Texas Governor “Prepared” for Border Showdown With Joe Biden

“This illegal refusal to protect the states has inflicted unprecedented harm on the people all across the United States.”

Following the Supreme Court’s 5-4 decision on Monday, authorizing U.S. Border agents to remove razor wire and barriers, Texas Governor Greg Abbott drafted a letter not just to the Biden administration but to the world. Part of it reads:

*“Under President Biden’s lawless border policies, more than **6 million illegal immigrants** have crossed our southern border in just three years. That is more than the population of 33 different states in this country. This illegal refusal to protect the states has inflicted unprecedented harm on the people all across the United States.”*

As such, the Texas governor invoked the state’s constitutional right to self-defense Wednesday in response to what he called an *“invasion.”*

The world has backed up Governor Abbott in a big way. Elon Musk, RFK Jr., and now 25 state governors agree that [“Texas is right,”](#) following Abbott’s decision to protect the border.

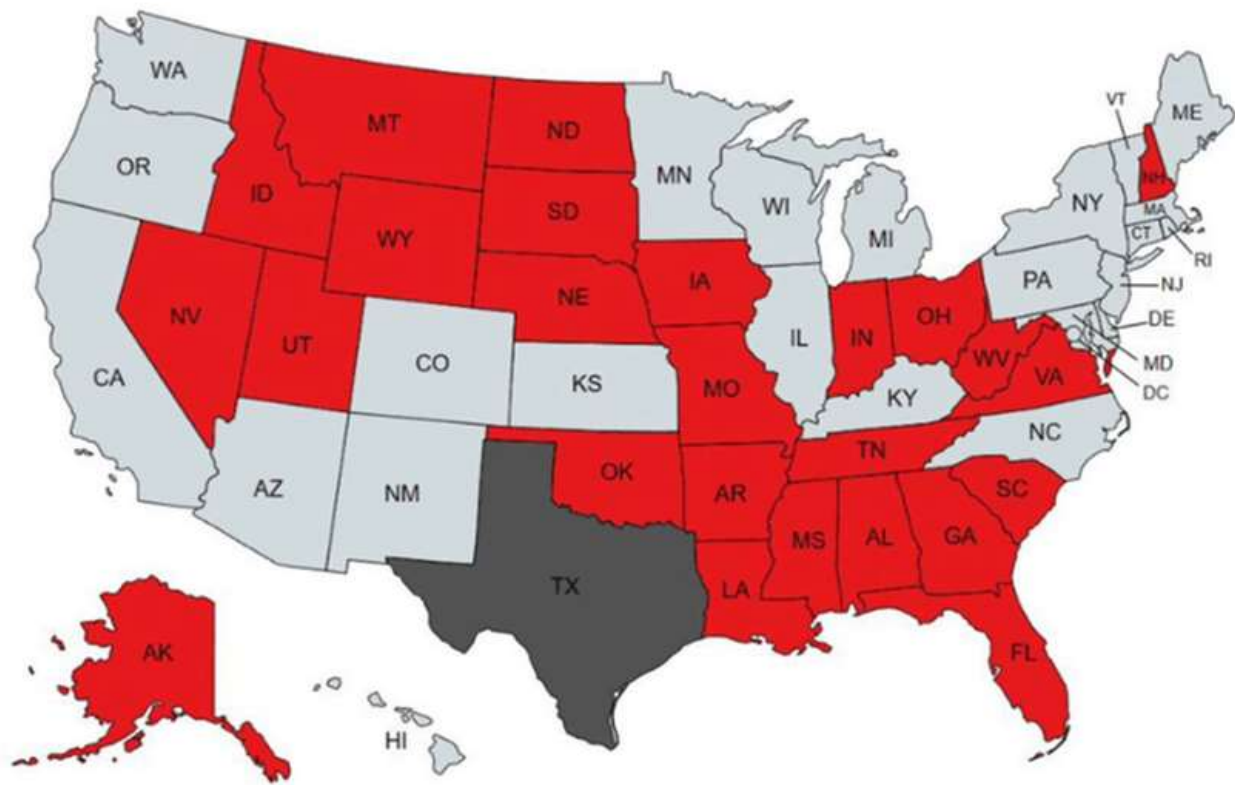

In an interview with Tucker Carlson Friday, the Texas Governor said he is even *“prepared”* in the event Biden attempts to take control of the Texas National Guard, although he would be “shocked” if that happened.

“That would be a boneheaded move on his part, a total disaster,” Abbott remarked. *“We are prepared, in the event that that unlikely event does occur.”*

He added:

“We do have other armed state employees on the border as we speak right this minute, and that’s the Texas Department of Public Safety, as well as other law enforcement officers, as well as National Guard from other states. And you can be assured there will

be more National Guard from other states and more law enforcement officers within the state of Texas and other states.”

Oklahoma Governor Kevin Stitt announced he is sending the Oklahoma National Guard to aid Texas in its border battle with Joe Biden. *“We’ve already started putting the numbers together,”* he said.

This decision followed a request from President Donald Trump, urging Republican state governors to dispatch National Guard service members to Texas.

In Abbott’s interview with Carlson, he mentioned a new law, effective March 5, which authorizes any law enforcement officer in Texas to arrest individuals crossing the border illegally.

He also backed up his moves thus far, citing a Constitutional basis for his actions. Abbott referred to Article 4, Section 4 of the U.S. Constitution, claiming Texas had been invaded and was entitled to defend itself, as well as Article 1, Section 10, for declaring

an invasion.

Abbott mentioned that he sent eight letters to Biden offering solutions for border security. However, he has received no response from the president. Abbott predicted that Biden's days in the White House are numbered, saying the border crisis will be resolved with the inauguration of a new president.

"I believe, however, that this [border crisis] will all come to an end on January the 20th of next year because I believe a new president will be sworn in, a president who will actually enforce the immigration laws of the entire country, not just the Texas border, but New Mexico and Arizona and California and the Canadian border also. And we will have safe and secure borders once again because we will have a president who actually will enforce the laws of the United States of America."

Climate CLOWN SHOW: "Now Humanity Is Inexorably Threatened by Humanity Itself." – John Kerry

Climate con man extraordinaire, John Kerry, is upset that millions around the world are awakening to the climate scam.

Climate con man extraordinaire, John Kerry, is upset that millions around the world are awakening to the climate scam, going on to paraphrase an infamous quote by the Club of Rome (from their 1991 book, 'The First Global Revolution'):

"The need for enemies seems to be a common historical factor. States have striven to overcome domestic failure and internal contradictions by designating external enemies. The scapegoat practice is as old as mankind itself. When things become too difficult at home, divert attention by adventure abroad. Bring the divided nation together to face an outside enemy, either a real one or else one invented for the purpose."

"The sudden absence of traditional adversaries has left governments and public opinion with a great void. New enemies, therefore, have to be identified."

"In searching for a new enemy to unite us, we came up with the idea that pollution, the threat of global warming, water shortages, famine and the like would fit the bill. All these dangers are caused by human intervention and it is only through changed attitudes and behaviour that they can be overcome. The real enemy, then, is humanity itself."

Biden halts new LNG exports

The fuel is seen as a vital lifeline for Western Europe, which has cut itself off from cheaper Russian gas imports.

U.S. President Joe Biden has ordered a pause on liquefied natural gas (LNG) exports from new projects in the country, citing their potential contribution to climate change. Energy costs in Western Europe have skyrocketed since nations such as Germany

switched from Russian gas to American LNG, but Biden insists the continent doesn't currently need additional supplies.

The pause will allow the U.S. Department of Energy (DOE) to update the economic and environmental guidelines it uses when approving new export licenses, and will last for several months.

“During this period, we will take a hard look at the impacts of LNG exports on energy costs, America’s energy security, and our environment,” Biden said in a statement on Friday. The president added that the pause *“sees the climate crisis for what it is: the existential threat of our time.”*

According to the White House, roughly half of American LNG exports went to Western Europe last year, and the U.S. has exceeded its annual delivery targets to the EU for each of the last two years. *“Today’s announcement will not impact our ability to continue supplying LNG to our allies in the near-term,”* Biden claimed in his statement.

Europe remains mired in an energy crisis. The continent’s former industrial powerhouse, Germany, is *“in a particularly difficult situation”* after abandoning Russian gas supplies, Economy Minister Robert Habeck told lawmakers last week. Prior to the imposition of sanctions on Moscow over the Ukraine conflict, Germany received 40% of its gas imports from Russia. Replacing this fuel with LNG from the US, as well as energy from Norway and the Netherlands, has come at a cost, with the German government forced to roll out [massive subsidy](#) packages to prevent its largest industrial firms from leaving the country.

German industrial output fell by 2% last year, while the entire economy shrank by 0.3% in the same time period, the country’s Federal Statistical Office reported last week. The office blamed the decline on high inflation, soaring energy prices, and weak foreign demand.

LNG is transported on large tanker ships to regasification plants, where it is heated to return it to a gaseous state. Germany has rushed to bring three such offshore plants online since early 2022, and plans to open three more over the coming months. The US has also built out its LNG export infrastructure to cope with the demand, including the Calcasieu Pass 2 project in Louisiana, which once certified will be the nation’s largest export terminal.

The Calcasieu Pass 2 facility will likely come before the DOE for approval in the coming weeks, where it will be stalled indefinitely by Biden’s pause. With half of the terminal’s output set to go to Germany, a spokesman for the project’s developer, Venture Global, told Reuters last week that the pause would send a *“devastating signal to our allies that they can no longer rely on the United States.”*

The events throughout the world continue to manifest the End Times scenario and are blurring the ability of people to delineate their frame of reference as we have tried to keep tabs of new policies and mandates being released daily as the result of Klaus Schwab World Economic Forum yearly meeting at Davos, Switzerland. Chaos around the world becomes the catalyst in bringing in the New World Order while humanity is distracted and unable to provide substantive push back HRH Prince Charles mandates and so-called "Net Zero" Carbon footprint being imposed upon the masses of billions being Democided!

One of the best visuals helping the Bible-believing Christian to see where we are in the time frame of events is the chart below published by Compass International last year.

Ukraine may be at war but that isn't stopping it from playing a leading role in the digitization of the global economy.

The World Economic Forum and Ukraine's Ministry of Digital Transformation have announced their mutual interest in establishing a Centre for the Fourth Industrial Revolution (C4IR) in Ukraine, with a focus on government and corporate technologies.

As reported by [Smart Cities World](#), the letter of intent to establish the GovTech center in Kiev was signed by Børge Brende, president of the World Economic Forum and Mykhailo Fedorov, deputy prime minister for innovation, development

COMPASS

of education, science and technology, and minister of digital transformation, Ukraine.

The announcement of Ukraine’s participation in “GovTech” was made at the World Economic Forum’s 2024 summit earlier this month in Davos, Switzerland, under the theme of “Rebuilding Trust.”

Rule number one of any sane person who values individual freedom: Never trust a globalist. And a WEF’er globalist is the worst kind of globalist. Is it making more sense now why the WEF Western puppet leaders in Washington, London, Ottawa, Paris, Geneva and Berlin are so dead set on defending Ukraine against Russian “aggression?”

The cumulative West led by Washington and London has invested in provoking this aggression since the early 2000’s when George W. Bush began wooing the Ukraine into

the Western orbit of NATO.

The New World Order runs through Ukraine. It is one of the main nerve centers of globalism, sex trafficking, U.S.-controlled bio-labs and money laundering for the rich and powerful. They can't lose it and they will send millions of their own people into the meat grinder to die defending it. As soon as they run what's left of the Ukrainians through that meat grinder, you will see them sending Americans, Brits, Germans and Frenchmen. Bank on it.

According to the *Smart Cities World* article cited above, in recent years, “according to the WEF, Ukraine has evolved into a global GovTech powerhouse, becoming the first

country with a digital ID system that can be used across the nation and the fourth in Europe to launch a biometric digital driving license.”

Ukraine reports that in line with its goal to make 100 percent of public services available online, almost 20 million Ukrainians are already using the *Diia* application, which allows them to access key documents and government services.

The reason for establishing such a center in Kiev, the article says, would be “to provide a platform to develop government technologies by uniting scientists, businesses, technology companies, the public sector and the global communities of the forum. Its thematic focus will be the digital transformation of government, the development of e-government and widespread digital literacy.”

Make no mistake: the “GovTech” agenda is same as the Luciferian agenda to create a high-tech oligarchy on a global scale. This system, if successful, will mean human beings get massively depopulated and those who are left are transformed into totally controlled trans-humans living under the 24/7 watchful eye of the digital beast system run by artificial intelligence and WEF’ers associated with Big Government and Big Corporations.

My point made here is that the final “seven” years are upon us and we ought not lose sight to all that is occurring under the leadership of Nazi Klaus Schwab and the WEF fronting for HRH Prince Charles Antichrist Beast System. That said, you need to be watching closer the actions of Israel’s Prime Minister Benjamin Netanyahu.

This from Hal Turner:

“I was awake at about 4:00 AM and there was chatter on Intel Circuits that the Netanyahu regime in Israel “. . . will declare war on Lebanon as early as today.” I thought it was ridiculous.

I went back to sleep around 6:30 this morning and didn't wake up again until about noon; guess I needed the sleep.

Anyway, I checked on the Intel Circuits and now there's a LOAD of chatter about that same claim!

We've known since about January 20, that Israel intended to give Hezbollah/Lebanon "until the end of the month" to move Hezbollah forces "north of the Latani River in Lebanon" or face Israeli action. The "end of the month" is next Wednesday, the 31st. Today is the 27th.

What is not clear to me is why now? Why the rush?

So I want you to know there is actual, official, chatter on Intel Circuits saying Israel may "Declare war on Lebanon" as early as today.

If it were just rumor, I would have reported that to you. But this is more, it's on Intel circuits.

Strange.

Worrisome.

It almost seems like Israel is TRYING to trigger Armageddon."

Constitutional Crisis ~ Civil War?

A major crisis lies at the Rio Grande River at the Texas border with Mexico. The O'biden Administration has gone rogue in violation of the U.S. Constitution. The video link below is an important statement showing who is attempting to break-up the country and turning it into a Marxist/CCP state. This is a must video if you want to understand what is taking place over the issue of "States Rights!"

[According To The Constitution, The O'Biden Regime Is Guilty Of Highest Treason In Taking Down Our Borders And Aiding And Abetting The INVASION And Occupation Of America Pay Attention And Listen Very Carefully - Rense Video](#)
