) push](#).

The coalition — which includes dealers located in all 50 states and who collectively sell every major car brand — is taking particular aim at the Biden administration's tailpipe emissions standards released earlier this year which are the most aggressive federal regulations of their kind ever issued. Under the regulations proposed by the Environmental Protection Agency (EPA), the majority of new vehicle purchases will be electric within a decade.

"These vehicles are ideal for many people, and we believe their appeal will grow over time," the dealers wrote in their letter to Biden on Tuesday. "The reality, however, is that electric vehicle demand today is not keeping up with the large influx of BEVs [battery electric vehicles] arriving at our dealerships prompted by the current regulations. BEVs are stacking up on our lots."

"Last year, there was a lot of hope and hype about EVs," the letter continued. "Early adopters formed an initial line and were ready to buy these vehicles as soon as we had them to sell. But that enthusiasm has stalled. Today, the supply of unsold BEVs is surging, as they are not selling nearly as fast as they are arriving at our dealerships -- even with deep price cuts, manufacturer incentives, and generous government incentives."

**NEW REPORT UNMASKS TRUE COSTS OF ELECTRIC VEHICLE MANDATES:
'REMAIN MORE EXPENSIVE'**

President Biden's Doppelganger fake JB previously set a goal of ensuring 50% of car purchases are electric by 2030. His administration has pursued aggressive regulations that target future gas-powered cars.

They added that, while the goals of the EPA regulations are admirable, they are also *"unrealistic based on current and forecasted customer demand."* The dealers further noted that the best indicator of customer demand in the auto marketplace is how EVs are stacking up in their lots.

The letter further noted that there are many issues facing the EV industry such as lacking charging infrastructure, energy grid instability and a lack of [reliable mineral supplies vital](#) for EV batteries.

"Mr. President, it is time to tap the brakes on the unrealistic government electric vehicle mandate. Allow time for the battery technology to advance. Allow time to make BEVs more affordable. Allow time to develop domestic sources for the minerals to make batteries," the letter stated.

"Allow time for the charging infrastructure to be built and prove reliable. And most of all, allow time for the American consumer to get comfortable with the technology and make the choice to buy an electric vehicle."

The EPA's tailpipe regulations, which were unveiled in a joint announcement with the White House in April, will impact car model years 2027 through 2032 and are designed to improve air quality and reduce U.S. greenhouse gas emissions. According to the White House, under the regulations, 67% of new sedan, crossover, SUV and light truck purchases, up to 50% of bus and garbage truck purchases, 35% of short-haul freight tractor purchases, and 25% of long-haul freight tractor purchases could be electric by 2032.

A Tesla electric automobile is photographed plugged in and charging in Mountain View, California.

Biden previously set a goal of ensuring 50% of [car purchases are electric](#) by 2030. The White House said the rules would provide a "clear pathway for a continued rise in EV sales."

"With the mandates they are putting in place, they are forcing the consumer to buy something that they don't want," said Tom Maoli — one of the letter's signatories and the founder of New Jersey-based auto group Celebrity Motor Cars which operates multiple dealerships — in an interview with Fox News Digital. "Consumers are not buying into the electric vehicle market right now because the infrastructure is not there, they're concerned about the range and it's 20 to 30% higher to buy the vehicle."

"Even with the incentives that the manufacturers are offering, and that the government is offering, consumers just don't want to buy it," he continued. "The president needs to back off on mandates and allow the river to take its course. EVs will survive, they'll be a part of the marketplace. But they have to let the consumer decide which vehicle they want, how they're going to get their families around and where they're going to spend their money."

Gas-powered cars represented 93% of all new car sales in 2022, according to a report from the Alliance for Automotive Innovation. And EVs remain far more expensive and less efficient than alternatives. In addition, experts have warned that switching too quickly to EVs may present a national security risk given China's dominance of the global EV industry.

According to the International Energy Agency (IEA), for example, [China produces about](#) 75% of all lithium-ion batteries, a key component of EVs, worldwide. The nation also boasts 70% of production capacity for cathodes and 85% for anodes, two key parts of such batteries.

In addition, more than 50% of lithium, cobalt and graphite processing and refining capacity is located in China, the IEA data showed. Those three critical minerals, in addition to copper and nickel, are vital for EV batteries and other green energy technologies. Chinese investment firms have also been aggressive in [purchasing stakes in African mines](#) in recent years to ensure a firm control over mineral production.

"President Biden is investing in a future that is made in America by American workers as we position the United States to lead the clean energy future," a White House spokesperson said in a statement to FOX Business. *"Bidenomics is growing the domestic EV and EV charging industry — creating good-paying union jobs in manufacturing and installation, lowering energy costs for hardworking families, improving air quality, and building the economy from the middle out and the bottom up."*

"More Americans are buying EVs every day — with EV sales rising faster than traditional gas-powered cars — as the President's Inflation Reduction Act makes EVs more affordable and helps Americans save money when driving," the statement added.

EVs less reliable than conventional cars: Consumer Reports

BY [LAUREN SFORZA](#) - 11/29/23

Electric vehicles are significantly less reliable than cars powered by gas or hybrid vehicles, according to a new survey from *Consumer Reports*.

The annual car reliability survey by *Consumer Reports* found EVs are 79 percent more likely to have problems than conventional cars. Consumers reported electric drive motors, charging and EV batteries had the most common issues associated with EVs, according to the survey.

Jake Fisher, senior director of auto testing at *Consumer Reports*, noted that there may be *"growing pains"* among EVs because they are based on new technology or are being manufactured by new upstart companies, such as Rivian. He said companies *"need some time to work out the bugs,"* according to the magazine.

While the survey found that electric vehicles are still less reliable than gas-powered vehicles, *Consumer Reports* recommended Tesla's Model 3 and Model Y for those interested in purchasing an electric car. Steven Elek, who heads the auto data analytics program at *Consumer Reports*, said Tesla's components are "generally reliable," according to the magazine.

However, Elek added that Tesla still struggles with the build quality of its electric cars.

Consumer Reports said hybrid vehicles are the most reliable when compared to electric vehicles, gas-powered vehicles and plug-in hybrids. Hybrid vehicles have 26 percent fewer problems than gas-powered cars, which *Consumer Reports* said is likely because hybrids have been on the market longer than EVs and are manufactured by companies that produce "reliable vehicles overall," such as Toyota, Hyundai and Kia.

Plug-in hybrids are more likely to have more issues than gas-powered cars, EVs and hybrid vehicles. The survey said that plug-in hybrids have **146 percent** more problems than gas-powered cars.

The Biden administration and Democratic-led states are pushing to have more EVs on the road over the next 10 years. Under new Environmental Protection Agency regulations, 67 percent of new light-duty passenger cars sold in the U.S. could be electric by 2032.

The survey was based on owner responses on more than 330,000 vehicles.

MAJOR INTERNET TAKEDOWN IN 2024

Whitney Webb reports that there will be a global cyberattack on the Internet in 2024 that will bring a collapse to the global banking, financial, to bring about the WEF Global Great Reset. Here is a link to journalist Whitney Webb:

<https://youtu.be/Y36ZEKYMvzM>

Whitney Webb is one of the best researchers out there exposing corruption and background on geo-politics. A must view!

This is all about further actions to establish global control over humanity under HRH Prince Charles WEF Global Reset. It's all about censorship and silence dissent.

CIA retrieved 'intact' UFOs – Daily Mail

A "secretive" office of the U.S. spy agency has reportedly recovered nine "non-human craft"

FILE PHOTO: Unidentified flying object, illustration. © Getty Images / KTSDesign / SCIENCEPHOTOLIBRARY

American spies have managed to recover at least nine potentially alien vehicles, two of them *“completely intact,”* the Daily Mail reported on Tuesday, citing three anonymous sources.

The sources, supposedly briefed on top secret operations, told the UK outlet that the main player in the retrievals has been the Office of Global Access (OGA), a branch of the CIA Science and Technology Directorate established in 2003.

“There’s at least nine vehicles. There were different circumstances for different ones,” one of the sources said. *“It has to do with the physical condition they’re in. If it crashes, there’s a lot of damage done. Others, two of them, are completely intact.”*

The CIA has a system to detect unidentified flying objects (UFO) *“while they’re still cloaked”* and helps special U.S. military units salvage the wreckage if *“non-human craft”* land, crash, or are brought down, the source added.

Another anonymous source described the OGA’s role as *“basically a facilitator”* for US operatives to access areas where they would normally not be allowed.

“They are very clever at being able to get anywhere in the world they want to,” the second source said.

Most of OGA’s operations involve *“stray nuclear weapons, downed satellites or adversaries’ technology,”* according to the Mail, but some missions have involved

retrieval of UFOs – or as the US government now prefers to call them, “*Unidentified Anomalous Phenomena*” (UAP).

“The task at hand is simply to get it into custody and protect the secrecy of it,” one source said. *“The actual physical retrieval is by the military. But it’s not kept under military control, because they have to keep too many records. So they start moving it out fairly quickly into private hands.”*

Two of the sources said that the OGA coordinates with Delta Force or SEAL teams working under the U.S. Joint Special Operations Command (JSOC), or the Nuclear Emergency Support Team (NEST), to recover the potentially alien craft.

“We have nothing for you on this,” JSOC said in a written response to the British outlet. A NEST spokesperson said that the agency’s personnel *“encounter materials from unknown origins on a regular basis,”* but have *“never encountered any material related to UAP.”*

One of the sources described the CIA as the *“portfolio manager”* of the UFO *“crash retrieval operation.”* Recovered radioactive materials are sent to national laboratories run by the Department of Energy, while *“aerospace-defense industry”* contractors handle *“other non-radioactive material – and intact craft,”* the source claimed.

After three military and intelligence whistleblowers testified about the UFO retrieval program to U.S. Congress in July, Senate Majority Leader Chuck Schumer sponsored a bill that would require the government to disclose *“recovered technologies of unknown origin and biological evidence of non-human intelligence.”* This UAP Disclosure Act was adopted as part of the 2024 National Defense Authorization Act in September.

How Convenient for Such a Revelation before HRH Prince Charles UFO Address at COP28!

The previous report is simply unbelievable bovine excrement. Are we supposed to believe the CIA coming forth with this story just before the HRH Prince Charles is going to deliver the shock to the world that will bring about the WEF plan to unite under the leadership of the “Man of Sin” and surrender their sovereignty to the rising of the Fourth Reich on December 12th, 2023.

Hollywood has been outdone by the Fascist’s who suddenly have after decades of secrecy revealed their UFOs or as they call them UAPs. This is incredulous and just days before HRH Prince Charles will deliver his equivalent of President Ronald Reagan’s September, 1987 speech at the UN’s opening session.

One comment on this story came from a person with some smarts: Language Tech. This is a bunch of bullshit and I prove it herewith. Let me tell you what a light year is. As you know, the light travels at 300.000 kms per second. Now there are 3.154e+7 seconds, that is, 31.536.000 seconds in a year. Multiple that by 300.000 and it will tell you how many kms is a light year, namely: 9.460.000.000

kilometers. There is NOTHING habitable in thousands of light years away. Nothing can travel at the speed of light without burning itself and it would have to travel for thousands of years. Stop the KRAP of the UFO nonsense!

It will take a hell of a lot more to convince me this story is for real! Pastor Bob. In fact, if you want to know more about the UFO/UAP you should listen to an interview between Lynn Marzulli and Janie Duvall that I captured two weeks ago. I saved the link for others to watch. The link is here just below:
https://youtu.be/Lqf_Brqj8CE

UFOs have gone main stream! There was a report on "60 Minutes" where it was stated that the U.S. government has verified that UFOs are real. On Fox News, Tucker Carlson has had a series of guest on discussing the validity of the phenomenon. The Pentagon stated that we have in our possession off-world vehicles not made on the earth. In short, UFOs are real, burgeoning and NOT going away.

Lynn Marzulli says, *"I believe this is the Coming Great Deception and Luciferian End-game."* Lynn Marzulli has been investigating this subject for decades!

**From Blessed Hope #252:
King Charles' UFO Hotline to President Biden Revealed in Upcoming Film "The King of UFOs"**

In a shocking revelation, Nick Pope, former employee of the UK's UFO desk, has urged King Charles to step into the world of UFO disclosure. The call comes as part of an

upcoming documentary titled “The King of UFOs,” set to premiere on Tubi and Ayozat in November.

Pope, a renowned figure in the world of UFO investigations, believes that King Charles can play a pivotal role in revealing the truth about UFOs and initiating the disclosure process in the UK. The documentary delves into several ways the monarch can accomplish this, underlining his unique position and access to global leaders, most notably, President Joe Biden.

In a candid statement featured in the film, Pope stated, *“Here is somebody who could pick up the phone and say, ‘Look, what’s going on in the United States?’ He could ask for a full classified briefing.”* King Charles’ direct access to the U.S. President could potentially be a game-changer in the quest for transparency regarding UFOs.

Additionally, the King can leverage his influence within the UK government. He can request his ministers in the UK Parliament to provide a written report on UFO phenomena, particularly focusing on their defense implications. Any unidentified objects in UK airspace could pose both a defense and safety concern.

The documentary also suggests that King Charles might covertly inspire Members of Parliament (MPs) to initiate the disclosure process in the UK. This could be accomplished through tabling parliamentary questions, mirroring the approach that kick started the disclosure process in the United States. A groundswell of public opinion could then compel the Defense Minister to hold a hearing.

🌟 The Blast

Royals' interest in UFOs explored in new doc

Pope further notes in the film that King Charles is likely to have a personal interest in UFOs, citing the curiosity previously displayed by his father, Prince Philip, and his great-uncle, Lord Mountbatten.

Directed by musician and UFO expert Mark Christopher Lee, the film, *“The King of UFOs,”* also uncovers a controversial aspect surrounding UFO investigations. Lee’s documentary asserts that, akin to certain factions in the US military and Congress, there are elements within the UK government that consider UFO sightings to have a *“demonic”* connection, making them too dangerous to investigate.

Mark Christopher Lee, who previously directed the hit Tubi film *“God Versus Aliens,”* explores the spiritual implications of first contact in *“The King of UFOs.”* The documentary also features an exclusive interview with former Canadian diver Dan Costello, who claims to have worked with Prince Charles on “Project Serpico” in Nova Scotia, Canada, in 1975. According to Costello, he witnessed Charles piloting an experimental craft resembling a UFO, powered by a unique form of electromagnetism with adverse effects on those in close proximity. Costello’s account credits Charles’s piloting skills with saving lives on that day.

“*The King of UFOs*” is set to be released on Tubi and Ayozat in November, and it promises to shed new light on the UFO phenomenon and King Charles’ potential role in the world of UFO disclosure.

UFO TRUTH EMBARGO: Someone, Please Send This Insider’s Account to Tucker Carlson

Posted on [December 1, 2023](#) by [State of the Nation](#)

These are the top 6 reasons for the UFO/UAP truth embargo

Submitted by *A Long-time Ufologist*

[SOTN](#) EXCLUSIVE

The following six explanations for the never-ending UFO truth embargo are presented in response to Tucker Carlson’s epic interview with Representative Tim Burchett (TN-02) posted below.

There is more unvarnished truth in that one video presentation about the unlawful UAP *Truth Embargo* — PROVIDED BY AN ELECTED REPRESENTATIVE — than any other in U.S. history, so be sure to watch it here: [Why has the US government hidden the existence of UFOs for more than 80 years?](#)

However, what was missing from that excellent video exposé were the real reasons for the longest and most intensive cover-up ever conducted by American officialdom. Here are those top 6 reasons that few ever talk about even throughout the *Disclosure* movement.

(1) The U.S. Federal Government has engaged in formal contracts and official agreements with evil ETs that are profoundly treasonous and which severely violate the human rights of Americans; hence, “Disclosure” would reveal this utterly odious treachery and turn the populace against the government.

(2) Much of the highly advanced UFO technology which has been reversed engineered over the years is being used for malevolent purposes, some even being used to further control and target the American people in quite nefarious ways.

(3) *The Powers That Be* who currently oversee the entire planetary civilization want all of humanity to believe that they are gods by virtue of their advanced technologies which have been given to them by the evil ETs; therefore, any revelations about UFO truth would immediately expose them as mere tools of EBEs from off-planetary civilizations who are far more intelligent and superior in terms of destructive weaponry.

(4) The Military Industrial Complex has a vested interest to never see those highly secret and sophisticated technologies ever revealed to the public because it

gives them extraordinary power over the masses especially serving to distract the citizenry via UFO events which are mostly U.S. military experiments using the reverse engineered tech.

(5) UFOs and Alien activity have been both witnessed and pointed out over millennia as evidenced by the archeological record and countless written accounts, so once the cover-up began, the costs associated with reversing it became more enormous and impractical by the year.

(6) Every POTUS going back to 1900 has participated in this massive cover-up which would not only implicate them and their respective administrations in a highly premeditated criminal conspiracy, it would also expose the U.S. government to a tremendous amount of legal liability and financial damages for untold deaths and injuries related particularly to the abuse of various weapon technologies.

Conclusion

The number one and ludicrous excuse, offered by governments around the world for decades as to why the truth embargo has never been lifted, is that *We the People are not ready to hear it.*

Oh, really?!?!

However, in light of how “**THE TRUTH IS OUT THERE**”, it’s now abundantly clear that the U.S. Government and Military Industrial Complex are the ones who **are not ready for it**. They are especially not ready for the immense blowback after the decades of outrageous lies and deceitfulness, chicanery and corruption, mendacity and deception around this exceedingly weighty matter.

In fact, so desperate are the power elite to keep the *Truth Embargo* firmly in place that they will likely proceed in this manner, sometime in the not-too-distant future, to further distract from their perfidious cover-up:

Rise of the Fourth Reich

Continued Evidence of HRH Prince Charles is the Antichrist

HRH Prince Charles began pushing his “Depopulation” in 1989; The First World Climate Conference was held on February 12-23, 1979 in Geneva and sponsored by the World Meteorological Organization (WMO). It was one of the first major international meetings on climate change. Essentially a scientific conference, it was attended by scientists from a wide range of disciplines. In addition to the main plenary sessions, the conference organized four working groups to look into climate data, the identification of climate topics, integrated impact studies, and research on climate variability and change.

All of HRH Prince Charles public statements are simply fear-porn that has been taken out of the Nazi party play book, *“If you tell a lie big enough and keep repeating it, people will eventually come to believe it. The lie can be maintained only for such time as the*

State can shield the people from the political, economic and/or military consequences of the lie. It thus becomes vitally important for the State to use all of its powers to repress dissent, for the truth is the mortal enemy of the lie, and thus by extension, the truth is the greatest enemy of the State."

THERE IS NO CLIMATE CRISIS. THERE IS A TOTALITARIAN CRISIS.

What people do not know or realize *'Mein Kampf'* was not written by Adolph Hitler but was actually ghost written by the Jesuit Priest Bernhard Stempfle. Stempfle was a Jesuit Priest who visited Hitler in prison in the 1920s. Edmond Paris, author of *'The Secret History of the Jesuits'*, stated Stempfle wrote *'Mein Kampf'*, while some say it was Dietrich Eckart. There is reason to believe that both were directly involved in writing and editing of Hitler's *"My Struggle"*. Eckart from within the prison at Landsberg and Stempfle smuggled out Hitler's writings. The Jesuits have since used history and the passing of time to bury the truth.

On November 9, 1923, Eckart was involved in the Nazi party's failed Beer Hall Putsch; he was arrested and placed in Landsberg Prison along with Hitler and other party officials, but was released shortly thereafter due to illness.

Dietrich Eckart died of a drug overdose caused heart attack in Berchtesgaden on December 26, 1923. However, shortly before his death he made a prophetic statement to the inner circle of the Thule Gesellschaft:

"Hitler will dance, but it is I who have called the tune! I have initiated him into the 'Secret Doctrine', opened his centres of vision and given him the means to communicate with the Powers. Do not mourn for me: I shall have influenced History more than any other German".

The concept of the Third Reich therefore was not simply a restored German Empire that would rise from the ashes of Bismarck's Second Reich. No, the coming *tausendjährige Reich* was to be much more than the "thousand-year Reich" as the term is normally translated. It was in fact the "millennial kingdom" mentioned in Revelation as translated by Martin Luther during the Reformation. The Nazi Third Reich was conceived from the beginning as an imminent Golden Age of human (meaning racial) perfection. Dietrich Eckart and Hitler were anti-Semitic and few in the world know the belief of HRH Prince Charles "seven" years is to launch a Fourth Reich of a 1,000 years built on the failed Nazi Third Reich.

NAZI: Freundeskreis der Wirtschaft 'Circle of Friends of the Economy'

Even today, most people are still almost totally mystified at how Hitler so quickly rose to power to become the brutal dictator he was in Nazi Germany, and continue to have difficulty in explaining why.

However, the simply answer is that it was through the secret financial and political support of big business capitalists.

Since WWII, we don't hear much about it because these same big business interests that previously supported the Nazi Party now control the entire global media and economy.

During the rise of the Third Reich, big business not only funded the Nazi Party through donations, big business was inseparably linked to the Nazi SS secret police intelligence agencies, in exactly the same way that now, but on a much bigger scale, global big business in collusion with global intelligence agencies such as the GCSH, NSA, CIA, MI5, MI6, FBI etc., are presently supporting HRH Prince Charles through his Prince of Wales Business Leaders Forum (now IBLF Global) and his **Coalition for Inclusive Capitalism**. These **fascist** organizations in turn control most governments around the world.

This term **Coalition for Inclusive Capitalism** is code word for and translates into Fascism. The term seems positive enough but it's nothing more than a repackaged label from the rise of the Hitler Third Reich. Note what I am about to share here.

On December 11 1931, Walter Funk, later wartime president of the Reichsbank (German Central Bank), approached Kurt Baron von Schröder to arrange for Hitler to meet a select group of German industrialists and businessmen who would become donors and supporters of him.

Following this meeting, the Freundeskreis der Wirtschaft or 'Circle of Friends of the Economy' was formed by one of Hitler's closest economic advisors, Wilhelm Keppler, with the aim to strengthen the ties between the Nazi Party and German big business and industry.

Keppler, who joined the NSDAP in 1927, was a German businessman and early financial backer of Hitler. The 'Circle of the Friends of the Economy' was set up in 1932 on Hitler's request by Keppler and controlled by Heinrich Himmler head of the SS, a friend of Keppler. At first the organization was briefly referred to as the 'Keppler Circle' but later as 'Himmler's Circle.'

Founding members of the group were: Fritz Kranefuss (Keppler's nephew and member of the board at Brabag), Kurt Baron von Schröder and Emil Heinrich Meyer (ITT Corporation executives), August Rosterg (the General Director of Wintershall), Otto Steinbrinck (the vice-president of Vereinigte Stahlwerke AG), Hjalmar Schacht (Reichbank President), Emil Helffrich (of the German-American Petroleum Company), Friedrich Reinhardt (Chairman of the Board of Commerzbank), Ewald Hecker (Chairman of Ilseder Hütte), and political members Carl Vincent Krogmann and Gottfried Graf von Bismark-Schönhausen. Fritz Kranefuß, a former employee of Keppler's was secretary of the group, and Kurt Baron von Schröder was manager of the financial accounts.

From 1935 to 1944, the members of the circle annually donated approximately 1 million Marks to Himmler. Following the Ministries Trial at Nuremberg in 1949, William Keppler was sentenced to ten years in prison, but was released in February 1951 with a pat on the hand.

Kurt Baron von Schröder (1889-1966)

Although not generally very well known today, the German banker Kurt Baron von Schröder, based in Cologne, had a huge part to play in bringing Adolf Hitler to power and funding the Nazi Party.

It was he, as part of an eight member business group from Keppler's Circle who affixed their signatures with twelve other corrupt businessmen at the bottom of a petition sent to President Hindenburg on November 19 1932, two days after the resignation of the government of Franz von Papen WHO DEMANDED THE APPOINTMENT OF HITLER TO THE REICH CHANCELLERY.

Few today know it is happening again as we are seeing the Rise of the Fourth Reich under HRH Prince Charles of Wales. It does not matter whether you believe it or not, it is happening right under your nose. The last book I read on Adolph Hitler was Gregg Hallett's book '*Hitler Was A British Agent*'. Hallett's book deals with the morbid side of Hitler, yet it reveals how Hitler was controlled by others from within and outside of Germany, a set up to bring about the coming *tausendjährige* Millennial Kingdom of Revelation. The very people that were funding Adolph Hitler nearly a century ago are the same people facilitating HRH Prince Charles today. HRH Prince Charles handlers and deep pockets are on track to bring about the Fourth Reich.

It was Schröder, who was a member of the Nazi Party (NSDAP) who personally arranged and co-hosted with Keppler the notorious meeting on 4 January 1933 at his own house in Cologne between Franz von Papen and Adolf Hitler, Heinrich Himmler and Rudolph Hess, that facilitated the overthrow of Kurt von Schleicher to set up a right-wing coalition Hitler-von Papen-Hugenberg – which led to Hitler's rise to power by being appointed Chancellor of Germany. As a result of Schröder's personal efforts, Heinrich Himmler awarded him with the honorary rank of SS Brigadeführer.

Schröder was the head of J. H. Stein Bank and was on the board of International Telephone & Telegraph (ITT) subsidiaries in Germany, which all worked with the "Big Five" German banks that worked closely with the Nazi Party of which the foremost bank was the Dresdner Bank.

Of the maximum 40 members of Himmler's Circle of Friends of the Economy, no fewer than seven Dresdner Bank directors were members – and in turn, all these banks worked closely with Wall Street, New York banks and multinationals. Funds were channeled to the SS through Special Account 'R' at Dresdner Bank in Berlin.

I have more to share on this rise of the Fourth Reich and just a week or so ago, Brandon Smith hit on exactly what I have been focusing upon, by an insider of the cabal of the banking giant whose name will be found behind every global money interest.

Rothschild Wants Merger between Corporations, Governments and AI To “Save Capitalism”

November 29, 2023

By Brandon Smith

By Brandon Smith

If you're not familiar with a little organization called the "Council For Inclusive Capitalism," don't worry, most people have never heard of it. The group was formed at the height of the covid pandemic; as fear instilled by government officials and the media propagated the news feeds, the majority of the public was rather distracted. The CIC is essentially everything that conspiracy theorists have been warning about for years packaged into a single Orwellian entity, complete with dramatic piano music and a mask of humanitarian philanthropy.

The basic root function of the council is to centralize most or all major corporations (corporations with global influence) and join them with governments into a network that places ideology over profit motive. Some people might argue that corporations need to adopt a shared value system instead of simply roaming

around like sharks devouring whatever they can sink their teeth into. But who gets to choose the set of values that corporate behemoths follow?

The CIC is a physical body representing the action arm of the ESG [Environment, social, governance] concept. It is meant to create incentives and punishments for the business world based on their compliance with the values of globalism and woke socialism, as well as their submission to the climate agenda. I have written about this issue extensively, but my article [‘What Is The “Council For Inclusive Capitalism?” It’s The New World Order’](#) is probably the best overview of the group and their intentions.

The idea is simple: Bring the majority of corporations into line with the far-left political order. Once this is done, they will force those companies to use their platforms and public exposure to indoctrinate the masses. We have seen this strategy in action over the past several years, with many companies producing a steady stream of products, media content and marketing rife with Diversity, Equity and Inclusion propaganda, not to mention anti-west and anti-conservative propaganda.

These corporations have been so ingrained into the DEI and ESG format that many of them are willing to alienate the majority of their customers and lose vast profits. The last vestiges of free market economics are thus destroyed, because the profit motive has been replaced with a political motive.

Why would companies choose to join with such an organization if they are going to be constantly micromanaged in their operations? It may not be presented to them as a choice, but rather an inevitable requirement. Those who get in on the ground floor get the best seats at the cabal’s table; those who join late might be crushed under the weight of an oppressive socialist bureaucracy.

Then again, the choice could also be voluntary with the promise that corporate leaders will be given extensive governance roles after the “Great Reset” of capitalism which the World Economic Forum discusses so often.

Keep in mind that the only way such companies would be able to survive after being shunned by the majority of the public is if they join with governments, are handed a state sponsored monopoly and are supported by perpetual subsidies. They might even be operating under the assumption that as long as they continue to serve the woke religion they will eventually be rewarded with “too woke to fail” status.

Mussolini once defined the meeting of corporate power with government power as the original design for fascism. The Council for Inclusive Capitalism is the living breathing expression of that authoritarian seed.

The group is headed by Lady Lynn de Rothschild of the notorious Rothschild dynasty, and has expanded to include an army of corporate partners, government partners, UN partners and even the Vatican. A key component to the globalist agenda that is mentioned frequently is Artificial Intelligence (AI), along with its supposed ability to upend everything in our society and economy forever. While the abilities of AI are highly overrated, the elites seem to think it's some kind of godlike apparatus that will remake the world. Lady Rothschild engaged with the media recently to promote an interesting and revealing argument:

Surprisingly, Rothschild meets some resistance from her interviewers which forces her to make an indirect admission: AI will require a "root and branch reform of the economy," meaning, free markets have to go and government/corporate partners will have to step in to control everything, for the sake of the populace and the "greater good", of course. Except it's all a sham.

AI, much like climate change, is quickly becoming yet another fabricated excuse for global centralization. The CIC along with institutions like the WEF and the UN have been asserting for the past few years that "someone" needs to step in to moderate AI so that no single government abuses its apparently unlimited power. In other words: Problem, Reaction, Solution.

The globalists create a problem out of thin air (AI), then suggest it is a much greater boon (or threat) to humanity than it actually is, then they offer their services as fair and benevolent arbiters of the technology and its effects. Rothschild suggests it herself in the interview when she claims that "capitalists" will have to adjust their priorities over to social causes in the wake of AI. As I stated before, it's just ESG in another form.

I would point out the tone of disdain in Rothschild's reaction when free markets are brought into the debate. These people HATE any notion of free markets. Adam Smith's system was drafted in direct response to the trespasses of mercantilist control. The two constructs are mutually exclusive. You cannot have free markets (or freedom) within a centralized mercantilist empire. You cannot have free markets and socialism within the same economy. And to be clear, the system we have in the US today is NOT a free market system, it is former free market system slowly undermined over time.

Free markets are already fair. Corporate elites interfere with that fairness when they join with governments to rig the system in their favor and gain undue advantages. The inequities Rothschild describes as an excuse for centralization were in fact created by elites like her. The CIC and the Great Reset agenda are nothing more than tools to entrench corporate and elitist power forever.

They get to decide which companies thrive or die. They get to decide the social values of the next century. They get to dictate how the worlds resources are utilized and who is allowed access to them. And, governments will ensure that

they are protected from the rage of the people should the public become wise to their hostile takeover.

The most insulting part? Anyone who criticizes or attacks this ideological invasion of our economic life will be accused of being a monster. After all, the CIC just wants to save humanity from itself, right? If you want to stop them, you must be some kind of selfish villain that values individual freedom over the common good.

The bigger question that the globalists don't want us to ask, though, is what makes them qualified to determine the common good? Why is assumed that they should be the arbiters of everything? Even the stagflation crisis we are facing today is a direct result of governments and central banks stepping in with trillions in fiat money to save the "too big to fail" corporations from their own disastrous practices. Why should we trust them with our social welfare, or anything else for that matter?

The globalists will respond to this argument with AI. They will say that AI is the ultimate "objective" mediator because it has no emotional or political loyalties. They will assert that AI must become the de facto decision making apparatus for human civilization. And now you see why Rothschild is so anxious to spearhead the creation of a global regulatory framework for AI – Whoever controls the functions of AI, whoever programs the software, eventually controls the world, all while using AI as a proxy. If anything goes wrong, they can simply say that it was AI that made the decision, not them.

It is the perfect shadow government; a technocratic Wizard of OZ using the smoke and mirrors of an AI puppet to rule the planet, removing all accountability and displacing all rebellion. For how can the populace argue with or revolt against a faceless algorithm floating in the digital ether?

It is the perfect shadow government; a technocratic Wizard of OZ using the smoke and mirrors of an AI puppet to rule the planet, removing all accountability and displacing all rebellion. For how can the populace argue with or revolt against a faceless algorithm floating in the digital ether?

This new world order is simply the old world order with inclusive language masking the poison pill of enslavement. One of the things about the Antichrist will be his gift at selling his agenda through deception and flattery.

After the war, there were repeated attempts to conceal the financing of the Nazi regime, much of it by Anglo/American bankers and officials of the British and American governments, especially by blocking the investigation of the bank Bankhaus J. H. Stein founded in 1788 based in Cologne. This corrupt bank was known as the "bank of the cartel kings" and was suspected to have served as a conduit for secretly funding

Heinrich Himmler's SS through deposits by German and Anglo/American industrial cartels and banks.

After the end of WWII, Kurt Baron von Schröder was arrested for crimes against humanity. He was found guilty by a British military court and sentenced with a tap on the hand to only three months in prison and a paltry fine of 1,500 RM. He died on November 4 1966.

Kurt Baron von Schröder was born in 1889 into an old established German Lutheran Hanseatic ruling class banking family in Hamburg founded by Christian Mattias Schröder (1742-1821). One of Christian's sons was Johann Heinrich Schröder, who settled in London in 1804 and became a partner in the London-based firm of his brother, Johann Friedrich (John Frederick), who later founded the investment bank J. Henry Schroder & Co in London in 1818 and J. Henry Schroder Banking Corporation in New York in 1923. By around 1900, the bank had grown enormously large in London and was headed by Baron Bruno von Schroder who was soon joined by Frank Cyril Tiarks in 1902 who became a director of the bank of England 1912 to 1945.

In the United States, in 1933, when Hitler came to power as the result of the work of Kurt Baron von Schroder, John Foster Dulles (Eisenhower's Secretary of State) and Allen W. Dulles (head of the CIA for many years) of the New York law firm, Sullivan and Cromwell were represented by the Schroder Bank in New York. Both the Dulles brothers had spent large amounts of time in Germany, where Sullivan and Cromwell represented several provincial governments and a number of big American companies with financial interests in the Reich.

Consequently, Allen Dulles later became a director of J. Henry Schroder prior to being appointed to the CIA, which of course from day one has always been controlled by Britain and not the U.S. Congress at all. In 1936 the New York branch of Schrodgers was merged with Rockefeller interests to create Schroder, Rockefeller Inc. located at 48 Wall Street, New York City. Carlton P. Fuller of Schrodgers was President and Avery Rockefeller was vice-President. Avery Rockefeller set up the giant construction firm Bechtel Corporation. Today these former Schroder firms have been consolidated to become the giant British multinational asset management company called Schrodgers Plc. As at 30 September 2015, Schrodgers was managing assets worth £294.8 billion or \$446.5 billion, and it had 37 offices in 27 countries.

Notable former employees of Schrodgers in the City of London are: Geoffrey Bell – founder of the Group of Thirty, Winfried Bischoff – Chairman of Lloyds Banking Group (2009 to present), Andrew Knight – Editor of The Economist (1974-1986), David Ogilvy 13th Earl of Airlie – Lord Chamberlain (1984 -1997), Gordon Richardson – Governor of the Bank of England (1973- 1983), James Wolfensohn – President of the World Bank (1995-2005), Avery Rockefeller - member of the Rockefeller family. A few of the about 40 members of Himmler's 'Circle of Friends of the Economy' included representatives of the following companies: Bosch, Flick, IG Farben, Oetker, Quandt, Rheinmetall-Borsig, Siemens, Commerzbank, German Bank, Dresdner Bank. However, Kurt Baron von

Schröder – was the most influential member of all as he represented an enormous amount of German big business being President of the Chamber of Commerce in Cologne 1933-1945, on the Advisory Board of the Reichsbank and Reich Chamber of Commerce, member of the Academy of German Law, member or chairman of more than 30 supervisory boards including Dynamit AG, Felten & Guillaume Carlswerk AG, Lignite Gasoline AG (Brabag) and Reinbraun, Chairman of the board of Siemens & Halske AG etc.

After Adolf Hitler was appointed chancellor of Germany on January 30, 1933, he seized every opportunity to turn Germany into a one-party dictatorship and national police state under his brutal reign of terror.

The pivotal turning point occurred on the night of February 27-28, 1933, when a supposedly mentally deranged Dutchman set fire to The Reichstag (Parliament) building (although many German researchers today believe the Nazis did it themselves). It was this major terrorist event that allowed Hitler to declare a “war on terrorism” to establish his legitimacy as a leader (even though he hadn’t won a majority in the previous election).

“*You are now witnessing the beginning of a great epoch in history,*” he proclaimed, standing in front of the burned-out building surrounded by BIG BUSINESS NATIONAL MEDIA. “*This fire,*” he said, his voice trembling with emotion, “*is the beginning.*” He then used the occasion as “a sign from God,” as he called it – to declare an all-out “*war on terrorism*” and its ideological sponsors, a people, he said, who traced their origins to the Middle East and found motivation for their “*evil*” deeds in their religion. Through this single event, Hitler and his propaganda minister, Joseph Goebbels, presented the incident as the prelude to an armed Communist uprising. This therefore persuaded the aging President Paul von Hindenburg to establish a permanent state of national emergency.

This decree, known as the Reichstag Fire Decree, suspended the provisions of the German Constitution that protected the basic individual rights of citizens, including freedom of the press, freedom of speech, and freedom of assembly. The decree also permitted increased police and state intervention into private life, allowing officials to censor mail, listen in on phone conversations, and search private homes without a warrant or any need to show reasonable cause. Sound familiar to the Patriot Act?

Under the state of emergency established by the decree, the Nazi regime could arrest and detain people without cause, forbid access to lawyers and proper legal representation, and put them into detention camps without any limits on the length of the incarceration.

To get his patriotic “*Decree on the Protection of People and State*” passed over the objections of concerned German legislators and civil libertarians, he agreed to put a sunset provision on it: if the national emergency provoked by the terrorist attack on the Reichstag building was over by then, the freedoms and rights would be returned to the

people, and the police agencies would be re-restrained – but of course this was a lie – he never had any intention to do this and the rights lost were never replaced. Within months he began referring to the nation as “The Fatherland.”

Within a year of The Reichstag fire, the contrived “war against terror” had necessitated a single national agency being set up to protect the Fatherland. So his Office of Fatherland Security or Reichssicherheitshauptamt and Schutzstaffel or “SS” was established.

Prince Charles Coalition of Inclusive Capitalism: Paris War on Terrorism & Climate Change

Identical to Hitler’s burning of the Reichstag, to set up a national police state in 1933 by imposing an endless “*war on terror*,” Paris was used in November through to December 2015, to become part of a devious global plan linking the “*War against Terror and Climate Change*” to unite everyone on earth in common cause and faith to come together in the New World Order to worship, not a national – but a soon-coming global “Führer.”

On November 13, 2015, came the terrorist attacks in Paris (conveniently, the day before Prince Charles’s 67th birthday) by supposed “*terrorists from the Middle East*” as a prelude to the Paris 2015: COP21 – CMP11 United Nations Conference on Climate Change from November 30 to December 11, 2015 under the patronage of Prince Charles – with the aim to take away everybody’s rights by setting up new “*Climate Courts*” for dissidents and global warming deniers. Yet any mention of these new plans for “*Climate Courts*” was virtually never mentioned by the global mainstream media at all, indeed, not even mentioned to many of the COP21 delegates themselves.

Prince Charles: Global pact on Climate Change could be Magna Carta for Earth

On January 26, 2015, The Guardian published an article titled, ‘Prince Charles: global pact on climate change could be Magna Carta for Earth.’ It stated the “*Prince of Wales said this year marked potentially the last chance to save the world from the perils of global warming.*”

“He said a new global pact on climate change, due to be signed this year in Paris, should be a “Magna Carta for the Earth.” He told a meeting of forestry and climate experts in London: “In the 800th anniversary year of the Magna Carta, perhaps this year’s agreement of the new sustainable development goals and a new climate agreement in Paris should be seen as a new Magna Carta for the Earth, and humanity’s relationship with it.” ... And so here we are today and HRH Prince Charles has presented his ‘Terra Carta’ to replace the Magna Carta. Through his cunning and deceit he has been bringing the Fourth Reich into existence without so much as a shot!

All these multinational groups, banks and corporations that are deceptively assembled around Prince Charles’ Coalition of Inclusive Capitalism through his “war against terror” – are simply the modern equivalent of what Hitler did with Himmler’s Circle of Friends of

the Economy in the 1930s supported in full by the fascist media and propaganda under Joseph Goebbels.

**King Charles: Pay \$5 trillion annually to prevent climate catastrophe
King Charles III said the world remains "dreadfully far off track" in
reaching its climate goals**

By Michael Dorgan Fox News

King Charles says \$5 trillion needed every year to stop climate catastrophe

King Charles says the only way to prevent climate Armageddon is for the public and private sectors to cough up \$5 trillion every year.

How much money do you think it will cost to save the world from a climate catastrophe?

According to [King Charles III](#), it's about \$5 trillion. Every year.

That's what the British royal told a packed conference of green advocates and state leaders on Friday who flew from all around the world – many on private jets – to meet up at the plush [United Nations climate summit in Dubai](#), known as COP 28.

US COMMITS TO SHUTTING DOWN ITS COAL PLANTS DURING COP28

Warning that the world is "*hurdlng into dangerous, uncharted territory*," Charles, 75, said he was praying for "*transformational action*" to come out of the gathering.

"How can we bring together our public, private, philanthropic and NGO [non-governmental organization] sectors ever more effectively, so that they all play their part in delivering climate action?" Charles asked the crowd, which included former Vice President Al Gore and Secretary-General of the United Nations António Guterres.

Public finance alone won't cut it, he added.

"But with the private sector firmly at the table... we could mobilize the trillions of dollars we need, in the order of four-and-a-half to five trillion a year, to drive the transformation we need."

U.S. Special Envoy for Climate John Kerry, speaking at COP 28, left, and the Brandon Shores Power Plant, in Baltimore, Maryland. To put that figure into perspective, it is about 20% of the U.S. Gross Domestic Product in 2022 which was \$25.46 trillion, according to the Bureau of Economic Analysis.

Charles did not give a breakdown of who should pay what, or where exactly the money would go, although he did say that the funds should flow to projects driving sustainable changes and away from practices that *"make our world more dangerous."*

Part of the funds, at least, would likely be placed in the Green Climate Fund, a United Nations fund tasked with helping developing countries mitigate and combat climate change.

On Saturday, the U.S. pledged \$3 billion to the fund, on top of an additional \$2 billion previously delivered by the United States. U.S. Special Envoy for Climate John Kerry announced at the summit that the United States will not build any new coal plants and will phase out existing plants to limit global warming to 1.5 Celsius.

In his speech, Charles also called on different types of organizations to come together to fight climate change and asked for the world to ramp up investment in green, renewable energy.

"Some important progress has been made, but it worries me greatly that we remain so dreadfully far off track," Charles said.

It is unclear if Charles will be donating to the fund. The Royal family is worth \$28 billion, according to Forbes. Even that is a lie since the Crown receives what is known as the Golden Share, a percentage of every financial transaction in the world from its infinite investments. This all amounts to legalized shakedown at a scale the Mafia would be ashamed of.

The specific fact that HRH Prince Charles has said privately, everything that comes out of the COP28 Climate Change Conference signing, will "go into effect on December 12, 2023" infers somehow a connection to the "New Moon" that occurs on December 12th, 2023. HRH Prince Charles past has involved astrology with the timing of virtually every planned event in the Royal Family.

The dates of Hanukkah are aligned with the timing of COP28! No Coincidence!

Count down to 'Confirming the Covenant with the Many is merely a few more days'

<p>Hanukkah 12/7/23 – 12/15/23 COP28 Began November 30th Days to end COP28 December 12th as of 12/4/23 – 8 days</p>
--

Praise God!

**ADMIT THAT YOU
ARE A SINNER.**

**BELIEVE THAT JESUS
PAID FOR YOUR SIN
ON THE CROSS. †**

**CONFESS THAT JESUS
IS LORD AND CALL UPON
HIM FOR SALVATION.**

Blessings in the Precious Name of Jesus Christ, Lord of lords, and King of kings!
