

“Those who do not remember the past are condemned to repeat it.”

Posted on February 11, 2023 by State of the Nation

This time around, Zio-Nazi Ukraine is playing the part of Nazi Germany in a long-planned Khazarian scheme to trigger World War III as a pretext to forming a totalitarian One World Government, fully implementing their *New World Order* agenda and executing their civilization-destroying Great Reset.

SOTN Editor's Note: The following exposé provides the back story to the greatest theft of wealth ever perpetrated in world history. Truly, the unconstitutional Federal Reserve Act of 1913, which was unlawfully passed via an elaborate Khazarian criminal conspiracy, created the conducive environment for a century of highly consequential cataclysms to unfold around the globe by way of an immense amount of stolen wealth. See: [The World Wars And All Other Cataclysmic Events Were Carried Out By THE TRIAD](#)

KEY POINTS: The very telling historical timeline of those “Cataclysmic Events” irrefutably proves that the illicit establishment of the U.S. Federal Reserve System was the most defining moment in modern history. For the **Khazarian Cabal** was essentially given secret and unfettered access to the U.S. Treasury from which to fund their world wars and regional armed conflicts, color revolutions and civil wars, staged pandemics and real epidemics, acts of nuclear, chemical & biological terrorisms, mass shootings and mass bombings, economic depressions and financial destructions, monetary meltdowns and currency wars, market manipulations and gold price suppressions, real estate collapses and stock market crashes, corporate takeovers and government takedowns, weather warfare and geoterrorism, false flag operations and shocking violent attacks, etc. The Khazarians were also given free access to the every other central bank on the planet via their highly controlled Central Banking Cartel. However, it’s the continuous cover-ups of so many Khazarian-directed national crime sprees and global crime waves which have required an enormous amount of funding and personnel, energy and resources in order to be effective. Just imagine how much money was required to pull off and cover up the **COVID CON** alone. Which is why the entire planetary civilization has been victimized by one gold robbery after another over centuries, all of them carried out by the ubiquitous **Khazarian Mafia** (further delineated and documented below).

CAVEAT: The stunning list of genocidal crimes against humanity shown in the “TRIAD” link above is but a foreshadowing of what the **Khazarian Cabal** has planned for the whole world community of nations. For their coup de grâce is the rapidly evolving World War III which is being stealthily engineered across the global geopolitical chessboard in 2023 and beyond. Only this time around, Ukraine is Germany. As for the United States and the Russian Federation, they are being quite intentionally pitted against one another so that the two traditionally Christian nations will totally destroy each other leaving only the Khazarian Zionists to rule the world from their capital in Jerusalem.

By understanding the many heretofore hidden disclosures made below, it will be very easy to understand the Khazarian game plan to use the fog of WW3 to first conduct a controlled demolition of the fatally flawed and hopelessly corrupt Global Economic & Financial System, followed by their long-planned Great Reset. Of course, the extraordinary chaos, confusion and conflict deliberately created by the carefully fabricated COVID-19 *Plandemic* was an integral piece of this world takeover scheme.

Lastly and most importantly, every reader is encouraged to understand the striking parallels between the pre-Second World War period and the current pre-World War III period we have been witnessing since the 9/11. What the Khazarians inflicted on Germany during that time frame beginning with the First World War and Great Depression is analogous to how Ukraine has been systematically destroyed from within by the Khazarian oligarchs, as well as by Zio-Anglo-American meddling (e.g. CIA-coordinated Maidan Revolution, NATO encroachment on Russia, International criminal George Soros, Biden Crime Family, Pentagon-sponsored bioweapon labs, Victoria “F*ck the EU” Nuland, etc.).

In other words, Kiev has been cunningly set up, just as Berlin was during WW2, to wage a world war against Russia. Since the Dot.com crash of 2000 and 9/11 terror attacks, the global geopolitical chessboard has been surreptitiously rearranged to fully optimize the **Khazarian Cabal's *Ordo ab Chao*** strategy. In point of fact, Ukraine, more than any other nation on Earth except the Modern State of Israel, has been completely owned and operated by the Khazarian Mafia practically forever. Which is why a Zio-Nazi warmonger and Khazarian war criminal like Zelensky was purposefully installed by his Khazarian masters to push the whole world into a global hot war.

“At the end of the day, all wars are started by the banksters—Ashkenazi banksters conspiring with Zionist warmongers, Black Nobility war profiteers and the Khazarian mafia.”

N.B. Now read the actual historical blueprint below that was scrupulously followed by the Khazarians pre-WW2 to correctly comprehend the script being parroted today in the lead-up to their meticulously designed World War III.

The Jews Were Busy in the 1930s

LARRY ROMANOFF
The Unz Review

This essay is an exercise in connecting dots, of bringing together apparently disparate events that are actually connected in some meaningful way, done in an attempt to give readers an opportunity to place world events in context and have an entire coherent picture emerge from those apparently separate elements. The contents of this essay are as follows:

- (1) The 1930s Great Depression
- (2) The US domestic gold seizures
- (3) The 1934 Silver Purchase Act
- (4) Citibank's Great Chinese Gold Robbery
- (5) The Worldwide Gold Robbery – The US FED
- (6) The 1933 Jewish Declaration of War and Economic Boycott of Germany
- (7) The Attempted 1933 Jewish Fascist Coup in America
- (8) The Takeover of China
- (9) Preparation for WWII against Germany

(1) The 1930s Great Depression

It's not a secret that one of the nastier advantages of the private ownership of a country's central bank is that the Jews have total control over those economies. Since they control both the money supply and the interest rates, they have easily the power to whipsaw economies and profit immensely at every cycle. They do it the same way every time – *by lowering interest rates to zero or nearly so, while hugely inflating the money supply and extending almost unlimited credit, thereby creating large bubbles in debt, in the stock and housing markets, and so on. Then, they severely contract the money supply and all credit while simultaneously raising interest rates, thus bankrupting countless thousands of banks, businesses and families, and buying up for pennies on the dollar every manner of assets when the blood is running in the streets.* It is also not a secret that all such recessions have been deliberately inflicted on Western economies by these Jewish bankers for the past 200 years or more. The 1929 collapse and the resulting Great Depression of the 1930s was only one such. This was done many times prior to 1929, and has been done many times since.

At the beginning of the 1930s, the *Khazar Jews* in the *City of London* had just unleashed the most bitter recession in living memory. **Montagu Norman**, the head of the Rothschild-owned Bank of England, had a meeting with the **Rothschild-owned FED** and with the **US Bankers Association**, and shortly thereafter the entire world economy collapsed. **Senator Robert Owen**, a co-author of the *Federal Reserve Act*, testified before a Congressional Committee that the bank he owned received a notice from the National Bankers' Association that stated: "*You will at once retire one-third of your circulation and call in one-half of your loans.*" And that is how Rothschild and these Jewish central bankers create recessions: **an instant reduction of 35% or more in the nation's money supply and a 50% reduction in total credit.** The

inevitable result is the bankruptcies of thousands of corporations and banks, and an enormous plunge in stock market values and corporate assets of every description which are now available for purchase at pennies on the dollar. I covered the effects, including engineered recessions, of Jewish-owned central banks in a prior article titled, *"Let's Have a Financial Crisis: First, We Need a Central Bank"*.^[1] I also covered it briefly in another prior article, *"The Richest Man in the World"*, Part (8) *Recessions and Depressions*.^[2]

Ben Strong and Montagu Norman

Not only did the Great Depression require much advance planning prior to execution, but the activities during the recession were also daunting. One source states that 1,100

US banks failed during the 1930s, while other sources claim “*several thousand*” banks failed. I have not researched these numbers but, even with the smaller figure, that is a huge number of banks to sort through in preparation for takeover – which was unquestionably one of the purposes of causing the Depression. But one cannot have other parties arriving first and cherry-picking the attractive assets, which means having many boots on the ground, filled with persons knowledgeable in banking and finance, and in law. I have no reliable confirmation of the number of those failed banks which were bought, stolen, merged, swallowed or absorbed, but it must have been a large percentage of the total in one form or another. Banks do not become worthless simply because their circulating cash is withdrawn, and many, if not most, could have been made profitable again. Rothschild and his Khazar friends in the City of London certainly had access to all the banking information held by the FED, as well as access to similar information and data through the US Bankers Association, *and would thus be privy to an enormous amount of confidential information on the state of each bank*. However, buying up the cream of all those failed banks is not something we do with three or four people. The planning and execution would have involved quite a large number of “agents”, even considering that **J. P. Morgan was local and definitely a Rothschild agent**, as were other Jewish banks.

But it wasn't only banks that were in peril during this time. As the Depression wore on, most corporations were experiencing various degrees of economic distress, and those producing goods with a high elasticity (unnecessary or luxury products or services whose sales fluctuate widely with economic conditions) experiencing the highest distress levels, making them ideal targets for cheap takeovers. As one example, Coca-Cola sales plummeted during this time, but the company miraculously survived and even absorbed competitors. It is entirely possible that one of the agents from the City of London purchased a controlling interest in the company at the time and, very often when this is done, *the “Gentile Front” remains in position and the public never become aware of the actual change in ownership*. Many companies exist today in this fashion, with the ultimate beneficial ownership totally masked by the existence of various kinds of trusts, offshore numbered companies, tax havens, investment funds, and many other mechanisms.

One company in this category that should attract our attention is **General Motors**. During the decade prior to the Depression, GM had lost enormous amounts of money, \$65 million in one year alone and other large amounts in later years. From 1927 to 1933, sales of GM's main brands, Chevrolet and Buick, dropped by 50% and 80% respectively. There was no question GM was at the end of its rope and heading quickly for bankruptcy before the end of the 1930s. But then suddenly GM came to life with a vengeance and virtually remade the social and transportation landscape of North America. GM suddenly embarked on an incredibly-large program to kill all public transport in the US, *buying up and scrapping the rolling stock of nearly 1,000 US railroads*. I have covered this story with much detail in a prior article “*Americans and Automobiles: Capitalism and Propaganda*”[\[3\]](#), which contains much detail we haven't room for here.

But how could this happen? Do you have any idea how much money it would take to buy up all the electric locomotives and all the electric tram cars contained in 1,000 railroads? And this massive expense was not like the construction of a new factory that could be expected to produce high profits within a year, since nothing was done with the purchases. All that rolling stock was simply scrapped, and the money lost forever. But GM was essentially bankrupt, so *where would this money come from*, to not only remain in production, but to embark on this extravagant venture that had any revenue or profit years in the future? The required sums would be enormous, extraordinary, and no one in the US had this kind of loose cash during the Great Depression, and certainly not to simply trash and throw it away. The only source of funds of this magnitude would have been the Jewish bankers in the City of London. Since that time, GM has been essentially a criminal organization, specializing in money rather than automobiles, with an almost insane level of greed on occasion, exhibiting all the typical signs of Khazar/Mafia organized crime including bullying, extortion, fraud, deliberate quality degradation, and an astonishing contempt for the lives of its customers. I do not have documentary evidence that these Jewish bankers took ownership of GM at this time, but all signs are pointing in this direction, and all the facts fit the picture perfectly, especially in terms of GM's resulting character and business attitudes.

But here I have named only two companies of literally thousands – banks, pharmaceutical companies, food and clothing manufacturers, hotel chains, railroads, steamship lines, fledgling airlines, auto and industrial corporations. A great many of these would have been in distress by the end of a ten-year recession and available for takeover at fire-sale prices, and many most assuredly were. *And let's not forget that the Great Depression affected nations in addition to the US, so opportunities existed in many places.* Think of the logistical planning and organization necessary for the execution of such a plan, and of the kinds and numbers of "agents" necessary, not only to create an economic recession, but for all the looting to take place when blood was running in the streets.

The next four portions of this essay, numbered (2 to 5), will be examined here only briefly. I have covered these in more detail in a previous essay titled "*The Richest Man in the World*"[\[4\]](#), and much more extensively in Part 5 of an E-book titled "*How the US Became Rich*"[\[5\]](#). You can access these sources for more information and references. These are the next four portions:

(2) The US gold seizures

(3) The 1934 Silver Purchase Act

(4) Citibank's Great Gold Robbery

(5) International gold seizures

(2) The US FED Domestic Gold Seizures

January 30, 1934. President Franklin Roosevelt signs the Gold Reserve Act.

In the early years after the creation of the Rothschild-owned FED, the US was still on a gold standard for its currency; *new money could be issued by the FED only if it had at least 40% of that amount in gold*. But, as Jewish bankers have always done in every country, they issued paper currency far beyond the permitted limits. By 1933, the FED had only about 6,000 metric tonnes of gold in its vaults, about 50,000 tonnes short for the paper currency it had issued. The public were aware generally of what was happening and, with concerns of US paper money becoming worthless, were spending the paper and hoarding the gold coins and bars, while small banks and companies were hoarding gold bullion. Under their pressure, Roosevelt passed the famous 1602 provision which confiscated all the privately-held gold (in all forms; coins, bars, bullion) in the US, *all citizens forced to turn over their gold to the FED, under penalty of a \$10,000 fine plus a 10-year prison sentence*. Note that the gold was not surrendered to the US Treasury Department, but to the privately-owned FED. The gold was exchanged for paper money, meaning that the owners of the FED used the power of the US government to confiscate all the privately-held gold in the US, at only the cost of printing paper. The US dollar depreciated significantly after this.

This was one of the most astonishing thefts in history, one perpetrated by the President of the US on his own people. In the midst of the most bitter depression in living memory, Roosevelt confiscated all the privately-held gold in the country and turned it over free to the Jewish owners of the FED.

(3) US Silver Purchase Act of 1934

1934 \$10 Silver Certificate VF — [Source](#)

The Jewish bankers had this treason repeated the following year, with Roosevelt pushed to implement another administration bill for the seizure of all privately-held silver (in all forms; coins, bars, bullion) in the US on the same basis – *to strip the citizens of their real assets and replace them with paper, those silver assets also being given gratis to the FED*. This action as well vacuumed up billions of scarce government funds at the depth of the Great Depression when most Americans were struggling to survive and avoid starvation and bankruptcy.

But this act was in two parts. The first part, in the US in 1934, was to engineer the forced sale of all privately-held silver in the US at the then market price, replacing it with paper that was rapidly depreciating. The second part, stretching from 1934 to 1939, which must have appeared totally bizarre to those living at the time, was an instruction for the US Treasury to purchase silver “from foreign countries” *at a price that was about three times the then market price for silver*. The only reason given, and which was clearly false, was to protect US silver producers. However, the underlying reason soon became apparent.

I should interject an historical note here. China had suffered more than 100 years of the opium travesty inflicted upon them by the Jews, primarily Rothschild, Sassoon and

Kadoorie, but many other Jews as well. The Chinese had also suffered enormously from the kidnapping and slave trafficking that these same Jews (and their friends) were inflicting on the country during that same period. It isn't a secret that Rothschild kidnapped about 70,000 Chinese who were sent to South Africa and other nations as slave labor to work his gold mines, to say nothing of the same being done to supply labor for the (Jewish-financed) American and Canadian railroads, the Panama Canal and Railroad, the mining of Guano in Peru, and many other such ventures. It was only the First World War that put an end to all this, finally giving the Chinese some freedom from foreign oppression and an opportunity to contemplate rebuilding their nation. But the Jews were mightily unhappy about the loss of their prize and were determined to loot whatever remained of wealth in China.

To that time, China had been for hundreds of years on a silver standard for its currency, the only currency in the world fully backed by precious metal, and responsible for creating a stable economic base, permitting China to escape altogether the Great Depression that was ravaging the rest of the world. It was soon clear that the Americans were not purchasing silver from "foreign countries" on the open market as the US legislation suggested, *but only in China through the Jewish US banks and Rothschild agents like Citibank, Morgan and Chase because they were immune to Chinese export regulations.* This American silver policy of course dealt a devastating blow to this centuries-old stability because these US agents offered Chinese citizens three times the market price for their silver, naturally resulting in a flood of silver flowing into these banks and from there to be shipped to the US on American military vessels.

The financing of these silver purchases in China is a curiosity because it was done entirely with counterfeit currency. Neither the US Treasury nor the Jewish-owned US banks could purchase silver from Chinese citizens with US dollars, since the dollar was not in common use and certainly wouldn't have been accepted as payment by Chinese citizens for their silver. The only source of funds – in Chinese yuan – would have been the Jewish banks operating in China at the time. These banks were permitted to issue Chinese currency only so long as they held gold or silver as full backing, but the Jewish banks violated this principle with abandon, *Citibank alone issuing billions in Chinese yuan with no precious metal backing at all.* I believe the other Jewish banks were operating in a similar fashion. Thus, the Jews entered China with the precise intent of utterly bankrupting the economy and destroying the country, doing so by printing unlimited billions in counterfeit currency and paying Chinese citizens three times the market price for their silver. They were so successful that the silver backing for China's currency descended from virtually 100% to only about 4% in some major areas. China's currency was of course destroyed, the economy collapsed, and the country was thrown into the depths of the Great Depression which it had completely escaped until that time. These Jewish bankers, Rothschild and the other owners of the FED, sucked countless billions of dollars' worth of silver out of China at the meager cost of printing worthless little pieces of paper, of course done with the kind assistance of the US government and military. *A secondary part of this scheme was a deliberate plan to throw China into an intense hyperinflation as the same Jewish bankers had done to Germany only a few years earlier.* I will discuss this in more detail below.

It may occur to you to wonder why the Jewish bankers at the FED didn't also try to buy up all the gold in China in the same manner. In fact, they did precisely that, at the same time, and accomplished it without even the inconvenience of having to print counterfeit currency. See Citibank, next below.

(4) Citibank's Great Chinese Gold Robbery

The Chinese have always hoarded gold, and they were doing so when Citibank came into China on the verge of bankruptcy and needing a clever way to rebuild its asset base. Citi found it. The bank advertised throughout the nation the insecurity of keeping gold bars in a sock under the bed, and managed to convince at least 100 million Chinese to deposit their gold in Citibank's vaults where it would be safe, exchanging the real gold for little pieces of paper purporting to be "gold certificates". Citi and the other

Jewish banks did this for several decades, but the practice exploded during the 1930s. Near the end of the decade when the war clouds were gathering, *Citi loaded literally dozens of US military vessels with all that Chinese gold, and simply closed its doors and left.* The gold, of course, would all have been turned over to Rothschild's FED in return for paper. People today are still trying to recover their gold from Citibank. I covered this in detail in a prior article that you may care to read.[\[6\]](#)

There is much more to this story, since Citibank and the other Jewish banks pulled the same stunt in at least a dozen countries. If it works in one place, it should work everywhere. At the same time that Citi (International Banking Corporation) registered itself in China, it also opened banking operations in Manila, Calcutta, Singapore, Yokohama, Brazil, Argentina, and in other countries. The amount of gold stolen by the Jewish bankers and Citibank from citizens of all these countries must have been in the tens of billions, with all apparently working from a standard template in use all over the world.

(5) The Worldwide Gold Robbery – The US FED

Custodian of the world's largest gold storage reserve (about 5,620 metric tons)

As I noted in a prior essay on *The World's Richest Man*, this is one of the most staggering frauds ever perpetrated in the history of the world, one that seems to have been expunged from all our history books, to the point where I doubt one person in a million has any knowledge of it. Like all good frauds, it was simple: From 1932 until the start of World War II, the US government and the Jewish media were extravagantly

fear-mongering to the entire world that either Japan or Germany would be invading every nation and inevitably looting all their central and commercial banks. *The solution offered was for all the banks in all the world's nations to turn their entire gold reserves over to the US FED for safekeeping until the war was over.* And they did. Every day, the *New York Times* faithfully recorded shipments of millions of dollars of gold bullion from all these nations to the US. *One NYT article claimed seven US naval destroyers laden with 125,000 metric tons of Chinese gold sailed to the US in 1938,* one of many such, and these transfers were from friends as well as enemies, *with Canada and Western nations succumbing to the same propaganda.* These “deposits” were evidenced by gold certificates issued by the US Treasury, *although the gold actually went to the US FED.* However, there doesn't appear to be even a single credible instance of any of this gold ever having been returned to its owners. In every case, the FED stated that the certificates proffered were either forgeries with obvious spelling and other errors, or that they simply “could not confirm the issuance of certificates” with those serial numbers, and refused to redeem them.

But then some very strange events. *A CIA aircraft was discovered crashed in the jungle of the Philippines, containing trillions of dollars of these same certificates, and clearly originals and not forgeries.* Upon that discovery, with the attendant publicity and the surfacing of voluminous and determined redemption claims for these certificates, the FED panicked, leading to something truly bizarre: *the FED suddenly decided to remelt and recast its entire holding of gold for the stated purpose of “preferring to have all their gold ingots in the same shape”.* No explanation was offered, but then none was really necessary. Remelting hundreds of thousands of tons of gold is a huge undertaking, complicated and very expensive, and would never be done for the foolish reason of changing the shape of the bars. Whatever the FED's stated purpose, the main result was that remelted gold no longer contains its original markings, which meant there was no longer any way to identify the original source of that gold. And that meant no one could ever prove the gold held by the FED was the gold that was – in real terms – stolen – from nearly every country in the world. I covered this briefly in the above-referenced article, reference[4], and extensively in the above-referenced E-book, reference[5]. *I urge you to read the longer version.* It is a fascinating story. In simple terms, the Jewish bankers took for “safekeeping” most of the gold bullion from the Central Banks and commercial banks in most countries of the world, and did so with absolutely no intention of returning it.

One famous instance was the gold stocks from China's central bank. When Chiang Kai-Shek lost the Chinese civil war and fled to Taiwan, his last act was to loot all the gold from the central bank of Mainland China and the commercial banks, and take the tonnes of bullion with him to Taiwan – under the protection of the Americans. To further their protection, the US convinced Chiang to let them take the gold to the US “for safekeeping” in case China attacked Taiwan and stole “his” gold. *This bullion was never returned.* In fact, long after her husband's death, and until the day she died, Mme. Chiang was arguing, fighting, begging, and suing, the US government and the FED for the return of “her” gold. She failed, and the matter died. Taiwan today has no knowledge of this.

BREXIT

Briefly, Hitler killed Rothschild's privately-owned German Central Bank and kicked all the Jews out of the German banking system and the government, removing them from most places where they could continue to harm the German economy. In retribution, International Jewry launched a worldwide economic embargo intended to strangle Germany's economy and starve to death a large portion of the German population since Germany could produce only enough to feed perhaps 70% of its population and, with the embargo, the country would (hopefully) have foreign currency earnings much insufficient to purchase the necessary food.

At the time, many large and small retailers (in many countries) were Jewish, most of the large wholesalers were owned by Jews as were most of the large importers and a majority of the ships or shipping lines. The plan was that no Jewish company of any kind (nor any Gentile company over whom the Jews could exercise banking or other leverage) would deal in any German goods of any kind. Moreover, Jews and Jewish-owned banks would refuse to finance any part of the movement of German goods, and Jewish insurance companies would refuse to insure either the goods or the vessels carrying them. Brokers would refuse to trade in shares of German companies. Also, a great amount of the shipping capacity of the time was owned by Jews, and no Jewish ship would carry German goods. Where the Jews didn't own or control the companies, they would exercise much leverage and pressure on banking and finance, on advertising, on transport, and virtually force Gentile companies to submit to their wishes, much as they do today with "sanctions" and other pressures. *The embargo was to be*

worldwide, and total. Many ads were placed by Jews in media publications, whether Jewish-owned or not, imploring all citizens of every nation to totally boycott all German goods. I won't provide further detail here. This topic was covered in some detail in a previous article you can access [here](#).^[7]

(7) The Attempted 1933 Jewish Fascist Coup in America

President Franklin D. Roosevelt, and Secretary of the Treasury Henry Morgenthau, Jr.

The Khazar Jews in The City of London, working through a group of American financiers (including George H. W. Bush's father **Prescott Bush**), made an abortive attempt in 1934 at overthrowing the US government and installing a fascist dictatorship. **General Smedley Butler**^[8] was a heavily-decorated and much-admired war hero in the US, especially revered by all the soldiers of the day, and this is the man the conspirators chose to head their new fascist government. Of all the parts of world history that have been deeply buried, this one event has been so thoroughly sanitized by the media, book and magazine publishers, libraries, by even the educational institutions, that there might not have been any person who contained this information in his accessible memory. *However, an obscure clerk in the Library of Congress accidentally stumbled upon an original copy of the Congressional Hearing into the event, and inexplicably sent it out for publication.* Enormous efforts have been made to bury it again, and still very few people anywhere are aware of it, but at least it is now in the public consciousness. I published an earlier article on this event which can be accessed [here](#).^[9]

The cabal of plotters offered Butler \$3 million to assemble an army of 500,000 men to overthrow the Roosevelt government, after which they would install a fascist dictatorship with Butler as the figurative head. Roosevelt would be forced to abdicate his position as President and would appoint Butler to the Cabinet in a newly-minted position as "Secretary for General Affairs," leaving him to rule the country while Roosevelt remained a figurehead. The Vice President and Secretary of State would resign while Butler assumed the additional role of Secretary of State. Private testimony from various individuals contained in separate documents claims that *should Roosevelt have refused to go along with the plan, he would have been killed.* The conspirators told Butler they had \$300 million in ready cash on hand, and as much as \$800 million if necessary to achieve their objective. The money would be used to pay for Butler's temporary army,

and also to the Remington Arms company who were eager to supply the needed weaponry. Unfortunately for the bankers, Butler was more loyal than greedy and informed Roosevelt of the plan, then provided full testimony under oath to Congress.

A note here is in order about the volumes of money involved. In many cases, it serves no useful purpose to compare today's value of a currency with that of a prior date, by simply applying the prevailing depreciation rate over time, because other comparisons are much more valid and meaningful. Consider the \$3 million offered to Butler to lead this scheme. The statistical tables tell us that a 1934 dollar would be worth perhaps \$22 today, but keep in mind that *in the early 1930s, the typical salary for an average working man was only little more than \$1,000 per year*. This means that the \$3 million in "cash in advance" offered to Butler as a bribe was actually about 2,500 to 3,000 years of an average man's salary. You can consider the \$300 million and \$800 million in a similar light.

The US Congress conducted an official investigation – **the McCormack-Dickstein Committee**[\[10\]](#)[\[11\]](#), confirming as true everything Butler had told them, *but published only a carefully sanitized report that confirmed the event but deleted the names of the plotters, and then suppressed the entire affair*. The Jewish-controlled media ignored the story, except to openly ridicule Butler for attempting a hoax, then resolutely let the matter die. You can access the original Congressional Document here, in two versions.[\[11\]](#)[\[12\]](#). The **BBC** performed an investigation and produced a rather tepid documentary program on the topic.[\[13\]](#)

The final reports stated "*The investigations mysteriously turned to vapor when it comes time to call them to testify*", and Butler himself reviled the US Congress for their cowardice, saying, "*Like most committees it has slaughtered the little and allowed the big to escape. The big shots weren't even called to testify. They were all mentioned in the testimony. Why was all mention of these names suppressed from the testimony?*" But there is something else here, of enormous interest. One of the documents supporting Butler's claims stated that "**The conspirators either (1) remained abroad and beyond the reach of the Committee, (2) outright denied Butler's claims before the Committee, or (3) simply claimed ignorance, and the inability to account for large sums of money.**" Rothschild and other Jewish bankers in the City of London are not mentioned by name in Butler's writings, but it was clear from his Congressional testimony that the movement originated in Europe and, **in the midst of the Great Depression in 1934, who else had that kind of money?**

The Takeover of China

T.V. Soong with his sister, Mme Chiang Kai Shek

The Jews couldn't convert **Mao Zedong** to their psychopathic version of savage Communism as they so successfully did in Russia, so they abandoned Mao and threw in their lot with **Chiang Kai-Shek**. They financed Chiang and helped bring him to power because they had in their hands an ignorant puppet through whom they could take over all of China. And, with the eager assistance of the traitorous **T. V. Soong**, they very nearly did exactly that. Through Chiang and Soong, they had taken over China's central bank and nearly all of the country's commercial banks, and were having Chiang finance his military takeover entirely on credit, forcing the commercial banks to purchase vast amounts of government bonds which had absolutely no hope of ever being paid or redeemed. In fact, they were printing so much money they had China very nearly in a position of massive hyperinflation, at which point they would have entered the country en masse and purchased almost everything of value for literally pennies – *the same vicious disaster they inflicted on Germany only a few years earlier*. The Jews were determined to not only control all of China in absolute terms (through their puppet Chiang), *but to loot the entire nation, to utterly destroy and collapse China's economy, and end up owning and controlling all of it*. They very nearly succeeded. They just didn't count on the massive public support behind Mao, and had no expectation of Mao winning the civil war and driving Chiang out of the country.

This is the source of all the Jewish claims we see today about how there were “countless Jews in the Chinese government”, their influence on China’s development, and how Jews “contributed greatly” to the “creation of the New China.” As proof, we see all the photos today (all prepared by Jews) purporting to be Jews advising various Chinese leaders. But these historical revisionists omit one incontrovertible and indisputable fact: that, *after the war, Mao kicked every single, solitary, last Jew out of China* – and confiscated all their ill-gotten assets on departure. I don’t know about you, but this doesn’t sound to me like someone deeply appreciative of the “contributions” made by the Jews to the “creation of the New China”. The Jewish history websites tell us that the Jews “left China quickly” after the war, but without specifying the reasons or circumstances under which they left. It is true there were a few Jewish malingerers who returned to China after the war but, when their agendas were fully exposed, they were also evicted.

Preparation for WWII

Also, during the 1930s the Jews in the City of London were already making extensive preparations for World War II, intended in part *to accomplish the final destruction of Germany as well as the gradual dispersion of the German race*. From the precursors of the Tavistock Institute was coming a veritable flood of anti-German propaganda, the typical false and outrageous tales we have come to call “*atrocities porn*”, and all constituting an enormous “*hate campaign*” against Germany in the same fashion as done to precipitate WWI.

I have covered this latter topic in full detail in Chapter 2 of an E-book titled “Bernays and Propaganda”[\[14\]](#)

which, if you are unfamiliar with this, will awaken you to a portion of the world you may not have known existed. I urge you with all earnestness to read this Chapter. Without this background, you cannot properly understand the events occurring today with Russia, China, and Iran. You cannot. It is of such extreme importance to our world affairs today that I urge you to consider this reading mandatory.

One reader posted comments on the use of Hollywood’s movies in this war-mongering context, stating, “It’s largely forgotten now, but there were multiple movies released within Anglosphere countries in the late 1920’s and early to mid-30’s each telling us (conditioning us?) that there was going to be a world war taking place by the specific year of ‘1940’, typically making it plain that Germany was to be a prominent adversary. I know of three of these right off the top of my head, though there were almost certainly others.” He lists these three:[\[15\]](#)[\[16\]](#)[\[17\]](#)

Connecting the Dots

How are all these events connected? They are connected because the Khazar Jews in The City of London were executing all of them simultaneously. While having just

instigated the most bitter depression in living memory and planning the subsequent swallowing of the world's banks and industrial corporations, they were concurrently executing a previous plan to confiscate all the gold and silver held in private hands in the US. At the same time, their banks were heavily engaged in stealing all the gold holdings in private hands in foreign nations, taking gold for "safe deposit" in exchange for certificates they had no intention of ever redeeming. Concurrently again, they were also engaged with the US Treasury in stealing all the silver in private hands in China, in exchange for counterfeit currency. At the same time, they were busily engaged with the US Treasury, State Department and military in stealing all the gold held in the world's central banks and commercial banks, again in exchange for "certificates" they had no intention of ever redeeming. Concurrently with this, they were executing their Economic Boycott intended to literally "*strangle Germany to death*" while confiscating German assets abroad, and at the same time they put into motion their planned overthrow of the US government and the installation of a fascist dictatorship under full Jewish control. Yet again concurrently, they were completing their final takeover of China, solidifying their ownership of Chiang Kai-Shek and of China's central and commercial banks while simultaneously attempting to throw China into an unparalleled hyperinflation to permit the wholesale looting of the entire industrial assets of that nation. And again concurrently, the Jews were launching the preparations for World War II, with the help of their compliant media beating the war drums almost daily.

I think we can fairly state that the Jews in The City of London were very busy indeed during the 1930s.

Consider the Planning, Logistics, and Control Required for Execution

Buying up the cream of all the failed banks and industrial corporations is not something we do with three or four people. *The planning and execution would have involved quite a large number of "agents" scouring the landscape for appropriate targets, in many countries.*

Similarly, the seizures of all the privately-held gold and silver in the US was not a scheme planned carelessly in casual conversation. The plan was well-thought-out, with ads placed by both the government and the FED, and with full Jewish media support. It would be a certainty this was planned in The City of London, and presented to Roosevelt only when ready to execute. Think for moment of the machinations that must have occurred behind the scenes to have brought such a scheme to fruition. Roosevelt was not a stupid man. He had to know what he was doing in the passing of that bill, and the effect it would have on the already-impooverished citizens of the nation. And yet he did it, with even the courts ruling the act was unconstitutional. How much power must have existed over Roosevelt by the Jews to have pressed him to commit such an act of treason against his own people? How much influence must they have had over the elected members even then, to have Congress meekly sit quietly and accept this travesty without complaint? And how much control over the mass media even then, to

create public support for such a venture? *These are serious points to ponder, not questions to be dismissed.*

Add into this equation the concurrent – and very deliberately-planned extraction of all the silver in China, the collapse of the country's currency and deliberate destruction of the economy, and all done with counterfeit currency. Think also of the machinations and planning require to coordinate all those Jewish-owned “private” banks to launch what was essentially a world-wide program to steal all possible gold holdings in private hands, not only in China but in all the world's second and third-tier countries. This also was not a casual or independent effort by one bank in one country, but rather by many Jewish-owned banks in a great many countries – and all being done at the same time, and with counterfeit local currency. *There is no question that all this was an extensive criminal plan to be executed on a vast scale.*

Add further into this equation the obviously-planned and cleverly-executed scheme to steal all the gold bullion possible from the Central Banks and commercial banks in the entire world, friend and foe alike, and the intense coordination which must have been necessary with various branches of the US government, the White House, the Embassies, and the US military, as well as the overwhelming provocations contributed by the Jewish-owned media. *This is not the kind of venture one plans on the back of an envelope in a coffee shop.*

Add further the intense planning and coordination necessary to launch a world-wide boycott of Germany, of the feverish activity that must have been necessary to launch such an endeavor in only a few months. Think also of the worldwide coordination of all the Jewish media in support of it, and the efforts required to organize massive rallies and demonstrations in hundreds of cities worldwide, often with 40,000 to as many as (it is claimed) 100,000 people in attendance.

Then consider at the same time the very careful planning that must have gone into the attempted fascist coup, an astonishingly-bold plan for these Jews to take control of the US government in a fascist dictatorship – albeit carefully done with the (as always) use of a “Gentile Front”, so few if any Americans would actually be aware of the ethnic identity of their new masters. *And add into this portion the concurrent, and total, takeover of the government and economy China, as well as the commensurate plans for the intense hyperinflation and subsequent looting of the nation.*

Consider the amount of planning and financing that must have been necessary for such an enormous endeavor as to take control of an entire huge nation such as China, and the extent of control they had achieved, not only buying and owning Chiang, but having such competent and traitorous compradors like T. V. Soong to assist them in the looting and destruction of their own nation. This also is not the kind of planning done on the back of an envelope in a coffee shop; *it would have required many years of planning, many contacts and conversions of individuals, and a great deal of active, hands-on management to have accomplished such a thing.* Even just the looting of the banking system and the economy would have required much advance thought and planning, to

say nothing of the financing and execution of the civil war. This was a massive project, and in the hands of many able Jewish lieutenants to have progressed as far as it did. And this was being done concurrently with the extraction of all the silver from the country that was backing the currency at the time. That in itself was an enormous project requiring huge amounts of active participation from both Jews and internal traitors like Soong.

And while all this was happening, the same Jews were busy finalizing plans for World War II.

Think of all the planning required to bring each one of these separate schemes to fruition, the logistics necessary, the cooperation between so many portions of International Jewry and the media in all nations. Think of the influence and of the virtual absolute control these people must have had over the US government, even back in the 1930s, to have not only forced such atrocities onto the US government but to have obtained what appears to have been willing American participation in these criminal psychopathic schemes of such widespread theft on an international scale.

How many people, of what capability and level of competence, would be necessary to plan and execute all of these schemes simultaneously? In reality, probably a few tens of thousands in all fields and at all levels, to make all these things happen. But when we consider the enormity of these criminal ventures and their vast reach, it is as if virtually the entire mass of worldwide Jewry, 15 million or more people at the time, shared a common dream of not only looting all the nations of the world but of subjugating and controlling them, with all Jews reading from the same approved script, and all willingly contributing to the success of these plans.

Epilogue

This is not different in substance than what is happening in our world today with Russia, China and Iran, and not different in substance than what has happened in the recent past in Yugoslavia, Greece, Iraq, Libya, Syria, and more. These are all reflective of the same attitudes, the same ambitions, and the same psychopathic criminal intentions.

And, if we were to examine the past more closely, ignoring the false, rewritten, or deleted histories, one period that would demand our attention would be the years from roughly 1800 to 1900, when Rothschild and Sassoon were in their prime and engineering the total looting and almost total destruction of India and China, while engaging in the greatest criminal drug-trafficking enterprise in the history of the world. This was also the time of the Boer Wars, the colonization of the Philippines, the Jewish financing of the North American railroads, their financing of the Panama Canal and Railroad, and so much more, all accompanied by an astonishing level of the kidnapping of millions of Chinese slaves to work all these mines and provide all the free slave labor for these enterprises. This era contains an almost unimaginable volume of human slaughter from both execution and planned famines, with India alone easily

documenting more than 100 million deaths, and some estimates doubling this number. These same Jews at the same time in China, launched their retribution against the Taiping's, resulting in the bloodiest war in human history with a documented 70 million to 90 million dead – just to protect the drug profits of Rothschild and Sassoon. And this period contains yet much more, too much to list here.

The Boer Wars were a British story, but the manuscript was written entirely in Jewish handwriting. In like fashion, the two World Wars, the British and Dutch East India Companies, the unconscionable looting, famines, and slaughters of India, and China's opium century with its vast atrocities of slaughter, misery, and slave-trafficking, were "British stories", but the manuscripts for these were also written entirely in Jewish handwriting. Similarly, the stories of Yugoslavia, Greece, Iraq, Libya, and Syria today are "American stories", but these also were written entirely in Jewish handwriting.

Yes, the Khazar Jews in The City of London were indeed very busy in the 1930s, but that wasn't the only time they were busy, nor the only time they executed similar plans with similar results. And the process is by no means even decelerating, much less ceasing. **But it is only when we are fully aware of their history and of their past exploits, that we have a framework into which we can put events of other time frames and see the entire picture accurately.**
