

UK NHS Consultant: We Are Being Gagged & Threatened Over COVID-19

Below is an anonymous statement from an A&E (Emergency Room) consultant in a major hospital in Surrey, England in relation to the criminal gagging of all levels of NHS staff, who have been threatened that they will lose their jobs if they speak out about the COVID-1984 scamdemic.

"I am a consultant at a major regional hospital in Surrey. By major you can take that to indicate that we have an A&E department. I had agreed to give an interview to an anti lockdown activist in which I would have revealed my identity. I have since changed my mind and only feel able to give an anonymous statement.

I have changed my mind simply because that all staff , no matter what grade, at all hospitals have been warned that if they give any media interviews at all or make any statements to either the Main Stream Press or smaller, independent press /social media we may, immediately be suspended without pay. I have a family, dependents and I

simply can't do it to them. I therefore cannot reveal my identity at this time but wish to state as follows:

In my opinion, and that of many of my colleagues, there has been no Covid Pandemic, certainly not in the Surrey region and I have heard from other colleagues this picture is the same throughout the country. Our hospital would normally expect to see around 350,000 out patients a year. Around 95,000 patients are admitted to hospital in a normal year and we would expect to see around a similar figure, perhaps 100,000 patients pass through our A&E department.

In the months from March to June (inclusive) we would normally expect to see 100,000 out patients, around 30,000 patients admitted to hospital and perhaps 30,000 pass through A&E. This year (and these figures are almost impossible to get hold of) we are over 95% down on all those numbers. In effect, the hospital has been pretty much empty for that entire period.

At the start, staff that questioned this were told that we were being used as 'redundant' capacity, kept back for the 'deluge' we were told would come. It never did come, and when staff began to question this, comments like, 'for the greater good' and to 'protect the NHS' came down from above.

Now it's just along the lines of, 'Shut up or you don't get paid'. The few Covid cases that we have had get repeatedly tested, and every single test counted as a new case. Meaning the figures reported back to ONS / PHE (Office for National Statistics & Public Health England) were almost exponentially inflated.

It could be that Covid cases reported by hospitals are between 5 to 10x higher than the real number of cases. There has been no pandemic and this goes a long way to explain why figures for the UK are so much higher than anywhere else in Europe.

The trust has been running empty ambulances during lockdown and is still doing it now. By this I mean ambulances are driving around, with their emergency alert systems active (sirens & / or lights) with no job to go to.

This I believe has been to give the impression to the public that there is more demand for ambulances than there actually is. Staff only wear face coverings/ masks & social distance when public facing, as soon as they are out of public view, the masks come off and social distancing is not observed.

Indeed jokes are made about the measures, and I have heard staff express amazement that despite warnings on packets and at point of sales, telling people masks are totally ineffective and dangerous , the public still buy them, because a politician has told them too.

We have cancelled the vast majority of operations and of these ALL elective surgery has been cancelled. That's surgery that has been pre planned / waiting list. Non elective

Surgery, this tends to be emergency surgery or that which is deemed urgent has been severely curtailed.

The outcome of this is simple. People are at best being denied basic medical care and at worst, being left to die, in some cases, in much distress and pain.

Regarding death certification. All staff that are responsible for this have been encouraged where possible to put Covid-19 complications as reason for death, even though the patient may have been asymptomatic and also not even tested for covid. I feel this simply amounts to fraudulently completed death certificates and has been responsible to grossly inflating the number of Covid deaths.

The fact is that regardless of what you actually die of in hospital, it is likely that Covid-19 will feature on your death certificate. I have included with my statement the detailed published guidance from Government on Death Certification which shows how Covid-19, as a factor is encouraged to at least feature on a death certificate.

Remember Covid-19 itself cannot kill. What kills is complications from the virus, typically pneumonia like symptoms. These complications are in reality incredibly rare but have featured and a large amount of death certificates issued in recent months. As long as Covid-19 appears on a death certificate, that death is counted as Covid-19 in the figures released by the ONS and PHE.

I genuinely believe that many death certificates, especially amongst the older 65+ demographic have been fraudulently completed so as to be counted as Covid-19 deaths when in reality Covid-19 complications did not cause the death.

There have been Thursday nights when I stood, alone in my office and cried as I heard people cheering and clapping outside. It sickens me to see all the 'Thank You NHS' signs up everywhere and the stolen rainbow that for me now says one word and word only; fear.

There are many good people in the NHS and whilst I do not plead forgiveness for myself, I do plead for them. Most are on low pay, they joined for the right reasons and I did and have been bullied and threatened that if they don't 'stay on message' they don't eat.

I know that if a way could be found to assure staff within the NHS of safety against reprisals, there would be a tsunami of whistleblowers which I have no doubt would help end this complete and brutal insanity.

I am finding it increasingly hard to live with what I have been involved in and I am sorry this has happened. To end, I would simply say this. Politicians haven't changed; the country has just made a fatal mistake and started trusting them without question."

I recorded this from a video I listened to on Brass Check.com. The NHS is the UK's "National Health Service. The interview was two hours long and I could only record a small segment of the entire interview. This segment alone required over three hours transcribing here and so I have shared a small portion of the interview. A copy of the transcript of the interview may become available and I will share more at which time it becomes available.

One of the obvious things that stood out in the interview is the virtual similarity with what has been happening in the U.S. medical community. Great pressure is being applied to keep the medical community in line with the formal narrative being blasted to the general public.

Google, YouTube, Face Book, Twitter, and other social media are censoring anything that disagrees with the CDC, WHO, NIH, NIAD, and have been ignoring all other therapies and alternative treatments in preference of pushing the answer is only going to be found in a vaccine. These various health agencies are only interested in what will be expensive, but profitable vaccines, to benefit those holding patents on the vaccines. For example, the Pirbright Institute in Surrey, UK hold a patent co-owned by our vaccine pusher, Bill Gates. I repeat my point, when a virus is patented, it means that it has been bio-engineered, and the RNA of the virus has been modified in some way, and that modified virus can be patented. A patent for a virus such as Covid-19 means that the virus has an existing vaccine, sitting on a lab shelf or in a Pharmaceutical like GSK or Moderna that can be brought to market relatively quickly. Delay in making it available can be for several reasons, but mostly for monetary gain.

Dr. Fauci is a powerful man because of his 36-year tenure at the NIH/NIAD. He determines who and who does not get research dollars, as Dr. Fauci controls the purse strings of millions of dollars used to fund research. He himself holds several patents, and the patent holder can receive up to \$175,000 roughly, yearly for his or her patent royalties. In addition to his patent royalties, Dr. Fauci is the 3rd highest paid U.S. government employee. According to Robert F. Kennedy Jr, the CDC owns 57 or 58 patents on vaccines injected into the school age children of the U.S.

For the reader's information, I will share the link to the day-to-day virus cases, deaths, recovered; you can find out in real-time the official records by going to any search engine and enter in the following: **How Many Deaths in USA from Covid**. I use Bing, or AOL, and a couple other search engines, but I do not use Google because they confuse the search algorithms to discourage searching for the truth. When you get to the web page for this search term, you can refine your search by state, county, city, etc.

According to the Death Clock, an average of 6,917 people die every single day in the USA. This breaks down to:

A person dies approximately every 11.14 seconds

Number of deaths per year: 2,830,688

Number of deaths per day: 7,755

Number of deaths per hour: 323

This site I noted above enables you to put into perspective the real facts, without the fear-mongering in the media. For example, here in Kentucky, so far the data on the Corona-19 statistics, as of July 20th, 2020 are listed below:

23,161 confirmed cases of Covid-19 in KY
670 deaths
6,824 recovered cases

I live in Nelson County and since recording cases of Covid-19, there have been:
145 confirmed cases of Covid-19
2 deaths

The population of Nelson County, KY as of 2018 was 45,851. The 2 deaths work out to a percentage of: **0.0043600532%**.

You can guess where I am going with this statistical data, which by the way, has not been subjected to politically correct bias, as many states with Democratic governors have done in order to inflate the figures; and based upon true cause of death, and related comorbidity health issues of those who have died.

All that said, you would think that the leaders of this country would wake the hell up before the nation reaches the point of no return in about 2 weeks.

WAKE UP FOLKS, AND DO NOT LIVE IN FEAR!!!

"For God hath not given us the spirit of fear; but of power, and of love, and of a sound mind"

Blessings,

Pastor Bob, EvanTeachr@aol.com
