

# For What Will You Sell Your Birthright?

## Contemporary Jacob and Esau Parable

How About a Krispy Kreme Donut Every Day Until the End of 2021

*"Now Jacob cooked a stew; and Esau came in from the field, and he was weary. And Esau said to Jacob, 'Please feed me with the same red stew, for I am weary.' Therefore his name was called Edom. But Jacob said, 'Sell me your birthright as of this day.' And Esau said, 'Look, I am about to die; so what profit shall this birthright be to me?' Then Jacob said, 'Swear to me as of this day.' So he swore to him, and sold his birthright to Jacob. And Jacob gave Esau bread and stew of lentils; then he ate and drank, arose, and went his way. Thus Esau despised his birthright" -(Gen. 25:29-34).*

In February 2021, Israel restricted access to gyms, pools, hotels and sporting venues to vaccinated-only, effectively segregating unvaccinated individuals from portions of society. Israel has provided you an example and understanding of how all of this is coming down to persecuting anyone in the country without proof of being vaccinated.

Most countries are openly discussing the very real possibility of following suit. Many private companies are also considering limiting their services to vaccinated-only patrons. Vaccine passports are nothing but a dehumanizing instrument to take your God-given freedoms. They will crush the human spirit into submission, the face diaper is symbolic of that imposed silence.

Under the Nuremberg Treaty, signed by the U.S. and every member nation of the United Nations at the time in 1950, agreed that no one would be forced to submit to experimental invasion of their bodies. The WHO last week set about to change the definition of a vaccine to include “gene” therapy. The pharmaceutical industry, in their own literature, admit that this is not a vaccine but is “gene” therapy of a “delivery system”. Two or three dictionaries have just changed their definition of a vaccine, at the request of the World Health Organization.

As of March 22, 2021, Krispy Kreme shops around the U.S. will dole out free doughnuts to patrons who can prove they’ve received at least one dose of COVID-19 vaccine. The offer will last to the end of 2021.

A political scientist urges Americans to not follow their guts, but to trust and obey experts, despite the mistakes they’ve made. The Covid-19 vaccine is the “Mark” of the Beast of Revelation 13. There is no debate on this issue when you look at it in its totality. This is one of those times when the knowledge of the Bible counts big time. I think I stated the Coronavirus was the “Mark” of the Beast as early as May, 2020. I did not know at that precise moment all of what I do now, but I intuitively knew it was the proverbial “Mark”.

*“The world as we know it will change forever in the wake of the coronavirus pandemic, according to Bill Gates, who declared that we will soon have ‘digital certificates’ to display our health and vaccination status.”*

The giant corporations are in lockstep with the Technocrats to reshape the world. Each is looking at means and measures to intimidate, coerce, cajole, their employees to be vaccinated. Kroger did not mandate their employees to get their “shots” but they chose to use the positive option of the “carrot and stick” approach. They offered \$100 to every employee to take the shot. A “Benjamin” is not something that most people would walk away from despite it does not buy as much today as it did in 1913.

The Biblical account quoted above has spiritual application -(Hebrews 12:12-17). Therefore, I would like to suggest three characteristics of human nature revealed through Esau selling his birthright.

First: Do not allow yourself to become weary over earthly “things” whereby there is no fight left for spiritual things. Esau was weary (worn out in strength, endurance, vigor, or freshness; having one’s patience, tolerance, or pleasure exhausted - Webster). He was so tired that he would give anything for physical revitalization - food and rest.

We must guard against allowing ourselves to become weary and tired so that we can no longer fight against sin and Satan. Especially, if we are exhausting ourselves to obtain worldly goods. Remember, **“our adversary the devil walks about like a roaring lion, seeking whom he may devour”** -(1<sup>st</sup> Peter 5:8). Therefore, we must **“resist him, steadfast in the faith”** -(1<sup>st</sup> Peter 5:9). **If we expend every ounce of energy in**

***pursuit of earthly pleasure, then there is no energy left to fight the good fight” - (2<sup>nd</sup> Timothy 4:7).***

Second: Never lose sight of the profitability of your birthright. Esau said: ***“Look, I am about to die; so what profit shall this birthright be to me”*** -(Genesis 25:32)? Esau had lost sight of the profitability of his birthright. He did not see the profit in suffering to obtain it. We must never lose sight of the profitability of our birthright. Paul tells us the price some have paid for their birthright: torture, mocking, scourging, chains and imprisonment, stoned, sawn in two, tempted, and slain with the sword -(Hebrews 11:35-37). Our home in heaven is more valuable than life itself; therefore, we must be willing to pay any price to keep it.

Third: Never despise your birthright. Esau sold his birthright; therefore, he despised it. Despise means to: regard as negligible, worthless, or distasteful (Webster). Anytime we sell ourselves to Satan, we despise God - we do not consider God very important in our lives at that time. And anytime we sell our birthright, we despise it - we consider it negligible and worthless.

If you are a Christian, you have a birthright. What is your attitude toward your birthright? Do you cherish it and count it as the most precious possession you own? Will you guard it and protect it with your life? Or is there a price for which you will sell it?

Jesus says: ***“If anyone desires to come after Me, let him deny himself, and take up his cross, and follow Me. For whoever desires to save his life will lose it, and whoever loses his life for My sake will find it. For what is a man profited if he gains the whole world, and loses his own soul? Or what will a man give in exchange for his soul”*** -(Matthew 16:24-26)?

The past year has been an education of discernment for me in particular. I’ve been onto the crimes of Bill Gates throughout the third world for more than a decade. This is why I refer to him as ***“Satan’s Reprobate Child”***. ***“If history repeats, it will go from being technology adopted for its ‘convenience and safety’ and then overnight will become mandatory for you and your family — or else.”***

Now, 12 months later, we’re seeing warnings of the “or else” everywhere we look. In February 2021, Israel paved the way by restricting access to gyms, pools, hotels and sporting venues to vaccinated-only, thereby effectively segregating unvaccinated individuals from portions of society. Most countries are openly discussing the very real possibility of following suit.

As of March 22, 2021, Krispy Kreme shops around the U.S. will dole out free doughnuts to patrons who can prove they’ve received at least one dose of COVID-19 vaccine. Would you sell your eternal destiny for a donut a day until the end of 2021?

Proving they’re not stingy when it comes to handing out special privileges, the offer will last to the end of the year. In other words, if you got the shot, you can enjoy a free

doughnut every day for the remainder of 2021. If you've got your vaccination card and wear a mask too, you get a free medium-sized gourmet coffee of your choice as well.

To make sure the unvaccinated dregs won't feel discriminated against, those who choose to not get the shot will be given a free consolation doughnut on Mondays between March 29 and May 24 *"to help kick start a good week,"* to quote NBC News, which isn't even being the least sarcastic in its reporting.<sup>5</sup>

Unvaccinated patrons who comply with proper mask wearing will receive their choice of a Krispy Kreme-branded *"I'm a Life Saver"* sticker or *"Wear It With Pride"* pin on their way out, any day of the week during that same time period.

The next phase of collaboration will allow direct injections at Krispy Kreme and other fast food participating retail establishments. You will soon be able to drive-thru and get an injection in one arm while eating your free doughnut or free French fries with the other.

Dr. Joseph Mercola said:

*"From a health professional's standpoint, it must be noted that the free doughnut offer is as devious as a sheep in wolf's clothing, seeing how indulging in sugar and [linoleic acid](#) is a recipe for maximizing any ill effects from the virus and vaccine alike by ruining mitochondrial health. Doughnuts are probably the absolute most harmful "food" there is, and a surefire way to make sure your week starts off in the worst possible way."*

If you're wondering why people are getting vaccinated against a virus that has an average survival rate of 99.74%, or why mask-wearing continues to be "a thing" despite being proven ineffective for viruses in virtually every published study, you clearly have not understood your public duty, which is to trust the experts — even if they're repeatedly proven wrong or caught lying on a regular basis.

As reported in *"Papers, Please': Vaccine Passports Have Officially Arrived,"* it's only a matter of time before you'll be asked to prove your vaccination status in order to carry on with your daily life, and you should be thankful there are big tech geniuses out there who can ensure maximum efficiency and ease of use of such a system.

In all likelihood, it won't take long before you won't even need to carry such proof. It'll be securely embedded somewhere in your body, so forgetfulness won't ever cause a problem. Hint folks, this is the "Mark" of the Beast. Do not let anyone miss-lead you to think it isn't, particularly if he happens to be a member of the clergy. Most clergy and most churches with their 501c(3) tax exempt status are forbidden to teach or preach on Bible prophecy. I did an article last year explaining how that all came about in a back-room meeting with the late President Lyndon B. Johnson. As part of the deal, the denominations agreed not to discuss this subject and the Catholic Church.

The alternative is a life spent within the four walls of your private abode, and who wants that? Besides, it'll only be a decade or less before private ownership rights are

abolished and you'll be relegated to a portable cot in public sleeping quarters. Who knows where you'll end up if you don't have your health verification papers?

This direction was dictated by the World Economic Forum years ago, so you'd best start thinking about the benefits of behavioral modification now. Again, ownership requires good sense, which the average person doesn't have, so all ownership must, and shall, be transferred to experts who best know how to distribute goods and services in an equitable fashion.

**A THIRD of Americans killed by coronavirus lived in nursing homes - despite care home residents making up less than 1% of the U.S. population. They were murder victims by governors of their states.**

- Less than 1% of Americans live in nursing homes, but the population makes up 31.7% of all COVID-19 deaths in the U.S.
- However, experts say that vaccinations, which began rolling out in December, have caused figures to decline ever since.
- Weekly COVID-19 deaths have declined by 93% from December 20 and March 14 compared to 40% among the U.S. population.
- Between late December and mid-March, weekly coronavirus infections among nursing home residents fell from 33,592 to 927, a 97% drop.
- Comparatively, national cases have fallen from a weekly sum of 1,507,588 to 381,549, a decline of 74%.

Aside from this data, I have been recording the data put out by the CDC which is "official" for the record. Do you know that last month there was not a single day where the death rate came close to record numbers. Every single day of March 2020 had 1 or fewer deaths per county in the U.S. The new Director of the CDC, Rochelle Walensky was fighting back tears in her drama performance to claim things are going to get worse! We have 3,142 counties along with the District of Columbia and there were many days in March that death numbers reported as few as 444 fatalities. The date was for March 22<sup>nd</sup> data. This number of 444 is **0.00013413897280967%** of 331,000,000 or 1/10,000<sup>th</sup> of a percentage point and the number 331-million is the official U.S. Census data for the national population.

According to Dr. Fauci's recent statements, you only know a vaccine is safe when it hits a "normal" population. So, if we take his statements at face value, there's no way anyone could have said this vaccine was safe because the trials didn't consist of a normal population.

Further, in Pfizer's test, they blatantly state it was only performed on "healthy individuals." We already know from their own study report on page 41 of the PDF that they did not include people with certain STDs. Additionally, they outline the criteria for being barred from the test on page 145 of the report. But, you know, these "healthy people" somehow are representative of the "normal" public and the FDA approved this vaccine for emergency use despite these shortcomings in the trial.

Dr. Anthony Fauci is a dishonest man, and as all Jesuits are trained, they are prepared to be sacrificial lambs in whatever cause they are carrying out a designated mission their Superior-General call them to be. Their loyalty is to the Black Pope, who is the official leader as the Superior-General of the "Society of Jesus". His name is Arturo Soza. His full birth name is Arturo Marcelino Sosa Abascal. They are committed to the loyalty of being a Judas Goat, regardless of their training or career.

Dr. Fauci also stated in a White House briefing, according to the *New York Post*:

If you can show that it's safe and that in fact it induces the kind of response that is reflective of the protection — mainly the correlate of immunity — what you can do is bridge that to the efficacy data that you got from the 30,000[-person] trial with Moderna and the 44,000[-person] trial that we did with Pfizer. □

*"If you can show that it's safe."* I thought it was safe, Dr. Fauci said. *"I thought the vaccine was safe and effective and that anyone who disagreed was a "conspiracy theorist."* The fact of the matter is, you probably don't know if it's safe for children, just like you probably didn't know if it was safe for adults. That's likely why the FDA never actually approved the vaccine but only approve its emergency use and why you said we need to test it on a "normal" population to see if it's safe or not.

It is for this reason the new vaccine is going to be tested on "hundreds to a couple of thousands" of children, the *'New York Post'* reports him saying.

So, in short, we don't know if this vaccine is safe, but we're going to pump it into children anyways. The fact that the media gives Dr. Fauci so much air time is good because his own statements begin contradictions to come back to haunt him. He vacillates and contradicts himself so often you cannot doubt he is lying. Years ago he stated that he wanted or desired to be on the "Tonight Show", an indicator of his vanity. But getting to my point this "shot" being passed off as a vaccine is the proverbial "Mark" of the Beast.

In all of the remarks made, what is so amazing is that the outcries are coming from the secular world of politics, and not the pulpits of American churches. Not all, but most churches are dealing with going along by studies on how to keep the institution alive. Oblivious to the fact this vaccine is really the reason for the church to be standing up and screaming tyranny and Fascism, Communism, The likes of Joel Osteen, Rick Joyner, Paula White, Jim Bakker, and their flock of "prosperity" preachers are irrelevant for what the church is facing right now. Their followers are left leaderless in the moment they need a Moses to take them to the Promised Land!

***"And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name."*** The problem with many Bible prophecy teachers, especially those with television media platforms is they are fence-sitters and cherry-pick

that passage, so as not to embarrass their self-image and loss of donations they depend upon the listening/viewing audience. –(Revelation 13:17).

We were warned back in 2020 that while Big Brother wouldn't physically force the COVID vaccine on the population, the fact that airlines, sports events and other places where groups gather, would require proof of 'vaccination' before allowing entry, was a huge red flag over where this was all going.

In February the European Union decided to have "digital verification passports" in order to travel, and again, Revelation 13:17, shown above, blared like flashing neon light to those that knew this day was coming. Greece, Spain and Italy, Germany, and Israel are just some nations that will require the "Mark" aka proof of vaccination in order to do a variety of things.

***"And the smoke of their torment ascendeth up for ever and ever: and they have no rest day nor night, who worship the beast and his image, and whosoever receiveth the mark of his name."*** -(Revelation 14:11).

It is now April, 2021, and there is a battle raging throughout America over the much-talked about "vaccine passport," which would allow Americans "access to certain activities, buildings or events," as reported by *'The Hill'*:

*"Requiring vaccine passports could allow industries that have been closed off for much of the past year to reopen while minimizing the risks of spreading the virus. And proponents say virtual passes would speed up the verification process."*

*"In New York, which last week became the first state to formally launch a virtual pass, the voluntary information is being touted as helping the state boost businesses that faced some of the toughest restrictions during the pandemic."*

It is noteworthy that the excuse being used as well as the threat of forcing businesses to stay closed is that reopening with a "vaccine passport" would risk a rise in cases of COVID, yet Texas has reopened totally, schools in session and their infection rate has not risen because of the reopening, without the "Mark" of the beast aka the "vaccine" passport.

The COVID cases in Texas have actually declined. That decline has the so-called scientists that predicted a new "surge" in cases if Texas reopened, scratching their heads in bewilderment.

Back to the battle raging between those that favor the "Mark" of the Beast aka Democrats and those battling against the vaccination passports aka Republicans.

States run by liberals are planning some form of vaccine passport, while states run by conservatives are setting governmental functions to prevent their constituents from being forced to obtain a vaccine passport. This too will come to a crisis point.

New York's Excelsior Pass, created in partnership with IBM, allows people to show if they have been vaccinated before attending events where proof is required.

Connecticut Gov. Ned Lamont (D) on Monday signaled his state may launch a similar pass in the coming months.

*"I think it's a little premature, only in that not everyone has the vaccine available to them yet. But I like to think within a month or two when broadly available, I think you will see some type of vaccine passport or validation ... probably led by the private sector,"* Lamont said at a press briefing.

DeSantis vowed on Monday to take executive action this week to ban the passes.

*"It's completely unacceptable for either the government or the private sector to impose upon you the requirement that you show proof of vaccine to just simply participate in normal society,"* he said at a press conference.

South Dakota Gov. Kristi Noem (R) slammed the Biden administration for *"one of the most un-American ideas in our nation's history,"* even though the administration has yet to provide any guidance on the matter.

"The @joebiden #CovidPassport proposal is one of the most un-American ideas in our nation's history. We as Americans should oppose this oppression," Noem tweeted Monday night.

Congressional Republicans have also joined the chorus of criticism.

Rep. Lauren Boebert (R-Colo.) tweeted that *"Vaccine Passports are unconstitutional,"* while Rep. Jim Jordan (R-Ohio) used it as a chance to ramp up criticism of President Biden's immigration policy.

In a related piece: The Mark? California Issuing Digital Papers for Vaccination Verification Program.

A comment on that piece over at 'The Hill' stated: *"This is a giant step to the mark of the beast. You must take the mark to buy or sell. We are now fulfilling prophecy marking signs of the end of time. The Bible has said this will happen, and now we see it in real time."*

Conservatives by and large have made it clear that this will not just be used sparingly during the pandemic (a joke description), but that everyday purchases from stores, grocers, and other retailers would soon require the "Mark" (passport) in order to do any business at all.

Even RINOs (Republicans In Name Only) such as Justin Amash, are pushing back against the media propaganda regarding these passports, stating *"Let's get the terms clear: A 'vaccine passport' is not 'what we already do.' It's not proof of vaccination for international travel or schooling. It's proof of vaccination for everyday living—groceries, restaurants, movies. It's disingenuous to conflate the former with the latter."*

Conservative congresswoman Marjorie Taylor Greene has made it very clear that this is no less than "*Biden's Mark of the beast*" the Bible warned of.

It is no surprise that the party of baby killing (abortion) and anti-religion are the ones pushing for the "Mark" of the Beast" to be forced on Americans, while the party that fights for religious freedom, is screaming warnings from the rooftops

There is no other way when reading the Biblical verses referring to the "Mark" of the Beast to not see these controversial "vaccine passports" as anything other than the "Mark" we were all warned of.

The most disturbing part of this whole issue is that they are not even trying to hide the fact that they want to force the "Mark" on people anymore. In their arrogance and claims they know that another voice directs the show from a different country, even a different kingdom.

As one of those who talked about their "gene therapy", Tal Zaks, referred to it in the language of a computer programmer. *"It's like writing a new line of code."* What any computer programmer will tell you, that when you change a single line of code, its outcome can be unpredictable. I was a computer programmer, and for those that do not know this, I was one of a team of a dozen programmers who computerized the King James Bible in 1963-1964. Changing a line of code often erupted into problems elsewhere in your program, sometimes in many places. It took a dozen of us almost ten months to make the King James Bible searchable by computer.

Here is a picture of two of the earliest victims of the Moderna shots.

Moderna's Covid-19 vaccination, which the Food & Drug Administration (FDA) approved on 18 December, may cause recipients to experience an extremely rare but potentially

lethal side effect—Monsterism, a degenerative disease that ravages a victim with physical and mental deformities.

A Moderna whistleblower speaking under condition of anonymity for fear of retaliation said 3 of the 30,000 trial candidates began showing symptoms of the horrible disease shortly after receiving the second dose of the two-part vaccination. Since half of all volunteers were given a placebo, the true number of afflicted was 3 in 15,000, or 0.02%, and while that figure might seem statistically insignificant, it is critical because, our source said, Moderna concealed the unintended side effect from both the FDA and the volunteers who had not yet received the second inoculation. The U.S. government sponsored Moderna's vaccine to the tune of one billion dollars of taxpayer money.

The first symptomatic victim telephoned Moderna two days following the vaccination. He complained of headaches, nausea, unusual body hair growth, and upper abdominal post-prandial extensions; a Moderna representative assured him the symptoms were "*normal and nothing to worry about,*" but instructed him to seek medical attention at a local emergency room if symptoms persisted into the next morning.

"The patient—I'll call him James—rushed to the ER the next morning. He was screwed in using a slang expression. His head had grown three times its normal size, and his face was covered in warts that oozed a gelatinous, green puss. On top of that, every tooth in his mouth literally exploded. He was rushed to a COVID-19 isolation ward, where over the next several hours he grew fur from head to toe. He looked like Chewbacca," our source said.

French Billionaire and Moderna CEO Stephan Bancel refused to believe his company's vaccination was responsible for James's "sudden transformation," and allegedly told clinicians that medical screening must have missed an underlying condition. He decided at once to strike any mention of the incident from public record and cautioned employees against violating signed non-disclosure and non-disparagement agreements. Bancel "donated" an undisclosed sum of money to several hospital administrators in exchange for their silence, promising that James's case would be an isolated incident.

But two weeks later it happened again. A thirty-two-year-old woman checked herself into a local ER after coming down with a case of the fits after getting her second injection. While under observation, the female patient grew tufts of hair on her back and boils on her face, and days later her cranium doubled in size, leading physicians to believe she had contracted a rare tropical disease.

"When her fingernails fell out and she grew talons, the staff knew they had a serious problem," our source said. "*The woman got violent. She could no longer speak, not as we understand speech, and began clawing at hospital staff. They restrained her, but not before a nurse was grievously wounded. The woman was flown to the same place as the first victim. I believe they've expired, though I'm not certain.*"

Moderna's upper echelons, he added, concluded that a potential side effect of the vaccine is biological regression, or "Monsterism," an irreversible process by which a homoiousia devolves into a Cro-Magnon or Neanderthal. The 28-billion-dollar pharmaceutical conglomerate has buried evidence of Monsterism to prevent its stock—which has quadrupled in value during the pandemic—from tanking. The phony fact-checkers are still trying to bury this story. Attempting to bury the truth through non-disclosure agreements will eventually leak out but the damage has been done!

Do not doubt this point, the book of Revelation discusses this "Mark" of the Beast in a broad sense, containing many pieces of the puzzle. These many pieces in and of themselves were masked in such a way as to confuse Bible skeptics and naysayers. Since translators of the Bible into English eight centuries ago had to rely on the original Greek manuscript, Their complete understanding and ability was rested upon their Biblical language training of their own day, not of what we understand today. In simple terms, they could not foresee their translation in ways we do today. We are provided all the essential points to confirm what even the secular press can conclude with accuracy. Few scholars today have the proficiency of those earliest translators. They were trained in the classical languages of Greek, Hebrew, and Latin from their early days in primary school through to their days in the university. We do not have that level of scholarship today, and not since the early 1950s to be sure. Biblical languages were dropped from seminary required studies and what is taught today by the dozen seminaries that require any of the Biblical languages is akin to dipping your feet into the water of a swimming pool.

I dealt with this in a recent article refuting the scoffers. The so-called vaccine is the "Mark" of the Beast System. I dealt with the Bill Gates QuantumDot/Hydrogel ID2020 in greater detail in parts/chapters 12-14, of **"666/999 – 666, 5G, and the UPC Code"** I wrote those three chapters to my updated eBook on the "Mark" of the Beast System. I recall noting that they [Gates-financed researchers] have found the location in the brain for one's faith in God, and there is a cell phone video of Bill Gates explaining that to CIA agents in a CIA classroom. Celeste Solum talked and used the term "the God gene", that removes a person's memory of God! Without a doubt, Satan's Reprobate Child has this in mind for Christians who take the shot "Mark" of the Beast. Yesterday, German scientists reported that they are able to remove and change memory as what Bill Gates proposed to his CIA class.

Few of you have any idea of the diabolical nature of what is happening to the world. As people are focused on when they will get their Stimulus check they are losing their freedoms and their own identities. I wrote the last chapters on the "Mark" back in July and August, 2020. They are located on pages 17 and 18 of my web page: [www.pastorbobreid.com](http://www.pastorbobreid.com). I write an article virtually every day, the page location changes as new articles appear on the first page when you go to my web page.

The "gene therapy" being promoted as a vaccine is much more than changing a line of computer code. What is inserted in the shot will change your DNA, by replicating it throughout your genome. Bill Gates is on video stating they can remove your memory

of God. Since he contracts with the CIA for other classified work, I have no reason to doubt what he said in his presentation. It makes perfect sense for Lucifer's agents to remove people's memory or knowledge of God, Jesus Christ, etc. This is a war for your soul.

From my in depth analysis of the "Mark" of Revelation 13:17, there is nuanced meanings which fully support the idea, when you take the shots, and two will not be sufficient to trick your God-given immunity into thinking the injections are "natural". Very sophisticated tactics from the one who came to steal, kill, and to destroy! ***"The thief cometh not, but for to steal, and to kill, and to destroy: I am come that they might have life, and that they might have it more abundantly."*** -(John 10:10).

Once you receive the Pfizer, the Modern, AstraZeneca, or the Johnson & Johnson shots, you will, and quoting Tal Zak's own words, *"like inserting a new line of computer code"*. That is an understatement from the head of Pfizer that I wrestle with how to compare its implications. You are getting a third-strand DNA upgrade inserted into your Genome, and since it is "experimental", Pfizer's own words, you are likely to lose in this gamble. I do not know anyone who has devoted as much time to this topic of the book of Revelation as I have since the fall of 2019 when the Coronavirus bioweapon was hatched. I have compiled a half-century of my work documenting the history on the "Mark" of the Beast back to the early Babylonian civilization. My eBook on the infamous "666" is as amazing and yet as simple as it's upside down counterpart "999". All that information is available to you at no cost. You can thank me on the other side.

The full mystery is revealed in the fact our DNA is a "digital" Bar Code. TO TAKE ANY SHOT FOR THIS ALLEGED VIRUS IS IN SIMPLE TERMS, IS TO TAKE THE "MARK" OF THE BEAST SYSTEM.

This is a difficult truth to share but I have researched and read enough to know what it will do to those who accept it. Just know the people behind the "Gene" therapy repeat their mantra of "booster" shots will be required.

Pray that God will intervene before the impact of the vaccines multiplies. Dr. Sherri Tenpenny and at least a dozen medical experts are saying that this experiment will result in the deaths of millions from 3 to 15 months from one's receiving their shots.

Blessings,
