

SARS2-CoV-02 Still Has Never Been Proven!

World to Spend \$157 Billion on COVID-19 Vaccines Through 2025 **U.S. News and World Report reported:**

Total global spending on [COVID-19](#) vaccines is projected to reach \$157 billion by 2025, driven by mass vaccination programs underway and “[booster shots](#)” expected every two years, according to a report by U.S. health data company IQVIA Holdings Inc released on Thursday, April 29th, 2021. What are we missing in this statement? What proof is there to the necessity of injections that are not vaccines, but “Gene” therapy that changes your DNA? I am going to address the issue and proof that the SARS-CoV-2 and the Covid-19 viruses are gigantic FRAUDS! The facts that follow become proof-positive that the existence of SARS-CoV-2 and Covid-19 has no basis whatsoever!

IQVIA, which provides data and analytics for the healthcare industry, said it expects the first wave of COVID-19 vaccinations to reach about 70% of the world’s population by the end of 2022. Booster shots are likely to follow initial vaccinations every two years, the report said, based on current data on the duration of effect of the vaccines.

The United States is preparing for the possibility that a booster shot will be needed between nine to 12 months after people receive their first full inoculations against

COVID-19, a White House official said earlier this month. [Pfizer](#) Inc has also said boosters may be needed within 12 months.

The SARS-CoV-2 virus that allegedly causes COVID-19 has still, to this date, never been isolated. Countless governments and organizations worldwide have failed to produce evidence of its existence when challenged. This imaginary virus has eluded microbiologists, virologists, researchers, around the world except for the familiar government voices Fauci, Gates, Collins, and Birx who want us to believe their lies.

Although those who believe in the COVID cult - both those orchestrating the scamdemic and those blindly following along - will insist the virus is real, the truth is that there has still been no compelling or conclusive evidence that a real SARS-CoV-2 virus exists.

Admissions by governmental scientists and organizations worldwide, as well as omissions and obfuscations by those same people and agencies, reveal the shocking truth.

As hard as it may be for the COVID cultists to admit, the emperor truly has no clothes. There is no virus, other than a digital, theoretical abstraction made on a computer from a genomic database.

The virus has never been isolated, purified, sequenced, characterized and proven 100% to exist. Don't believe it? That's okay; it's good to be skeptical. Show us the proof, the evidence, the facts, none of this Bovine excrement!

See the evidence below for yourself and make up your own mind...

#1 SARS-CoV-2 the Theoretical Virus - The Virus Has Never Been Isolated According to Koch's Postulates or River's Postulates

We'll start with this, because this is the cornerstone of the whole scam.

All the following information and evidence below stems from the fact the so-called experts have never isolated and purified the virus according to the gold standard of [Koch's postulates](#), or even the modified *River's Postulates*.

Koch's postulates are:

- The microorganism must be identified in all individuals affected by the disease, but not in healthy individuals.
- The microorganism can be isolated from the diseased individual and grown in culture.
- When introduced into a healthy individual, the cultured microorganism must cause disease.
- The microorganism must then be re-isolated from the experimental host, and found to be identical to the original microorganism.

[River's postulates](#) were proposed by **Thomas M. River** in 1973 to establish the role of a specific virus as the cause of a specific disease.

They are a more refined, modifications of the Koch's postulates.

They are as follows:

- The viral agent must be found either in the host's (animal or plant) body fluids at the time of disease or in cells showing lesions specific to that disease.
- The host material with the viral agent used to inoculate the healthy host (test organism) must be free of any other microorganism.
- The viral agent obtained from the infected host must produce the specific disease in a suitable healthy host, and/or provide evidence of infection by inducing the formation of antibodies specific to that agent.
- Similar material (viral particle) from the newly infected host (test organism) must be isolated and capable of transmitting the specific disease to other healthy hosts.

Whichever set of postulates is used; SARS-CoV-2 fails the test.

Dr. **Andrew Kaufman** does a great job explaining why in this video: Hopefully, it has not been blocked or censored.

The coronavirus SARS-CoV-2 (allegedly causing the disease [COVID-19](#)) has not been shown to be present only in sick people and not in healthy ones.

The virus has **never** been isolated, which must be done with proper equipment such as electron microscopes and which cannot be achieved through CT scans (as the Chinese were using) and [the flawed PCR test](#).

The January 24th 2020 study published in the *New England Journal of Medicine* entitled [A Novel Coronavirus from Patients with Pneumonia in China, 2019](#) describes how the scientists arrived at the idea of COVID-19:

They took lung fluid samples and extracted RNA from them using the PCR test. It admits that the coronavirus failed Koch's postulates:

"Further development of accurate and rapid methods to identify unknown respiratory pathogens is still needed... our study does not fulfill Koch's postulates."

#2 SARS-CoV-2 the Theoretical Virus - Top Chinese Scientist Admitted They Never Isolated the Virus

All claims that the SARS-CoV-2 virus has been isolated have turned out to be unsubstantiated. What you see on the internet is simply artist's renditions, pretty but only art work. Real viruses look like nothing you see in the ads.

Meanwhile, there have been actual admissions by officials that they haven't isolated it.

The chief epidemiologist of the Chinese CDC (Center for Disease Control) admitted "they didn't isolate the virus" in this below video clip:

[Source...](#)

#3 SARS-CoV-2 the Theoretical Virus: CDC Stated No Quantified Isolate Was Available

The US CDC (Centers for Disease Control and Prevention) in its July 2020 report [CDC 2019-Novel Coronavirus \(2019-nCoV\) Real-Time RT-PCR Diagnostic Panel](#) admits that, It had been running PCR tests based not on an actual viral isolate (an actual sample or specimen taken from an infected human), but rather "stocks" of "transcribed RNA" taken from a gene bank to "mimic clinical specimen":

"Since no quantified virus isolates of the 2019-nCoV were available for CDC use at the time the test was developed and this study conducted, assays designed for detection of the 2019-nCoV RNA were tested with characterized stocks of in vitro transcribed full

length RNA (N gene; GenBank accession: MN908947.2) of known titer (RNA copies/μL) spiked into a diluent consisting of a suspension of human A549 cells and viral transport medium (VTM) to mimic clinical specimen." (pg.43)

#4 SARS-CoV-2 the Theoretical Virus - CDC Admitted They Made a Digital Virus of 30,000 Base Pairs Using 37 Actual Sample Base Pairs

As covered in a previous article '[SARS-CoV-2 - The Stitched Together, Frankenstein Virus](#),' the CDC has already admitted that **SARS-CoV-2 is a computer-generated digital virus**, not a real living virus... Did you catch this? It is a "model" generated by a computer program!

In other words, it is a Frankenstein virus which has been concocted and stitched together using genomic database sequences (some viral, some not).

It has never been properly purified and isolated so that it could be sequenced from end-to-end once derived from living tissue; instead, it's just digitally assembled from a computer database. It is not reality!

In this paper, the CDC scientists state they took just 37 base pairs from a genome of 30,000 base pairs which means that about 0.001% of the viral sequence is derived from actual living samples or real bodily tissue. With this set of data, you can hypothesize all you want all day long and make the supposition of your own choosing.

In other words, they took these 37 segments and put them into a computer program, which filled in the rest of the base pairs.

This computer-generation step constitutes scientific fraud."

In this article '[In June Study CDC Scientists Make 2 COVID Admissions that Destroy Official Narrative](#)' It reveals how [the CDC](#) admitted in [their paper](#) that they extrapolated their *make-believe* virus.

Here is the quote:

"Whole-Genome Sequencing
We designed 37 pairs of nested PCRs spanning the genome on the basis of the coronavirus reference sequence (GenBank accession no. NC045512). We extracted nucleic acid from isolates and amplified by using the 37 individual nested PCRs."

Another way to say this is that, the "virus" has been constructed using a technique called de novo assembly which is a method for constructing genomes from a large number of (short or long) DNA fragments, with no a priori knowledge of the correct sequence or order of those fragments.

You can read more about it [here](#).

You can now worship your new virus Messiah!

Hype notwithstanding, the Lockdown world is not waiting breathlessly for the debut of the New Masked Man Messiah on May 6, 2021, only the most unlikely of places - the Vatican - through its Pontifical Council for Culture, the Cura Foundation, the Science and Faith Foundation (TTOQ) and Stem For Life (SFLF)—is.

With little to no fanfare, the Vatican is giving Dr. Anthony Fauci its keynote speaking spot at an event touted as “Exploring the Mind, Body & Soul.” “How Innovation and Novel Delivery Systems Improve Human Health”. This has to be straight from the pit of Hell!

More than passing bizarre that the mainstream media who favor Fauci with as much publicity as it does for Alexandria Ocasio-Cortez (AOC) pays scant attention to Fauci, ‘The Newly-Minted Vatican Messiah’. It’s really a case of one Jesuit (Pope Francis) honoring another Jesuit (Dr. Anthony Fauci) for doing the work of Lucifer, the father of lies! We saw much the same type of exalting Zionist Bill Gates when President Obama’s awarded Bill Gates the Presidential Medal of Freedom.

It’s down to: Make way for the Vatican’s New Masked Man Messiah and all bow down to his beaker’s face mask and just as visible clay feet.

Fauci, who has flip-flopped all over what to do about avoiding the Covid-19 pandemic, already owns human health, and now, courtesy of a digital Vatican “Health” conference is about to invade your immortal soul.

All Messiahs other than the original real One, come our way on clumsy feet of clay. Why is it that all media-manufactured ones, turn to religion in trying to dupe the masses?

Today, April 29, 2021, a first-of-its-kind literature review on the adverse effects of face masks, titled “[Is a Mask That Covers the Mouth and Nose Free from Undesirable Side Effects in Everyday Use and Free of Potential Hazards?](#),” reveals there are clear, scientifically demonstrable adverse effects for mask wearers, both on psychological, social and physical levels. [Meta-Analysis of 65 Studies Reveals Face Masks Induce Mask-Induced Exhaustion Syndrome \(MIES\)](#). How will Dr. Fauci and Pope Francis counter this German study? Newly published in the *‘International Journal of Environmental Research and Public Health’*, a team of German researchers acknowledge that theirs is the first comprehensive investigation into the adverse health effects that masks can cause — a surprising fact considering that many countries around the world introduced universal mask wearing in public spaces for containing SARS-CoV-2 in 2020 as a mandatory health policy without investigating nor communicating to their citizens the true risks of masks, hence violating informed consent.

Two examples: Global Warming guru Al Gore, who was the homily messiah at St. John Divine Church in New York City. ‘Father of the Environment’, Canadian UN Poster Boy, Maurice Strong, who hooked up with Communist Mikhail Gorbachev in trying to replace the Ten Commandments with the Earth Charter.

#5 SARS-CoV-2 the Theoretical Virus - European Corman-Drosten Paper Used an "In Silico" Genome of an "In Silico" Virus

The original [Corman-Drosten paper](#) admits they used **a theoretical virus sequence** for all their work and calculations.

They, like the CDC and every government and agency, claim this is only because no isolate was ever available. Has any of these scientists every asked WHY the isolate has never been available?

"In the present case of 2019-nCoV, virus isolates or samples from infected patients have so far not become available to the international public health community."

A subsequent study highlighting fatal flaws in the *Corman-Drosten paper* was published entitled '[External peer review of the RTPCR test to detect SARS-CoV-2 reveals 10 major scientific flaws at the molecular and methodological level: consequences for false positive results.](#)'

It highlights how the authors used 'in silico' or 'theoretical' sequences from computer banks, not real isolated samples from infected people. Folks, this is criminal acts against humanity!

"In silico" is pseudo-Latin for "theoretical"; in plain English, synonyms for theoretical are "**imaginary**" and "**make-believe**."

The first and major issue is that the novel Coronavirus SARS-CoV-2 (in the publication named 2019-nCoV and in February 2020 named SARS-CoV-2 by an international consortium of virus experts) is based on *in silico* (theoretical) sequences, supplied by a laboratory in China, because at the time neither control material of infectious ("live") or inactivated SARS-CoV-2 nor isolated genomic RNA of the virus was available to the authors.

To date no validation has been performed by the authorship based on isolated SARS-CoV-2 viruses or full length RNA thereof. Nevertheless these *in silico* sequences were used to develop a [RT-PCR test methodology](#) to identify the aforesaid virus. The inventor of the PCR test methodology called Dr. Fauci a liar in 2019 before his death, and further stated that the PCR test was never intended to do what the CDC, WHO, and NIAID actually did!

This model was based on the assumption that the novel virus is very similar to SARS-CoV from 2003 (Hereafter named SARS-CoV-1) as both are *beta-coronaviruses*... in short, a design relying merely on close genetic relatives does not fulfill the aim for a "robust diagnostic test" as cross reactivity and therefore false-positive results will inevitably occur.

Validation was only done in regards to *in silico* (theoretical) sequences and within the laboratory-setting, and not as required for in-vitro diagnostics with isolated genomic viral RNA.

This very fact hasn't changed even after 10 months of introduction of the test into routine diagnostics." Humanity was deceived by those expected to protect them from such bovine excrement!

#6 SARS-CoV-2 the Theoretical Virus - UK Government Couldn't Produce Evidence

The governments of many nations around the world couldn't seem to come up with a real virus either when challenged to do so.

More evidence proving the "virus" is constructed on a computer database from a digital gene bank comes from [Frances Leader](#), who questioned the *UK MHRA* (Medicines and Healthcare products Regulatory Agency) whether a real isolated virus was used to

make the COVID vax (read more about the '[COVID vaccine which is not a vaccine here](#)').

Leader found that the WHO protocols that [Pfizer used](#) to produce the mRNA do not appear to identify any nucleotide sequences that are unique to the SARS-CoV-2 virus.

Leader asked if the "virus" was actually a computer generated genomic sequence, and ultimately the MHRA confirmed they had no real specimen:

"The DNA template does not come directly from an isolated virus from an infected person."

In July 2020, a group of concerned academics [wrote a letter](#) to the UK Prime Minister **Boris Johnson** in which they asked him to produce independently peer reviewed scientific evidence proving that the SARS-CoV-2 "virus" has been isolated.

To date they have not received a reply...

Similarly, UK researcher [Andrew Johnson](#) made a *Freedom of Information Request to Public Health England (PHE)*.

He asked them to provide him with their records describing the isolation of a SARS-COV-2 virus to which [they responded](#):

"PHE can confirm it does not hold information in the way suggested by your request."

#7 SARS-CoV-2 the Theoretical Virus - Australian Government Couldn't Produce Evidence

In other Commonwealth nations it's the exact same story.

In Australia scientists from the [Doherty Institute](#) falsely announced that they had [isolated the SARS-CoV-2 virus](#)...

When asked to clarify the scientists said:

"We have short (RNA) sequences from the diagnostic test that can be used in the diagnostic tests."

Perhaps this is the reason for this disclaimer by the [Australian Government](#):

"The reliability of COVID-19 tests is uncertain due to the limited evidence base... There is limited evidence available to assess the accuracy and clinical utility of available COVID-19 tests."

#8 SARS-CoV-2 the Theoretical Virus - Canadian Government Couldn't Produce Evidence

Researcher **Christine Massey** made a similar *Freedom of Information request* in Canada, to which the [Canadian Government replied](#):

"Having completed a thorough search, we regret to inform you that we were unable to locate any records responsive to your request."

#9 SARS-Cov-2 the Theoretical Virus - Over 40 Institutions Worldwide Can't Answer the Basic Question

In fact, Massey and her colleague in New Zealand, *"have been submitting Freedom of Information requests to various institutions in, Canada, NZ, Australia, Germany, the U.K., the U.S. etc., ...seeking any records that describe the isolation of a "COVID-19 virus" (aka "SARS-COV-2") from an unadulterated sample taken from a diseased human...*

As of December 16, 2020, 40 institutions in, Canada, U.S., New Zealand, Australia, U.K., England, Scotland, Wales, Ireland, Denmark, and the European CDC, *"...have provided their responses, and none could locate any record describing the isolation of any "COVID-19 virus" aka "SARS-COV-2" directly from a diseased patient."*

#10 SARS-Cov-2 the Theoretical Virus - Previous Coronaviruses Have Not Been Isolated

The Spanish health journal *Salud* published a great article in November 2020 entitled ["The Scam has been Confirmed - PCR does Not detect SARS-CoV-2" in the medical field](#) (unofficial translation) where it exposes the lack of evidence not only for the isolation of SARS-CoV-2, but also for the isolation of other past coronaviruses.

The scam runs deep...

Jon Rappoport has done great work exposing how the exact same scam blueprint was played out in the 1980s (with **Dr. Fauci** in charge, leading the fraud) when scientists asserted there was a new virus called HIV, and it was causing AIDS.

The *COVID scamdemic* greatly mimics other historical fake pandemics such as the [1976 swine flu pandemic](#).

The article in *Salud* states:

"The genetic sequences used in PCRs to detect suspected SARS-CoV-2 and to diagnose cases of illness and death attributed to Covid-19 are present in dozens of sequences of the human genome itself and in those of about a hundred microbes.

And that includes the initiators or primers, the most extensive fragments taken at random from their supposed "genome" and even the so-called "target genes" allegedly specific to the "new coronavirus".

The test is worthless and all "positive" results obtained so far should be scientifically invalidated and communicated to those affected; and if they are deceased, to their relatives.

Stephen Bustin, one of the world's leading experts on PCR, in fact says that under certain conditions anyone can test positive! It's like saying "heads I win, tails you lose!"

We have been warning you since March, 2020: *"you cannot have specific tests for a virus without knowing the components of the virus you are trying to detect."*

And the components cannot be known without having previously isolated/purified that virus. Since then we continue to accumulate evidence that no one has isolated SARS-CoV-2 and, more importantly, that it can never be isolated...

In this report we are going to add the results of a particular research we have done from the data published on the alleged SARS-CoV-2 and on the protocols endorsed by the WHO for the use of RT-PCR as well as the data corresponding to the rest of the "human coronaviruses".

And the conclusions are extremely serious:

"None of the seven "human coronaviruses" have actually been isolated and all the sequences of the primers of their respective PCRs as well as those of a large number of fragments of their supposed genomes are found in different areas of the human genome and in genomes of bacteria and archaea..."

Their report analyzed *human coronaviruses*,
229E (said to have been isolated in 1965)
OC43 (in 1967)
SARS-CoV (in 2003)
NL63 (in 2004)
HKU1 (in 2005)
MERS-CoV (in 2012)

And just to repeat in case you missed it: they discovered the alleged sequences of SARS-CoV-2 are found in both humans and bacteria!

This means all the various ***in silico* models of SARS-CoV-2, contain** existing human genetic sequences, ...so it is little wonder that people test positive when the primer or

standard being tested against contains human sequences. seem to come up with a real virus either when challenged to do so.

More evidence proving the "virus" is constructed on a computer database from a digital gene bank comes from [Frances Leader](#), who questioned the *UK MHRA* (Medicines and Healthcare products Regulatory Agency) whether a real isolated virus was used to make the COVID vax (read more about the '[COVID vaccine which is not a vaccine here](#)').

Leader found that the WHO protocols that [Pfizer used](#) to produce the mRNA do not appear to identify any nucleotide sequences that are unique to the SARS-CoV-2 virus.

Leader asked if the "virus" was actually a computer generated genomic sequence, and ultimately the MHRA confirmed they had no real specimen:

"The DNA template does not come directly from an isolated virus from an infected person."

In July 2020, a group of concerned academics [wrote a letter](#) to the UK Prime Minister **Boris Johnson** in which they asked him to produce independently peer reviewed scientific evidence proving that the SARS-CoV-2 "virus" has been isolated. To date they have not received a reply...

Similarly, UK researcher [Andrew Johnson](#) made a *Freedom of Information Request* to *Public Health England* (PHE).

He asked them to provide him with their records describing the isolation of a SARS-COV-2 virus to which [they responded](#):

"PHE can confirm it does not hold information in the way suggested by your request."

#7 SARS-CoV-2 the Theoretical Virus - Australian Government Couldn't Produce Evidence

In other Commonwealth nations it's the exact same story. In Australia scientists from the [Doherty Institute](#) falsely announced that they had [isolated the SARS-CoV-2 virus](#)... When asked to clarify the scientists said:

"We have short (RNA) sequences from the diagnostic test that can be used in the diagnostic tests."

Perhaps this is the reason for this disclaimer by the [Australian Government](#):

"The reliability of COVID-19 tests is uncertain due to the limited evidence base..."

There is limited evidence available to assess the accuracy and clinical utility of available COVID-19 tests."

#8 SARS-CoV-2 the Theoretical Virus - Canadian Government Couldn't Produce Evidence

Researcher **Christine Massey** made a similar *Freedom of Information request* in Canada, to which the [Canadian Government replied](#):

"Having completed a thorough search, we regret to inform you that we were unable to locate any records responsive to your request."

#9 SARS-Cov-2 the Theoretical Virus - Over 40 Institutions Worldwide Can't Answer the Basic Question

In fact, Massey and her colleague in New Zealand, *"have been submitting Freedom of Information requests to various institutions in, Canada, NZ, Australia, Germany, the U.K., the U.S. etc.,*

...seeking any records that describe the isolation of a "COVID-19 virus" (aka "SARS-COV-2") from an unadulterated sample taken from a diseased human...

#10 SARS-Cov-2 the Theoretical Virus - Previous Coronaviruses Have Not Been Isolated

The Spanish health journal *Salud* published a great article in November 2020 entitled ["The Scam has been Confirmed - PCR does Not detect SARS-CoV-2" in the medical field](#) (unofficial translation) where it exposes the lack of evidence not only for the isolation of SARS-CoV-2, but also for the isolation of other past coronaviruses.

The scam runs deeper...

Conclusion - The COVID Cult is a Colossal Fraud and Superstition.

How did this all start?

Chinese scientists took lung fluid samples and claimed they had discovered a novel or new virus. The [Gates-Rockefeller WHO](#) backed them up.

In the WHO's [Novel Coronavirus 2019-nCov Situation Report 1](#), they state:
"The Chinese authorities identified a new type of coronavirus, which was isolated on 7 January 2020..."

"On 12 January 2020, China shared the genetic sequence of the novel coronavirus for countries to use in developing specific diagnostic kits."

With the evidence presented above, the WHO's assertions and claims are utterly baseless.

They constitute outright fraud.

The world has been shut down over a lie - a coldly calculated, carefully curated lie - that was simulated and war-gamed for decades in advance, i.e., Rockefeller Institute, the 2010 Operation Lockstep!

The COVID cult is, an *irrational superstition* based on nothing but *in silico, theoretical, make-believe* viral sequences... Yet, the real-world consequences for millions who have been thrown into stress, despair, poverty, joblessness, alcoholism and suicide is anything but theoretical...

On Tuesday, April 27th, 2020, the Centers for Disease Control and Prevention (CDC) revised its guidance on mask-wearing, advising that Americans who are fully vaccinated may now exercise and attend small outdoor gatherings without a mask. There is much evidence to the point that masks are totally useless, and dangerous to those who wearing them for any length of time. Politicians have fallen into the trap of the bogus science that masks are effective, of which Dr. Anthony Fauci has revealed that he is a hypocrite. The face diaper has superseded importance over the debate that a bogus virus exists. As a diversionary ploy, Dr. Fauci takes the focus off the real issue, there is no virus, and plays with our intelligence that we should wear masks all the time.

It's too little, too late, argues Stanford University Professor of Medicine Jay Bhattacharya. The public health agency's hypervigilant coronavirus response over the past 12-14 months has paved the way for what he calls ***“the institutionalization of hypochondria”*** among the American public.

“This sort of order should have come long ago,” said Bhattacharya during an interview on “Just the News AM.” *“I think they’re being entirely too cautious by saying, ‘Okay, only if you’re vaccinated ... People who have had the disease before are also immune. Why shouldn’t they be ‘allowed’ to not wear masks?”*

There has been *“very little evidence of outdoor transmission of the disease to begin with,”* added Bhattacharya, coauthor of the Great Barrington Declaration, a manifesto that urges an alternative COVID-19 strategy focused on protecting those at greatest risk while minimizing disruption and damage to the larger society. The statement has been signed by close to 14,000 medical and public health scientists.

“[P]ublic health authorities, including the CDC have generated an enormous amount of fear and panic around the disease,” says Bhattacharya.

On Tuesday, President Biden, who has been fully vaccinated for many months, wore a mask outside as he walked to the podium to address the press regarding the CDC’s newest guidance. Last week, Biden wore a mask during a virtual climate summit with other world leaders who were maskless.

Calling masks *“a palpable symbol of panic and fear,”* Bhattacharya said Biden’s use of a mask in public *“even though he has been vaccinated and is immune, sends the entirely wrong signal about the efficacy of vaccination and a whole host of other things.”*

“We basically have said, look at disease avoidance as the central problem in your life, no matter who you are,” he explained. *“It’s not taking care of your kids. It’s not practicing your faith. It’s not doing as well as you can in your in your profession. None of that is as important as avoiding disease. And I think it’s going to be very difficult to undo that.”*

Steve Deace commenting on lockdown passivity: *“A culture has to be conditioned to be this compliant. West Virginia is offering residents 35 and younger \$100 savings bond to get COVID vaccine.”* Krispy Kreme will give the vaccinated a donut a day until the end of the year.

What I find concerning and reprehensible is to see Senators like Rand Paul of KY playing tag with soft ball questions about masks, social distancing, when the larger germane issues are ignored by Senator Paul and others using their time to appear presidential. Senator Paul tells people to take the shots and return to normal when that will never happen since our leaders are either complicit with or part of the fix to deceive the American people. I’m not fooled by the political rhetoric of these Senate hearings when I and others have been able to expose the crimes against humanity here.

Over the past ten months, on seven specific occasions I have provided Senator Rand Paul with source materials and documents as well as articles that I have written, or others of greater expertise, video links that identify Dr. Anthony Fauci’s crimes as Director of the NIAID. I have sent pages of data sufficient for probable cause for

investigation of the second highest paid bureaucrat in Washington, D.C. I have watched the Senator's questioning of Dr. Anthony Fauci and it falls short of unmasking this criminal. I've seen high school students ask more challenging questions. In every case, I sent substantive important data to both Senator Rand Paul's office in Washington, D.C. as well as his office here in Bowling Green, KY.

In my email this afternoon, I received a reply from the Senator's office. I was going to simply delete it after I read it. I went back into my files and pulled up all the letters that I have addressed to the Senator from my state, and thinking perhaps I somehow failed to communicate my point on the Covid scamdemic issue. In hind sight, my letters were very direct, to the point, and specific so as to avoid any misunderstanding or confusion. So rather than delete the Senator's reply, I thought I would share its nonsensical generic response from the Senator's office. I would have thought the staffer who sent this could have at least used a consistent type size to mask its form-letter appearance. All I can say to this bovine excrement is God Help Us!

RAND PAUL
KENTUCKY

United States Senate

WASHINGTON, DC 20510

April 29, 2021

Dear Rev. Reid,

Thank you for contacting me regarding the COVID-19 vaccine. I appreciate hearing your thoughts on this matter.

As a physician, I recognize the positive impact that vaccinations have had on our society, but I also know that all medicine, including vaccines, may have side effects. The invention of the vaccine is one of the greatest medical breakthroughs of all time. On December 21, 2020, the Senate passed H.R. 133, the Consolidated Appropriations Act, 2021, which included \$8.75 billion for vaccination distribution - of which, CDC has directed \$40.3 million to assist Kentucky's COVID-19 vaccination-related activities.

Again, thank you for contacting me regarding this issue. It is an honor and a privilege to serve the Commonwealth of Kentucky in the United States Senate. For further information, please visit my website, <http://www.paul.senate.gov>. In addition, you may use the website contact form to continue informing me of federal legislative matters most important to you.

Sincerely,

Rand Paul, M.D.
United States Senator

Dr. David Martin from the University of Virginia months ago compiled a dossier on Dr. Fauci's crimes that is a hundred pages long and it seems that no one wants to hold Dr. Anthony Fauci accountable for his criminal activities in a position he has held for near 40 years. Dr. Fauci is not a Masked Man Messiah by any sense of the word; a Pied

Piper perhaps! His clay feet are exposed almost daily in his constant flip flopping on the core issue that is bringing down the world economic system around us.

In closing, it is important that people understand that all of this gas light theater was manifested upon humanity on a total bogus premise without any shred of evidence that SARS-Cov-2 ever existed, and the Covid-19 was based entirely on a house of cards. Almost everything people believe about this has been a lie or fear-driven. The premise has been further enhanced by the suppression, censoring, and silencing all voices of truth. TPTB have revealed their complicity and perpetuating this scamdemic for far too long. It is time that an honest debate to be held to expose the corruption, separate the facts from the fiction. Of the utmost importance, there is the need to prosecute the criminals who have violated their general principle "to do no harm" that has led to such loss of life as the result of exploiting the two most powerful motivators: Fear and Greed!

Blessings,

Pastor Bob, EvanTeachr@aol.com
