

This is the fake Joe Biden in Kiev, Ukraine on Monday morning February 20, 2023.

The fake Joe Biden has no ear lobe as this photo shows. See the comparison on the next few pages.

See below the real comparison from the fake and the genuine (already dead) Joe Biden.

WILL THE REAL JOE BIDEN PLEASE STAND UP ?

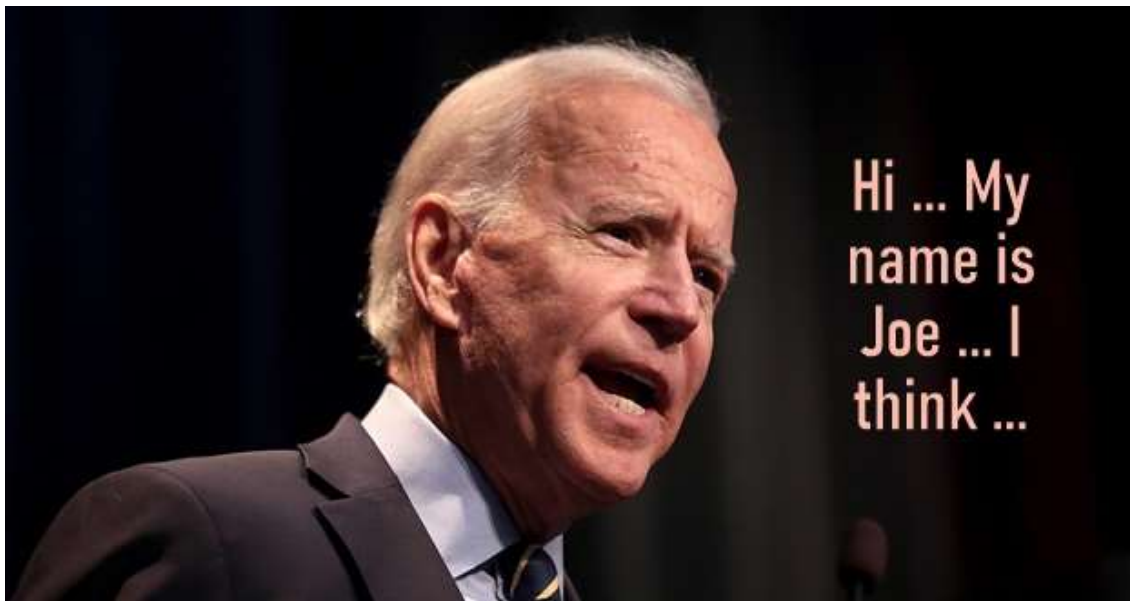

What the hell is going on you ask? We are being sleep-walked right into WWII. You will never know what hit you in the future.

The goal is to destroy both the United States and Russia on behalf of the Vatican New World Order. This began in 1054 AD when the Orthodox Prelates broke from the Vatican pope. The pope cannot declare that he is the Vicar of Christ until the Orthodox Church is destroyed. Every war in Europe over the past 150 years has been religiously based using the dupes who would kiss the pope's behind.

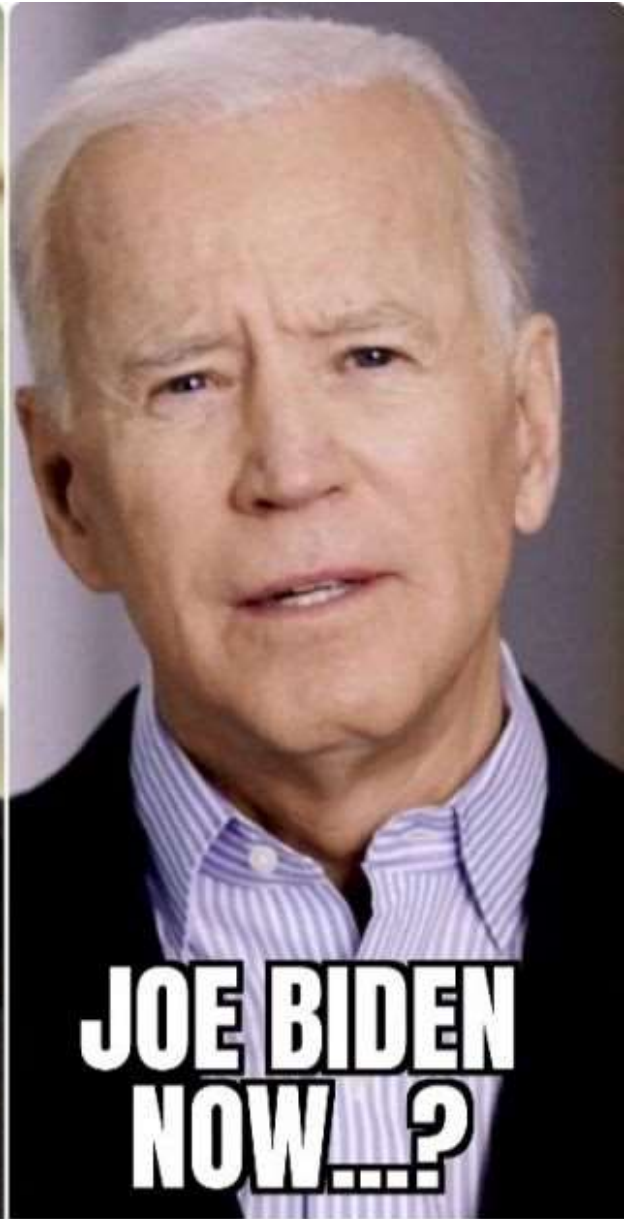

None of you know anything about this millennial-old feud. Historically, since 1054 AD there have been upwards of twenty crusades by Rome. At least six were conducted to destroy the Russian/Greek Orthodox Church.

**JOE BIDEN
THEN**

**JOE BIDEN
NOW...?**

The above real Joe Biden was the Senator from Delaware, and was Barack Hussein Obama's vice-president for eight years. The fake doppelgangers even have different color eyes, and dimples in their chins. He was a Senator for 28 years beginning in 1972, when this photo was taken.

The Nazi government of Germany fooled the world with five Adolph Hitler look-alikes from 1938-1945.

Wake-up folks, WWIII is just ahead. Call me crazy but you don't know history, especially religious history.
