

ChemTrails

The Dots Are Now Connecting To the CIA

One of the biggest questions that has existed since the mid-1990's, has been that of those streaks in the sky, commonly referred to as "ChemTrails" may have finally been solved, no less than by one of those painting the sky, day and night, with toxic chemicals.

Evergreen Air is a CIA front company for ChemTrail operations within the U.S. based out of Marana Air Park near Tucson, Arizona and McMinnville, Oregon, near Portland.

A major missing piece of a grand conspiracy has been targeted by no less than a drunken pilot. In a small town 30 miles east of the Pacific Ocean in Oregon is the center of a major global operation.

At a bar in McMinnville, Oregon, an inebriated pilot attempted to impress one of the pretty ladies with tales of his secret mission. The pilot's pathetic attempt to portray himself as a Sean

Connery or Daniel Craig caused him to (ante up) his importance and spill the secrets of the CIA's evergreen International Aviation.

The slurred revelations confirmed suspicions that Evergreen (International Aviation) is part of the major crap dump on the planet. ChemTrails made up of aluminum, barium and other ingredients contribute to respiratory ills and change the acidity of the soil. In recent years, toxic coal ash from coal-fired power plants was mixed into the soup spraying.

Evergreen works from over a 100 bases and employs 4,500 people. Delford Smith privately owned the company, the founder of Evergreen International Aviation, died in November, 2014 at the age of 84.

Smith founded the company in McMinnville after working as a helicopter pilot in agriculture and forestry. He built Evergreen into a global company that contracted with the oil and gas industry, the Air Force, and the World Health Organization.

Media reports linked Evergreen to covert CIA operations over the years, including a flight that took the deposed Shah of Iran out of Panama.

The company filed for bankruptcy protection late in 2013 facing lawsuits from numerous creditors, and said it was in up to \$500 million in debt.

Smith attended the University of Washington, funding his education by working as a crop-duster, and then went into the Air Force and became a helicopter pilot. He founded Evergreen Helicopters in 1960 primarily to serve timber companies in Oregon.

The company expanded into search and rescue work, logistics for the oil and gas industry, defense, and international trade, acquiring a cargo airline in 1975.

Smith and his son also founded the Evergreen Aviation and Space Museum in McMinnville and in 1993 acquired and restored the Spruce Goose, Howard Hughes' famous wooden airplane.

The museum posted a statement on Mr. Smith's passing on Facebook. "Know that the Museum will continue to educate, inspire, and honor our Veterans, and spread Mr. Smith's love of aviation, space and education to everyone we can, in his spirit," it read.

Evergreen Aviation began its downward spiral in 2010, when it lost a key contract with Boeing, flying parts to an airplane assembly plant in Everett, WA.

In 2013, Evergreen sold off its helicopter subsidiary, Evergreen Helicopters Inc., for \$250 million. Then, on December 31st, the company declared bankruptcy, listing hundreds of creditors in the US, Europe, Russia, Asia, and the Middle East.

Evergreen admittedly “performs” for the CIA. Evergreen was given a no contest bid that gave them all the facilities in Marana, Arizona. The security at the Pinal site is said to be as severe as that of Area 51. It is run as a military base where one lost pilot got an armed escort immediately off the operational base. The 10 year pilot said it was nothing like anything he has ever seen.

Evergreen International Aviation brags of their planes that have 7 times the capacity of other fire fighters. One can carry 20,000 gallons. That is roughly 630 tons and in the range of the capacity of a Boeing 747.

Firefighting ... Right ... and next we will be told ChemTrails are to prevent global warming as millions more are advancing to an early death. I can remember in the spring of 1996 of reading newspaper accounts of increased hospitalization for respiratory problems reported in southern Kentucky.

Evergreen International Aviation has exemptions from the law that are advertised on their web site. They can fly anywhere and not stay on a designated route.

Italian industrialist Aurello Peccei, co-founder of the Club of Rome in 1968, stated: *“In searching for a new enemy to unite us, we came up with the idea that pollution, the threat of global warming, water shortages, famine and the like would fit the bill. All these dangers are caused by human intervention, and it is only through changed attitudes and behavior that they can be overcome. The real enemy then, is humanity itself.”*

I have written before about the Club of Rome, it was founded in 1968, under the direction of the United Nations; it was a “think tank” to find ways to reduce the world’s population. The late David Rockefeller was an open eugenicist. Rockefeller’s Club of Rome advises Pope Francis, Would-be Ruler of the World and of World Religions. Back in 2015, I had received a very interesting message from a Swiss reader about the Catholic Mafia of Cardinals behind Pope Francis. Pope Francis mission task is to destroy the Church from within – and lead the flock into the New World Order. Pope Francis has certainly obliged by his leadership to have done an exceptional job of destroying the Roman Catholic Church. Since his reign began, he has been an iconoclast of everything traditional, reflecting his Marxist theology and world view!

The Black Pope back in 2015 spoke of an Arch-Jesuit, representative of a destructive order, the originator of today’s Freemasonry, the leader of which is Pope Francis ‘and Rothschild’s master, viz.

The first Antichristian profession by Pope Francis came in Philadelphia., where he is quoted as saying that Jesus failed on the cross – though his death at the cross was a long planned and predicted event, indeed it was the crown of his work. Whereby Christ finally defeated the Pope’s master, Satan, whom Francis ‘church has enthroned as its head. The Pope has discarded the Bible. Pope Francis has trashed every traditional Catholic doctrine and Christian tenet to date.

Pope Francis has a series of Antichristian productions behind him:

- 1) The "Laudatio si"
- 2) He is continuing the globalist Interfaith tradition of his predecessors Popes John Paul II and Benedict XVI = the one world religion of the NWO. He has even been offered to become the head of the One-World Church by Israel's NWO High Priest, Shimon Peres.
- 3) Francis' coats of arms is full of pagan and satanic symbols.
- 4) He has sworn the satanic and murderous Jesuit Oath entered into the Congressional Record, 62nd Congress, 3rd Session; House Bill 1523, Library of Congress, Catalog Card Number, 66-43354, Volume 49, part 4, pages 3215-16 and here.
- 5) Francis has summoned Hollywood's Pharisaic Satanists to help him with his PR.
- 6) He is in command of a church which has enthroned Satan as its head.
- 7) Through its New Catholic Catechism art. 841, Francis' Church has made Jesus Christ superfluous as the Saviour of mankind: Muslims are said to be saved without Christ!! – Who says that no one comes to the father except through him -(John 14:6).

The Pope is a depraved NWO Communist betraying Christianity. He supports everything that is anathema to the Bible and Christianity.

'Pope Francis' did NOT address the following in his "historic" visit to the U.S.: Government corruption by lobbyists to silence the voices of the people, staged war on terror, endless illegal wars of aggression, ongoing false flag operations with crisis actors, out of control police state, creation and arming proxy terrorist armies like ISIS, geoengineering, ongoing crimes against humanity and the planet, ongoing GMO poisoning of the human race's DNA, the list goes on and on. In his speech to Congress, he officially endorsed the coming "sustainable" (Communist) new world order.

Instead, Pope Francis conveniently echoed the desires of the controlling oligarchs who want to rule the world. The most important message being to endorse the anthropogenic global warming/climate change issue by talking about the "environment". The environment issue, as it relates to the original global warming CO2 lie and here, is the most important issue as without it the global elitists will never be able to force Agenda 21 and thus (communist) "sustainability" on humanity. Without it, they will never get their global carbon taxes to fund the global government for which the Pope seems to be speaking. And thus they will never get their new world order Francis-world-religion

Most people familiar with the global elitists' long-term plan for global domination know that the plan links back to the Club of Rome and the Committee of 300 (Rothschild's Hidden Hand – among other entities. And almost every issue he raised just happened to coincide perfectly with the agenda of the Club of Rome and the Committee of 300.

The Vatican announced that Pope Francis has appointed controversial German Professor John Schellnhuber as an ordinary member of the Pontifical Academy of Sciences. Schellnhuber is a full member of the Club of Rome. Schellnhuber was one of the four presenters of the new

encyclical on the environment, *Laudato Si*. On the Club of Rome Website Schellnhuber even praises his own Communist *Laudatio*-work.

He is considered one of the world's leading (hired) climate scientists, and one of the strongest advocates of catastrophic global warming. Schellnhuber is also known for his advocacy of a one-world government with an Earth Constitution; (ii) a Global Council; and (iii) a Planetary Court. Schellnhuber has been a prominent counselor to the European Union and to German Chancellor Angela Merkel. Schellnhuber has little patience for those who do not accept his scientific theories and conclusions. *"They are driven by a nearly religious zeal."* (What about himself and his lies?)

The Pontiff checked boxes in calling for religious liberty and defending the family, the heart of his address, and especially the overriding need to help the poor and destitute. He was at his most passionate in embracing immigration, alluding to his own family's history of moving from Italy to Argentina, where he was born.

The pope issued a vigorous call to action on issues largely favored by liberals, including a powerful defense of immigration, a critique of the excesses of capitalism, an endorsement of environmental legislation, a blistering condemnation of the arms trade and a plea to abolish the death penalty.

The Huffington Post's Howard Fineman charged the Pope with wanting to be "president of the world". The Pope has tried to promote the elitists' desire to manage our collective consciousness in preparation for what they hope will be a "sustainable" prison planet where they (the global oligarchs) will rule the world by controlling every aspect of it.

They need this new world order now and they've chosen the Pope as the messenger of their plans. The Club of Rome's man as papal adviser is very disquieting: The Club was founded in 1968 at David Rockefeller's estate in Bellagio, Italy. David Rockefeller was a CoR executive member. Also, the court-proven Climate liar, Al Gore and the UN thief, and the late Agenda 21-father, Maurice Strong + all NWO VIPs are members. What the pope says about the (Illuminati's) capitalism is correct. But apart from that he speaks the policies of the NWO – for that is his religion: He has become a genuine Antichrist being but not "THE" Antichrist.

People like Philip Lader and John Wheeler III facilitated the idea further. They were member of the CFR. Evergreen's public relations (propaganda) spokesman's handled by WPP [a global holding company based in the UK] run by Council on Foreign Relations member Philip Lader. He worked under the then head of the CIA Leon Panetta as White House deputy of staff under Bill Clinton. It has long been suspected that the CIA was deeply involved in the agenda of the Club of Rome. The dots are discernable.

Philip Lader is an "inside" authority on international affairs and business. He is the non-executive Chairman of WPP Group, Senior Adviser to Morgan Stanley International, and a board member for "think-tank" RAND Corporation. He is also a trustee of UC Rusal (largest aluminum

company in the world) the British Museum and St. Paul's Cathedral Foundation. He was President Clinton's ambassador to the UK.

Ambassador Lader has addressed trans-Atlantic audiences from the U.N.'s General Assembly Hall to state chambers of commerce and local world affairs councils, is a member of Rockefeller's Council on Foreign Relations.

Philip Lader (CFR) is a key player driving toward world government. In addition to running the Public Relations for Evergreen International Aviation, Lader is a director of UC Rusal, the largest Aluminum producer in the world located in Moscow, Sweden, Italy, and Australia. Nathaniel Rothschild is a big investor.

Eugenic operation of Chemtrails has had the assistance of Mitre Corporation, a non-profit that manages the Federal Aviation Administration, Homeland Security, and the IRS. The IRS is part of the Federal Reserve which is a major player in the conspiracy to reduce populations. Philip Lader's fellow Council on Foreign Relations member John P. Wheeler III was recently dumped into a land fill in Wilmington, Delaware. Wheeler was a consultant to Mitre the non-profit corporation with jurisdictional advice over the Federal Aviation's flight patterns.

Was John P. Wheeler III too sentimental for the killings underway? And got murdered by the Company? The CIA is the enforcement arm of the Council on Foreign Relations. Mitre is conveniently located in McLean, Virginia home of the CIA. The CIA has its entire existence been linked with the Roman Catholic Church, even dubbed as the "Catholic Intelligence Agency".

Thanks to the drunken pilot and his loose lips the free people of the world can focus on the criminals who are poisoning our air and our water.

For those unfamiliar with Chemtrails, we have been subjected to a most insidious global method of killing humanity slowly. I first became aware of Chemtrails in the fall of 1996. Earlier in the spring, I had read articles of a spike in respiratory health issues in southern Kentucky. It was a subject reported on by the *'Kentucky Standard'* Bardstovwn newspaper. Later that year, in September, there were reports posted on the Internet by an Air Force Reservist pilot based at the 911th Air Wing at the Greater Pittsburgh Airport spraying operation. In recent months, President Trump toured aircraft used for spraying at the base where the President's aircraft are based and serviced. So, it is not conspiracy theory, it is a conspiracy fact. Three years ago, pictures were posted on the Internet of various types of aircraft used in the spraying of chemicals. The President even said the Chemtrails would end; however, he did not say when. Chemtrail spraying has not ceased where I live.

The web site www.Aircrap.org has been around for several years and reports frequently on Chemtrails and toxic chemicals being dumped from the sky. It goes by the name "Operation Cloverleaf."

Dr. Bill Deagle Ph.D. is a whistle-blower that has come out telling the truths about Chemtrails and 1997 Federal – Public law you are being sprayed as an experiment.

- (2) deterioration of food, water, equipment, supplies, or materials of any kind; or
- (3) deleterious alteration of the environment.

(f) REPORT AND CERTIFICATION.—Section 1703(b) of the National Defense Authorization Act for Fiscal Year 1994 (50 U.S.C. 1523(b)) is amended by adding at the end the following new paragraph:
Reports

The presence of aluminum, barium, calcium, magnesium, and titanium in the air over nearly all of the United States is now well documented, in as reliable a way as is available to an ordinary American citizen. Numerous independent individuals have since documented their findings and have posted hundreds of articles on the toxic issue of Chemtrails.

We were not designed to breathe these materials. Especially at the tiny particulate size, which has over and over been proven to cause increased death rates? (Most recently by the Journal of American Medical Association, 3/6/2002, 'Mortality, and Long-term Exposure to Fine Particulate Air Pollution'). It is a pathological fact that many victims of Alzheimer's Disease have extremely high levels of the heavy metal aluminum in their brain, as revealed from autopsies.

As Chemtrails -- the postulated release method for these materials -- have been continually observed and documented over the United States and most of the world, more testing in other areas must be done to confirm that this is not simply a localized, temporary phenomena. The health and ecologic effects of these materials entering the groundwater, oceans, agriculture/food supply, and food chains must be considered and studied. Agronomists have measured the impact on the soil and documented their findings as well.

The super-secret “Chemtrails” program is also known as “Geo-Engineering”. Dane Wigington hosts the web site GeoEngineering Watch.com from Bella Vista, CA. This site has been online for a decade and a source of sound science on weather modification.

Americans are so used to being lied to by government, the media, and corporations that they have little trust for anyone anymore. So when we're told, for example, that the government would never, ever experiment with weather patterns using potentially dangerous chemicals, some sheep will continue to believe such tripe, but an increasing number of us just don't.

And for good reason, too: the “official” line from Uncle Sam and other governments that there is no such thing as “chemtrails” is a complete lie, and recent testimony by an expert in the know before the United Nations proves the point, as reported by the Waking Times.

A video of Rosalind Peterson, president of the Agriculture Defense Coalition, features her speaking at the UN to discuss geoengineering, chemtrails, and weather modification is on the Internet. She notes that people have been told that they were simply being doused with water vapor, yet hundreds of thousands have suffered from a range of health issues including neurological problems and reproductive issues, as well as hormonal imbalances and much more.

THIS is undeniable evidence that chemtrails are covering our skies every day, and these chemtrails are NOT water vapor, otherwise known as contrails. They are full of pharmaceuticals, barium, nano-aluminum-coated fiberglass [known as CHAFF], radioactive thorium, cadmium, chromium, nickel, desiccated blood, mold spores, and more.

In her 2007 UN testimony, she said that the issue of climate change and global warming was a major concern for agriculture, obviously, but also that at least a portion of climate change has been manmade, but not in the industrial sense – in the sense that weather-changing chemicals were intentionally being added to the environment.

“Weather modification programs, experimental ones done by private companies, by the United States government, done by states, across the United States – there’s more than 50 of them in operation across the United States,” she testified. “All of these impact agriculture because they change the micro-climates needed for agriculture to survive.

“None of these programs that I know of today – and this is all public record – are available at any time with oversight... agricultural oversight or public oversight,” she continued. “These programs impact agriculture, and there are programs around the world, international corporations [which] are modifying our weather all the time, and they’re modifying it in ways that cover thousands and thousands of square miles.”

Peterson went on to say that skies people see every day are “not normal cloud cover – these are manmade.”

Not so ironically, chemtrail and weather modification programs really aren’t all that covert. While governments don’t discuss them openly, companies involved in such experimentation aren’t exactly hiding, either. There is even a company called Weather Modification, Inc., which boasts, *“When most people look up they see clouds. We see potential.”*

“Now, more than ever, the worldwide need for solutions to atmospheric necessities such as water resource management and environmental quality monitoring, is critical. With nearly a half-century of successful programs, our experience speaks for itself,” the company says on its

web site. "Cloud seeding" is just one of the services it offers. In fact, according to Geoengineering Watch, there are several of these group he has identified and listed.

As far back as 1996, in a paper presented to the U.S. Air Force, several officers proposed "owning the weather" by 2025 as a massive force multiplier:

2025, US aerospace forces can "own the weather" by capitalizing on emerging technologies and focusing development of those technologies to war-fighting applications. Such a capability offers the war fighter tools to shape the battlespace in ways never before possible," the authors said in their Executive Summary. "It provides opportunities to impact operations across the full spectrum of conflict and is pertinent to all possible futures. The purpose of this paper is to outline a strategy for the use of a future weather-modification system to achieve military objectives rather than to provide a detailed technical road map.

As noted further by *'Waking Times'*:

Chemtrails are likely causing Parkinson's' disease, autism, Alzheimer's disease, headaches, respiratory ailments, reproductive failure, liver failure, and a host of other diseases. Since we have an openly admitted agenda by the U.N. to limit the growth of our population, what else are they doing besides affecting climate change with chemtrails?

Blessings,
