

Vaccines Are A Jesuit Crime Against Humanity And A War Against God!

This article is a compilation of two primary sources on the evil of vaccination. Dr. Suzanne Humphries is my source for the first part this article. She has several YouTube videos by her name. They are recommended to anyone wanting to learn and know the truth about an evil practice by Edward Jenner and Louis Pasteur. Sadly, our education system is less about learning and more about indoctrination. The second source for this article is Patrick Scrivener, host of the Reformation Online; one of the most informative sites exposing the crimes of the Jesuit-controlled Vatican and its ongoing war that began against the Protestant Reformation of the 1500s.

The Children's Health Defense is the go to source for information on the issue of vaccines. childrensdefense.org <https://www.childrensdefense>

AUTISM RATE SINCE 1970 (up 277-fold)

The chart above speaks volumes about how devastating Autism has become in the U.S. today; and as recent as a few months ago the reported rate is now 1 in 24 children. The public has been deceived by ignorant pediatricians who are compensated by insurance companies and the pharmaceutical industry to coerce the parents who are for the most part lacking of any knowledge of the history of the vaccine movement that fraudulently was perpetrated upon the naïve public.

The tragedy has been further obscured by the charting information provided by the CDC and public health services in that the most recent data reported is between six and ten years old. The most accurate information provided by the Children's Defense Fund reveals the exponential growth of Autism. The vaccine advocates are now blaming the rise in Autism to such things as the spraying of Glyphosate on crops. That only goes so far since Glyphosate spraying did not reach peak level until 2000.

A 2015 systematic review of 10 [observational studies](#) found that except for an excess of [attention deficit hyperactivity disorder](#) among children born to glyphosate applicators, there was no evidence that glyphosate exposure among pregnant mothers caused adverse developmental outcomes in their children. Noting the limited size and scope of the review articles available, the authors noted that "these negative findings cannot be taken as definitive evidence that GLY, at current levels of occupational and environmental exposures, brings no risk for human development and reproduction."

Nonetheless, babies and children in the early years of growth are vulnerable to the affects of vaccines as noted in the report below by Dr. Suzanne Humphries below.

Check out Dr. Suzanne Humphries (11 minutes) on why vaccines have never been safe and cannot be. The original smallpox vaccine turned out to be a horror show — Click on [Source](#) below. Dr. Suzanne Humphries has multiple You Tube presentations.

Why do we have to inject disease matter into small children that we know won't be effective?

The vaccine scientists think Nature got it wrong

25 historical books that demonstrate vaccines have caused serious harm for 200 years
RHODA WILSON

The 25 books in the 'History of Vaccination' series shed light on the history of vaccines through the eyes of doctors, scientists, and historical data. They answer the pressing question: *"Are vaccines safe and effective?"*

"I can conclusively say that vaccination is the biggest fraud in medical history," [Trung Nguyen](#) wrote. Since 1796, the year the first smallpox vaccine was introduced, every generation has been burdened by disease due to vaccination, he said.

In 2021, Nguyen restored and updated 25 historical works on vaccination. There is a list of the 25 books at the end of this article. He republished each of the books separately with the same preface, introduction and prologue written by him. In the preface, Nguyen had the following to say:

FOR EACH DISEASE 'PANDEMIC' FROM 1850 TO 2021 (171 YEARS), ALL YOU NEED TO DO IS REPLACE THE DATE AND LOCATION IN THE ARTICLE TO THE CURRENT DATE AND LOCATION. YOU'LL COME TO THE INESCAPABLE CONCLUSION THAT THE DRUG COMPANIES HAVE BEEN RUNNING THE SAME RACKET REPEATEDLY.

EACH GENERATION HAS BEEN BURDENED WITH VACCINATION SINCE 1796. THIS CRIME OF GREED – THE BLOOD POISONING AND KILLING OF INNOCENT CHILDREN FOR MONEY – WILL CONTINUE UNLESS PEOPLE ARE AWARE OF IT.

BEHIND THE NEWS ANCHORS, BEHIND THE PAEDIATRICIANS, BEHIND THE MEDICAL DOCTORS, BEHIND THE TV PERSONALITIES, BEHIND THE CORRUPT BUREAUCRATS AND POLITICIANS, ARE THE DRUG COMPANIES (VACCINE MANUFACTURERS) DIRECTLY OR INDIRECTLY PAYING THEIR SALARIES.

DISEASE MONGERING HAS BEEN GOING ON SINCE 1796 – THE YEAR THE FIRST SMALLPOX VACCINE WAS INTRODUCED.

IN NEARLY EVERY CASE, THE DISEASE WAS MANMADE, CAUSED BY INDUSTRIAL CHEMICALS SUCH AS PESTICIDES, VACCINE INGREDIENTS, ANTIBIOTICS AND MEDICINES (PETROCHEMICALS). OR WORSE, CONCOCTED IN CLANDESTINE LABORATORIES AND RELEASED ONTO THE UNSUSPECTING PUBLIC.

'Vaccination: Proved Useless and Dangerous' by Alfred R. Wallace, the third book in the 'History of Vaccination' series by Trung Nguyen. Source: [Google Books](#)

In the introduction, Nguyen then goes on to highlight quotes about vaccines from writers, doctors and scientists across three centuries. In the slide show below are screenshots of Nguyen's introduction. Click on the arrows on either side of an image or swipe to view the next or previous image.

"The bottom line is that the medical systems are controlled by financiers in order to serve financiers. Since you cannot serve people unless they get sick, the whole medical system is designed to make people sicker and sicker." — Dr. Guylaine Lanctot, MD, 21st century

"It is difficult to get a person to understand something, when their salary depends on them not understanding it." —Upton Sinclair, "The Jungle"

In 1986, US President Ronald Reagan passed the National Childhood Vaccine Injury Act (NCVIA). The act was drafted by the drug companies and shielded them from legal liability resulting from vaccine injuries and deaths. Basically, NCVIA prevented parents from directly suing the drug companies (vaccine makers). The parents have to file claims in the vaccine injury court that was established through the act. About \$0.75 of every vaccine sold is used to fund the vaccine injury court. From 1986 to 2021, the court paid over \$4 billion to parents with vaccine injured children. It is estimated that the court, due to budget constraints, dismisses about 66% of the cases, and some cases can take up to 8 years to settle.

In addition, from 1986 to 2021, the drug companies were fined over \$35 billion—these fines were unrelated to

vaccines and most were for fraud, bribery, and false advertising.

"International bribery and corruption, fraud in the testing of drugs, criminal negligence in the unsafe manufacture of drugs—the pharmaceutical industry has a worse record of lawbreaking than any other industry. Data fabrication is so widespread that it is called 'making' in the Japanese pharmaceutical industry, 'graphiting' or 'dry labelling' in the United States." —Dr. John Braithwaite, MD, "Corporate Crime in the Pharmaceutical Industry"

Knowing how they operate, could you trust your child's health to the drug companies?

INTRODUCTION

"Without data, you're just another person with an opinion." —W. Edwards Deming, engineer, data scientist

Each book in the *History of Vaccination* series is accompanied by the same prologue. If you've already read the prologue, feel free to skip to the original book. The 25 historical works I've restored and updated shed light on the nature of vaccination, as recorded by the most distinguished doctors and scientists of their time. Their statements are backed by historical statistics, which are presented throughout these books.

The first smallpox vaccine was conceptualized in 1796. Since that time, vaccination has been rife with controversy. Let's review what writers, doctors, and scientists have observed about vaccines across three centuries: 19th, 20th, and 21st.

19th Century (1800s)

"There does not exist one single fact, in all the experiments and improvements made in science, which can support the idea of vaccination. A vaccinated people will always be a sickly people, short lived and degenerate." —Dr. Alexander Wilder, MD, "Vaccination: A Medical Fallacy", editor of the New York Medical Tribune, 1879

Copyrighted material

"I have seen leprosy and syphilis communicated by vaccination. Leprosy is becoming very common in Trinidad; its increase being coincident with vaccination." —Dr. Hall Bakewell, Vaccinator General of Trinidad, 1868

"Cancer is reported to be increasing not only in England and the Continent, but in all parts of the world where vaccination is practised." —Dr. William S. Tebb, MA, MD, DPH, "The Increase of Cancer", 1892

"Leprosy arose with vaccination." —Sir Ronald Martin, MD, 1868

"Syphilis has undoubtedly been transmitted by vaccination." —Sir William Osler Bt., MD, FRS, FRCP

"To no medium of transmission is the widespread dissemination of this class of disease (syphilis) so largely indebted as to Vaccination." —Dr. B.F. Cornell, MD, 1868

"Every intelligent person who takes the time to investigate vaccination, will find abundant evidence in the published writings and public records of the advocates of vaccination, to prove its utter worthlessness, without reading a line of anti-vaccination literature. And if we could add to this all the suppressed facts, we would have a

Copyrighted material

mass of evidence before which no vaccinator would dare to hold up his head."—Dr. Robert A. Gunn, MD, "Vaccination: Its Fallacies and Evils", 1882

"I have no faith in vaccination, nay, I look upon it with greatest disgust, and firmly believe that it is often the medium of conveying many filthy and loathsome diseases from one child to another, and it is no protection from smallpox." —Dr. William Collins, MD, London, 1882

"Vaccination has made murder legal. Vaccination does not protect against smallpox, but is followed by blindness and scrofula. Jennerism is the most colossal humbug which the human race has been burdened with by FRAUD and DECEIT." —Mr. Mitchell, member of the British House of Commons

"Of these dogmas, I believe the practice known as vaccination to be the most absurd and most pernicious. I do not believe that a single person has ever been protected from smallpox by it; while I know that many serious bodily evils and even deaths, have resulted from its employment. The whole theory is founded upon assumption, contrary to common sense and entirely opposed to all known principles of physiology. Every physician of experience, has met with numerous cases of cutaneous eruptions, erysipelas and syphilis, which were

directly traceable to vaccination, and if these cases could be collected and presented in one report, they would form a more terrible picture than the worst that has ever been drawn of the horrors of smallpox." —Dr. Robert A. Gunn, MD, Dean of the United States Medical College of New York

"Vaccination is a monstrosity, a misbegotten offspring of error and ignorance; and, being such, it should have no place in either hygiene or medicine...Believe not in vaccination, it is a worldwide delusion, an unscientific practice, a fatal superstition with consequences measured today by tears and sorrow without end." —Dr. Carlo Ruta, Professor of Materia Medica at the University of Perugia, Italy, 1896

"Vaccination is a grotesque superstition." —Dr. Charles Creighton, MD, MA

"Vaccination is a gigantic delusion. It has never saved a single life. It has been the cause of so much disease, so many deaths, such a vast amount of utterly needless and altogether undeserved suffering, that it will be classed by the coming generation among the greatest errors of an ignorant and prejudiced age, and its penal enforcement the foulest blot." —Alfred R. Wallace, LL.D. DUBL., DCL. OXON., FRS, etc., 1898

Copyrighted material

Copyrighted material

20th Century (1900s)

"The great epidemics of deadly diseases, in animals and mankind, are caused by vaccination." —Charles M. Higgins, "The Horrors of Vaccination: Exposed and Illustrated", 1920

"I believe vaccination has been the greatest delusion that has ensnared mankind in the last three centuries. It originated in FRAUD, ignorance and error. It is unscientific and impracticable. It has been promotive of very great evil, and I cannot accredit it any good." —Dr. R. K. Noyse, MD, Resident Surgeon of the Boston City Hospital, "Self Curability of Disease"

"The chief, if not the sole, cause of the monstrous increase in cancer has been vaccination." —Dr. Robert Bell; Vice President, International Society for Cancer Research, British Cancer Hospital, 1922

"Vaccination is the most outrageous insult that can be offered to any pure-minded man or woman. It is the boldest and most impious attempt to mar the works of God that has been attempted for ages. The stupid blunder of doctor-craft has wrought all the evil that it ought, and it is time that free American citizens arise in their might and blot out the whole blood poisoning business." —Dr. J.M.

Copyrighted material

Peebles, MD, MA, PhD, "Vaccination: A Curse and Menace to Personal Liberty", 1900

"Cancer was practically unknown until the cowpox vaccination began to be introduced. I have seen 200 cases of cancer, and never saw a case in an unvaccinated person." —Dr. W.B. Clark, MD, Indiana, New York Times article, 1909

"At present, intelligent people do not have their children vaccinated, nor does the law now compel them to. The result is not, as the Jennerians prophesied, the extermination of the human race by smallpox; on the contrary more people are now killed by vaccination than by smallpox." —George Bernard Shaw, 1944

"The English Ministry of Health omits to state that in 1872, when 85% of the infants born were vaccinated, there were 19,000 deaths from smallpox in England and Wales. While in 1925, when less than half the children born were vaccinated, there were only 6 deaths from that disease." —Dr. Eleanor McBean, PhD, ND, "The Poisoned Needle", 1957

"Vaccination causes miscarriage. A careful check showed that 47% of women who had been vaccinated in the second or third month of pregnancy, failed to give birth to a

Copyrighted material

normal child." — "Vaccination at Work", The Consulting Pediatrician of Lanarkshire County Council, The Lancet (London), p.47, December 6, 1952

"My honest opinion is that vaccine is the cause of more disease and suffering than anything I could name." —Dr. Harry R. Bybee

"Vaccination, instead of being the promised blessing to the world, has proved to be a curse of such sweeping devastation that it has caused more death and disease than war, pestilence, and plague combined. There is no scourge (with the possible exception of atomic radiation) that is more destructive to our nation's health than this monument of human deception—this slayer of the innocent—this crippler of body and brain—the poisoned needle." —Dr. Eleanor McBean, PhD, ND, "The Poisoned Needle", 1957

"The greatest LIE ever told is that vaccines are safe and effective." —Dr. Leonard Horowitz, MPH (Master of Public Health), DMD, MA, Harvard University graduate

21st Century (2000s)

"The entire vaccine program is based on massive FRAUD." —Dr. Russell L. Blaylock, M.D., neurosurgeon, editorial staff of Journal of American Physicians and Surgeons

Copyrighted material

"Vaccinations do not work. They don't work at all." —Dr. Lorraine Day, MD

"Vaccinations are now carried out for purely commercial reasons because they fetch huge profits for the pharmaceutical industry. There is no scientific evidence that vaccinations are of any benefit." —Dr. Gerhard Buchwald, MD, "Vaccination: A business based on FEAR"

"Don't get your flu shot." —Dr. Raymond Francis, D.Sc., M.Sc., RNC, chemist, MIT graduate

"My own personal view is that vaccines are unsafe and WORTHLESS. I will not allow myself to be vaccinated again. Vaccines may be profitable but in my view, they are neither safe nor effective." —Dr. Vernon Coleman, MB, ChB, DSc (Hon)

"The pediatrician indoctrinates your child from birth into a lifelong dependency on medical intervention. The first stage of indoctrination is the 'well-baby' visit. The well-baby visit is a cherished ritual of the pediatrician that enhances their income and does nothing constructive for your child. It's a worthless visit." —Dr. Robert Mendelsohn, MD, board certified pediatrician

Copyrighted material

"Vaccines are the backbone of the entire Pharmaceutical Industry. If they can make these children sick from a very early age, they become customers for life. The money isn't really to be made in the vaccine industry. The money is made by Big Pharma with all of the drugs that are given to treat and address all of the illnesses that are subsequent to the side effects of vaccines."—Dr. Sherri Tenpenny, D.O. (osteopathic medical doctor)

"Studies are increasingly pointing to the conclusion that vaccines represent a dangerous assault to the immune system leading to autoimmune diseases like Multiple Sclerosis, Lupus, Juvenile Onset Diabetes, Fibromyalgia, and Cystic Fibrosis, as well as previously rare disorders like brain cancer, SIDS (Sudden Infant Death Syndrome), childhood leukemia, autism, and asthma."—Dr. Zoltan Rona, MD, "Natural Alternatives to Vaccination"

"The vaccine industry is itself a FRAUD. I spent my whole career studying vaccines."—Dr. Shiv Chopra, B.V.S., A.H., M.Sc., Ph.D., Fellow of the World Health Organization, "Corrupt to the Core"

The Only Reason for Continued Vaccination

"The greatest danger to your health is the doctor who practices modern medicine." —Dr. Robert Mendelsohn, MD, board certified pediatrician

Copyrighted material

Follow the money. It will lead you to the truth. The primary reason for vaccination is the assumption that vaccines prevent diseases. However, if historical data demonstrates that vaccines do NOT prevent diseases, then what is the purpose of vaccination?

Moreover, you've probably heard stories of parents being coerced and bullied into vaccinating their children and themselves at the pediatrician and doctor's offices. There are reasons behind the coercion and bullying.

"There is a vaccination ring in England, receiving millions of the public money. It is in their interest to favor the practice at all hazards and to falsify statistics in order to conceal its failure and its evils. There are also armies of public vaccinators in every large city all over Europe, who are supported from the public treasury, and every practitioner who does not oppose the practice, derives a considerable income from its continuance." —Dr. Robert A. Gunn, MD, "Vaccination: Its Fallacies and Evils", 19th century

"Drug companies are not here to bring health to the population but to SCAM them on one level for vast amounts of money." —Sir William Osler, MD, FRS,

Copyrighted material

FRCP, widely considered as the Father of Modern Medicine (1849-1919), 20th century

"Disease is more rampant because of commercial greed. When the Rockefeller-Standard Oil crowd muscled into the drug and pharmaceutical business in such a big way, 'scientific medicine' (if there is such a thing) was turned into a racket which shortened many American lives from ten to twenty years." —Morris A. Beale, "The Drug Story", 20th century

"Many doctors and some editors are making money by propagating the vaccination curse." —Dr. Thomas Morgan, MD, "Medical Delusions", 20th century

"Vaccination is not scientific. Many of the world's greatest thinkers, scientists, statesmen and even doctors have condemned vaccination as being a crime against humanity, a FRAUD promoted for private gain, an insult to the race and a blot upon the name of civilization. Yet, this treacherous practice of blood pollution, which was cradled in the lap of ignorant savage tribes, has been adopted by, supposedly, enlightened government of the present day and forced on the protesting population—for profit." —Dr. Eleanor McBean, PhD, ND, 1957

Copyrighted material

"Vaccinations are now carried out for purely commercial reasons because they fetch huge profits for the pharmaceutical industry. There is no scientific evidence that vaccinations are of any benefit." —Dr. Gerhard Buchwald, MD, "Vaccination: A Business Based on Fear", 21st century

"The vaccination myth is the most widespread superstition modern medicine has managed to impose, but, being by the same token the most profitable, it will prove to be also one of the most enduring, though there was never the slightest of scientific evidence upholding it." —Hans Ruesch, "The Great Medical Fraud", 20th century

"Doctors are punished by insurance companies like Blue Cross and Blue Shield if doctors don't get a certain percentage of their patients to comply with the vaccination schedule. If 63% are non-compliant, they don't receive any of their bonuses." —Robert F. Kennedy, Jr.

"Medicine is no longer a calling. It is a downright cut throat business." —Professor Dr. Belle Monappa Hegde, MD, 21st century

"The current medical system is designed to create chronic disease. There is no money in being healthy." —Dr. Irvin Sahni, MD, 21st century

Copyrighted material

"The bottom line is that the medical systems are controlled by financiers in order to serve financiers. Since you cannot serve people unless they get sick, the whole medical system is designed to make people sicker and sicker." — Dr. Guylaine Lanctot, MD, 21st century

"It is difficult to get a person to understand something, when their salary depends on them not understanding it." —Upton Sinclair, "The Jungle"

[Section 4](#) – Prologue (cont.)

The 25 books in the History of Vaccination series

1. The Poisoned Needle: Suppressed Facts About Vaccination (1957), Eleanor McBean, PhD, ND
2. A Century of Vaccination and What It Teaches (1898), William Scott Tebb, MA, MD, DPH

3. Vaccination: Proved Useless and Dangerous From 45 Years of Registration Statistics (1885), Alfred R. Wallace, LLD DUBL., DCL OXON., FRS, etc.
4. Vaccination: Its Fallacies and Evils (1882), Robert A. Gunn, MD
5. Compulsory Vaccination: The Crime Against the School Child (1915), Chas. M. (Charles Michael) Higgins
6. The Truth about Vaccination and Immunization (1951), Lily Loat, secretary of the National Anti-Vaccination League of London
7. Leicester: Sanitation versus Vaccination Its Vital Statistics Compared with Those of Other Towns, the Army, Navy, Japan, and England and Wales (1912), By J.T. Biggs, J.P.
8. The Vaccination Question (1895), Arthur Wollaston Hutton, MA
9. Vaccination a Delusion: Its Penal Enforcement a Crime (1898), Alfred Russel Wallace, LLD DUBL., DCL OXON., FRS, etc.
10. Vaccination a Curse and Menace to Personal Liberty With Statistics Showing Its Dangers and Criminality (Tenth Edition, 1913), James Martin Peebles, MD, MA, PhD
11. Dr. C.G.G. Nittinger's Evils of Vaccination (1856), C. Charles Schieferdecker, MD
12. The Vaccination Question in the Light of Modern Experience An Appeal for Reconsideration (1914), C. Killick Millard, M.D., D.Sc.
13. Jenner and Vaccination: A Strange Chapter of Medical History (1889), Charles Creighton, MD
14. The Horrors of Vaccination: Exposed and Illustrated (1919), Charles M. Higgins
15. Vaccination: The Story of a Great Delusion (1885), William White
16. Vital Statistics in the United States, 1940-1960 (1968), Robert D. Grove, Alice M. Hetzel, US Department of Health, Education, and Welfare
17. The Mandatory Vaccination Plan National Immunization Policy Council (1977)
18. The Fraud of Vaccination (1923), Walter Hadwen, JP., MD, LRCP., MRCS, LSA, From "Truth," January 3, 1923
19. Vaccination a Curse (1895), C.W. Amerige, MD
20. Vaccination a Medical Fallacy (1879), Alexander Wilder, MD

21. The Dream & Lie of Louis Pasteur (Originally Pasteur: Plagiarist, Imposter) (1942), R.B. Pearson

22. The Vaccination Problem (1936), Joseph Swan

23. The Fallacy of Vaccination (1911), John Pitcairn, President of the Anti-Vaccination League of America

24. The Case Against Vaccination (1896), Walter Hadwen, JP, MD, LRCP, MRCS, LSA

25. A Catalogue of Anti-Vaccination Literature (1882, 2018): The London Society for the Abolition of Compulsory Vaccination, 114 Victoria Street, Westminster

Featured image: Edward Jenner vaccinating eight-year-old James Phipps with matter from a cowpox sore on the hand of milkmaid Sarah Nelmes. Source: [History of Vaccines](#)

[Source](#)

Medicine man Edward Jenner was the father of modern vaccination!!

Edward Jenner—a quack doctor— was the father of the filthy practice of vaccination: Edward Jenner S.J. (1749 —1823).

Edward Jenner was an S.J. -- a Society of Slick Jesuits -- who taught the medical world how to use the POISONED NEEDLE. He was the first to associate human diseases with that of animals. This idea paved the way for vaccination which is responsible for the deaths of multiplied millions of people around the world. The idea that humans and animals are related and share the same diseases led to the theory of evolution which is responsible for the spiritual death of multiplied millions more.

In the countryside in Gloucestershire, England, where Jenner lived, the farmers had a legend or superstition that catching cowpox (a disease of cows which was transferred to the cows' udders by unwashed or bleeding hands) would act like a charm or amulet to make them immune from catching the human disease of smallpox.

Medicine man Jenner took this local legend or old wives' tale and turned it into a scientific FACT. He did this by first getting some scientific credentials (M.D., F.R.S. - Fellow of the Royal Society). Next he wrote a book and on the title page only he used the term VARIOLAE VACCINAE. This means in Medieval Latin: smallpox of the cow. Thus associating a human disease with a disease of the cow. There never was such a disease as smallpox of the cow until "Dr." Jenner invented it for the title of his book.

Jenner invented a new disease—VARIOLAE VACCINAE—smallpox of the cow!!

Cover of Jenner's book written in 1798.

Notice how medicine man Jenner cleverly uses the scientific name for smallpox, VARIOLAE, and associates it with the cow disease of cowpox. He NEVER mentions the name VARIOLAE VACCINAE again in his book. It is mostly about HORSE GREASE being the cause of smallpox of the cow. Jenner figured that very few people would actually read the book but most would just look at the COVER and make a mental association between Smallpox and Cowpox.

Dr. Charles Creighton—a brilliant Scottish doctor—exposed Jenner's clever sleight of hand in his masterly tome: *Jenner and Vaccination*.

"The title of Jenner's cowpox paper is: *"An Inquiry into the Causes and Effects of the Variolae Vaccinae, a Disease discovered in some of the Western Counties, especially*

Gloucestershire, and known by the name of the Cowpox." An objection might be taken to "discovered," but let that pass. The leading line in this full and learned title is Variolae Vaccinae, which is the only name in the short title. Now Variolae Vaccine is Latin for smallpox of the cow. An affection of cows and milkers, which had been known to country people for generations as the cowpox, is suddenly introduced to the learned, who had never heard of it before, under a brand-new name. The new name is put in the forefront of the title, it overshadows the old country name both by its prominence and by its semblance of scientific precision, and, for purposes of short reference, it becomes the sole name. This startling novelty is on the title-pages, and only on the title-pages. Jenner never says, in the preface or text, that the name is a new one, hitherto unheard of in veterinary or medical writings; he never says a single word to justify its invention; he never once uses it in the preface or text at all. But there it stands in the title as the full, correct, and scientific name of the disease, to be copied in journals and repeated in a hundred ways when not one word of the essay would be copied or repeated, carrying with it, in short, all the power over the ideas that a descriptive synonym for an unfamiliar thing does naturally carry with it." (Jenner and Vaccination, Dr. Charles Creighton, p. 44).

This is like saying that a horse chestnut (a tree) and a chestnut horse are the same thing or that a beetle (an insect) is the same thing as a BEATLE (a decomposing rock musician).

The only correlation between smallpox and cowpox is that both names ended in POX. Heaven and Hell both start with the same letter H but they are vastly different places.

Vaccination—Vatican's Medical Inquisition Revealed at Last!!

Vaccination came from the Vatican via Great Britain!!

"Beloved, I (JESUS) wish above all things that thou mayest prosper and be in HEALTH, even as thy soul prospereth" (III John v.3).

Major Newspaper tells MAJOR LIES about smallpox -- they even have a picture of Dr. Campbell's Pest House!! Texas Doctor discovers the CAUSE of smallpox almost 100 years ago!!

Definition of terms for this exposé. Vaccination and inoculation are often used interchangeably today.

Immunization:

To be immune from catching a certain disease e.g., childhood measles makes a person immune from catching measles for the rest of his/her life.

Vaccination:

Injection of diseased matter of cows, calves, monkeys, pigs or other animals into the human bloodstream in order to make one immune from human diseases like smallpox.

Inoculation:

The practice of injecting a human disease like smallpox into the bloodstream in order to make a person immune from catching smallpox.

Variolae:

Medieval Latin or scientific name for SMALLPOX – an exclusively HUMAN disease which is caused by the bite of a blood-sucking insect named Cimex Lectularius or the bedbug.

Vaccine:

From the Latin word for COW. Name that was given to cowpox that Jenner injected into humans in order to make them immune from smallpox.

Cowpox:

A disease of cows' udders which is caused by milking cows with dirty or cut hands.

Vacca is the Latin word for cow.

A calf is a young cow or bull. Lymph (poison) for vaccines comes from calves.

A bull is a male cow.

Medicine man Edward Jenner was the father of modern vaccination!!

Edward Jenner—a quack doctor— was the father of the filthy practice of vaccination:

Medicine man Jenner took this local legend or old wives' tale and turned it into a scientific FACT. He did this by first getting some scientific credentials (M.D., F.R.S. - Fellow of the Royal Society). Next he wrote a book and on the title page only he used the term VARIOLAE VACCINAE. This means in Medieval Latin: smallpox of the cow. Thus associating a human disease with a disease of the cow. There never was such a disease as smallpox of the cow until "Dr." Jenner invented it for the title of his book.

Jenner invented a new disease—VARIOLAE VACCINAE—smallpox of the cow!!

Notice how medicine man Jenner cleverly uses the scientific name for smallpox, VARIOLAE, and associates it with the cow disease of cowpox. He NEVER mentions the name VARIOLAE VACCINAE again in his book. It is mostly about HORSE GREASE being the cause of smallpox of the cow. Jenner figured that very few people would actually read the book but most would just look at the COVER and make a mental association between Smallpox and Cowpox.

Dr. Charles Creighton— a brilliant Scottish doctor—exposed Jenner's clever sleight of hand in his masterly tome: *Jenner and Vaccination*.

Dr. Charles Creighton

"The title of Jenner's cowpox paper is: "An Inquiry into the Causes and Effects of the Variolae Vaccinae, a Disease discovered in some of the Western Counties, especially Gloucestershire, and known by the name of the Cowpox." An objection might be taken to "discovered," but let that pass. The leading line in this full and learned title is Variolae Vaccinae, which is the only name in the short title. Now Variolae Vaccine is Latin for smallpox of the cow. An affection of cows and milkers, which had been known to country people for generations as the cowpox, is suddenly introduced to the learned, who had never heard of it before, under a brand-new name. The new name is put in the forefront of the title, it overshadows the old country name both by its prominence and by its semblance of scientific precision, and, for purposes of short reference, it becomes the sole name. This startling novelty is on the title-pages, and only on the title-pages. Jenner never says, in the preface or text, that the name is a new one, hitherto unheard of in veterinary or medical writings; he never says a single word to justify its invention; he never once uses it in the preface or text at all. But there it stands in the title as the full, correct, and scientific name of the disease, to be copied in journals and repeated in a hundred ways when not one word of the essay would be copied or repeated, carrying with it, in short, all the power over the ideas that a descriptive synonym for an unfamiliar thing does naturally carry with it." (*Jenner and Vaccination*, Dr. Charles Creighton, p. 44).

This is like saying that a horse chestnut (a tree) and a chestnut horse are the same thing or that a beetle (an insect) is the same thing as a BEATLE (a decomposing rock musician).

The only correlation between smallpox and cowpox is that both names ended in POX. Heaven and Hell both start with the same letter H but they are vastly different places.

Erasmus Darwin (another doctor) was the grandfather of ape-man Charles Darwin. Since Jenner claimed that humans and animals shared the same diseases, the next step was to promulgate the idea that they had a common ancestor.

Darwin was the father of another fable called the theory of evolution. He STOLE it from the Egyptians and never paid a penny in royalty fees. This is what Darwin said about Jenner and his vaccination:

"Dr Erasmus Darwin, the famous author of Zoonomia, wrote to Jenner on the 24th of February, 1802 (a few weeks before this death): "In a little time it may occur that the christening and vaccination of children may always be performed on the same day." (*Jenner and Vaccination*, Dr. Creighton, p. 188).

Inoculation came from [ancient Egypt](#) via India.

Her name means "The Dwelling of Horus", for it was thought that Horus as the Sun God came to rest each evening on her breast before being reborn with the awakening dawn. Hathor is the great Sky-goddess that as a celestial cow gave birth to the universe. She was often represented as a cow or with bovine attributes such as a cow's head, cows' ears or horns on her headdress. Hathor was the goddess of Joy and Motherhood and the embodiment of all that is best in women. She was also considered the goddess of music, song, dance and lighthearted pleasure, but she was essentially a Moon goddess. She was considered the protectress of pregnant women and midwives. Her main cult centre was at Dendera, where she was worshipped along with her husband, Horus. Hathor was the Supreme goddess of sexual love in Egypt, immediately identified with Aphrodite by the Greeks. Her temple at Dendera was in The House of Intoxication and Enjoyments. Her main attributes were two ritual instruments carried by her priestesses, the sistrum, a bronze sacred rattle and the menat, a necklace, thick with beads and a counterpoise long enough to be grasped in the hand which was only worn by Hathor, but used by her priestesses as a healing instrument. In Greece she was also known as Diana of the Ephesians and in Rome as Venus. Papal Rome later *stole* her from the Egyptians . . . and called her the Virgin Mary!!

During the Dark Ages, Papal Rome had a death grip on Europe. The four horsemen of the Apocalypse -- war, famine, disease and death -- rode roughshod over the world for over 1000 years. Lack of personal hygiene and sanitation led to plagues and epidemics which caused the deaths of millions of people. The monkish orders set the course that history took during this dark night of the world:

Anthony (251 - 330) was the founder of the Roman Catholic monastic orders.

Anthony was an Egyptian hermit and the founder of the Roman monastic orders. He was the patron saint of *pigs*. Owing to the fact that the Roman monks never bathed, nobody ever got too close to them to hear what they were saying.

With the dawning of the blessed Reformation morning, Satan saw the handwriting on the (door) wall. A restored Bible would bring the blessings of true Christianity, good health, hygiene, and sanitation that Europe had not seen for over 1000 years.

Satan was not about to roll over and die however. He raised up his champion, Ignatius LIEola, to resist and delay the dawning of the blessed day.

Ignatius LIEola (1491 — 1556) (Mr. I.H.S.).

LIEola found that the European demons were powerless to resist the sword of God's Word so he decided to send his disciples to the four corners of the earth in order to find *more potent poison* to kill the Reformation. One of them, Francis Xavier was sent to India and Japan.

Jesuit priests made contact with the most powerful *medicine men* in order to find *more potent poison* to kill the Reformation.

Francis Xavier (1506 —1552) was sent to India and Japan. This Francis is the person for which Pope Francis chose as his papal name, not Francis of Assisi as the media portrayed.

Francis Xavier was sent to India and he made contact with the powerful Brahmin priests and medicine men. It was there that the Jesuits learned the Brahmin mode of inoculating to appease the vicious, vengeful demon of smallpox.

The Jesuits became willing students of the Brahmin *medicine men*:

"The man who after Xavier had the greatest success in India, but who also perverted the character of the mission, and introduced the most abominable idolatry, was Father Francis Nobili. He arrived at Madura in 1606, and was surprised that Christianity had made so little progress in so long a time, which he attributed to the strong aversion which the Indian had for the European, and to the fact, that the Jesuits, having addressed themselves more especially to the Pariahs, had caused Christ to be considered as the Pariahs' God.' He therefore resolved to play the part of a Hindu and a Brahmin. After having learned with wonderful facility their rites, their manners, and their language, he gave himself out as a Saniassi, a Brahmin of the fourth and most perfect class; and, with imperturbable impudence, he asserted that he had come to restore to them the fourth road to truth, which was supposed to have been lost many thousands of years before. He submitted to their penances and observances, which were very painful; abstained from everything that had life, such as fish, flesh, eggs; respected their prejudices, and, above all, the maintenance of the distinction of classes. It was forbidden the catechumen Pariah to enter the same church with the Sudra or Brahmin converts. All this was the beginning of those heathen ceremonies and superstitions with which the Christian religion was contaminated." (*History of the Jesuits*, J. B. Nicolini, p. 108).

Dr. J .Z. Holwell sent a most detailed account of these religious rites to the College of Physicians in London in 1767.

"Inoculation is performed in Indostan by a particular tribe of Bramins, who are delegated annually for this service from the different Colleges of Bindoobund, Eleabas, Benares, & c. over all the distant provinces: dividing themselves into small parties, of three or four each, they plan their traveling circuits in such wise as to arrive at the places of the operation consists only in abstaining for a month from fish, milk, and ghee (a kind of butter made generally of buffalo's milk); the prohibition of fish respects only the native Portugese and Mahomedans, who abound in every province of the empire."([An Account of the Manner of Inoculating for the Smallpox in the East Indies](#), Dr. J. Z. Holwell, F.R.S.).

Lady Mary Wortley Mongau (1689 -- 1762).

In the year 1717, Lady Mary Wortley Montagu was the *smokescreen* that the Jesuits used to introduce this Indian religious rite into England. Lady Mary was not even a doctor. Inoculation or *variolation* was given the sanction of the Royal Family when 2 daughters of the Prince of Wales were inoculated. Barbaric as this religious rite was; it

was the human disease of smallpox that was injected into the bloodstream. Inoculation was the FOOT-IN-THE-DOOR to prepare the people for something *far worse*.

Edward Jenner (1749 —1823).

When Jenner invented his *Variolae Vaccinae* or smallpox of the cow, he planted the insidious seed that men and beasts share the same disease . . . and therefore *must* be related. This opened the door to vaccination or the injecting of animal diseases into humans. This new bizarre rite spread like the plague all over England. It was not confined to England; however, it soon spread to Continental Europe and even crossed the ocean to America.

Dr. Luigi Sacco - The Jenner of Italy.

"*It was not unusual,*" Marshall wrote home to Jenner," to see in the mornings of the public inoculation at the Hospital, a procession of men, women, and children, conducted through the streets by a priest carrying a cross, come to be inoculated. By these popular means it met not with opposition, and the common people express themselves certain that it was a blessing sent from Heaven, though discovered by one heretic and practised by another." (*Jenner and Vaccination*, Dr. Creighton, p. 288).

Dr. Francis Xavier Balmis - The Jenner of Spain.

"The great event in connection with Spain was the expedition of Dr. Francis Xavier Balmis, physician to his Catholic Majesty. He obtained a concession to introduce vaccination to the colonies in America and Asia, and to defray expenses by freely trading in merchandise. He sailed from Corunna, 30th November, 1803, with twenty two children for the propagation of virus. The Canary Islands were first visited, then Porto Rico, and at Caracas the party divided, Don Francis Salvani proceeding to Peru and Chili, whilst Balmis attended to Cuba and Mexico, crossing the Pacific to the Philippines with twenty-six children to maintain the succession of the virus, and proceeding from thence to Macao and Canton. Having circumnavigated the globe as vaccinator and trader, Balmis re-appeared in Madrid with great éclat, and kissed the King's hand on 7th September, 1806 . . . " (*The Story of the Great Delusion*, William White, p. 401).

Louis Pasteur was the Jenner of France.

He conducted all kinds of ghoulish experiments on animals in order to prove his germ theory of disease. His ancestors were Huguenots who were forced to embrace Romanism by the Inquisition.

[Louis Pasteur](#) (1822 - 1895).

Pasteurization of milk is named after Pasteur. This process involved heating milk until ALL the nutrients are boiled away. We are not allowed to drink real milk but the medical Inquisition lets us be vaccinated with diseased calf lymph.

Highlights of the Life of *Medicine Man* Jenner.

| Date | Event |
|------|--|
| 1749 | Jenner is born on May 17, in Berkeley, Gloucestershire, England, son of a clergyman in the "church" of England. The only difference between the "church" of England and the "church" of Rome is that it is popery without the pope!! |
| 1763 | At the age of 14 he was apprenticed for seven years to Mr Daniel Ludlow, a surgeon of Chipping Sodbury, where he gained most of the experience needed to become a surgeon himself. |
| 1770 | At the age of 21 he was sent for two years as a pupil to Dr. John Hunter, of London, who undoubtedly was the most eminent surgeon of his day, and, like Jenner himself, a keen naturalist. While in London he became friends with Joseph Banks would later become president of the Royal Society. |
| 1772 | At 23, Jenner returned to his native village and started to practice as surgeon and apothecary. Here he remained for 17 years, just a plain unqualified country surgeon and apothecary, unknown to the world at large, but keeping up a correspondence with Hunter on a variety of natural history subjects. |
| 1787 | Jenner submits a paper on the nesting habits of the cuckoo. |
| 1789 | Thanks to his friends in high places, Jenner is elected a member of the Royal Society for his paper on the nesting habits of the cuckoo. |
| 1790 | Jenner becomes <i>Dr. Jenner M.D.</i> , by buying a medical degree from the University of St. Andrew's for the sum of £15. |
| 1791 | Edward Jenner vaccinates his 18 month old son with swine-pox. In 1798 he vaccinates his son with cow-pox. His son will die of TB at the age of 20. |
| 1796 | On May 14, Jenner inoculates James Phipps, the eight-year old son of his gardener with cowpox disease which he had obtained from a local milkmaid named Sarah Nelmes. The boy develops cowpox but lives. In July, he inoculates the boy with smallpox. The boy dies at the age of 21 from tuberculosis. |
| 1797 | Jenner sends a paper to the Royal Society about his newly invented disease: <i>variola vaccinae</i> or smallpox of the cow. The paper is rejected and returned with a warning "He had better not promulgate such a <i>wild idea</i> if he valued his reputation." |
| 1798 | Jenner publishes his <i>Inquiry into the Cause and Effects of the Variolæ Vaccinæ</i> . <i>Variolæ</i> was the common name for smallpox and <i>vaccinæ</i> was the scientific name for cow. So Jenner was able to equate smallpox (a human disease) with cowpox - a disease of animals. |

| | |
|------|--|
| 1802 | Royal Jennerian Society is formed in London but dies out in 6 years due to lack of interest. |
| 1810 | Jenner's son dies at the age of 21 from TB. |
| 1813 | For inventing a new disease, the University of Oxford awarded Jenner an honorary M.D. degree. |
| 1819 | James Phipps, the boy that Jenner used in his ghoulish experiments dies at 21 of TB. |
| 1823 | Jenner dies and goes to meet his Maker who created all things after its kind, in 6 days, 6000 years ago. |
| 1838 | John Baron writes <i>The Life of Edward Jenner</i> in 2 volumes. This panegyric was written by a man who was a consulting physician to the LUNATIC ASYLUM at Gloucester. |

Timeline of the Medical Inquisition.

| Date | Event |
|------|---|
| 1534 | Ignatius LIEola founds the Jesuit Order in Paris, France, on August 15. |
| 1541 | Francis Xavier is sent to India and Japan by LIEola. |
| 1717 | Jesuits introduce inoculation from India using Lady Montague as a smokescreen. Lady Montague wasn't even a doctor. Women doctors did not appear until over 100 years later. |
| 1767 | Dr. Holwell sends back his report on the Brahmins inoculation techniques. |
| 1797 | Jenner sends a paper to the Royal Society about his newly invented disease: variolae vaccinae or smallpox of the cow. The paper is rejected and returned with a warning "He had better not promulgate such a <i>wild idea</i> if he valued his reputation." |
| 1798 | Edward Jenner publishes his <i>Inquiry</i> about his newly invented disease, variolae vaccinae, or smallpox of the cow. |
| 1799 | Doctrine and practice of vaccination spreads like the plague all over England. |
| 1800 | Doctrine spreads like wildfire all over the world. Benjamin Waterhouse of |

| | |
|------|--|
| | Harvard University brings it to the U. S. |
| 1839 | Smallpox epidemic sweeps England and kills 22,081 people. |
| 1840 | Inoculation is outlawed by the British Parliament. |
| 1853 | In England, the Compulsory Vaccination Act is passed by Parliament. Every parent is required to have their baby vaccinated within 3 months of birth or face a fine of 20 shillings. |
| 1855 | Medical Inquisition begins in U. S. as Massachusetts is the first State to adopt mandatory vaccination laws. Every State in the U.S. has them now. |
| 1859 | Charles <i>ape-man</i> Darwin publishes his <i>Origin of Species</i> --microbes to monkeys to men thesis. Since animals, especially monkeys, are our close relatives it should be no problem to inject animal diseases in the blood of humans. |
| 1867 | Nonpayment of fines for skipping smallpox vaccination result in harsher penalties. Thousands defy the medical Inquisition and leave Britain rather than submit their children to this barbaric rite. |
| 1868 | Anti-Compulsary Vaccination League is formed in Britain. |
| 1870 | Outbreak of smallpox all over Europe. |
| 1871 | Smallpox continues to rage all over Europe. |
| 1889 | In England, a Royal Commission is appointed to inquire into certain aspects of the vaccination question. The committee would be in session for 7 years and would issue 6 reports, with the final report in 1896. The result of the final report was the Vaccination Act of 1898. |
| 1896 | Final report of the Royal Commission on vaccination. The commission could not ignore the mountains of evidence against vaccination so they recommended that mandatory vaccination should be stopped. |
| 1898 | Vaccination Act removes penalties from vaccination law. |
| 1900 | The Rockefeller and J. P. Morgan syndicate buys <i>Encyclopedia Britannica</i> and all derogatory references to vaccination are removed. |
| 1910 | Flexner report is issued which calls for the elimination of over half the medical schools in the U.S. |

| | |
|------|--|
| 1911 | Vaccination is made mandatory in the U.S. armed forces. |
| 1917 | U.S. soldiers are vaccinated prior to going overseas to fight in WW I. They begin to drop dead by the thousands. |
| 1918 | 675,000 Americans and 25 million die worldwide from vaccination in the worst epidemic in the history of the world. The medical Inquisition covers it up by calling it "Spanish flu." |
| 1976 | Great swine flu hoax. President Ford is vaccinated before a TV audience of millions. More than 500 people receiving flu vaccinations become paralyzed with Guillain-Barre Syndrome. |
| 1991 | Gulf War begins. Thousands of coalition soldiers receive vaccination with the deadly anthrax germ. |
| 2002 | Gulf War II -the Sequel -leads to the vaccination of the entire U.S. population!! |

Jesus is the GREAT Physician.

During His 3 and a half years ministry on earth, He was constantly healing the sick.

". . . great multitudes followed him and he healed them all." (Matt. 12:15).

Since Jesus is the great healer, we should expect that his substitute the Antichrist should kill the people while he pretends to be a healer of bodies and souls.

At the time of Jesus, even with all the hygiene practiced of the Jews, Greeks and Romans, disease was still rampant because the author of all disease, Satan, was not yet bound and defeated by the death and Resurrection of Christ.

"Beloved, I wish above all things that thou mayest prosper and be in health, even as thy soul prospereth." (III St. John v. 2).

When these words were written (about 90 A.D.) Jesus had completely defeated Satan, cast him out of Heaven and his millennium reign had begun. He could now offer perfect health of body and soul to ALL who believed in Him. The Bible is a wonderful textbook on health.

Moses was a great Scientist and Physician. Moses had no microscope!! Moses had no microscope and he didn't need one. Moses was educated in all the wisdom of the Egyptians. The Egyptians knew a lot about the human body because they did not practice the barbaric custom of cremation. They believed in the resurrection of the body so the dead body was prepared for its last journey by mummification.

About 100 years before the Exodus, Egypt was hijacked by an ALIEN FORCE, and it became the domain of darkness and the Pharaoh was Satan personified. All the false religious practices in the world today come from Babylon via Egypt.

Children of Israel worshipping the GOLDEN CALF.

The Egyptians worshipped hundreds of gods and one of them was the HOLY COW. The children of Israel brought this evil practice out of Egypt with them.

Moses was given detailed instructions by God about sanitary conditions. He speaks of frequent bathing . . . and washing of clothes. Quarantine was commanded to prevent the spread of infectious diseases etc.,etc. God describes the promised land as a land flowing with MILK and honey meaning that there would be lots of COWS and bees in the promised land.

Moses' Four Steps to Good Health.

- SERVE THE TRUE GOD
- DIET
- PERSONAL HYGIENE
- SANITATION

"If you will diligently hearken to my commandments I will put none of these diseases upon you which I put upon the Egyptians" (Exodus 15:26).

Moses prohibited the Israelites from copying the Egyptian practice of inoculation.

"Thou shalt notmake any cuttings in your flesh." (Lev. 21:5).

Wherever the children of Israel settled we can be sure that they brought those hygienic practices with them.

"For Moses in old time hath in every city them that preach him, being read in the synagogue every Sabbath day." (Acts 15:21).

Diseases like smallpox were unknown in the Roman Empire because they know that disease was spread by flies, polluted water, lack of sanitation, dirty clothes, overcrowding, etc., etc. They never practiced inoculation because they had no need for it.
