Bill Gates Demands Farmers Replaced with ‘Smart Farming’ AI

Hunter Fielding March 14, 2024

Billionaire Bill Gates is pushing to escalate the World Economic Forum’s (WEF) war on food by demanding that governments begin replacing human farmers with machines powered by so-called “*smart farming*” artificial intelligence (AI) technology.

According to Bill Gates, farmers no longer have a place in the globalists’ vision of the new world.

As the WEF argues, human workers are now part of the “useless class” of humanity that must be phased out and replaced with “inclusive” AI technology. Gates and the WEF agree that the new AI-driven world, with fewer humans in it, will help to “*save the planet*” from “*climate change*.”

Gates, who suddenly and unexpectedly became America’s largest owner of farmland last year, is attempting to “*save the planet*” by seizing control of the global food supply.

The WEF and Gates are pushing to hold humanity to ransom, so globalists can drip-feed rations on mRNA-pumped lab-grown meats and insect-based slop. The global elite sees a future for humanity where we are completely dependent on the global corporo-communist government. The general public will dine on rations of bugs and crickets, live on their land, own nothing, and be “happy.”

Gates is currently traveling the world on his private jet, spreading his own brand of globalist propaganda amid the elite’s war on agriculture in which the usual suspects are seeking to seize total control of the global food supply.

He is currently in India, the scene of some of his most brutal crimes against humanity including barbaric medical experiments on orphaned children. Gates has been meeting with WEF-compliant politicians during his trip, praising India’s world-leading digital ID system that has been forced on the population against their will by the elites.

While the digital ID is not mandatory, citizens are unable to access many basic goods and services if they refuse to comply with the invasive technology. Gates has also praised India's experiments with his AI-driven "smart farming," writing in [Gates Notes](#) that world governments must follow India's lead in embracing his new technology. In Gates' vision of the future, the world government will have total control over every farm on the planet.

"I got to see India's DPI in action when I toured an agricultural monitoring center in Bhubaneswar," Gates enthused.

"At this facility, government agriculture experts send advice and real-time updates to 6.5 million farmers via phone."

But it gets even worse. Gates' "smart farming" technology is designed to replace farmers, not "support" them. Gates isn't only trying to bring the government into everybody's home and workplace. He's trying to radically depopulate the world and replace human farmers with AI-controlled technology.

The ETC Group recently published a report which exposed the global elite's plans to seize control of the food supply and hold humanity to ransom. Titled, "[Food Barons](#)

[2022 – Crisis Profiteering, Digitalization and Shifting Power](#),” the report reveals that the “*holy grail*” for Bill Gates involves eradicating the vast majority of farmers.

“Tech giants are becoming prime players in food, handling the data, networking, and AI that undergirds the newly digitized food chain,” the ETC Group wrote in the report while describing the “*dream farm*” of the technocrats is a “*farm of one*,” where humans are discarded and technology does all the work for the elite.

“Every leading agrochemical company offers its own digital ag platform marketed to farmers as a way to transform on-farm data into savings that will ultimately increase farm profitability.”

“The Holy Grail, they say, is a ‘farm of one,’ where a single farmer/data manager (equipped with many thumbs, perhaps?) can log on to a connected device, watch as the algorithms calculate input prescriptions – based on data collected from in-field sensors and hyperspectral imaging – and then send those prescriptions to a fleet of contracted drones that will dump herbicide, fungicide, fertilizer, growth regulator or other input in a just-right dosage for each plant growing in the field.”

According to mainstream media, none of this is suspicious. Not even the fact that Gates has seized control of the world’s seed banks. Unfortunately for the media, the people are waking up and rejecting their propaganda in record numbers. The plan to eradicate humans and seize farmland for the elite has been playing out in front of our eyes for years.

In the Netherlands, regarded as a testing ground for the World Economic Forum’s anti-farming agenda, the Dutch government began implementing initiatives to seize farmland last year.

The nation was rocked by protests which have since gained steam and spread around Europe, with farmers demanding their governments stop bowing down to Klaus Schwab’s anti-farming green agenda which places extreme restrictions on their ability to earn a living and put affordable, traditional food on the tables of ordinary working people.

Eva Vlaardingerbroek explains how the elites have manufactured this crisis with the ultimate goal of a world government that has total control over every aspect of our lives. Schwab and his cronies are not satisfied with destroying the European agriculture sector.

Their tentacles extend across the Atlantic too.

Biden’s former “*climate czar*” John Kerry, a former Skull and Bones fraternity member and notorious globalist, went on record threatening U.S. farmers, blaming them for emitting nitrogen, and warning that “*government farm confiscations are not off the table.*”

Smart farming is all part of Klaus Schwab's transhumanist "new world" which he announced at the World Government Summit in late February. According to Schwab, the global elite now have a combination of different technologies working together that will enable them to usher in total control.

Schwab has dubbed this agenda as "Humanocracy."

Top Virologist Blows Whistle: 'Covid Doesn't Exist'

A world-renowned virologist has just blown the whistle and alerted the public that the COVID-19 virus "doesn't exist."

According to [Dr. Sam Bailey](#), the virus was fabricated in order for globalists to trigger a "pandemic" and usher in an unwelcome agenda. As most of you know, I have been saying this for four years plus.

Bailey warns that SARS-CoV-2, the virus that supposedly caused COVID-19, doesn't exist and never has done. We are now over four years into [the COVID-19 fraud](#) and while many things have changed, [confusion](#) remains the dominant theme.

More people are coming to the realization that there was [no pandemic](#) but there are also plenty of people ramping up "[bioweapons](#)" and "[gain of function](#)" narratives.

Amongst this, we have also seen the introduction of a new side-stepping argument that "*virus existence is not important*".

In 2020, Baily's team of top virologists started investigating the [virus model](#) and came to the realization that SARS-CoV-2 did not exist. In fact, there was no scientific evidence that any viruses existed, dating back to the late 1800s literature and the so-called [Tobacco Mosaic "Virus."](#)

Those critiquing virology have pointed out that no entity that meets the description of a virus has ever been physically isolated. In order to maintain the illusion, the virologists have not performed properly [controlled experiments](#) such as those proposed in the ["Settling the Virus Debate" Statement](#).

Indeed, [Dr Stefan Lanka](#) has shown that various indirect findings claimed as evidence for viruses are produced by the experimental methodologies themselves. In 2022, Mark published [A Farewell to Virology \(Expert Edition\)](#), a formal refutation of almost every aspect of the virus model.

As with other works that '[no virus](#)' proponents have produced there has been no direct response to the overall thesis. Instead, we have only seen attempts to change the subject, cloud the established definitions of words or introduce new unfalsifiable hypotheses.

There is no 'third way' when it comes to virus existence and this sophistry only distracts from the fact that [no 'pathogens' of any type have been shown to exist](#). The real-world human and animal experiments that set out to demonstrate "contagious" entities that cause diseases such as [influenza](#) and [common colds](#) were monumental flops.

Baily published a video explaining the investigation's findings that led to the realization that viruses do not exist. She explains that realizing this fact is a pivotal step for reducing fear and creating a better society.

Furthermore, a recent Gregg Reese Report stated that,

"If you want to routinely cull the population, then an invisible virus that you cannot see or prove would be the perfect lie to cover it up."

No one has ever isolated a virus. This is admitted by modern science who claim it's impossible. So instead, they mix it with a soup of other genetic materials, run it through a computer and create what is known as a consensus genome.

The theory that the invisible virus is a lie was put forth nearly thirty years ago by William Bramley in his book, *The Gods of Eden*, where he outlines thousands of years of human culling events. He points out how during the Black Death, sightings of humans dressed in black and wielding what were described as scythes were seen before an outbreak of the Plague.

Bramley suggested that the scythes may have been tools designed to spray poison gas. Denis Rancourt suggests that there has never been a virulent pathogen, including the

Bubonic plague, and that these historic mass death events are done deliberately by oppressive systems to maintain population control. If you want to routinely cull the population, then an invisible virus that you cannot see or prove would be the perfect lie.

In the 1930s, engineer Royal Rife, created microscopes capable of magnifying material over seventeen-thousand times. Modern microscopes can only provide a magnification of about twenty-four hundred. We've been denied the magnification required to actually see if a virus exists.

This idea first gained a foothold during the HIV/AIDS scare when people such as Peter Duesberg, Kary Mullis, and Celia Farber, were exposing the lies of Anthony Fauci. And it gained serious traction during the COVID era with the work of Andrew Kaufman, Tom Cowan, Denis Rancourt, and Dr. Lee Merritt.

Dr. Lee Merritt studied the official test for SARS-COV-2 and found they are actually testing for the Homo-sapien genome; Which is highly suspect. And there are many other suspicious facts.

- They test our nose, which like a filter, is full of foreign contaminants.
- The PCR tests are being deliberately over cycled to find falsified results.

What we are told is a deadly virus, looks identical to an Exosome, a naturally occurring part of cellular cleansing.

The first scientific publication created to disseminate information to the public was named after an ancient altar used for ritual sacrifice called Pergamon. And its first editor was Mossad agent Robert Maxwell.

Over a hundred years ago doctors were well aware of how deadly parasites could be to the human body. John D. Rockefeller's main advisor, Frederick Gates, convinced Rockefeller to modernize medicine by eradicating hookworm, a parasite that was known to be the biggest cause of disease back in 1905. Up until the nineteen-eighties, text books were not talking about viruses as the cause of disease. They were talking about parasites. Today, while animals require routine de-worming, modern science says that it's not a problem for humans.

After decades of research a group of German doctors found that every single cancer cell contained parasites. And that if cancer treatments such as chemotherapy failed to kill all of these parasites, then the parasites will be given the perfect conditions to spread throughout the body. The parasites start in the bloodstream and spread to other parts of the body where they grow into cysts. Under a microscope parasitic cysts look identical to what we call tumors.

They had films, they published papers, but it all got buried. Because if one-hundred percent of cancer patients have parasites, then parasites are likely causing cancer. And

today, the COVID shots, which we know are destroying natural immunity, are creating turbo cancers.

Having a lap dog under the age of five increases the chances of getting multiple sclerosis. Which can not be explained by MS being an autoimmune disease, but can be explained by brain parasites. Pathologist, Alan Macdonald, studied the brain and spinal cords of dead MS patients, and they all had parasites.

We all have parasites. Brain parasites being the most dangerous. And the parasite *Toxoplasma gondii* has a significant ability to infect the human brain. And it is found in insects. Which is probably why they want us to eat bugs.

The good news is that there is a remedy to deal with these parasites. A healthy immune system can take care of most of them, which requires good nutrition, regular exercise, peace of mind, and love. And routine parasite cleanses can take care of the rest. There is Ivermectin and Fenbendazole. These two were attacked by public health agencies during the Covid scam. They were negatively referred to as “horse de-wormers”. They are routinely used by veterinarians to de-worm livestock and pets. I have included Ivermectin as part of my regimen for treating Bladder Cancer.

Long Covid: even faker than you thought.

A new Australian study confirms: The term “*long Covid*” should be dropped from use, because Covid has no more aftereffects than the flu or other mild respiratory illnesses, according to a major new study from Australia released yesterday.

The [study](#) showed that only 3% of people who had Covid had “*moderate-to-severe*” aftereffects a year later - numerically fewer than those infected with influenza or other mild respiratory diseases.

Researchers surveyed 5,112 Australians who had been infected with Covid, flu, or other respiratory illnesses. The study adds to similar work suggesting that - except for the tiny handful of people who require ventilators or intensive hospital care - nearly everyone who gets Covid recovers completely from it within months.

The study's full findings will be presented at the European Society of Clinical Microbiology and Infectious Diseases in late April.

“We believe it is time to stop using terms like ‘long COVID,’” the study's lead author, Dr. John Gerrard, said in a press release. *“They wrongly imply there is something unique and exceptional about longer term symptoms associated with this virus. This terminology can cause unnecessary fear, and in some cases, hypervigilance to longer symptoms that can impede recovery.”*

With Millions Of Vax Deaths Confirmed To Be A '12-Sigma Event,' The Eugenicians Who've Carried Out The Greatest Crime Upon Humanity In World History Are Free To Murder More & More

- Apocalyptic Population Growth Fears Are Overblown And Draconian Controls Unnecessary

By Stefan Stanford - Live Free Or Die - All News Pipeline

According to [this June 20th of 2022 story](#) at the *Harvard International Review*, the population of the planet Earth is rising faster than ever before with the number of human beings living on our planet never higher than it is now according to the *United Nations*, rising from approximately 1 billion people in the year 1800 to over 7.5 billion people today, with the *HIR* story claiming this '*phenomenon*' is known as '*overpopulation*'.

Stressing within the opening of that story that those who are pushing the '*overpopulation theory*' believe our world's resource reserves will soon be outpaced by the planet's population growth, diminishing the '*quality of life*' all over the planet, it also reported those people believe the *world's food supply will inevitably become inadequate for feeding the general population*, whose numbers *would continue to swell until famine, disease, epidemics, war, or other calamities took root*.

Leading, that story reports, to the emergence of very real extreme reproductive control measures, which have taken center stage on an international scale, including forced sterilizations in Mexico, Bolivia, Peru, Indonesia, Bangladesh and India, as well as China's two-child policy, their story then took a different direction than we thought it might, reporting that ultimately, apocalyptic population growth fears are overblown, and as such, draconian population control regulations are unnecessary.

And while their story didn't bother to mention the very real '*depopulation efforts*' being taken by globalist government's all across the planet, which as those who've been paying close enough attention have seen, are nothing less than mass murder by governments, including the US government here in the 'good ole USA,' carried out on a global scale, their story addressed the fact that as long as food production keeps up with population growth, everything would turn out fine in the long run.

But as we're seeing over and over again now, the production of food is definitely NOT keeping up with population growth, with [this new Zero Hedge story](#) reporting **a whopping 140,000+ farms have been 'lost' in the last 5 years alone** as also reported in the 1st video at the bottom of this story. Now THAT, when combined with *population growth*, is a recipe for disaster.

As [we had reported on ANP back on February 1st](#), with the '*globalists*' firmly believing that '*overpopulation*' is the greatest '*threat*' that our planet Earth faces, actually claiming that it needs to be 'solved' by 'whatever means necessary' for the world to move forward into the future, including seemingly endless methods of '*tyrannical control*' such as '*food control, energy control, smart cities and financial control*,' by so few people

having so much 'control' over the rest of the planet's population and resources, we've officially moved from being a 'free people' to living as 'slaves' under a 'genocide agenda.'

And as [this new story over at Natural News](#) reports, we've now got more proof the entire COVID-19 'op' was nothing less than '*premeditated genocide*', being carried out on a global scale.

With that *Natural News* story reporting that the COVID jabs are now considered to be a 12-sigma event, with a **12-sigma event** being **an event that has an almost zero percent chance of happening – a black swan event if you will**, as that story warns, besides all of the people across America and around the world who have passed away following taking the advice of 'eugenicists' and getting their jabs, millions more have had their health forever damaged, with '*turbo cancers*' exploding across the planet.

Besides the many thousands who died not long after getting "fully vaccinated," there are also millions of cases of serious injuries caused by the shots that will never go away for the people who now suffer from them.

"Not only was Operation Warp Speed rolled out as a full-blown depopulation scheme, it was also designed to irreversibly debilitate and incapacitate as many 'vaccine' victims as possible," [reports State of the Union](#).

"What this really does is that it ties up the great majority of U.S. citizens so that they have no time or energy to hold their murderous government accountable for the greatest crime against humanity in world history."

Keep in mind that it is not just the government that needs to be held accountable. The same is true of the pharmaceutical industry, the medical establishment, Big Tech, corporate religion, the education system, and all other co-conspirators that played a role in unleashing this mass genocide on America.

Meaning that the very same institutions which the American people have long been devoting their own lives to, and have largely come to depend upon, are the very same outfits who have sold out Americans in the very worst of ways, there are NO SIGNS that they will EVER be held accountable for their crimes of genocide as we move forward into the future, **leaving those eugenicists who've carried out the 'greatest crime in world history' free to murder more and more.**

And we should listen to those people who live their lives within the insurance industry and who are noticing the ongoing trends to see what they're seeing. While we've reported numerous times on ANP about a seemingly unending line of Americans and people all around the world who've been **dying suddenly and unexpectedly**, quite often, bizarrely, the young and previously healthy, as we're witnessing now, it is precisely those people who have been dying in huge numbers. **As if 'the shots' were weaponized to kill those very people.**

Thus targeting not only the people who would have been America's front line of defense should we get into another devastating war but the very people who were 'next in line' to have children, thus allowing these globalist psychopaths to 'double down' on their 'depopulation agenda,' just think about how much worse it will get if they're 'allowed' to continue getting away with mass murder! We clearly haven't seen anything yet. Once again, from [this critical Natural News story](#):

A COVID jab genocide

A retired underwriter says the evidence is clear from insurance data. Ever since COVID jabs were unleashed in late December 2020, serious injuries and deaths from "unknown" causes have skyrocketed – with no end in sight.

"As I write in February, 2024, hardly a day goes by without more damning information being revealed about the tragic consequences of these injections," the retired underwriter says.

"The evidence can be found everywhere, except of course in the controlled mainstream media which continues pushing this fraudulent narrative; but cracks in the MSM narrative are now everywhere, and the truth is slowly but surely coming to light."

Though not an actuary, the retired underwriter says he worked with them daily and can clearly see from the data that **the situation is catastrophic in terms of the widespread and prolific health damage caused by COVID injections.**

One serious issue is the growth in "turbo cancers," or cancers that develop and spread in a person's body much more quickly than normal. The fully vaccinated are succumbing to turbo cancers at an increasing rate.

Dr. William Makis, a renowned Canadian oncologist and radiologist who has diagnosed 20,000 cancer cases throughout his career, told The People's Voice recently that he and his colleagues suddenly feel like "kindergartners" trying to explain this new phenomenon to the world.

Some of the turbo cancers that Dr. Makis and his colleagues are seeing spread so quickly that patients are dying within days of being diagnosed. Many of the diagnoses are also showing stage 4 status right off the bat, which is something he says he has not seen before throughout his career.

"Just to give an idea of how bad that is, a three-sigma or a one-in-200 year catastrophe would be a 10% increase over pre-pandemic, so 40% is just unheard of," commented Scott Davidson, CEO of OneAmerica Life Insurance, which at the start of 2022 reported a 40 percent increase in death claims compared to the prior two quarters covering the second half of 2021 when most people were getting COVID jabbed at the height of Operation Warp Speed.

With Presidential candidate RFK, Jr. quite literally declaring these deadly jabs are bioweapons created by the United States military as heard in the 2nd video at the bottom of this story, meaning '*We the American People*' are quite literally paying for our own murders and the murders of countless other innocent people across the planet that are being carried out on a global scale, it's become more and more clear that these mass deaths will only be stopped if we put a stop to them.

WEF Planning to 'Relaunch' Covid Pandemic, Insider Warns

A bioweapons industry insider has blown the whistle to warn the public that the World Economic Forum (WEF) is planning to **"relaunch"** the Covid pandemic in order to finalize its **"Great Reset"** agenda.

According to Dr. Harvey Risch, a bioweapons expert and Yale University professor and epidemiologist, the **"next pandemic"** is about to erupt **"seemingly out of nowhere."**

Risch warns that globalist elites are not finished with Covid yet, despite the appearance that the pandemic is “over.”

While the last pandemic may have failed to fully usher in the WEF’s “Great Reset,” another, more deadly Covid outbreak would surely complete the transition.

Both the “virus,” so-called, and the “vaccine,” so-called, were the perfect excuse for America’s bioweapons industry to boost itself as something the nation requires in order to serve the public good by protecting We the People against disease – or so it claims.

Dr. Risch is now alerting top trusted lawmakers in the hope of blocking the plans.

At a recent roundtable meeting called *“Federal Health Agencies and the COVID Cartel: What Are They Hiding?”* hosted by Sen. Ron Johnson (R-WI), Dr. Risch explained more about how the bioweapons industry has been working in secret for at least the past 70 years to unleash hell on the world.

“This work and the WIV (Wuhan Institute of Virology in China) leak was what I consider to be the fruit of our bioweapons industry that has been performing secretive and nefarious biological weapons development for the last 70 years,” Dr. Risch stated at the roundtable.

“The recognition of the possible accidental or intentional unleashing of an infectious agent capable of killing large numbers of humanity led to the bioweapons treaty of 1975 that President Ford signed.”

“The treaty prohibits the development of offensive bioweapons however, the one loophole in the treaty is that small quantities of offensive bioweapons are allowed to be developed in order to do research on vaccine countermeasures.”

According to Dr. Risch, said loophole was then exploited by the U.S. bioweapons industry, which ultimately led to COVID then the rest of the nightmare known as the “pandemic.”

“My hypothesis, what I believe, is that both the virus-origin cover-up and the forced vaccination of the entire planet were orchestrated to protect the integrity of the bioweapons industry,” Dr. Risch stated.

“The vaccines then are the evidence that the bioweapons industry was properly justified from the beginning.”

The fact that COVID injections were unleashed right in the middle of a so-called “pandemic” is suspect in and of itself because this is not how things are typically done.

If the general public only knew what Dr. Risch and others like him have to say about all this, they would be shocked, angry, and ultimately demanding answers from their elected officials as to how all this could happen right underneath everyone's noses.

"Without a successful vaccine to show for itself in the time of a pandemic crisis, especially one caused by a leak from a bioweapons industry source itself, it would be clear to everyone that the rationale for the industry's existence was a fraud in the first place," Dr. Risch contends.

"And so, the COVID vaccines themselves supplied the defense against the charge that the bioweapons industry was not actually dual-use, but offensive only, violating the 1975 treaty."

Also present at the roundtable was mRNA (modRNA) expert Dr. Robert Malone, as well as data expert Ed Dowd.

"Let us all just pause and remember that the entire scamdemic was indeed one big scam," one commenter made sure to note.

Canada to Sentence Citizens to 'Life Imprisonment' for 'Hate'

Frank Bergman March 13, 2024

The Canadian government is rapidly advancing plans to usher in full-blown tyranny and will soon begin sentencing citizens to life in prison if they are found guilty of committing the "crime" of so-called "hate"

Many are likening the new laws to George Orwell's dystopian novel "1984" as Canada will soon start handing out severe penalties for wrong-think. The push for life sentences is part of "liberal" Prime Minister Justin Trudeau's "anti-hate" legislation.

The shocking new law, buried in bill C-6, states:

*Everyone who commits an offense under this act or any other act of Parliament, if the commission of the offense is motivated by hatred based on race, national or ethnic origin, language, color, religion, sex, age, mental or physical disability, sexual orientation or gender identity or expression, is guilty of an indictable offense and liable to **imprisonment for life.***

However, the bill only gets worse the further you read.

The new law will also offer cash bribes to members of the public "anonymously" snitch on their fellow citizens for committing "hate."

The bill states:

*It [C-6 bill] allows someone to make a complaint of a discrimination **anonymously** ... if that hateful complaint is found legit, a maximum of 20,000 [Canadian] dollars goes to that person.*

Meanwhile, similar legislation to define and crack down on in-person and online "hate" is being pushed across Europe. Just recently, in Belgium, former Flemish parliamentarian [Dries Van Langenhove](#) was sentenced to [one year in prison](#).

The reason for this sentence was for sharing supposedly "racist memes" in a private group chat. The new law from Canada comes as Trudeau's [World Economic Forum-controlled](#) administration seeks to rapidly advance the nation's descent into globalist tyranny.

The government has been pushing several new laws that seek to strip the public of their freedoms. As Slay News reported, among the draconian new laws are powers that allow authorities to begin jailing citizens who "might" commit a crime.

Trudeau's government is pushing for the new "pre-crime" authority which officials claim will help to tackle so-called "hate crimes." The new powers are buried in Trudeau's "Online Harms Bill," which is expected to soon be signed into law, the Daily Telegraph [reports](#).

The "Online Harms Bill" is designed to crack down on any opposition to the "progressive" agenda of Trudeau's ruling Liberal Party. One of the measures within the bill would give judges the power to imprison individuals if they believe they "might" commit a crime in the future.

Meanwhile, the government is also pushing new laws that seek to criminalize Christianity, as Slay News recently [reported](#). Trudeau's administration is planning to

make Bible reading and prayer considered “hate speech” – a “crime” punishable with prison time.

Under Trudeau, a WEF [Young Global Leader](#), the government is introducing an amendment to the *Criminal Code*. The amendment could see believers face jail time for expressing historic Christian teachings. The legislation, Bill C-367, will make it illegal to reiterate certain parts of the Bible.

By stripping away the “*good faith*” defense, the government will be able to prosecute Christians for what is deemed by the globalist state as “*hate speech*.” Traditional Christian practices such as celebrating Christmas or attending church service will be considered crimes that carry severe penalties.

Additionally, Slay News recently [reported](#) globalist lawmakers in Canada are pushing a disturbing new piece of legislation that seeks to jail members of the public who question the “Net Zero” agenda of the unelected WEF.

The push aims to tackle so-called “*climate skepticism*” as governments around the world [scramble](#) to meet the WEF’s “*Net Zero*” goals. The legislation, Bill C-372, was introduced by Canada’s left-wing socialist New Democratic Party (NDP). Under the bill, the promotion of fossil fuel use will be outlawed with restrictions similar to tobacco advertising applied.

Those who speak in favor of fossil fuels, or criticize plans to eliminate them, will face massive fines and possible prison time. The “*anti-hate*” laws are so extreme that even radical leftists are calling out the government over the push. The environmental activist, feminist, and author, Margaret Atwood slammed the government’s “Online Harms Bill” in a social media post. Atwood called the bill “*Trudeau’s Orwellian online harms bill*” and stated “*If this account of the bill is true, it’s Lettres de Cachet all over again,*” referring to letters signed by the King of France granting him absolute authority.

On Tuesday, Canadian psychologist Jordan Pederson, who’s already expressed shock and disapproval at the bill, responded to Atwood’s comments, [stating](#):

“If even the mother of the progressive feminists in Canada thinks that Bill C-63 is dangerous then perhaps the rest of us might think twice as well.”

USAID's "Disinformation Primer:" Documents Reveal Censorship Promotion Across Sectors

The authorities in the U.S. are once again caught red-handed promoting censorship, this time via the [US Agency for International Development \(USAID\)](#).

USAID is normally used by the U.S. government to spread its influence around the world, but now, according to documents from a case against the State Department's Global Engagement Center (GEC), the agency also actively participates in analyzing and spreading various censorship methods.

The lawsuit in question was filed by America First Legal (AFL), alleging that the State Department, via GEC, engages with private media to advance what the non-profit believes is government/private sector censorship and propaganda collusion.

Now, USAID's controversial activities have also been exposed thanks to the lawsuit, which revealed that one of the agency's bureaus, the Center on Democracy, Human Rights, and Governance (DRG) has come up with a "Disinformation Primer" - a 97-page document marked as being "for internal use only."

The Disinformation Primer - in fact, a censorship primer, to sum up the [Foundation for Freedom Online watchdog's interpretation](#) of the strategy - was "*up and running*" only one month after Joe Biden got sworn in, in February 2021.

The extensive "*primer*" seeks to exert influence on how private tech, but also media companies can increase the level of existing censorship; the already existing engagement with private entities is at the same time commended by USAID.

Other targets, more in line with USAID's overall activities, include foreign governments, specifically education departments, and funding sources. Inevitably, more "*partners*" are NGOs, non-profits, and think tanks, often themselves with ties to the government.

Some of the censorship techniques that USAID likes and recommends are Advertiser Outreach, which is designed to cut off media and accounts on social platforms from ad revenue, if their speech is what's known as "*disfavored*" (by those in power).

FOR INTERNAL USE ONLY

**What could technology companies do?**

- Create an international advisory council.
- Provide researchers with the data related to initiatives aimed at improving public discourse.
- Provide transparent criteria for any algorithmic changes that down-rank content.
- Work collaboratively.
- Highlight contextual details and build visual indicators.
- Eliminate financial incentives.
- Crack down on computational amplification.
- Adequately moderate non-English content.
- Pay attention to audio/visual forms of mis- and dis-information.
- Provide metadata to trusted partners.
- Build fact-checking and verification tools.
- Build "authenticity engines"
- Work on solutions specifically aimed at minimizing the impact of filter bubbles:
 - a. Let users customize feed and search algorithms.
 - b. Diversify exposure to different people and views.
 - c. Allow users to consume information privately.
 - d. Change the terminology used by the social networks.

**What could national governments do?**

- Commission research to map information disorder.
- Regulate ad networks.
- Require transparency around Facebook ads.
- Support public service media organizations and local news outlets.
- Roll out advanced cybersecurity training.
- Enforce minimum levels of public service news on to the platforms.

**What could media organizations do?**

- Collaborate.
- Agree policies on strategic silence.
- Ensure strong ethical standards across all media.
- Debunk sources as well as content.
- Produce more news literacy segments and features.
- Tell stories about the scale and threat posed by information disorder.
- Focus on improving the quality of headlines.
- Do not disseminate fabricated content.

**What could civil society do?**

- Educate the public about the threat of information disorder.
- Act as honest brokers.

**What could education ministries do?**

- Work internationally to create a standardized news literacy curriculum.
- Work with libraries.
- Update journalism school curricula.

**What could funding bodies do?**

- Provide support for testing solutions.
- Support technological solutions.
- Support programs teaching people critical research and information skills.

#10 ADVERTISER OUTREACH

In order to disrupt the funding and financial incentive to disinform, attention has also turned to the advertising industry, particularly with online advertising. A good example of this is the concerted response to the discovery of the websites traced to the village of Veles outside of Skopje, Macedonia, which showed how easy it was to exploit the digital advertising model to flood the news ecosystem with fabricated content. *Wired Magazine* profiled the Veles case study in 2017.¹⁹⁹

As most online advertisers are unaware of the disinformation risk of the domains featuring their ads due to the automated process of ad placement, they inadvertently are funding and amplifying platforms that disinform.²⁰⁰ Thus, cutting this financial support found in the ad-tech space would obstruct disinformation actors from spreading messaging online. Efforts have been made to inform advertisers of their risks, such as the threat to brand safety by being placed next to objectionable content, through conducting research and assessments of online media content. Additionally, with this data, organizations hope to aim to redirect funding to higher-quality news domains, improve regulatory and market environments, and support innovative and sustainable models for increasing revenues and reach.

A few examples of advertiser outreach are included in Annex 3: Emerging Solutions.

Another is propping up legacy media as these outlets steadily lose trust, with things like "[prebunking](#)" and the Redirect Method, developed by Google, which *"relies on advertising using an online advertising platform such as Google AdWords, targeting tools and algorithms to combat online radicalization that comes from the spread and threat of dangerous, misleading information."*

One striking quote from the document is that gaming sites and gamers should be prevented from forming *"interpretations of the world that differ from 'mainstream' sources."*

Worth noting is that this censorship, propaganda and indoctrination "handbook" - aimed at curtailing citizens' freedom of expression and thought - was made using taxpayer money.

THE ABC'S OF SALVATION

ADMIT

Admit you are a sinner and have made mistakes.

BELIEVE

Believe that Jesus is God's Son, died on the Cross for you, and rose up from the grave on the third day.

CONFESS

Confess Jesus as the Lord of your life. And commit yourself to a life of following Jesus, and serving others.

(Romans 3:23; John 1:12; Romans 10:9)
