

More Virus Tyranny on The Way!

Part 2

BA.2.86: COVID virus sub-variant clade BA.2.86, now CDC says its tracking it; has 36 mutations from the currently-dominant XBB.1.5 COVID variant; so move over EG.5 of FL variants; question to idiots at CDC, NIH, FDA, Pfizer, Moderna, Jha, Biden administration etc.: why would you be bringing an XBB1.5 booster now when it will not hit (viral immune escape) even this BA.2.86 if it becomes dominant?

[DR. PAUL ALEXANDER](#)

AUG 18, 2023

‘(Reuters) - U.S. Centers for Disease Control and Prevention said on Thursday that it was tracking a new, highly mutated lineage of the virus that causes COVID-19.

The lineage is named BA.2.86, and has been detected in the United States, Denmark and Israel, the CDC said in a post on messaging platform X.

"As we learn more about BA.2.86, CDC's advice on protecting yourself from COVID-19 remains the same," the agency said.

The World Health Organization (WHO) earlier on Thursday said in a post on X that it had classified BA.2.86 as a *"variant under monitoring"* due to the large number of mutations it carries.’

Fear porn as usual. Listen, under no condition if you are healthy, got through COVID for over 3 years, naturally immune etc., or took shots, do you take any more of the failed deadly COVID mRNA shots. Never ever for your healthy child. Never. These are criminals now operating. This is fear porn. Parents beware.

They will now prey on the elderly and vulnerable confused people with their 10th shot.

These beasts know that the vaccine has driven the natural selective pressure and the resulting escape variants, they know it. They are doing this to keep this fraud non-pandemic alive for decades. 100% of all of COVID was a lie, including the fraud vaccine. Lockdowns to school closures all worked to kill people and children, all a lie. The inventors of mRNA technology must be investigated as to what they knew, when, as to how deadly the technology was. They knew IMO.

They CDC, FDA, NIH, Health Canada, PHAC, SAGE etc. know original antigenic sin, immune fixation, immune priming, antibody dependent enhancement of infection and disease will dictate that the virus will evade the vaccinal antibodies that are still primarily to the legacy Wuhan strain. Will cause vaccinated to become infected and become ill, seriously ill. Will drive the vaccinated to be a reservoir of infection for the unvaccinated.

They are lying, the XBB.1.5 boosters CANNOT work. No more spike loading in you. Walk away. Now you must detoxify from spike. There is no indication that this new variant or EG.5 etc. is more lethal etc. Infectiousness is a given.

The medical management of people killed them in hospitals and it is here that we must demand no more fraud false positive PCR test, no more COVID isolation protocol for our vulnerable people, no more sedation with midazolam and morphine, demand that antibiotics be given, no more toxic drugs, no more DNR, no more Remdesivir, no more ventilator. No more isolation as it kills elderly, they get dehydrated and malnourished and it kills them.

Dr. Paul Alexander has been championing the exposure of the Covid vaxx crimes against humanity, and has been one of the most vocal critics of the global Genocide plan to kill billions. He has teamed up with other leading world experts into exposing the danger of the spike protein and they offer their collective advice, treatment and experience through The Wellness Company.

Blessings,
