

# “The Season of the Rapture”

## Chapter 2

You learned in chapter 1 that God embedded a hidden numerical value within the Hebrew text of Isaiah 19:19-20 and its connection with the Great Pyramid of Giza. The numerical value in those 30 words of that passage is **exactly the same value in Pyramid Inches as the height of the Great Pyramid of Giza**. This cannot be overemphasized as to its importance. The “Gematria” value for that passage is “5449” and it is equal to the height of the Great Pyramid or “5449” **Pyramid Inches** from its base to the apex of the unfinished top. Furthermore, I postulated that if we were able to add the capstone to the unfinished top, it would climb to a height of “5776” in Pyramid inches. This is the same as God coming down and telling us when it’s all over for mankind! Jesus Christ was not far afield when He said even the stones would cry out: ***“And he answered and said unto them, I tell you that, if these should hold their peace, the stones would immediately cry out”***. –(Luke 19:40). The **“Gospel in Stone”** may be falling on the deaf ears of theologians, but I assure you that is not the case in the scientific and mathematical communities.

**It happens that the Hebrew year “5776” corresponds to our most recent Gregorian year 2016!** Rosh Hashanah (literally means "head of the year"), is the Jewish New Year. It is the first of the Hebrew fall High Holidays. Rosh Hashanah is observed on the first two days of Tishrei, of the seventh month of the Hebrew calendar. It is described in the Torah as Yom Teruah, and as a day of sounding the Shofar (Trumpet). **The feast of Trumpets or Rosh Hashanah was last observed October 2/3rd of 2016. The implications are profound when validating everything we know about the Lord Christ Jesus calling His Bride (the Church) home to meet Him in the air!** But there is more evidence that leads to a similar conclusion! The occurrence and reoccurrence of these dates “2016” and “2017” is pronounced in this study.

In order to provide the most important details, I have condensed much of the Great Pyramid’s mathematical evidence into to some of the essentials. These will prove that the Great Pyramid was not likely built by Egyptian peasants living in mud huts. The entire study is more than enough to fill a 400-page book. At this point, the time remaining is critically limited. We are in **“The Season of the Rapture”**, of that I have no doubt and document the evidence in this study. Hopefully, the following evidence will make it crystal clear by validating God’s Master Plan as revealed through the **“Three-Fold” Witness** noted in Chapter 1.

The oldest historical writings known to man state the Great Pyramid was planned and designed by the Creator using Enoch and Seth to oversee its construction. The reasons for such are revealed in Isaiah 19:19-20. The facts will show that only a mathematical mind of infinite wisdom and knowledge could have possibly orchestrated such a massive venture. This is proven in many ways. For example, the interior measurements have **four primary mathematical constants or properties built into their design**. These could not have been known to man 4,500 years ago. The absence of these constants is evident in other later failed efforts to replicate the Great Pyramids elsewhere in Egypt. There are literally hundreds of

measurements contained within the Great Pyramid, but there are four that specifically preclude this being an exclusive man-made creation structure. These four could only have been revealed by the Creator at the date of its construction. I might add that the Great Pyramid is the most measured structure in the world, many times over. These four properties are:

1. Pi  $\pi$  or 3.1415926
2. Phi  $\phi$  or 1.6180339887
3. Calendar Year = 365.244 days
4. A fourth mathematical property reveals the Precessional (orbit of Earth around the Sun) cycle, commonly stated or accepted to be **25,920** years. By adding the diagonals of the four sides of the Great Pyramid, we find that it equals the Precessional cycle, with 1 Pyramid Inch = to 1 calendar year. The measurement of the diagonals of the four sides when added together gives a total of **25,826.6** years. This figure is less than one hundred years over the course of the Precessional cycle of **25,920** years. Absolutely astonishing!

This variance is related to the fact that the Earth wobbles [like a drunk] as it rotates and is not a perfect sphere in its shape. It bulges at the equator and tends to flatten at both poles. The “Precessional” refers to the time the Earth takes to revolve around the Sun and back to its starting point. As the Earth rotates on its axis, it is simultaneously rotating around the Sun as well, and this is called the “Precessional Cycle”. This mathematical property was first known around 150 B.C., and was discovered by the Greek astronomer/mathematician Hipparchus. He was an active astronomer from 162 to 127 B.C., at least two thousand years after the Great Pyramid was constructed. Keep this “wobble effect” in your memory, as it is a factor that is not taken into consideration in studies such as “The Season of the Rapture”.

Hopefully, the mathematics will not scare you away, as it does with so many when trying to teach the validity of Scriptures relating to the Great Master Mathematician of the Universe. As an aside example of such accuracy, when Jesus rode into Jerusalem, presenting Himself as the King of the Jews, on **Palm Sunday of 32 A.D.**, it was **precisely 173,880 days** from the date that Artaxerxes granted Nehemiah the necessary papers, funds, and necessary documents to return and build the city walls of Jerusalem, **all within an accuracy of 99.9999%**. This variance amounts to slightly less than two days or fewer than 48 hours over the course of 483 years. Keep this figure in mind for it plays an important aspect in the closing section of this study. When it comes to God’s precision, this is nothing to sneeze at. Even this miniscule amount can be reconciled by mathematical and astrophysics studies.

The above identified four mathematical properties or principles could not have been known to man 4,500 years ago. It is certain proof of a Creator who left us the hidden clue in Isaiah 19:19-20, which speaks to the Great Pyramid’s existence as **“a witness”** to the Lord. Isaiah was written roughly 700 years before Jesus Christ was born in Bethlehem. **The Precessional Cycle**, for example, was not discovered or known until **150 B.C.** **Note:** These are not the only proofs, but they are some of the most important in determining the identity of **the**

**builder.** Given time, I could show you hundreds of properties that give us a 'silent witness' as to its designer! In fact, some scholars refer to the Great Pyramid as the "Silent Witness".

Unfortunately, the television media has deceived [lied] the public for decades with regards to the Great Pyramid. The *History Channel*, *Discovery Channel*, *National Geographic*, *PBS*, and others have intentionally deceived the public about the truths hidden within the mathematical properties of the Great Pyramid and the mysteries embedded in stone. I have been studying Bible prophecy since June 8, 1967, and I have viewed all of the documentaries produced for public consumption over the past two decades. The deception is blatant in how the public has been intentionally deceived through corrupt media to which the public is oblivious. 'Fake news' did not begin with last year's elections. Have you viewed the Netflix 5-part series "*The Pyramid Code*"? This was the work of a New Ager's attempt to take the public focus off the Pyramid and the Bible's connection. The producer and director of this series is one of the adversaries' minions who has set about to deceive the general public.

Dr. Carmen Boulter is a professor of Educational Curriculum at the University of Calgary, Canada. She is not a scientist, or an archeologist, or an engineer, or a physicist, or a mathematician, or an astronomer. Her Ph.D. is in fact, in Educational Curriculum. She possesses no expertise in Egyptology or any relevant academic discipline that could provide substance and depth to the Mystery of the Great Pyramid. She is one of a series of so-called experts who want you and the world to believe the Great Pyramid was a tomb that housed a dead Pharaoh but then never explains to her audience that there was not so much as an Egyptian word found inside the Great Pyramid when it was broken into in the 9th century. The 5-part video is a fabricated deception, a fake, and a sham that may entertain first graders but offers nothing to prove her speculation. Her arguments are not grounded in actual fact or substance.

Even within the field of professional experts on the Great Pyramid, her work is ridiculed and trashed as elementary school entertainment. She exaggerates her work as an "Epic Documentary" on her web site. One reviewer and debunker referred to it as "rubbish". Others have called it "more junk science on TV".

It was the use of interviews with important scholars and experts in their own right that saved her so-called 'expertise' and her brand of pseudo-science. The fact that she never mentions the hundreds of mathematical properties contained within the Great Pyramid is most telling. Instead, she kept beating the drums with her New Age beliefs and her "Band of Peace".

She has moved on to produce a new fake documentary on the "New Atlantis" and has established a "gofundme" site to promote her "New Age" distortions which she passes off as real science.

Along with such persuasive but colorful commentators like Giorgio Tsoukalos, David Childress, and Erik von Daniken (who died in 2016) they have managed to deceive millions into believing ancient aliens are responsible for the Great Pyramid.

I suspect that when I offered my research to several of the television, radio and internet ministries, they must have decided to lump me in with the other loonies of the ‘Ancient Alien’ crowd. That said, the evidence stands on its own, and is not refutable. Nonetheless, the serious research that has been done has been tainted by the poisoned well of those Lucifer has persuaded to do his bidding in the art of deception.

We now turn to another truly spectacular example that shows how “Gematria” reveals the wonders of God, as well as bearing His fingerprints just as clearly as those left at the scene of a crime. God’s self-evident identity is found all over the Sacred Geometry hidden within the Great Pyramid. This time, we will be looking at the “Gematria” for the phrase **“Lord Jesus Christ”**. A bit of a recap is needed here; the “Gematria” or numerical value of the Greek and Hebrew is tied directly to each letter of either language. In this example here, the phrase **“Lord Jesus Christ”** has the “Gematria” of **“3168”**.

The number **“3168”** is not a number that I or someone pulled out of thin air, nor is it a random number – **it is the number of His Name!** When He created the Earth to be home for us, He even made the dimensions to fit into a square having a perimeter of **31,680** miles. Even as He became a man, giving Himself for a ransom, He came as a baby born in an obscure place called Bethlehem of Ephrathah. Bethlehem lies at a latitude of **31.68** degrees north, which is by GPS measurement just 2 miles south of the present day Bethlehem.

Thirty-three years later, more precisely 33.6 years later, He hung on a cross outside the walled city of Jerusalem, at a spot called Golgotha, in fulfillment of the prophecy found in Isaiah 53:11: **“He shall see of the travail of His soul, and shall be satisfied: by His knowledge shall My righteous servant justify many; for He shall bear their iniquity.”** I’ll share a secret with you here: the “Gematria” of this prophetic passage has a “Gematria” value of **“3168”**. Isn’t God simply wonderful? His creative infinite wisdom, power, intelligence, and even His humor were used chiefly to make Himself known to you and me in order to establish a relationship with Him! It’s this kind of evidence that simply destroys and undermines the faulty reasoning behind books like *‘The Rapture Verdict’* by Michael Snyder, a post-tribulation believer. The Bible

contains thousands of “diamonds and nuggets” which make it clear that ***“Deliverance comes before Judgment”*** and this is a major theme in the Bible. The question or motif of ***“Deliverance before Judgment”*** appears over **275X** times in the King James Bible.

Here is another example where the “Gematria” or numerical value of a passage adds up to His number – **“3168”**. Take the Psalm referred to as the “suffering servant” -(Psalm 22). It reveals another aspect of His love for you and me. ***“A Psalm of David, My God, My God, why have You forsaken Me? Why are You so far from saving Me, so far from the words of my groaning? O My God I cry out...”*** The portion of the passage that is underscored above has a “Gematria” of **“3168”**. This picture of the agony that our Lord suffered is heightened by the fact that, at that dark moment, the Father turned His Face away from our Passover Lamb. In the Psalm of Ascent, -(Psalm 132:10-11), we are given a picture of the Lord Christ Jesus on the throne of David, a foretaste of what is to come. ***“For the sake of David Your servant, do not reject Your Anointed One. The Lord swore an oath to David, a sure oath that He will not revoke: One of your descendants I will place on Your throne.”*** Once again, we find another passage that bears the “Gematria” signature of **“3168”**. The underscored portion of the passage has a “Gematria” of **“3168”**. I could go on and on with example after example of this mathematical factor or numerical design.

I have a ‘Mathematical Bible’ that I generated years ago when I was a computer programmer working on putting the KJV Bible onto computer tape, for electronic search and study. I generated it for my own study and research, a ‘Mathematical Bible’ which is close to 5,000 pages in length. If anyone of you is a computer programmer, you know what a source code is. Consider that God gave us a base or “source code” that lies beneath the surface of the original Greek Textus-Receptus and the Hebrew Masoretic Text, which were used in translating the King James Bible. I repeat my point made earlier, the KJV Bible is **98.2% accurate**, and the remaining portion of **1.8%** in no way alters the surface text message or meaning! Think of the Bible’s “source code” as akin to our human biological “DNA” double-helix ladder.

Returning back to the Great Pyramid, the base of the Great Pyramid is “36,524.3” Pyramid Inches, or the equivalent of **“365.244”** days per our Roman Gregorian calendar year. That is astonishing in and of itself; however, that’s only the beginning. The number **“3168”** found in the Pyramid’s base is **“3168”** Roman palms, and two sides equal **“316.8”** Roman paces, or **“0.3168”** Roman miles. Three sides equal **“0.3168”** Roman leagues and four sides equal **“3168”** Roman feet. The number **“3168”** pops up everywhere and in different formulas.

In June of 2015, a team of scientists measuring the pyramid base stated that the Great Pyramid is 14.9 centimeters slightly longer on the western side than on the eastern side, and the team stated that it is just a hair’s breadth at those dimensions. The *‘London Daily Mail’* June 20<sup>th</sup>, 2016 edition bore the headline: ***“The Leaning Tower of Giza: Engineers Discover the Great Pyramid is Wonky”***, certainly an exaggeration since 14.9-centimeters = 5.86614173 inches, slightly wider than a man’s hand. The team was confronted with issues of missing casing stones at the base of the Great Pyramid and their findings revealed nothing about measurements taken using the four corner sockets that extend out beyond the existing base

casing stones. The 7-page findings of the researchers conducting the measurements certainly posed little evidence for questioning the work of Enoch and Seth.

The entire scope of “Gematria” is largely discounted and ignored by the theological academic world. Some of the greatest discoveries in the Bible have come from the disciplines of Mathematics, Engineering, Physics, and Computer Science, and the theological academic community turns a deaf ear to these folks. The work of Del Washburn, author of *‘Theomatics’* and *‘Theomatics II’* offered evidence of a major contribution to this subject of a mathematical basis to the text “Gematria” of the Bible. The very title “Theomatics” is a conjunction of two words: “Theology” and “Mathematics”. We are also indebted to the work of the late Bonnie Gaunt, author of many books on God’s mathematical world and numerical patterns.

We have just scratched the surface of this pattern and theme structure of the Bible. By now, it should become quite evident that the Great Pyramid is not of human origin. The public has been lied to repeatedly with claims that its builders were extraterrestrial aliens or that it was a giant energy plant. There are hundreds of examples where “**3168**” is part of the internal mathematical properties of the Great Pyramid. What follows below is a variety of examples where we find the amazing number “**3168**” revealed in various aspects of Sacred Geometry that otherwise we would have rarely ever give a second thought to. Note: Many of these “**3168**” patterns **are mathematical reductions from recognized established measurements**. They have been determined by Christian and secular mathematicians and scientists in Mathematics, Physics and Astronomy. I have included fewer than half of the examples yielding the “Gematria” of “**3168**”, and the number “**792**” often appears with “**3168**”:

- A square enclosing our earth has a perimeter of **31,680** miles.
- The diameter of our earth is **7,920** miles.
- The radius of our earth is **31,680** furlongs.
- The combined circumference of earth and moon are **31,680** miles.
- The distance light travels from our Sun to Earth, when stated in inches and divided by the speed of light equals **3,168**.
- The birth place of Jesus of Nazareth on the southeast side of Bethlehem is at **31.68**-degrees latitude north of due east looking into the rising of the morning Sun. The opposite angle to the south bisects the real Mount Sinai in Saudi Arabia.
- The earthly life of Jesus began at Bethlehem and ended at Jerusalem. The distance between the places of His birth and of His death is six miles, or **31,680** feet.
- The place where Jesus was baptized (Bethabara) is 18 miles from the city of Adam, which is **31,680** yards. When Joshua, whose name is Jesus in Hebrew, had the priests hold the Ark of the Covenant in the middle of the Jordan, the water receded all the way back to the city of Adam, picturing the atonement for the sin of Adam.
- This number “**3,168**” appears throughout the Old and New Testaments. As an example, the dimensions for the construction of the Ark that God gave to Noah add up to **3,168** cubits. **This is significant because the Ark represents Jesus Christ and Salvation.**

- Water solidifies at **31,680** degrees Fahrenheit.
- **31,680,000** feet = perimeter of the New Jerusalem.
- **31,681** MMi. (Million Million inches) = perimeter of the Moon.
- **316,800** MMi. (Million Million inches) = distance of the Sun from the Earth.
- **316,800** inches = perimeter of the Cities of Refuge.
- **316.8** feet = the Sarsen Circle (Stonehenge) circumference in Wiltshire, England.
- **3168** = the sum of the “Gematria” of the 12 stones on Aaron’s Priestly Breastplate.
- **31680** divided by 6 (God’s number for man) = **5,280**, the number of feet in a mile.
- **3168** = 144 (spirit guided) X 22 (letters in the Hebrew alphabet).
- **3168** = Jesus was the light of the world in a very real sense. Divide the distance from the Sun in inches by the speed of light and the answer is, you guessed it!
- **31,680** in “Gematria” = the names of the twelve Patriarchs (Jacob’s sons) combined.
- **3,168** inches = Combined Perimeter of the Holy and Most Holy Rooms of Solomon’s Temple.
- **31,680** Feet = Perimeter of the Millennial City of Ezekiel’s vision.
- **31,680,000** Feet = Perimeter of the New Jerusalem.

In all of the above examples noted, there is an incredible story behind each specific example worthy of our interest. Here are three more passage portions only (underlined) of the New Testament that yields the mathematical property of “**3168**” in “Gematria”:

- ***“And that every tongue should confess that Jesus is Lord, to the glory of God the Father.”*** -(Philippians 2:11).
- ***“For there is one God, and one mediator between God and men, the man Jesus Christ;”*** -(2<sup>nd</sup> Timothy 2:5).
- ***“Now after John was put in prison, James came into Galilee, preaching the gospel of the kingdom of God.”*** -(Mark 1:14).

The reason for this closer look at the number “**3168**” is to demonstrate the existence of various mathematical properties and principles within the Biblical text sending us a message. Additionally, the “Gematria”, or numerical value of both the Greek and Hebrew letters suggests there is overwhelming evidence revealing that the Great Pyramid is the product of a Master Mathematician and Designer. Need I tell you His Name? The number “**3168**” is of no minor consequence as the research of Dr. James Heyworth of Queensland, Australia, reveals. His research titled “The Great Design” was added a few years ago and is likely one of the greatest contributions to our understanding of the mathematical properties and relationship between the Sun, the Moon, and the Divine! The take away point here is we have proof many times over that the Great Pyramid is a Creation of God for the purpose of communicating to mankind that a terminal date exists for the end of man’s reign on earth. Dr. Heyworth’s study is a huge confirmation of what this study presents. It is a reading I highly recommend.

Chapter 1 of this teaching on the **“Season of the Rapture”** implied that **“5776” or “2016”** is the Year of the Rapture! What was overlooked and not taken into consideration was that **“5777” or “2017”** is a Sabbatical and a Jubilee Year of REST. I am suggesting you keep that in mind because there are more threads to this idea that supports and confirms that the Great Pyramid is one of the **“Three-Fold” witnesses** for God’s Master Plan of Redemption! I know that math can be quite difficult to grasp for those less inclined, but it is inescapable proof nonetheless. Therefore, I will keep the mathematical evidence to a minimum with the data I am sharing. We have a missing year to account for and we have the answer for it!

Like all of Scripture, the Great Pyramid contains a compound revelation. In the natural, it represents God’s footstool, the earth. In the spiritual, it points to His future throne and dwelling place for His elect. ***“We are built upon the foundation of the Apostles and prophets, Jesus Christ Himself being the Chief Cornerstone: in whom all the building fitly framed together grows unto a Holy Temple in the Lord: in whom we also are builded together for an habitation of God through the Spirit.”*** -(Ephesians 2:20-22).

Israel rejected that Stone for which they could recognize no place until the building was completed. He became a ***“Stone of stumbling and a rock of offence”*** -(1<sup>st</sup> Peter 2:7-8; Romans 9:32-33) to them. The capstone of a pyramid has five sides and five corners, the chief of which always points heavenward. Anyone falling upon it would be “broken” or injured, and were it to fall on anyone it would crush or grind a person to pieces.

***“The Stone which the builders refused is become the Head Stone of the Corner.”*** - (Psalm 118:22). Very soon the building will be completed and God will send two prophets to turn away the ungodliness from Jacob by introducing the Capstone and the Building, His King and Queen, and change his name to Israel -(Romans 11:26). His return is but weeks or months away depending on when you read this.

I have presented a great deal of substance here and the facts relative to the number “**3168**” as the number of the “**LORD JESUS CHRIST**”! God is generous with His clues and scatters the occurrence of “**3168**” both in the Scripture and the physical world itself

### The Lord Jesus Christ = 3168 is the Word alias Alpha and Omega

Previously I have the mathematician James Heyworth and his work titled “The Great Design”. Dr. Heyworth is from Queensland, Australia. I believe his work is phenomenal and I will share excerpts from his work “The Great Design” following below.

+++++

Jesus the Word is also called **Alpha** and **Omega** these details refer to the Word being the source of words meaning Jesus the Word invented languages, **Alpha** and **Omega** relates to his being the source of alphabets especially the Greek and Hebrew alphabets used to write the Bible. We wouldn’t know that “**3168**” is the numeric signature of the Creator if the New Testament hadn’t been written in Greek using an alphabet with each letter also defining a number, and if the spelling had been different the Great Design would have remained unsigned. Therefore the **WORD HIMSELF** ordained the words of the Greek language and **Alpha** and **Omega** invented the Greek alphabet from **Alpha** to **Omega**, and because this alphabet is phonetic the sound of the words as well as their spelling was ordained by the Word, the Greek language is a factor of the “Great Design” which includes the design of the solar system and even history conformed to the plan of the “Great Design”.

The circumferences of the earth and its moon equal the perimeter of a square placed tangent around the earth this is a simple but profound design, the description was made without using any units of measure. If we change the square’s perimeter into a circle its circumference will perfectly contain great circles of the earth and its moon placed side by side, this is another description without using units of measure.

The sun and the moon have the same apparent size which is especially obvious and emphasized when there is a total solar eclipse this is another description of design harmony without the use of units of measure. When appropriate units of measure are introduced to the designs above other layers of design are revealed, the metric system contributes to cognitive dissonance it is not in tune with the cosmos and if we used it in this investigation it hides the things that are revealed by other measuring systems that are in harmony with the cosmos and the things therein such as people for example, the measuring systems we use are not only in tune with us and the cosmos but they are in numeric and mathematic harmony with the numbers of music found on the musical scale chart.

In Genesis 1:14 it says about the sun and the moon, “**let them be for signs**”, the most spectacular sign concerning these spheres is a solar eclipse, why are they the same apparent or angular size? The moon’s orbit is elliptical so the distance from the earth to the moon varies, at

its closest approach to the earth its apparent angular diameter is 33.5167 arcminutes, and at its maximum distance from the earth its apparent angular diameter is 29.367 arcminutes, so about once a week its apparent size is **31.68** arcminutes, the earth's orbit of the sun is also elliptical and four times per year the apparent size of the sun is also **31.68** arcminutes. Sometimes the sun and the moon's angular diameters are **31.68** arcminutes at the same time, if a solar eclipse happens at this time the **31.68** arcminute diameter sun is hidden by the **31.68** arcminute diameter moon and if a square was placed tangent around the moon its **3168** megalithic mile perimeter would also be perfectly surrounding the **316800** megalithic mile diameter sun which has a radius of **316800** Roman leagues.

In the King James Bible 2<sup>nd</sup> Peter 1:16, ***“For we have not followed cunningly devised fables, when we made known unto you the power and coming of our Lord Jesus Christ but were eyewitnesses of his majesty”***. The Greek word translated ***“majesty”*** is number **3168** in the Greek dictionary of *‘Strong’s Exhaustive Concordance of the Bible’*, and the Lord Jesus Christ above has a “gematria” of **3168**, it is significant that these two distinctly different examples of the use of the number **3168** are found in the same verse especially because the Greek word listed number **3168** is used only three times in the Bible, *‘Strong’s’* definition of word number **3168** is shown in bold below. Notice that the word seems to have been purposely designed to describe the Lord Jesus Christ which is how it was used in the original Greek text of the verse above. ***“Superbness”***, that is, glory or splendor: magnificence, majesty, mighty power. It would be even stranger if the above features of 2<sup>nd</sup> Peter and *‘Strong’s Dictionary’* were the result of coincidences, but we should not think it gives a blanket approval to all the translations in *‘Strong’s Dictionary’*, keeping in mind that the dictionary is not Scripture and though God may have made a contribution so did man. There are many interesting and varied examples of how the number **3168** is used in the Bible and no doubt there are many more yet to be discovered.

A **31680** mile perimeter square fits tangent around the **31680** furlong radius earth and using 22/7 to calculate the circumferences of the earth and its moon produces a combined total of **31680** miles. Fundamental knowledge of the Bible's Greek text and the Greek alphabet has revealed to us that the number **3168** is used as the Creator's numeric signature to sign his work, therefore when we see that a **31680** mile perimeter square fits tangent around the **31680** furlong radius earth it is not just the design of the earth that is signed but also the mile, the furlong and the Greek language are signed. The earth existed before man therefore the above details reveal that the mile, the furlong and the Greek language are factors of the “Great Design” and were used before man existed. The units of measure used in this investigation have one verifiable source they were ordained by the Creator and we can plainly see that he used them first, and even if we know when, where or how man started to use certain units of measure this gives little or no indication of their real source which is revealed by this investigation.

Consider Revelation 22:13. ***“I am Alpha and Omega the beginning and the end, the first and the last.”***

- ***“In the beginning God created the heaven and the earth”***. –(Genesis 1:1). Those words are the beginning or alpha of the Bible.
- ***“In the beginning was the Word and the Word was with God and the Word was God”***. – (John 1:1) - (the beginning of John’s Gospel).
- Rev. 22:21. ***“The grace of our Lord Jesus Christ be with you all. Amen”***. –(The Bible’s omega verse (last verse in the Bible) signed Lord Jesus Christ = **3168**).

The Word is the Lord Jesus Christ we know this because, The Word was made flesh and dwelt among us John 1:14. We are told in John 1:3. All things were made by him; and without Him was not anything made that was made. He is also called Alpha and Omega which means the beginning and the end. In the Bible’s first chapter God created by speaking He spoke and it happened for example Genesis 1:3 - And God said, Let there be light; and there was light. So in the beginning the Word was with God and was God, the Word spoke (commanded) and it happened; the Bible’s first four words refer to God the Word who was later made flesh and called the Lord Jesus Christ alias Alpha and Omega. Therefore the Bible’s **Alpha** and **Omega** meaning the beginning words and the ending words refer to the Lord Jesus Christ alias the Word who in the beginning was with God and was God, it is also very appropriate and significant that the Omega verse of the Bible is Revelation 22:21 shown above which signs off using the words Lord Jesus Christ which has a “gematria” of **3168**.

The subject of the 53rd chapter of Isaiah is the Lord Jesus Christ, the chapter prophecies centuries beforehand of some important details of Jesus’ life, the Crucifixion and his burial, seeing into the future concerning important details are common features of the Bible and they are of course demonstrably supernatural features.

The following verse has a “gematria” of **3168** and it is prophesying about the Crucifixion. Isaiah 53:11. He shall see the travail of his soul, and shall be satisfied; by his knowledge shall my righteous servant justify many; for he shall bear their iniquities. It is very significant that this Old Testament verse written in Hebrew has a “gematria” of **3168** which is a reference to the “gematria” of the Lord Jesus Christ written in Greek. This demonstrates that the source already knew many centuries before it happened that the New Testament would be written in Greek, that the main subject would be the Lord Jesus Christ and the “gematria” of his name would be **3168**. Elsewhere in chapter 53 of Isaiah it explains why Jesus came and gives some details of his life and death, the **3168** verse above tells us that the Crucifixion justified many, elsewhere in the chapter it refers to when the Lamb of God was brought before Pilate. Isaiah 53:7. He was oppressed and afflicted yet he opened not his mouth: he is brought as a lamb to the slaughter, and as a sheep before her shearers is dumb, so he opened not his mouth. Compare this prophecy with Mathew 27.13 which is now history. Then said Pilate unto him, Hearst thou not how many things they witness against thee? 14. And he answered him to never a word; insomuch that the governor marveled greatly..

In Isaiah 42:5 there is another **3168** verse, we leave out the introduction (Thus saith) God the Lord, he that created the heavens and stretched them out; spreading out the earth and its offspring, giving breath to the people on it and spirit to those walking in it. "Gematria" **3168**. The two **3168** verses of Isaiah describe the most important pre historic event concerning man when man's home was created and we were given life. The other verse is the most important historic event concerning man, for without this event the first event would have been in vain. Both **3168** "gematria" verses equal a "gematria" of 6336, man's home has a **31680** furlong radius and a 63360 furlong diameter. The **3168** verses were revealed to me by Bonnie Gaunt in her book, *'NILE, The Promise Written in Sand'*, and I should mention that reading some of Bonnie Gaunt's books led to my own project, her books supplied the tools for my investigation.

+++++

There are many more "dots to connect" in this astonishing "Three-Fold" witness revealing the "**Season of the Rapture**". I trust that it will enrich your faith, confidence, and trust in the God who loves us. He is about to call us up hither shortly. This will help erase any doubt that might have caused you to waivered even a bit. He is our Blessed Hope!
