Censored Study Exposes 17 Millions Deaths Among Vaxxed

Hunter Fielding December 26, 2023

A groundbreaking study has revealed that 17 million people died worldwide after the Covid mRNA shots were rolled out to the public.

The shocking study *should* be garnering worldwide attention and calls for an immediate cessation of all Covid vaccines.

Instead, it has been censored.

The bombshell study, [COVID-19 vaccine-associated mortality in the Southern Hemisphere](#), by [Drs. Denis Rancourt](#), [Marine Baudin](#), Joseph Hickey and [Jérémie Mercier](#) was published September 17, 2023, yet, also shockingly the study has not had the attention it deserves, but, [has met only](#) censorship and narrative-confirming “fact-checks” on the safety and effectiveness of the as-yet untested Covid-19 “vaccines.”

The Study

The team of doctors [studied](#) 17 countries across 4 continents, in Latin America and in the equatorial region which provided them with a representative sample of the world.

“We calculate the toxicity of the vaccine for all ages,” explained Dr. Rancourt, “given the number of doses given worldwide to conclude that 17 million people would have been killed by this vaccine.”

17 Countries, 4 Continents

The seventeen equatorial and Southern-Hemisphere countries studied: Argentina, Australia, Bolivia, Brazil, Chile, Colombia, Ecuador, Malaysia, New Zealand, Paraguay, Peru, Philippines, Singapore, South Africa, Suriname, Thailand, and Uruguay.

Figure 1: World map showing the 17 countries considered in the present study, in relation to the equator and the tropics — Argentina, Australia, Bolivia, Brazil, Chile, Colombia, Ecuador, Malaysia, New Zealand, Paraguay, Peru, Philippines, Singapore, South Africa, Suriname, Thailand, and Uruguay.

These countries, spanning across four continents comprise of 9.10% of the worldwide population, 10.3% of worldwide COVID-19 injections (vaccination rate of 1.91 injections per person, all ages), virtually every COVID-19 vaccine type and manufacturer.

Covid Vaccines Had No Beneficial Effect.

In the 17 countries, there is no evidence in all-cause mortality (ACM) by time data that there have been any beneficial effects from the COVID-19 vaccines and there is no association in time between COVID-19 vaccination and any proportionate reduction in all-cause mortality (ACM)

In fact, the opposite occurs. In all 17 countries, higher numbers are seen in all-cause mortality (ACM) when the COVID-19 vaccines are deployed and administered.

Nine of the 17 countries have no detectable excess ACM in the period of approximately one year after a pandemic was declared on the 11th of March 2020 by the World Health Organization (WHO), until the vaccines are rolled out (Australia, Malaysia, New Zealand, Paraguay, Philippines, Singapore, Suriname, Thailand, Uruguay). [Source](#)

Boosters Boost All-Cause Mortality

According to the research, there were “unprecedented peaks in ACM that occur in the summer (January-February) of 2022 in the Southern Hemisphere, and in equatorial-latitude countries. These peaks are synchronous with, or immediately preceded by rapid COVID-19-vaccine-booster-dose rollouts (3rd or 4th doses). The researchers say that this phenomenon is present in every case with sufficient mortality data, (Argentina and Suriname had insufficient mortality data in January – February 2022).

According to the doctors who conducted [the research](#) “it is unlikely that the transitions to regimes of high ACM, coincident with the rollout and sustained administration of COVID-19 vaccines, in all 17 Southern- Hemisphere and equatorial-latitude countries, could be due to any cause other than the vaccines.”

Fatality Rate Increased with Age

The doctors state “*synchronicity between the many peaks in ACM (in 17 countries, on 4 continents, in all elderly age groups, at different times) and associated rapid booster rollouts allows this [firm conclusion](#) regarding causality and accurate quantification of COVID-19-vaccine toxicity.*”

The all-ages vaccine-dose fatality rate (VDFR), which is the ratio of inferred vaccine-induced deaths to vaccine doses delivered in a population, is quantified for the January – February 2022 ACM peak to fall in the range of 0.02 % (New Zealand) to 0.20% (Uruguay).

In Chile and Peru, the vaccine Dose Fatality Rate increased exponentially with age (doubling approximately every 4 years of age), and is largest for the latest booster doses, reaching approximately 5% in the 90+ years age groups (1 death per 20 injections of dose 4). (Also comparable to results found in research of the Northern Hemisphere (India, Israel, and USA) according to the researchers.)

The team quantified the overall all-ages vaccine Dose Fatality Rate (VDFR) for the 17 countries to be $(0.126 \pm 0.004) \%$, which would imply 17.0 ± 0.5 million COVID-19 vaccine deaths worldwide, from 13.50 billion injections up to 2 September 2023. [Source](#)

Rancourt *et al*, say that the deaths caused by the Covid vaccines “**would correspond to a mass iatrogenic event that killed $(0.213 \pm 0.006) \%$ of the world population.**”

“**1 death per 470 living persons, in less than 3 years** did not measurably prevent any deaths.”

The [overall risk](#) of death induced by injection with the COVID-19 vaccines in actual populations, inferred from excess all-cause mortality and its synchronicity with rollouts, is globally pervasive and much larger than reported in clinical trials, adverse effect monitoring, and cause-of-death statistics from death certificates, by 3 orders of magnitude (1,000-fold greater).

To summarize:

In seventeen countries across four continents **“Covid” had no excess all-cause mortality** in the majority of them during the “pandemic,” and therefore as would be expected in that case alone, **the Covid vaccines had no beneficial effects**, but have actually shown to cause a **higher number of deaths following the vaccine rollout and administration.**

The study has revealed that peaks were observed in all-cause mortality that also coincided with the rollout of booster vaccine doses three and four and there is no other likely reason for the higher number of deaths, than these booster vaccines.

In all of the 17 countries, across four continents, a peak occurred in the deaths of all elderly of all ages following the vaccine and elderly deaths caused by the vaccine increased exponentially doubling approximately every four years of age. This is not a coincidence.

The doctors are interviewed at the [International Crisis Summit 4](#) in the Romanian Parliament.

WATCH:

There should now be no doubt of the dangers of taking these vaccines, and neither should there be any doubt that the leaders worldwide were aware that the pharma products were far from *“safe and effective.”*

There can now be no other explanation for the fact they do not seem shocked at the findings in a study by esteemed scientists.

The fact that they also want the work to be censored, and *“fact-checked”* with no discussion, cannot simply be *“turning a blind eye”* to *“conspiracy theories”* at this stage when there is strong evidence to support the dangers.

We can only assume they know, they always knew, and had no qualms about administering the deadly jab around the entire world.

They are now doing their very best to prevent the true evil of their actions from being known by everyone else.

END OF CYCLE FORMULA FOR THE 'VACCINATED'

by Steven Fishman

July 22, 2021

I am often asked the question:

If I have taken the "vaccine," how long will I live...?

I deferred this question to a friend of mine, Dr. Mylo Canderian, Ph.D. (born Milos Iskanderianos, Corfu, Greece, 1938), who developed the patent for Graphene Oxide for use as a Hematological Bioweapon in 2015.

« In the future it will be a question of finding a way to reduce the population. We will start with the old ... then the weak and then the useless ... and especially the stupid ones.

We will get rid of them by making them believe it is for their own good. We will find something or cause it, a pandemic that targets certain people ... a virus that will affect the old or the fat, it doesn't matter; the weak will succumb to it, the fearful and the stupid will believe it and ask to be treated.

We will have taken care to have planned the treatment, a treatment that will be the solution. The selection of idiots will thus be done ... they will go to the slaughterhouse on their own. »

- Jacques Attali, French-Jewish 'shadow Président of France', interviewed in 1981 by Michael Salomon, 'Les Visages de l'avenir' French original text at www.profession-gendarme.com

In full transparency, Dr. Canderian is what I would call a "Genocidal Globalist," who follows Precept Ten of the Georgia Guidestones, which is very seldom discussed, stating,

"Be not a Cancer upon the Earth; Leave Room for Nature."

Dr. Canderian is a Medical Contributor to the World Health Organization (WHO) and is also very supportive of Klaus Schwab and the "Great Reset," ushering in one world digital currency which is a secondary goal of the WHO for 2022.

Dr. Canderian is of the opinion that 95% of the world's population are *"Useless Eaters"* who need to be euthanized as quickly as possible.

"Look at downtown Chicago, Baltimore, or Los Angeles," he has stated, "and you will clearly see why the Useless Eaters must be put down like rabid dogs."

He has expressed his disdain for,

"Infectious Educators" who promote Critical Race Theory, and is confident that the "vaccine" will put an end to "Human Cancer Upon the Earth."

Dr. Canderian is an ardent supporter of Freemasonry's Duty and Obligation to rid the world of the *"Plague of Humanity."*

Yet on a personal level, he and I share a passion for the same exotic dish served at L'eminence de Veau in Geneva: Cream of Hummingbird Soup followed by Elk Tongue.

We both are fans of Chef Gaston Sere de Rivières, who is a culinary genius.

So, I asked Mylo,

"How can the "vaccinated" know with certainty how long they have to live once they have been jabbed?"

He presented me with the information, called the *"End of Cycle Formula."*

He explained how easy it is to calculate.

"The Power of Simplicity," he said. *"There is a maximum cycle of ten years from injection to End of Cycle,"* (or death), he elaborated.

"And it is extremely easy to determine."

He said any hematologist can see it within seconds under a microscope, and even more readily under an electron microscope.

"The percentage of blood affected (or contaminated) by or with Graphene Oxide is the reciprocity of the End of Cycle calculation," he divulged.

In other words, an "inoculatee" (as he calls anyone jabbed with the *Experimental Use Authorization Eugenics Depopulation Lethal Injection Bioweapon*) having 20% Graphene Oxide deterioration in their blood will, barring any other input criteria, live for 8 years (10 years less 20%). Someone with 70% Graphene Oxide deterioration will not live more than 3 years. (10 years less 70%).

Dr. **Jane Ruby** recently was interviewed by **Stew Peters** on his podcast (above video) and showed examples of what the deteriorated blood looks like when exposed to *Graphene Oxide*.

*"Graphene Oxide, for those who are unaware, is the **component** of Messenger RNA spike proteins and prions, which is at war with, the heart, lungs, brain and blood for oxygen...*

Graphene Oxide is an oxygen sponge which deprives the body of necessary oxygen and causes many complications, including but not limited to,

- anaphylactic shock
- toxic blood clotting
- fatal lung paralysis
- mitochondrial cancer
- endothelial cancer."

Dr. Mylo Canderian's viewpoint is much the same as Klaus Schwab, [Bill Gates](#), and the [Big Pharma](#) CEO's:

LET THEM ALL DIE...!

I asked Mylo what the effect of second and third shots and boosters do and how that changes the *End of Cycle* table.

Mylo replied:

"It is all measurable through hematological testing.

The more shots and boosters the imbeciles get, the worse their blood will look under a microscope, and the quicker they will turn to fertilizer."

Finally, I asked him how the plot to kill so many billions of people could be kept so secret by such a group of elites.

His answer was:

"You don't know much about Freemasonry, do you, Steve?"

And there you have it...

I do not know where Mylo's patents were filed, but he has told me that the World Health Organization has them.

I will research it further, but I can assure you that when I worked for Norah Cali at the Progress for Peace Foundation, our interactions with Mylo were consistent.

As I said, I have met him in Davos, Switzerland.

Even if there was some kind of half-life of graphene oxide in the bloodstream (which I have not yet ascertained as being a true hypothesis), that still would not speak to motive (*"that's why they want to inoculate us as many times as possible"*), once again evidencing the genocidal globalists' intent to annihilate us all.

Their utter contempt for us is obvious no matter how many *"variants"* they create in the lab or how many *"boosters"* they introduce to wipe us out.

Mylo is 83 years old and lives very comfortably in (names location which I removed to protect Steven-hm) and finds my attempt to expose everything *"laughingly self-destructive and pathetic,"* but he did make one interesting observation:

that both the elites (Freemasons, Council on Foreign Relations Members, Bilderbergers, and the British Royal Family, etc.) and the *"sanctimonious antivaxxers"* (referring to me and our little club of protesters) have one thing in common:

we will all have to live together after the useless eaters are all dead, if and when we survive what is coming...

To understand events unfolding, it's best to see mankind as a cancer.

Llewellyn H. Rockwell, Jr. wrote an op-ed piece back in July, 2021: 20 Things I've Learned (Or Had Confirmed) about Humanity during the "Pandemic"

1. Most people would rather be in the majority, than be right.
2. At least 20% of the population has strong authoritarian tendencies, which will emerge under the right conditions.
3. Fear of death is only rivaled by the *fear of social disapproval*. The latter could be stronger.
4. Propaganda is just as effective in the modern day as it was 100 years ago. [Access to limitless information](#) **has not made the average person any wiser...**
5. Anything and everything can and will be politicized by the media, government, and those who trust them.

6. Many politicians and large corporations will gladly sacrifice human lives if it is conducive to their political and financial aspirations.
7. Most people believe the government acts in the *best interests of the people*. Even many who are vocal critics of the government.
8. Once they have made up their mind, most people would rather to commit to being wrong, than admit they were wrong.
9. Humans can be trained and conditioned quickly and relatively easily to significantly alter their behaviors — for better or worse.
10. When sufficiently frightened, most people will not only accept authoritarianism, but demand it.
11. People who are dismissed as "[conspiracy theorists](#)" are often well researched and simply ahead of the mainstream narrative.
12. Most people value safety and security more than freedom and liberty, even if said "safety" is merely an illusion.
13. [Hedonic adaptation](#) occurs in both directions, and once inertia sets in, it is difficult to get people back to "normal."
14. A significant % of people thoroughly enjoy being subjugated.
15. "The Science" has evolved into a secular pseudo-religion for millions of people in the West. This religion has little to do with science itself.
16. Most people care more about looking like they are doing the right thing, rather than actually doing the right thing.
17. [Current politics](#), [the media](#), science, and [the healthcare industries](#) are all corrupt, to varying degrees. Scientists and doctors can be bought as easily as politicians.
18. If you make people comfortable enough, they will not revolt. You can keep millions docile as you strip their rights, by giving them money, food, and entertainment.
19. Modern people are overly complacent and lack vigilance when it comes to defending their own freedoms from government overreach.
20. It's easier to fool a person than to convince them that they have been fooled.

I am here to say that Mr. Llewellyn H. Rockwell is right on target. In four years of close monitoring the Global Scamdemic, I have seen people at their worst, and that includes

very highly educated people. It was early on in the summer of 2020, when I viewed a video presentation by Dr. David L. Martin given at a church in California. Dr. Martin is the head of a company called M:Cam. It is his company's task to validate patents and their claims, to verify the claims of the patents are viable and pass the "smell" test for potential investors in the venture capital market. Few inventors are able to bring to market their inventions without the funds needed to launch a new product. Dr. Martin had been tracking the claims of the Coronavirus going back to 2003.

As I noted, I have been documenting the entire Covid Scamdemic since it broke out on the "*Diamond Princess*" cruise ship in January, 2020. When I say scamdemic, I am not saying that people did not die of some unknown pathogen. As Hunter Fielding's opening article has shown that at least 17 million people worldwide have died of the vaxxes. The World Health Organization (WHO) has acknowledged that the real numbers are in excess of 20 million who died.

I once did a Friday weekly CDC VAERS analysis series entitled "Mass Murder". For 85 weeks straight I did this report from data provided by the Children's Defense Fund site. When the CDC stopped reporting the number of deaths, injuries, it was to shut down the publicity of the VAERS report. The CDC was caught numerous times changing the data, manipulating the data to cover up death statistics. The government public health agencies are corrupt and there is a revolving door between public health agencies and big pharma. The executives of the pharmaceutical industry become regulators and a 'quid-pro-quo' relationship exists between the regulators and big pharma.

A patent granted to [Bill Gates](#) awarded the self-appointed world health czar the "*exclusive rights*" to computerize human bodies and use them as local wireless networks.

The human body is a vibrating, throbbing, pulsing gateway of tubes and tunnels, filled with electrolytes and all capable of transmitting information, the lifeblood of the internet and the 21st century.

Now it has emerged that Gates' Microsoft was granted "*exclusive rights*" to this ability of the body to act as a computer network.

If this sounds too much like science fiction, then you are welcome to check this out for yourself.

Microsoft was awarded [US Patent 6,754,472](#), which is titled [Method and Apparatus for Transmitting Power and Data using the Human Body](#).

Which really should be science fiction, if you stop to think about it.

Did anybody consult you about whether you are willing to hand over to Bill Gates the [exclusive rights to your body](#)?

Civil liberties groups have expressed outrage over Gates' move to patent the human body.

*"Body parts, in this case skin, should not be in any way patentable," said **Jim Thomas** of the ETC group, which monitors developments in technology.*

"There are big questions here about whether individuals will be able to refuse this technology if it is used in, for example, tracking devices."

[Klaus Schwab](#)'s right hand man, [Yuval Noah Harari](#), says there is no question that individuals will have no say whatsoever about refusing this technology.

According to [Harari](#),

"The designer of life will no longer be god... the WEF are going to be the designers of the future of life."

Harari also explains why Gates' patent on the human body is so important.

Gates was at the forefront of the computer science revolution, according to Harari, and he is also at the forefront of, *"the revolution in the biological sciences."*

And guess what?

According to Harari, Bill Gates' two revolutions are about to merge...

While Harari is dropping some hints, Gates is remaining coy about what they plan to do to the human body, and more to the point, whose human bodies they plan to computerize.

The big question is whether Gates is planning to allow his human subjects a choice in the matter. From recent global news and demands the obvious suggests you will not have a say in the plan.

[According to Robert F. Kennedy Jr](#), Gates has a,

"God-like willingness to experiment with the lives of lesser humans."

Kennedy Jr. goes on to [warn](#) that Bill Gates has used his money to systematically purchase, *"powers exceeding, in some respects, those wielded by presidents"* and is using these powers to experiment on human beings like *"guinea pigs"*.

"Gates' strategy of [buying WHO](#) [World Health Organization] and purchasing control of US health officials like [Tony Fauci](#) and [Deborah Birx](#)" means the Microsoft co-founder can now "dictate global health policies affecting 7 billion people and to control the most intimate details of our lives," [said](#) Kennedy Jr. on his Instagram page.

"Under his direction, the WHO is conducting global social and medical experimentation applying Gates' religious faith that he can use technology (vaccines and GMO

agriculture) and his deep understanding of computers to make him the savior to all of humanity. We are his guinea pigs."

But if you think Bill Gates' plans for humanity are disturbing, wait until you meet the people he is collaborating with.

A controversial proposal by a New York University professor to combat Climate Change through biohacking has attracted the attention of World Economic Forum and the Gates Foundation.

Strap yourself in. Things are about to get weird...

Matthew Liao, a bioethicist at NYU, first presented the proposal in a [paper](#) he wrote in 2012.

Titled '[Human Engineering and Climate Change](#)', the crux of the paper argues for the use of radical biomedical interventions on humans so as to create people who are literally physiologically environmentally-friendly.

These biomedical interventions involve three approaches:

- a eugenics program against tall people
- inducing intolerance towards meat including beef, pork and chicken
- radically lowering birth rates by altering women's cognitive abilities...

Liao states that it's necessary to have a eugenics program that breeds tall people out of the population because the increase in human height over the past few centuries has had a negative environmental impact, because tall people consume more calories.

To carry out the eugenics program, Liao has two suggestions.

The first one being the genetic screening of embryos before IVF implantation so that parents can have the option to choose children who are likely to be short and small.

Liao's second suggestion is even more radical, and involves injecting children with hormones to severely stunt their growth so they consume less calories when they are adults.

As for inducing *meat intolerance*, Liao uses the globalist elite's favorite excuse, [climate change](#), to argue that we must make people allergic to meat, by stimulating the immune system against common bovine proteins.

This is taking authoritarianism to a whole new level, far surpassing anything attempted in **Mao's** China or **Stalin's** Russia.

Instead of eating meat, as humans have since time began, *the WEF want us to eat [Bill Gates'](#) lab-grown meat...*

The elite also have a thing for cannibalism.

Here is WEF-aligned transhumanist politician **Ben Zion** consuming lab-grown **human meat** in what he claims is a historic first.

The 40 year-old-Facebook politician turned biohacker claims the lab-grown human meat is from cell cultures that he took from his own skin.

Doesn't exactly look tasty.

Why do they want us to ***eat crickets, bugs*** and [lab-grown human meat](#)...?

The answer lies in how badly the elite want to humiliate and degrade us...

But Liao's suggestions don't stop there.

Getting onto the elite's favorite topic, [depopulation](#), and Liao suggests that to lower birth rates even further, the WEF should pump women full of smart drugs to enhance their cognitive abilities.

He arrives at this conclusion by arguing that the more educated women become, the less children they have. *"Women with low cognitive ability are more likely to have children before age eighteen,"* says Liao.

"Hence, another possible human engineering solution is to use cognition enhancements such as Ritalin and Modafinil to achieve lower birthrates."

When Liao published [his paper](#) almost a decade ago, it caused [controversy](#), and was for the most part dismissed as eco-extremism, even by climate change activists.

But fast forward to the present day, and the extreme bioengineering proposals of the paper are being seriously discussed at the [World Economic Forum](#).

Last year in December, in preparation for this year's [Davos Summit](#), the World Economic Forum unveiled its bioengineering framework in a presentation called '[3 Scenarios for How Bioengineering could Change our World in 10 Years](#).'

Edible vaccines grown in plants and [CRISPR gene-editing](#) were some of the highlights of the framework. The presentation was based off a World Economic Forum sponsored academic paper called [Bioengineering Horizon Scan 2020](#).

For this year's Davos Summit, Liao's human bioengineering paper was added to the 'Bioengineering Horizon Scan 2020' paper for both the,

- World Economic Forum's bioengineering framework
- Climate Change framework...

As radical as Matthew Liao's human bioengineering suggestions might seem, their consideration and deliberation by the World Economic Forum should come as no surprise.

Bill Gates is a fan of experimenting on the human body, whether his human subjects have given their consent or otherwise.

And **Klaus Schwab** considers bioengineering a key component of his Fourth Industrial Revolution.

Do not underestimate these people. They are mad, drunk on power, and they do not have our best interests at heart...

Official CDC Data: 143,233% Surge in Fatal Cancers Among Vaxxed Americans

By Frank Bergman December 27, 2023

Official data from the U.S. Centers for Disease Control and Prevention (CDC) has revealed an alarming spike in fatal cancers among Americans who have received Covid mRNA injections.

The data shows that cancer, the leading cause of death in the United States, has been soaring over the past two years.

However, the data shows a correlation between the rise in cancer and the public rollout of Covid mRNA shots.

The U.S. federal government's own official data confirms that the risk of developing cancer following Covid vaccination increases by a staggering 143,233%.

The CDC hosts a [Vaccine Adverse Event Reporting System \(VAERS\)](#).

The [VAERS](#) database contains historical data on adverse reactions reported against every vaccine that has been administered in the United States.

According to VAERS data analyzed by [The Exposé](#), the number of cancer cases spikes dramatically among those vaccinated with the shots.

In the report, the outlet performed a [quick search](#) of the [CDC VAERS database](#) on the number of cancer cases reported as adverse reactions to the Covid injections since they were first rolled out in the United States.

This reveals that from December 2020 up to 5th August 2022, a total of 2,579 adverse events related to cancer were made in just 1 year and 8 months.

However, performing a [similar search](#) of the [VAERS database](#) on the number of cancer cases reported as adverse events to all other available vaccines between 2008 and 2020, a period of 13 years, reveals there were just 791 adverse events related to cancer.

Many would simply argue, without evidence, that this is just because of the volume of Covid injections administered compared to all other vaccines.

Unfortunately, anyone who argues this point is wrong.

We can see this by looking at the number of doses administered.

The following chart shows the total number of flu vaccine doses administered in 13 full flu seasons all the way from the 2008/2009 flu season to the 2019-2020 flu season.

The data has been extracted from the CDC info found [here](#).

In all between the 08/09 flu season and the 19/20 flu season, there were a total of 1,720,400,000 (1.7204 billion) doses of the flu jab administered in the USA.

The CDC also confirms that between 2008 and 2020, a period of 13 years, there were just 64 events related to cancer reported as adverse reactions to the influenza vaccines.

Based on the number of adverse events related to cancer alone, we can see that there have been 40.3x as many cancer cases related to Covid-19 vaccination as there have been related to flu vaccination.

However, this statistic doesn't properly represent the severity of the situation.

To do that we need to know the number of cancer cases per 100,000 doses administered.

Based on the above numbers provided by the CDC, the number of adverse events related to cancer reported per 100,000 doses of flu vaccine administered equates to just 0.0003 per 100,000 doses.

According to ["Our World in Data"](#), as of 9th August 2022, 606 million doses of the Covid-19 vaccines have been administered in the USA.

This means there have been nearly 3 times as many flu vaccines administered between 2008 and 2020 than Covid-19 injections since the end of 2020, let alone all of the other vaccines that have been administered.

Therefore, the number of adverse events related to cancer reported per 100,000 doses of Covid-19 vaccine administered equates to 0.43 per 100,000 doses.

This means Covid vaccination is 1433.33x / 143,233.33% more likely to cause cancer than flu vaccination.

It can be argued that because the numbers are so extraordinarily low for the flu vaccine, that it does not cause cancer.

Therefore, it can be argued that the risk of developing cancer following Covid vaccination is 1433x greater than the background risk.

This should however not come as much of a surprise considering we already have scientific proof that the Covid mRNA injections can cause cancer of the ovaries, pancreas, and breast.

The homologous recombination DNA repair pathway is one of the mechanisms that the body uses to stop your cells from turning cancerous in response to environmental stress.

In October 2021, two revered scientists, Jiang and Mei, published a peer-reviewed study paper in [MDPI](#).

The study shows that the SARS-Cov-2 spike protein obliterated the DNA repair mechanism in lymphocytes.

The viral spike protein was so toxic to this pathway that it knocked 90% of it out.

If the whole spike protein got into the nucleus (in the ovaries), and enough of it was produced and hung around long enough before the body was able to get rid of it all, it would cause cancer.

Fortunately, in the case of natural infection, this is unlikely to occur.

However, the mRNA shots induce spike protein to be produced in and around the cell nucleus and this occurs for at least 60 days and almost certainly longer.

This is probably why cases of ovarian cancer are now at an all-time high.

Official UK data published by Public Health Scotland, which can be found [here](#), reveal the number of women suffering from ovarian cancer from the introduction of the Covid-19 injection to the general population.

Unfortunately, the [known trend](#) in 2021 was significantly higher than 2020 and the 2017-2019 average.

The above chart shows up to June 2021, but the charts found on Public Health Scotland's dashboard now show figures all the way up to December 2021.

Unfortunately, the data reveals that the gap has widened even further with the number of women suffering from Ovarian cancer increasing significantly.

The news comes as experts have been [raising the alarm](#) of a disturbing upward trend in cancers [across America](#) and beyond.

During a recent testimony, Dr. Robert Malone, one of the inventors of mRNA vaccine technology, produced patent documentation showing that pharmaceutical companies are aware their Covid shots cause cancer.

As Slay News [reported](#), Malone testified during a hearing on Capitol Hill led by Republican Rep. Marjorie Taylor Greene (R-GA).

During his testimony, Malone presented the patent for Moderna's Covid vaccine.

Moderna's patent shows that its COVID-19 vaccine vials contain billions of DNA fragments.

Those fragments, along with other contaminants, are linked to birth defects and cancer. In the patent, Moderna admits that contaminants in the shots cause cancer.

However, as Malone highlights in his testimony, the U.S. Food and Drug Administration (FDA) apparently ignored this admission when approving the shots for public use.

The failure raises major concerns, especially as several top FDA officials secured high-paying jobs with Moderna after they approved the injections, as Slay News [reported](#).

During the hearing, Dr. Malone highlighted that Moderna acknowledges in its patent that RNA is preferable to DNA in vaccines.

"Moderna has a patent on the use of RNA for vaccines," Malone told the hearing.

"And in that, Moderna explicitly acknowledges that RNA is superior to DNA for vaccine purposes because of problems, including the possibility of insertional mutagenesis that could lead to the activation of oncogenes or the inactivation of tumor suppressor genes."

"FDA says they're not aware of any concerns, but Moderna in its own patent lays out exactly the same concerns that exist about DNA in insertional mutagenesis and genotoxicity."

"So, Moderna knows it – DNA is a contaminant.

"[DNA] is left in because of the way they make it."

Dr. Malone goes on to explain how the DNA contamination in the shots causes cancer.

Malone warned that those who have received the mRNA injections would likely be at risk from “*anything that is associated with DNA damage.*”

In terms of DNA damage, Malone explains that “*birth defects and cancer [are] the most notable ones.*”

There is something terribly wrong with this chart above. If you only needed one reason to prove we're under attack as a nation, just look at our southern border. What a joke. Tens of thousands of illegals are crossing each week. Ten million (10,000,000) since the Biden regime took over.

This unprecedented influx of illegal aliens is meant to both add to the democratic voter rolls and also contribute to our declining dollar. It is being coordinated by the bad guys.

China is sneaking in military age men, for what reason? Muslim men between the age of 18 and 30 will soon outnumber the Spanish speaking hordes. And that brings to mind a verse regarding people dying during the Tribulation:

“And I saw the souls of those who had been beheaded because of their testimony of Jesus and because of the word of God,” –(Revelation 20:4b)

That verse is particularly interesting in light of Hamas’ Israeli massacre that included literal beheadings. And Muslims have moved into every European country as well. Hmmm...

We are living in a period I would define as the calm before the storm! Some pundits are predicting a “Black Swan” event. Might be our call to come up hither!

I believe that the Lord Jesus Christ will thwart HRH King Chuckie’s agenda by removing us shortly by those words of the Apostle John in Revelation 4:1 ~ ***“After this I looked, and, behold, a door was opened in heaven: and the first voice which I heard was as it were of a trumpet talking with me; which said, Come up hither,”***
