DRUDGE REPORT

It ought to be obvious to every sentient American by now that the United States has been the target of many a seasonal series of stealthy acts geo-terrorism over decades. Of course, when those acts of weather warfare are aimed at a large geographic area, it becomes full-scale weather war as the USA is experiencing this Christmas weekend.

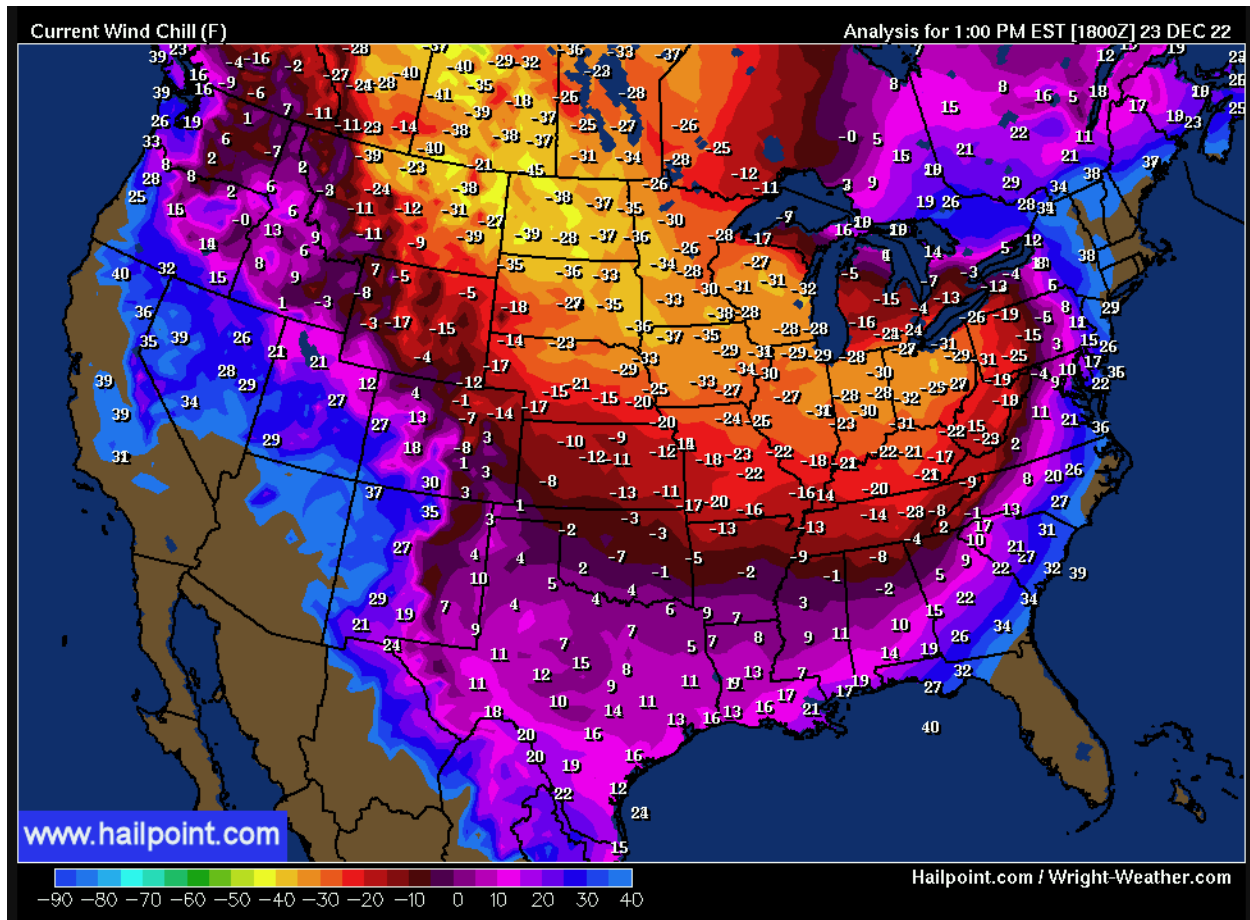

[State of the Nation](#)

A seasonal series of geo-terrorist attacks on American soil simply means that during hurricane season, from June 1st through December 1st each and every year, the geo-engineers first intensify and then aim their superstorms at specific targets on the southeast U.S. coastline.

Similarly, during the cold season, the same geo-terrorists and weather warriors manufacture “winter bomb cyclones” to throw whole regions of the country into chaos and cleanup.

Yes, hurricanes have always happened during Hurricane Season just as snow storms have predictably occurred throughout the North American winters ... but not like these Frankenstorms (see screenshot above).

In other words the NWO geo-engineers can either hijack a nascent storm and rev it up way above where Mother Nature would have taken it; or, they can engineer a superstorm from scratch as they did with Hurricane Ian which they used to utterly devastate parts of Southwest Florida this past September of 2022.

The Big Chill of 2022

It should come as no surprise to any resident of the 50 states that the *New World Order* globalist cabal would take great pains to wreck and ruin the 2022 Holiday Season.

Not only do these Khazarian-directed geo-terrorists detest what Christmas stands for, they only want to see every Christian nation on Earth start the New Year in the state of complete chaos, confusion and conflict. Look at all of Europe today. Look at the United States and Canada. Look at Ukraine and Russia. Look at Brazil and Argentina. Look at Australia and New Zealand. Etc., etc., etc.

There are numerous reasons why the **Khazarian Cabal** was intent on wreaking havoc via its powerful weather weaponry this Christmas season throughout North America. The most self-evident NWO ambitions are as follows:

- I. To greatly weaken and/or collapse state, regional and national **energy grids** from the North Midwest to Deep South and from the East Coast to the West Coast
- II. To further sabotage and/or collapse the **food supply** by wiping out vast swaths of agricultural acreage especially where winter crops are vulnerable.

III. To **mass murder** some of the millions of homeless and inadequately housed individuals across those regions of the country undergoing an unparalleled deep freeze (See “wind chill” map above)

IV. To distract the American people from the ongoing **grand thefts** from the U.S Treasury being conducted before the 118th United States Congress meets on January 3, 2023

V. To divert the attention of the U.S. citizenry from the countless **war crimes** and **crimes against humanity** committed by the Biden administration, particularly those perpetrated in Ukraine, Syria, Afghanistan and Somalia.

VI. To end the year with a smashing advertisement for the globalist-fabricated **climate change** scam (which is why it’s friggin freezin’ coast to coast right now despite the constant drumbeat of “*Global Warming*” ~ “*Global Warming*” ~ “*Global Warming*”)

VII. To manufacture a sufficient level of **chaos, confusion and conflict** nationwide so that the Democrat/RINO Uniparty can carry out their traitorous plan to conspicuously overthrow the U.S. Federal Government via a bolshevik revolution.

VII. To forever cancel the American Republic and bankrupt the US Corporation before installing a **totalitarian government** in Washington, D.C. which will employ the very worst aspects of both fascism and communism

To be continued between holiday events —
