

# IT'S WAR! A Zio-Anglo-American War Against Russia / Stand Down!

Posted on February 14, 2022 by State of the Nation

---

Zio-Anglo-American Axis Determined to Push Russia into Regional War as the Penultimate Move of their *Great Game* that ends with World War 3

---

---

POTUS Imposter Joe Biden Brings the Whole World to the Brink of War on Behalf of His NWO Globalist Masters in Order to Distract the Entire Planetary Civilization from the Following Cataclysmic Events and Conspiratorial Plots:

- (1) Free-Fall Collapse of the Worldwide Covid Tyranny
- (2) Replacement of COVID-19 Pandemic with the "War on Climate Change"
- (3) Controlled Demolition of the Global Economic and Financial System

- (4) Acceleration of the Great Reset via Digital Crypto-Currencies
  - (5) Expeditious Implementation of UN Agendas 21 and 2030
  - (6) Establishment of a One World Government & Global Security Superstate
  - (7) Creation of a *New World Order* via *Ordo Ab Chao* in the Wake of World War III
- 

#### [State of the Nation](#)

The preceding list is obviously an abridged version of the numerous goals and objectives, aims and purposes, ambitions and missions of the *New World Order* globalist cabal.

There is no greater game-changer than war, especially World War. Although the world community of nations has been quite preoccupied with the cold phase of World War III since the false flag 9/11 terror attacks were staged by the U.S. Federal Government, it's the long-planned hot phase of WW3 that really matters here.

This is exactly why POTUS pretender Joe Biden was criminally installed in the White House—to aggressively prosecute World War III after he helped set the stage — IN THE UKRAINE — as Obama's Jesuit-controlled VP.

As a matter of historical fact, whenever Democrats are shoehorned into the Oval Office, a major war is on the horizon. As follows:

World War I — Democrat T. Woodrow Wilson

Bolshevik Revolution — Democrat T. Woodrow Wilson

World War II — Democrat Franklin Delano Roosevelt

World War II (2 Atom Bombs) — Democrat Harry S. Truman

Korean War — Democrat Harry S. Truman

Vietnam War — Democrat John F. Kennedy\*

Vietnam War — Democrat Lyndon B. Johnson

The Balkan Wars — Democrat Bill Clinton

Ukraine War in Donbas — Democrat Barack Obama

Russo-Ukrainian War — Democrat Joe Biden

## “Predicted” World War III — Democrat Joe Biden

(Source: [THE MOST PERILOUS MOMENT OF THE THIRD MILLENNIUM—Why?!](#))

Whether it's a European regional war or world war remains to be seen during Biden's presidency; however, a major armed conflict of great consequence to the global order is all but guaranteed.

Both the Biden administration and NATO have worked over time to provoke Russia into war in such a transparently belligerent manner that it's clear the globalists will not relent. Biden even hastily ended the war Afghanistan in preparation for the war in Ukraine.

The U.S. military deliberately ended their occupation of Afghanistan in 2021, ahead of an armed conflict in the Ukraine; and purposefully left billions of dollars of weaponry and tons of armaments and other supplies there to be used for the coming war against Russia. Afghanistan is the closest nation to southern Russia that can still be used as a NATO-based weapons depot, staging area and Launchpad to support a regional armed conflict.

### Ukraine

The ongoing war in the Ukraine represents just one [PIVOTAL] piece on the current global geopolitical chessboard. It is a particularly BIG piece because the Ukraine occupies a highly geostrategic location where it concerns the multi-century *Great Game* played over centuries to conquer Russia. The distance from the center of Moscow to the Russian-Ukrainian border is only 450 km or 280 miles.

---

**KEY POINT:** It's not the Ukraine that's being targeted by the NWO warmongers; it's Germany. *The Powers That Be* have been on a serious mission, since the various revolutions and wars that were deliberately staged during the 18th, 19th and 20th centuries, to keep Russia and Germany apart—FAR APART — forever.

---

The Zio-Anglo-American Axis knows that a close political/economic alliance between Germany and Russia would spell the final end of the dying US-UK Empire. The Western political establishment will simply not tolerate this; nor will the wealthy elites of US-UK-EU accept the ascendancy of a Russian-German power structure built around the most powerful economic engine the world has ever seen.

What the elites are really afraid of is the natural marriage of German capital, technology, market monopolies and industrial efficiency with Russian natural resources, manpower, scientific knowhow and industrial capacity. Such an economic and financial union scares the living daylights out of London and Washington.

### Conclusion

There are several other purely geopolitical reasons for Biden's naked warmongering in the Ukraine as he blindly attempts to lead the West into World War III. All of them serve to advance the *New World Order* agenda while maintaining Zio-Anglo-American domination of the world AT ALL COSTS.

---

### [STRATFOR Chief Reveals Zio-Anglo-American Plot For World Domination](#)

---

It's entirely true that POTUS Imposter Biden has many compelling reasons to "wag the dog" (read: start a distracting war) during this extraordinarily decisive year that's especially distinguished by the monumental midterm elections.

The Democrats cannot lose the House or the Senate this election cycle. Biden knows that. Hence, he will follow any orders that ensure electoral chaos in November. Because only in that prevailing climate of chaos and confusion will the Democrat Party brazenly attempt to steal every election in sight—AGAIN!

Much more significantly, the many traitorous Democrats and Republicans, at all levels of government, will desperately need a HUGE distraction from the collapsing Covid narrative. Because the vast and profound repercussions of the *Plandemic* are only now coming to light, both sides of the political aisle will direly need cover. Which is why only one member of Congress to date has spoken against US involvement in a Ukraine war.

---

### [Fearful Power Elite + Failed Covid \*Plandemic\* = Distracting World War 3](#)

---

**BOTTOM LINE:** The world community of nations has never seen such an unrelenting campaign of warmongering prevarication and propaganda directed at Russia. The West is literally pushing every button and pulling every string to trigger war between Russia and the Ukraine. In view of the powder keg that the Ukraine has become since the CIA-coordinated color revolution in Kiev in 2014, it's inconceivable that the Kremlin has been able to avert war up to this critical point. Because right now Moscow is facing existential threats that are far greater than any others in Russia's long and storied history. In other words, Russia knows that it has no choice but to wage war for the sake of survival. The preservation of the nation-state can only be guaranteed by armed conflict; and a very destructive one it will have to be.

February 13, 2022

SOTN Editor's Note: Who has not witnessed the never-ending schemes carried out by the U.S., UK and allies to sabotage the Nord Stream 2 gas pipeline project between Russia and Germany? For example, the Oil&Gas Industry and energy market manipulators are colluding more than ever to drive the price of LNG (liquefied natural gas) to an all-time high in order to jump-start the American LNG producers that went belly up during the Covid-induced global economic downturn. In this way, American LNG suppliers can profitably sell their much-needed natural gas to Germany thereby precluding their dependence on Russian exports. Remember: **It's all about preventing Germany and Russia from collaborating in any sphere of life.**

## Russia announces troop withdrawal

Forces have already begun preparing for withdrawal, the Ministry of Defense has announced

Military hardware takes part in the joint military drills between Belarus and Russia, at the military training ground in Belarus. © Sputnik/Russian Defence Ministry

Russian troops have completed their training drills in Belarus, close to neighboring Ukraine, and will begin returning to their places of regular deployment, the Ministry of Defense in Moscow has announced amid fears in the West that the exercises could have been a precursor to an invasion.

Major General Igor Konashenkov, the chief spokesperson for the ministry, delivered the news in a video released by military chiefs on Tuesday.

*“As the forces complete their military exercises, they will, as always, complete a multimodal march back to their permanent bases,”* Konashenkov stated. *“The divisions of the South and West Military Districts have finished their tasks and have already begun loading the rail and automobile transport, and today will begin moving back to their military garrisons.”*

He explained that different divisions would be moving separately in military columns. Video clips released by officials also showed armor being loaded onto railway carriages to return home.

Russia began conducting the joint *“Union Resolve”* drills with Belarus last week, and they are scheduled to last until February 20. According to a statement from Moscow, the exercises are designed to test and develop the two nations’ abilities to *“halt and repel*

*foreign aggression*” and will involve ground forces, heavy equipment such as tanks, and air force maneuvers.

Western leaders have been voicing fears for months that Russia could be planning a full-blown invasion of Ukraine, and have pointed to reports of a troop buildup on the two countries’ shared border, as well as the exercises in Belarus, as signs of aggressive intentions. Moscow has consistently denied that it plans to attack, and has called for security agreements that would limit the activity of NATO, the U.S.-led military bloc, in Eastern Europe.

Last Wednesday, White House spokesperson Jen Psaki called the drills “*concerning*,” but said that she would not make any predictions about their significance regarding a potential invasion. US President Joe Biden has previously warned that Moscow could order an offensive at any moment.

**You can share this story on social media:**

Count on Joe Biden’s Obama handlers to take credit for this apparent “Putin blinked” moment! If you want to believe Obamabiden is the winner in this stand down, you are going to be sadly mistaken. As justified as Vladimir Putin was to invade the Ukraine, Putin has put the NATO alliance into check-mate. In doing what he did by calling the exercise off, he has showed his brilliance as a Chess-player. He may be thinking that I will keep them guessing as to what my next move will be. But remember what the Editor of SOTN said, “***Remember: It’s all about preventing Germany and Russia from collaborating in any sphere of life.***”

There was a huge news story the media did not cover on Super Bowl Sunday, which poses real big problems for Joe Biden, Barack Hussein Obama, Bill & Hillary Clinton.

## Clinton Campaign Paid Tech Firm To Link Trump To Russia As Per Court Documents

February 15, 2022

An executive exploited his access in order to come up with a narrative linking Trump to Russia, suggests court filings, providing sufficient material to suspect that the [Clinton campaign paid a tech firm to link Trump to Russia](#).

A startling new legal document (read below) claims that lawyers for Hillary Clinton’s 2016 campaign paid an IT firm to “infiltrate” systems at Trump Tower and the White House in order to set up a “narrative” linking Donald Trump to Russia.

A Justice Department prosecutor examining the origins of the FBI’s ‘Russiagate’ probe filed a formal motion (*read down below*) in a District of Columbia court on Friday regarding potential falling-out by former Clinton campaign lawyer Michael Sussmann. Sussmann pleaded not guilty to a single count of lying to federal authorities in the past.

Sussmann, a lawyer at Perkins Coie, the legal firm that represented the Democrats and Clinton’s campaign, supposedly told the FBI two months before the 2016 election that he was not acting on behalf of Clinton when he supplied the bureau with apparently damaging materials.

Sussmann allegedly submitted “purported data” and “white papers” to then-FBI General Counsel James Baker in September 2016 on behalf of the Clinton campaign and an unnamed “technology executive” at a US tech firm, according to Special Counsel John

Durham's petition. They appeared to be referring to a "covert communications route" between the Trump Organization and Alfa Bank (also known as "Russian Bank-1").

Durham claims that Sussmann *"repeatedly billed the Clinton Campaign for his work on the Russian Bank-1 allegations,"* citing his *"billing records."* According to the motion, this involves an anonymous campaign lawyer, the tech executive (referred to as "Tech Executive-1"), an investigative business, several cyber-researchers, and personnel from *"multiple internet companies."*

It claims that the executive *"exploited his access to non-public and/or proprietary Internet data"* and instructed academics at an unidentified US institution to *"mine Internet data"* in order to come up with a *"inference"* and *"narrative"* linking Trump to Russia. According to the executive, he was striving *"to please certain VIPs."*

The FBI discovered that the email server in question was maintained by an advertising business that sent out promotional emails for Trump's hotels, among other things, while many US media sites used the Alfa Bank allegations as proof of Trump's "collusion" with the Kremlin.

According to the lawsuit, *"domain name system (DNS) Internet traffic"* from Trump Tower, Trump's New York City residence complex, and the White House was among the internet data exploited. It claimed that Tech Executive-1's employer (dubbed "Internet Company-1") offered DNS resolution services to the White House, and that the executive and his allies took advantage of the relationship to mine data for *"derogatory information"* on Trump.

The motion claims that Sussmann then used this information in 2017 to create *"an updated set of allegations"* regarding Trump's alleged Russian ties with another U.S. government agency which included *"suspicious DNS lookups"* and *"Russian-made wireless phones."* Durham stated that he found *"no support for these allegations,"* adding that some of the searches took place as early as 2014, under Obama's presidency.

In a [statement](#) released on Saturday, Trump demanded *"reparations,"* saying the filing gave *"indisputable evidence"* that his campaign and presidency were *"spied on by operatives paid by the Hillary Clinton Campaign"* to *"develop a completely fabricated connection to Russia."*

*"This is a scandal far greater in scope and magnitude than Watergate and those who were involved in and knew about this spying operation should be subject to criminal prosecution,"* he continued, noting that there was a time when the alleged crime *"would have been punishable by death."*

Clinton has not yet issued an official statement.

Sussmann's lawyers stated last year that their client had "committed no crime," and that the claims against him were "baseless [and] unprecedented. Furthermore, a lawyer for the person who provided Sussmann the Alfa Bank allegations claimed that his client was unaware that his law business had a connection to the Clinton campaign "and was simply doing the right thing."

Sussmann represented the Democratic National Committee (DNC) in court proceedings stemming from an alleged 2016 computer attack. Clinton and the Democratic National Committee both blamed Russia, but they couldn't prove it.

The first Russia investigation grew into a two-year investigation led by then-Special Counsel Robert Mueller, who was unable to find proof of collaboration between Trump's campaign and Russia.

Special Counsel John Durham to you represents the last hope of rectifying the crimes committed by the names I noted above. The Clinton's can't hide any longer behind their lies and I may at least live to see her indicted along with her criminal husband. Joe Biden, interestingly, or his even bigger criminal handler Barack Hussein Obama may be brought to trial for capital crimes he was engaged in and was party to the stealing of the 2020 Presidential election. This evidence contained in a 12-page court document is the next step in bringing the big names to justice, and more importantly, impugn their legacy. The historians of tomorrow will not be able re-write the history books for future generations.

I see this event as one of those events in which the Bible states that all truths will be made known, deceptions and lies will be made known. Luke 8:17 is being fulfilled as this unfolds. ***"For nothing is secret, that shall not be made manifest; neither any thing hid, that shall not be known and come abroad."***

There will be more unfolding on this good news and I will be following up with more surprises to what all this means.

Blessings,

Pastor Bob, [EvanTeachr@aol.com](mailto:EvanTeachr@aol.com)
