

# The Blessed Hope!

**“Looking for that blessed hope, and the glorious appearing of the great God and our Saviour Jesus Christ;” –(Titus 2:13)**

*Diamond & Nugget #38*

The clock is ticking! Things grow darker by the hour from a world view. My world view is a Biblical world view. I monitor near a thousand news reports on average every day. They are all very negative, that is if you do not have a Biblical world view. We are approaching the darkest hour of mankind. There is a war out there and you and I are the enemy. We are in the advance stage leading to the Great Tribulation, and if you do not recognize it, let me wake you up. We are in a war as I said and all the signs are evident. Our enemy is well along in his earthly victory. Unfortunately most people have to be scared into reality before they turn to God for direction and guidance. We have a **“Blessed Hope”** and our strength and resolve will be needed right up to the moment the Lord says, **“After this I looked, and, behold, a door was opened in heaven: and the first voice which I heard was as it were of a trumpet talking with me; which said, Come up hither, and I will shew thee things which must be hereafter.”** - (Revelation 4:1).

I was never naïve to believe this picture would come without events in which we would experience faith-shaking drama that is going to be monumental. I came across Mike

Adam's post which suggests an astonishing time-table over the next two months. But before sharing the details, you need to be aware that the shooting war has claimed its first casualties. At this very minute, a covert war is raging across the globe, pitting Trump's DoD and DIA (Defense Intelligence Agency) against black hat deep state factions running the CIA.

The good news is: Trump is winning for now but events can turn expectedly.

As you know by now, the DoD launched a raid on a CIA-run server farm in Frankfurt, Germany, to secure servers that contain proof of CIA interference with the 2020 election (i.e. backdoor manipulations of election results via Dominion voting machines). But new information is now surfacing that indicates there was a firefight at the server farm facility, involving US Army Special Forces units, engaging with CIA-trained paramilitary units that were flown in from Afghanistan in an emergency effort to defend the facility.

One CIA officer was killed during the firefight, and he is now being reported across the mainstream media as being "killed in Somalia." Five US Army soldiers were also killed, and they are being explained away as dying in a "helicopter crash" in Egypt. President Harry Truman before he left office said he regretted signing the Act that created the CIA! Their loyalty clandestinely has always been to the Vatican, even when it was called the OSS or Office of Strategic Services.

Despite the deaths, the servers were successfully acquired by the DoD, and those servers were turned over to President Trump's private intelligence group, which is now once again led by Gen. Michael Flynn, recently pardoned and now allowed to process top secret information, since his security clearance has been restored.

Here's where this gets good:

Sidney Powell is about to roll out expert witnesses in the Georgia and Michigan lawsuits. One of these witnesses has been handed details of the vote theft which were acquired through two means: 1) The "Kraken" cyberwarfare program run by the DoD, and 2) Information found in the servers which were acquired during the multiple raids. (There were also server farm raids in Barcelona, Spain and Toronto, we are told.)

One of these witnesses is Dr. Keshavarz-Nia, a well-known cybercrimes investigator, who has a long history of working with U.S. military counterintelligence, as well as the NSA and CIA. He has now offered sworn statements to Sidney Powell.

His statements include:

I have previously discovered major exploitable vulnerabilities in DVS and ES&S that permit a nefarious operator to perform sensitive functions via its built-in covert backdoor. The backdoor enables an operator to access to perform system updates and testing via the Internet without detection. However, it can also be used to conduct illicit activities such as shifting votes, deleting votes, or adding votes in real-time... I conclude

with high confidence that the election 2020 data were altered in all battleground states resulting in a hundreds of thousands of votes that were cast for President Trump to be transferred to Vice President Biden.

And so the circle is complete: DoD forces deploy cyber warfare weapons (“Kraken”) as well as kinetic troops (Special Forces, under the U.S. Army) to acquire physical servers, all the information derived from these operations is extracted by DIA forensic analysts, it is then handed over to various expert witnesses who are prepared to testify under oath, resulting in the courts nullifying the fraudulent vote manipulations in the swing states.

This is how Trump gets to 300+ electoral votes and secures his second term as President. If successful, these revelations will also utterly destroy the Democrat party and result in thousands of treasonous actors going to prison for their roles in this attempted cyber warfare election theft to overthrow the United States government.

On a second front, I watched an interview between former U.S. Marine officer/CIA spy Robert David Steele and Patrick Byrne, CEO and founder of Overstock.com in which Mr. Byrne had financed a team of cyber investigators and sleuths that has all the proof of how the 2020 presidential election was rigged and was a deep state coup. He even has the operator’s manual for the Dominion ballot system originally created for the Venezuelan president Hugo Chavaz. Patrick Byrne made available all of his investigative findings to Sidney Powell and her team of Federal prosecutors. The Dominion voting system had twelve ways to change the voting system.

The incredible media silence of disinformation is deafening by what they are not saying is even greater than what they have been saying. But make no mistake, a war is underway. Elements of our government have declared war on Christians and Patriots of the Republic. Sidney Powell, who defended Lt.-General Mike Flynn has formally exposed the Democrat Party corruption and attempted coup at the ballot box through a series of Federal law suits in a number of states that will show both rigging an election is possible and that the party of Biden-Harris have conducted an all-out coup to defeat President Donald J. Trump. After listening to Dr. Joseph Corsi and Robert David Steele, and the interview with Patrick Byrne and Robert David Steele it looks like this election will drag on for weeks and end up in the U.S. Congress.

(Natural News): What follows is a likely timeline of events to take place between now (Sep. 20, 2020) and Jan 20, 2021. Due to the extreme volatility of current events, almost no one dare make predictions these days, but this timeline is based on interviews with top law enforcement that have ties to federal agencies, with additional sources from the militia community as well as individuals close to the Trump administration.

This timeline, although subject to change, is our current best guess at how the moves on the chess board are likely to play out. It covers the SCOTUS nomination, Election Day, the Insurrection Act, left-wing terrorism, financial markets, election outcomes and

more. There's also a commendable overview of the coming chaos at [this All News Pipeline story](#), which is worth checking out after you review the timeline below.

I am not including the entire list, just what follows the date of the election which is of primary interest in this drama. This is by Mike Adams of Natural News.com.

Here's what I see as likely to play out, given the current best information:

### **Immediate Post-Election Action**

- Immediately after the election, Democrats will likely activate their full-blown chaos agenda to throw the country into mass chaos, making any accurate counting of remaining votes almost impossible. This will likely begin with so-called "Zero Day" attacks that target key US infrastructure, including the power grid, telecommunications, transportation and water supplies.
- These attacks will plunge many areas of America into extreme chaos and lead to exploding crisis scenarios which will quickly escalate into panic among the populations of certain cities where the attacks are focused.
- In concert with the Zero Day attacks, left-wing insurrectionists will be given the "go" signal to flood into the streets, violently attacking Trump supporters with the full forces of the weapons that have been smuggled into the hands of Black Lives Matter terrorists via communist China, which is providing heavy weapons to US insurrectionists (full-auto battle rifles, RPGs, mortars and more).
- Within days, many of America's streets will be full-blown active war zones. This will quickly force Trump to invoke the Insurrection Act, which he will do, activating military assets which he has pre-positioned in 50 US cities, under the cover of "Operation Warp Speed" (the vaccine program).
- From here, curfews will be enacted in many cities, and military personnel will quickly regain control of the streets. This will drive left-wing forces into guerrilla warfare mode, which will continue through January. In this mode, left-wing terrorists will resort to classic guerilla warfare tactics such as sabotage, politically targeted assassinations and bombings of key infrastructure. We are going to witness the radical Left descend into a full-blown militant insurrectionist force like the "Shining Path" in Peru, with kidnappings of the children of prominent conservatives, assassinations, bombings and more. It won't take long for this to escalate.

### **Post-election chaos: Nov, Dec, Jan**

- We anticipate several Democrat-run states flat-out refusing to certify results in favor of Trump no matter how long it takes. We are essentially going to witness acts of *secession* among several blue states, most likely California, Oregon and Washington.
- During this time, legal battles will be raging at the local level all across the nation, with Trump's legal team attempting to nullify fraudulent votes (and fake ballots printed up by the Dems), and Democrats trying to include all the fake votes they have fabricated after the election. The future of this nation will depend on the outcome of these legal battles, perhaps coming down to a single court in a single state that could determine the entire election.

- The possibility of increased tension with China — perhaps via a proxy war involving Taiwan — is heightened during this time. Watch for a Navy vessel conflict of some sort.
- We anticipate the US Senate voting to confirm a new Supreme Court justice fairly quickly after the election, most likely Amy Barrett. The fact that she is a woman will avoid the left-wing media’s usual fabrication of sex-related allegations against male nominees (Cavanaugh, Clarence Thomas, etc.), but they will find new ways to attack Barrett, mostly likely by attacking her religious faith. To the demons on the Left, a person of faith is seen as their mortal enemy.
- By all measures, the Democrats will flat-out refuse to concede the election to Trump no matter what the votes say. Even if he is winning a 400-vote electoral landslide, they will claim he’s not “legitimate” and therefore they refuse to participate in the election outcome unless they win it.
- We wouldn’t be surprised if some prominent Democrats attempt to split off and claim Biden is the legitimate president, asserting that Trump “stole” the election through whatever mechanism sounds good at the time. They may try to invoke a military coup against Trump or even physically overrun and occupy the White House to physically place Joe Biden inside that symbol of power.
- During this time, we see a very strong role for militia groups nationwide in protecting local areas — and perhaps even the White House — against left-wing attempts to overrun and seize control by force. There will likely be standoffs and possibly kinetic engagements between militia forces and left-wing insurrectionists, although we would encourage patriotic Americans to allow the military to do its job and put down the insurrectionists using Insurrection Act powers under the direction of President Trump.
- Also during this time, there will be the same battle over “faithless electors” that we saw after the 2016 election, where blue states try to force their Electoral College voters to vote against the will of the people, denying Trump the official Electoral College votes he needs to official claim a second term. However, recent court cases have ruled that in many states, these faithless electors are not allowed to simply vote whatever way they wish. So this effort will fail.
- Importantly, the new SCOTUS justice will be sworn in during this time, granting conservatives a 6-3 majority (technically, only a 5-4 majority since Roberts is a compromised, blackmailed traitor who now votes against conservative principles). This will be key as it seems likely one or more local court decisions involving mail-in votes will end up in the hands of SCOTUS under emergency appeal, and the court ruling will be pivotal in deciding the accepted outcome of the election.
- In the end, we currently give Trump a 70% chance of achieving victory after everything is said and done, which is a significant improvement over where he was in April of this year, in the early days of the coronavirus pandemic. Biden’s 30% chance comes from the level of extreme organization of illegal ballot harvesting, voter fraud and ballot counterfeiting that is being carried out by the lawless Left, along with the coordinated censorship of nearly all pro-Trump voices across social media and Big Tech platforms.

- During these months, we anticipate very high market volatility with several plunges in the markets as social chaos is unleashed across the country. The left-wing riots, infrastructure failures and general feeling of doom and gloom will put heavy downward pressure on the markets, and it wouldn't be outlandish to expect a 30% correction in the Dow during this time (with perhaps a 40% correct in certain overvalued tech stocks). Gold and silver will skyrocket during all this chaos, as will prices of guns and ammo.
- US military troops will maintain a heavy presence on the streets of left-wing cities (which is nearly every large city) in order to maintain law and order. To some people, America will begin to look like a war state under martial law, but in fact most conservatives will welcome the presence of the troops, given the extreme violence of the radical Left. Expect to see military roadway checkpoints in and around many US cities.
- Expect continued shortages in food, products and consumer goods during this time. With infrastructure failures becoming more frequent, and left-wing terrorists targeting long-haul trucks and raiding retail stores, we will all be living through a time of extreme shortages and uncertainty.
- The national economy will continue to crumble during all this, with sharp increases in joblessness and homelessness. Expect very long food lines across all 50 states, with tens of millions of Americans facing food insecurity as well as imminent homelessness if the federal ban on evictions is lifted.
- Along with this, we expect a sharp increase in local crime as once-polite people turn desperate and begin looting and stealing in order to feed themselves and their families. Crimes of desperation will skyrocket.
- Vaccines will begin to become available during this time, and the government may offer financial incentives for people to get injected. Given the economic collapse and desperation, many people will agree to the immunizations. Over the next few years, we will all come to learn how these vaccines ended up killing so many people, and rendering huge numbers permanently infertile (thereby achieving depopulation goals).

#### **Inauguration Day: Jan 20, 2021**

- With Trump the likely winner of the election (see above), Inauguration Day will witness heavy protests by unhappy Leftists, and they will see this day as their last opportunity to try to overthrow the nation or go down in flames trying.
- Here, the media will reveal their true treason against America, and they will denounce President Trump and his second term.
- On this day, we expect many top Democrats and deep state traitors to **flee the country**, as their arrests will be imminent.
- This may be the day that left-wing governors and traitors within the Pentagon declare war on America, setting off a full-blown civil war that could eventually see UN troops invading America and fighting on the side of Democrats to try to overthrow the US government and install their own president into power. We won't know more about this dangerous dynamic until we see how the election plays out.

#### **Post Inauguration Day**

- Assuming Trump wins the election, his second term sets off an epic fight to defend America by arresting and shutting down the treasonous actors, insurrectionists and deep state traitors who tried to overthrow this nation. We will see **mass arrests** of people like James Comey, John Brennan and perhaps even Hillary Clinton and Barack Obama himself, one of the masterminds of the deep treason against America. California Gov. Newsom, a hardened mafia criminal, will also likely be arrested and charged with money laundering and sedition.
- With Trump in power for a second term, the radical Left will go “scorched Earth” on America, activating every asset to destroy America’s infrastructure, poison water supplies, bomb buildings, burn cities to the ground and mass murder as many people as possible. This is the goal of Leftists: They HATE America and want to see it destroyed, and they know this is their last opportunity to bring the country down before they are exterminated and removed from power. Importantly, in Trump’s second term, **the DNC will be disbanded** and the Democrat party will implode.
- Ultimately, we hope to see Trump ordering the military police arrests of Big Tech CEOs (while seizing tech companies), fake news media operatives (who are mostly working with China and the CIA), university professors who are terror recruitment operatives and the leaders of all the left-wing movements that are rooted in violence. Whether he pursues all this depends largely on how much outcry there is from conservative Americans against the terrorism and treason of the Left, so your voice will be important during this time.
- If, on the other hand, Trump loses the election because Democrats have rigged it, we can expect a civil war to be well under way by this time, with any number of scenarios unfolding across the landscape of cities and states.
- No matter who wins, **we see America breaking apart by 2025**, as lunatic left-wing Democrats are now flatly incompatible with civil society. They cannot function in a system rooted in fairness, free speech and equal protection under the law. They can only flourish under rigged, authoritarian systems rooted in government tyranny and the destruction of fundamental human rights such as the right to speak. **Nearly all Democrats have been transformed into hate-filled, raging lunatics who cannot function under a system of law or reason.** Thus, we don’t see California, Oregon and Washington wanting to participate in a future nation where their government tyranny is nullified by liberty. They may attempt to secede from the union, setting off regional civil war action in their own states as rural citizens face off against urban citizens to determine who controls the fate of their states.
- America as we know it will cease to exist by 2025. Even if Trump wins, he will be the last President of the USA as we know it.
- Sometime in 2021, markets will likely suffer a catastrophic correction. The social implications of this are beyond the scope of this report, but they will be enormous.
- In the end, everyone will come to learn **you can’t run an economy on fake currency and debt creation.** This entire system is coming down, no matter who’s in the White House. They can only keep it afloat for a little while longer.

But much the same is also true for China, and it's actually going to be intriguing to see which nation's financial system collapses first.

### **How to get prepared in the 40+ days remaining**

- First, download my free nine-hour audiobook, "The Global Reset Survival Guide" at [GlobalReset.news](http://GlobalReset.news) (you are also free to share it with others).
- Secondly, I will soon be posting another free audiobook called "Survival Nutrition" at [SurvivalNutrition.com](http://SurvivalNutrition.com). It is due on Sep. 30th but may be delayed into the first week of October.
- Thirdly, follow my new social media channel on Brighteon.social. My channel there is <https://briteon.social/@HealthRanger>
- Watch all the new videos at [PrepWithMike.com](http://PrepWithMike.com) – which teaches you how to prepare your firearms, red dot sights, emergency gear and more.
- Stock up on food, firearms, ammunition, communications gear, water filters, off-grid gear and everything you think you might need to survive months (or years) of chaos and civil war. There are many scenarios in which civil war becomes the most likely outcome.
- Bug out of the cities NOW, while you still can. You do not want to be left in any large city once all this gets under way.
- Prepare for internet outages and sabotage. We are going to be posting an IP address soon that you can use to bypass DNS systems and access our websites even if global name servers go down.
- Watch more preparedness videos at Brighteon.com. A channel there called [Man Made Survival](#) gives you a lot of good information. There's also a channel called [US Sports Radio](#) that features a lot of tactical firearms training videos.
- Read your Bible and pray for divine protection. We all need it. Also check out the upcoming "Final Warning: Brace for Impact" streaming video event at [GenSix.com](http://GenSix.com), which features final warning messages from many of the most influential thought leaders across independent media.

I differ with Mike Adams in respect to that we hold two polar 180<sup>0</sup> degree opposite views in this last section of his time-line analysis. Those Christians like Mike Adams, Steve Quayle, Chuck Baldwin, Ted Broer, Jim Bakker, and most others who do not believe in the Pre-Tribulation Rapture. They simply do not understand how to "Rightly Divide The Word of God!" As such these men are preppers that directly benefit financially by their theology. As a Bible scholar of some 55 years, I have no personal financial interests or benefits in proclaiming the Pre-Tribulation Rapture doctrine.

If you learn nothing from Mike Adams timeline, I hope you will recognize the gravity of what the Republic faces. We know the deep state is aligned with the globalists, and that President Trump is the single obstacle to the Rothschild's and Klaus Schwab agenda 2030 and the World Economic Forum taking our freedoms and enslaving us into a Fascist Technocracy, a modified or technical form of communism. If you have read my series on "**The Satanic Talmud and the Synagogue of Satan – Part 6**", you know that I believe that the Bible's anti-Messiah is Prince Charles of Wales. Prince Charles of Wales is the brains behind the "Sustainable Development" movement going back three decades. Part 6 has around 50-pages of evidence to the fact Prince Charles is the

Antichrist. I do not believe we will have to wait too much longer before he is asked to become the leader of the world. In the past few years, celebrity polls taken of world leaders call Prince Charles the #1 favored world leader! He has been very active this year among the elite. At the opening of the World Economic Forum, Prince Charles said,

*"Global warming, climate change and the devastating loss of biodiversity are the greatest threats humanity has ever faced,"* he said.

*"To secure our future, we need to evolve our economic models"*, and so in Davos, H.R.H. launched his Sustainable Markets initiative.

"Sustainable Development" is a fancy term for slavery. Although there are many laudable goals and desirable aspects, an ordering of the world through the Sustainable Development, it is really a way to control humanity down to the simplest of routines. As positive sounding as it seems, it is not even original as it was a pipe-dream of ancient Aristotle. The history of the concept of sustainability is however much older. Already in 400 B.C., Aristotle referred to a Greek concept in talking about household economics.

The first time the term 'sustainable' was used "in the modern sense" was as part of the Club of Rome, in 1972. It was the Club of Rome who began its exploration to find their '*Silent Weapons for Quiet Wars*'. We know from this year's release of Klaus Schwab's books, sustainable development will involve humans being "Microchipped", and using the "cashless" society to conduct commerce and business transactions. It will be controlled through the platform of the 'Vaccine Passport', **that no one will not be able to buy, sell, travel, hold a job, go to school, unless they receive government vaccines such as what is being rolled out in December, 2020.** Qantas Airlines of Australia said they will require the Vaccine Passport to travel, and furthermore, all airlines will institute the mandated Vaccine Passport, which incorporates the Bill Gates QUANTUM DOT/HYDROGEL ID2020.

CommonPass1 is a digital "health passport" framework initiated by The Commons Project, the World Economic Forum and The Rockefeller Foundation, which during the first week of July 2020 convened more than 350 leaders from the public and private sectors in 52 countries to design a common framework "for safe border reopening" around the world. The proposed framework involves the following:

Every nation must publish their health screening criteria for entry into the country using a standard format on a common framework

Each country must register trusted facilities that conduct COVID-19 lab testing for foreign travel and administer vaccines listed in the CommonPass registry

Each country will accept health screening status from foreign visitors through apps and services built on the CommonPass framework

Patient identification is to be collected at the time of sample collection and/or vaccination using an international standard

The CommonPass framework will be integrated into flight and hotel reservation and check-in processes at airports and hotels as well.

Eventually, the CommonPass framework will be integrated with already existing personal health apps such as Apple Health and CommonHealth. If you want to travel, your personal health record will be evaluated and compared to a country's entry requirements, and if you don't meet them, you'll be directed to an approved testing and vaccination location. This is "Mark" of the Beast on steroids!

A screen grab from the videos on CommonPass illustrates the general idea of how this will all work. When you get your test result or vaccine, that data is uploaded to an app on your cellphone. The app generates a barcode (like that on a can of corn) that is then scanned at the airport, at hotel check-in and wherever else vaccine status verification is deemed necessary.

This is without question, "Mark" of the Beast technology. You have to be blind as a bat to not see where this is headed. Absence of the "health passport" will virtually restrict one's freedom to do any of the things noted in Revelation 13:17-18. The barcode is but one step removed from the physical implant of a microchip. I have written 14 chapters on "666, 5G, and the UPC Code. The most recent segments were parts 12, 13, &14, written on are also related to the "Microchip" is integrated into the World Economic Forum agenda. I have done 5 parts to **"The Global Economic Reset Marks the Beginning of the Great Tribulation"** which is to begin in 2021!

If the legal battles were not enough to keep you on the edge of your seat, then the assassination of Iran's nuclear program should get your attention. Iran's supreme leader on Saturday demanded the "definitive punishment" of those behind the killing of a scientist who led Tehran's nuclear weapons program, as the Islamic Republic blamed Israel for a slaying that has raised fears of reignited tensions across the Middle East.

After years of being in the shadows, the image of Mohsen Fakhrizadeh suddenly was seen everywhere in Iranian media, as his widow spoke on state television and officials publicly demanded revenge on Israel for the scientist's slaying.

Israel, long suspected of killing Iranian scientists a decade ago amid earlier tensions over Tehran's nuclear program, has yet to comment on Fakhrizadeh's killing Friday. However, the attack bore the hallmarks of a carefully planned, military-style ambush, the likes of which Israel has been accused of conducting before.

The attack has renewed fears of Iran striking back against the U.S., Israel's closest ally, as it did earlier this year when a U.S. drone strike killed a top Iranian general. The U.S. military acknowledged moving an aircraft carrier back into the region, while an Iranian lawmaker suggested throwing out U.N. nuclear inspectors in response to the killing.

Iran's Supreme Leader Ayatollah Ali Khamenei called Fakhrizadeh *"the country's prominent and distinguished nuclear and defensive scientist."* Khamenei, who has the final say on all matters of state, said Iran's first priority after the killing was the *"definitive punishment of the perpetrators and those who ordered it."*

He did not elaborate. Speaking earlier Saturday, President Hassan Rouhani blamed Israel for the killing.

*"We will respond to the assassination of martyr Fakhrizadeh in a proper time," Rouhani said. "The Iranian nation is smarter than falling into the trap of the Zionists. They are thinking to create chaos."*

Both Rouhani and Khamenei said that Fakhrizadeh's death would not stop the nuclear program. Iran's atomic ambitions have continued and it now enriches a growing uranium stockpile up to 4.5% purity in violation of the nuclear deal after the U.S.' 2018 withdrawal from the accord.

Experts warn Iran now has enough low-enriched uranium for at least two atomic bombs if it chose to pursue them. I believe this is under-estimated. Going back at least fifteen years, it was revealed that North Korea had sold nuclear weapons to Iran.

Analysts have compared Fakhrizadeh to being on par with Robert Oppenheimer, the scientist who led America's Manhattan Project in World War II that created the atom bomb. Fakhrizadeh headed Iran's AMAD program, a military operation designed to build a nuclear weapon.

Fakhrizadeh's widow appeared unnamed on state television in a black chador, saying his death would spark a thousand others to take up his work. *"He wanted to get martyred and his wish came true,"* she said.

Iranian media has begun circulating memorial images showing Fakhrizadeh standing alongside a machine-gun-cradling likeness of Revolutionary Guard Gen. Qassem Soleimani, whom the U.S. killed in the January drone strike. To be a nuclear scientist in Iran is to be in danger. During the past decade, up to this week, at least four had been killed in vehicle bombings and shootouts, and several others have been targeted but survived.

Terrified that Donald Trump could launch a new Middle East war, Iran dispatched one of its top generals to Baghdad last week to order allied Iraqi factions to cease all attacks until Joe Biden is in the White House, paramilitary commanders told Middle East Eye.

Arriving 24 hours after a barrage of rockets targeted the US embassy in Baghdad's Green Zone, Brigadier General Esmail Qaani was explicit in his instructions to paramilitary leaders on Wednesday.

Qaani made it clear that *“Trump wants to drag the region into an open war before leaving, to take revenge on his opponents over losing the election, and it is not in our interest to give him any justification to start such a war,”* a senior commander of a Shia armed faction, who was among those briefed about what was said at the meeting, told MEE.

With the United States doubling its troop presence in the Gulf, and Israeli normalization deals with the UAE and Bahrain bringing Iran’s archenemy to its doorstep, Tehran is beginning to feel boxed in. Meanwhile, an always temperamental president has become even more unpredictable, with Iranian leaders believing Trump, smarting from this month’s election loss, could lash out at Iran before his term ends on 20 January.

Iran’s armed proxies in Iraq have for months rained rockets down on U.S. targets in the country. Though not particularly deadly, they have been provocative and destabilizing.

Hours after the attack, the Pentagon announced it had brought the USS Nimitz aircraft carrier back into the Middle East, an unusual move as the carrier already spent months in the region. It cited the drawdown of U.S. forces in Afghanistan and Iraq as the reason for the decision, saying *“it was prudent to have additional defensive capabilities in the region to meet any contingency.”*

Iran has conducted attacks targeting Israeli interests abroad over the killing of its scientists, like in the case of the three Iranians recently freed in Thailand in exchange for a detained British-Australian academic.

The week before Thanksgiving the U.S. Air Force deployed a number of B-52H and B2 heavy bombers to bases in the Middle East and to Diego Garcia in the Indian Ocean, and rumors are circulating that the U.S. might be preparing to give Israel a Hanukkah gift (December 10<sup>th</sup> to 18<sup>th</sup>) and nuke Tehran, as an outgoing President delivers on a promise to the House of Rothschild that Iran’s national bank will become a Rothschild central bank along with the 189 countries having a Rothschild central bank.

The Senate version of the Israeli defense bill contains the provisions of the United States-Israel Security Assistance Authorization Act of 2020, originally a separate bill which was tacked onto the NDAA in July. This bill would codify into law the Obama administration’s pledge of \$3.8 billion per year in weapons to Israel. Additionally, it would set this level of assistance to Israel as a floor, not as a ceiling. The bill promises Israel “not less than” \$3.3 billion per year in weapons grants in addition to \$500 million in missile defense projects.

This bill would enable Congress to appropriate weapons to Israel at a level beyond that envisioned by the Obama administration’s memorandum of understanding. The bill also contains a long wish list of other provisions for Israel, including most crucially a five-year extension of Pentagon authorization to stockpile weapons in the country. This stockpile can be accessed by Israel in an emergency to quickly augment U.S. weapons already in its arsenal.

The Senate version also calls for the Pentagon to “expedite deliveries of precision-guided munitions to Israel.”

Although the House version of the bill does not contain these significant new provisions for Israel, there is strong reason to believe that the final version of the NDAA that will be sent to the president will look more like the bloated Senate version.

That is because the speaker of the house, Nancy Pelosi, appointed three conferees with impeccable pro-Israel credentials to iron out the differences with the Senate on provisions under the jurisdiction of the Foreign Affairs Committee.

U.S., Saudi Arabia and Israel are ready for war with Iran and “covert operations” against Tehran have been going on all year but an attack may cause a larger conflict which could usher in the Ezekiel 38 prophecy which bodes not well for the US, Israel, the Saudi's and the UK.

Anti-aircraft guns guarding Natanz nuclear facility,

Israel and Saudi Arabia see the next two months as the last chance they will have to knock out Iran's nuclear capability and its plans to be the dominant power in the Middle East.

The United States earlier this week deployed several nuclear-capable heavy bombers to the Middle East in an apparent threat to Iran, amid swirling speculation that U.S. President Donald Trump plans to take military action against Tehran before leaving

office in January 2021. The bombers were seen flying in Israeli airspace. Yesterday, The *'Times'* of Israel reported, Israel Defence Force, IDF was preparing in case Trump launches parting strike on Iran Israeli officials believe the final weeks of the Trump administration will be 'very sensitive' for the region, though there is no specific intel on looming U.S. attack on nuclear facilities.

A report Wednesday claimed that the Israeli army has been preparing for the possibility that U.S. President Donald Trump will order a strike on Iran before leaving office in January. However, the Israelis are said to be worried the Israel Defence Forces would not have enough time to prepare for possible retaliation targeting Israel, including Iran's proxies in Lebanon and Syria.

Israel will not allow Iran to have nuclear weapons. *"Until now, Israel did not have to lead the fight against Iran because the leader of the free world did that,"* Likud minister Tzachi Hanegbi said on Wednesday morning, in an interview with Army Radio. *"If the U.S. goes back to the nuclear deal, Israel will be left to make decisions alone. Prime Minister Benjamin Netanyahu, in an apparent message to Biden and his team, warned on Sunday against re-engaging with Iran on the 2015 nuclear deal. "We will not allow Iran to get nuclear weapons,"* Netanyahu said at an annual memorial event for Israel's first Prime Minister, David Ben-Gurion.

According to Axios News, Israeli minister of defence Benny Gantz spoke twice in the last two weeks with Christopher Miller, Trump's acting defence secretary. They discussed Iran as well as Syria and defence cooperation. Last Sunday, Israeli Prime Minister Benjamin Netanyahu met in Saudi Arabia with Crown Prince Mohammed Bin Salman. One of the main issues discussed was Iran, Israeli officials say. Pompeo visited Israel and several Gulf countries last week to discuss Iran. State Department officials travelling with Pompeo told reporters *"all options are on the table."* While Mike Pompeo was in the Gulf, U.S. Central Command announced that B-52 strategic bombers conducted a "short-notice, long-range mission into the Middle East to deter aggression and reassure U.S. partners and allies."

That was seen as another signal to Iran. Hossein Dehghan, an adviser to Iran's leader and a possible candidate in Iran's upcoming presidential elections, told AP last week that a U.S. military strike against Iran could set off a *"full-fledged war"* in the Middle East. Russia Today reported, just days after Israel's Channel 13 similarly stated that both Washington and Tel Aviv plan to step up "covert operations" against Tehran in the final days of Trump's term, though the broadcaster offered no details on what shape that could take. The *'New York Times'*, meanwhile, reported earlier this month that Trump had recently "sought options" for a strike on Iran's nuclear capabilities – which it said would *"almost certainly be focused on Natanz,"* the country's primary uranium enrichment site. But the president was reportedly "dissuaded" from an attack by advisers, who warned it might kick off a bloody regional conflict. It is unclear if they have returned to the idea since. Nonetheless, Iranian officials reacted to the Times report vowing a "crushing response" to any US strike.

Washington and Tel Aviv plan to step up “covert operations” against Tehran in the final days of Trump’s term. Though Trump has so far managed to avoid an outright war with Iran, open fighting may have only been narrowly averted after the January assassination of Qassem Soleimani, a beloved Iranian general who led the country’s elite Quds Force. Iran responded to the kill strike with a barrage of rockets on Iraqi bases housing US troops – though besides humiliation no serious injuries were inflicted in the reprisal since Tehran apparently passed an advance warning to Baghdad, giving Americans enough time to seek shelter. Iran has been under attack all year long.

A chlorine gas leak at a petrochemical centre in southeast Iran sickened 70 workers, state-run IRNA news agency reported in July. Most of the workers at the Karun petrochemical centre in the city of Mahshahr in southeast Khuzestan province were released after undergoing medical treatment. In the city of Ahvaz, also in Khuzestan, a fire at the Zergan power plant was ignited when a transformer exploded. The blaze was contained by firefighters after two hours of battling the blaze. Mohammad Hafezi, the power plant’s health and safety manager, told IRNA the cause of the fire was under investigation.

The two incidents in Iran’s oil-rich Khuzestan come after a fire and explosion at a centrifuge production plant above Iran’s underground Natanz nuclear enrichment facility earlier in the year. Officials said the cause of that fire at Natanz was known to officials, but the information wasn’t released for “security reasons.” An explosion from a gas leak in a medical clinic in northern Tehran killed 19 people.

Was it sabotage or simply bad luck? Iran has suffered a chain of catastrophes all year long. Earlier this year three mysterious explosions at the Iranian Natanz nuclear facility in Iran led to many questions. A former official suggested the incident could have been an attempt to sabotage work at the plant, which has been involved in activities that breach an international nuclear deal. Israeli F-35 stealth fighter jets bombed a site located in the area of Parchin, which is believed to house a missile production complex — an area of particular concern for the Jewish state, in light of the large number and increasing sophistication of missiles and rockets in the arsenals of Iranian proxies, notably Lebanon’s Hezbollah. In June fighter jets from the IAF’s second F-35 squadron, the ‘Lions of the South’ flew over southern Israel (IDF spokesperson). Neither of these claims was confirmed by Israeli officials, who have been mum on the reports.

Nineteen people were killed by a gas leak. On June 26, an explosion occurred east of Tehran near the Parchin military and weapons development base that the authorities said was caused by a leak in a gas storage facility in an area outside the base. The reported Israeli strikes followed an alleged Iranian attempt to hack into Israel’s water infrastructure in April, an effort that was thwarted by Israeli cyber defences, but if successful could have introduced dangerous levels of chlorine into the Israeli water supply and otherwise seriously interrupted the flow of water throughout the country according to the Times of Israel. Coincidences one might suggest but really you and I know who carries out these attacks!

Security sources have said that Iran would retaliate if it becomes clear that Israel, or the United States, have been behind any attempt targeting Iran's nuclear sites. An article by 'Nour News' said media reports crediting Israel for an alleged cyber-attack targeting Iran's Natanz nuclear facility mean that the regime itself would be posed to similar threats. The article, which had no by-line, said the international community should be more concerned about cyber sabotage attempts targeting Iran's nuclear facilities as they could lead to nuclear leaks with environmental ramifications of unknown magnitude. It added, however, that despite Israel's policy of keeping silent on sabotage acts targeting Iran's nuclear sites, such moves are ultimately attributed to the regime given its long records of hostility towards Iran and its peaceful nuclear activities.

It has been a lousy year for the Iranian government. Just three days into 2020, Major General Qassem Soleimani, the commander of the Quds Force of Iran's Islamic Revolution Guards Corps (IRGC), and Abu Mahdi al-Muhandis, the second-in-command of Iraq's Popular Mobilization Units (PMU), were killed in US airstrikes in the Iraqi capital Baghdad.

Iran's administration called the attack an act of international terrorism and vowed an act of 'vigorous revenge,' however, the vigorous revenge went drastically wrong when a Ukrainian 737 with 170 people on board was shot down by nervous Iranian defences in the aftermath of the attacks.

The strikes were codenamed Operation Martyr Soleimani - in retaliation for the killing of Iranian General Qasem Soleimani in a US air raid last week. The Iranian administration then spread misinformation following the crash of a Ukrainian passenger plane near, claiming the 737 had crashed due to engine failure which caused anti-government protests which resulted in the deaths of many innocent Iranian people.

The events during the Thanksgiving week have added immensely to the unsettled waters. If you thought it was quiet the past few weeks it's like a former member of a

church I pastored here in KY would say, *“If you don’t like the weather, wait a few hours as it will change!”*

All of a sudden we are watching the prelude to the Ezekiel 38 scenario. Just image what it will be like once we are gone. Here is my list of events during the next seven years. I am not saying this is the precise order of fulfillment. I am not saying that it is all-inclusive either. I have a list of Bible points that I can define on a time line. This list has been in a file that I keep and maintain as a big picture overview of the 2,520 days that defines the Seventy Weeks of Daniel! You might have a different perspective than mine. My list is not set in stone, but for frequent review and reflection predicated upon the global scene of Bible prophecy.

1. The Rapture of the Church -(1<sup>st</sup> Thessalonians 4:13-18; 1<sup>st</sup> Corinthians 15:51-58; 2<sup>nd</sup> Thessalonians 2:1-12; John 14:1-3).

39. His everlasting reign of Jesus Christ over the New Heaven and New Earth –(Revelation 21).

But most definitively, the scamdemic of Covid-19 launched a year ago, simultaneously with the roll out of 5G globally are interconnected. The scamdemic is a cover story to hide the full implementing of global 5G as a weapons system for the Antichrist system. The virus has kept the world distracted and off-balance in understanding the elite plan. Money, currency, paper or coin is on the way out as we transition to the “Cashless” society and the introduction of the “Mark” of the Beast.

There is no question that the clock is winding down to the climax of human reign and rule over the earth. This has been a spiritual war since Satan deceived Eve and Adam basically said, I am with you honey, and participated in the only thing that God had told them not to do. It is very important that you do not fall into the trap of the satanic minions carrying out the agenda to claim your DNA for his purpose. What greater achievement could Satan have than to steal your God-given DNA. That hard reality hit me several years ago when I learned that our DNA could be change or modified.

Since the summer of 1996, I have watched the skies being sprayed with those Chemtrails and wondering who and why they were doing it. We have been breathing in an invisible mix that has made us all into an antenna receiver. The government had many answers, called it "Project Cloverleaf", etc. Never in my wildest imagination did I think for once that we were being poisoned with a bioweapon. That bioweapon was engineered seventy-five years ago to "Depopulate" an adversary, which in this case are you and I.

This weapon "Silent Weapon for Quiet Wars" is the smallest living organism, a bacteria invisible to the human eye, only visible in an Electron Microscope at a magnification of 80,000 times. But what is even more profound is that this bacteria was weaponized by our U.S. government in the 1940's. It is the key element in decades of spraying and we all have it in our body. It is just awaiting its activation!

Klaus Schwab said in his newly released book on 'The Aftermath of the COVID-19 Pandemic' "caused havoc in the health and economic welfare of consumers as markets were disrupted. Consumers did not always have access to essential goods and services and the vulnerable and disadvantaged consumers were affected even harder. Several consumers have been the prey of unfair business practices. At the same time, the pandemic has fueled a digital surge. The digital economy has brought the largest opportunities to consumers amid the COVID-19 crisis. Electronic commerce of goods and services is booming as consumers increasingly rely on digital platforms for online

shopping, virtual meetings, and educational purposes. Online information campaigns are the fastest and most efficient means of reaching out to millions of consumers. Dispute resolution for consumers is swiftly transiting towards digital means. However, the digital economy is also a source of some of the greatest challenges to consumers in the wake of the COVID-19 crisis. Challenges include the proliferation of price gouging for medical equipment, such as masks and hand sanitizers, but also basic consumer goods; the rise of misleading and deceptive online marketing techniques exploiting consumers by falsely claiming that a product can prevent or cure an infection of the virus; and other scams such as financial fraud and fishing schemes. Moreover, the digital divide increased the gap between vulnerable and disadvantaged consumers. Individuals, families and businesses suffered the menace of covid threat. Didn't you?. If you did then follow me lets take a journey to all the happenings.” Klaus Schwab is sounding more like Nazi Adolph Hitler with each passing day.

There never was a pandemic, in the traditional sense of the word. The WHO changed its reporting requirements years ago. To be called a pandemic, all one has to have is three countries with at least one person each to have the same symptoms. Klaus Schwab believes the common man on the street is stupid. He has been a proliferate writer and published his book, 'Covid-19: The Great Reset' in July, 2020. Covid-19 has been the single magic bullet to bring down the global economy. Through fear, propaganda, and politics, humanity is being deceived into surrendering their human rights in the name of public health.

Viruses do NOT exist. This fact has been known by many qualified scientists, biologists and MDs for many years. Owing to peer pressure, this very important fact of how diseases are caused, laid hidden under wraps for many decades. Until recently, the public has been misled to this point in order to promote the business of selling vaccines.

The CDC is a “for profit” company, and hold patents on 27 different vaccines that earns them \$6-billion in profits every year. The word 'VIRUS' originates from Latin. It means "POISON". Diseases are caused by POISONS. These poisons are bacteria, fungus, mold, and are also found in unclean water, food, air, environmental pollution, chemicals, toxic heavy metals, wireless energy, and other pathogens found in Chemtrail spraying. Drs. Fauci, Redfield, Birx, and Bill Gates are guilty of Voodoo science. **SHOW ME THE PROOF BASED UPON THE “GOLD” STANDARD OF THE KOCH POSTULATES! THESE FRAUDS ARE CONVICTED BY THE STANDARDS ESTABLISHED OVER A CENTURY AGO!**

The globalists want to cause as much chaos and create a dystopic psychological mindset in which everything is unpleasant or bad, Even Rockefeller Plaza has a crappy looking Christmas tree, sort of resembling something you would find on Charlie Brown. 300,000 people have moved out of New York City since the governor and mayor of New York went crazy over their lock down of the citizens of New York. They are in on the elite scam, which will ultimately track back to Pope Francis.

What's my point? You are seeing the onslaught of what the Bible alludes to in the Daniel 9:27 passage of the Bible. ***“And he shall confirm the covenant with many for one week: and in the midst of the week he shall cause the sacrifice and the oblation to cease, and for the overspreading of abominations he shall make it desolate, even until the consummation, and that determined shall be poured upon***

***the desolate.***” Behind all the captains of industry, politics, academia, many in the military, and the elite of the world lays the man who is known for his “Sustainable Development scheme, Prince Charles of Wales. This is what I call a virus:

•Of course, we can also say you're personally more likely to select a random 1/2,000<sup>th</sup> of a second from all Earth's existence over 4.5 billion years than Biden's spike not being a hoax.

Many blessings are yours in His Name, In all of this confusion the world is being subjected through psyops and lies, we are definitely on the cusp of what I know will be our deliverance from the Judgment of God, to begin as we are Taken by Force from this evil world!

Keep the faith and be empowered in His Name,
