Every once in a great while a highly radioactive truth bomb gets dropped that changes everything—EVERYTHING! Well, a JFK truth bomb just exploded and the Internet is now experiencing the massive fallout.

Here's the critical truth that the **Khazarian Mafia** has spent nearly 60 years assiduously suppressing with every single major organ of propaganda and prevarication belonging to their wholly owned mainstream media.

Remember, the CIA's *Mockingbird Media* was set up by the **Khazarian Cabal** in the first place. So was *The Company*, as the Central Intelligence Agency is known in global intel circles.

Actually, what really happened here is that the Khazarians always allow the industry, the business, the enterprise, the corporation, the non-profit, etc, to first be established by the hard-working founders; then they take the commercial entity over via so many financial and economic, political and legal means of effectuating an outright takeover.

JFK truth bomb

The subtitle of a featured article published by SOTN on the 59th anniversary of JFK's assassination reads as follows:

---

**[When Alleged Affairs With Women Were Actually Affairs Of State](#)**

---

The back story is this: For more reasons than can be listed in this short exposé, the **Khazarian Mafia** had no choice (in their utterly warped collective minds) but to assassinate President John F. Kennedy. And, because of his extremely serious transgressions against the **Khazarian Klan**, his brutal murder was used as a shocking example to all future heads of state who even thought about leaving the Khazarian-created global reservation.

What that subtitle refers to is the now proven fact that President Kennedy quite stealthily employed a number of high-integrity female agents, who could be trusted with highly classified matters. Each of these 'glamor woman', some of whom posed as paramours, were assigned missions and/or tasks of the greatest significance during JFK's curtailed term as POTUS.

As a matter of historical fact, Marilyn Monroe was such a trusted confidante of JFK's, who played a major part in covertly assisting in the resolution of the Cuban Missile Crisis in her role as "Masha". President Kennedy enlisted Monroe to back-channel highly sensitive information to Russian President Nikita Khrushchev in order to prevent that international crisis from exploding later in October of 1962. Her primary assignment was to establish a secret line of communication with Khrushchev, which she accomplished. Monroe was then killed by the C.I.A. on August 4, 1962 to quickly terminate her vital mission, as well as her clandestine relationship with JFK.

Another valiant Washingtonian woman on a JFK mission was Mary Pinchot Meyer.

*On a perfect October day in 1964, Mary Pinchot Meyer—mistress of John Kennedy, friend of Jackie Kennedy and ex-wife of a top CIA man, Cord Meyer—was murdered in the rarefied Washington precinct of Georgetown.[1]*

Constantly and wrongly labelled 'JFK's mistress', Mary Meyer was deeply involved as an unofficial intel agent relaying top secret information to President Kennedy about CIA black ops especially with respect to the agency's illicit mind-control drug testing programs.

As any reader of the ever-deceitful mainstream media knows, the fictional list of JFK's mistresses is seemingly endless. Each and every year another so-called JFK secret love affair is strategically released by the CIA's *Mockingbird Media* to further assassinate his character.

The critical point here is that the **Khazarian Cabal** was determined to assassinate Kennedy twice: once with highly premeditated brutality as his motorcade passed by Dealey Plaza in Dallas; and a second time by way of non-stop character assassination carried out via the Khazarian-controlled corporate media.

Not only does JFK's exceedingly violent murder in Texas provide a perfect threat to any world leader or influential VIP who is not strictly following Khazarian orders, the annual character assassinations of Kennedy keep vivid that horrifying memory for those same targeted individuals. For the greatest warning issued by the **Khazarian Mafia** that any President or Prime Minister, King or Queen, CEO or Chairman, etc. could ever receive is:

---

***"Surely you saw what happened to JFK?!"***

Or, more bluntly:

***"You don't want to be JFKed, do you?"***

**KEY POINTS:** There are two main types of Khazarian-coordinated psyops where it concerns the purposeful dissemination of false salacious stories about JFK's faked affairs. The **first prong** of their unrelenting "defamation of character" strategy was to quickly out (or kill) any woman who was surreptitiously working in cahoots with Kennedy. This highly calculated pre-emptive measure was taken to preclude any harmful truth-dropping by those brave female Patriots in the future. The **second prong** was to fabricate lurid stories — out of thin air — about sexual dalliances to further damage JFK's stellar reputation as an authentic Patriot. It's fairly easy to discern between these two vastly different contexts by examining if there was any proven relationship between Kennedy and the alleged 'mistress' DURING HIS PRESIDENCY. In the case of Judith Exner shown above, it's well-known that President Kennedy and his brother Attorney General Robert F. Kennedy had declared war on the Mafia, which then required a trustworthy liaison to negotiate an enduring truce. JFK's only interest in this regard was to forever break the back of the **Khazarian Mafia**, and especially its overwhelming stranglehold on the American Republic. In other words, when President Kennedy gave what was the most courageous speech in U.S. history, he was issuing a direct challenge to the hidden tyranny of the **Khazarian Cabal**. (Listen to JFK's epic speech in its entirety [HERE](#).) Surely, as "King Khazarian" Karl Marx was the first matter addressed by Kennedy in that presidential exhortation, the wheels were set in motion for his ruthless assassination.

---

#### Conclusion

The **Khazarian Cabal** has obviously been compelled to continuously character assassinate President John F. Kennedy for several reasons, most of them related to maintaining the unflinching efficacy of their all-powerful Global Power Structure & Control Matrix.

By posting false articles every year about JFK's fictitious 'sexcapades', they serve as a very stark warning to any other leader thinking of using the same subversive tactics/strategies that Kennedy did in the fulfillment of his solemn responsibilities to the American people.

In this manner, Khazarian blackmailers like Jeffery Epstein are routinely used to coerce/blackmail anyone in power, anywhere, anytime. Then, the *Sword of Damocles* precariously hangs over any high-profile victim's reputation for all time.

Lastly, it's crucial for those who doubt this studied analysis to consider the following self-evident realities concerning President Kennedy's entire term in high office.

***JFK knew that he was the most closely monitored president in U.S. history up to that point in time. He was not unaware of the massive and extremely sophisticated spying and surveillance capabilities of the CIA, NSA, FBI, and DIA (which was inaugurated during his presidency). Clueless about the USA's national security and espionage apparatus, JFK was not!***

***JFK's father, Joseph P. Kennedy, served as the U.S. Ambassador to Great Britain and was well schooled in the ways of Anglo-American espionage, state of the art surveillance, latest spying technologies as well as the use of "honeypots". JFK was particularly aware of the Khazarian's use of honey traps to advance the interests of the Zionist state of Israel. Therefore, JFK thoroughly understood that his EVERY move was being watched — 24/7 — throughout every single hour of his presidency.***

***Being the most watched person in America (as well as the whole world), does anyone really think he would even attempt to so wantonly "stray from the Catholic reservation" for the purpose of having whimsical affairs and sexual liaisons? Why would such a fearlessly righteous leader, heaven-sent to save the Republic, ever engage in such risky and scandalous activity.[2]***

### **SOTN Editor's Note**

It's entirely true that the Chicago-based Mafia clans were directly responsible for JFK winning the Illinois ballot, which was necessary for him to win the 1960 POTUS election. However, even the initiated are unaware of the HUGE territory wars going on all over Cook County at that time. While the internecine feuds among the Sicilian Mafia families were raging, the Irish Mafia was also flexing its muscles. Neither of these organized crime syndicates knew that it was the well concealed "Chicago Supermob" (also known as the original American version of the **Khazarian Mafia**) that really controlled every square inch of turf throughout the Windy City. Needless to say, it was the **Khazarian Cabal** that really put John F. Kennedy in the White House, so they expected absolute allegiance to their various causes. The Khazarians especially anticipated full support of the rogue nation of Israel from President Kennedy. When the primary national founder and first prime minister of the State of Israel — David Ben Gurion — was rebuffed by JFK where it concerned the Zionist's zealous nuclear ambitions, Ben Gurion became disconsolately apoplectic and proceeded to immediately resign in an epic hissy fit.

*"Kennedy pressured the government of Prime Minister David Ben-Gurion to prevent a military nuclear program, particularly after stage-managed tours of the Dimona facility for U.S. government scientists in 1961 and 1962 raised suspicions within U.S. intelligence that Israel might be concealing its underlying nuclear aims."*[3]

### ***What's the salient point?***

Yes, the warmongering Zionist mafiosos in Tel Aviv surely had several reasons to take out Kennedy (click on the following link) given the HUGE obstacle(s) he posed to the implementation of their *New World Order* agenda that culminates with the establishment of Jerusalem as the capital of their long-planned totalitarian **One World Government**. However, it was the unimpeded development of nuclear weaponry that Israel wanted the most from JFK, which he resolutely deprived them of even though the

Manhattan Project was a thoroughly Khazarian enterprise. After all, Israel knew that it must possess a full complement of nuclear weapons if Tel Aviv was to effectively blackmail heads of state the world over with their sinister **Samson Option**.

## 10 Reasons Why Zionist Israel Assassinated President John F. Kennedy

John F. Kennedy Assassination Plot And Coverup Revealed

\*This article is a condensed version of a much longer essay which can be found at: [Warren Commission Report: The Most Absurd Investigation In US History](#)

John F. Kennedy was assassinated on November 22, 1963 by way of a classic, execution-style ritual sacrifice known as the “killing of the King”\*. This form of unusually public and gruesome murder of an extremely popular world leader is designed to shock and awe the mass consciousness. And so it did.

*“There is a Secret Society ritual that is ‘the killing of the King.’ The national leader of the people is only a figurehead and has no real power. Power lies behind the scenes within dark secrets. Others pull the strings of the politician puppets. If an upstart, politician puppet makes waves or rocks the boat or doesn’t play ball.....that puppet gets eliminated. It is why Caesar was killed. It is why Kennedy was killed. If you disturb the real power structure, you can be targeted for removal. Such ‘assassinations’ demonstrate to the world who has the real power; it is a bloody statement of who is really in charge; and the truth is our secret rulers control from dark shadows. (There is a*

*reason the Ace is higher than the King in a deck of cards. The Ace represents the Secret Societies that truly run the show)."*

Excerpt from: WAS JFK KILLED BECAUSE OF ROSWELL? by Doug Yurchey  
JFK was by far the most courageous and self-sacrificing president in modern American history. In his almost 3 year tenure, he made more bold decisions, issued more audacious executive orders, and enacted more revolutionary policy than all of the other U.S. presidents of the 20th century put together. How so, you might ask?

What follows is a list of ten reasons why JFK became the most targeted man in America in 1963.

Each of these 10 explanations standing alone would be considered extremely life-threatening to any sitting president of the USA. And these are just the top ten; there are many other brave initiatives undertaken by JFK which pitted him directly against the TPTB (The Powers That Be).

Therefore, the real question is how JFK managed to survive as long as he did.

**(1) JFK issued executive order # 11110 which essentially disempowered the Federal Reserve System. This international crime syndicate is a private banking cartel with no reserves and is not federal, since its owners are more foreign than domestic. Like President Andrew Jackson, he knew the FED had to go if there was to be freedom from permanent debt slavery for the USA. Needless to say, the NWO bankers would not tolerate such audacity, and JFK knew he would pay the greatest price.**

**(2) JFK vowed to shut down the CIA shortly after the failed Bay of Pigs operation. The CIA is the granddaddy of all black ops and psyops around the world, including all major terrorist events before and since 911. With such an enormous and unaccountable black budget funding so many illegal schemes, JFK understood the CIA was the proverbial loose canon. His firing of CIA Director, Allen Dulles, proved to be the last straw. So was his vow to *"splinter the CIA into a thousand pieces and scatter it into the winds"*.**

**(3) JFK was implementing plans to end the Viet Nam War. His failure to prosecute the war greatly irked the Roman Catholic Church, the war's primary instigator. As the first Roman Catholic U.S. president, he made it clear during his campaign that he would act with complete independence from Vatican influence and always govern as his conscience dictated. Terminating the Viet Nam War became JFK's number one foreign policy agenda item, which put him at serious odds with the entire *World Shadow Government*.**

**(4) JFK adamantly opposed Israel's plan to develop nuclear weapons. His uncompromising posture enraged Israeli Prime Minister David Ben Gurion, and brought upon him the wrath of the MOSSAD. A nuclear-armed Israel was an**

essential goal of those who would control the oil and gas reserves throughout the Middle East. JFK was well aware of Israel's intentions to terrorize the entire Middle East with threats of *nuclear armageddon*.

(5) JFK was proceeding with plans to reveal highly classified information regarding the truth about UFO's and the Alien Presence on Planet Earth. "He was the only member of *Majestic 12* that wanted full disclosure to the American people." That *Extraterrestrial Biological Entities* existed fascinated JFK, and he felt the nation had a right to know. Such revelations would never be allowed by those who control the mainstream media and dictate world governance.

(6) JFK issued a direct warning to all *Secret Societies* operating on U.S. soil. The Illuminati was not pleased! By taking concrete measures to expose their secret agendas and clandestine operations, he put himself at great risk and his entire Administration in serious jeopardy. Nevertheless, JFK knew that his unprecedented revelations in this regard sealed his fate. It has even been asserted that he went to Dallas having been fully forewarned of the murder plot. Furthermore, he knew he was powerless to prevent a covert coup d'etat engineered and executed by the secret societies.

(7) JFK's brother and U.S. Attorney General, Robert F. Kennedy, launched an unprecedented war on organized crime, and particularly against the NYC, New Orleans and Chicago mob families. Obviously the American Mafia was not pleased, especially after they allegedly helped swing the necessary Chicago vote (and therefore Illinois electoral votes) in JFK's favor to win the election. Bobby, himself, admitted that his aggressive pursuit of the mob may have caused the demise of his brother.

(8) JFK inherited the most intense foreign policy hotspot known as Cuba, as well as the CIA's intention to assassinate Fidel Castro. The Cuban Missile Crisis had broad ramifications for his presidency, as well as for the Cold War. His decision-making independence throughout the crisis, especially his use of personal surrogates and unconventional process, would not be tolerated. However, it was the Bay of Pigs (BOP) fiasco and the withdrawal of Air Force support from the operation which turned the CIA against him for good.

(9) JFK took up the torch of civil rights in a way that no other President did throughout the 20th century. His embrace of the *Civil Rights Movement* drew close to him many who would try to sabotage his efforts "by all means necessary". As the *Great White Hope*, JFK (and RFK) were considered to be a threat to those who would divide and rule through stoking racial hatreds. The *Deep South* was therefore a conducive environment to stage the assassination, just as southerners murdered Abraham Lincoln post Civil War.

(10) JFK had very serious and powerful enemies in the form of Lyndon B. Johnson, George H. W. Bush, Richard N. Nixon, J. Edgar Hoover, Allen Dulles,

**Dean Acheson, as well as the British Crown whose intentions were well known by his ambassador father, Joseph P. Kennedy. The entire global power structure, particularly the U.S. *Military-Industrial Complex*, and its many secret societies and covert organizations, were vastly arrayed against him. The *World Shadow Government* was determined to make an [UNFORGETTABLE] example of him.**

There is no question that the corporate-sponsored war instigated in Viet Nam would not be stopped by a peace-loving president who learned from his experiences in WWII. The global *Military-Industrial Complex* (MIC) already implemented its agenda ensuring perpetual war. However, Kennedy wanted no part of it, but seems to have neglected to see that his Texas-bred Vice-President was one of the prime political movers behind that agenda.

This was perhaps the most fateful compromise of JFK's career. He knew that he could not win the election without LBJ. He also knew that his presidential platform was quite incompatible with virtually everything LBJ stood for. After all, LBJ's Texas political machine was well oiled by Big Oil and generously funded by the very MIC corporations that thrived on war.

The obvious upshot\* is just that. Because of his strategic position in the Vice-Presidential suite, LBJ was able to set up the final shot of the Kennedy's term in office. As a matter of fact, the following exposé shows just how confident they were in their plan to remove a US President by way of public execution — Texas-style.

### **Conclusion:**

As you can plainly see, JFK could have easily been assassinated for any ONE of these ten reasons. Each one carries with it grave consequences, so it's very easy to understand why "*he had to go*", as far as TPTB (The Powers That Be) were concerned. Therefore, it takes only a small leap of understanding to apprehend the extraordinary and complex conspiracy, that was coordinated at the very highest levels of government and power both in the USA and the world-at-large, which ensured his demise in the form of a public execution and ritual sacrifice.

So let's put to sleep this whole notion of conspiracy once and for all. It's not that thousands of individuals and groups were directly involved with the actual assassination itself. However, and without question, these numerous organizations were involved obliquely in a cover-up of incomprehensible size and scope. Especially by putting their vast resources in the service of the ongoing and necessary conspiracy of silence, was an extremely well-coordinated cover-up ever successfully conducted.

In a highly compartmentalized black operation like this one was, where every perpetrator participated on a strictly need-to-know basis, it is easy to see how they pulled it off. By acts of omission, and silence, and a knowing wink\* like LBJ's captured during his swearing in ceremony were they successful in carrying out the most shocking and horrifying coup d'etat of the 20th century.

LBJ returning a knowing wink to Texas cohort, Congressman Albert Thomas during his swearing-in ceremony aboard Air Force One.

By acting as a truly righteous and just leader, JFK made so many enemies that his assassination was all but a forgone conclusion, and therefore just a matter of “execution”. However, what the TPTB failed to realize, was that a self sacrifice on the order of JFK’s would produce a whole generation of anti-war activists who literally shut down the Viet Nam War – an unprecedented act of defiance in American history. This galvanization of moral ascendancy through the peace movements of the 1960’s & 70’s is perhaps the only time in recorded history that a popular movement was successful at bringing a war machine to a screeching halt!

Because of the extraordinary, enlightening and edifying effects that John F. Kennedy had on the American consciousness, TPTB must have determined that they had no choice but to kill the messenger. JFK’s message of peace and brotherhood and good will was simply too contrary to their agenda. As a “pitchman for peace”, he was far too effective in delivering a message of hope to the entire world. His sincerity was further evidenced by his intention to wind down the Viet Nam War against the wishes of a burgeoning military industrial complex which had never before been thwarted.

In closing, the raw truth about the assassination of JFK is that he was to be made a dramatic example of what would not be tolerated by the *World Shadow Government*. His extremely brutal and public execution was quite purposeful so that no one would ever forget the savagery of the murder. In this way every president and prime minister, every king and queen, every chairman of the board and CEO across the planet would know the following fact of life on Planet Earth:

***That such a power exists which can execute a U.S. President in broad daylight with absolute impunity. And that cover-ups of such a serious crime and conspiracy are as easy as fabricating a new JFK assassination conspiracy theory every other year.***

However, TPTB failed to realize that there were so many involved in this cover-up that the truth would be revealed sooner or later. And so it has. Here's just one little video that will forever provide a photo-documentary of highly incriminating actions perpetrated by JFK's Secret Service detail as his motorcade began its journey through Dallas on November 22, 1963.

[Secret Service orders stand down just prior to JFK's assassination](#)

That there was an entire "system" dedicated to JFK's demise once he revealed his true agenda is now without question.

Whereas TPTB were completely committed to perpetual war, economic exploitation, and divide and rule, John F. Kennedy was genuinely dedicated to world peace, economic justice, and social equality.

Because of this major backroom brawl, the **Khazarian Cabal** came to hate Jack Kennedy with a passion, even more than Adolf Hitler. In their twisted minds, JFK profoundly deceived them despite his presidency being made possible only by their extraordinary political largesse. Therefore, the entire **Khazarian Klan** has, ever since, made it an eternal endeavor to smear President Kennedy's name like there's no tomorrow. And, by the way, in light of the many other ways that the supremely courageous JFK tore up the Khazarian playbook, it should come as no surprise that they had the C.I.A. set up no fewer than 8 (eight) sniper nests surrounding Dealey Plaza on that exceedingly fateful November 22nd. After all, no one — EVER — contravenes the "**Khazarian Code of Covert Criminality**".

On this Thanksgiving Day, every American ought to be deeply grateful to President John F. Kennedy; for it was his awesome and heroic sacrifice that blew the lid off — ONCE AND FOR ALL — the nefarious and multifarious NWO schemes to transform the entire planetary civilization into one giant Khazarian-controlled concentration camp.

Author's Note:

For the many *Beatniks* and *Baby Boomers* who 'witnessed' the JFK assassination by being innocently attentive to the evolving saga, something very profound and "earth-shattering" took place. Even though this meticulously planned murder and cover-up conspiracy was obviously orchestrated by those various interested parties outlined above, it was an event which was pre-ordained by the Highest Power.

Its profound and far-reaching repercussions served to catalyze the most consequential shift in American consciousness ever to occur. Millions of disaffected youth and young adults were compelled to “leave the reservation”, and unshackle themselves from the quickly emerging *Consumer Society*. The resulting and unprecedented *spiritual diaspora* sent truth seekers to the East in search of meaning, in a quest to know life’s purpose, and in the ultimate pursuit of Truth.

Over the years I have read a few hundred of the books published on the Kennedy assassination, of more than a thousand written. Many are very good but three stand out as important. Three very important books that address the assassination of President John F. Kennedy are important background material:

*'Vatican Assassins, Wounded in the House of my Friends'* by Eric Jon Phelps

*'The Sampson Option'* by Seymour M. Hersh

*'Crossfire: The Plot That Killed Kennedy'* by Jim Marrs

We thank '*State of the Nation*' for its courageous efforts to expose the Khazarian Mafia that has been responsible for such evil deeds most of our lives.
