

Mass Murder

Part 4

CDC: 2,050 DEAD 44,606 Injuries
Following Experimental COVID-19 mRNA 'Vaccines'

Data released today by the Centers for Disease Control and Prevention (CDC) on the number of injuries and deaths reported to the [Vaccine Adverse Event Reporting System \(VAERS\)](#) following [COVID vaccines](#) showed that between Dec. 14, 2020 and March 19, 2021, there were 44,606 [reports of adverse events](#), including [2,050 deaths and 7,095 serious injuries](#).

In the U.S., [118.3 million](#) COVID vaccine doses had been administered as of March 19.

From the 3/19/2021 release of VAERS data:

Found 44,606 cases where Vaccine is COVID19

Table

Event Outcome	Count	Percent
Death	2,050	4.6%
Permanent Disability	826	1.85%
Office Visit	6,758	15.15%
Emergency Room	29	0.07%
Emergency Doctor/Room	7,458	16.72%
Hospitalized	4,442	9.96%
Hospitalized, Prolonged	8	0.02%
Recovered	15,501	37.22%
Birth Defect	52	0.12%
Life Threatening	1,318	2.95%
Not Serious	15,306	36.56%
TOTAL	↑ 55,846	↑ 125.2%

† Because some cases have multiple vaccinations and symptoms, a single case can account for multiple entries in this table. This is the reason why the Total Count is greater than 44606 (the number of cases found), and the Total Percentage is greater than 100.

VAERS is the primary mechanism for reporting adverse vaccine reactions in the U.S. Reports submitted to VAERS require further investigation before a causal relationship can be confirmed. Every Friday, the CDC makes public all VAERS vaccine injury reports received as of the previous week.

This week's VAERS data included [2,306 reports of anaphylaxis](#). Fifty-five percent of anaphylaxis reports were attributed to the [Pfizer-BioNTech](#) vaccine, 45% to [Moderna](#) and 1% to the [Johnson & Johnson \(J&J\) vaccine](#), which was [rolled out](#) in the U.S. on March 2.

As [The Defender reported](#) earlier this month, the J&J vaccine contains [polysorbate 80](#), known to trigger allergic reactions. The [Moderna](#) and [Pfizer](#) vaccines contain [polyethylene glycol](#) (PEG), also known to trigger anaphylactic reactions.

The latest [news report](#) of an anaphylactic reaction to a [COVID vaccine](#) was of a 68-year-old Kansas woman who died a day after receiving the vaccine. According to EMS dispatch records, the woman had an allergic reaction at a vaccine clinic site around 4 p.m. on Tuesday, [KMBC](#) reported. She had difficulty breathing and speaking and was injected with an EpiPen.

Kansas Department of Health and Environment spokesperson Kristi Zears told [The Wichita Eagle](#) that Evans had an anaphylactic reaction during a waiting period after receiving the shot. She was transported to the hospital and pronounced dead a day later. It is not clear whether Evans had underlying health conditions and the Kansas health agency did not indicate which COVID vaccine was administered.

According to the [CDC's website](#), "the CDC follows up on any report of death to request additional information and learn more about what occurred and to determine whether the death was a result of the vaccine or unrelated."

To date, the only information the CDC has published related to the investigation of COVID vaccine-related deaths and how those investigations were conducted is a [COVID-19 Vaccine Safety Update](#) via the Advisory Committee on Immunization Practices (ACIP), published on Jan. 27.

On March 8, [The Defender](#) contacted the CDC with questions about reported deaths and injuries related to COVID vaccines. We provided a written list of questions about how the CDC conducts investigations into reported deaths, the status of investigations on deaths reported in the media, if autopsies are being done and the standard for determining whether an injury is causally connected to a vaccine.

We also inquired about whether healthcare providers are reporting all injuries and deaths that might be connected to the COVID vaccine, and what education initiatives are in place to encourage and facilitate proper and accurate reporting.

As of today, 18 days later, the CDC has not responded or followed up with our calls or emails. We have contacted them numerous times and are either told "they received the email," "they will escalate it and it is in the system" or their press officers are still reviewing it. After our most recent follow up call this Wednesday and giving them an updated deadline of 48 hours, we still have not heard back.

A look at the numbers

Overall, the data released today reflects trends that have been emerging since [The Defender](#) first began tracking VAERS reports related to [COVID vaccines](#).

This week's VAERS data show:

- As of March 19, [321 pregnant women](#) had reported adverse events related to COVID vaccines, including 97 reports of [miscarriage or premature birth](#). None of the COVID vaccines approved for [Emergency Use Authorization](#) has been confirmed safe or effective for pregnant women, although [J&J said](#) earlier this month it would begin testing on pregnant women, infants and the immunocompromised.
- [535 cases of Bell's Palsy. Of those](#), 64% of cases were reported after [Pfizer-BioNTech](#) vaccinations — almost [twice as many](#) as reported (36%) following vaccination with the Moderna vaccine. Three cases of Bell's Palsy were reported with J&J's vaccine (about 1%).

Physicians sound alarm about need for pre-screening

Meanwhile, concerns about mass vaccination continued to make national and international headlines this week.

As [The Defender](#) reported Tuesday, Dr. Hooman Noorchashm, [cardiothoracic surgeon](#) and patient safety advocate, said we're taking the COVID pandemic problem — where a half-percent of the population is susceptible to dying — and compounding it by vaccinating people who are already infected. In an interview with Fox News host and political commentator, Tucker Carlson, Noorchashm said public health officials are making a “dramatic error” by promoting a “one-size-fits-all” COVID vaccination program: “... the signal is deafening, the people who are having complications or adverse events are the people who have recently or are currently or previously infected [with COVID]. I don't think we can ignore this.”

Noorchashm believes that a [#ScreenB4Vaccine campaign](#) could save millions from vaccine injuries. He is promoting a screening campaign that consists of “PCR or Rapid Antigen test to determine if there is an active infection and an IgG antibody test that would allow determination of a past infection. If either of these tests are positive, vaccination ought to be delayed for a minimum of 3 – 6 months,” [Noorchashm told The Defender](#). “If at that time IgG levels are waning, it is reasonable to consider getting a vaccine shot. But even then, blood IgG levels should guide whether or not a person gets vaccinated.”

Noorchashm sent a [third communication](#) to the U.S. Food and Drug Administration this week, warning that deaths like that of 32-year-old [Benjamin G. Goodman](#), who died after receiving the Johnson & Johnson vaccine, could have been prevented, and that there will be more deaths unless people are screened before being vaccinated.

[An article in The Hill](#) this week, by several physicians, also suggested that people be prescreened for COVID before being vaccinated.

The physicians wrote:

“A closer look at the level of protection obtained by a single shot vaccine regimen for those who are ‘COVID-primed’ is needed. Rigorous, effective and efficient antibody prescreening tools to identify these individuals would be required as well.”

AstraZeneca under fire in U.S. and Europe

As far as individual vaccines, AstraZeneca garnered the most headlines this week, in Europe and the U.S.

On March 22, [The Defender reported](#) that two independent research teams in Norway and Germany identified antibodies that provoke immune reactions leading to the type of blood clots experienced by some people who received AstraZeneca’s COVID vaccine.

Although many countries resumed their vaccination program with AstraZeneca’s vaccine after the EMA’s [preliminary findings](#), some countries, including France, Denmark, Norway, Sweden and Finland, did not lift their restrictions on its use.

[According to Reuters](#), Finland announced Wednesday it was still looking into two cases of blood clots but would resume using the AstraZeneca vaccine against COVID for people aged 65 and over. Finland plans to complete its investigation by April 6 at the earliest.

On March 23, U.S. health officials accused AstraZeneca of misrepresenting efficacy data when it included “outdated information” in its clinical trial results, which may have led to the vaccine maker providing the public with an incomplete view of its efficacy data, [The Defender reported](#).

The statement by the National Institute of Allergy and Infectious Diseases came less than a day after the pharmaceutical company said its vaccine was 79% effective against COVID and 100% effective against severe or critical disease and hospitalization.

AstraZeneca [released updated information](#) on its COVID-19 clinical trial Wednesday which showed an efficacy rate of 76% against symptomatic COVID infection instead of the 79% figure released Monday. The estimated efficacy in people over 65 rose slightly, from 80% to 85%. The vaccine maker identified no safety concerns related to the vaccine.

On March 24, the Ukrainian government urged the public not to jump to conclusions after a servicewoman died two days after getting the AstraZeneca COVID vaccine, [reported Fox News](#). Although the woman reportedly had chronic cardiovascular disease and other comorbidities, she experienced no side effects from the vaccine before she suddenly lost consciousness.

[According to Reuters](#), nine other people were given the vaccine from the same batch on the same day and had no ill effects.

[Children's Health Defense](#) asks anyone who has experienced an adverse reaction, to any vaccine, to file a report following [these three steps](#).

Covid-19 is a Bioweapon

On Saturday, March 20, 2021, I listened to a two-hour video interview with Dr. Richard M. Fleming about Covid-19 and Corona viruses. The interview was a discussion about the Covid-19 controversy. I have summed up the key points of Dr. Fleming as his methods and observation are enlightening in understanding how the public have been victimized by an engineered virus. This is a **“bioweapon”** and is a product of U.S. funding and Dr. Anthony Fauci's actions, working with Dr. Ralph Barrick and Chin Li of Wuhan, China. It was intentional and willingly, thus making it a crime, that needs to be prosecuted. I was saying over a year ago that this was a “bioweapon” but my voice does not carry any prestige or power, it is more like a whisper and so I share my writings with senators and congressional voices hoping to open their eyes.

Evidence shows that this virus is engineered with Gain of Function (GoF) including mechanisms creating an Inflammo Thrombotic Response (ITR) with mRNA Reverse Transcription (RT) into cell DNA with Prion-like structures presence in the virus spike protein. This was engineered to be a genocidal act, to kill people. Those being vaccinated will die within 18-months in Dr. Fleming's estimation based upon test animal deaths. It is not too strong a term to describe this **“bioweapon”** as **“Genocidal Mass Murder and Crimes Against Humanity!”** If you value your life and that of your family you need to watch this interview. This 2-hour interview confirms a post today from The Millennium Report included below.

Bio: In 1994, Dr. Fleming presented to the American Heart Association his “theory” that cardiovascular disease was due to inflammation. What was a theory in 1994 has become well-known fact for decades and was highlighted in 2004. The Fleming Method patent (FMTVDM) covers ALL methods and devices able to measure metabolic and regional blood flow differences. This breakthrough made it possible to differentiate functionality of tissue, tissue types as well as non-tissue, and the measurement of treatment response using all isotopes, enhancing agents, and devices capable of detecting and measuring isotopes. Dr. Fleming is an M.D., Ph.D, and J.D.

I was unable to get a URL link, but if anyone wants to listen to the interview, go to www.GumshoeNews.com web site, and it was aired on March 21st, 2021 and on the right-hand side scroll down and it appears near the top of archived recent posts. The interview was recorded on March 3, 2021. I have sent this information to Senator Rand Paul of Kentucky. I have recommended Dr. Fleming and Dr. David Martin, from the University of Virginia, as experts who have much to say on the Covid hoax. Dr. David Martin is an expert in investigating and analysis of patents which inventors and entrepreneurs seek official confirmation when patent holders are seeking investment in bringing a product to market without using the route of venture capitalist backings. Patents for intellectual property are assessed for their value as collateral in securing bank loans. Dr. David Martin has exposed the crimes and racketeering of Dr. Anthony

Fauci of the NIAID, who financially benefits on patents he holds that were funded by U.S. taxpayers, which is a crime under U.S. statutes.

Below is an important post by The State of Nation report posted March 21st, 2021.

DR. FAUCI & THE FAST-EMERGING FOURTH REICH

DR. TONY FAUCI

Frontman for THE GREAT SCAMDEMIC

Point Man for OPERATION COVID-19

Main Man for the CORONAhoax

Con Man for the COVIDcon

State of the Nation

Really, how is Dr. Anthony Fauci "[The Highest Paid Employee In The Entire U.S. Federal Government](#)"?!?!

This extraordinary fact of US government life could only have happened by way of the sheer power and overwhelming influence exerted by *Big Pharma*.

Which means that it was *Big Pharma* who installed "Fauci the Fear monger" as the Godfather of the America's infamous *Medical Mafia*.

How else could Fauci have kept his high position at the National Institutes of Health unless *The Powers That Be* behind the reigning medical tyranny propped him up for 37 years as the Director of the National Institute of Allergy and Infectious Diseases?

What in the world is a highly unscrupulous 80-year-old corruptocrat holding the most powerful position in public health anyway?!?!

Dr. Fauci is the “Dr. Mengele” of the Fourth Reich

[**FAUCI: The Most Corrupt Career NIH Criminal Ever to Head the NIAID**](#)

Clearly, Tony Fauci was installed at the NIH 53 years ago in order to prepare him for his pivotal role in the greatest medical criminal conspiracy in U.S. history. The unfolding American genocide, due to the nefarious administration of extremely dangerous and often deadly COVID-19 injections, is just beginning. And, it is Fauci who has

deliberately deceived the American people at every major turn of Covid events, especially about the transparently hazardous vaccines.

The Fourth Reich

Governor Andrew Cuomo made it clear throughout the Covid pandemic that he was just following orders, as did several other Democrat governors who were directly responsible for the geriatric genocide that was perpetrated in their respective states.

Exactly how did that happen? That all of these governors were merely just following orders?

Because genocidal maniacs like Dr. Anthony Fauci were formulating Covid nursing home policies that ensured a geriatric genocide—that's how! Look at it, every genocide needs a front man.

The Holocaust had Hitler and Dr. Mengele. The Holodomor had Stalin. China's Cultural Revolution had Mao Zedong. The Cambodian "Killing Fields" had Pol Pot. And the Covid Pandemic has Fauci and Gates.

Take a look at just how deceptive Fauci was during this recent congressional hearing. He has the chutzpah to outright lie to a U.S. Senator during prime time without an iota of concern about the consequences.

[Fauci's Own Fallacious Testimony Proves He's a Flaming Fraud.](#)

There's only one way that Fauci still enjoys that type of impunity despite the extraordinary degree of prevarication and misleading public testimony he has given since the very beginning of the *Plandemic*.

Big Pharma and the hidden Illuminati families who sponsor him have provided total cover via their wholly owned [Mainstream Media](#). For only the CIA's *Mockingbird Media* — a completely controlled network of corporate media platforms owned and operated by the *New World Order* globalist cabal — could provide the necessary cover-up for such a massive, ongoing crime wave washing over the 50 states and beyond.

The public record now contains volumes of hard evidence of intentional fraud on a massive scale perpetrated by Dr. Fauci, which should have seen him arrested and prosecuted to the fullest extent of the law. Instead he continues to function as the *Capo di tutti capi* of a ruthless *Medical Mafia* that is terrorizing and killing the American people at will.

What this really means is that Fauci is guilty of pulling off RICO-level racketeering and murderous crime spree across the country under the protection of POTUS imposter Joe Biden. The irrefutable proof since Biden's inauguration is indisputable: these two career government criminals are engaging in a highly organized nationwide criminal conspiracy to defraud the American people in a wider effort to collapse the Republic.

This replanned scheme to destroy the United States of America is actually a part of a much wider communist plot to establish a totalitarian One World Government that is the central pillar of the globalist-directed *New World Order*.

What this really amounts to is that Dr. Fauci was illicitly given the power to purposely enervate the health and well-being of the U.S. citizenry. All of Fauci's proclamations and diktats clearly reveal a hidden agenda to undermine the health of every American, as well as to devastate communities across the nation. This vast and unparalleled international connivance to collapse the American Republic is being carried out by foreign enemies to include the European Union, United Kingdom, China and other bad state actors.

As Dr. David Martin of the University of Virginia has discovered, Dr. Fauci has committed quite a few crimes in his 40-year career detailed in Dr. Martin's report. As it turns out, Dr. Fauci's racketeering shows, Dr. Anthony Fauci determines the means of production, makes allocation of what pathogen's studies gets funding; he controls means of detection, means of therapy, price setting, and he gets a cut of the funds for each and every step of the process. Since Dr. Fauci controls the grant funding process, no researcher will publicly challenge or expose the crimes of Dr. Fauci's despotic powers.

We already know they are using Hitler's playbook against us.

Is Fauci the equivalent to Josef Mengele of Hitler's murder machine?

Dr. Fauci = Dr. Mengele

In this manner, the rapidly emerging Fourth Reich is manifesting worldwide as an extremely formidable force for nations everywhere to deal with.

Once Germany was defeated at the end of World War II, the CIA's Operation Paperclip permitted the escape of countless Nazi criminals to the USA. A large number of those war criminals were of the same dastardly ilk as Dr. Joseph Mengele. But now they have been given carte blanche to conduct inhumane experiments under the protection of the new Fourth Reich IN THE UNITED STATES.

Now we see that Dr. Fauci has been afforded the same type of state protection to run an exceedingly perilous and risky Covid vaccine experiment where he can suffer no consequences for his outrageously criminal misconduct as a US government official.

Mr. and Mrs. Taxpayer: You are paying dearly to have a professional criminal like Dr. Fauci sicken and incapacitate you ... with no repercussions whatsoever, no matter the seriousness of his heinous capital crimes.

Key Point: *Big Pharma* stealthily positioned Dr. Fauci as the nation's premier vaccine expert and yet he doesn't even understand the dangers associated with the most basic toxic ingredients found in today's vaccines. Even kids get what Fauci evidently misunderstands to the great detriment of the heavily vaccinated American populace.

Conclusion

Truly, there is something highly consequential going on in the background of the global Covid scam which can no longer be denied. It is something that is well known to the power elite; and it's the very reason why they have executed this exceptionally reckless and brazen and desperate hoax. As follows:

[GLOBAL COVID VACCINE PSYOP DESIGNED TO DECEIVE HUMANITY INTO TRANSHUMANISM AND WORSE](#)

Of course, there are always several levels of conspiracy, as well as layers of intrigue within those levels, that this incorrigible cabal of criminally insane psychopaths are hell-bent on carrying out with all deliberate speed.

For instance, there is the highly malevolent contrivance to irreversibly alter the human bio-organism in ways that can only be described as demonic. See: [FUNVAX: Globalist Plot to Mandate COVID-19 Vaccine Exposes Shocking Satanic Conspiracy](#)

There is also the covert attempt to inject Covid 'vaccines' that possess highly advanced and sophisticated biotechnology that will forever change human DNA. See: [MODERNA CHIEF MEDICAL OFFICER ADMITS MRNA ALTERS DNA](#)

The bottom line here is that Dr. Fauci knows full well the egregious crimes that he and his co-conspirators are cavalierly committing against the American people. Hence, Fauci must be apprehended and prosecuted to the fullest extent of the law — POST HASTE — before too much irreparable damage is done to the country ... before so much death occurs across the land!

We'd love to know why the Deagel report is forecasting the population of the U.S. to drop from 327 million in 2017 to only 100 million in 2025, with them also forecasting a 2025 U.S. military budget of \$32 billion dollars, down from our 2017 military budget of \$637 billion, while forecasting our population density to drop from 34 inhabitants per square mile to only 10 inhabitants per square mile in 2025.

And while the website Deagel.com has recently made some very mysterious changes to their 2025 forecast for America as we report in much more detail below, as we hear in the final video below from the Leak Project and read in this March story from The Sun, one medical health expert is warning of a mutant virus that sounds straight from a science fiction movie, potential becoming the fastest-spreading viral killer known to the human race and as he tells us, such a killer virus outbreak could happen tomorrow.

And before you go and discount Deagel's numbers, it's very important to know that their sources ARE the 'deep state' with the CIA, U.S. Department of Defense, U.S. Department of State and World Bank contributing data for their forecasts. So.... what does Deagel know what we don't know? Their sources make clear that whatever Deagel knows, the 'deep state' knows, too!

While Deagel leaves no explanation on their website about why they've made these changes to the 2025 forecast population of America, as we've previously reported on ANP, they did put out an explanation back in October of 2014 about why they were forecasting such a huge drop for America, 'a confluence of crisis' with a devastating result'. They predicted an economic collapse of the U.S. but it could very well suggest that it might be initiated by a mutated virus, or the results of the failed experimental mRNA "Gene Therapy", which was prematurely brought to market without testing.

Scientists at Sloan Kettering discover mRNA inactivates tumor-suppressing proteins, meaning it can promote cancer

[BY SDWELLS | A Final Warning | 2021-03-02](#)

There's a secret layer of information in your cells called messenger RNA, that's located between DNA and proteins, that serves as a critical link. Now, in a medical shocker to the whole world of vaccine philosophy, scientists at Sloan Kettering found that mRNA itself carries cancer CAUSING changes – changes that genetic tests don't even analyze, flying completely under the radar of oncologists across the globe. So now, it's time for independent laboratories that are not vaccine manufacturers (or hired by them) to run diagnostic testing on the Covid vaccine series and find out if these are cancer-driving inoculations that, once the series is complete, will cause cancer tumors in the vaccinated masses who have all rushed out to get the jab out of fear and propaganda influence. Welcome to the world of experimental and dirty vaccines known as mRNA "technology."

Previously unknown cancer driving messengers are hiding in RNA, not DNA. This mind-blowing discovery should be published on every medical news site, newspaper, television news broadcast and on the CDC website, but unless you are reading this

article and use DuckDuckGo as your search engine, you probably wouldn't ever see it. That's because Google is in on the fix, with Big Pharma and the VIC – the vaccine-industrial-complex. So here's a more in-depth explanation of what we're looking at, for real, regarding mRNA and vaccines. The information carrying molecule, messenger RNA, can instruct human cells ultimately in the same way as cancer drivers, playing a major role in causing cancer to thrive while inactivating natural tumor-suppressing proteins the human body creates to save you from cancer. This is the complete opposite of what the CDC and the vaccine manufactures are telling everyone right now about the Covid vaccines, and this is based on clinical research by molecular biologists at the Sloan Kettering Institute. Even sequencing the DNA in cancer cells doesn't reveal these changes, that's how sneaky the vaccines are. It's like a Trojan horse that tells your cells to allow these changes to be made, as if they were safe, but they're not. All assumptions being made about mRNA being 'safe' right now have been completely turned 180 degrees with this research. Consider this very carefully if you have not yet been vaccinated with mRNA technology, and you may want to 'lawyer-up' if you already got the jabs.

After your Covid vaccination, RNA is transported out of your cell's nucleus, and will no longer function properly as a cancer tumor suppressor.

Bill Gates and the Vaccine Industrial Complex are very sinister, as we all know, but to create vaccines that truncate (disable by cutting short) cancer tumor suppressors, and destroy the human body's ability to protect against cancer, well, that's just complete insanity. Truncated tumor-suppressor proteins are similar to the DNA mutations that cause cancer cells to mutate and multiply uncontrollably. Will America see cancer cases skyrocket over the next few years due to Covid vaccines? Only time will tell, but right now, science is revealing that it's likely, very likely! Pay close attention. Therefore, anyone who is scared to death of the Covid vaccines is pro-science rather than anti-science, because the science shows the mRNA technology is very dangerous, especially concerning proteins that fuel cancer tumors. Let's say that again: Science shows mRNA technology can fuel cancer tumor growth.

Substantial amount of people with blood cancer have the SAME inactivation of tumor-suppressor genes at the mRNA level.

Scientists also discovered that a substantial amount of people with blood cancer, a.k.a. chronic lymphocytic leukemia (CLL), have the same exact inactivation of tumor-suppressor genes at the mRNA level. In fact, the mRNA changes they detected could possibly account for the missing DNA mutations, and that spells out bad news for everyone who thinks the Covid vaccine series is "safe and effective." It's effective alright, at suppressing anti-cancer proteins, one might conclude. Even if just half (partial truncation) mRNA changes in human cells take place, it's enough to "completely override the function of the normal versions that are present," according to the Sloan Kettering team of scientists. These changes can also apply to 100 different genes at the same time, so the changes can add up quickly and cause horrific health repercussions. Of course, mainstream media will dismiss any connections made by these discoveries,

but they're paid to regurgitate pharma talk, so that's not surprising at all. It is important to note that mRNA changes, according to researchers, are not limited to blood cancer, but have been linked to acute lymphatic cancer and breast cancer. Could this mean we're looking at a new population control mechanism hidden in messenger RNA? About 20,000 people in the US develop "CLL" [chronic lymphocytic leukemia](#) each year.

How many will quietly begin developing it now, and then have it suddenly "show up" five years from now? Symptoms include fatigue, enlarged lymph nodes, and night sweats. Did you get mRNA vaccinated and experience those symptoms already? Are those symptoms on the warning label – the vaccine insert? Did you read them? There's only one "treatment" offered right now for CLL by the Pharma Industrial Complex, and that's stem cell bone marrow transplantation. Oh, but it's only recommended if your CLL is "likely" to advance. Do your mRNA vaccines now qualify you as "likely" to advance with CLL? No wonder Mark Zuckerberg is scared to death about the Covid vaccine.

Insider Vaccine Expert – Risks of Mass Vaccination to Human Population

I am not writing this to change anyone's mind about the current experimental mRNA covid "vaccine" methodology. Because most people are in one of two camps anyway — those who put blind faith in mainstream reporting and "official" narratives — and those who tend to question "official" narratives. Adult minds are rarely changed about fundamental ideology or how they think. That's never been my motivation. This is no different.

I am writing this for the preparedness-minded. Period. For those who instinctively dig deeper (or dig at all!). Many of the preparedness-minded will prepare for the worst, while hoping for the best (hope is just a box to shut out risk and danger). This one is certainly "for the worst", should it come to pass.

Here we go...

"Global Catastrophe Without Equal"

Geert Vanden Bossche argues that humanity is now facing "*a global catastrophe without equal,*" because of the mass administration of what he considers to be the wrong vaccines.

Geert Vanden Bossche, DMV, PhD, is an independent virologist and vaccine expert from Belgium, formerly employed at the Vaccine Alliance GAVI and at The Bill & Melinda Gates Foundation.

He is a pro-vaxxer.

HOWEVER, "*When someone who appears to have devoted most of their career to developing and helping roll out vaccines globally decides to blow the whistle on the current global mass vaccination program, only an incautious person would choose to ignore it. That's of course just what the mainstream media has done so far — an*

indicator of just how incautious this communication vehicle has become.” quoted from a related report from childrenshealthdefense.org.

His warning sent chills down my spine after I read the entire report. Why? Because he has been “in the club” so to speak. He adamantly believes the current mass Covid vaccinations (the consequences thereof) may theoretically substantially cull the human population!!

Geert Bossche is pleading with the WHO, the world, to immediately halt the current mass vaccinations, right now.

Although it may already be too late. Man oh man I hope he is wrong! But his credentials are what kept me reading and my motivation to report this to whoever might read this site.

I am a critical thinker to the extent I can shed normalcy bias (which we all have to some degree). Especially when mainstream and/or government “officials” and/or Big Tech prohibit non-narrative voices, I become exceedingly and instinctively skeptical. Thus my digging for alternative opinions while seeking out “truths”. Vanden Bossche is pleading for his colleagues to stop and reconsider how they’re doing this [mRNA rollout], and right now.

I have discovered many voices cautioning against this particular “vaccine” which is actually NOT a vaccine , but an experimental mRNA (it’s different). Their voices are eliminated from mainstream public discourse, despite credentials or credibility. There’s not even discussion about this. Which is VERY ALARMING? The present mass vaccinations *are* the “human test trials” of something that has NEVER been done before. We’re doing it on a global scale. Many experts have warned about the potential for bad outcomes. *Some very bad indeed.*

Okay let’s get to the warning from Vanden Bossche. I wish that I didn’t feel compelled to report this. I want life to return to normal. But there’s a lot going against us... We need to be prepared as we can be for what may come. And if it doesn’t (which is the outcome I wish for) you will have lost nothing, as it only helps your self-reliance and sustainability.

Viral Immune Escape

The core of his warning is something called “viral immune escape,” which begets a weakened natural immunity and vaccine resistance to variants. This is what he believes will happen (is happening) to those who receive the present Covid “vaccination” shots. And it will affect ALL OF US, because of “them”.

“This type of prophylactic vaccines are completely inappropriate, and even highly dangerous, when used in mass vaccination campaigns during a viral pandemic,”

“How long can one ignore the problem when there is at present massive evidence that viral immune escape is now threatening humanity?”

“It’s becoming increasingly difficult to imagine how the consequences of the extensive and erroneous human intervention in this pandemic are not going to wipe out large parts of our human population.”

Vanden Bossche suggests that herd immunity will not be achieved with the current vaccines, as they *“turn vaccine recipients into asymptomatic carriers who are shedding virus.”*

(NK) Natural Killer Cells Instead

He calls for the use of vaccines that would be completely different from conventional vaccines in that they’re not inducing the B and T cells, but rather the natural killer (NK) cells.

According to Vanden Bossche, there is compelling scientific evidence that the NK cells play a key role in facilitating complete elimination of COVID-19 at an early stage of infection in asymptomatic infected subjects.

Vanden Bossche has already warned various organizations, including the WHO, about his findings and recommendations.

Immediate Cancellation of ALL Ongoing Covid-19 Mass Vaccination Campaigns

For him, “immediate cancellation of all ongoing Covid-19 mass vaccination campaigns should now become THE most acute health emergency of international concern,” and he urges an immediate international debate on the issue.

It’s Likely Too Late Already – The Worst Is Yet To Come

The worst of the pandemic is still to come. Bossche argues we are now experiencing the calm before the storm. Vanden Bossche predicts the next wave of infection will be dramatic — far worse than anything we’ve seen to-date.

This is because there will be more mutants to which the adaptive immune system provides little resistance, and this will come at the expense of decreased innate immune effectiveness.

While he mentions that NK cell-based vaccines, which he claims to have been researching for the last decade or so but about which he also says he has no commercial interest, are the ultimate solution, he believes it is likely too late to escape the storm.

Source Reports and Closing Thoughts

Of all the reports I’ve read or heard or watched to-date, this one has me the most concerned.

If this man is right, we are all in so much trouble that it's difficult to contemplate the ramifications. Difficult because it's so apocalyptic. And that's why I'm reporting this to you, the preparedness-minded. Take of it as you will. But this one has shaken me awake once again.

I had been getting a bit complacent. I have even been making longer-term plans for 6 months from now which may get overturned if this plays out as Bossche warns. Therefore I need to adapt my thinking and alternatives for just-in-case we begin seeing this.

My closing thought is this... Nothing is going to change with the current mass global mRNA Covid-19 "vaccination" rollout. Nothing is going to stop it at this point.

Whatever is going to happen because of this, is going to happen. There will be cover ups, on top of cover ups. The blame will NOT go onto the mRNA experimental shots. Instead it will all go onto the new deadly strains (which itself will be because of the current mass vaccination programs!).

If this culminates into massive die-offs from deadlier and more contagious strains, the resultant lockdowns will pale in comparison to what we've already experienced.

Shortages will be a ridiculous understatement. Systems will come to a halt. We will be on our own. This will become a worst case situation. One that will cull much of modern human civilization.

Survival will be difficult. So many things will have to go "right" just to stand a chance. Location: Year-round Sustainability. Security.

Listen, I hope Vanden Bossche is very wrong. But hope is just a mental box to stuff one's concerns and fears. That's not reality.

I encourage you to read the following report, which gets somewhat technical. But it's the original source to Bossche's plea to the world, from COVEXIT.com

[**>> Expert Sounds the Alarm about Risks of Mass Vaccination**](#)

After you've read that, ([here's an update](#)). The 2nd and 3rd paragraphs are frightening.

The American media is keeping a seal on protests around the world. This past week there were protests in cities across Europe, demanding the end to the lock downs and stupid diaper masks. In the UK protestors set fire to many police vehicles. France has went into a third lock-down since the Covid outbreak a year ago. On the next page is a picture of protests in Kassel, Germany, a city of some-where close to 300,000. Kassel is roughly 90 miles north of Frankfurt. When I was stationed in Giessen, West Germany during the Cold War, a lot of us would go touring and visit Kassel for its fine eating cuisine.

Protestors gather for a demonstration to demand the compliance of basic rights and an end of the restrictive coronavirus measures in Kassel, central Germany, on March 20.

The pent up pressure from being locked down by the authorities is building and likely to breed unrest across Europe in the fake pandemic the World Health Organization declared a year ago March 10, 2020.

Freedom Of Information's reveal that health/science institutions around the world have no record of SARS-COV-2 isolation/purification, anywhere, ever!

Would a sane person mix a patient sample (containing various sources of genetic material and never proven to contain any particular virus) with transfected monkey kidney cells, fetal bovine serum and toxic drugs, then claim that the resulting concoction is "SARS-COV-2 isolate" and ship it off internationally for use in critical research (including vaccine and test development)?

Because that's the sort of fraudulent monkey business that's being passed off as "virus isolation" by research teams around the world.

Just 1 of many examples is shown below – this is from a study [cited by the Australian Department of Health](#) as a paper “*which led to the isolation of SARS-CoV-2 in culture*”. (Can you spot the oxymoron in that quote?)

2.1 Cell culture of SARS-CoV-2 and electron microscopy

Vero/hSLAM cells (African green monkey kidney cells transfected to express the human signaling lymphocytic activation molecule (SLAM; also known as CDw150)¹ were grown at 37°C, 5% CO₂ in maintenance media consisting of 10mL Earle’s minimum essential medium (EMEM), 7% fetal bovine serum (FBS) (Bovogen Biologicals, Keilor East, AUS) 2mM L-glutamine, 1 mM sodium pyruvate, 1500mg/L sodium bicarbonate, 15 mM HEPES and 0.4mg/ml geneticin to 95% confluency in 25cm² flasks. Prior to use for isolation, maintenance media was removed from the flask and 500µL of respiratory swab inoculum was overlaid on the cell monolayer. The flask was returned to the 37°C incubator to allow the virus to adsorb for 1 hour before addition of 10 mL viral culture media (EMEM as above but FBS reduced to 2%). Flasks were monitored for viral cytopathic effect and 140µL aliquots of supernatant removed every 48 hours to assess virus burden by TaqMan real-time RT-PCR. First passage culture grown virus isolate was subsequently shipped nationally and internationally in packaging compliant with UN 2814 Category A shipping requirements using credentialed, specialised courier services under the appropriate Australian government export approvals processes and receiving country import permissions.

If you are new to the topic of “virus isolation/purification”, I strongly recommend reading the Statement On Virus Isolation by Dr. Andrew Kaufman, Dr. Thomas Cowan and Sally Fallon Morell, MA.

A colleague in New Zealand ([Michael S.](#)) and I have been submitting Freedom of Information requests to institutions in various countries seeking records that describe the isolation of a SARS-COV-2 virus from any unadulterated sample taken from a diseased patient.

Our requests have not been limited to records of isolation performed by the respective institution, or limited to records authored by the respective institution, rather they were open to any records describing “COVID-19 virus” isolation performed by anyone, ever, anywhere on the planet.

Thus far (February 21, 2021) 19 Canadian institutions have provided their responses: [Public Health Agency of Canada](#), [Health Canada](#), [the National Research Council of Canada](#), [Vaccine and Infectious Disease Organization-International Vaccine Centre \(VIDO-InterVac\)](#), [Canadian Institutes of Health Research](#), [Natural Sciences and Engineering Research Council of Canada](#), [Ontario Ministry of Health](#), [Institut National de Sante Publique du Quebec](#), [British Columbia's Provincial Health Services Authority](#), [Vancouver Coastal Health Authority](#) (re "the variant"), [Newfoundland Labrador Department of Health & Community Services](#), [McGill University](#), the [City of Toronto](#), the [Region of Peel](#) (Ontario), [KFL&A Public Health](#) (Kingston, Frontenac, Lennox and Addington, Ontario, re "any variant"), the [University of Toronto](#), [Sunnybrook Health Sciences Centre](#), [McMaster University](#) and [Mount Sinai Hospital](#) (Toronto) (note that researchers from the last 4 institutions had publicly claimed to have "isolated the virus", as had VIDO-Intervac).

Every institution has indicated the same: that they searched their records and located none describing the isolation of any "COVID-19 virus" directly from a patient sample that was not first adulterated with other sources of genetic material. (Those other sources are typically monkey kidney aka "Vero" cells and fetal bovine serum).

The response from 1 additional Canadian institution is long overdue: Public Health Ontario ([request submitted July 16, 2020](#))

Click on the above links to access the responses from Canadian institutions. Scroll further down this page for responses from institutions outside of Canada.

Here are 2 compilation pdfs containing ~60 responses from 47 institutions in 10 countries re the isolation/purification/existence of "SARS-COV-2" last updated February 12, 2021 (note: some of these responses were obtained by FOI-submitters other than Michael S. and myself, as indicated further down this page):

Check back here (the page you are currently on) for regular updates. As of March 13, 2021: 52 institutions and offices have responded thus far, and none have provided or cited any record describing "SARS-COV-2" isolation. Note that some institutions failed to fully co-operate. Tsk tsk University of Auckland and Public Health Wales.

(And yes, we are aware of the many publications wherein authors claim to have "isolated the virus". We've looked at numerous such studies and have yet to see one

where they actually did so. Claiming to have done something and actually doing it are sometimes 2 different things, even in peer-reviewed science. And yes we are aware of the many published alleged “SARS-COV-2 genomes” – these were in fact manufactured, not discovered. And yes we are aware that EM photos have been published, allegedly of “the virus”, however a photo of something does not tell you what the thing is, where it came from or what it does. One has to scrutinize the Methods used to “isolate the virus” / obtain said photos / obtain alleged genomes, and that is when absolutely everything falls apart with “COVID-19”.)

COVID-19 Vaccine Adverse Drug Reactions

3,964 DEAD

162,610 Injuries Through March 13, 2021

COVID-19 MRNA VACCINE MODERNA (CX-024414)

COVID-19 MRNA VACCINE PFIZER-BIONTECH (TOZINAMERAN)

COVID-19 VACCINE ASTRAZENECA (CHADOX1 NCOV-19)

The European Union report through March 13, 2021 lists 3,964 deaths and 162,610 injuries following injections of three experimental COVID-19 shots:

COVID-19 MRNA VACCINE MODERNA (CX-024414), COVID-19 MRNA VACCINE PFIZER-BIONTECH (TOZINAMERAN), and COVID-19 VACCINE ASTRAZENECA (CHADOX1 NCOV-19).

There is also data for a fourth experimental COVID “vaccine,” COVID-19 VACCINE JANSSEN (AD26.COVS.2.S). We have not included data from the Johnson and Johnson COVID shot in this report, but will do so in future reports.

A Health Impact News subscriber in Europe ran the reports for each of the three COVID-19 shots we are including here, and here is the summary data through March 13, 2021.

Total reactions for the experimental mRNA vaccine Tozinameran (code BNT162b2, Comirnaty) from BioNTech/ Pfizer: 2,540 deaths and 102,100 injuries to 13/03/2021

Pfizer's COVID Vaccine Could Become Most Lucrative Drug in the World
Pfizer's vaccine is already the second-highest revenue-generating drug in the world. Once the pandemic ends, the vaccine maker plans to hike prices.

Pfizer's COVID vaccine is already the [second-highest revenue-generating](#) drug in the world — but the company plans to turn the vaccine into an even bigger cash cow once the pandemic ends, according to news reports.

Citing comments made by [Pfizer](#) CFO Frank D'Amelio, [Forbes](#) and [FiercePharma](#) reported that the company "is going to get more on price" once the pandemic wanes and "we are no longer in a pandemic pricing environment," D'Amelio said.

The vaccine maker expects 2021 sales of [about \\$15 billion](#) based on current contracts for its [COVID vaccine](#), but that number could double as Pfizer says it can potentially deliver 2 billion doses this year, [according to The Guardian](#).

One **analyst speculated** that Pfizer could be targeting a price 3 to 4 times higher than the \$19.50 the company currently charges the U.S. government — or even up to \$156 per dose.

Pfizer based the vaccines' current price on the need for governments to secure doses and get the virus under control. The company [splits the profits 50-50](#) with German partner, BioNTech.

Under Operation Warp Speed, Pfizer agreed to supply the U.S. government with 100 million doses of its vaccine for \$1.95 billion, so Americans can receive the vaccine for free. But remember there is no free lunch, since the taxpayers paid for it in their taxes.

Pfizer's initial contract included an option for the government to buy up to 500 million more doses at \$19.50 per dose. That's well below the \$150 or \$175 per dose the drug maker typically pulls in for a vaccine, D'Amelio said during the February earnings call.

In comparison, the Moderna vaccine is priced at \$15 per dose, Johnson & Johnson (J&J) is \$10 and AstraZeneca's COVID vaccine is \$4 per dose, reported Fierce Pharma.

Pfizer executives unveiled the company's \$15 billion sales estimate as part of the company's 2021 guidance, based on doses set to be delivered in 2021 under existing contracts.

To put \$15 billion into perspective, Pfizer also markets the bestselling vaccine outside of COVID — pneumococcal shot Prevnar 13. In 2020, Prevnar 13 revenues were \$5.85 billion. Pfizer's entire vaccine franchise pulled in \$6.56 billion in 2020, reported Fierce Pharma.

As initial demand for its COVID vaccine subsides, the company could make significant profits by charging higher prices and implementing routine booster doses for new variants of the virus, Pfizer CEO Albert Bourla told analysts, big banks and investors during the February earnings call.

During the Barclays' Global Health Conference, D'Amelio said the company doesn't see this as a one-time event, but "as something that's going to continue for the foreseeable future."

Pfizer has already [launched a study](#) of a third vaccine dose to address variants, called for [annual boosters](#) and [told investors](#) to expect a revenue stream similar to [flu vaccines](#).

"Every year, you need to go get your [flu vaccine](#)," Bourla [said](#). "It's going to be the same with COVID. In a year, you will have to go and get your annual shot for COVID to be protected."

That will mean even more sales — and more profits — from the vaccine, reported WRCB-tv, a CBS subsidiary.

According to [Forbes](#), some critics say the dramatic increase in the cost of the vaccine is a “bait and switch” operation that could result in Pfizer being called to Capitol Hill to justify the expense to the American public.

But the drug maker isn’t alone in viewing vaccine pricing differently during the pandemic. J&J and AstraZeneca have each pledged to sell their vaccines at cost during the pandemic with the contractual right to deem the pandemic “over” in July 2021, paving the way for price increases, reported the Financial Times.

Moderna indicated it may raise prices after the pandemic turns into an endemic. During a House Committee on Energy and Commerce hearing last summer, manufacturers were asked whether they would sell the vaccine at cost.

Moderna said it would not sell its vaccine at cost, despite the fact that development and manufacturing of the vaccine was almost [entirely funded by U.S. tax dollars](#). Moderna subsequently earned an award for the “worst example of profiteering and dysfunction in healthcare” by the Lown Institute in Boston.

Like Pfizer, rival Moderna is poised to make billions from its COVID vaccine. As of mid-January, Moderna had secured \$11.7 billion in advance purchase orders from various governments and organizations, and the company was in the process of negotiating more deals, according to Fierce Pharma.

Moderna CEO Stephane Bancel said in an interview the company could join the ranks of the largest vaccine players by revenue this year.

Unlike Moderna, “Pfizer’s COVID-19 vaccine development and manufacturing costs have been entirely self-funded, with billions of dollars already invested at risk,” the company said in a Nov. 16, 2020 press release.

Dr. Reshma Ramachandran, a physician-fellow in the Yale National Clinicians Scholars Program testified last month before U.S. lawmakers about vaccine pricing and the refusal of the government and drug manufacturers to reveal information about the arrangements they’ve reached around their vaccines.

In an interview with YaleNews, Ramachandran explained that when Pfizer moves away from “pandemic pricing” and towards price points that are in line with other vaccines it has on the market, at \$150 or \$175 per dose, insurance companies will have to shoulder the cost and they’ll pass it down to the public through insurance premiums.

We’ve already seen this with flu vaccines — *“a publicly funded vaccine technology has continued to increase in price over the past two decades with significant impacts on our public health program budgets and our insurance premiums,”* Ramachandran said. *“It’s not the companies that have taken on the risk of developing and manufacturing vaccines. It’s the American people.”*

The World Health Organization (W.H.O.) has an article titled, The Moderna COVID-19 (mRNA-1273) vaccine: what you need to know. It contains a lot of useful information for those deciding whether they should receive the vaccine or not.

I was once again amazed by the content coming from the World Health Organization. I mean this Covid-19 thing has stopped our world. Vaccines are being promoted as the cure to end the crisis. Yet, there are so many doubts about the vaccine.

The World Health Organization adds to the doubts, but we do appreciate their honesty on this one.

The last question on their list reads with the accompanying answer:

Does it prevent infection and transmission?

“We do not know whether the vaccine will prevent infection and protect against onward transmission. Immunity persists for several months, but the full duration is not yet known. These important questions are being studied.”

In the meantime, we must maintain public health measures that work: masking, physical distancing, handwashing, respiratory and cough hygiene, avoiding crowds, and ensuring good ventilation.

The World Health Organization point blank stated, they do not know if the vaccine will prevent infection and prevent the spread of Covid-19. Notice the next sentence, any potential immunity due to the vaccine will only last for a few months. After that, they are unsure if there is protection at all.

Yet, you are supposed to go take the jab, and insert a foreign substance into your body based on guess work? Based on rushed science?

Our decision should not be based on guesswork, nor should it be based on “facts” from “truth filled“ web sites. These are the facts, from the official big wig doctors at the WHO. Here are some more facts, 2,050 people have died due to COVID-19 vaccines. Another 44,606 people have suffered serious side effects due to COVID-19 vaccines. The numbers are expected to sky rocket!

Those numbers come from the CDC, and are compiled in an easy to understand format on the Med Alerts website. Those are facts, not conspiracy, but facts. You have to be careful of web sites sounding independent, but really are shells for the industry. One of those sites is titled VAXOPEDIA.org. It was created in 2016 to counter people like Del Bigtree, Dr. Joseph Mercola, and Robert F. Kennedy, Jr.

Biden is going to brainwash you into taking the jab. This television, radio, and digital advertising blitz, will focus on Americans outright skeptical of vaccines' safety or effectiveness as well as those who are potentially more willing to seek a Covid-19

immunization but don't yet know where, when, or how. Specifically, the campaign will target three groups in which access, apathy, or outright skepticism may pose a barrier to vaccinations: young people, people of color, and conservatives, according to a Biden aide. Congress and the administration have set aside over \$1.5 billion for the effort.

That's right!

The government is going to spend \$1.5 billion dollars they do not have. To tell you to take a vaccine that the WHO does not know will work, to protect you from a virus with a 99.98% survival rate. I love it! Makes total nonsense, and that is why it is suspicious. It's sheer lunacy on steroids!

Vaccines Make Big Money! Vaccines make big, big profits folks!

Just ask Bill Gates said on CNBC in January 2020, they can create a 20 fold return on your investment! That does not sound like someone who is concerned about people's health. It's more like someone concerned about their bottom line.

How much money and power does one need my friends?

Apparently, there is no bound for wicked people. My thoughts are they are going for the whole world! This is an apocalyptic event as the world moves into the Great Tribulation of Daniel's 70th week.

Nevertheless, the Bible says that money will not save the wicked.

"They shall cast their silver in the streets, and their gold shall be removed: their silver and their gold shall not be able to deliver them in the day of the wrath of the LORD: they shall not satisfy their souls, neither fill their bowels: because it is the stumbling block of their iniquity." –(Ezekiel 7:19)

Blessings, Jesus is at the door!
