

# Wuhan Was a Test Run for Weaponized 5G

## 5G + Coronavirus + Vaccinations + Chemtrails = Depopulation Event

### Part 10 – Puzzle Piece 10

Here is the kind of evidence that confirms the virus called COVID-19 is a bio-weapon.

Germ warfare researchers at the Pentagon's shadowy advanced projects unit have developed a new coronavirus test that could spot infected patients before they become contagious, originally created to diagnose victims of bioweapons.

The Defense Advanced Research Projects Agency (DARPA) says the new test may be capable of identifying infections within 24 hours, some four days prior to any of the test kits currently available, the Guardian [reported](#) on Friday. The rapid diagnosis could find carriers well before they show symptoms and become contagious, which typically occurs within two to 14 days after infection.

Initially designed to detect poisoning from biological and chemical weapons, the tests were hastily repurposed after the health crisis erupted late last year. Since they already employed the same polymerase chain reaction (PCR) machines used to check standard coronavirus nasal swabs, the tests needed only *"a simple tweak"* to refocus them to Covid-19, according to Dr. Eric Van Gieson, who helped to create the original bioweapons test.

[Also on rt.com Militarized microbes? Pentagon's DARPA seeks means to spread genetically modified bacteria as 'explosives sensors'](#)

Calling the project a potential *“game changer”* in combating the pandemic, the head of DARPA’s biological technologies office, Dr. Brad Ringeisen, said the test could fill a *“diagnostic gap worldwide”* if it receives emergency approval from the FDA, which could happen as early as next week.

The test will look at the body’s immune response, rather than for the virus itself, which the researchers hope will detect infection faster than the nasal swabs available now. *“Because the immune response to infection develops immediately after infection, a Covid signature is expected to provide more sensitive Covid infection diagnosis earlier,”* said Stuart Sealfon, who heads up a team of scientists at Mount Sinai hospital in New York.

While the research – collaboration between teams at Mount Sinai hospital, Princeton and Duke University – currently sits behind closed doors, it will eventually be published for review by other scientists. If the FDA grants the test emergency approval, it could be introduced in the US sometime later this month.

*“We are all extremely excited,”* Van Gieson said. *“We want to roll this test out as quickly as we can, but at the same time share with others who might want to implement in their own countries.”*

[Also on rt.com Defensive bioweapon? DARPA wants insects to spread genetically modified viruses... to ‘save crops’](#)

Known for its more bizarre and science fiction-like projects – such as those looking into mind control, telekinesis and weaponized insects (robotic and otherwise) – the secretive agency has turned its attention to the coronavirus pandemic in recent months. In addition to the new diagnostic test, DARPA scientists are also working toward antibody treatments for the deadly pathogen, which has infected some 3.3 million people – over 1.1 million in the US – killing in excess of 213,000 worldwide.

## The Covid-19 Virus and its Laboratory Origin

**The Man-Made Laboratory Origin of Covid-19**

by

Alan Cantwell, MD, and

Leonard G. Horowitz, DMD

(4-23-2020)

### **Introduction**

One of the most important and controversial questions surrounding the current Covid-19 coronavirus pandemic is its origin. Is it from a bat? — or is it a genetically altered laboratory bat coronavirus acting as a bioweapon? This article considers the Covid-19 lab origin.

The first confirmed Chinese Covid-19 case occurred on November 17, 2019; the first U.S. case on January 21, 2020, and on February 3, 2020, President Trump's Director of the Office of Science and Technology Policy, Kelvin K. Droegemeier, initiated a federal investigation into the alleged laboratory origin of the 2019 coronavirus.

"This is not a major threat to the people of the United States and this is not something that the citizens of the United States should be worried about right now," Dr. Anthony Fauci, who heads the NIAID (National Institute of Allergy and Infectious Diseases), told Newsmax's Greg Kelly on January 21.

But the virus threat grew from there, and by the end of January travel restrictions were put into place involving China and other nations.

Subsequently, on April 17, 2020, Fox News' Tucker [Carlson scolded health officials worldwide, but especially Dr. Fauci](#). Carlson accused the President's Coronavirus Task Force director of "lying" about the apparent lab virus outbreak. He also dismissed the status quo scientific consensus that contaminated bat meat at the Wuhan Seafood and Animal Market was the source of the virus.

Several days later, [GreatGameIndia.com](#) reported that parties in India and the U.S. filed complaints against China, the former filing with the United Nations Human Rights Council for waging Covid-19 War. India's complaint claimed Chinese bio-warfare agents stole the Coronavirus from a Canadian lab and weaponized it at the Wuhan Institute of Virology ten miles away from the suspect market. In addition, U.S. lawyer and activist, Larry Klayman, filed a \$20 trillion lawsuit against China for waging a biological war.

### **Prashant Pradhan, Covid-19, and "unique" HIV-like insertions**

On-or-about January 31, 2020, Prashant Pradhan and eight experts in coronavirus gene-sequencing affiliated with the Indian Institute of Technology (IIT), the University of New Delhi, IBM, and New York University at Stony brook, published an extraordinary paper. Using the most advanced computer programs for genetic analyses, they posted in urgency and public duty a 'non-peer reviewed' study entitled: ['Uncanny similarity of unique inserts in the 2019-nCoV spike protein to HIV-1 gp120 and Gag \[gene sequences\].'](#)

To some observers, this finding suggested a 'smoking gun" that pointed to genetic engineering of a malicious virus related to AIDS. Pradhan's 'preliminary report' sent shock waves through the scientific community.

But there was no mention of Pradhan's stunning findings in the major media. And curiously, two days after the report appeared, the authors voluntarily withdrew the study to avoid misrepresentation and controversy.

Pradhan wrote that it was not his intention to feed into 'conspiracy theories,' and said he would get back with a revised version after reanalysis. That never happened. On March 22, however, with no news about revisions, it was announced that Pradhan and the University of New Delhi had developed a cheap Covid-19 detection testing kit currently undergoing clinical trials.

### **The Anderson paper concluding Covid-19 is not man-made**

On March 17, two weeks following Pradhan's report, and before Carlson's broadcast on FOX, a paper was published undermining Pradhan's findings and the lab virus evidence entitled,

**“The proximal origin of SARS-CoV-2’.”** Published in [Nature Medicine](#), 5 authors concluded SARS-CoV-2 (Covid-19) is not a laboratory manipulated virus. The lead author, Kristian Andersen of Scripps Research Institute of La Jolla, CA; and senior author, Robert F. Garry of Tulane University in New Orleans—the co-founder of Zalgen Labs in Maryland—prompted widespread news headlines such as, “Sorry, conspiracy theorists. Study concludes COVID-19 ‘is not a laboratory construct’.”

Similar to Pradhan’s commercial interests, Zalgen’s background involved the development and testing of a coronavirus diagnostic test in alliance with pharmaceutical companies. Partners included the NIH, NIAID, the U.S. Food and Drug Administration, as well as Johns Hopkins University. The latter, operating at the forefront of coronavirus intelligence gathering, data mining, scientific analysis, infection projections, and media reporting.

In the [Nature Medicine](#) report, Garry did not specifically mention Zaldan’s research and development of a coronavirus test under the required disclosure of “Competing interests”. He simply noted that he co-founded “Zalgen Labs, a biotechnology company that develops countermeasures to emerging viruses.”

A few years earlier, in 2016, the NIAID (under the direction of Fauci), gave Zalgen a grant for the development of recombinant antigen diagnostics for filoviruses, which resulted in the ReEBOV® Ebola test, among others. In 2018 the NIAID gave a \$3.7 million dollar grant to scientists studying coronaviruses “emerging” from bats in China. The Wuhan researchers said their identification of new animal coronaviruses allowed them to quickly determine their potential to infect people and reduce global health threats. That Dr. Fauci grant was really doubled before the work was finished in 2019. All illegal by U.S. government law.

Andersen, Garry et. al., made no mention of Pradhan’s controversial genetic research, nor a 2015 study, also published in *Nature Medicine*, by [Menachery et. al.](#), concluding that “A SARS-like cluster of circulating bat coronaviruses shows potential for human emergence,” especially when altered in labs.

It would seem that unnatural “inserts” with “high genetic similarity” to HIV, and Menachery’s group’s coronavirus lab engineering disclosures, would be amenable to confirmation by other virologists.

Indeed, on April 18, 2020, [Luc Montagnier](#), one of the world’s leading virologists and Nobel Prize Winner (in 2008) for the co-discovery of HIV, the AIDS virus, declared that Covid-19 was a “manipulated” man-made virus arising from China’s genetic experiments to develop a vaccine for AIDS.

Montagnier carefully analyzed the description of the genome of Covid-19 and claimed there were indeed insertions of HIV into its genome. Doubting scientific dissenters claimed the insertions might have occurred with Covid infection from an AIDS patient. But [Montagnier](#)

said: “No, In order to insert HIV sequences into this (Covid) genome, molecular tools are needed, and that can be only be done in a laboratory.”

Referencing Pradhan’s study, Montagnier noted that the Indian researchers tried to publish the results of their analyses that showed that this coronavirus genome contained sequences of the AIDS virus, but “they were forced to withdraw their findings as the pressure from the mainstream was too great. Not surprisingly, the corporate-controlled media neglected this intelligence, and Montagnier was attacked by fellow virologists. A few called Montagnier’s idea absurd, ridiculous, and worse. Efforts were being applied to deep six any criticism as to its being bio-engineered into a weapon.

One is left wondering if virologists and geneticists can ever agree if a virus damaging society is “natural” or “man-made” in a lab.

Andersen and Garry et. al., did note that “obtaining related viral sequences from animal sources would be the most definitive way of revealing viral origins.” But, the genetic makeup of dangerous recombinants, and/or “classified” viral bio-weapons, are not likely to be made public, nor to be deposited in ‘genetic banks.’

It is a little known fact that genetic engineers, molecular biologists and virologists constantly create new viruses by genetically altering or combining two or more animal viruses together to make “chimera” viruses.

Ten years before Covid-19, Wimmer et al presented details of so-called “[synthetic viruses.](#)” The manufactured RNA viruses combined the “human endogenous retrovirus”, a “chimp virus” (HIV cpz and AIDS virus progenitor) and the “SARS-like coronavirus.” This dangerous bio-technology with chimera-like viruses could easily induce epidemics and even pandemics, if maliciously employed or accidentally loosed from a lab.

Apparently aware of these dangers, the Andersen team noted, “basic research involving passage of bat SARS-CoV-like coronaviruses in cell culture and/or animal models has been ongoing for many years in bio-safety level 2 laboratories across the world, and there are documented instances of laboratory escapes of SARS-CoV.” They further noted, “Detailed understanding of how an animal virus jumped species boundaries to infect humans so productively will help in the prevention of future zoonotic (animal to man) events.”

However, as though *willfully blind* to the facts, Andersen and Garry, et. al., totally dismissed the lab origin theory of Covid-19 despite the increasing suspicion that it is an unnatural ‘chimera virus’.

## **Genetic engineering of viruses and species jumping**

Covid-19 was quickly and widely accepted as deriving from a horseshoe bat corona virus, perhaps with a pangolin intermediary, before “jumping” into humans at the Wuhan wet market. This was close to a Chinese bio-warfare lab, and not far from the Wuhan Institute of Virology. Virus species jumping has frequently occurred in bio-warfare labs worldwide operating under the guise of “preventative medicine” or proposed vaccine development. “Dual use” research, however, for both military and the drug industry, is conducted in the world’s most advanced labs. “Classified research” enables the *concealment* of bio-warfare methods and materials.

The HIV-like genetic insertions spliced into Covid-19 (seemingly [corroborating Pradhan’s and Montagnier’s findings as reported by Chinese virologists from the University of Tianjin](#)) could have been inserted through genetic engineering. *‘New York Magazine’s Intelligencer* heralded even more evidence that the bat virus did not necessarily arise by “natural evolution.”

We believe the most likely scenario is that Covid-19 is a “super-virus” created through dangerous experiments with bats and bat virus recombinants.

The Wuhan Virology Institute has a history of bat viruses escaping from the lab. According to NIAID officials (January 23, 2020), the new cluster of Covid-19 pneumonia cases originating in Wuhan marks the third time in 20 years that a member of the large family of coronaviruses has jumped from animals to humans and sparked an outbreak.

In 2018, US officials warned that the Wuhan Institute’s research into SARS-like coronaviruses, and its improper lab safety procedures, could result in human transmissions and the possibility of a future emerging coronavirus outbreak.

Accordingly, there is much fodder for the likely ‘cover’ that Covid-19 outbreak “accidentally.” This theory, and liability, is intertwined with the public’s right to know what bio-warfare researchers conceal. Unfortunately, bio-warriors are sworn to secrecy, and the penalties for breaking confidentiality agreements are severe. One can easily Google “dead microbiologists” and be confronted with dozens of web pages documenting the premature and suspicious deaths, even murders, of microbiologists.

Scientists are not always humanitarians. They typically protect their personal interests, and avoid whistleblowing. Many blame ‘natural evolution,’ and animals in the wild, for all “emerging viruses” and new diseases.

We hope this article will contribute to a thorough investigation at the highest levels of science and government to determine the origin of the man-made Covid-19 bioweapon.

### About the Authors

More than thirty years ago, Cantwell published substantial evidence showing the explosive emergence of HIV/AIDS most likely occurred from experimental chimp-virus-tainted hepatitis B vaccines inoculated into gay men in Manhattan, beginning in 1978.

Later, in 1996, [Horowitz](#) independently concluded the same, supplementing evidence with records of the pilot studies in NYC, the Congo, and Willowbrook State School for the mentally-retarded, 1972-74.

Horowitz also discovered and republished the secreted contracts of the NIH and NCI detailing the studies done by [Special Virus Cancer Program](#) investigators, most notably Luc Montagnier's competitor in the U.S., Dr. Robert Gallo, proven to have created a bounty of 'novel' lab viruses, including the never-before-seen leukemia-lymphoma-sarcoma cancer complex varieties called AIDS today. For this work, Horowitz was openly [censored by the United Nations AIDS Group](#).

## 9 Simulations, Drills and Laws that Planned and Prepared for the Coronavirus

Published on April 28, 2020

By [Makia Freeman](#)

At least 9 simulations, drills & laws that planned & prepared for the coronavirus, plus other coronavirus foreknowledge. Coincidence? No!

They planned and prepared for the coronavirus ... decades in advance. The infrastructure has been clearly set up over the last 2+ decades to ensure that when Operation Coronavirus went

live, all the pieces would be in place to bamboozle and enslave people, forcing them into a place where they would gladly accept or beg for mass vaccination. Operation Coronavirus resembles a false flag op in many ways. One similarity is that it was meticulously planned for long in advance. Astute readers may notice another similarity: the phenomenon of the drill “going live” (we are [in a “live exercise” as Mike Pompeo said](#)). This crops up in so many false flag attacks, i.e. when the exact scenario being trained and prepared for in an exercise occurs in the real world. Below is a list of various simulations, drills, exercises, papers, scenarios and laws that all in some way anticipated and prepared for the coronavirus pandemic.

### **Dark Winter (June 2001)**

The NWO (New World Order) ruling class and the USG (US Government) have been carrying out drills or simulations for pandemics for a long time. In June 2001, they conducted an operation known as Dark Winter which simulated a bio-warfare anthrax attack. By a strange coincidence, such an anthrax attack actually happened after 9/11. By another strange coincidence, Johns Hopkins was involved, and they also just happened to be involved in Event 201 (see below). On this [website](#), the Johns Hopkins’ Center for Health Security summarizes Dark Winter as an exercise which *“portrayed a fictional scenario depicting a covert smallpox attack on US citizens. The scenario is set in 3 successive NSC meetings that take place over 2 weeks. The exercise was held at Andrews Air Force Base, Washington, DC.”* Johns Hopkins is responsible for the ‘official’ (and inflated) [COVID-19 case and death count map](#).

Whitney Webb’s piece on [Dark Winter](#) points out how *“government insiders had foreknowledge of the Covid-19 crisis on a scale that, thus far, has gone unreported and that those same insiders are now manipulating the government’s response and public panic in order to reap record profits and gain unprecedented power for themselves.”* She writes:

*“Upon further investigation, key leaders of both Event 201 and Crimson Contagion, not only have deep and longstanding ties to U.S. Intelligence and the U.S. Department of Defense, they were all previously involved in that same June 2001 exercise, Dark Winter. Some of these same individuals would also play a role in the FBI’s “sabotaged” investigation into the subsequent Anthrax attacks and are now handling major aspects of the U.S. government’s response to the Covid-19 crisis. One of those individuals, Robert Kadlec, was recently put in charge of the U.S. Department of Health and Human Services (HHS) entire Covid-19 response efforts, despite the fact that he was recently and directly responsible for actions that needlessly infected Americans with Covid-19.”*

*Other major players in Dark Winter are now key drivers behind the “biodefense” mass surveillance programs currently being promoted as a technological solution to Covid-19’s spread, despite evidence that such programs [actually worsen](#) pandemic outbreaks. Others still have close connections to the insider trading that recently occurred among a select group of U.S. Senators regarding the economic impact of Covid-19 and are set to personally profit from lucrative contracts to develop not just one, but the majority, of experimental Covid-19 treatments and vaccines currently under development by U.S. companies.”*

### **Model State Emergency Health Powers Act (Drafted 2001)**

MSEHPA (Model State Emergency Health Powers Act) is a public health act originally drafted by the CDC (Center for Disease Control and Prevention) with the intention of getting the 50 U.S. states to enact similar legislation. It included sweeping and draconian legislation – including forced vaccination – as a response to epidemics, pandemics and bioterrorism. It is crucial to realize that the CDC owns patents on several vaccines so functions as a giant vaccine company as much as (or even more so than) a governmental agency. The ACLU [writes](#):

*“The Act lets a governor declare a state of emergency unilaterally and without judicial oversight, fails to provide modern due process procedures for quarantine and other emergency powers, it lacks adequate compensation for seizure of assets, and contains no checks on the power to order forced treatment and vaccination ... The act includes an overbroad definition of “public health emergency” that sweeps in HIV, AIDS, and other diseases that clearly do not justify quarantine, forced treatment, or any of the other broad emergency authorities that would be granted under the Act ... The Act requires the disclosure of massive amounts of personally identifiable health information to public health authorities, without requiring basic privacy protections ...”*

According to [Wikipedia](#):

*“The Association of American Physicians and Surgeons claimed that the draft used sweeping language to the extent that it “could turn governors into dictators” since the MSEHPA gave governors the authority to declare public health emergencies, and afterward force vaccinations on the general public without their informed consent. The deployment of state National Guards could be used to administer the vaccines or substances. Legal liabilities for drug companies which manufactured the vaccines and/or substances were removed.”*

*“As of 2007, 33 states had introduced 133 legislative bills or resolutions that were based upon or featured provisions related to the articles or sections of the act. Of these, 48 had passed ... As of August 1, 2011, forty states have passed various forms of MSEHPA legislation.”*

### **The Project BioShield Act (2004)**

The Project BioShield Act was an act passed by the United States Congress in 2004 calling for \$5.6 billion for purchasing vaccines that would be used in the event of a bio-terrorist attack. It was passed in the years following 9/11 and the Dark Winter-predicted anthrax attack, in days of fear over WMDs, chemical weapons, biological weapons and more. This law is classic problem-reaction-solution stuff, justifying all sorts of Big Pharma interventions by playing off the fear of the day. It was basically a 10-year, almost \$6 billion plan for the USG to create and produce vaccines and treatments for anthrax, Ebola, the plague and other potential bioterrorism agents. This FAS [article](#) reports:

*“This law has three main provisions: (1) relaxing procedures for some CBRN [chemical, biological, radiological, nuclear] terrorism-related spending, including hiring and awarding research grants; (2) guaranteeing a federal government market for new CBRN medical countermeasures; and (3) permitting emergency use of unapproved countermeasures. The*

*Department of Health and Human Services (HHS) has used each of these authorities. The HHS used expedited review authorities to approve grants relating to developing treatments for radiation exposure and used the authority to guarantee a government market to obligate approximately \$2.3 billion to acquire countermeasures against anthrax, botulism, radiation, and smallpox. The HHS has also employed the emergency use authority several times including allowing young children with H1N1 “swine flu” to receive specific antiviral drugs.”*

### **The Public Readiness and Emergency Preparedness Act (2005)**

Where would Big Pharma be without their favorite politicians’ constantly passing laws to legally protect them from liability arising from their toxic products? In 1986, the US Congress passed the National Childhood Vaccine Injury Act which set up special courts for the vaccine-damaged. The Public Readiness and Emergency Preparedness (PREP) Act, codified at [42 USC §247d-6d](#), gives the Secretary of the Department of Health and Human Services (HHS) the power to waive legal liability for corporations producing “covered countermeasures” (i.e. vaccines) in the case of a public health emergency. A PREP Act Declaration (effective February 4th 2020) was issued to provide liability immunity for activities related to medical countermeasures against COVID-19.

A 2010 Rockefeller Foundation paper analyzed the NWO plan to use a pandemic to grab power, known as Lock Step!

### **Lock Step (Rockefeller Foundation Paper, 2010)**

As I covered in an earlier article [2010 Rockefeller Foundation Paper and The New Normal](#), a Rockefeller Foundation paper analyzed a scenario called “Lock Step” (a phrase with negative overtones and suggestive of soldiers, military and fascism) where they outlined governmental responses to a rapidly emerging viral pandemic. The paper outlined a scenario where a pandemic has hit, and the governments of the world use it to expand their authority and increase their grip on power. Although the authors of the paper try to claim they are just imagining not predicting the future, given the immense role of the Rockefeller family bloodline and Rockefeller Foundation in pushing the NWO Global Government, this is a ruse to cover their active planning for crisis scenarios that they know will happen. It is also a fine example of predictive programming.

### **USNORTHCOM Branch Plan 3560 (January 2017)**

This [unclassified 2017 US Military paper from NORTHCOM](#) warned of a possible “novel influenza disease” that could strike the US and leave it unprepared. It outlines a planned and coordinated response to an infectious disease outbreak involving numerous governmental agencies, such as DHS, FEMA, USDA, HHS and even NGOs like USAID.

### **Cybersecurity and Infrastructure Security Agency Act (2017)**

Similar to section 817 of the Patriot Act (the Expansion of the Biological Weapons Statute which gave the USG immunity from violating its own biological weapons laws), this act reorganizes the Department of Homeland Security’s National Protection and Programs Directorate (NPPD) into a new agency: the Critical Infrastructure and Cyber Security Agency.

*ActivistPost* reporter Janet Phelan [wrote](#) that this new act further cemented the USG's "ability to covertly deploy through water, which is defined as critical infrastructure, any biological or chemical agent and claim not only immunity but also deny any legal right to protest this through the legal system. Given the covert nature of this delivery system, it is to be expected that the US would claim that the resultant mass deaths to be attributable to a naturally occurring pandemic."

### **Crimson Contagion (August 2019)**

In 2019, there were 2 exercises conducted in the second half of the year that both happened to simulate a situation where a viral pandemic broke out in China and made its way to the US! The first one, which finished in August 2019, was called Crimson Contagion and was run by the USG. The full name was Crimson Contagion 2019 Functional Exercise. In it, the USG prophetically simulated a viral outbreak that began in China and landed in Chicago, infecting 110 million Americans. The conclusion of the 'simulation' was that the Federal Government lacked the funds, coordination and resources to effectively combat the virus, a finding which justifies even greater spending on pandemic preparedness. The simulation was led by former Air Force physician Robert Kadlec (mentioned above) who was also involved in Dark Winter ... and now COVID-19. What another amazing coincidence.

### **Event 201 (October 2019)**

It's the event everyone is talking about! On October 18th, 2019 in New York, the Johns Hopkins Center in partnership with World Economic Forum (WEF) and the Bill and Melinda Gates Foundation hosted Event 201 – A Global Pandemic Exercise which was a simulation of a coronavirus pandemic. Just another coincidence of course. Attendees included the US CDC, the Chinese CDC, WEF (in partnership with the WHO), Big Pharma reps (e.g. Johnson and Johnson) and others. Event 201 was run by NWO front man Bill Gates, who has used his fortune to push GMOs and vaccines all over the world. Gates has been very visible during this pandemic using MSM platforms to preach the need for [mandatory vaccines](#) and [possible "digital certificates" or "immunity passports"](#) which people would need to travel again after the lockdown.

### **Other Foreknowledge Showing Some Were Prepared for the Coronavirus – Imminently**

Other foreknowledge outside of the above 9 points includes the [US senators who dumped stocks](#) right before the outbreak began (between late January and February 14th), as well as the [hundreds of CEOs who unexpectedly quit](#) around January 2020. Are we meant to believe that was all this just lucky timing? Why did USG, on September 30th 2019, end the [pandemic early-warning program](#) to detect coronaviruses, just months before the coronavirus crisis started in China? Just as there was clear 9/11 foreknowledge, so too is there clear and unmistakable coronavirus foreknowledge.

### **Clearly, They Prepared for the Coronavirus**

So all in all, Operation Coronavirus is a carefully engineered crisis which has been planned at least 2 decades in advance, if not longer. The psychopathic social engineers who run the world have AI supercomputers to test all scenarios and permutations of their ideas, just like

plugging in variables into an algebraic equation. One thing is for sure: this operation has many phases and possibilities and we are just in the opening scene of what is to come. The plan is to [rapidly accelerate as many NWO agendas](#) as possible while people are still ignorant and afraid. To what extent they succeed will depend on how many people can get out of fear, educate themselves, unite and stand in the true sovereign power, in the knowledge of their inherent birthright of freedom.

We are past the warning stage of what confirms something I brought up in a previous part in this series, I think it was in part 8. I suggested that there is a world-wide effort of the major powers to poison their own people and through plausible deniability they would be able to point fingers at each other as to the blame for their own crimes against humanity. Unfortunately, the USA has a long list of crimes and experiments against its own citizens that go back decades. More than a decade ago I had a file containing 34 pages of experiments that were conducted against U.S. citizens, military and civilian. That file was destroyed when

my computers were hacked and crashed. Most of what I try to download and save is being “blocked” by censors on the Internet. The censors must realize that what they are blocking from downloading and sharing is really a confirmation of their complicity with the crimes being waged against the citizenry.

Recognizing that my ability to inform people of what is happening and how their national and state leaders have sold them down the river to global ID “Microchipping” and surveillance and enslavement, I will offer my recommendations in a few final words.

**Do Not Allow Yourself to be “Tested” for Any Alleged Viruses  
It is an Innocent tactic to obtain your DNA**

**Do Not Allow or Submit to any VACCINES**

**Do Not Allow any Agency to do mouth/nose swabs**

**Do Not Allow anyone to draw blood samples regardless of how small  
The sample might be**

**Above all do not allow any form of ID “microchipping”**

**GIVING UP YOUR “DNA” is to give up your identity.**

Over the past ten years there has been a concerted effort to acquire people’s DNA, through ordinary police vehicle stopping, DUI checkpoints, blood typing efforts, insurance screening, genetic testing for family heritage lineage, all of which is given to U.S. law enforcement agencies to be included in a national ID registry. What each of these unsuspecting activities really are working at is to obtain your DNA. Once the government has your DNA, it will be possible to control each individual, through the 5G technology of the Space Net that will be fully operational later this year. As long as you do not give up your God-given DNA, you remain a sovereign individual free of the Luciferian enslavement plan!

Blessings,

Pastor Bob, [EvanTeachr@aol.com](mailto:EvanTeachr@aol.com)
