

# The Blessed Hope!

**“Looking for that blessed hope, and the glorious appearing of the great God and our Saviour Jesus Christ;” –(Titus 2:13)**

*Diamond & Nugget #78*

Many of you are about to miss the Rapture because you are not watching the signs. For many your perception of life around you seems to be tenuous these days and that is not due to your imagination. This past week our fake President went to the shame to do a photo-op fake getting the so-called “booster vaccine” on a faked White House stage set with all the trappings of what were made to appear to be inside the White House.

A fake president getting his fake booster shot in front of a fake media photo-op on a fake White House sound set at some film set somewhere among the legions of leeches leading the sheeple to the slaughter! Look closely at all the details in this photo taken by a spy! Even the White House press corps was part of the scam or taken in by the faked event.

Check out some of the photos from the scene, revealing it was all staged with fake windows and everything, even a microphone behind the fake president.

This is really an End Times comedy hour, given all the insanity that it covers. One of the big stories is how NY Governor Hochul is now claiming God created vaccines and wants everybody to be injected with them. Those who don't take vaccines aren't listening to God, claims the obviously Satan-infested witch posing as governor.

But the hilarity doesn't end there, of course. Fake president Biden recently received a fake vaccine booster shot while sitting on a sound stage with a fake Oval Office set constructed behind him, begging the question: Why do they need to fake the White House for a fake vaccine booster photo op to help push a fake pandemic? I saw the video of this bit of chicanery and the female Major, as Joe Biden called her, did not even have a vile of the vaccine in her hands, just the syringe. That is a no no as the syringe is never pre-loaded before administering an injection.

It begs the question: If Joe Biden (is that even him?) really has access to the White House, why would they have to build a fake one to stage more vaccine propaganda? I raise the question of the man doubling from Joe Biden is not the president but is a doppelganger (double or impersonator). In the case of Joe Biden, there are lots of

pictures of him when he was the senior senator from Delaware, and the real Joe Biden is seen on the left side of the picture. Who is the double on the right side of the picture?

**Note the earlobes on the video...**they dangle. And for some odd reason Biden's earlobes now connect directly to his neck. Do with that information what you will.

Several times over the past year, observant individuals spotted that this was not Joe Biden but a groomed doppelganger. Both the picture above and the larger picture on the next page reveal that an important physical feature about this stand-in that reveals he is a fake.

We have learned that this stand-in of Joe Biden has been faking the role of the Chief Executive Officer of the U.S.A. since February, 2021. David Zublick of 'The Dark Out Post' web site revealed the imposter's name on his September 24<sup>th</sup> program. The doppelganger is an 83-year old bit-part (c-list) actor by the name of Arthur Roberts. In the photo below Boris Johnston, blew the cover by asking, A theatrically masked Boris Johnson, our source said, discretely muted his microphone and spoke softly in Roberts' direction, asking, "*You're not Joe Biden. Who the bloody hell are you?*" He added that a bewildered Johnson later asked Psaki "*what the hell just happened,*" and was told to forget the entire incident, unless the UK wanted to lose all U.S. support.

Above: UK Boris Johnson with the Biden double last week.

The 83-year old doppelganger, Arthur Roberts playing a fake President!

The real Joseph R. Biden has not been seen in public since shortly after the 2020 presidential election. The reason is that, in early February, he suffered a massive stroke that left him brain dead and hospitalized at Walter Reed National Military Medical Center, where he has lain comatose ever since. Biden's Deep State handlers had high hopes for Kamala Harris, and had intended that she would succeed him, but it soon became apparent that she lacked fortitude and the mental acuity needed to coalesce the liberal base. Much to her chagrin, she was put on the backburner while the Deep State sought body double replacements that could play a convincing Joe Biden.

How long can this ruse be perpetuated to fool members of our government, the public, or the world. With access to the Internet, it might bring down the country, and the dollar. The Senate approved a stop-gap measure this week to keep the government in cash, at least until mid-December. People are waking up in other areas that have ominous signs of a collapsing empire. Empty shelves at stores are found all over the country, and this Christmas season will leave a lean holiday for the little ones.

Shortages are hitting the shelves across the world from the ongoing Covid-19 scandal scamdemic. China is being faced with rationing electricity, and that is bound to hurt production of products destined to the shelves of Walmart's and Costco in the U.S.

Global supply chains are currently in a state of absolute chaos. Every time things seem to be getting back on track, a new disruption emerges and pushes the entire system to the brink of a collapse. Even the mainstream media is extremely alarmed about the worsening of this crisis. Widespread shortages are being reported all across the country, but the situation may escalate to a whole new level over the coming weeks as millions of supply chain workers are threatening to quit their jobs.

Over the past 18 months, seafarers, truck drivers, and airline workers have dealt with strict travel restrictions, testing requirements, and a crew change crisis that left nearly a million workers stuck at sea for almost a year. After so many challenges, millions of them are reaching their breaking point and planning to quit the workforce, posing yet another risk to congested ports, container vessels, and trucking companies. Last week, the International Chamber of Shipping sent a letter to heads of state attending the United Nations General Assembly warning of a "global transport system collapse" if governments do not lift movement restrictions to transport workers and give them priority to get vaccines so that they can travel freely around the world.

*"Global supply chains are beginning to buckle as two years' worth of strain on transport workers take their toll,"* the groups wrote. The letter was signed by several groups, including the International Air Transport Association, the International Road Transport Union, and the International Transport Workers' Federation. Together they represent 65 million transport workers globally. *"All transport sectors are also seeing a shortage of workers, and expect more to leave as a result of the poor treatment millions have faced during the sanitary outbreak, putting the supply chain under greater threat,"* it added.

At this moment, the situation is looking particularly dire at our ports. Dozens of cargo ships are arriving every day and having to wait for days to finally get unloaded. In the Ports of Los Angeles and Long Beach, at least 75 cargo ships are carrying an estimated 500,000 containers and no one seems to know what to do and how to handle the unprecedented backlog given that there are not enough dockworkers to empty all of those containers. Never in history, had U.S. ports faced such acute congestion. To make things worse, the container backlog on the other side of the world is even bigger. In China, at least 154 container ships full of import cargo are stuck offshore waiting to unload and refill containers with export goods in Shanghai and Ningbo ports, according to eeSea, a company that analyzes carrier schedules. All across the country, a total of 242 container ships are waiting for berths.

Congestion in Chinese ports means that the flow of exports to U.S. importers is significantly constrained. This comes as retailers struggle to restock their inventories before the busy holiday shopping season. Waiting times are more than doubling and shipping delays have become the norm. As this crisis aggravates, we're now being told that this holiday season is going to be a turbulent one. *"Retailers are sounding the alarm on the upcoming holiday shopping season due to serious supply chain issues that are slowing shipments of manufactured goods around the world,"* CBS reported., adding that: *"chaos theory in its simplest form says if a butterfly flaps its wings in China, it means rain in Central Park. Well, that applies not just to weather, but supply chains as well, and in the Bay Area, it will impact everything from computer parts for your car to the gifts and toys on your holiday shopping list"*.

So if you really want to get something for the coming season, you should probably place your order right now, because there's a huge chance that it will not be available later. According to the Chamber of Commerce, the delivery delays are only going to get worse from now on. At the grocery store, soaring food prices have been absolutely devastating for working-poor families who allocate a high percentage of their incomes to basic and essential items.

While many Americans are still relying on the false idea that widespread shortages will never become a reality in the world's most prosperous nation, soon enough they will notice that extensive shortages are already here and they will persist for months. The unprepared are usually the ones that end up becoming panic buyers. And once they realize that our leaders won't come up with some sort of quick fix to this crisis, our entire system will be shaken to the core. As the blind lead the blind, our country heads to yet another critical season while most people remain unaware of the looming threats.

There is the Evergrande real estate debacle in China which missed its second month interest payments on \$300-billion debt, and \$100-billion in current bills unpaid. The ramifications of Evergrande are intimately a factor in the collapse of the derivatives market which is \$2.4 Quadrillion. A Quadrillion is 1,000,000,000,000,000 with 15 zeros behind it. The economic world has been for a few decades or longer a house of cards. We are running out of roadway or runway! The issue with Evergrande is in the next

three largest Chinese real estate development operations below Evergrande. They too are vulnerable to crashing with exponential impact. We are always hearing about the U.S. National Debt as the problem, yet China is three times as dangerous in potential collapse as we are. The CCP controls the Chinese economy and all up and down the line is a series of corrupt levels of managers feeding at the trough of bribes, kickbacks, embezzlement.

Another 400,000 immigrants are expected to crash the Southern border in October. That is on top a million that have invaded the country over the past year since the stolen 2020 election. Upwards of 20,000 Haitians have crossed the Rio Grande and spread out into the interior of the country. The invading immigrants are largely overwhelming their screening for health issues as was the case of what the U.S. military brought out of Afghanistan.

Things seem to grow worse by the day around the world and as crisis after crisis are like ocean waves crashing on the shore, leadership are so perplexed we are reaching the point where the world will call for a strong leader to solve all the problems. With a brain-dead Joe Biden, everything is up for grabs. We hear that former President Obama is orchestrating events from his 8,500 sq.-ft. home twenty-minutes in the nearby upscale D.C. Kalorama neighborhood.

Israel struck at a facility inside of Iran this past week that was reported as a nuclear plant of some sort. Israeli defense leaders are ready to strike Iran, awaiting the decision of Naftali Bennett to strike. *"The war with Israel has already started,"* Iranian Foreign Ministry spokesman Saeed Khatibzadeh told Israel's Maariv newspaper on Thursday. The Iranian was in Normandy where he also addressed the World Peace Forum.

*"Israel has carried out attacks that were intended to destroy our nuclear program for peaceful purposes. It murdered nuclear scientists and harmed the Iranian people. Iran is accused of terrorism, but there is no good or bad terrorist. The whole crisis in the region is Israel's fault,"* Khatibzadeh said to Maariv.

The spokesman also accused Israel of doing everything it could to foil a nuclear agreement between Iran and the West while claiming the U.S. was deliberately withholding from Iran needed medicines.

Asked if a nuclear agreement would prevent Israel from launching an attack, Khatibzadeh said, *"Israel has severely damaged our research and civilian system. There is talk of an Iranian nuclear threat, but Israel has hundreds of bombs, and it has never signed the Non-Proliferation Treaty."*

Iran recently held a provocative military exercise near its 430-mile border with Azerbaijan due to what Tehran called a *"Zionist presence"* there.

Recently, Biden or his double invoked the Satanic Number **666** as the “Winter of Doom” races towards America.

A foreboding new Russian Security Council report circulating in the Kremlin first noting President Putin ordering the government to decide whether it is viable to limit the spending of the National Wealth Fund (NWF) in view of expected lower oil and natural gas revenues due to the energy transition in the coming decades from the West, who are transitioning their energy needs to renewables, like solar and wind, says currently bolstering the NWF, that's dedicated to support the pension system of the Russian Federation to guarantee long-term sound functioning of the system, are skyrocketing natural gas prices that daily keep hitting new record highs—because of European consumers having just requested an increase in steam coal suppliers on the back of record-breaking gas prices, and Russian coal producers are ready to boost sales for the region—and in response to Russian Railways now reporting: “Infrastructural capabilities of Russian Railways will make it possible to support extra coal export in the western direction if needed...Concerning the railcar fleet, its pool as estimated by Russian Railways is also sufficient for a significant increase in carriage”.

Further important to note, this report says, was Russian energy giant Gazprom reporting yesterday: “Deliveries of Russian natural gas to Hungary and Croatia have started today along the new route - over the TurkStream gas pipeline and downstream using national gas transport systems of Bulgaria, Serbia and Hungary” - that was followed by Ukraine reporting that it has lost the ability to import natural gas from Hungary through the so-called virtual reverse due to terminating the transit of Russian natural gas through the Ukrainian territory to Hungary - is a “reverse flow” scheme forced on the European Union nearly a decade ago by the socialist Obama-Biden Regime, that sees Russian natural gas deliveries bound for Europe first entering Ukraine at two points: Drozdovichy, on the Polish border, and Berehove, on the frontier with Hungary - after which Ukraine pumps Russian natural gas back to Europe using the same pipelines, though charging exorbitant fees - a socialist scheme so nonsensical it caused the European Union nation of Hungary to sign its own deal for Russian natural gas, with its President Viktor Orban pointing out that his countrymen would be forced to pay more money for gas without the new deal, and him noting that he was only concerned with the views of his country's voters, not the geopolitical aims of Ukraine - that was followed by Ukraine demanding that the European Union and United States place sanctions of Russia for making this deal with Hungary - an absurd sanctions demand countered by CEO Yuri Vitrenko of Naftogaz of Ukraine, who factually stated: *“Gazprom halted gas transit to Hungary via Ukraine...And this is despite booked transit capacity...Gazprom has this right under the contract not to supply gas for transit for the booked capacity but pay for such capacity at the same time”* - after which Ukraine then began lobbying for the West to prevent Russia's new Nord Stream 2 pipeline, which bypasses Ukraine, from starting up - lobbying that was quickly replied to by German utility Uniper, that's part of the group of Western companies supporting Nord Stream 2, which said it does not expect the pipeline to help ease the tight global gas market this winter as an operating license is unlikely to come quickly, and whose Chief Executive Klaus-Dieter

Mauchbach exactly stated: *“The certification of the pipeline, as far as I know, will be so late it will probably not be able to help us out this winter”*.

To fully understand this growing global energy crisis, this report explains, one first needs to know it's entirely caused by American companies like Apple and Tesla, who while spouting their green energy woke propaganda know full well that their products can't be made without they call is the world's dirtiest commodity coal, which is why their massive manufacturing plants are kept out of sight in the People's Republic of China - a China whose President Xi Jinping pledged at the United Nations General Assembly this past week to halt the construction of coal-fired power plants abroad - after this pledge was made saw it being factually reported: “While Xi is making grandiose pronouncements about a ‘green revolution’ - the backdrop is that in the first half of 2020, China approved 23 gigawatts-worth of new coal power projects, which is more than the previous two years combined...and China's coal surge will most likely destroy the market for renewables within the country” - a so-called ‘green revolution’ in China that new analysis shows would see them having to shutter 600 power plants using coal to meet its emissions goal - are coal powered plants impossible to shut down as over half of the provinces in China are now rationing electricity, and whose governors are demanding more coal imports to resolve this crisis - is an energy crisis of historic magnitude that in September, it caused China to buy up a significant portion of global LNG shipments, sparking gas shortages in Europe, which among other things contributed to local prices soaring to record highs – both for electricity and natural gas itself - and because of long-standing energy contract obligations, China is buying record amounts of Russian coal and natural gas to further explode their prices on global markets.

As this global energy crisis races towards the United States to deliver a *“winter of doom”* of exploding heating costs its citizens will be crushed by, this report continues, the insane energy policies of Supreme Socialist Leader fake Joe Biden's handlers have just caused the developers of the critically needed PennEast pipeline to deliver natural gas to the energy starved States of the Northeast to scrap their project - that's now joined by reports that coal production in the United States have plummeted to levels not seen since 1965 - in preparing for this crises yesterday saw the United States Postal Service stunningly announcing that for the first time in their history it has begun slowing down the delivery of mail - sees the energy crisis in China now causing a breakdown of the microchip supply chain in America - a supply chain breakdown that is now leaving American home appliance makers unable to meet demand, and it being warned U.S. auto sales are set to plummet.

The *‘Liberty Beacon’* focused on how those energy ‘Shortages’ are playing out in globalist Europe. The short of all this issue on energy supply is really all about control and reducing agricultural output of EU farmers. This agenda is well underway in the U.S. with the likes of Microsoft Bill Gates buying up thousands of acres of prime farm and grazing land across the U.S for beef.

*“Who Controls the Food Supply Controls the People”* This is to serve warning that what ‘the authorities’ are planning for us in the very near future is a ‘Great Reset’ of what we are accustomed to eating at our daily meals.

*“We’re running a twofer from Zerohedge re. the **Netherlands and France and the energy crunch**. We warn against Zerohedge’s MSM feel on these kinds of topics, which takes its reporting from globalist rags ‘Bloomberg’ and ‘Financial Times’.*

*We believe that this is an **entirely manufactured crisis**, again to make over 500 million taxpayers shell out even more than they have already done in billions for fake ‘vaccines’, tests and masks, loss of employment and personal assets through illegal lockdown, etc. It’s basically a continuation of the ‘emergency’ psychology to **continue the massive transfer of wealth up to the top**, this time through energy usage, which leaves people like sitting ducks in the winter months. The demand for energy should be pretty much like it is for any normal fall. The first Zerohedge piece uses the ‘blame Russia’ card, for which no evidence has so far been presented:*

*Europe is struggling to respond to the energy crunch as natgas prices soared again **after Russia unexpectedly cut supplies**. The continent is not sufficiently stocked ahead of the winter, which suggests the energy crisis will continue.”*

**The Nord Stream II pipeline was completed during SEPTEMBER. Now Germany has decided to WAIT until January to even MAKE THE DECISION as to whether Nord Stream II gets its license.** Of course it will, but why manipulate this situation in such a way unless you are deliberately creating the problem. Funny that *Zerohedge* doesn’t bother to mention that.

Skyrocketing Energy Prices Could Cripple Europe’s Economy, Yet Nordstream Is Now Finished ... This is all about Climate Change and the Klaus Schwab “Great Reset”

agenda as the world is transitioned from Capitalism to Socialism and to lock down Marxism, Chinese CCP-style.

The EU Economy Faces Crippling Gas Prices But WHY?

*Nord Stream 2 is Ready To Start*

**Nord Stream**  
The new gas supply route for Europe

Cutting food supplies within Europe and **forcing some food growers out of business** is simply a **continuation of the Agenda 21 plan** to force farmers off the land into 'smart' stack'n pack cities, which has been happening in various EU countries, including the Netherlands, for years. We remind readers of a story we ran just last month of the blatant tyranny over farmland and farmers in this country:

[Total Insanity: Dutch Cabinet Plans to Take Farms from Farmers to "Combat Global Warming"](#)

**AGENDA 2030**

**Unspeakable Tyranny in the Netherlands**

*Farmers To See Land Expropriated*

There is evidence elsewhere on the French political landscape that Macron's crew do believe they might get re-elected next spring, **such is the level of delusion or scheming among these people**. They are hated with a passion in France, but the options are globalist lite or globalist heavy. And Marine Le Pen has clearly gone as far as she can go. If they do get back in, it will be by some narrow margin through mass abstention, a split vote, or those useful Dominion voting machines. It certainly won't be because of popularity.

Dutch Greenhouses Go Dark As Energy Crisis Worsens; Food Inflation Fears Mount For Europe!

Soaring European gas and electricity prices are getting worse by the day, **forcing a vast network of Dutch glass greenhouses, the largest on the continent, to limit output or go entirely dark**, according to *'Bloomberg'*. This could have a devastating impact on food supplies and boost prices ahead of the holiday season.

The Netherlands has become an agricultural giant and is the **world's second-largest exporter of food by value, primarily thanks to its 25,000 acres of greenhouses** that supply Europe with vegetables like cucumbers, tomatoes and bell peppers, and flowers. In 2020, Dutch exports of greenhouse-produced farm products amounted to \$10.7 billion, but this year could be much less as expensive natgas and power prices result in some operations to go dark.

To keep hidden how disastrous his insane energy policies have been, Biden and his socialist Democrats have insanely flooded America with supposedly *"free government money"* that has *"created the biggest distortions in consumer income and spending ever"* - saw the "real" personal incomes for Americans falling below the pre-pandemic levels of February, 2020 - all of which has caused inflation to devour the entire American economy, whose low-ball estimate will hit a 30-year high.

In knowing how enraged the American people will become once this *"winter of doom"* strikes, this report details, Biden and his socialist Democrats are attempting to foist on their unsuspecting citizens what's described as: "They want to enact one of the biggest tax increases in American history to fuel one of the biggest spending sprees ever...They want to confiscate a huge portion of the American economy, money generated by all of us, and then through reconciliation –single-party vote – decide how all that money will be spent...If you're not a Democrat, your input is not wanted...They are attempting to do this when the country is deeply divided as evidenced by the Democrat's paper-thin governing majorities – one vote in the Senate and a half-dozen in the House" - in factual reality is a socialist scheme called "Build Back Better" meant to enslave the American people to their government they'll be dependent upon for life - but yesterday saw this socialist scheme going down in flames because the Democrats themselves couldn't stop fighting about it.

It is important to remember because after his *“Build Back Better”* socialist scheme went down in flames yesterday, the only thing Biden said to the America people was: *“We’re going to get this done...It doesn’t matter when...It doesn’t whether it’s in **SIX minutes, SIX days, or SIX weeks...We’re going to get it done”*** - which makes one wonder why Biden is so fascinated with this Mark of the Beast number **666**, but in looking at the Covid experimental vaccine mandates he plans on enslaving Americans with, it does cause one to remember the Bible’s prophetic warning: *“**And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name. Here is wisdom. Let him that hath understanding count the number of the beast: for it is the number of a man; and his number is 666”***.

The real Joe Biden is dead (brain dead), and that information should be shared wide and far as it reveals the Satanic plans of those who are handling the Biden doppelganger double. It is another sign of the spiritual warfare that is occurring today, both in the physical world and as well in the spiritual realm. His death nullifies any suggestion of any presidential “mandates” of any vaccines for sure!

Brian Shilhavy, Editor, Health Impact News, said Saturday, October 2, 2021:

*“For everyone in the United States who is still holding out hope that the American judicial system will recognize that the current COVID-19 “vaccines” were approved illegally, and that neither government nor private employers have a legal right to mandate them as a condition to work or participate in society, it is time you recognize that this hope in the judicial system is in vain.*

*Salvation will not come from the American judicial system, and Supreme Court Justice Sonia Sotomayor drove the last nail in the coffin of that hope yesterday, Friday, October 1, 2021.”*

The Biden handlers are doubling-down on their bully pulpit to drive fear propaganda. Tell them to go pound salt, they can't win the battle conducted through deception. The Democrats and Marxist/Socialist in power are desperately trying to hold onto their fake power trip. The Empires are burnt toast, China and the U.S. both are finished. Its Red October folks and there is only one answer to the contagion spreading, and I'm not referring to the fake virus at the moment! It's all over but for the crying and weeping. Personal wealth, pensions, savings, government checks will end effective October 1<sup>st</sup>, 2022. I wrote two articles five years ago on this topic of Social Security!

In Blessed Hope #77, I dealt with the issue that Rosh HaShanah is a month late this year based upon the requirements of Scripture, particularly as prescribed as the Creator's Calendar, and not that of the Rabbi Hillel II. The deception behind this confusion of the true Feast of Trumpets or Rosh HaShanah is clearly further proof that spiritual forces are blinding the eyes of both Jews and Christians on the true day of Rosh HaShanah and the imminent Rapture of the Bride of Christ.

Long story short, the Sun must have crossed the 4th gate/portal before the new year can commence, and this year, it didn't happen in March, so it was necessary that the Jews added a 13th year. The 4th gate in the Enoch calendar is the spring equinox, which is when the Sun crossed the equator. This method we have been led to use incorporates the Sun, moon and stars to calculate His Feasts. Keep this in mind that it was the Jews failure to observe the Sabbath Rest of the Land which began their 6,000-year problem that ends with Daniel's 70<sup>th</sup> Week of Tribulation.

The 7<sup>th</sup> and 8<sup>th</sup> of the October, 2021 moon cycle are our best date for the “Blessed Hope.” I allow for as much as two days extra for a full sighting of the New Moon! Do you have your boarding pass in hand?

[https://youtu.be/0FzOc7ldH\\_E](https://youtu.be/0FzOc7ldH_E)

I included the link above which explains how the Creator's Calendar proves that in 2021, Rosh HaShanah or the Feast of Trumpets was errantly established as September

7<sup>th</sup>, which failed to meet the fall equinox, hence it is October 7<sup>th</sup> or 8<sup>th</sup>, 2021. Even the highly respected Torah Calendar.com erred big time!

The video link above is an excellent visual overview description of what is happening this year that became the reason for a premature September Rosh HaShanah to be because an intercalary year had to be added to keep the lunar/solar calendar in proper alignment. Hence, Rosh HaShanah is not observed until this week just ahead.

The nation of Israel is not a religious nation as you might think and so the government failed to factor in the standard of the Biblical calendar; they merely continued to use the Rabbinic calendar of Hillel of the 4<sup>th</sup> century A.D. About two decades ago the Karaite Jewish sect sought to bring back the Biblical calendar based upon the Sun, Moon, and Stars and their relationship to the Hebrew agricultural cycle.

If you are a gardener, plant vegetables or flowers, everyone who works in the gardening department at Walmart has a chart for your area when the last “frost” of the season can be expected and they will tell you not to plant until that date at the earliest. I use this analogy to show how the God of the Bible gave the Israelites specific instructions on how to use and observe the agricultural calendar for planting, sowing, and harvesting.

Under plans laid out by Klaus Schwab, executive director of the World Economic Forum, what food ‘is’ and how it is produced are to take a dramatic turn for the worse; From something broadly natural to something essentially synthetic.

Under the cold technocrat agenda known as 'The Fourth Industrial Revolution' and 'Green New Deal' agriculture will have less and less to do with farmers cultivating the land and more and more to do with the laboratory production of synthetic foods by robots. We have seen dozens of reports where residential communities in the U.S. have banned residents from planting vegetable gardens on their own property. Municipalities are taxing people from collecting the rain water from their home and garage roofs. These are serving an agenda rather than to be a nuisance to residents.

Finally, are you Rapture Ready? I would think with all of the wonderful (negative) news I brought to you in this Blessed Hope that you might be wide awake in anticipation of our Departure and have your boarding pass ready.

There is simply no reason for anyone to want to be left behind based upon what the Antichrist has in store for enslavement of your mind, body, and soul! There is a lot more of the bad news that I have chosen not to mention here. The governor of California Gavin Newsome mandated Friday, that all children from K-12 will have to be vaxxed in order to attend school this month. This suggests to me that God's intervention is within days. God has a special place for the innocent child unable to act on behalf of its own well-being. Governor Newsome breached that barrier by his mandate this past Friday! If you need a second witness, we have that now with the U.S. Supreme Court Justice Sonia Sotomayor on Friday refused to block New York City's requirement that its public school teachers and employees be vaccinated against COVID-19. The liberal Justice Sotomayor revealed she is in on the fix since the vaccines are only authorized under

EAU (Emergency Application Use), and a violation of the Nuremberg Treaty of 1947. The U.S. was a signatory to the Nuremberg Treaty along with every single nation in the world at that time. Furthermore, Sotomayor rejected the emergency request without offering an explanation or referring the matter to the full nine-member court.

If you want to be rapture-ready and go to heaven, you must be born again -(John 3:3). God loves you, and if you have not done so, sincerely admit that you are a sinner; believe that Jesus is the virgin-born, sinless Son of God who died for the sins of the world, whose blood was shed for you, was buried, and raised from the dead; ask Him to forgive your sins, cleanse you, transform your heart and be your Saviour; then tell someone that you have done this.

Blessings, and I hope to see many of you on the other side!
