

# The Blessed Hope!

***“Looking for that blessed hope, and the glorious appearing of the great God and our Saviour Jesus Christ;” –(Titus 2:13)***

*Diamond & Nugget #308*

## **Current Events through a Biblical World View!**

### **"Vaccinated" Emitting Bluetooth Codes**

Pfizer's COVID-19 vaccines contain nanotechnology to track people, scientists say. In the many (160+) articles I have posted on **5G** wireless EMF I revealed that those who were vaxxd for so-called Covid received a MAC address that emits a digital signature. In all of this **5G** is an integral part of the mystery of what is taking place and the patents contain the details.

The "Vaccinated" are emitting Bluetooth codes. There is a phenomenon going on called the "Bluetooth challenge" videos. Normally, Bluetooth devices have names on them, but what's happening now is that when someone goes into a crowded room full of vaccinated people, there are anonymous Bluetooth addresses that show up. They're anonymous addresses from vaccinated individuals who are emitting a signal.

A French research team confirmed this when they stopped random volunteers in a park. The team separated the groups into vaccinated and unvaccinated individuals and tested their gadgets. The team found that the vaccinated registered an unnamed MAC address.

To be clear, the MAC address is a Machine Address Code, all electronic hardware that makes them identifiable wirelessly. It's a unique address to the device, so it's just a hexadecimal number that identifies particular hardware, and each vaccinated person is disseminating a separate and unique code.

**Do Bluetooth devices have a persistent ID (like a MAC address)? YES.**

Any Bluetooth device has a unique 48 bit address. The Bluetooth addresses are alphanumeric and consists a 12 hexadecimal digits.

Would it be possible to use it to build systems to track people's attendance, say, at work, or at school, using Bluetooth unique MAC address?

Yes, this can be done!

Would this be possible without those people choosing to pair their device? Yes if you use the new Bluetooth Low Energy feature called "advertiser".

The "advertiser" is going to be transmitted from the internet of things, IoT, and **5G** cell towers or devices.

If you got the Jab you could be "paired" i.e., connected to something you don't know about or don't want to be identified with.

That would be your unique hexadecimal MAC address embedded in your body via the coved "vaccine" jab! (Example 24:4B:03:3C:3F:A9)

When you start do some research on how the blue tooth unique MAC addresses work along with how blue tooth works you will begin to see the Covid "vaccine" nano-technology graphene oxide is found embedded in the jab connection.

This is why the government is so hell bent on getting you set up with the "vaccine". O'Brien and the CDC were calling for people to get Covid vaxxes as recent as early March, 2024. They control the narrative and many unvaxxed will capitulate thinking they will be safe.

It has nothing to do with preventing the so-called Covid virus.

It has EVERYTHING to do with tracking you 24/7 without an electronic device such as your cell phone.

If you got the jab the government will be able to track your every move 24/7.

If you have got the Covid "vaccine" the government will have your number, a unique MAC address identifier that is unique to you alone.

When this discovery was made public the Internet Fact Checkers went ballistic in debunking MAC address in the vaxxes. The mainstream media refuted this in a huge way. But remember this, a device that can track an object can track a human being just as easy. The technology is complex and yet it has been demonstrated through a number of sources and stands the scrutiny of scientific investigation.

Even the very name Covid-19 is an acronym or definition of its meaning. An acronym is an abbreviation formed from the initial letters of other words and pronounced as a word (e.g. ASCII, NASA, CIA, FBI, etc.): See below the Covid acronym.

**"Everybody go get your shot"**

Donald Trump

February 28, 2021

I first learned about this when reports of individuals were using devices that picked up MAC addresses from Blue Tooth devices emitted coming from recently buried individuals in cemeteries around the country. Many investigators seeing social media reports went out at night and conducted their own tests to see if this was true. As the time passed more and more reports were being shown confirming that those vaxxed do in fact emit MAC address when scanned. I will share more on this as the likes of Apple and others removed and visible evidence from their App's Information. I've seen articles on the Internet showing how this feature can be restored if it's gone from your cell phone.

## BLUETOOTH CHALLENGE: EXPERIMENT PROVES VAXXED EMIT MAC ADDRESSES

[grapheneoxide.pdf](#) (All this is possible because all the Covid "vaccines" contain graphene oxide.)

## 5G AND NANOTECH IN THE COVID JABS

The Connection Between 5G - Nanotech - An The Covid "Vaccine" (You will be shocked.)

The test in the videos did show that the "vaccinated" group are emitting MAC addresses. 5.5 billion people have been vaxxed around the planet. We do not know who and how many received placebo vaxxes as not all received the vaxxes with Graphene Oxide nanoparticles.

A MAC address is a hexadecimal number that identifies a piece of electronic hardware such as a cell phone, computer, etc.

The article said each vaccinated person was transmitting, disseminating, a separate and unique code. Not '666'; Well not completely or totally. Under the International Standards of ISO 9000 which was established back in the 1990s, every manufactured product, components down to the base level has a '666' as part of the manufacturing, production and inventory coding system. If it is manufactured, it has a standard number '666' preceding its product number, but it does not appear visibly on whatever the item may be. It is hidden by intent. This information about ISO 9000 was published in Texe Marrs' 1996 book '*Project L.U.I.C.D.*'

This unique code that the "vaccinated" person is transmitting can be used to identify him or her as a unique piece of "hardware" with a unique address!

MAC addresses are used in ALL electronic equipment or devices.

If you have been "vaccinated" chances are you have an implanted identifier that transmits your unique identity and can be used to monitor your activity 24/7/365.

A MAC address is the physical address of the layer two medium, and in general will remain with the hardware it is allocated to - in a physical nic, it resides in the firmware or flash on the nic.

MAC addresses can be spoofed such as with mac-changer on Linux so as usual, nothing is concrete. They can also be altered in flash - in some cases fairly easily. However, as the MAC address is bound to hardware, the MAC address changes with hardware changes, not with network changes.

In the case of virtual hardware, it is largely the same deal, except the allocation of a MAC address is up to the host, effectively it "creates" the nic that is given to the guest, and so seeing as none of it is real, the MAC is made up, and can be changed at any time. It rarely is however.

A MAC address remaining static is good for virtual platform providers as they can measure all sorts of things based on the MAC, and of course, allocating IP addresses.

**The 2022 Freedom Convoy Truckers were protesting the "vaccine" mandate. Most likely they along with people who have got the jab or "Covid vaccine" don't know that the jab also turns you into a transmitter that broadcasts your unique identity 24/7. The Canadian RCMP and Prime Minister Justin Trudeau merely scanned the truckers' cell phones for their MAC addresses, and then shut down their bank accounts and cutting them off from access to their funds. Without access to the truck driver's bank accounts the Canadian government would be able to weaken and undermine the protest.**

**When the Canadian government shut down the truckers' access to their funds, they also inadvertently exposed the government's ability they could shut down the truckers from having access to their funds in the bank. Media covering the Freedom Convoy reported confirmed for the rest of us how this became possible.**

**I would simply add that all of technology involved is dependent upon the **5G** EMF/EMR wireless energy use and synchronization using the Cesium-137 radioactive isotope to power the wireless energy platform.**

**The number one reason not to get the jab is it can kill you.**

**The number two reason not to get the jab that contains the [Deadly Shot Of Graphene Oxide In Every Covid "vaccine" and "boosters"](#) (Causes blood clots and forms unique MAC address in your body for identification.)**

If you don't want to become a "transmitter" don't get the jab!

The number three reason not to get the jab is [Covid19 Vaccines Ingredients List](#)

Bottom line is this:

People who have got the jab, "vaccine", have been primed for something.

Have you got the Covid jab?

Just like a cellphone has a unique MAC address to identity only that cellphone so do you. This is not science fiction but rather reality. Individuals using signal meters discovered that deceased internments in cemeteries six-feet below ground were still emitting their MAC addresses weeks and month after death of the person buried in those graves.

**GRAPHENE OXIDE, 5G AND COVID PRESENTATION AND NOTES ON SGT REPORT** (READ AND WATCH THIS!)

The is NO medical reason for the Covid "vaccine" to contain graphene oxide, except to be used to for something other than to prevent you from getting the Covid "virus"

Red Alert!

Graphene Oxide has already been used in a Flu Vaccine. We have to conclude it will be in all vaccines from the current time going forward.

<https://www.graphene-info.com/graphene-oxide-gives-boost-new-intranasal-flu-vaccine>

[Covid19 Vaccines Ingredients List](#)      (Know Before You Go Get The Deadly Jab!)      [Deadly Shot Of Graphene Oxide In Every Covid "vaccine" and "boosters"](#)

Use the links below to install the Microchip Bluetooth Data App for Iphone or Andriod. (Free App) This app can scan for bluetooth MAC codes.

You can use this app to scan for the "jab" Bluetooth MAC code or codes of a person who has got the covid-19 "vaccine" shot.

For each shot there should be displayed a separate and distinct MAC code in the form:

Example.

Name	MAC Code
unknown	44:E4:EE:67:Cl:C6      This is a hex code.

Before you use the Microchip Bluetooth Data App make sure the person you are going to scan is in an isolated area where there are NO other Bluetooth devices.

If you scan someone or yourself and a MAC Code pops up on the Microchip Bluetooth Data App then you will know that the Covid "vaccine" has given you a specific hex code address that is unique to you.

Every time you get a jab you get another Mac Code address.  
I suggest you experiment and find out if this is true.

Scan someone who has had the jab in an isolated area where there are NO other blue tooth devices nearby. Check results.

Scan someone who has NOT got the jab in an isolated area where there are NO other blue tooth devices nearby. Check results.

If you scan someone in an isolated area and a MAC Code pops up does this mean you have got the Mark of the Beast?

Not necessarily. I would qualify this with a disclaimer since the vaxxed now have all the elements of what the "Mark" of the Beast is capable of achieving.

People will need to be willing to take a code or number, the Bible says its '666', to receive the Mark of the Beast in Revelation.

If you got the jab you didn't know that the "vaccine" would also include a MAC code to identity you.

You need to be aware that the Covid "vaccine" is not a vaccine at all but contains other things including graphene oxide etc.

[Iphone App Store Link For Micro Chip Bluetooth Data App](#) \* (Use To Scan For Jab Hex Code.)

[Experiment Proves VAXXED Emit MAC Addresss](#) ( The MAC Address is a physical address and does not change.) (2/2/2022) [IPhone BLE Scanner](#) (Free)

[BLE MAC ADDRESS FOR EACH COVID-19 VACCINE SHOT](#) [Find the vendor name of a device by entering a MAC address](#) (First 3 Hex # Are Vendor Name.)

[DR LUIS DE BENITO – COVID VACCINES APPEAR TO INSTALL A “MAC ADDRESS” INSIDE THE VAXXED.](#)

**Dr. Luis De Benito states:**

If you have an Iphone or Andriod Bluetooth scanner or barcode scanner try it yourself and confirm the information.

I suggest you use the Micro Chip Bluetooth data App. It is free and has several options to check for bluetooth transmissions.

I have installed the Micro Chip Bluetooth Data App on my Andriod phone.

I used the BLE Smart scan option to scan for nearby Bluetooth MAC codes.

I picked up 6 from unknown sources that displayed a 12 digit MAC code address such as 44:E4:EE:67:C1:C6 (example)

These 6 sources were Bluetooth transmitters nearby within 80 feet or less.

I have not got the Covid "vaccine" jab so I know none of the MAC code addresses were coming from me.

Within the next few days I will be doing an experiment to find out if I can isolate a Covid-19 "vaccine" victim and read their mac code.

I will verify the above information soon. If I can't verify a MAC code scan from a Covid-19 "vaccine" victim I will remove this information about trying to use the Microchip Bluetooth Data App to scan for Bluetooth mac codes of people who have got the Covid Jab or jabs.

While researching the above information I came across a story about Wisconsin Company to Implant Microchips in Employees July 24, 2017.

The links to this story were all removed but I was able to find it on the internet archive.

[Wisconsin Company to Implant Microchips in Employees](#) (It's no accident this story has been removed since the covid "vaccine" jab has been available.)

The Microchip Bluetooth Data App can also be used to scan for an implanted microchip. The implanted microchip will include more information than just a mac code hex address which is what is in covid "vaccine" victims.

Another test of the Microchip Bluetooth Data App

[MAC-cinated: Pattern identification in coronavirus vaccines - Nanorouters](#)

*Quantum dot nano-router patterns found in covid "vaccines"*

*This discovery is of fundamental relevance.*

*Not only to understand the true purpose and components of coronavirus vaccines, but also to explain the existence of the phenomenon of MAC addresses visible through the Bluetooth of many mobile devices.*

*Because nano-routers, then, will, like routers, broadcast visible MAC addresses in, in this case, Bluetooth wireless technology, as is being proven, as well.*

*The context of the discovery is as follows.*

*Before proceeding to the explanation of the finding, it's worth recalling the context in which it is framed, to ensure its understanding and subsequent deepening.*

*First of all, it should be borne in mind that graphene and its derivatives, graphene oxide and carbon nanotubes, form part of the components of vaccines, as has already been explained.*

*The properties of graphene are exceptional from a physical, thermodynamic, electronic, mechanical, and magnetic point of view.*

*Its characteristics allow it to be used as a superconductor.*

*It's an electromagnetic wave absorbing material, a signal emitter-receiver, a quantum antenna which makes it possible to create advanced nano and micrometric scale electronics.*

*However, aside from all the benefits, the scientific literature is very clear about the health implications for the human body.*

*It's notorious that graphene, graphene oxide (GO), and other derivatives such as carbon nanotubes (CNT) are toxic in almost all their forms, causing mutagenesis (or cancer, chromosomal alteration), cell death, apoptosis, necrosis, the release of free radicals.*

*And as a consequence of that, it increases toxicity rapidly in the lungs, favoring the cytokine storm that you know as bilateral pneumonia, genotoxicity, or DNA damage.*

*Graphene is a radio-modulatable nanomaterial.*

*This is very important and one that people need to understand. And here's the interaction with those radio frequency antennas.*

*"It's able to absorb electromagnetic waves."*

*"It can also multiply radiation, acting as a nano-antenna, or else a signal repeater, a transistor.*

*Exposure to electromagnetic radiation can cause the exfoliation of the material into smaller particles called GQDs (Graphene Quantum Dots), whose properties and physical peculiarities are enhanced due to their even smaller scale due to the "quantum hall effect," since they act by amplifying electromagnetic signals and, with that, the emission distance, especially in environments such as the human body.*

*Graphene quantum dots can acquire various morphologies, for example, hexagonal, triangular, circular, or irregular polygon."*

*There is more to "THE JAB" than meets the eye or ear.*

*If you got the jab you have been MAC-cinated.  
You have received a MAC-cination.*

**When the Australians are saying a government has gone insane, that's when you know the Canadian government has gone insane**

The Covid "virus" was man made.

The Covid "vaccine" was man made.

The Covid "virus" was a catalyst used to launch the covid "vaccine".

The Covid "vaccine" was and is used everywhere by regimes to use emergency powers for the purpose of cancelling free speech and control people.

"Vaccine" mandates are used to destroy liberty and allow regimes to control political opposition.

Canada is a prime example along with the United States.

"Vaccine" passports control people. People wearing masks in public for the purpose of protection is as useless as the Covid "vaccine" and the "booster" shots.

Neither does it prevent people from getting a virus.

If either the masks or the Covid "vaccines" did prevent people from getting the man made Covid "virus" the Covid "virus" manufactured pandemic would have ended long ago.

The second purpose of the man-made Covid "vaccines" is to produce variants or mutations of the "virus."

The third purpose of the Covid "vaccines" is to embed a unique code into your body for future identification in the form of a MAC address.

You can verify the third purpose for yourself by following the link below.

**"Vaccinated" Emitting Bluetooth Codes** (Verify This Yourself.)

*There is more to "THE JAB" than meets the eye or ear.*

If you got the jab you have been MAC-cinated.

You have received a MAC-cination.

**Internet Of Bodies (IoB) PDF** (28 Pages)

**Charles Schwab and his WEF are Pushing the Internet of Bodies** (Extensive Information That Connects The (IoB) Dots That Connects To The Covid "Vaccine")

**Bluetooth Vaccine? Does the Injected COVID Non-Vaccine Connect With Devices?**

Is Bluetooth connectivity or compatibility another effect of the vaccine? It's been a string of bizarre events, and the high strangeness shows no signs of ending.

First, we discovered the [COVID vaxxed were affecting the unvaccinated](#) just by being in their vicinity, probably via [frequency transmission](#). (5G wireless energy)

Next, we discovered that [magnets stuck to the injection site of some of the COVID vaxxed](#), usually on the upper arm, with theories being that the COVID non-vaccine contained [metallic nanoparticles or magnetic hydrogel](#).

Now, we have early evidence of a brand new phenomenon (which still needs to be verified): a possible bluetooth vaccine.

A recent video posted [here on Brighteon](#) shows a man who says he was vaccinated, explaining that he feels fine, except that everywhere he goes, devices in the vicinity try to connect ... with him. Yes, I wrote correctly; devices try to connect with him.

Wow!

Look closely and you will notice just before the man moves toward the TV that his phone is on the table and not on him.

It was his body in close proximity to the smart TV that triggered the TV bluetooth trying to connect to him and not his phone which if you look closely at the bottom right of screen is still on the table as he gets up and moves toward the TV.

The man states that devices such as his car and his home computer are trying to connect with him via Bluetooth. The man shows a notification on his phone of a Bluetooth pairing request with a device called "AstraZeneca\_ChAdOx1-S."

It appears something in or on his body triggered the smart TV to try to connect to AstraZeneca\_ChAdOx1-S.

[AstraZeneca ChAdOx1-S/nCoV-19 \[recombinant\], COVID-19 vaccine.](#)

AstraZeneca\_ChAdO1-S is the name of the Astrazeneca covid "vaccine" that was injected into the man in the video.

If the man had a concealed Bluetooth device that he was able to rename AstraZeneca\_ChAdO1-S this would be a hoax.

If the man didn't have a concealed Bluetooth device he renamed AstraZeneca\_ChAdO1-S this video is very convincing evidence that the AstraZeneca\_ChAdO1-S covid "vaccine" does indeed turn you into a Bluetooth emitting device.

The nagging question is what happens when you are connected?

Or is a connection necessary?

If you got the one of the other two jabs what would the smart TV display as it tried to connect to you?

Is the Bluetooth code being transmitted unique to getting the AstraZeneca jab? In other words is the AstraZeneca jab the only jab that will turn you into a Bluetooth transmitter?

The Bluetooth AstraZeneca\_ChAdOx1-S is a name being broadcast by a Bluetooth device. The Bluetooth device broadcasts this name to other Bluetooth devices within a short distance normally. This Bluetooth beacon is broadcast all the time the device is on.

If this video is real it would appear you could walk up to your home smart TV, an if Bluetooth connect was enabled on the TV, see your TV trying to connect to you as a Bluetooth device with a broadcast name of AstraZeneca\_ChAdOx1-S.

This would be easy to verify it would seem for those who have been "vaccinated" or Mac-cinated.

This could be used to verify you got the jab without having a vax card or vax passport.

Another way to verify that you are a bluetooth transmitter would be to click on the link below.

["Vaccinated" Emitting Bluetooth Codes](#) ?

If I got the jab I would use the two suggestions above to verify that I am indeed a Bluetooth transmitter.

In the next Blessed Hope, I will share more evidence of the Bluetooth MAC address codes found by controlled research reporting.

**Zero Amish Children Diagnosed with Cancer, Autism, Heart Failure**  
Hunter Fielding March 9, 2024

As a growing number of children across America are being diagnosed with multiple life-threatening illnesses, a comprehensive study has found that zero Amish children have been impacted by cancer, heart failure, autism, or any other chronic conditions.

In the United States, the current population of Amish people is quickly approaching 400,000.

The largest concentrations of Amish citizens are 90,000 in Pennsylvania and 82,000 in Ohio.

Amish communities have settled in as many as 32 U.S. states.

Families have an average of 7 kids so the Amish population is growing rapidly. The Amish are a group of traditionalist Christians who are known for simple living, plain dress, and Christian pacifism.

They reject most conveniences of modern technology and pharmaceuticals and maintain self-sufficiency.

The Amish value rural life, manual labor, humility, and [Gelassenheit](#) (submission to God's will) with a view neither to interrupt family time nor replace face-to-face conversations whenever possible.

Yet, despite rejecting all modern medicine and pharmaceutical drugs that the rest of the American people have access to, the Amish are among the healthiest in the nation.

As recent [reports](#) have shown, a study conducted by the Vaccine Safety Research Foundation (VSRF) found that Covid death rates among Amish communities are 90 times lower than for the rest of America.

The main difference, the study revealed, is that Amish communities completely ignored the guidelines from the U.S. Centers for Disease Control and Prevention (CDC).

Amish families did not get vaccinated or wear masks, nor did they engage in lockdowns, social distancing, or any other type of restrictions.

But the separated communities didn't avoid catching the virus, however, as roughly [90% of the Amish have been infected](#) with Covid.

In a new comprehensive [study](#), presented by VSRF founder Steve Kirsch to the Pennsylvania State Senate, it was calculated that for Amish children, who are strictly 100 percent unvaccinated, typical chronic conditions barely exist, if any at all.

These chronic conditions, which many vaccinated children and swaths of Americans suffer from, include auto-immune disease, heart disease, diabetes, asthma, ADHD, arthritis, cancer, and autism.

During testimony before the PA Senate, expert health advocates shared details on why there have never been any reports published regarding the [health of Amish children](#) in general.

"After decades of studying the Amish, there's no report because the report would be devastating to the narrative," Kirsch testified.

*"It would show that the CDC has been harming the public for decades and saying nothing and burying all the data."*

Leading American cardiologist Dr. Peter McCullough has dozens of peer-reviewed published works related to the rise of chronic conditions among the public.

McCullough has testified before the U.S. Senate and before legislatures throughout the U.S. regarding the dangers of mRNA jabs. Kirsch and McCullough joined top attorney Thomas Renz and medicolegal death investigator Graham Hetrick on a panel of experts who testified before the Pennsylvania State Senate.

The experts all noted that chronic conditions are soaring among the American people.

However, they concluded that these conditions are non-existent among unvaxxed Amish communities.

According to the VSRF study, not one single Amish child could be found who had suffered from cancer, autism, heart disease, or other conditions that are on the rise among American children.

## **Tyson Agrees to Add Insects to 'Food' Products without Informing Consumers**

Hunter Fielding March 9, 2024

Tyson Foods has just signed a massive new deal that will see the company adding insects to its products without informing consumers.

The new agreements, with insect ingredients company Protix, will allow Tyson to add bugs to its products and keep the formula hidden from the public without listing it in the ingredients. The deal is seen as a significant “*stepping stone*” to replacing traditional meat products with insects.

Because the companies argue that eating insects is “*sustainable*” and will “*save the planet*” from “*climate change*,” they can hide the bugs from the consumer by leaving them off the ingredients label.

A twofold investment agreement forged between Tyson and Protix will allow the processed food industry to hide newfangled bug ingredients in their labels by creating an efficient and “*sustainable*” system of insect protein and lipids production for the entire global food system.

Using a direct equity investment, Tyson will acquire a minority stake in Protix to help fund its massive global expansion, creating a steady supply of insect and bug ingredients that will be forced on the entire planet – except for the food plates of the globalists, of course, who will still be fine-dining on steak and caviar to their empty heart’s content.

Tyson and Protix have entered a joint venture for the construction and operation of an insect ingredient manufacturing facility here in the United States, which reports indicate will be the first of its kind “*to upcycle food manufacturing byproducts into high-quality*

*insect proteins and lipids which will primarily be used in the pet food, aquaculture, and livestock industries.”*

*“Our partnership with Protix represents the latest strategic investment by Tyson Foods in groundbreaking solutions that drive added value to Tyson Foods’ business,”* announced John R. Tyson, chief financial officer of Tyson and the same guy who last year wandered drunk and uninvited into a college student’s bed before she called the police on him.

*“The insect lifecycle provides the opportunity for full circularity within our value chain, strengthening our commitment to building a more sustainable food system for the future.”*

Do not be fooled by the claim that these bug byproduct ingredients are strictly for animals.

Globalists look at non-globalists — meaning non-one-percenters and everyday folks who are not filthy rich — as being the equivalent of human livestock, so you can be sure these insect parts are destined for your dinner plate as well.

Tyson would not be building a massive U.S. facility with an *“enclosed system designed to support all aspects of insect protein production including the breeding, incubating, and hatching of insect larvae”* if this entire operation was not also intended to feed the tens of millions of *“useless eaters”* that the globalists eventually want to kill off once they are done exploiting their human slaves for profit.

*“Next thing you know they will tell you that these things go well with Soylent Green!”* joked one person on X about Tyson’s insect ventures, referring to the 1973 sci-fi thriller film about people eating *“soylent green,”* aka *people*.

*“Guess I’m never eating Tyson products again,”* noted another, with several others in agreement that they, too, are done purchasing and eating Tyson products.

*“Insects are not designed for the human digestive system,”* noted another about how humans cannot consume and derive any benefits from bugs.

*“If it was, it would already have been on the menu several hundred years ago.”*

*“Humans and birds are very, very, very different.”*

*“Tyson Foods is disgusting,”* said someone else.

*“They very inhumanely slaughter animals to make their inferior products.”*

## **Boycott These Food Companies for Their Sell-out to HRH King Charles ~ Bill Gates Vegan Syn-Bio & GMO Lab Substitute Franken-Foods**

At some point, unless science finds a way to sort the safety issues, consumer resistance will likely persuade food companies to label GMO products sold in the United States, just as they've done in Europe. In the meantime, the industry will start seeing GMO ingredients as a liability, predicts Jeffrey Smith, executive director of the Institute for Responsible Technology and author of *Genetic Roulette: The Documented Health Risks of Genetically Engineered Foods*. Here are a few ways to avoid GMOs:

Buy organic. To be certified "organic" under USDA guidelines, foods cannot contain compounds from genetically engineered crops. (Be aware that cross-contamination can occur due to wind or insects.)

Look for Non-GMO Project seals. The Non-GMO Project is a nonprofit organization dedicated to clearly labeling and independently verifying foods that don't contain GMO ingredients.

Avoid non-organic foods likely to be made with GMOs, including products containing corn, soy, canola, cottonseed and sugar beets, as well as some produce, like papaya from China or Hawaii, and zucchini and yellow squash. Most sugar, if not organic, is probably a combination of both sugar cane and genetically modified sugar beets.

## **Biden's Power Grab of 22 Million Acres of Public Land in 11 States**

By M Dowling

March 8, 2024

The same Biden administration that wants to close off federal lands to oil and gas development in the name of protecting the environment is looking to take over 22 million acres of federal land for solar panels as part of the president's goal of achieving a 100 percent clean electricity grid by 2035, reports *The Sun*.

The Inflation Reduction Act rears its ugly head again. This time, Biden's Bureau of Land Management (BLM) will be allowed to take over 22 million acres for a large solar field on public land in eleven Western states.

One of the biggest problems with solar is too little gain for too much land. It also destroys the environment, and birds often die on these solar farms.

According to a press release from the U.S. Department of the Interior, the proposal refines the BLM's existing maps of land open to solar development in Arizona, California, Colorado, Nevada, New Mexico, and Utah. An updated roadmap refines the analysis in the original six states and expands to five more states – Idaho, Montana, Oregon, Washington, and Wyoming. It also focuses on lands within 10 miles of existing or planned transmission lines and moves away from lands with sensitive resources.

Meanwhile, [much-needed](#) oil and gas leasing in Colorado has paused. The communist administration doesn't like fossil fuels.

America Public Power Assn

[The Sun](#) reports:

Mr. Biden's "*Investing in America*" agenda, from which the proposal springs, seems to apply selectively to the energy industry. While urging industries to take up solar projects on public lands, the president has sought to make it more expensive for private companies to drill on them. In June, he proposed raising the royalties that fossil fuel companies pay to extract oil, gas and coal from public lands, the [first increase](#) on royalty rates since 1920.

This rate increase, coupled with heightened costs on the bonds companies must pay before drilling, could increase costs by about \$1.8 billion between now and 2031, the Interior Department estimates. In September, the Interior Department also drew [criticism](#) for its five-year plan to cut offshore oil and gas leasing, which could elevate domestic fuel prices and make America more reliant on oil imports.

[Some environmental](#) activists are opposed to the utility solar farm.

BLM says the plan would direct development away from sensitive resources, but some environmental activists say that is not true.

The BLM has proposed six alternative roadmaps with varying degrees of protection for critical habitat and cultural resources. Still, the preferred option appears to include lands previously ruled unsuitable for solar development [emphasis added], according to Kevin Emmerich, co-founder of Basin and Range Watch, a Nevada-based conservation group.

Biden is investing taxpayer dollars in solar technology, which will likely become the next EV. Also, the \$4.3 million from the Inflation 'Reduction' Act will never be enough for the extensive plans.

Carbon is again portrayed as the bad guy in the environment without scientific proof. We need it for survival.

[O'biden is just another one of HRH Charles' puppets carrying out the insanity of HRH Charles' plan to reduce the nation's depopulation measures. The world is being squeezed to conform to an 18<sup>th</sup> century culture of a former lifestyle. HRH King Charles is carrying out his Antichrist agenda! –Pastor Bob]

## **Smokehouse Creek Fire KILLS over 10,000 cattle in Texas, devastating local beef supply**

03/08/2024 // Ava Grace

The *Texas Department of Agriculture* estimates that over 10,000 cattle have been killed by wildfires that recently ravaged the Texas Panhandle and neighboring areas. The Smokehouse Creek Fire, as it is called, is the largest wildfire in the history of Texas. It has burned down at least 500 structures and 1,700 square miles in Texas and Oklahoma.

One of the people affected by the fire is Shane Pennington, a 56-year-old cattle farmer near Canadian, Texas. When he first saw flames from an enormous wildfire approaching the ranch he manages, his first concern wasn't his home. It was his animals.

Pennington said when he got to his ranch, he found around 50 of his cattle already dead and many nursing cows were desperately searching for their lost calves. As the flames tore through the ranch, they caused excruciating injuries, burning off some animals' tails and rendering others blind.

*"It just burned all the hair off them," he said. "Their feet are coming off. Their hooves, they're bloody." Some of them are "cows that I raised right here," he said. "It's just hard to see them burn up."* (Related: [Another blow to the food supply: Explosion and subsequent fire devastate Texas chicken plant.](#))

Pennington is one of many cattle farmers whose livelihoods have been devastated by the Smokehouse Creek Fire. Many more farmers have been affected by the disaster,

which is likely going to harm the supply of beef for a few years as ranchers try to rebuild.

Texas is home to about 4.1 million beef cattle, according to David P. Anderson, professor of agricultural economics at *Texas A&M University*. Agriculture Commissioner Sid Miller noted that more than 85 percent of the cattle in Texas are housed in [the Texas Panhandle](#).

Miller added in a press release that in addition to the thousands of animals that have died, many grain and seed operations have also “reported total losses.” Farmers and agricultural experts say the wildfire will continue to affect the cattle industry for years to come.

More cattle are likely to die in coming weeks. In addition to the short-term effects of cattle killed and grievously injured by the flames, there will be lasting repercussions, as herds cultivated for years struggle to recover and traumatized cows fail to reproduce. Miller has called for donations and prayers to be provided to Texas residents who have lost their homes and livestock in the wildfires.

*"There's no grass, there's no water for the livestock," Miller stressed. "We've lost over 3,000 head, which is a very small number, that will double or triple easily. We've got cattle that we're going to have to euthanize because of the damage to their hooves, their udders. We'll just have to put them down."*

For Pennington, the inferno has been both financially and emotionally catastrophic. *"Your job is to keep them alive, not to destroy them,"* he said. *"It's tough."*

*"Even if [the cattle] survive in [the wildfire], more than likely they're gonna get pneumonia, they're gonna get sick, they're gonna die,"* Pennington added, strongly suggesting that the estimate of 10,000 dead cattle will rise.

*"There are literally hundreds of structures burned to the ground – houses, barns,"* said Rep. Ronny Jackson (R-Amarillo), whose congressional district covers most of the Texas Panhandle. *"There are dead animals everywhere – cattle, horses. Unfortunately, there are many animals that are seriously burned, that aren't dead yet, that will have to be put down."*

**The “Witch” of mRNA Vaccines appointed in Pontifical Academy of Life! Pope Francis rewards the Inventor of the Diabolical Molecule**  
March 9, 2024

By **Fabio Giuseppe Carlo Carisio**,. who believed that the Holy See had reached **the highest peak of idolatry of TRANSHUMANISM** with the nomination of the [biochemist Emmanuelle Marie Charpentier in the Pontifical Academy of Sciences](#), despite the fact that she was the creator of the genome editing that allowed the birth of two Chinese twins with the DNA altered in the laboratory, **now he will have to think again...**

In deference to the GOD Vaccine that the Vatican State has obligatorily imposed on all subjects (citizens) of its theocratic monarchy, the Sovereign Pontiff Jorge Mario Bergoglio, more inclined to genuflect to the science of Big Pharma rather than to the supernatural science of the Holy Spirit, last February 10th chose **the Hungarian-American scientist Katalin Karikò as a member of the Pontifical Academy for Life.**

The nomination of the biochemist Karikò in the Pontifical Academy for Life – is famous for having invented the alteration of the human nucleoside Uridine, transforming it in the laboratory into Pseudouridine to deceive human blood cells and allow them to accept the functional mRNA to convey the genetic message essential to instruct the organism in the production of the toxic Spike to trigger the desired (but unsuccessful and short-lasting) immune reaction of antibodies against the SARS-Cov-2 virus.

## Appointment of ordinary member of the Pontifical Academy for Life

The Holy Father has appointed the Distinguished Professor Katalin Karikó, Nobel Prize for Medicine 2023, professor at University of Pennsylvania, as ordinary member of the Pontifical Academy for Life. (February 10, 2024).

Based on the intuition of the American biochemist at the University of Pennsylvania, others have further modified Pseudouridine, transforming it into the even more

dangerous MethylPseudouridine, a diabolical molecule that scientists (primarily the study of the biomathematician Jean-Claude Perez, friend and collaborator of late Luc Montagnier) have **identified as responsible for serious damage to the immune system**, autoimmune adverse reactions and neurocerebral pathologies that are sometimes lethal and above all inhibiting the defense mechanism against tumors so much so as to be suspected as the “smoking gun” of the tremendous phenomenon of turbo-cancer in vaccinated people who already 7 international studies correlate to mRNA gene sera.

**WE HAVE NOW PUBLISHED DOZENS OF INVESTIGATIONS ON THESE TOPICS AND THEREFORE WE ARE SURPRISED BY THE IGNORANCE ON THE MATTER OF THE HOLY SEE WHICH SEEMS TO HAVE BECOME A BRANCH OF THE NOBEL FOUNDATION IN STOCKHOLM WHICH AWARDED THE PRIZE FOR CHEMISTRY [TO THE FRENCHWOMAN CHARPENTIER](#) IN 2020 AND THAT FOR MEDICINE TO THE AMERICAN KARIKÒ IN 2023.**

It is disconcerting to think that two days after the appointment of a scientist who managed to invent a diabolical molecule capable of deceiving blood cells to make mRNA vaccines effective, Pope Francis held a conference in front of the Pontifical Academy for Life condemning the attempt to create a replicant of man generated in the image and likeness of God according to the Judeo-Christian Bible and the Magisterium of the Roman Catholic Apostolic Church.

*«The growing capabilities of science and technology lead human beings to feel like protagonists of a creative act similar to the divine one, which produces the image and likeness of human life, including the capacity for language, of which the “talking machines” they seem to be gifted. Would it then be within the power of man to infuse spirit into inanimate matter? The temptation is insidious. We are therefore asked to discern how the creativity of man entrusted to himself can be exercised in a responsible way. It is about investing the talents received, preventing the human being from being disfigured and the constitutive differences that give order to the cosmos from being canceled (see Gen 1-3)».*

**The Pontiff’s entire speech can be read in the link between the sources.**

But it is clear from these words the stark contrast with the appointment of a scientist who owes her success to Big Pharma’s dangerous and experimental Covid vaccines precisely for having created a biochemical trick capable of altering natural immune functions and even integrating into DNA as demonstrated by an Italian study.

Either Bergoglio is starting to suffer from Alzheimer’s or some bipolar psychiatric pathology or, otherwise, as stated by the Texan bishop Joseph E. Strickland, suddenly removed from his Diocese of Tyler, he is trapped in a circuit and dominated by occult powers that manipulate him like an ignorant puppet.

**In both cases it is only the tip of the iceberg of a Vatican now infected by the virus of Masonic scientism** which is proving to be even more serious than the SARS-Cov-2 built in the laboratory to sell Covid vaccines which have become a new form of idolatry by the authorities ecclesiastical, increasingly poor in supernatural and mystical transcendence but unfortunately increasingly gangrenous by the immanence of the parascientific superstition with which they have eliminated blessed holy water to make room for the gel propagated by now unmasked fraudulent advisors such as Anthony Fauci and Bill Gates.

**Battery-powered transportation soared in popularity during the pandemic, but the devices have since become ticking time bombs**

Lithium-ion batteries used in electronic bikes and scooters caused more fires in the last two months than in all of 2019, New York City Fire Department's (FDNY) has claimed.

Speaking to the '*New York Post*', Chief Fire Marshall Daniel Flynn noted that the FDNY recorded 30 fires involving lithium batteries in 2019, a number that more than tripled to 104 in 2021, and soared to 268 last year. In the first two months of 2024, 31 such fires had already been recorded, with the blazes causing 26 injuries and one death, according to figures cited by the *Post*.

Indian journalist Fazil Khan was killed last week when a lithium-ion battery caught fire in the hallway of a Harlem apartment. Residents on higher floors were trapped inside the building, with 18 other people suffering injuries.

E-bikes and scooters soared in popularity during the coronavirus pandemic, when people bought the devices to work in “*gig economy*” delivery jobs, the Marshall explained.

*“People bought these devices some three years ago, and now they’re aging,”* Flynn said, pointing out that shoddy repairs and replacement of individual battery cells – rather than entire battery units – increase the risk of deadly fires.

*“We’ve seen people try to fix it or modify it themselves, go to shops from unauthorized vendors or take it on themselves to replace the old batteries,”* he said. *“We tell people not to go with the cheapest option and seek out the manufacturer directly.”*

Lithium-ion batteries can catch fire if they overheat, or if the body of the battery is punctured. Lithium can burn violently on contact with air, and once started, lithium fires are impossible to extinguish with water, as the burning chemical simply uses the oxygen contained in water as fuel.

The FDNY has formed a Lithium-ion Task Force to combat the problem, and officers regularly inspect businesses that offer to repair individual battery cells.

*“They kill people, they have killed people, and they will kill more people if businesses continue to operate in this manner,”* Fire Commissioner Laura Kavanagh warned last month.

## **Rep. Massie warns about fed plan to electronically track all U.S. cattle to stymie beef production**

03/08/2024 // Ethan Huff

Hidden deep within the new omnibus bill is a [secret provision](#) to allow the federal government to electronically track *all* cattle in the United States.

Rep. Thomas Massie (R-Ky.) warned about the hidden provision on X, stating that lobbyists will receive \$15 million in taxpayer funds to unleash the electronic tracking grid on the nation's meat-producing cows and bison.

*As stated directly from the omnibus, the agreement "directs the Department to continue to provide the tags and related infrastructure needed to comply with the Federal Animal Disease Traceability rule (9 CFR 86), including no less than \$15,000,000 for electronic identification (EID) tags and related infrastructure needed for stakeholders to comply with the proposed rule, 'Use of Electronic Identification Eartags as Official Identification in Cattle and Bison' (88 FR 3320), should that rule be finalized."*

None of this, warned Rep. Massie is legal. And yet, the near-total apathy of the American people these days means these kinds of things are easily passable without so much as a peep from the wider constituency.

*"No law authorizes this!"* Rep. Massie wrote on X.

*"It will be used by the GREEN agenda to limit beef production, and by the corporate meat oligopoly to DOMINATE small ranchers."*

(Related: Back in 2021 at the height of the Wuhan coronavirus [COVID-19] "*pandemic*," Rep. Massie [called for](#) everyone at the U.S. Centers for Disease Control and Prevention [CDC] to be *fired* for lying about the nature of the so-called "*virus*.")

### **Attorney Tom Renz warns electronic tracking of cattle will unleash universal GMO "vaccines" on food supply**

What Rep. Massie means by the "*green*" agenda is that this little ear tag scheme is merely a front to further dig into the American meat supply in order to crush it, paving the way for synthetic "*meat*," bugs, and other "*climate-friendly*" replacements to flood the market instead.

One of just a few in Congress, or *anywhere*, calling out the scheme, Rep. Massie deserves credit for keeping the American public abreast of these latest developments, even if most people seemingly do not care what happens to their food supply.

*"It's important to make sure similar nonsense isn't occurring at state and local levels,"* warned an X account called "*Justin George*" (@jdgeorge94) about the plot.

Even more ominous was a warning that attorney Thomas Renz put in response to Rep. Massie's tweet about the implications of the electronic ear tag scheme on food safety.

*"It will also be used to ensure the introduction of genetics modifying vaccines on a universal basis into the food supply," Renz wrote about the scheme. "This is not just about limiting beef output ... it's about ensuring the beef available has mRNA vaccines in it."*

Renz responded to Rep. Massie further by offering to speak with him directly about the details of all this, emphasizing surety in his understanding of the long-term plan. *"We need to pass an omnibus that outlaws omnibuses,"* joked another about how ridiculous this all is.

*"This is exactly why we need single-item spending bills,"* wrote another, further joking with a play on words blending the word communism with omnibus. *"No more (c)omnibus."*

All this constant fighting over the climate, the food supply, and other pertinent issues is exhausting, wrote another, which is why increasingly more people seem to support the idea of splitting up the country into two separate entities.

*"No wonder why people are asking for a national divorce to split this country up,"* one wrote. *"Give them their green new deal, illegals, crime and drag shows and let the people on planet sane have the rest of the country!"*

The anti-beef brigades have been unleashed to rid the world of *"climate-polluting"* beef.

Blessings,

Pastor Bob, [EvanTeachr@aol.com](mailto:EvanTeachr@aol.com)

## THE ABC'S OF SALVATION

### ADMIT

Admit you are a sinner and have made mistakes.

### BELIEVE

Believe that Jesus is God's Son, died on the Cross for you, and rose up from the grave on the third day.

### CONFESS

Confess Jesus as the Lord of your life. And commit yourself to a life of following Jesus, and serving others.

(Romans 3:23; John 1:12; Romans 10:9)
